DLM 4000.25, Volume 4, April 29, 2016
Change 6

DEFENSE LOGISTICS MANAGEMENT SYSTEM
VOLUME 4, MILITARY STANDARD BILLING SYSTEM - FINANCE
CHANGE 6

I. This change to DLM 4000.25, Defense Logistics Management System (DLMS), Volume 4, June 2012, is published by direction of the Deputy Assistant Secretary of Defense for Supply Chain Integration under the authority of DoD Instruction (DoDI) 4140.01, "DoD Supply Chain Materiel Management Policy," December 14, 2011. Unless otherwise noted, revised text in the manual is identified by ***bold, italicized*** print. The exception would be when the entire chapter or appendix is replaced, or a new one added. Change 6 also includes administrative updates: In all updated documents "Defense Logistics Management System" is changed to "Defense Logistics Management Standards" per DoDI 8190.01E. In accordance with new direction for issuances, "shall" has been replaced by "will", "must", or other appropriate words or phrases throughout the updated documents. Additional administrative updates include changing "DoDM 4140.1-R" to "DoDM 4140.01", and "DLA Logistics Management Standards" to "Defense Logistics Management Standards".

In accordance with DLA General Order No. 07-15 (09/14/2015), references to "DLA Transaction Services" are changed to "Transaction Services".

II. This change includes Approved Defense Logistics Management Standards (DLMS) Change (ADC) published by Defense Logistics Management Standards Office memorandum:

       A. ADC 1043E dated October 5, 2015. Extends Defense Automatic Addressing System (DAAS) edits for invalid or missing fund codes to include transactions with Signal Codes A, B, J, and K and one scenario pertaining to Signal Codes C and L that had previously been omitted. Revises DLMS Chapter 5, Chapter 6, and Appendix 2.2.

B. ADC 1084 dated November 25, 2015. Allows credit to be issued for non-manager owned suspended stock stored at a DLA Distribution location when a stock screening request results in identification of non-compliant materiel. This change leverages existing procedures for processing of the Stock Screening Request, Storage Quality Control Report (SQCR), SDR, and Materiel Release Order (MRO) to accomplish the necessary steps to recognize, suspend, provide notification of suspected non-conforming materiel, provide credit to the materiel owner if the materiel is determined to be non-compliant, and transfer ownership to the manager—all with minimal system impact to existing systems and procedures. Revises DLMS Chapter 4, and Appendices 2.3 and 2.5 and DLMS ICs 842S/Q and 842S/R.

III. The list below identifies the chapters, appendices, or other files from the manual that are updated by this change:

IV. This change incorporated into the on-line DLMS manual at the Defense Logistics Managements Standards Website www.dlmso.dla.mil/elibrary/manuals/dlm/dlm_pubs.asp and the PDF file containing the entire set of change files is available at www.dlmso.dla.mil/eLibrary/Manuals/DLMS/formal_changes.asp.

Ms. Dee Reardon
Deputy Assistant Secretary of Defense
for Supply Chain Integration

VOLUME 4 – Military Standard Billing System - Finance

PROCESS CHANGE HISTORY

ADC Number	Date	Change Description	Version
221A	8/3/2011	**Revised Procedures associated with the DLMS Enhancement for Communication of Unit Price.** This change revises procedures for DLA Transaction Services Defense Automatic Addressing System (DAAS) conversion mapping from DLMS to MILS legacy 80 record position formats to block the perpetuation of any price exceeding 7 positions (5 digits dollars and 2 digits cents), and block the perpetuation of any price consisting of all "9"'s. The change allows the Navy ERP to accept items whose price is larger than $100,000. Revises DLMS Supplements 511R, Requisition, 511M, Requisition Modification, 527D, Due-in/Advance Receipt /Due Verification, 527R, Receipt, Inquiry, Response and MRA, 536L, Logistics Reassignment Management Data, 810L, Logistics Bill, 812L, Logistics Bill Adjustment Request Reply, 812R, Logistics Bill Adjustment Request, 846D, Logistics Reassignment Transfer and Decapitalization, 856S, Shipment Status, and 869F, Requisition Follow-Up.	0
274	4/1/2008	**DLMS and DLSS Changes to Support Army Exchange Pricing. This change makes changes to support Army Exchange Pricing.** Army Managed National Stock Numbered (NSN) items that are on an existing or planned national repair program, will have an Exchange Price (EP), which represents the Latest Repair Cost plus a recovery rate. Essentially, those nationally repaired items will be issued at a discounted price based upon an expected return. If EP items are not returned within the established timeline (Delta Delay Days), the process will generate a Delta Bill (SP minus EP), which would result in a net cost of the full Standard Price to the customer. The Exchange Price will only be applicable to Army EP customers. All other customers will be charged the Standard Price. Revises MILSTRIP Chapter 3, MILSTRAP Chapter 4, and MILSBILLS Chapter 2 and Appendix 2.5.	0
275	4/3/2008	**Administrative Changes to Eliminate Override Procedures for DLMS Supplements 812L, Logistics Bill Adjustment Request Reply and 812R, Logistics Bill Adjustment Request.** This change modifies the 812L and 812R DLMS Supplements to clearly identify as an enhancement (not approved for current use) the use of Table 1 Code Source Information in cases where the Agency code is applicable to all Table 2 iterations. This change also removes the use of override procedures for Code Source information, as override is no longer recognized as recommended procedure.	0

ADC Number	Date	Change Description	Version
280	8/8/2008	**PQDR/SDR/TDR Credit Tracking.** This change to MILSBILLS will allow for better tracking of credits for PQDRs, SDRs and TDRs. Revises MILSBILLS Chapter 4, Appendix 2.3, and Appendix 2.5.	0
289	10/21/2009	**Revisions to Security Assistance Program Procedures, Modification of the Definition of the Security Assistance Type of Assistance and Financing Codes (MILSTRIP/Supply) and Policy Change to Billing Procedures.** This change accommodates the inclusion of a paragraph on the timeframe for shipments using a Required Availability Date (RAD), the use of extended Required Delivery Dates (RDDs), a paragraph regarding possible storage charges for materiel awaiting Notice of Availability (NOA) responses, and some minor changes to program names and acronyms. Revises DLMS Volume 4 Chapter 2.	0
290	6/24/2008	**Administrative Revisions to the DLMS Supplements 810, Logistics Bill, 812L, Logistics Bill Adjustment Request Reply and 812R, Logistics Bill Adjustment Request.** This change adds additional qualifier codes to DLMS Financial Supplements and to make administrative changes to achieve consistency among the Supplements. Revises DLMS Supplements 810L Logistics Bill, 812L Logistics Bill Adjustment Request Reply and 812R Logistics Bill Adjustment Request, as well as, DLMS Volume 4 Chapter 2, DLMS Billing.	0
294	7/31/2008	**Elimination of Treasury Suspense Account F388.** Eliminated Treasury Suspense Account F3885, which was a suspense account used to temporarily hold unmatched financial transactions. Treasury stated that this account is no longer authorized for use. Revises DLMS Volume 4 Chapter 5, Interfund Billing System Procedures, as well as, MILBILLS AP2.2, Fund Codes.	0
315	1/5/2009	**Administrative Change to DLMS Note for Fund Code in DLMS 810L, Logistics Bill.** This change modifies the DLMS Supplement 810L to incorporate an administrative change to correct an incorrect DLMS note regarding the qualifier DG (Fund Code), which incorrectly states that the fund code may not be used with Interfund bills.	0
324	6/24/2009	**DLMS Procedures for Materiel Returns from National Inventory Management Strategy (NIMS) Sites and Industrial Sites under Base Realignment and Closure (BRAC).** This change documents procedures for materiel returns to DLA as partially implemented under the National Inventory Management Strategy (NIMS) and as planned in support of the 2005 Base Realignment and Closure (BRAC) decision. The change addresses communications among customers, the distribution depot, and the DLA ICP, along with establishing new procedures for authorizing and processing customer credit. Finalization of the returns procedures required recurring DLMSO interaction with the BRAC team to achieve correct business rules and documentation of these rules in the applicable DoD manuals. Revises MILBILLS Chapter 2.	0

ADC Number	Date	Change Description	Version
328	7/28/2009	**"Off-Line" Requisition Processing: Internet Ordering Application Request for Component Verification of Funds Availability and Recording of the Financial Obligation.** This change requests an interface be established between the various internet ordering applications and the applicable Component financial application, so that fund availability can be checked before allowing the requisition to be processed, and, as a separate, subsequent action, establish the associated obligation within the applicable financial system. Revises DLMS Volume 2, Chapter 7, Verification of Funds Availability Web Call for Requisitions Submitted VIA Internet Ordering Applications; Volume 4, Finance, AP2, Verification of Funds Request, and AP3, Verification of Funds Reply; DLMS Supplement 9DS) Revision of 511R, Requisition.	0
332	7/8/2009	**Intra-Navy Exchange Price Billing for Depot Level Reparables.** The purpose of this change is to map the Navy's current billing transactions for depot level repairables (DLRs) under the Navy Carcass Tracking program to the DLMS Supplement 810L, Logistics Bill. This change will support the Navy migration to DLMS, and will support mapping in a mixed DLMS/MILS environment. Revision to DLMS Supplement (DS) 810L, Logistics Bill.	0
346	10/26/2009	**DLMS Interfund Billing System Procedures.** This change publishes procedures for DoD 4000.25-M, Defense Logistics Management System (DLMS) Volume 4 (Finance), Chapter 5 - Interfund Billing System Procedures.	0
350	11/16/2009	**Navy Budget Project For Billing.** The purpose of this change is to map the Navy's current MILS billing transactions for the Summary Bill to the DLMS Supplement 810L, Logistics Bill by including a DLMS qualifier called "budget project identifier" for Navy "budget project". This change will support the Navy migration to DLMS, and will support mapping in a mixed DLMS/MILS environment.	0

