WebFLIS Quick Reference Guide

WebFLIS Queries and Searches

WebFLIS provides access to all FLIS Data for searching by Individual or Combination Standard, Characteristics, Medical, Weapon Systems, and Bill of Materials/Sets, Kits, and Outfits (BOM).

Note: WebFLIS is Role based and certain views/queries may not be available to all roles. If you have the Basic Role, you will not see the Weapon System Data View.

WebFLIS Data Views:

The Query selection menu allows the following two types of view selections. If no information is available for the requested item or the particular Data View, the system will return a message indicating that no results are found for that specific query.
