Order Status Inquiry 869 Functional Group=**RS**

Purpose: This Draft Standard for Trial Use contains the format and establishes the data contents of the Order Status Inquiry Transaction Set (869) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to request all pertinent information relative to an entire purchase order, selected line items on a purchase order, or selected products/services on a purchase order. Inquiry can also be made for all or a selected portion of the customer's ordered items, all or a selected portion of the customer's unshipped items, or all or a selected portion of the customer's shipped items.

DLMS Note:

1. Organizations use this transaction set to request cancellation of previously submitted requisitions, regardless of current transaction status. Authorized organizations use this transaction to request mass or universal cancellation of requisitions. Sources of supply use this transaction to follow-up on the action taken in response to a request for mass or universal cancellation.

2. Users operating under the Defense Logistics Management Standards (DLMS) must reference the Unit of Issue and Purchase Unit Conversion Table which can be found on the DLMS Program Office Web site at www.dla.mil/j-6/dlmso.

3. This DLMS Implementation Convention contains:

a. Data associated with a DLMS enhancement which may not be received or understood by the recipient's automated processing system. DLMS procedures may not have been developed. Components must coordinate requirements and business rules with DLMS Program Office prior to use.

b. Data associated with an Approved Change which may not have an established implementation date. This data may not be received or understood by the recipient's automated processing system. Components must coordinate implementation with DLMS Program Office prior to use.

c. Legacy MILSTRIP data which must be retained in the DLMS for a transition period to support transaction conversion in a mixed legacy MILSTRIP/DLMS environment. This data will be streamlined out once full DLMS implementation is reached. Components may coordinate with DLMS Program Office for early termination (or retention) of specific data requirements for users operating in a full DLMS environment.

d. Data elements which have an expanded field size above existing legacy MILSTRIP capability which may not be supported by the recipient's automated processing system. Components must coordinate implementation with DLMS Program Office prior to use.

e. Data associated with a DLMS enhancement authorized for implementation by modernized systems under DLMS migration. This data (including expanded field sizes) should be adopted during, or subsequent to modernization when applicable to the Component's business process. Prior coordination is not required. Components should ensure that inclusion of this data in a DLMS transaction does not cause inappropriate rejection of the transaction.

4. This revision to the DLMS IC incorporates Proposed DLMS Change (PDC) and Approved DLMS Change (ADC) listed. PDC/ADCs are available from the DLMS Program Office Web site: http://www.dla.mil/j-6/dlmso/elibrary/Changes/processchanges.asp

- ADC 59, Customer Identification on Automated Exception Reguisitions

- ADC 243, Identification of Army Single Stock Fund (SSF) Requisitioning Actions and Edit Action Code (EAC) Authorization

- ADC 263, Inclusion of Unit Price in Requisition Modification and Cancellation

- ADC 265, USAF Reason for Requisition Cancellation (Excess Cause) Code (Supply/MILSTRIP)

- ADC 285, Administrative Revision to MILSTRIP and DLMS Supplement 869C, Requisition Cancellation, for Inclusion of Missing Passing Activity Identification

- ADC 286B, Administrative Update for MILS/DLMS Conversion for MILSTRIP ACP/ACM Cancellation Formats

- ADC 377, Transaction Copies Required for DLA Support of Navy BRAC SS&D/IMSP DLRs, Navy Program-Managed Materiel, and Nuclear Consumable Support Materiel

- ADC 381, Procedures and Additional Data Content supporting Requisitions, Requisition Alerts, and Unit of Use Requirements under Navy BRAC SS&D/IMSP

- ADC 435, DLMS Revisions for SFIS Compliance

- ADC 436, Administrative Revisions to DLMS Supplements to Remove Obsolete Routing Identifier Code (RIC) "Streamline" Notes and Update MILSTRIP/DLMS Documentation Associated with Routing Identifiers

- ADC 460, Revises DS 869C Requisition Cancellation, and associated Procedures in Support of Reutilization Business Integration (RBI)