ADC Number	Date	Change Description	Version
435	10/3/2011	**Use of Referential Data to Support Standard Financial Information Structure (SFIS).** This changes provides for the Component and Agency preferred solution of exchanging SFIS accounting data elements using referential data keyed on a fund code. DLA Transaction Services will develop and host an expanded fund code table on DAAS, which will be the master reference table for SFIS data to be maintained. The ADC also modifies specified DLMS transactions to add Business Partner Number (BPN) as an authorized DLMS enhancement, which may be an issue for non-DoD buyers and sellers to accommodate. Revises DLMS Supplement (DS) 511R, Requisition, 511M Requisition Modifier, 869F, Requisition Follow Up, 180M Material Returns Reporting, 517M, Material Obligation Validation, 867I, Issue, 940R, Material Release, 856S, Ship Notice/Manifest, 842 A/W Supply Discrepancy Report, 810L, Logistics Bill, 517G, Government Furnished Material (GFM) Validation, 527D, Due in/Advance Receipt/Due Verification, 527R, Receipt, Inquiry, Response and MRA, 812L, Logistics Bill Adjustment Request Reply, 812R, Logistics Bill Adjustment Request , 842A/R Standard Supply Discrepancy Report Reply, 867D, Demand Reporting, 869A, Requisition Inquiry/Supply Assistance Request, 869C, Requisition Cancellation, 945A, Material Release Advise, and 947I, Inventory Adjustment (Applies to 4010 as well).	0
450	2/14/2012	**Elimination of the DLMS Request for Implementation Date Procedures for Component System Changes.** The RFID letter/process, as currently published in the DoD 4000.25 family of manuals is eliminated. Implementation dates will be requested at the time of issuance of the PDC. The revised procedure will incorporate the request for and negotiation of an agreement upon implementation dates embedded in the PDC/ADC process. Revises DLMS Volume 4, Chapter 1	0
469	2/23/2012	**Consolidating MILSBILLS into DLMS Volume 5, Finance.** This change consolidates and updates chapters of DoD 4000.25-7-M (MILSBILLS) with the DoD 4000.25-M (DLMS) Finance volume to enable DLMS Volume 4 to be a single manual for DLMS/MILS logistics billing. Revises DLMS Volume 4.	0
1009A	8/6/2014	**DLMS Enhancements for Requisitioning to Improve Use of Mark-for Addressing, Expand Authorized Priority Designator Validation, Correct EMALL Purchase/Credit Card Format Rules, and Require Distribution of Status for Requisitions associated with Purchase/Credit Card Payment.** This change establishes revised procedures for formatting the DLMS requisition transactions with impact to multiple functional processes. It also establishes XP fund code on the Fund Code to Billed Office DoDAAC table to denote DOD EMALL credit card billing for all Components and Agencies. Revises Chapter 2, Billing Procedures and DLMS Implementation Conventions (ICs) 511M, 511R, 856S, 869A, 869F, 870S, 940R, and 945A.	4

ADC Number	Date	Change Description	Version
1043A	8/20/2014	**Revised Procedures for Department of Defense (DOD) Standard Line of Accounting (SLOA)/Accounting Classification to Support Transaction Rejection Requirements.** Amends ADC 1043 guidance regarding rejection transactions returned when DLMS transactions include discrete SLOA data elements that do not correspond to the entries in the SFIS Fund Code to Fund Code Account Conversion Table for the Fund Code in the transaction. Revises Chapter 6, Defense Automatic Addressing System and DLMS 824R, 180M, 511M, 511R, 517M, 810L, 842A/W, 856S, 867I, 869F, and 940R.	4
1043B	10/1/2014	**Revised Procedures for Department of Defense (DOD) Standard Line of Accounting (SLOA)/Accounting Classification to Modify Business Rules for Beginning Period of Availability Fiscal Year Date.** Amends ADC 1043 to revise the business rules within the DLMS and the Web Fund Code Application to allow the SLOA data element, Beginning Period of Availability Fiscal Year Date, to be used in DLMS transactions to represent Program Year when the Availability Type Code is X, which indicates No Year, non-expiring funds. Revises Appendix 4, Web Fund Code Master File Layout and DLMS 180M, 511M, 511R, 517M, 810L, 842A/W, 856S, 867I, 869F, and 940R.	4
1043C	12/22/2014	**Administrative Corrections for SLOA Data the 810L Logistics Bill and other DLMS ICs.** Amends ADC 1043 to remove SLOA data element Budget Line Item from the header, as it has no apparent applicability to the header (summary bill), corrects DLMS notes erroneously applying or omitting references to the line of accounting data elements being modifiable in certain ICs, and changes DLMS 810L loop 2/FA1/350 from mandatory to used, as non-interfund bills may not provide SLOA data and lack of data would cause the transactions to fail. Revises the DLMS 511R, 517M, 810L, 842A/W, 867I, 869F, and 940R ICs. Also accomplishes administrative changes to the DLMS 140A, 180M, 511M, 511R, 517G, 517M, 527D, 527R, 536L, 567C, 650A, 650C, 810L, 812L, 812R, 824R, 830D, 830R, 830W, 842P, 846A, 846C, 846D, 846F, 846I, 846P, 846R, 846S, 856N (4010 & proposed 4030 versions), 856R (4010 & 4030 versions), 856S, 867D, 867I, 869A, 869C, 869F, 870L, 870M, 870N, 870S, 888A, 888I, 888W, 940R, 945A (4010 and 4030 versions), and 947I (4010 and 4030 versions). ICs removing an obsolete reference to an Accounting Classification Appendix.	5

ADC Number	Date	Change Description	Version
1043D	7/1/2015	**SLOA Data Element Sub-Allocation Holder Identifier Subsuming Limit/Subhead Data Element.** Subsumes the Limit/Subhead data element into the Sub-Allocation Holder Identifier data element included in the Standard Financial Information Structure (SFIS) Fund Code to Fund Account Conversion Table and changing the data element name from Limit/Subhead to the abbreviated Sub-Allocation in the Web Fund Code application data entry screens and reports. It also changes the Sub-Allocation Holder Identifier on the DLA default appropriation value in MILSBILLS Appendix 2.2 from "5999" to "5CBX". Revises Chapter 4, Adjustment Procedures, AP1.1, Fund Code to Fund Account Conversion Table, AP2.2, Fund Codes, and AP 4, Web Fund Code Master File Layout.	5
1043E	10/5/2015	**Invalid Fund Code Edit and Remove Suspense Account F3885.** Extends Defense Automatic Addressing System (DAAS) edits for invalid or missing fund codes to include transactions with Signal Codes A, B, J, and K and one scenario pertaining to Signal Codes C and L that had previously been omitted. Revises Chapter 5 Interfund Billing System Procedures, Chapter 6 Defense Automatic Addressing System, and Appendix 2.2 Fund Codes.	6
1068B	10/23/2014	**Revised Procedures for Requisitioning via DOD EMALL and GSA Internet Ordering: Component Verification of Funds Availability.** Establishes enhancements and reviseS routing rules for adoption concurrent with the implementation of the procedures for verification of funds availability established under ADC 1068 and employed by DOD EMALL and GSA Advantage/GSA Global for eCommerce. This change also documents a deviation from approved procedures for de-obligation of funds currently in use between GSA Advantage and the Army Funds Control Module (FCM). Revises Chapter 7, Verification of Funds Availability Web Call for Requisitions Submitted via Internet Ordering Applications and Appendix 2.11, Funds Verification Codes.	4
1084	11/25/2015	**New Procedures for Non-Manager Owned Suspended Stock Stored in DLA Distribution Locations.** Allows credit to be issued for non-manager owned suspended stock stored at a DLA Distribution location when a stock screening request results in identification of non-compliant materiel. This change leverages existing procedures for processing of the Stock Screening Request, Storage Quality Control Report (SQCR), SDR, and Materiel Release Order (MRO) to accomplish the necessary steps to recognize, suspend, provide notification of suspected non-conforming materiel, provide credit to the materiel owner if the materiel is determined to be non-compliant, and transfer ownership to the manager—all with minimal system impact to existing systems and procedures. Updates Chapter 4 Adjustment Procedures, Appendices 2.3 Billing Advice Codes, and 2.5 Type of Bill Codes.	6

ADC Number	Date	Change Description	Version
1103	8/20/2014	**Revise DLMS 824R, Reject Advice, to Include Rejections of Logistics Bills, Clarify use for Rejection of DLMS MILSTRIP Transactions, and Document Administrative Updates.** Modifies the DLMS 824R to expand the scope to include rejection of logistics bills and make administrative adjustments to convert the supplement into an implementation convention (IC) and to reflect current element use by DLA Transaction Services. Revises Chapter 2, Billing Procedures; Chapter 6, Defense Automatic Addressing System; Appendix 2.12, Other Codes; and Appendix 3, Record Formats. Revises DLMS 824R	4
1134	7/17/2014	**Administrative Corrections to MILSBILLS.** Corrects the record positions for the quantity field in the legacy DIC FJR/FJS format and other typographical corrections discovered in DLM 4000.25, Volume 4. Revises Chapter 3, Processing and Payment of DLMS Billsand; Chapter 4, Adjustment Procedures; and Appendix 3, Record Formats.	4

TABLE OF CONTENTS

VOLUME 4: Military Standard Billing System - Finance

TABLES

FIGURES

AP2.2. APPENDIX 2.2

FUND CODES

NUMBER OF CHARACTERS: Two

TYPE OF CODE: Alpha or Numeric

AP2.2.1. Fund codes are two position alpha/numeric codes used in conjunction with Service or Agency Code of the billed office to designate the billing method (interfund or noninterfund). When interfund billing is indicated, the fund code also indicates the fund account to be charged (disbursed) or credited (refunded).

