

## **2015 DLA Disposition Services Hazardous Waste Contracting Symposium**

Welcome! We're busy putting together the agenda and topics for the Symposium. This year's symposium will include an introduction to Better Buying Power 3.0, a discussion of requirements and associated schedule to include services and waste disposal, reverse auction, Contracting Officer Representatives (CORs), manifest tracking, and other topics. We invite you to join us and encourage you to tell us your concerns and ideas. How can we make the hazardous waste disposal process better for everyone involved?

Disposition Services believes a key to our success is the strong communication among our contractors, our customers, and our program and contracting offices. Symposiums are a great way to promote communication and to enhance our business process. Below are links to register your attendance at the Symposium and to submit topics you would like discussed, innovative ideas, questions, concerns, and/or comments.

POC is Mr. Robert Steed, [Robert.Steed@dla.mil](mailto:Robert.Steed@dla.mil)