- ADC 466, Revised Procedures to Support Requisitioning and Transaction Exchange associated with DLA Disposition Services under Reutilization Business Integration (RBI)

- ADC 1014, Revised Procedures for Inclusion of Contract Data in Transactions Associated with Government Furnished Property (GFP) and Management Control Activity (MCA) Validation of Contractor Furnished Materiel (CFM) Reguisitions

 ADC 1014A, Revised Procedures for Inclusion of GFP/CFM Contract Data in DLMS Transactions
– Updated Mapping for Concurrent Identification of the Manufacturing Directive Number (MDN) and the Contract Line Item Number (CLIN)

- ADC 1043, DLMS Revisions for Department of Defense (DOD) Standard Line of Accounting (SLOA)/Accounting Classification - ADC 1043C, Administrative Corrections for SLOA Data in the 810L Logistics Bill and other DLMS ICs

- ADC 1068, Enhanced Procedures for Requisitioning via DOD EMALL and GSA Internet Ordering: Component Verification of Funds Availability and Materiel Identification using the Supplier-Assigned Part Number and/or Supplier Commercial and Government Entity (CAGE) Code

- Organizational Name and Other Non-Substantive (Administrative) Updates Completed on January 13, 2015

- ADC 1132, Implementation of Mass/Universal Cancellation Procedures under the DLMS and Administrative Realignment of Procedures in DLM 4000.25, Volume 2 and DLM 4000.25-1

- ADC 1161, Update uniform Procurement Instrument Identifier (PIID) numbering system in the Federal/DLMS Implementation Conventions and DLMS Manuals (Supply/Contract Administration)

- Administrative Update to Reflect Realignment to Recognize DLMS Program Office Completed on January 26, 2017

HL Hierarchical Level

Pos: 10	Max: 1
Detail - N	landatory
Loop: HL	Elements: 3

User Option (Usage): Must use

Purpose: To identify dependencies among and the content of hierarchically related groups of data segments

Comments:

- 1. The HL segment is used to identify levels of detail information using a hierarchical structure, such as relating line-item data to shipment data, and packaging data to line-item data.
- 2. The HL segment defines a top-down/left-right ordered structure.
- 3. HL01 shall contain a unique alphanumeric number for each occurrence of the HL segment in the transaction set. For example, HL01 could be used to indicate the number of occurrences of the HL segment, in which case the value of HL01 would be "1" for the initial HL segment and would be incremented by one in each subsequent HL segment within the transaction.
- 4. HL02 identifies the hierarchical ID number of the HL segment to which the current HL segment is subordinate.
- HL03 indicates the context of the series of segments following the current HL segment up to the next occurrence of an HL segment in the transaction. For example, HL03 is used to indicate that subsequent segments in the HL loop form a logical grouping of data referring to shipment, order, or item-level information.
- 6. HL04 indicates whether or not there are subordinate (or child) HL segments related to the current HL segment.

DLMS Note:

1. The transaction set hierarchical data structure is organization information followed by transaction specific information.

2. For universal or mass cancellations use a 2/HL/010 address loop followed by one or more transaction loops as required for each ship-to location. Be sure to use the appropriate hierarchical parent ID number to associate each transaction loop to its appropriate address loop.

3. For individual cancellations use a 2/HL/010 address loop followed by one or more transaction loops.

<u>Ref</u> HL01	<u>ld</u> 628	<u>Element Name</u> Hierarchical ID Number	<u>Req</u> M	<u>Type</u> AN	<u>Min/Max</u> 1/12	<u>Usage</u> Must use	<u>Rер</u> 1
		Description: A unique number assigned by the sender to identify a particular data segment in a hierarchical structure					
		DLMS Note: In the first 2/HL/010 loop iteration, cite 1. In each subsequent loop iteration, increase incrementally by 1.					
HL02	734	Hierarchical Parent ID Number	0	AN	1/12	Used	1
		Description: Identification number of the next higher hierarchical data segment that the data segment being described is subordinate to					
		DLMS Note: Must use in every 2/HL/010 transaction loop iteration to identify the loop with which the current loop is associated. Data element content is the sequential number assigned to the 2/HL/010 organization loop iteration and serves as the cross-reference between transaction set level organization data and associated transactions.