- The fund code to disbursement fund account conversion tables are published online in Part I of the Fund Code Table at: https://www2.transactionservices.dla.mil/logreports/daasc_reports.asp

- Only valid appropriations and Sub-Allocation Holder Identifiers may be associated with fund codes.

- When a fund code used in the billing and adjustment process is not found on the fund code to disbursement fund account conversion table the appropriation charged will be assigned as follows:

Organization (Billed Service Code)	Interfund Default Appropriation
Contractor (C, E, L, Q, U)	Not applicable, noninterfund
Non-DoD (G, Z, HX, Numeric)	Not applicable, noninterfund
Army (A, W)	21*2020
Air Force (D, F)	57*3400
Navy (N, P, R, V)	17*1804
Marine Corps (K, M)	17*1106
Defense Logistics Agency (S, T)	97X4930.5CBX
Other Defense Agency (H)	Not applicable, noninterfund.

AP2.2.2. An additional use for the fund code, when the signal code is C or L, is to indicate the DoDAAC of the "bill-to" office. See AP1 for codes.

AP2.2.3. Requisitions submitted to DoD Activities and the General Services Administration will always contain a fund code, unless the materiel requested will be issued without charge. When the materiel will be issued without charge the signal code (pos. 51) will be D or M (free issue) and the fund code will not be significant.

AP2.2.4. Defense Agencies and others using H series DoDAACs may use fund codes designating interfund billing only if the requisitioning DoDAAC is identified as authorized to use interfund. See AP1 for authorized DoDAACs.

AP2.2.5. Agency designated Fund Code Coordinators are responsible for maintaining fund codes for their Service or Agency. With the exception of DLA, which has its own coordinator, Defense Finance and Accounting Service (DFAS) maintains fund codes for DoD Organizations and Agencies. Fund code coordinators are identified at ***http://www.dlmso.dla.mil/elibrary/manuals/dlm/v4.asp***.

AP 2.3. APPENDIX 2.3

BILLING ADVICE CODES

NUMBER OF CHARACTERS: Three

TYPE OF CODE: Numeric

EXPLANATION: Billing advice codes are used in requests for billing adjustment to identify the nature of the request or problem. The first position entry, when present, is significant only to the requesting activity. The second and third position entries listed below convey significant information to the billing office. See chapter 4 for information on the use of the codes.

Code	Description
11	Duplicate billing record received. Request credit.
12	Wrong amount billed. Request credit.
13	Wrong office billed. Request credit and re-billing to correct office.
14	Bill received for materiel requisitioned as nonreimbursable. Materiel not received. Request credit.
15	Bill received for unauthorized accessorial charge. Request credit.
17	Bill received for confirmed canceled requisition. Materiel not received. Request credit.
18	Bill received for back ordered materiel. Materiel not received. Request credit.
19	Incomplete bill. Detail billing records do not support the amount billed. Request credit or corrected bill.
20	Bill received following billing office reply that an adjustment billing could not be rendered. Request credit.
21	TDR (SF 361) submitted over 60 days ago; adjustment bill not received. Request credit.
23	Promised adjustment not received. Request credit.

Code	Description
24	Reply to Product Quality Deficiency Report (SF 368) indicated adjustment authorized. Request refund.
26	Reply to Supply Discrepancy Report (**SDR**)/**Storage Quality Control Report (SQCR)** indicated adjustment authorized; however, adjustment billing not received. Request credit status.
27	Material laterally redistributed as directed and shipment status (AS6) provided; however, credit billing not received. Request credit status.
34	Requisitioned materiel received. Request billing status.
35	Shipment status received for materiel requisitioned for security assistance. Request billing status.
41	Request copy of billing.
42	Duplicate summary level billing (same bill number). Request credit.
43	Duplicate summary level billing (different bill number). Request credit.
44	Duplicate summary level billing within second billing. Request credit.
51	Unable to process billing under interfund procedures. Request interfund reversal and re-billing under noninterfund procedures.
52	Billed by interfund when requisition or other document specified noninterfund billing. Request interfund reversal and re-billing under noninterfund procedures.
55	Refer to accompanying letter of explanation.
90-99	Reserved for internal use. May not be reflected on any document forwarded outside the activity.

AP2.5. APPENDIX 2.5

TYPE OF BILL CODES

NUMBER OF CHARACTERS:	Two
TYPE OF CODE:	Alphabetic
EXPLANATION:	Types of bill codes are provided, at the option of the billing office, on the detail billing records to indicate to the billed office the purpose of the billing.

Code	Description
AA	Bill for materiel issued, quantity billed is equal to quantity requisitioned.
AB	Bill for materiel issued, quantity billed is less than quantity requisitioned due to partial issue.
AC	Bill for materiel issued, quantity billed is greater or less than quantity requisitioned due to unit pack adjustment.
AR	IMM authorized returns under the Materiel Returns Program.
DB	Bill for the Delta amount (Standard Price minus Exchange Price) (Commonly referred to as "Carcass Charge" within Navy).
DR	IMM directed returns under the Asset Visibility (Procurement Offset) Program.
EP	Bill at Exchange Price (Commonly referred to as "Net Price" within Navy).
HM	Hazardous materiels.
HW	Hazardous waste disposal services.
LR	IMM directed Lateral Redistributions.
QD	Bill to adjust the amount previously billed due to approval of a PQDR.
RB	Credit Bill to reverse a Delta Bill (DB) under Exchange Pricing (Commonly referred to as "Carcass Charge Reversal" within Navy).
SC	Credit Bill for Serviceable Credit under Exchange Pricing (May be Exchange Price or Delta Price for Navy).

Code	Description
TD	Bill to adjust the amount previously billed due to approval of a TDR.
TM	Bill for creditable excess materiel returned, reduced credit allowed for quantity shown.
TN	Bill for creditable excess materiel returned, full credit allowed for quantity shown.
WP	Bill to adjust the amount previously billed due to approval of an SDR*/SQCR*.
WR	Bill to adjust amount billed previously, due to warehouse refusal.
WS	Bill to adjust amount billed previously, due to billing error detected by billing office.
WT	Bill to adjust amount billed previously, due to billing error reporting by billed office.
WU	Bill to adjust the amount billed previously, due to approval of a discrepancy report. Use until codes QD, WP, and TD are implemented.
WV	Bill to adjust amount billed previously, due to failure to return materiel as directed.

C4. CHAPTER 4

ADJUSTMENT PROCEDURES

C4.1. REQUESTING ADJUSTMENTS

    C4.1.1. Submission of Adjustment Requests

        C4.1.1.1. Unless otherwise indicated in this chapter, requests for adjustment, follow-ups, and replies will be submitted by electronic means.

        C4.1.1.2. Requests are generally prepared using the Request for Billing Adjustment (DLMS 812R, DIC FAE) record. However, into-plane and bulk fuel related adjustment requests must use the Request For Adjustment of Fuel Billing (DLMS 812 R, DIC FJE). Refer to other Chapter 4 sections for more specific information on preparing requests for adjustments and follow-ups.

        C4.1.1.3. Requests for adjustments will normally indicate the billing office as the addressee and will be submitted to Transaction Services for processing and routing to the billing office. Requests for adjustments of GSA billings will be addressed to the GSA National Customer Service Center (DoD Activity Address Code (DoDAAC) 476437, RI code GSA). Correspondence to the Service Center, if necessary, may be directed to:

        General Services Administration
        National Customer Service Center
        1500 East Bannister Road
        Kansas City, Missouri 64131-3087
        Telephone: (800) 488-3111 (DSN) 465-1416

    C4.1.2. Nonreimbursable. Forward a request for adjustment in the format prescribed for billing account code (BAC) 14 when the coding of the requisition indicates that the materiel was requisitioned under nonreimbursable procedures and a materiel billing was received.

    C4.1.3. Accessorial. A request for adjustment in the format prescribed for BAC 15 will be forwarded whenever accessorial costs are charged and the charges are not authorized.

    C4.1.4. Timeframes. All requests for adjustments should be submitted within 30 calendar days of receipt of the billing. Initial requests for adjustment received after the record retention period for billing records may be denied. When a discrepancy report or adjustment request is received within prescribed timeframes, nonavailability of records,

or the passing of the record by the time the report is validated or the request is processed, may not be used as a basis for denying the adjustment.

    C4.1.5. <u>Minimum Value</u>

        C4.1.5.1. <u>Adjustment for Billing Errors</u>. In general, no request for adjustment should be submitted for billing errors when the amount of the error is $250 or less. As an exception to the general guideline, no request for adjustment should be submitted for billing errors when the amount of the error is $100 or less and the billing office is GSA or the materiel involved is a subsistence item.

        C4.1.5.2. <u>Adjustment Types</u>. There is no minimum value for requesting status on an anticipated or required billing, requesting a corrected bill when the received bill is incomplete, requesting a copy of a bill, requesting a change in the type of billing (interfund to noninterfund and noninterfund to interfund), or requesting adjustments for validated discrepancy reports.

        C4.1.5.3. <u>Foreign Military Sales Billing Errors</u>. There is no minimum value for adjustment of foreign military sales (FMS) billing errors. However, adjustment requests for FMS shipments may not be submitted when the request can be rejected per the general conditions of the U.S. Department of Defense Letter of Offer and Acceptance.

C4.2. <u>CANCELING OR AMENDING REQUESTS FOR ADJUSTMENT</u>

    C4.2.1. <u>Canceling Requests</u>. Submitting offices may cancel requests for adjustments whenever the request is no longer valid or appropriate and the billing office has not provided a final reply to the request.

    C4.2.2. <u>Amendments</u>. Requests for adjustments may be amended by canceling the original request and submitting a new request.

