Public Logistics (PUB LOG®) Data

The Public and Suppliers can have access to accurate National Stock Number (NSN) data via PUB LOG® - Public Logistics Data.

PUB LOG® is a product intended for use by public entities requiring NSN information and other cataloging information including Federal Supply Classification (FSC) data and Commercial and Government Entity (CAGE) codes.

PUB LOG® delivers publicly releasable logistics information. It is an interactive product available for free downloads that are updated monthly. It can be installed on users' workstations or local area network (LAN) using Integrated Mobile Database (IMD) software, integrating multiple database sources. These databases are mastered together into a single cohesive product.

Check the [*FLIS Data Reading Room*](#) for download updates and instructions. PUB LOG® downloads do not require a subscription or Common Access Card (CAC) authorization.

Please review the [*PUB LOG® download and installation instructions*](#) to learn more about accessing the PUB LOG® application.
