MEMORANDUM FOR FEDERAL CATALOGING COMMITTEE (FCC) MEMBERS

SUBJECT: Administrative Approved Cataloging Data Change (ACDC) 0015, Annual Service Updates to Volume 10, Table 117 by US Navy, US Air Force, and US Army

We are forwarding the attached approved administrative change to Cataloging Data and Transaction Standards (CDTS), Volume 10, Table 117, Depot Source of Repair (DSOR) Code to Maintenance Activity Cross Reference, for implementation. **Target timeline for Federal Logistics Information System (FLIS) updates is expected to be completed by June 22, 2019.** EBSO will post the updated CDTS, Volumes 10 upon completion of the next change cycle.

Addressees may direct questions to the Cataloging Data Standards (CDS) Team at EBSO.CDS@dla.mil.

HEIDI M. DAVEREDE
Director
Enterprise Business Standards Office

Attachment to Administrative ACDC 0015

Annual Service Updates to Volume 10, Table 117

1 ADMINISTRATIVE INFORMATION

1.1 ORIGINATING SERVICE/AGENCY:

Naval Air Systems Command (NAVAIR), Patuxent River, MD

Air Force Material Command Directorate of Logistics, Civil Engineering, Force Protection and Nuclear Integration, Wright-Patterson AFB, OH.

Army Material Command, Redstone Arsenal, AL

1.2 POINT OF CONTACT:

US Navy:

Ms. Darlene Johnson, Industrial Business Operations (6.1.3), Darlene.Johnson@navy.mil, 301-995-1824

US Air Force:

Mr. Guy Ragan, HQ AFMC/A4FD, Guy.Ragan.2@us.af.mil, 937-904-0105

US Army:

Mr. Robert Dittmann, Army Maintenance Interservice Support Management Office (MISMO),
R.L.Dittmann.civ@mail.mil, 256-450-6603

1.3 EXPEDITED HANDLING REQUIRED: YES

1.4 ADMINISTRATIVE CDC ELIGIBLE CODE TABLE CHANGES: V10, TBL 117

2 IMPACT

2.1 TARGET SYSTEM IMPLEMENTATION DATE

- This is an administrative change due to Service ownership of the codes in Volume 10, Table 117.
- The change affects the Federal Logistics Information System (FLIS); the target implementation date is **June 22, 2019**.

2.2 AFFECTED PUBLICATIONS AND/OR TRANSACTIONS

<input checked="" type="checkbox"/>	Publications/Transaction	Correlating Volume
	Document Identifier Codes (Input/Output Fixed Length)	Volume 8
	Document Identifier Codes (Input/Output Variable Length)	Volume 9
X	Cataloging Data Element or Dictionary	Volume 10
	Federal Logistics Information System (FLIS) Edits and Validations	Volume 11

<input checked="" type="checkbox"/>	Publications/Transaction	Correlating Volume
	Standard Federal Supply Class (FSC) Data	Volume 12
	Major Organizational Entity (MOE) Rule Data	Volume 13
	Cataloging Transaction	N/A
	General Cataloging Data Standard	N/A

2.3 AFFECTED SYSTEMS

<input checked="" type="checkbox"/>	System Requiring Change
	Characteristics / Taxonomy
	eCAT
X	FLIS
	FLIS Portfolio Workbench (FPW)
	Provisioning Module
X	WebFLIS
X	Other (Service/Agency Systems)

2.4 AFFECTED DB2 TABLES

833 DSOR_ACTY_CD_XREF (corresponds to CDTs, Volume 10, Table 117, Part 1)

3 REQUESTED CHANGE

3.1 BRIEF OVERVIEW OF CHANGE

This administrative change documents updates and additions to Cataloging Data and Transaction Standards (CDTS), Volume 10, Table 117, Depot Source of Repair (DSOR) Code to Maintenance Activity Cross Reference, and associated FLIS DB2 Tables, resulting from annual Service updates. The US Navy, US Air Force, and US Army Services Maintenance Interservice Support Management Offices (MISMOs) coordinated and approved the documented changes in accordance with DSOR processes outlined in Service-level policies and procedures.

