3 REQUESTED CHANGE

3.1 BRIEF OVERVIEW OF CHANGE

This change documents the addition of Army Materiel Category (MATCAT) Code 'H0', with a definition of 'M326 MSK', to Cataloging Data and Transaction Standards (CDTS), Volume 10, Table 65, Army Materiel Category Codes, Position 4 and 5 as requested by US Army.

3.2 REASON FOR CHANGE

The Army Materiel Category Code is a five-position alphanumeric code that indicates the financial category of an item for US Army accountability. Position 4 of the Army Materiel Category Code signifies special or specific groups of items on a generic basis. In conjunction with Position 4, Position 5 identifies a specific weapon system/end item or homogenous group of items.

Establishing new codes enables the US Army to clearly distinguish between weapon systems.

The M326 MSK (LIN H39473, NSN 2590-01-551-7979) currently has the same weapon system code (WSC) 'HR' as the 120mm Mortar System. The item is Class 7 and requires its own WSC.

3.3 REVISIONS TO CATALOGING DATA AND TRANSACTION STANDARDS

See Enclosure 1 for changes to Cataloging Data and Transaction Standards, Volume 10, Table 65.
