PUB LOG Download and Installation Instructions

Beginning 1 Jan 2020 PUB LOG downloads are available from the Federal Logistics Information Services (FLIS) Data Electronic Reading Room at: <u>https://www.dla.mil/HQ/InformationOperations/LogisticsInformationServices/FOIAReading.aspx</u>

Step 1: Download PUB LOG

- * Once you select the link, the steps required to complete the download will depend on your internet browser:
 - Page 2 Download with Internet Explorer browser
 - Page 3 Download with Microsoft Edge browser
 - Page 4 Download with Google Chrome browser
 - Page 5 Download with Firefox browser
- Step 2: Unzip or extract PUB LOG download Page 6 – Unzip/extract files
- Step 3: Install PUB LOG to your Hard Drive Page 9 *Skip to "Step 4" to just run the application from the unzipped folder location
- Step 4 –Run PUB LOG from your computer or a shared location, no installation Page 11 *Use if "Step 3" skipped

1. INTERNET EXPLORER BROWSER:

You will get a pop-up asking what to do with the PublogDVD.zip file. "Save as" will let you rename the file and choose a location.

| Internet Explorer | × |
|--|------------|
| What do you want to do with Publo | ogDVD.zip? |
| Size: 1.89 GB From: publogstorage.blob.core.windows.net | |
| → Open | |
| The file won't be saved automatically. | |
| \rightarrow Save | |
| \rightarrow Save as | |
| | |
| | Cancel |

Choose a name and location to save the file, then click "Save".

| × |

| Save as type: Comp | ressed (zipped) Folder (*.zip) | | | | | | \sim |
| | | | | | | | |
| ∧ Hide Folders | | | | | Save | Cancel | |

Depending on your settings the download may start automatically and the file will be saved as the default file name (PublogDVD) in the location dictated by your settings (typically your Downloads or Documents folder). A notification will appear at the bottom of the screen letting you know the download has started

Click the \wedge on the file name button then select "Show in folder"

This will open the default file location (typically in your Documents or Downloads folder) where the download was saved.

| What should Fire O Open with Save File Do this <u>a</u> uto | fox do with this file? Windows Explorer (default) matically for files like this from now on. | ~ |

To confirm the download started and/or to check status click the downloads button on the menu bar at the top or hit Ctrl+J

Once the download has completed right click and choose Open Containing Folder to go to the default storage location (typically your Downloads or Documents folder)

STEP 2 – Extract or Unzip the files

Once the file is downloaded the zip file will operate the same regardless of the browser used. **1. Navigate to the location where the zip file was saved and open the zipped folder.** This Folder contains all the zipped (compressed) files

This will bring up the complete list of files contained on the PUB LOG zip download. The files are still compressed/zipped at this point and will need to be unzipped/extracted before you can run the application.

2. The next step is to extract the files.

This process may vary slightly based on utility used to extract zipped file. The following examples use the WinZip utility to extract the files.

Double click on any of the executable (.EXE) files.

| File Home Share | Compressed Folder Tools Pu View Extract | ublogDVD (2).zip | | | - 🗆 × |

1) If you get a Windows Defender Warning, Click on More Info

2) Then select Run anyway

3) PUB LOG Welcome Screen - Choose preferred installation type:

a. Abbreviated – This installation creates a shortcut icon only. The shortcut will open the software from the unzipped/extracted location. Note: The extracted files must be maintained in the same location for the software to operate properly.

b. Typical (Recommended) – This installation copies only the application(s) and a shortcut icon. It does not include the data/database files that are in the unzipped/extracted location. Note: The extracted files must be maintained in the same location for the software to operate properly. Requires 5MB of free hard drive space.

Since the extracted/unzipped files have already been saved, the Abbreviated and Typical installations will appear and operate the same for most customers.

c. Complete – This installation copies all the extracted/unzipped files to your preferred location which may be a file server on a network. Note: Choose Complete installation if installing to a network drive. Requires an additional 3G of free hard drive space. Once complete the extracted/unzipped files can be deleted.

Configure your install preferences and click Install

4) When the Install has completed select Done

| | Malcomo to | |
|---------|---|---|
| nstall | | × |
| | ation folder Installation folder created | |
| Execut | ables and DLLs | |
| ⊻ | Installed program files | |
| Start n | nenu Updated start menu link | |
| Disc co | ontents | |
| | | |
| | | |
| | Done | |

5) PUB LOG will be added to your Start Menu

6) And Icons will be added to your desktop (if selected during the previous step)

Step 4 –Run PUB LOG from your computer or a shared location, no installation: *Step 4 only use if "Step 3" skipped

- 1) Browse to the location where the extracted PUB LOG files were saved
- 2) Select IMD64.EXE for "Classic" or IMD2.EXE for the IMD format
