Message from the DLA Disposition Services Resource Management Director

Hello customers,

In these uncertain times, it is great to be able to share some good news stories from our field sites and the Law Enforcement Support Office (LESO). Our goal is to reutilize property and the stories show how DLA Disposition Services is saving money and making a difference.

In this edition, we have highlighted the medical support program. DLA Disposition Services receives medical equipment and supplies daily available on a global scale. Additionally, the Navy has collaborated with DLA Disposition Services on scrap property removals to save millions in coming years. We have included information about sales proceeds which offsets the military service level bills.

Thank you for your continued support.

Connie Nowicki

Support to the Military

Fiscal Year 2020
YTD through
February

Line Items		Quantity (includes all unit of measure)	Acquisition Value	
Army	Turn-Ins	543,293	51 million	\$3 billion
	Reutilization	4,928	215,332	\$87 million
Navy	Turn-Ins	179,218	15 million	\$1.5 billion
	Reutilization	4,812	84,566	\$69 million
Air Force	Turn-Ins	154,445	11 million	\$940 million
	Reutilization	3,062	57,477	\$181 million
Marine Corps	Turn-Ins	60,979	6 million	\$978,000
	Reutilization	1,010	19,133	\$41 million
Coast Guard	Turn-Ins	4,986	205,954	\$21 million
	Reutilization	12	208	\$235 ,000

The Legend of Bill the Goat

Bill the Goat has been the Naval Academy mascot since the early 1900s. Legend has it that a Navy ship once kept a goat as a pet, but on the way back to port the goat died. Two ensigns were entrusted to have the goat stuffed, but were distracted by a Naval Academy football game. One of the ensigns allegedly dressed up in the goatskin and pranced around at halftime. The crowd loved it, and the Navy won the game.

Medical Support News

Military medical responders have a very important job and help keep the warfighter alive and in the fight. Training is vital to honing their skills to ensure they are effective in combat and other stressful situations. DLA Dispositions Services receives all kinds of medical equipment and supplies daily available to you on a global scale. DLA is here to support your short and long-term training requirements. Let us help you expand your capabilities and increase your relevance as the “go-to” site for warfighter training.

The types of military services supported include:

Trauma Centers
Special Operations Combat Medic Schools
Hospitals
Ambulance Training Schools
Expeditionary Combat Medic course
Other Medical Units

Benefits of Using DLA Medical Training Support:

- Provides the warfighter with medical supplies and equipment for training use and for war ready stock.
- Use our excess supplies to provide realistic training aids and simulations to enhance skills and readiness of your troops.
- Global DLA locations and support.
- Receive heads up emails on incoming supplies and training aids.
- Direct DLA Disposition Services support with DLA Reutilization Transfer Donation (RTD) website and assistance locating items in need.
- DLA headquarters requisition support.
- Requisition history reports can be provided at any time to ASO/command staff.

How do you get support?

Ensure your command Account Supply Officer/Property Book Officer has approved your DLA access and your upcoming request for equipment.

- Establish an account with the RTD website.
- Log into the RTD website to begin screening property and if possible, use an Account Supply Officer during checkout.

Scrap partnership to save Navy millions

By Jake Joy

DLA Disposition Services Public Affairs

Battle Creek, Mich., March 5, 2020 —

The Navy has partnered with Defense Logistics Agency Disposition Services on Puget Sound scrap removal that could potentially save millions in coming years.

For three decades, Washington’s Puget Sound Naval Shipyard & Intermediate Maintenance Facility has produced an average 16 million pounds of scrap annually, according to Thomas McPike, the shipyard’s Ships Recycling Off-Hull assistant project superintendent. The bulk of that came from demilitarization and deconstruction of eight nuclear surface ships, more than 120 nuclear submarines and shipyard facilities. McPike said an average submarine recycling effort takes a year and typically involves cutting a vessel into pieces loaded onto trucks or railcars.

Enter DLA Disposition Services, whose entire focus is on offering property disposal solutions that allow the armed services to focus on lethality. As DOD’s resident expert in demilitarization, Disposition Services offers Demilitarization as Condition Of Sale (DCoS) contracts with commercial scrap vendors around the globe that enable it to efficiently rid military customers of their on-site demilitarization-required property and bypass the man hours, equipment and training needed for meeting stringent demilitarization regulations.

