Oct. 24, 2016	THE OFFLINE FORM IS NOW WORKING! Folks will need to clear their IE cache (Delete Browsing History) and refresh their screen (ctrl-F5) in both the FireStat disconnected and connected forms. There is one minor bug, the confirmation message that the disconnected form was saved to the server will not appear, however error messages do. We appreciate your patience while we get this minor bug corrected. Thank you