C4.3. <u>FOLLOW-UP ON UNANSWERED REQUESTS FOR ADJUSTMENT</u>

    C4.3.1. <u>Adjustment Requests</u>. Except for follow-ups to Transaction Services, offices submitting adjustment requests will follow-up on requests for adjustments remaining unanswered for more than 14 calendar days after submission. If the request for adjustment remains unanswered for more than 14 calendar days after follow-up, submitting offices will forward a second and final follow-up by letter or message to the billing office. In addition to providing the billing office with the information required to process the request, the final follow-up will identify the dates of initial and follow-up request.

        C4.3.1.1. Follow the procedures prescribed for noncompliance and other problems (see Chapter 1) when requests for adjustments or requests for MRP credits

remain unanswered for more than 30 calendar days after the second follow-up or if an interim response was received and the promised date has passed.

C4.3.1.2. Follow up to Transaction Services (daashelp@dla.mil) for copies of interfund bills that were requested but not received.

C4.3.2. Credit Follow-Up. Offices designated to receive Materiel Returns Program (MRP) credit will initially follow-up on the credit due when the credit has not been received and more than 30 calendar days have elapsed since the creditable status was received. A second follow-up will be submitted if a reply or credit is not received within 30 calendar days of the initial follow-up.

C4.4. REPLYING TO REQUESTS FOR ADJUSTMENT OR MATERIEL RETURNS PROGRAM CREDIT

C4.4.1. Processing Adjustments. Billing or adjustment processing offices will reply to adjustment requests using Defense Logistics Management System (DLMS) 812L, Adjustment Request Reply transaction. The DLMS Supplement will also be used to reply to follow-up requests.

C4.4.2. Responding to Requests. Billing offices will respond to all requests for adjustment within 13 calendar days of the date the request is received. Billing offices will respond to follow-up requests for adjustment within 13 calendar days of the date the request is submitted. Replies to adjustment requests (DLMS 812L, Document Identifier Code (DIC) FAR) and follow-ups (DLMS 812L, DIC FAS) are required and will also be forwarded to Transaction Services for processing and further routing to the adjustment requestor. As with the requests, fuel-related replies will follow the equivalent DIC FJ_ series formats. All adjustment replies will include an appropriate coded reply.

C4.4.2.1. Responses to adjustment requests will be forwarded to the office designated by the recipient of billing status code. Adjustments will be forwarded to the original billed office.

C4.4.2.2. Billing offices will respond to initial requests and first follow-up for MRP credit in the DLMS 812L, DIC FTB format. Responses will be forwarded, via DSN, to the office designated by the materiel receipt status (870M, DIC FTZ).

C4.4.2.3. Billing offices will respond to second follow-up requests for adjustments and MRP credit within 30 calendar days of receipt. If the request cannot be answered within 30 calendar days, an interim response by letter or message will be provided. The response must be completed within 60 calendar days.

C4.5. ADJUSTMENT AMOUNT. In general, adjustments, when warranted, will be at the originally billed price. Adjustments for validated product quality deficiency reports (PQDRs) will be processed at the current standard price when the original billed price cannot be determined. Adjustments for Materiel Returns Program (MRP) credits will be

at the current acquisition price or at a reduced price if, in the opinion of the Integrated Materiel Manager (IMM), the condition warrants such reduction.

C4.6. <u>INCOMPLETE OR UNSUPPORTED BILL</u>

C4.6.1. An incomplete bill is one in which the interfund or noninterfund bill is not fully supported by detail billing records or information, respectively.

C4.6.2. Since Transaction Services will not pass incomplete interfund bills to billed offices and billing offices will not be reimbursed for bills not submitted to Transaction Services, a copy of the "incomplete" interfund bill will be requested from Transaction Services.

C4.6.3. Requests for incomplete (i.e., unsupported) noninterfund bills will be addressed to the billing office and must cite BAC 19. In addition to responding to the request, whenever the bill referred to is on file, billing offices must always provide a fully supported copy or corrected bill to the billed office.

C4.7. <u>BILLING STATUS PROCEDURES</u>

C4.7.1. <u>Obtaining Bill Status</u>. When requisitioned materiel is received, intended billed offices must use an Adjustment Request (DLMS 812R, DIC FAE) to seek the status of the bill. When materiel was not ordered, or if ordered and not received, discrepancy report procedures apply. See DLMS Volume 2, <u>Chapter 17</u> and <u>DoD 4500.9-R</u>, Defense Transportation Regulation, Volume 2, Chapter 210 for discrepancy report procedures.

C4.7.2. <u>Shipment Bill Status</u>. When shipment status is received for requisitioned materiel and the materiel can be billed only upon evidence of constructive delivery, intended billed offices must use an Adjustment Request (DLMS 812R, DIC FAE) citing BAC 35 to seek the status of the bill. Billing offices may generate the required billing when properly completed requests are received and a billing is awaiting evidence of constructive delivery. Billing offices will also initiate appropriate actions with their supply office to identify and resolve problems underlying this condition.

C4.7.3. <u>Timeframe</u>. At least 90 calendar days must have elapsed after receiving the materiel or, in the case of FMS shipments, shipment status before requesting the bill status. However, the status must be requested within a year of the shipment date (2 years for FMS shipments). Billing offices may reject requests for billing status that are not submitted within these timeframes.

C4.7.4. When the billing status request involves fuels and is forwarded to DLA Energy (RIC S9F), the request will be mailed and must identify the supply source. If the supply source is a DLA Energy regional location, provide the location's DoDAAC. If the supply source is a contractor, including contractor Into-plane, provide the contract number.

C4.7.5. Restrictions. Except for billings awaiting evidence of shipment or receipt, billing offices will not generate bills based solely upon a request for billing status.

C4.7.6. DoD 7000.14-R, Department of Defense Financial Management Regulations (FMRS), Volume 10 has allowances for writing off unbilled liabilities and de-obligating the related obligation when an invoice has not been received within 180 calendar days from the date of acceptable final performance and there is documentation on file that at least two written requests for an invoice have been made. Refer to the reference for other conditions that must be met, such as establishing a reserve for late bills.

C4.8. BILL COPY PROCEDURES

C4.8.1. Requesting Copies. Requests for copies of interfund bills will be addressed to Transaction Services if the Transaction Services record retention period has not expired. Requests must use the Request for Retransmission of Interfund Bill (DLMS 812R ,DIC QB1) format. See Chapter 6 for Transaction Services record retention requirements and options for retrieving bill copies.

C4.8.2. Retransmitting Copies. Transaction Services will retransmit copies of all bills wherein the billing office DoDAAC, bill number, and year within decade and month of credit match the same information on the request.

C4.8.3. Copies of Noninterfund Bills. Requests for copies of noninterfund bills will normally be addressed to the billing office.

C4.9. REQUESTS FOR CHANGE IN BILLING METHOD

C4.9.1. Change in Billing Method

C4.9.1.1. When billing offices bill under interfund procedures and MILSBILLS procedures do not allow for such billing, billed offices will forward requests for adjustment in the format prescribed for BAC 52.

C4.9.1.2. When MILSBILLS procedures prescribe billing under interfund procedures, billing offices will deny requests for improperly billed interfund.

C4.9.1.3. When the requisition or customer asset report improperly designates interfund billing and the interfund billing cannot be processed, refer to the following subparagraph for requesting rebilling under noninterfund procedures.

C4.9.2. Properly Billed Interfund to Noninterfund

C4.9.2.1. When a billed office is unable to process a billing record under interfund procedures, the billed office may have the item or items billed under noninterfund procedures by forwarding a request for billing adjustment citing BAC 51.

Use of this advice code is an admission by the billed office that the requisition or other document was incorrectly coded.

C4.9.2.2. Requests citing BAC 51 may be submitted only when the funds or charge cannot be disbursed or processed under interfund procedures. All such requests will be honored by the billing office; the billing office may challenge this assertion.

C4.10. ADJUSTMENTS FOR DISCREPANCY REPORTS

C4.10.1. Financial Adjustment

C4.10.1.1. Discrepancy reports will be submitted, reviewed, processed, validated, and responded to in accordance with the procedures described in the requirements in Table C4.T1.

Table C4.T1. Adjustments to Discrepancy Reports

Reporting of Transportation Discrepancies in Shipments DTR 4500.9-R "Defense Transportation Regulation"
Supply Discrepancy Reporting, DLM 4000.25, Volume 2, Chapter 17
Product Quality Deficiency Program, DLAR 4155.24/AR 702-7/SECNAVINST4855.5A/AFR 74-6
Stock Readiness Program, DLM 4000.25, Volume 2, Chapter 21

C4.10.1.2. Billing offices will process financial adjustments or claims citing the applicable Type of Bill Code (QD, WP, WU, or TD) based on the discrepancy report when the discrepancy report is validated and all of the following MILSBILLS or GSA criteria are met:

C4.10.1.2.1. Discrepancy Not Otherwise Resolved. The discrepancy was not resolved otherwise; for example, the vendor does not replace deficient materiel for a validated PQDR.

C4.10.1.2.2. Materiel Billed and Paid. The materiel was billed and paid previously or, in the case of reporting on a constructed document number, there is a reasonable basis for assuming that the items were previously billed and paid.

C4.10.1.2.3. Materiel Returned. The materiel is received by the depot in those cases where the discrepancy report reply requires the return.

C4.10.1.3. The discrepancy involves GSA shipments and the Transportation Discrepancy Report (TDR) exceeds $25 per line (detail billing record) (DBR) or the Supply Discrepancy Report (SDR) exceeds $50 per line (DBR). There is no minimum adjustment level on PQDRs involving GSA shipments. There are no adjustment dollar value limitations for discrepancies involving DoD shipments *or materiel in storage reported via Storage Quality Control Report (SQCR)*.