	DLMS Note:
	Use in every 2/HL/010 transaction loop iteration.

DTM Date/Time Reference

Pos: 30	Max: 10
Detail	- Optional
Loop: HL	Elements: 2

User Option (Usage): Used

Purpose: To specify pertinent dates and times

Syntax Rules:

- 1. R020305 At least one of DTM02, DTM03 or DTM05 is required.
- 2. C0403 If DTM04 is present, then DTM03 is required.
- 3. P0506 If either DTM05 or DTM06 is present, then the other is required.

DLMS Note:

1. Must use multiple repetitions in the 2/HL/010 universal or mass cancellation address loop to identify dates associated with the transaction.

2. Must use once in individual cancellation 2/HL/010 transaction loops to identify the transaction date.

<u>Ref</u>	<u>ld</u>		ent Name	<u>Req</u>	<u>Type</u>	Min/Max	<u>Usage</u>	<u>Rep</u>

LIN Item Identification

Pos: 50	Max: >1
Detail ·	Optional
Loop: HL	Elements: 4

User Option (Usage): Used

Purpose: To specify basic item identification data

Syntax Rules:

- 1. P0405 If either LIN04 or LIN05 is present, then the other is required.
- 2. P0607 If either LIN06 or LIN07 is present, then the other is required.
- 3. P0809 If either LIN08 or LIN09 is present, then the other is required.
- 4. P1011 If either LIN10 or LIN11 is present, then the other is required.
- 5. P1213 If either LIN12 or LIN13 is present, then the other is required.
- 6. P1415 If either LIN14 or LIN15 is present, then the other is required.
- 7. P1617 If either LIN16 or LIN17 is present, then the other is required.
- 8. P1819 If either LIN18 or LIN19 is present, then the other is required.
- 9. P2021 If either LIN20 or LIN21 is present, then the other is required.
- 10. P2223 If either LIN22 or LIN23 is present, then the other is required.
- 11. P2425 If either LIN24 or LIN25 is present, then the other is required.
- 12. P2627 If either LIN26 or LIN27 is present, then the other is required.
- 13. P2829 If either LIN28 or LIN29 is present, then the other is required.
- 14. P3031 If either LIN30 or LIN31 is present, then the other is required.

Semantics:

1. LIN01 is the line item identification

Comments:

- 1. See the Data Dictionary for a complete list of IDs.
- 2. LIN02 through LIN31 provide for fifteen different product/service IDs for each item. For example: Case, Color, Drawing No., U.P.C. No., ISBN No., Model No., or SKU.

DLMS Note:

Use in 2/HL/010 transaction loops to identify the materiel. Do not use in the 2/HL/010 address loop.

REF Reference Identification

Pos: 105	Max: 1
Detail -	Optional
_oop: REF	Elements: 3

User Option (Usage): Used

Purpose: To specify identifying information

Syntax Rules:

1. R0203 - At least one of REF02 or REF03 is required.

Semantics:

1. REF04 contains data relating to the value cited in REF02.

DLMS Note:

Use multiple repetitions in 2/HL/010 transaction loops to identify the transaction reference number and ancillary information related to the requisition.

Element Summary:

