9. DESCRIPTION OF AMENDMENT/MODIFICATION (Except as provided below all terms and conditions of the document referenced in Item 5 remain in full force and effect)

A twelve (12) month option period is being exercised in accordance with pages 8, 11 & 12 in the general statement of the contract, and Article Five, Section One of the contract: The minimum requirement for the option period is an additional 80,000 DTID's or property having an original acquisition value (OAV) of \$100 million, whichever is the lesser amount. The maximum requirement for the option period is an additional 150,000 DTID's or property having an original acquisition value of \$550 million, whichever is the greater amount to stay within the limits of the contract. The parties agree that the contract maximum for the OAV in the base period of \$1.1B was exceeded by \$197.046M. The parties agree that this overage will be applied to the maximum OAV in the first option period. Thus the maximum OAV in the first option period will be \$352.953M. The base period is effectively being reduced from 24 months to 17 months 21 days. The overall permitted length of the contract will be reduced from 60 months to 54 months 10 days, assuming all other options are exercised. This option period of performance is 10/28/2022 - 10/28/2023.

CLAIMS: I hereby understand that by bilaterally signing this contract modification that I release the US Government, its officers, agents, and employees of and from all liabilities, obligations, claims, appeals and demand which it now has, whether administrative or judicial, legal or equitable arising under or in any way related to the base period of performance in IFB 21-068-001.

All further terms and conditions remain the same as outlined in sale 21-068-001.