C4.10.1.4. The original MILSTRIP requisition number is included on the PQDR, SDR, *or SQCR*. When the original requisition number cannot be identified, the origina*tor, material owner,* or screening point must include a constructed 14 position MILSTRIP document number using the origina*tor, owning activity*, or screening point's DoDAAC for the first six characters, the current Julian date (YDDD) for the next four positions, and a four position serial number beginning with "U" as the first position of the serial number. An example of a constructed document number is F123453175 U001. Code U is also carried as a utilization code under DLMS. Note: For SDRs, circumstances authorizing the use of a constructed document number are restricted to those described in DLMS, Volume 2, Chapter 17. *For SQCRs, circumstances authorizing the use of a constructed document number are restricted to those descripted in DLMS, Volume 2, Chapter 21.*

C4.10.1.*5*. Improper Commitment. When a reply to a discrepancy report improperly commits the billing office to providing an adjustment (e.g., the shipment was never billed), the billing office will ask the replying office to correct the reply to the discrepancy report.

C4.10.2. Other Discrepancy Adjustment Rules

C4.10.2.1. Adjusting Discrepancy Reports. Requests for adjustments related to TDRs will be submitted only when the adjustment is not received and more than 60 calendar days have elapsed since the report was filed. Requests related to PQDRs, SDRs, *and SQCRs* should be timely, but must not be submitted until a minimum of 60 calendar days have elapsed since receiving notification that the discrepancy is validated (i.e., that an adjustment is approved). When the promised adjustment for a discrepancy is contingent upon the return of materiel, the request will not be submitted until a minimum of 60 calendar days have elapsed since shipping the materiel with additional allowance for transportation time to the shipping activity. When a reply to a discrepancy report is not received, follow up as prescribed by DLMS Volume 2, Chapter 17 *or 21, as applicable*.

C4.10.2.*2*. The portion of credits for materiel laterally redistributed may be fully or partially reversed by the IMM when a discrepancy report documents the materiel was not shipped in a condition warranting full credit.

C4.10.2.*3*. Activities responsible for discrepant shipments may be held responsible for costs incurred for repackaging, disposal, unauthorized returns, deficient

packaging, and other item and packaging discrepancies that have been documented and validated under SDR procedures. Although other mutually agreeable arrangements may be made, such costs will normally be recovered under noninterfund procedures and will be supported by the validated discrepancy report. In addition, when such returns are creditable, these discrepancy costs may be offset against the credit to which the returning activity is otherwise entitled.

C4.10.2.*4*. Adjustments based upon PQDRs will be forwarded to the code and bill-to DoDAAC indicated on the PQDR. If omitted, adjustments will be sent to the DoDAAC indicated (TAC 3, or TAC 1 if no TAC 3 exists) of the requisition number provided on the PQDR and the fund codes in Table C4.T2.

Table C4.T2. Default PQDR Fund Codes

BILLED SERVICE CODE	FUND CODE
N, P, R, or V (Navy)	96
All Others	QD

C4.11. ADJUSTMENTS FOR BILLING ERRORS

C4.11.1. The following are billing errors and will not be accepted for processing unless the minimum value criterion (Section 4.1) for requesting adjustment is met:

C4.11.1.1. Duplicates

C4.11.1.2. Wrong amount billed

C4.11.1.3. Wrong office billed

C4.11.1.4. Improper billed

C4.11.1.5. Promised adjustment not received

C4.11.1.6. Other problems

C4.11.2. Duplicates

C4.11.2.1. Duplicate Billing Line

C4.11.2.1.1. A duplicate billing line is a second or later billing for a single shipment or adjustment. If the second or later billing resulted from a second or later shipment, financial adjustment procedures do not apply. See, instead, discrepancy report procedures for duplicate shipments in DLMS Volume 2, Chapter 17.

C4.11.2.1.2. To obtain adjustment for duplicate detail billing records not previously adjusted by the billing office, submit a separate request for each duplicated billing record in the format prescribed for BAC 11.

C4.11.2.2. <u>Duplicate Bill</u>

C4.11.2.2.1. This is an interfund or noninterfund bill (SF 1080 or equivalent), that is supported entirely by duplicate detail billing records. In the case of interfund bills, the bill is also included on the billing office's interfund report.

C4.11.2.2.2. Adjustments for duplicate interfund bills may be requested only upon confirmation that the bills (original and duplicate) were, in fact, reported to the buying service's Central Accounts Office (CAO). To obtain an adjustment, submit a Request For Summary Level Billing Adjustment (DLMS 812R, DIC FDE) for each duplicated bill citing:

C4.11.2.2.2.1. BAC 42 when the bill, details and summary are identical, including the bill number to a previous bill,

C4.11.2.2.2.2. BAC 43 when, except for the bill number, the bill details and summary are identical to a previous bill, and

C4.11.2.2.2.3. BAC 44 when <u>all</u> of the supporting detail billing records of one bill have been included on another bill. The bill containing such previously billed DBRs is the duplicate bill.

C4.11.3. <u>Wrong Amount Billed</u>

C4.11.3.1. <u>Purpose</u>. A wrong amount billed refers to a billing line in which the unit price, quantity, or price extension is erroneous.

C4.11.3.2. <u>Exceptions</u>. Do not request adjustment for wrong amount if:

C4.11.3.2.1. The unit price is the correct standard or catalog price and you are questioning the price. Follow price challenge procedures instead.

C4.11.3.2.2. The extension does not agree with the amount billed and Sales Price Condition code B is indicated. In this case, the unit price shown on the billing record is the inventory carrying value, the standard unit price. The billing unit price, if needed, must be computed.

C4.11.3.2.3. The quantity billed equals the quantity ordered or shipped and a lesser quantity is received. Follow the appropriate DLMS Volume 2, Chapter 17 discrepancy reporting procedure instead.

C4.11.4. <u>Wrong Office Billed</u>

C4.11.4.1. Request. Request an adjustment for wrong office billed when the office billed does not agree with the coded requirements of the requisition or adjustment request and the coding indicated a valid billed office DoDAAC. A valid billed office DoDAAC is one listed in the DoD Activity Address Directory (DoDAAD) with the proper authority code (See Chapter 6, C6.2.2.1.2 of this volume).

C4.11.4.2. Request Denial. When the billing was prepared in accordance with the requisition or modification received by the Inventory Control Point/Integrated Materiel Manager (ICP/IMM), the request will be denied.

C4.11.4.3. Wrong Office Assigned. When the billing office assigned the billed office as prescribed in Chapter 2 and the office assigned is not the intended office, the billed office will transfer or otherwise process the bill in accordance with procedures prescribed by the DoD Component. If the offices involved are serviced by the same finance center, the billed office ll contact the intended billed office or requisitioner and make arrangements for transferring the bill.

C4.11.5. Improper Billing

C4.11.5.1. General. A DLMS 812R, Adjustment Request citing the proper billing advice code should be submitted to billing offices to request adjustments for improper billings. For purposes of this section, an improper billing is a billing line which:

C4.11.5.1.1. Charges for materiel requisitioned under nonreimbursable procedures;

C4.11.5.1.2. Charges improperly for accessorial costs;

C4.11.5.1.3. Charges for materiel following a reply that a billing could not be rendered; or

C4.11.5.1.4. Charges for materiel confirmed cancelled when the materiel is not received.

C4.11.5.2. Cancelled. When a billing for materiel is received on a requisition that was confirmed cancelled by the ICP or IMM and the materiel is not received, a request for adjustment in the format prescribed for BAC 17 will be forwarded to the billing office. When the materiel was received or if the requisition was not confirmed cancelled by the ICP or IMM, MILSBILLS procedures do not apply. Follow instead procedures prescribed for reporting SDRs. Although annotations on a shipping document, in conjunction with other factors, may support a discrepancy report, they do not support an adjustment for improper billing. A validated discrepancy report is needed.

C4.11.5.3. Backordered. A request for adjustment in the format prescribed for BAC 18 will be forwarded to the billing office whenever a billing is received on a

requisition that was backordered <u>and</u> the receipt of the billing status, confirming that the materiel was not received. Do not submit requests citing BAC 18 prior to obtaining this status.

       C4.11.5.4. <u>Billing Cannot Be Rendered</u>. Billed offices will request adjustment in the format prescribed for BAC 20 whenever the billing office issues a bill after advising, in a response to a request for billing status (Billing Status Codes DC and DF), that a bill could not be rendered.

     C4.11.6. <u>Promised Adjustment Not Received</u>. Billed offices will forward an Adjustment Request (DLMS 812R, DIC FAB/FJR) with the proper billing advice code to the billing office to follow-up on unreceived promised adjustments and more than 30 calendar days have elapsed since receiving a reply promising the billing or adjustment.

     C4.11.7. <u>Lateral Redistributions (In-Storage Visibility For Both Consumables and Reparables)</u>. Offices promised credits for lateral redistributions (In-Storage Visibility (ISV) for both consumables and reparables) will follow up on credits not received within 30 calendar days of the date shipment confirmation is submitted to the ICP/IMM. The initial request must be made by submitting a Request for Billing Adjustment (DLMS 812R, DIC FAE) record citing BAC 27 to the ICP/IMM.

     C4.11.8. <u>Other Billing Problems</u>. Billed offices or others will request adjustments for problems not covered by billing advice codes by forwarding a letter (or message) of explanation along with the information required to process the request for BAC 55. The billing office will normally respond with an Adjustment Request (DLMS 812L, DIC FAR or FJR format).

C4.12. <u>PRICE CHALLENGES AND VERIFICATION</u>. <u>DoD 4140.1-R</u> DoD Supply Chain Materiel Management Regulation, May 23, 2003 prescribes the basic DoD requirements under Service and Agency Price Challenge And Price Verification Programs. Price challenges and verification are often mistaken for MILSBILLS "wrong unit price billed" procedures. Contact IMM/ICP customer service for assistance filing price challenges.

