

Supporting the Warfighter

History of Excellence

DLA Energy's history stems from years of long-lasting support to the military. We uphold a legacy of partnerships and collaborations with suppliers so that our Soldiers, Airmen, Sailors, Marines, Guardians and foreign partners have the fuel support they need for global operations.

2023: U.S. Transportation Command designated as DOD's lead for Global Bulk Fuel Management and Delivery; DLA Energy remains the bulk fuel integrated materiel manager.

2009: DLA Energy portfolio expands to include emerging areas of renewable and alternative energy sources.

2001: DLA Energy mission expands to include space-related products and services.

1998: DLA Energy begins helping privatize military service utility systems.