Ref	ld	Elem	ent Name	Req	Type	<u>Min/Max</u>	<u>Usage</u>	<u>Rep</u>			
REF01	128	Refer	ence Identification Qualifier	М	ID	2/3	Must use	1			
		Refer	ription: Code qualifying the ence Identification								
			S Note: 1. When processing a ///////////////////////////////////								
		reque	est to a procurement activity, cite a								
			act number (code CT). Use codes 83, nd OQ, as needed, to further identify								
			pplicable number in 2/REF04.								
			r DLMS use, only the following codes uthorized.								
		<u>Code</u>	Name								
		86	Operation Number								
			DLMS Note:								
			1. Use to identify the Key Operation	(KO) Num	ber associa	ated with the JO					
			2. Authorized DLMS enhancement u	Inder DLA	industrial a	ctivity support a	greement. Refer to	ADC 381.			
		9R	Job Order Number								
			DLMS Note:								
			1. Use to identify Job Order (JO) Nu	mber.							
			2. Authorized DLMS enhancement under DLA industrial activity support agreement. Refer to ADC 381.								
		CO	Customer Order Number								
			DLMS Note:								
			1. Use to identify the Customer Orde	er Acceptai	nce Record	d (COAR) applic	able to the Job Orde	r Number.			
			2. Authorized DLMS enhancement u (or as applicable).	Inder DLA	industrial a	ectivity support a	greement. Refer to	ADC 381			
		СТ	Contract Number								
			DLMS Note:								
			1. Use to identify the procurement in pending transition to the PIID. When 9th position), provide the value in the	n procuren	nent is auth						
			2. When using, do not use code W4.								
		IT	Internal Customer Number								

004010F869C4CA18

DLMS Note:

ΤN

Use to identify the DoD EMALL-generated customer identification or other authorized submitter of requisitions containing in-the-clear exception ship-to addressing.

PR Price Quote Number

DLMS Note:

1. For intra-Air Force, the unit price will be perpetuated to the cancellation and follow-up for cancellation.

2. Under DLMS, the unit price will be expressed as R9.2.

Transaction Reference Number

DLMS Note:

1. Must use to identify the transaction number of the requisition to be cancelled.

2. When used in cancellation of the requisition alert (BSI03=CO), this will be the requisition alert document number. The requisition alert document number is an authorized DLMS enhancement under DLA industrial activity support agreement. Refer to ADC 381.

W4 Procurement Request Number

DLMS Note:

Use to identify the procurement request number for procurement source transactions when there is no contract award and no contract number assignment. When using, do not use code CT.

PWC Preliminary Work Candidate Number

DLMS Note:

1. Use to identify a Requisition Alert Document Number.

2. Used by Navy Shipyards to associate the funded requisition cancellation with a previously submitted requisition alert.

3. Authorized DLMS enhancement under DLA industrial activity support agreement. Refer to ADC 381.

REF02	127	Refe	rence Identification	х	AN	1/30	Must use	1		
		define	ription: Reference information as ed for a particular Transaction Set or pecified by the Reference Identification fier

		refere numb Quali								
		Synta 1 PO	ax: 304 - If either C04003 or C04004 is							
			ent, then the other is required.							
		-	506 - If either C04005 or C04006 is ent, then the other is required.							
REF04-01	128	Refe	rence Identification Qualifier	М	ID	2/3	Must use	1		
			ription: Code qualifying the rence Identification							
		DLM	DLMS Note: Use one of codes 83 or C7.							
		<u>Code</u>	<u>Name</u>							
		83	Extended (or Exhibit) Line Item Number	er (ELIN)						
			DLMS Note:							
			Use with REF01 code CT, the contract number, to identify the Exhibit Line Item Number (ELIN), or the ELIN including the Sub Exhibit Line Item Number (SUBELIN), as appropriate.							
		C7	Contract Line Item Number							
			DLMS Note:							
			Use with the REF01 code CT, the co the CLIN including the Sub Contract					_IN),		

Number (ALIN), as appropriate.

OQ Order Number

DLMS Note:

1. Use to identify the legacy four-position call/order associated with the PIIN.

2. Do not use for the PIID call/order number. The PIID call/order number is mapped to REF01, Code CT. Refer to ADC 1161.

W1 Disposal Turn-In Document Number

DLMS Note:

1. This is a unique number to identify property turned into a DLA Disposition Services Field Office. Use in conjunction with the controlling requisition document number identified in REF01 code TN, to identify the DTID associated with the property being cancelled by a DLA Distribution Services customer.