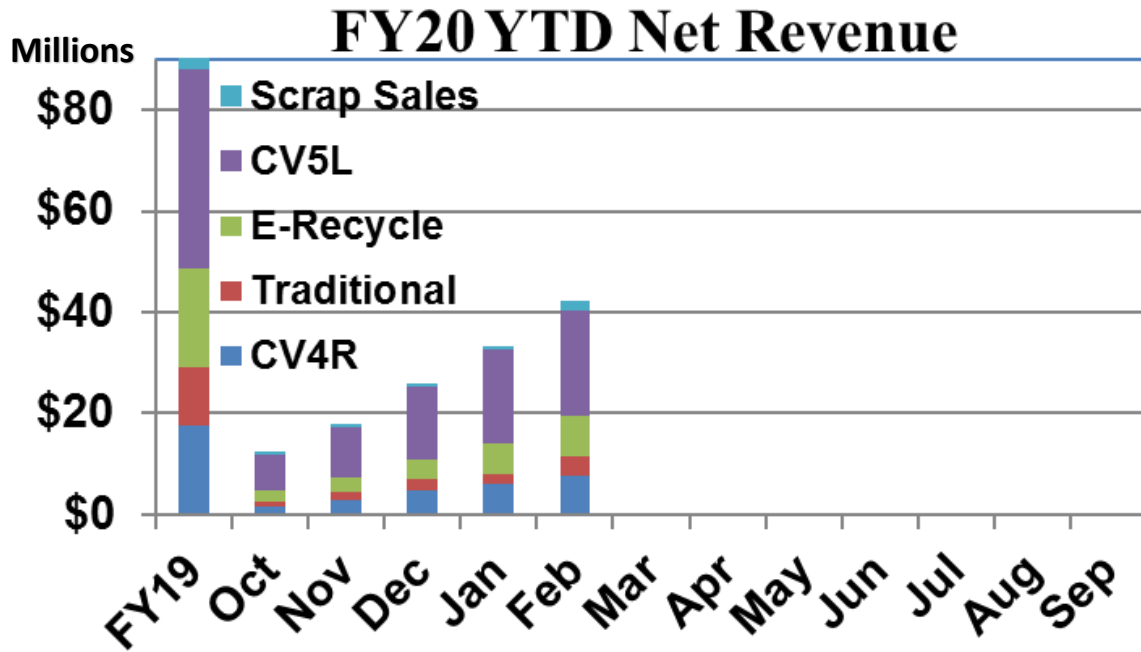

The contract initially calls for barge transport of about nine million pounds of nuclear submarine pieces and shipyard facilities scrap to a firm in Tacoma where DLA personnel provide oversight of any required demilitarization. If the contractor, shipyard and DLA agree that the performance level has met collective expectations, there are options for adding on additional years of support.

“It’s allowing them to free up space, save valuable human resources and put their people to work on craftsman- and artisan-level projects instead of spending time managing oversized pieces of scrap or finding ways to cut them small enough fit into a truck,” Cannon said. “They feel they’re going to save millions for work they would have paid employees to do – work that our DCoS contractor will now do, but is also going to be paying us for the privilege of doing, based on the scrap they’ve generated. ... For now, the Navy seems to be extremely satisfied with our operation, partnership and level of support.”

Puget Sound Naval Shipyard & Intermediate Maintenance Facility riggers manage guide lines while transferring a load of nuclear submarine scrap to a transport barge as part of a Demilitarization as Condition of Sale contracting partnership with DLA Disposition Services.

DSD North-East

Schlarman Academy in Danville Illinois requisitioned new computers from Susquehanna under the Computers For Learning (CFL) program. The school is very happy with the computers!

They replaced 10 computers in a business classroom and 10 of 30 computers in their computer lab. They are so grateful for this wonderful donation. These machines replaced computers that were between 10 and 12 years old. The students have been excited to use the new computers. These are in use in their Junior and Senior High Schools. They also replaced 30 computers in the elementary school.

The Department of Defense (DOD) Computers for Learning (CFL) program was created to provide useful IT equipment to schools and educational non-profit organizations serving grades pre-kindergarten through 12th grade. The DOD CFL program is designed to streamline the transfer of excess and surplus DOD IT equipment to schools.

Are you upgrading computers?
Need computers for your school?

The application process is simple, just apply on-line and submit a Memorandum of Agreement (MOA). In addition, non-profit educational entities must submit their Articles of Incorporation, Board of Directors, and IRS 501(c)(3) (tax-exempt notification letter).

All MOAs must be current (the person who signed the MOA must still be employed by the school) before any computer equipment can be received by the school under the DOD CFL program.

For more program information visit our page

Or email the CFL program office DODCFL@dla.mil

DLA Disposition Services Colorado Springs

Immediately following the reward of the new scrap contract at Colorado Springs the site in conjunction with our new contracting partner facilitated the removal of a total of 168,620 lbs. of scrap steel and 16,020 lbs. of white goods. The site simultaneously completed the removal of 39,500 lbs. of scrap tires. Both events were completed safely in advance of a predicted windstorm.

Law Enforcement Support Office (LESO)

The State of Washington

Sheriff's office gets armored vehicle through military surplus program

Yakima County Sheriff's Office received a Mine-Resistant Ambush Protected vehicle (MRAP) through the Law Enforcement Support Office (LESO), a federal program that provides excess military equipment to law enforcement agencies at no charge. The program makes fiscal sense, since a civilian-built vehicle like Yakima's runs approximately \$425,000, while the military property has already been paid for by taxpayers years ago and is made available to law enforcement departments.

The State of North Dakota

The Stutsman County Sheriff's Office requisitioned an Oshkosh Defense M-ATV

The Stutsman County Sheriff's Office requisitioned an Oshkosh Defense M-ATV M1277 Utility armored rescue vehicle from the Red River Army Depot in Texas. The law enforcement agency has approximately \$4000 in freight, \$1000 in batteries and a free inspection from a local diesel shop. The LEA put the M-ATV to use during a blizzard.

Stutsman CSO has \$5000 into a like-new (it has 1,076 miles on it) armored rescue vehicle that they would never have the budget to purchase new. Sheriff Chad Kaiser was very happy talking about the unit and how it paid for itself in the first day they deployed it.

The State of Wyoming

LESO property deployed to Sweetwater County Sheriff's Office

Authorities in Sweetwater County rescued 12 people after they were stranded on White Mountain in last week's blizzard. Winds were gusting as high as 80 mph at the time, powerful enough to cause two of the vehicles to begin sliding down the mountain. Deputies used a four-track rescue vehicle called a Hagglands to cut a path up the mountain and find the four stranded vehicles, which were all within a half-mile of each other. The sheriff's office said it acquired the Hagglands vehicle in August through, the 1033 LESO program that transfers excess military equipment to local law enforcement agencies.

Indian Lake Delivers a Special Delivery

Indian Lake resident Gay Reed said Police Chief Jerry Bellak was a lifesaver when he delivered a 28-day supply of kidney dialysis provisions to her door. Reed said her steep, tree-lined driveway was covered with ice, and only the Indian Lake HMMWV was able to traverse the terrain. "If I didn't get those supplies down, I don't know what I would have done," she said.
