DLA Installation Support:

In November of 2007, the DLA Installation Support functions transferred in their entirety from DLA Distribution Susquehanna Pa. to DLA Installation Support, currently located on the New Cumberland installation.

DLA Installation Support is a DLA agency established to centralize support functions under one umbrella within DLA, and to take the burden of the installation support functions away from the Mission Commanders.

The DLA Installation Support Site Director manages the local activity now known as DLA Installation Support Susquehanna. The DLA Distribution Susquehanna Pa. Commander retains the title and authority of Installation Commander.