2. The DTID Number is required when cancelling a requisition from DLA Disposition Services via DLA Disposition Services' Reutilization/Transfer/Donation (RTD) Web Application or GSA Surplus Property Program Web Application. The DTID Number value should also be accommodated in Component supply systems preparing the cancellation under DLMS business rules. Use a separate requisition cancellation for each DTID Number associated with the customer requisition document number being cancelled.

3. When there is no Suffix Code associated with the customer's Document Number, enter the correlating DTID in the REF04-02. If there is a Suffix Code, then enter the DTID in the REF04-04.

4. DLMS enhancement; refer to ADC 460.

W8 Suffix

DLMS Note:

1. Use with REF01 code TN to identify a transaction number suffix when the original requisition has been split.

2. When used in cancellation of the requisition alert (BSI03=CO), or when used in association with the Requisition Alert Document Number (Qualifier PWC, above), this will be the requisition alert document suffix. The requisition alert document number suffix is an authorized DLMS enhancement under DLA industrial activity support agreement. Refer to ADC 381.

REF04-02 127 **Reference Identification** 1/30 Must use М AN 1 **Description:** Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier Х ID REF04-03 128 **Reference Identification Qualifier** 2/3Used 1 Description: Code qualifying the Reference Identification Code Name 60 Account Suffix Code DLMS Note: 1. Use in conjunction with the DTID Number (REF04 Code W1) to identify the DTID Number Suffix Code, when applicable. 2. When the DTID Number is provided, enter the correlating DTID Suffix using this location. DLMS

83 Extended (or Exhibit) Line Item Number (ELIN)

enhancement, see ADC 466.

DLMS Note:

Use with REF01 code CT, the contract number, to identify the Exhibit Line Item Number (ELIN), or the ELIN including the Sub Exhibit Line Item Number (SUBELIN), as appropriate.

C7 Contract Line Item Number

DLMS Note:

Use with the REF01 code CT, the contract number, to identify the Contract Line Item Number (CLIN), the CLIN including the Sub Contract Line Item Number (SUBCLIN), or the Agreement Line Item Number (ALIN), as appropriate.

Code Name Order Number QQ **DLMS Note:** 1. Use to identify the legacy four-position call/order associated with the PIIN. 2. Do not use for the PIID call/order number. The PIID call/order number is mapped to REF01, Code CT. Refer to ADC 1161. W1 Disposal Turn-In Document Number **DLMS Note:** 1. This is a unique number to identify property turned into a DLA Disposition Services Field Office. Use in conjunction with the controlling requisition document number identified in REF01 code TN, to identify the DTID associated with the property being cancelled by a DLA Distribution Services customer. The DTID Number value should also be accommodated in Component supply systems preparing the cancellation under DLMS business rules. 2. Use a separate requisition cancellation for each DTID Number associated with the customer requisition document number being cancelled. 3. When there is no Suffix Code associated with the customer's Document Number, enter the correlating DTID in the REF04-02. If there is a Suffix Code, enter the DTID in the REF04-04. 4. DLMS enhancement; refer to ADC 460. **REF04-04** 127 **Reference Identification** Х AN 1/30 Used 1 **Description:** Reference information as defined for a particular Transaction Set or as specified by the Reference Identification Qualifier **REF04-05** 128 **Reference Identification Qualifier** Х ID 2/3 Used 1 Description: Code qualifying the Reference Identification Code Name 60 Account Suffix Code **DLMS Note:** 1. ------------	-----------	--------------	-----	------	----------------	--------------	------------

N1 Name

Pos: 110	Max: 1
Detail -	Optional
Loop: N1	Elements: 4

User Option (Usage): Used

Purpose: To identify a party by type of organization, name, and code

Syntax Rules:

- 1. R0203 At least one of N102 or N103 is required.
- 2. P0304 If either N103 or N104 is present, then the other is required.

Comments:

- 1. This segment, used alone, provides the most efficient method of providing organizational identification. To obtain this efficiency the "ID Code" (N104) must provide a key to the table maintained by the transaction processing party.
- 2. N105 and N106 further define the type of entity in N101.