C4.13. <u>DISPUTED RESPONSES TO REQUESTS FOR ADJUSTMENT</u>. Billing and billed offices are expected to resolve their differences regarding adjustment requests. However, when a billed office does not agree with the billing office's response and the billed office considers the amounts involved significant, the billed office may consider the dispute an unresolved problem and follow the procedures prescribed in Chapter 1.

C4.14. <u>ADJUSTMENTS FOR CHANGE NOTICES</u>

     C4.14.1. <u>Recording Undelivered Orders</u>. If an order is placed with or through the DWCF, an undelivered order (obligation) should be recorded when the order is placed. A non-stock numbered item should be recorded as an undelivered order when the order

is accepted. An adjustment to the undelivered order should be processed when a change notice affecting price, quantity, or an acceptable substitution of a like item is received from the stock fund. Refer to DoD 7000.14-R Volume 6 for more specific information on the above requirements.

C4.14.2. Customer Not Receiving Change Notice. If a DBOF customer does not receive a change notice at all or in time to cancel or modify the order and additional funds are required, the materiel may be refused or returned to the DBOF and an adjustment requested. Adjustments for this reason will be forwarded by mail and must be signed by the activity accounting officer. The request must meet the following requirements and will state essentially:

"As a result of a price change, quantity change, or authorized substitution, the value of the materiel received exceeds amounts obligated and all available obligation authority. Request credit for the indicated quantity and items delivered under the following requisition document and suffix number. Please also provide us with the return instructions for the materiel."

C4.14.3. Honoring Requests. The billing office will honor all such requests and provide adjustment, without regard to dollar value, after the materiel is returned. The ordering activity will also contact the ICP/IMM to arrange for the return.

C4.15. SECURITY ASSISTANCE DISCREPANCIES AND BILLING ERRORS

C4.15.1. The Military Department may automatically grant adjustments[1] and charge or credit the administrative surcharge fund when:

C4.15.1.1. The request cannot be rejected per the general conditions of the U.S. Letter of Offer and Acceptance, and

C4.15.1.2. The transaction was billed on a DD Form 645A, Foreign Military Sales Statement.

C4.15.1.3. The amount of the adjustment requested is either (1) less than $100 or (2) less than the amount approved[2] for that Military Department by the Defense Security Cooperation Agency.

---

[1] Automatic adjustments may be withheld from specific customers if there is a pattern of abuse of this authority. When such a pattern exists, all discrepancies and billing errors from that customer should be researched.

[2] Military Departments may request approval for a different adjustment level. The dollar amounts of automatic adjustments will be determined by an agency cost effectiveness study which compares the administrative cost of conducting necessary research to determine specific responsibility versus the cost which will be incurred by the administrative surcharge pool if an automatic refund is authorized. The agency cost effectiveness study must be submitted to Defense Security Cooperation Agency for review and approval.

C4.15.2. Adjustments for IMM/ICP charges that may not be automatically charged to the administrative fund will be prepared and forwarded to the IMM/ICP in accordance with the procedures contained in this chapter.

C4.16. CREDITS FOR EXCESS REPORTS (MATERIEL RETURNS PROGRAM)

C4.16.1. Procedures. Materiel returns program procedures are prescribed by DLMS Volume 2.

C4.16.2. Processing Credits. Billing offices will process credits for excess reports during the first billing cycle after receiving notification that materiel authorized for return under creditable procedures has been received in a condition warranting credit. The portion of credits for materiel laterally redistributed may be fully or partially reversed by the IMM when a discrepancy report documents that the materiel was not shipped in a condition warranting full credit.

C4.16.3. Materiel Returns Program or Procurement Offset Status Request (In-Storage Visibility For Both Consumables and Reparables). Offices expecting MRP or procurement offset (ISV for both consumables and reparables) will request credit status using the Follow-up for Materiel Returns Program Credit (DLMS 812R, DIC FTP). The initial request should be prepared when the credit has not been received and more the 30 calendar days have elapsed since the Materiel Receipt Status (DLMS 870M, DIC FTZ), citing a creditable status or the Shipment Status (DLMS 856S, DIC AS6) is received by the IMM/ICP.

C5. CHAPTER 5

INTERFUND BILLING SYSTEM PROCEDURES

C5.1. POLICY

    C5.1.1. General. It is DoD policy that DoD customers authorize suppliers to use the interfund billing system to reimburse themselves for materiel, hazardous materiel and waste services, and services related to materiel shipments.

    C5.1.2. Exclusions

        C5.1.2.1. The interfund billing system is not mandatory for use when the involved funds are Military Assistance Grant Aid or where only limited sales occur between the DoD Components.

        C5.1.2.2. The interfund billing system may not be used to bill non-DoD customers (e.g., state or local governments, private contractors, individuals, or nonappropriated fund instrumentalities) or for major end items such as complete aircraft, ships, tanks, space vehicles, and missiles.

        C5.1.2.3. Except for the General Services Administration (GSA), the Federal Aviation Administration (FAA), and the National Oceanic and Atmospheric Administration (NOAA), non-DoD suppliers may not use the interfund billing system to bill DoD customers.

C5.2. PRINCIPLES OF THE INTERFUND BILLING SYSTEM

    C5.2.1. The interfund billing system allows suppliers to reimburse themselves, from appropriations designated by the customer, at the time of billing. The supplier forwards an automated billing to the billed office and reports to the Treasury Department a reimbursement of the supplying funds, with an offsetting charge to the customer's fund.

    C5.2.2. Interfund bills are both "bills" and "notices" to a customer that its funds have been charged and the "bill" paid.

    C5.2.3. Billed offices will, upon receipt of the "bill", either accept and record the charge for the complete or partial bill or, when the charge is questionable or erroneous at the detail bill level or in dispute, record the charge into the designated default account for further research. Charges will remain uncleared pending completion of research and resolution.

C5.2.4. Only the billing office or Central Accounts Office (CAO) is authorized to adjust or otherwise reverse reimbursements reported to the Treasury Department on behalf of the billing office.

C5.3. PREPARATION OF INTERFUND BILLS

C5.3.1. Interfund bills are made up of one or more detail billing records with the same fund code, and a single summary billing record. The summary billing record represents a summary of the supporting detail billing records.

C5.3.2. Detail billing records in support of interfund bills will be prepared in accordance with Defense Logistics Management Standards (DLMS) 810L transaction or Appendix 3 for legacy 80 column card transactions.

C5.4. CENTRAL ACCOUNTS OFFICES

C5.4.1. General. CAOs are Defense Finance and Accounting Service (DFAS) Centers or other federal agencies given the responsibility of reporting on interfund in the Statement of Interfund Transactions to the Treasury Department. Depending upon the customer organization, they may have seller and or buyer CAO responsibilities.

C5.4.2. Seller Central Accounts Offices. Transaction Services forwards copies of interfund summary billing records to seller CAOs. Based upon these records, seller CAOs report seller interfund self-reimbursements and related buyer disbursements to the Treasury Department. Seller CAO interfund bill responsibilities are identified by the service code of the seller DoD Activity Address Code (DoDAAC) described in Table C5.T1.

Table C5.T1. Seller CAO

SELLER DoDAAC BEGINS WITH	SELLER CAO
Numeric	GSA
F	DFAS-CO
M	DFAS-CL
N	DFAS-CL
Other	DFAS-IN

C5.4.3. Buyer Central Accounts Offices. Buyer CAOs are responsible for interfund bill clearance and report, to the Treasury Department, buyer adjustments of the disbursement side of seller reported interfund transactions. Neither buyers nor their CAOs can directly or indirectly adjust the reimbursement side of interfund transactions reported by seller CAOs. Buyer CAO interfund bill responsibilities are determined by the appropriation disbursed according to Table C5.T2.

Table C5.T2. Buyer CAO

INDEX	TREASURY SYMBOL	SUB-ALLOCATION HOLDER IDENTIFIER	BUYER CAO
17	All	All	DFAS-CL
21	All	All	DFAS-IN
57	All	All	DFAS-CO
97	NOT 4930	All	DFAS-IN
97	4930	All	DFAS-IN

C5.5. INTERFUND REPORTS

C5.5.1. Billing Office Reports. CAOs will base interfund reimbursements upon summary billing records received from Transaction Services for interfund bills passing DLMS prescribed Transaction Services edits. Therefore, upon implementation of the revised seller interfund reporting procedures, DLMS no longer requires sellers to forward DD Form 1400, Statement of Interfund Transactions or equivalent reports to their accounts office. However, CAOs may continue to require their reporting activities to submit seller interfund reports for a transition period determined by the accounts office.

C5.5.2. Billed Office Reports. Each billed office will report (i.e., correct or otherwise clear) interfund disbursements charged to the office in accordance with procedures prescribed by its Service or Agency.

C5.5.3. Department Level Reports. CAOs will consolidate Department level "Statement of Interfund Transactions" and prepare related reports from interfund reports received from billed offices and summary billing records validated by Transaction Services.

C5.6. STATEMENT OF INTERFUND TRANSACTIONS

C5.6.1. Purpose and Reports Control Symbol. This section prescribes a monthly report on interfund transactions. The DD 1400 *"*Statement of Interfund Transactions*"* provides OUSD(C) with a summarized classification of receipts and outlays processed under the interfund billing system.

C5.6.2. Applicability and Scope. The provisions of this section apply to the DoD Components and to their disbursing officers (referred to collectively as "disbursing officers"). It establishes the requirements and procedures for the preparation and submission of interfund transaction reports.

C5.6.3. Report Form. The "Statement of Interfund Transactions" must be prepared monthly and contain totals for each appropriation/Sub-Allocation Holder Identifier charged and reimbursed, the reporting period, and identify the reporting office. GSA will submit an equivalent "Statement of Interfund Transactions."

C5.6.4. Frequency and Distribution. The "Statement of Interfund Transactions" must be submitted to the OUSD(C) as promptly as possible, but no later than close of business on the 2nd workday of the month immediately following the close of the reporting month.

