Price Challenge Request

Price Challenge and Verification programs raises the overall awareness of potential material overpricing/overcharging. The program puts the customer first through a process that allows individuals to submit suggestions, questions, or recommendations on issues of procurement actions or pricing. Price challenges allow customers to alert the DLA Supply Chains about possible overpricing, which enables continuous improvement of DLA processes by acting upon this customer feedback. The program provides DLA an important feedback loop that helps us improve customer satisfaction when we help them meet their readiness and weapon system acquisition support requirements at the lowest possible cost.

If you have evidence of overpricing, please feel free to submit a challenge or verification on any DLA managed Item of Supply – National/NATO Stock Number within the [Price Challenge application](#); For Government Entities, CAC enabled.

Non-government entities may submit Price Challenges or Verifications by email:

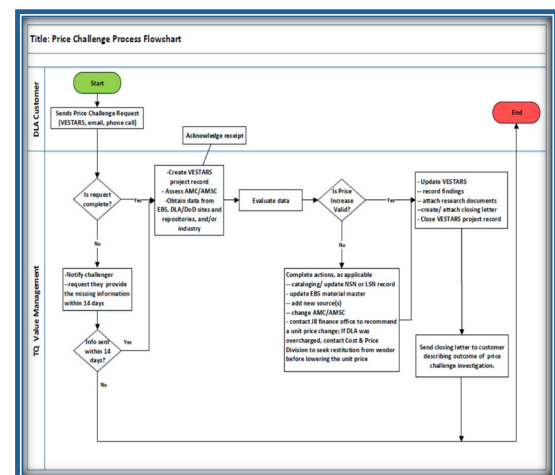

DLA Weapon Support Richmond (Aviation): pricechallenge.dscr@dla.mil

DLA Weapon Support Columbus (Land & Maritime): DSCC.Price.Challenge@dla.mil

DLA Troop Support Price Challenges: troopsupportpricechallenges@dla.mil

Please provide the following within your email:

- Company Name
- Point of Contact/s
- Phone Number
- National/NATO Stock Number (NSN)
- Item Name / Nomenclature
- Charged Unit Price and Unit of Issue
- Justification for the Challenge or Verification submittal
- Suggested Price / former NSN catalog Unit Price
- Supplier CAGE
- Supplier Part Number
- Any Attachments to assist in review

The Price Challenge or Verification will be reviewed and researched by the appropriate DLA Technical Quality Value Engineering and Management team, and will provide a formal response of the findings, valid or invalid price challenge.

Price Challenge or Verification Request via the internet – Common Access Card (CAC) is required for access. <https://vapps3.dla.mil/apex/public/f?p=171:4:1659534216419>
