## 3 REQUESTED CHANGE

---

### 3.1 BRIEF OVERVIEW OF CHANGE

This Approved Cataloging Data Change documents the addition of Army Materiel Category Codes U7, U8, C1, and J6 to Cataloging Data and Transaction Standards, Volume 10, Table 65, Army Materiel Category Codes, Position 4 and 5, as requested by US Army.

### 3.2 REQUESTED CHANGE IN DETAIL

Found within Cataloging Data and Transaction Standards, Volume 10, Table 65, the Army Materiel Category Code is a five-position alphanumeric code that indicates the financial category of an item for Army accountability. Position 4 of the Army Materiel Category Code signifies special or specific groups of items on a generic basis. In conjunction with Position 4, Position 5 identifies a specific weapon system/end item or homogenous group of items.

US Army requested the addition of the Position 4 and 5 combinations U7, U8, C1, and J6 with corresponding weapon system descriptions to Cataloging Data and Transaction Standards, Volume 10, Table 65.

The following corresponding additions to DB2 Table 172 have already been implemented.

AR_MCC_SG_CD1_2167	AR_MCC_SG_TX1_2168
U7	COMMON ROBOTIC SYSTEM - HEAVY (CRS-H)
U8	COMMON ROBOTIC SYSTEM - INDIVIDUAL (CRS-I)
C1	AVIATION MISSION PLANNING
J6	ABRAMS SEP FAMILY OF VEHICLES

No changes are required to Volume 11 as the edit criteria cites Tables 65 and 121 overall instead of actual codes of each table and subsequent edit requirements. No changes are required to Table 121.

### **3.3 REASON FOR CHANGE**

This change allows US Army to identify and support new specialty programs.

### **3.4 REVISIONS TO CATALOGING DATA AND TRANSACTION STANDARDS**

The new Position 4 and 5 codes and corresponding weapon system descriptions will be added to Volume 10, Table 65, Position 4 and 5 section. See enclosure for detailed changes to Table 65.