C5.6.5. Adjustments. In preparing the "Statement of Interfund Transactions," CAOs or offices designated by the DoD Components or participating Agencies will convert invalid accounts to the charged agency's default appropriation as indicated in Appendix 2.2. of this guidance.

C5.6.6. Other Reporting Requirements

C5.6.6.1 Extract of the Statement of Interfund Transactions

C5.6.6.1.1. Each Military Department (and GSA for its equivalent report) must furnish an "extract" of the "Statement of Interfund Transactions" to the DoD Components and other participating Agencies for which it collects or disburses showing the transactions for that Component or Agency. The DoD Components may be identified by their unique Sub-Allocation Holder Identifier on department 97 appropriations.

C5.6.6.1.2. Extracts of the "Statement of Interfund Transactions" (and GSA equivalent) that are forwarded to DoD CAOs will be supported by summary billing records (DLMS 810L/Document Identifier Code (DIC) FS). The summary billing records will be forwarded electronically to the CAO responsible for clearance. The CAO responsible for clearance is determined by the departmental index of the disbursed appropriation and, in the case of department "97" appropriations, by the DoD Component identification contained in the appropriation's Sub-Allocation Holder Identifier. Table C5.T3 identifies the CAO responsible for clearing interfund bills:

Table C5.T3. Department of Defense Central Accounts Offices

CLEARANCE CAO	COMMRI	INDEX	COMPONENT[1]
DFAS-Indianapolis	RUQADVU	97	Other than USAF, USN, USMC, and SDDC Sub-Allocation Holder Identifier FD30
		21	All
DFAS-Columbus	RUVEGAA	97	USAF
		57	All
DFAS-Cleveland	RUEBJNW	97	USN and USMC
		17	All

C5.6.6.1.3. The extracts should be submitted as soon as possible but no later than 2 workdays after the Statement of Interfund Transactions is submitted to OUSD(C).

C5.6.6.2. Defense Agency Appropriations. A "Statement of Interfund Transactions" summarizing the transactions by appropriation for each Defense Agency must be provided to the Director of Budget and Finance, Washington Headquarters Service, 1155 Defense Pentagon, Washington, DC 20301-1155.

C5.6.7. Hard Copy Report Preparation

C5.6.7.1. General

C5.6.7.1.1. Each interfund report must be completed with the minimum required information.

C5.6.7.1.2. If more than one sheet is used to report transaction amounts, the grand total for each column must be shown on the last page of the statement. Page totals are optional.

C5.6.7.1.3. Each hard copy statement must be signed by the officer under whose direction it was prepared.

C5.6.7.1.4. Negative amounts must be identified by the suffix "CR."

C5.6.7.2. Columnar Entries

---

[1] For purposes of this procedure, the Component Identification for 97X4930 is in the 1st position of the Sub-Allocation Holder Identifier and is A (USA), N (USN), F (USAF), M (USMC), and 5 (Defense Agencies). For other than 97X4930, the identification is in the 1st two positions and is 01 (USA), 02 (USAF), 04 (USN), and 05 (USMC).

C5.6.7.2.1. <u>Appropriation or Fund /Symbol</u>. Enter the department index number assigned by the Treasury Department as a prefix to that department's appropriation symbols, fiscal year or other appropriate indicator (e.g., "X" if no year, etc.), treasury account symbol of the appropriation, other fund, or receipt account for which the transaction amounts are being reported. Include any prefix or suffix prescribed by the Treasury Department on the classification authorization. No other suffix or prefix may be shown.

C5.6.7.2.2. <u>Reimbursements (Credits)</u>. Enter the amounts of collected appropriation reimbursements applicable to each related appropriation or other fund account.

C5.6.7.2.3. <u>Expenditures (Charges)</u>. Enter the amounts of disbursements chargeable to each appropriation or other fund symbol.

C5.7. <u>CENTRAL ACCOUNTS OFFICE LEVEL INTERFUND PROCEDURES</u>

C5.7.1. Army, Navy, Air Force, and GSA will prescribe procedures consistent with those prescribed in this Manual for:

C5.7.1.1. Reporting interfund reimbursements and disbursements originated by Activities serviced by their disbursing offices and will be included in their "Statement of Interfund Transactions."

C5.7.1.2. Adjusting, accepting or otherwise clearing interfund disbursements charged to Activities serviced by their disbursing offices and whose adjustments will be included in their Statements of Interfund Transactions.

C5.7.1.3. Ensuring there are adequate controls over interfund-related transactions such that:

C5.7.1.3.1. Lapsed accounts are not reported to the Treasury Department or the other DoD Components.

C5.7.1.3.2. Invalid account symbols are converted to the agency default appropriation as defined in Appendix 2.2 of this regulation.

C5.7.1.3.3. Seller interfund reimbursements reported to the Treasury Department are based upon interfund billings validated by Transaction Services.

C5.7.1.3.4. Disbursements charged to billed offices are processed by the billed office.

C5.7.1.3.5. <u>Uncleared Disputed Transactions</u>

C5.7.1.3.5.1. Uncleared "disputed" transactions will be researched and cleared within a reasonable period (i.e., within 120 calendar days of the date the disbursement was reported to DFAS when the entitlement office and accounting office are not co-located and 90 days when they are co-located). Amounts placed in suspense; that is, charged to the clearing account, are transferred to another account or are otherwise cleared within the same period as above.

C5.7.1.3.5.2. Within 90 days of the disbursement being report to DFAS, or 60 days if co-located, DFAS will ask the customer to follow up on uncleared detail bills. When a customer leaves a detail bill uncharged for 120 calendar days (90 days if co-located), DFAS will contact the customer for an appropriation to charge to clear the detail bill. Only when a written notification from the seller that an adjustment is forthcoming may the item remain unprocessed after this timeframe. Within 90 days of the suspense date (60 days if co-located), DFAS will ask the customer to clear the amount in suspense and provide an alternative account for the disbursement.

C6. CHAPTER 6

DEFENSE AUTOMATIC ADDRESSING SYSTEM

C6.1. <u>GENERAL</u>. This chapter describes Defense Logistics Management Standards (DLMS) Finance related procedures and processes for the Defense Automatic Addressing System (DAAS). DLM 4000.25-4, "Defense Automatic Addressing System" provides additional information regarding support furnished by Transaction Services.

C6.2. <u>MILITARY STANDARD BILLING SYSTEM PROCESSING</u>

   C6.2.1. <u>Requirement to Route Bills to DAAS</u>

      C6.2.1.1. As indicated in Chapter 2, sellers will route all interfund and automated "G" series noninterfund billing records to DAAS for editing, retention, and further routing to billed offices.

      C6.2.1.2. Only interfund bills passing MILSBILLS prescribed edits and routed by DAAS are eligible for reporting to the Treasury Department and interfund reimbursement.

      C6.2.1.3. All billing records will be electronically routed to DAAS.

   C6.2.2. <u>Bill Editing and Billed Error Rejection</u>

      C6.2.2.1. DAAS will edit and reject any bill that fails any of the following edits:

         C6.2.2.1.1. The record count (positions 5-7 of the legacy 80 column card format) of the summary billing record equals the actual count of the supporting detail billing records.

         C6.2.2.1.2. The bill-to Department of Defense Activity Address Code (DoDAAC) (positions 30-35) of the summary billing record is a valid DoDAAC, and is authorized for use as a bill-to party in accordance with the DoDAAC authority code, as outlined in DoD 4000.25, "Defense Logistics Management Standards" Volume 6 (DoD Logistics Systems Interoperability Support Services), Chapter 2 – Department of Defense Activity Address Directory. Note that DoDAACs are deleted to prevent requisition transactions from being processed through Transaction Services. Once the delete effective date has passed, the DoDAAC will remain on the DoDAAD master file for five years before the record is physically removed from the master file, and bills with the bill-to authorized in accordance with the DoDAAC authority code will not reject as invalid during this period. After the five year period, deleted DoDAACs are removed from the Transaction Services database, and subsequent bills will reject as invalid DoDAACs.

C6.2.2.1.2.1. The bill-to DoDAAC of the summary billing record is authorized for use as a bill-to party. An unauthorized United States Air Force (USAF) bill-to activity is identified by its structure.

C6.2.2.1.2.1.1. DoDAAC begins with FT or FF indicating a non-appropriated funded activity,

C6.2.2.1.2.1.2. DoDAAC begins with FA or FY, or

C6.2.2.1.2.1.3. The first position of the DoDAAC is an "F", followed by one numeric character in position two, and an alpha character in position three.

C6.2.2.1.3. The amount (positions 65-73) of the summary billing record equals the sum of the amounts (positions 65-73) of the supporting billing records.

C6.2.2.1.4. The bills are identified as interfund and authorized to be billed under interfund procedures.

C6.2.2.1.5. The bill-to is one of the following F numeric or F numeric alpha DoDAACs.

C6.2.2.1.5.1. F (Numeric) (Numeric) (Numeric) (Numeric) (Numeric)

C6.2.2.1.5.2. F (Numeric) (Numeric) (Numeric) (Numeric) (Alpha)

C6.2.2.1.5.3. F (Numeric) (Numeric) (Alpha)

C6.2.2.1.5.4. FA series

C6.2.2.1.5.5. FF series

C6.2.2.1.5.6. FT series.

C6.2.2.1.6. Discrete values for the Standard Line of Accounting data elements in the transaction match data elements from the SFIS Fund Code to Fund Account Conversion Table for the Fund Code in the transaction.

C6.2.2.1.7. Fund code is not valid on the SFIS Fund Code to Fund Account Conversion Table for the Service/Agency Code.

