## Logistics Information Services

As a business service activity of the Defense Logistics Agency, Logistics Information Services (J34) mission is to enhance global defense readiness through logistics information. Logistics Information Services accomplishes its mission by optimizing the effectiveness and efficiency of the DOD supply chain. We provide interoperability and integrated logistics data for the Military Services, DOD, Federal agencies, NATO and partner nations. Logistics Information Services is designated as the United States (U.S.) National Codification Bureau and represents the USG on the North Atlantic Treaty Organization (NATO) Allied Committee 135 responsible for cataloging policy that governs the NATO Codification System. For more information visit: <https://www.dla.mil/HQ/LogisticsOperations/Services/FIC/>

The NATO Codification System (NCS) is governed by the NATO Allied Committee 135 (AC/135) and is composed of representatives from each NATO and partner nation along with the NATO Support and Procurement Agency (NSPA). The AC/135 provides and promotes the NCS as the primary means of codification used by the NATO Armed Forces, Government, and Industry in support of interoperability and effective global logistics operations. Through codification, AC/135 manages all aspects of classification, item identification, and NATO Stock Numbers used by NATO and Sponsored nations.
