2.4 AFFECTED SYSTEMS

This change impacts the Federal Logistics Information System (FLIS) and Service Systems for US Navy, US Air Force, and US Marine Corps.

3 REQUESTED CHANGE

3.1 BRIEF OVERVIEW OF CHANGE

This administrative change documents updates to Cataloging Data and Transaction Standards (CDTS), Volume 10, Table 117, Depot Source of Repair (DSOR) Code to Maintenance Activity Cross Reference, and associated FLIS DB2 Tables, resulting from annual Service updates.

The US Navy, US Air Force, and US Marine Corps Services Maintenance Interservice Support Management Offices (MISMOs) coordinated and approved the documented changes in accordance with DSOR processes outlined in Service-level policies and procedures.

3.2 REASON FOR CHANGE

3.2.1 Background

CDTS, Volume 10, Table 117 encompasses two parts relating to Depot Source of Repair (DSOR) Codes:

- Part 1 identifies the activities with approval to perform depot level maintenance for the Services. The Services' Maintenance Interservice Support Management Offices (MISMOs) develop and manage DSOR codes and their use.
- Part 2 identifies the service MISMOs. Any recommended additions, changes (including organizational name) or deletions to the DSOR codes must be submitted to the affected Service MISMOs for approval.

This change includes updates to both Parts. See Enclosure 1 for all updates.

3.2.2 US Navy Updates

The US Navy MISMO approves a name change from Naval Space Warfare Center (SPAWAR) to Naval Information Warfare Centers (NIWC) NAVWAR for Maintenance Activities CH, EP, and HS. These changes will appear in Part one of Table 117:

CH Naval Information Warfare Center (NIWC) Atlantic, Charleston, SC
EP Naval Information Warfare Center (NIWC) Atlantic, Portsmouth, VA
HS Naval Information Warfare Center (NIWC), Pacific, San Diego, CA

NICW provides the U.S. Navy and military with essential capabilities in the areas of command and control, communications, computers, intelligence, surveillance, and reconnaissance (C4ISR), cyber, and space.

Part 2 requires an update, specifically to the US Navy MISMO Address:

Patuxent River MD 20670-1628 Commander Naval Air Systems Command
Commander Fleet Readiness Center (COMFRC)
47013 Hinkle Circle Bldg# 416, Room 100B
Patuxent River MD 20670-1628

3.2.3 US Air Force Updates

The US Air Force MISMO approves the correction in "OTHER Section." The entry for Code NM will update to reflect:

North Atlantic Treaty Organization (NATO), Support and Procurement Agency (NSPA), Luxembourg City, Luxembourg

The NSPA is the executive body of the NATO Support and Procurement Organization (NSPO), of which all 29 NATO nations are members. Those nations are represented in the NSPO Agency Supervisory Board (ASB) which directs and controls the activities of the NSPA.

3.2.4 US Marine Corps Updates

The US Marine Corps MISMO approves "MISMO address" list in Part 2. The previous entry for the secondary address appear as follows:

Maintenance Management Center ATTN: Director MMC WLD
814 Radford Blvd STE 20230
Albany, GA 31704-0230

**TABLE 117
 DEPOT SOURCE OF REPAIR (DSOR) CODE TO MAINTENANCE ACTIVITY CROSS REFERENCE**

PART 1

This part of Table 117 identifies those activities that are approved to perform depot level maintenance for the Services. The DSOR for a particular item is assigned as specified in applicable Service-level policies and procedures. The Services Maintenance Interservice Support Management Offices (MISMO) develop and manage DSOR codes and their use. Recommended additions, changes (including organizational name) or deletions to the DSOR codes identified shall be submitted to the affected Service MISMOs as listed in Part 2 of this table. All changes to Table 117 must be approved by the Service MISMOs.