C6.2.2.2. Rejected bills will be reported back to the originating activity using DLMS 824R (Reject Advice Transaction) citing the applicable Reject Advice Code from DLM 4000.25-2, MILSTRAP, Appendix 2.8. Rejected bills may include a narrative description indicating the reason for rejection, in addition to the Reject Advice Code. In addition, the second record position of the Reject Advice Code will be inserted in rp4 of

the MILSBILLS legacy DIC FS_/GS_ Summary Bill and displayed in MILSINQ, hyperlinked to the narrative reason for rejection.

C6.2.2.2.1. Originators may retrieve any rejected bills within one hour of original submission to DAAS. When appropriate, billing offices will correct and resubmit rejected bills.

C6.2.2.2.2. Billing offices must ensure that adjustments for rejected billings are properly recorded in their seller accounting records.

C6.2.2.3. Upon successful completion of the bill edits, Transaction Services will:

C6.2.2.3.1. Route billings to the billed office by the best available means.

C6.2.2.3.2. Ensure that electronically routed bills are routed to the billing communications routing identifier (COMMRI) code assigned to the billed office DoDAAC.

C6.2.2.3.3. Ensure that non-electronically routed bills are mailed to the clear-text address of the billed DoDAAC identified for billing.

C6.2.2.4. DAAS will forward images of interfund summary billing records to the seller's Central Accounts Office (CAO).

C6.2.3. Bill Retention. Transaction Services must retain a copy of non-security assistance bills for two years and security assistance bills for four years after initial routing.

C6.3. BILL COPY RETRIEVAL

C6.3.1. Copies of bills may be retrieved in any of the following ways:

C6.3.1.1. MILSINQ. Images of bills may be retrieved from DAAS through their web-based MILSBILLS Inquiry (MILSINQ) process. See section C6.5.

C6.3.1.2. Retransmission Request. Bills may also be retrieved from DAAS by submitting a Request for Retransmission of Interfund Bill (DLMS 812R/Document Identifier Code (DIC) QB1).

C6.3.1.2.1. Transaction Services will retransmit a copy of all bills matching the billing office DoDAAC and bill number provided on the request. Although unlikely, it is possible that Transaction Services will find and retrieve a current and prior year bill matching the prescribed retransmission criteria.

C6.3.1.2.2. The retransmission request may also be requested via the Internet as part of the MILSINQ process.

C6.3.1.3. Telephone Request. Transaction Services will accept telephone requests (937-656-3247 or DSN 986-3247) for copies. Telephone requests are limited to no more than five bills and the service will be terminated if abused.

C6.3.2. Only copies of bills routed by DAAS and within the record retention period may be retrieved through the methods described in C6.3.1 above. However, whenever DAAS does not find a matching bill, it will create and forward a request for copy of bill (DLMS 812R/DIC FAE billing record, with Billing Advice code 41) to the billing office.

C6.3.2.1. Billing offices failing to respond to requests for copies of interfund bills received within the record retention period will be directed by their Service or Agency headquarters to reverse the billing. Billed offices will absorb all charges in the manner prescribed by their Service or Agency when the record retention period has elapsed and they have failed to obtain copies of the bill(s).

C6.3.2.2. Forward a billing adjustment reply (DLMS 812L, DIC FAR) with Billing Status code DA to advise the requesting office that they have referred their bill retransmission (copy) request to the seller.

C6.4. FUND CODE TABLES.

1.   Fund code tables appear on the Defense Logistics Management Standards Website www.dlmso.dla.mil/elibrary/manuals/dlm/v4.asp.

C6.5. MILITARY STANDARD BILLING SYSTEM INQUIRY PROCESS

C6.5.1. General MILSINQ Information

C6.5.1.1. MILSINQ is a process established by Transaction Services to allow its customers to remotely query the DAAS MILSBILLS database as an alternative to the DLMS 812R and DIC QB1 retransmission (send a copy of the bill to me) means of obtaining billing information from DAAS. MILSINQ may also be used for the Military Standard Requisitioning and Issue Procedures (MILSTRIP) materiel obligation validation process.

C6.5.1.2. Bills may be queried by the billing DoDAAC or billed DoDAAC and may be narrowed to a particular billing month or bill.

C6.5.1.3. Once identified, the bills can be viewed, printed, saved to a local PC, or retransmitted (copy sent by DAAS to a designated recipient).

C6.5.1.4. The MILSINQ Website[1] is
https://www2.transactionservices.dla.mil/milsinq. Users will generally be logged off systems after 5 minutes of idle time.

C6.6. <u>MILITARY STANDARD BILLING SYSTEM-RELATED REPORTS</u>

C6.6.1. <u>Introduction</u>

C6.6.1.1. As part of its logistics information data services, DAAS accumulates data from MILSBILLS records it routes and generates reports for MILSBILLS use. The reports cover the preceding 12 months.

C6.6.1.2. The following MILSBILLS-related reports are available from https://www2.transactionservices.dla.mil/milsinq:

C6.6.1.2.1. Interfund billing adjustments by billing office (Routing Identifier Code (RIC) sequence).

C6.6.1.2.2. Interfund bills by billed office (DoDAAC sequence).

C6.6.1.2.3. Interfund bills by billed office (DoDAAC within Service).

C6.6.1.2.4. Interfund bills by billing office (DoDAAC within Service).

C6.6.1.2.5. Interfund bills by billing office (RIC sequence).

C6.6.1.2.6. Interfund bills by route to COMMRI (COMMRI sequence).

C6.6.1.2.7. Interfund bills rejected by Transaction Services (RIC sequence).

C6.6.1.2.8. Interfund bill retransmission requests.

C6.6.1.2.9. In-storage Visibility Redistribution (ISVR) credit report 'Lateral Redistribution.'

C6.6.1.2.10. Rejected interfund bills by billed office (Service sequence).

C6.6.1.2.11. Rejected interfund bills by billing office (DoDAAC within Service).

[1] If the application is not accessible from your browser, contact your local Internet support office for assistance in configuring your telnet application for your browser.

C6.6.2. Interfund Billing Adjustments By Billing Office Routing Identifier Code

C6.6.2.1. This report provides each billing office RIC with data related to billing adjustment requests and responses. With the exception of DIC QB1, all adjustment requests processed by DAAS during the indicated reporting month and year are included. Figure C6.F1 shows an example of this report.

Figure C6.F1. Interfund Billing Adjustment Example

```

C6.6.2.2. Total number of requests and replies are provided for each billing RIC, with subtotals for each listed RIC series (first position of RIC) and a grand total for the report. Request details include numbers by advice code groupings and reply details include numbers by billing status code groupings.

C6.6.3. Interfund Bills By Billed Office. This report provides each billed office (BILLED DODAAC) with the number of interfund bills (NO. BILLS), the number of detail billing records (NO. DETAILS) that supports the bills, and the value ($ VALUE) of interfund bills processed by DAAS during the report month. The report provides a page break, a total (SUBTOT) for each service, and a total (TOTAL) for the report. Figure C6.F2 shows an example of this report.

C6.6.4. Interfund Bills By Billing Office. This report provides each billing office (BILLING RI CODE) with the number of interfund bills (NO. BILLS), the number of detail billing records (NO. DETAILS) that support the bills, and the value ($ VALUE) of interfund bills processed by DAAS during the report month. The report provides a page break, a total (SUBTOT) for each Service, and a total (TOTAL) for the report.

C6.6.5. Interfund Bills Rejected By DAAS. This report identifies, in a summarized form for each billing office, the number, value, and reasons why interfund bills were rejected by Transaction Services. Figure C6.F3 shows an example of this report.

Figure C6.F3. Interfund Bills Rejected Example

C6.6.6. Interfund Bill Retransmission Request. This report summarizes the number of interfund bill retransmission requests and outcomes for the requests by billing RIC. Figure C6.F4 shows an example of this report.

Figure C6.F4. Interfund Bill Retransmission Request

C6.6.7. <u>Interfund Bills By Route-To COMMRI Code</u>. This report provides a monthly summary of interfund bills by "route-to" COMMRI code for bill route by DAAS, the number of interfund bills (NO. BILLS), number of detail billing records (NO. DETAILS), and the dollar value of the bills (DOLLAR VALUE) are summarized by Service for each billed-to DoDAAC (BILLED DODAAC) within a communications office to which bills are routed (COMMRI) by DAAS during a month.

C6.6.8. <u>In-storage Visibility Redistribution Credit Report</u>. This is a report of laterally redistributed materiel and ISV procurement offset reimbursements. It shows the number and dollar value of credits for materiel, transportation, packing, crating, and handling by DoDAAC and/or RIC receiving the credit. See Figure C6.F5 for an example of this report.

Figure C6.F5. In-storage Visibility Redistribution <u>Credit Report</u>

C6.6.9. <u>Rejected Interfund Bills by Billing Office (Service Sequence)</u>. This report provides a listing of interfund bills that failed MILSBILLS prescribed DAAS edits. These bills were returned by Transaction Services to the billing office. The report identifies bills by billing office and identifies the billed DoDAAC, bill number, and dollar value. See Figure C6.F6 for an example of this report.

C6.7. OTHER DEPARTMENT OF DEFENSE ACTIVITY ADDRESS CODES AUTHORIZED INTERFUND

C6.7.1. Transaction Services will edit service code H requisitions to ensure that interfund procedures are appropriate for the requisitioner. Other DoD Components' requisitions for which interfund billing is appropriate are those in which the requisitioning DoDAAC is identified as authorized interfund billing. See Appendix AP1 for more information.

C6.7.2. If necessary, Transaction Services will change the fund code cited on other DoD Components' requisitions to XP when the H-Series requisitioning DoDAAC is not identified as authorized interfund billing.

C6.7.3. Other DoD Components may add their DoDAAC (to allow for interfund billing) or delete a listed DoDAAC (mandatory noninterfund billing). To request a

change, contact the H Series Fund Code Monitor at
https://www.dlmso.dla.mil/CertAccess/SvcPointsPOC/allpoc.asp.
