MEMORANDUM FOR FEDERAL CATALOGING COMMITTEE (FCC) MEMBERS

SUBJECT: Administrative Approved Cataloging Data Change (ACDC) 0001, Addition of United States Marine Corps (USMC) Secondary Inventory Control Activity (SICA) Major Organizational Entity (MOE) Rule for United States Air Force (USAF) as Primary Inventory Control Activity (PICA).

We are forwarding the attached approved administrative change to Cataloging Data and Transaction Standards, Volume 13 for implementation immediately. The identified changes are already implemented in the affected systems. The Enterprise Business Standards Office will post the updated Volume 13 upon completion of the next change cycle.

Addressees may direct questions to the Cataloging Data Standards (CDS) Team at EBSO.CDS@dla.mil.

3 REQUESTED CHANGE

3.1 BRIEF OVERVIEW OF CHANGE

This Administrative Approved Cataloging Data Change (ACDC) documents the addition of 20 new Major Organizational Entity (MOE) Rules as requested by the USMC, in which USMC acts as the Secondary Inventory Control Activity (SICA) and the U.S. Air Force (USAF) as the Primary Inventory Control Activity (PICA). The additional MOE Rules are already implemented in FLIS and the Service systems.

3.2 REQUESTED CHANGE IN DETAIL

Per Cataloging Data and Transaction Standards, Volume 13, Chapter 6, "The MOE Rule Table, Appendix 13-6-B, reflects management responsibilities within participating Military Services, Civil Agencies, and NATO and other foreign countries. The information included in the MOE Rules is a combination of Department of Defense (DoD) and Service/Agency cataloging/supply management assignments which are made on the basis of organizational responsibilities." Appendix 13-6-C conveys the same information, but lists the MOE Rules sequentially by Activity Code versus MOE Rule.

The USMC requests the addition of 20 new MOE Rules in which they are the SICA and the USAF is listed as the PICA.

The PICA and SICA MOE Rules drive business rules for what a user can and cannot do on a National Stock Number (NSN). With this addition, the USAF can support the USMC as a user on NSNs where the USMC SICA MOE Rule is present. This support includes but may not be limited to providing assets from stock and specific means and/or location for the repair of items.

This change is administrative in nature as it has already been implemented within the FLIS DB2 Tables; the documentation in Cataloging Data and Transaction Standards, Volume 13, Appendix 13-6-B and C must be updated to reflect the change.

3.3 REASON FOR CHANGE

In accordance with FLIS Technical Procedure, Volume 6, Section 6.3.11, the USMC must be recorded as a SICA User in order to be supported by USAF. If the rules are not established, the system will reject

transactions with the new MOE Rules if they are not loaded. Subsequently, USMC would not be able to order, repair, or turn-in stock from/to USAF without being recognized as an authorized SICA user.

3.4 REVISIONS TO CATALOGING DATA AND TRANSACTION STANDARDS

3.4.1 Volume 13, Appendix 13-6-B: This change requires an update to the information in Cataloging Data and Transaction Standards, Volume 13, Appendix 13-6-B and 13-6-C. Upon review, the Cataloging Data Standards Team found that the changes have already been documented in Appendix 13-6-B, but will require some minor changes, identified in the Enclosure.

3.4.2 Volume 13, Appendix 13-6-C: In order to prevent data duplication and reduce the risk of clerical error, Appendix 13-6-C will be removed in its entirety as it conveys the same information as 13-6-B, but sorted by Activity Code versus MOE Rule. A file allowing users to review, filter, and sort the MOE Rule data however they deem fit will be made available on the Enterprise Business Standards Office website for future use.
