## PQDR

Date: April 30, 2025

### I. PURPOSE

The Defense Enterprise Data Standards Office (DEDSO) received formal concurrence from the Deputy Assistant Secretary of Defense for Logistics ODASD(Log) on Approved Defense Logistics Management Standards (DLMS) Change (ADC) 1443 Product Quality Deficiency Report (PQDR) Policy Migration. ADC 1443 was signed on 27 January 2023. This ADC serves to inform the Department of Defense (DoD) Components that the Defense Logistics Manual (DLM) 4000.25, Volume 2, Chapter 24, is replacing Joint Service Regulation Defense Logistics Agency Regulation 4155.24/AR 702-7/SECNAVINST 4855.21/AFI 21-115/DCMA INST 1102 as the DoD authoritative source for PQDR-related guidance.

### III. AGENDA ITEMS

#### a. Proposed DLMS Change (PDC) 1443C PQDR Policy Migration:

Ben Breen, PQDR Administrator, extended the PDC 1443C review period until 14 May 2025 to allow for continued comments. He acknowledged receipt of inputs from U.S. Army, U.S. Navy, and DLA and requested additional DoD Component comments on the working draft be submitted only by primary or alternates.

Ben inquired about the status of a previous DCMA request for assistance in identifying points of contact to update their inspection system assessments checklist. Chris Ford, DCMA, responded that the data call was still being worked and would be sent for coordination in the next few days. Ben offered to staff it out and add as an agenda item once the intent was made clear.

#### b. Save-the-Date: To be determined.