DLMS Note:

1. For universal or mass cancellations also use this 2/N1/110 loop in the 2/HL/010 address loop to identify the organization to receive the transaction set (MCA for GFM requisitions or the supply source for Non-GFM requisitions) and, as needed, other organizations associated with the transaction set.

2. For individual cancellations use this 2/N1/110 loop in 2/HL/010 transaction loops to identify the organization to receive the transaction (MCA for GFM requisitions or supply source for Non-GFM requisitions) and, as needed, other organizations associated with the transaction.

XN Planning/Maintenance Organization

DLMS Note:

1. Use between Service industrial/maintenance sites and DLA to identify the Shop Service Center (SSC) or Shop Store.

2. Authorized DLMS enhancement under DLA industrial activity support agreement. Refer to ADC 381.

Z1 Party to Receive Status

DLMS Note:

Use multiple iterations of the 2/N1/110 loop as needed to identify all status recipients when different from Service/Agency prescribed status recipients.

Z4 Owning Inventory Control Point

DLMS Note:

Use to identify the source of supply that is in receipt of the requisitions desired to be cancelled.

Z5 Management Control Activity

DLMS Note:

Use for all GFM transactions.

ZG Present Address

DLMS Note:

When requesting cancellation by ship-to DoDAAC, use in mass or universal cancellation requests to identify the organization.

ZL Party Passing the Transaction

DLMS Note:

Use to identify the original supply source passing the cancellation or cancellation follow-up to another supply source for continued processing.

number.

3. Authorized DLMS enhancement under DLA industrial activity support agreement. Refer to ADC 381.

4. DLMS enhancement; see introductory DLMS note.

AK Distribution Code

DLMS Note:

Future streamlined data; see introductory DLMS note 3c.

AL Special Requirements Code

DLMS Note:

- 1. Use to identify precedence, special handling, and processing requirements.
- 2. Under Legacy MILSTRIP, this is carried in the required delivery date field.
- 3. DLMS enhancement; see introductory DLMS note 3a.

DE Signal Code

DLMS Note:

Future streamlined data; see introductory DLMS note 3c.

DF Media and Status Code

DLMS Note:

Future streamlined data; see introductory DLMS note 3c.

DJ Remedial Action Code

DLMS Note:

Use temporary qualifier DJ - Remedial Action Code to identify Army Edit Action Code indicating the actions required by the receiving system in order to accurately process transactions and direct the types of follow-on actions authorized to occur. This is an Army unique data element, and is meaningful to the Army only. The code source is identified as the U.S. Army Materiel Command Single Stock Fund Functional User Manual, 3rd Edition. An ANSI data maintenance request has been prepared to establish a new data element 1270 code qualifier assignment for Army Edit Action Code.

COG Cognizance Symbol

DLMS Note:

1. Use to identify the material cognizance symbol (COG) of the end item. Indicate NSL for non-stock numbered listed items. This is a Navy-unique data element meaningful to Navy only; Non-Navy Components are to perpetuate without action.

2. DLMS Enhancement.

IMC Item Management Code

DLMS Note:

1. Use to identify the Item Management Code (IMC) for integrated material management. Indicate NSL for non-stock numbered listed items. This is a Navy-unique data element meaningful to Navy only; Non-Navy Components are to perpetuate without action.

- 2. DLMS Enhancement.
- MCC Material Control Code

DLMS Note:

1. Use to identify the Material Control Code (MCC) for special inventory reporting. Indicate NSL for non-stock numbered listed items. This is a Navy-unique data element meaningful to Navy only; Non-Navy Components are to perpetuate without action.

2. DLMS Enhancement.

SMI Special Material Identification Code

DLMS Note:

1. Use to identify the Special Material Identification Code (SMIC) for an end item. Indicate NSL for non-stock numbered listed items. This is a Navy-unique data element meaningful to Navy only; Non-Navy Components are to perpetuate without action.

2. DLMS Enhancement.