This administrative change also approves a correction of DSOR Code AU in Volume 10, Table 117 to harmonize the entry with the corresponding FLIS DB2 table, as well as an update to language in Table 117, Part 1 to update referenced policy.

3.2 REQUESTED CHANGE IN DETAIL

3.2.1 Background

CDTS, Volume 10, Table 117 encompasses two parts relating to Depot Source of Repair (DSOR) Codes. Part 1 identifies the activities with approval to perform depot level maintenance for the Services. The Services' Maintenance Interservice Support Management Offices (MISMOs) develop and manage DSOR codes and their use.

Part 2 identifies the service MISMOs. Any recommended additions, changes (including organizational name) or deletions to the DSOR codes must be submitted to the affected Service MISMOs for approval.

3.2.2 US Navy Updates

The US Navy MISMO approves the addition of **DSOR Code SO** for **Fleet Readiness Center, Aviation Support Equipment (FRC ASE), Solomons, MD** to CDTS, Volume 10, Table 117, Part 1.

FRC ASE is recognized across Naval Air Systems Command (NAVAIR) as a leader in depot level repair of avionics support equipment (SE), and SE components, including Fleet ground support equipment (GSE), test and repair machinery, fixtures, and tooling. FRC ASE works closely with organizational level squadrons, support equipment controlling authorities, and Fleet Readiness Centers worldwide. Additionally, FRC ASE provides readiness to the Fleet by supporting all platforms, aviation type/model/series aircraft, engines, and components across all of the Navy Program Offices. The organization provides direct support to Naval Aviation Programs through its Aviation Support Equipment depot level workload.

The RQ-21 Blackjack Program, also known as PMA-263 RQ-21A Unmanned Aviation Systems, requires immediate support at FRC ASE. Due to support performance issues, the Program must transition from Original Equipment Manufacturer (OEM) commercial support to organic support. As a result, this change requires expeditious handling and implementation.

3.2.3 US Air Force Updates

The US Air Force MISMO approves the addition of **DSOR Code FG** for **Air Force Gunsmith Shop (GSS), Joint Base San Antonio (JBSA), Medina Annex, TX (AFGSS-JBSA)** to CDTS, Volume 10, Table 117, Part 1.

This change adds Air Force GSS to Table 117, enabling its operation as a non-standard depot/overhaul/repair/modification facility specializing in the overhaul and repair of Small Arms (.50 caliber and below) and Light Weapons (SA/LW). The GSS provides weapons sustainment and technical solutions for ground fired small arms and supports the US Air Force through rapid response. Expedited handling of this change is required.

The US Air Force MISMO further approves updates to four existing entries. The previous annual update to Table 117 did not include the mission activities' names in their entirety.

The following shows the full names as they will appear in Table 117:

FC	571st Software Maintenance Group (SMXG), Peterson AFB, CO
FI	520th Software Maintenance Group (SMXG), Patrick AFB, FL
FP	526th Equipment Maintenance Group (EMXG), Support Center Pacific (SCP), Kadena AB, Japan
FV	583rd Missile Maintenance Group (MMXG), Vandenberg AFB, CA

3.2.4 US Army Updates

The US Army MISMO approves the deletion of **DSOR Code FV** for **Fort Lee, (CECOM, SEC), Virginia, VA** from CDTS, Volume 10, Table 117, Part 1, and approves the addition of **DSOR Code VA** for **Fort Lee, (CECOM, SEC), Virginia, VA**.

Changing the DSOR code for maintenance activity Fort Lee, (CECOM, SEC), Virginia, VA from FV to VA is necessary due to a duplication of DSOR Code FV in Table 117. The second DSOR Code FV, is already assigned to US Air Force Maintenance Activity Vandenberg AFB, California, CA.

The US Army MISMO further approves an update to the maintenance activity name for **DSOR Code RT** to read **US Army Combat Capabilities Development Command (CCDC) Armaments Center, Redstone Arsenal, AL Sierra**. The update comes as a result of a US Army reorganization effort.

3.2.5 FLIS DB2 Table Harmonization

A comparison between Volume 10, Table 117 and the corresponding FLIS DB2 Table 833 showed a discrepancy in the entries of both tables for DSOR Code AU. This change approves updating the Service category for **DSOR Code AU** to **Other**.

3.2.6 Update Referenced Policy and Procedures

The information for Table 117, Part 1 references Joint Service Regulation, AMC-R 750-10, OPNAVINST 4790.14B, MCO P4790.10B, DLAD 4151.16 for DSOR assignment procedures. This Joint Publication is cancelled and requires updating the reference in Table 117, Part 1. Since the cancellation, the DSOR process is implemented in accordance with Service-level policies and procedures. Applicable Service regulations/instructions include:

US Army:

- AR 700-127 "Integrated Product Support" 7 Oct 2014

US Air Force:

- AFI 63-101/20-101, "Integrated Life Cycle Management", 16 September 2016
- AFI 21-102, "Depot Maintenance Management", 18 July 2012
- AFMCI 21-101, "Depot Maintenance Activation Planning", 14 June 2012
- AFMCI 21-156, "Operational Workloading, Planning, and Scheduling Control", 25 August 2004

US Navy:

- OPNAVINST 4790.14B, "Joint Depot Maintenance Program", 14 Feb 2013

Marine Corps:

- MCO 4790.21, "Depot Level Source of Repair (DLSOR) Policy", 19 May 2005, as supplemented by CMC WASHINGTON DC L LP(UC) message 251917Z Sep 13

3.3 REASON FOR CHANGE

3.3.1 US Navy

This change adds DSOR Code SO for Fleet Readiness Center, Aviation Support Equipment (FRC ASE) to Table 117 in anticipation of future depot level repair requirements and workload generated by PMA-263 RQ-21A Unmanned Aviation Systems.

3.3.2 US Air Force

This change adds DSOR Code FG for Air Force Gunsmith Shop (GSS), Joint Base San Antonio (JBSA), Medina Annex, TX (AFGSS-JBSA) to Table 117 in anticipation of future depot level repair requirements and workload generated by the US Air Force. The workload requires repair at an organic activity for rapid response.

The updates to the four existing entries to show the full names of the respective maintenance activities were not added during the previous annual Service update.

3.3.3 US Army

Changing DSCOR Code FV for Fort Lee, (CECOM, SEC), Virginia, VA to VA is necessary to eliminate the duplication of code FV in Table 117.

The update of the maintenance activity name for DSOR Code RT is required due to a US Army reorganization effort which resulted in organization name changes.

3.3.4 FLIS DB2 Table Harmonization

Changing the Service category for DSOR Code AU to 'Other' is necessary to correctly reflect the appropriate Service category in Volume 10, Table 117.

3.3.5 Update Referenced Policy and Procedures

This change updates language in Table 117, Part 1 due to the cancellation of Joint Service Regulation, AMC-R 750-10, OPNAVINST 4790.14B, MCO P4790.10B, DLAD 4151.16.

3.4 REVISIONS TO CATALOGING DATA AND TRANSACTION STANDARDS

- Changes to CDTS, Volume 10, Table 117 are identified in Enclosure 1.
- Changes to the corresponding FLIS DB2 Table are identified in Enclosure 2.

ENCLOSURES 1

REVISIONS TO CATALOGING DATA AND TRANSACTION STANDARDS, VOLUME 10, TABLE 117

Changes are identified by ***bold red italic*** and double strikethrough text.

TABLE 117
DEPOT SOURCE OF REPAIR (DSOR) CODE TO MAINTENANCE ACTIVITY CROSS REFERENCE

PART 1

This part of Table 117 identifies those activities that are approved to perform depot level maintenance for the Services. The DSOR for a particular item is assigned as specified in ***applicable Service-level policies and procedures*** ~~Joint Service Regulation, AMC R 750-10, OPNAVINST 4790.14B, MCO P4790.10B, DLAD 4151.16~~. The Services Maintenance Interservice Support Management Offices (MISMO) develop and manage DSOR codes and their use. Recommended additions, changes (including organizational name) or deletions to the DSOR codes identified shall be submitted to the affected Service MISMOs as listed in Part 2 of this table. All changes to Table 117 must be approved by the Service MISMOs.
