

# CONTINGENCY AND DISASTER RELIEF OPERATIONS COMMODITY SELF-HELP BOOK

**DLA Logistics Operations (J3)**

<https://www.dla.mil/Logistics-Operations/>

*The information within this self-help book is provided by: [customeroutreach@dlamilitary.com](mailto:customeroutreach@dlamilitary.com) – Revised\* 15 November 2024.*

# Introduction

This Contingency and Disaster Relief Operations Commodity Self-Help Book contains information on DLA and other agencies managed materials, programs, and information that can be used to supplement information which is available on the DLA Enterprise web sites and other DOD/Federal Agencies.

The purpose of this Self-Help book is to provide Material and National Stock Number (NSN) level of detail for critical supplies, equipment, products, and services that can be used for planning and executions of task in support of Contingency and Disaster Relief Operations. Use WebFLIS®, FED LOG®, DLA EBS-MM03, SCS, One Touch, FedMall-DLA Orders and / or WebVLIPS to view the NSN's Total Item Record, the IMM, and the current information regarding the order fulfillment/procurement status details of the NSN.

The most current, electronic version of the Contingency and Disaster Relief Operations Commodity Self-Help Book can be obtained from the Customer Support <https://www.dla.mil/CustomerSupport/> web page.

The Self-Help Book is an electronic publication and is a living document, data is subject to change without notice, you can obtain the most current version reflecting data changes by downloading a copy from the Customer Support <https://www.dla.mil/CustomerSupport/> web page, e-mail: J31CB Customer Advocates [J31.customeradvocate.div.CB@dla.mil](mailto:J31.customeradvocate.div.CB@dla.mil).

Updates will occur continuously. Recommendations for changes, additions, or deletions can be sent to: Customer Advocates e-mail: J31CB Customer Advocates [J31.customeradvocate.div.CB@dla.mil](mailto:J31.customeradvocate.div.CB@dla.mil).

***CAVEAT: Always adhere to your organizations' policies and procedures. The Contingency and Disaster Relief Operations Commodity Self-Help Book does not alter, change, and/or supersede the System of Records, Logistics Instructions/Manuals/Regulations or Directives published by the DOD, Military Services, and/or Federal Agencies. The Contingency and Disaster Relief Operations Commodity Self-Help Book contains extracted and supplemental information regarding Materials, Products and Services available to the Military Services, DOD, and Whole of Government. Not all information, materials, NSNs, products, and services contained in this book is controlled or managed by DLA.***

# Overview

DLA has six major subordinate commands responsible for purchasing commodities and services common to all military services, other federal agencies, joint and allied forces, as well as a worldwide distribution system and operations that dispose of surplus or excess materiel from the military services. These commodities and services are managed by supply chains: Aviation, Land, Maritime, Medical, Subsistence, Clothing & Textiles, Construction & Equipment and Energy.

## DLA Aviation – Global Airpower Supply Solutions

<https://www.dla.mil/Aviation/>

Turbine engine components	Maps
Air frame structural parts	Environmental products
Flight safety equipment	Packaged petroleum
Electrical components	Industrial gases
Aviation lighting	Industrial plant equipment
Bearings	Kitting
Commodities	
Cables	

## DLA Energy – Comprehensive Energy Solutions to DOD and USG Agencies

<https://www.dla.mil/Energy/>

Executive Agent for All Bulk Petroleum	Bulk Petroleum Services
Aerospace Energy	Energy Solution Quality and Technical Support
Bulk Petroleum Products	Utility Services Contracts
Direct Delivery Fuels	Coal, Natural Gas
Government Fuel Cards	Alternative Fuels
Installation Energy	Bulk Industrial Gases

## **DLA Land and Maritime – Global Land and Maritime Supply Solutions**

<https://www.dla.mil/LandandMaritime/>

### **Land**

Land Readiness Room (LRR)

Wheeled, Tracked and Heavy Vehicle Parts

Vehicle Maintenance Kits

Engines, Transmissions and Suspensions

Tires

Batteries

Small Arms Parts

Kitting

### **Maritime**

Naval Forces Support - Ships, Subs, NRP

Valves

Fluid Handling

Electrical & Electronics

Motors

Gaskets & Packing

Kitting

## **DLA Troop Support – Global Subsistence, Clothing and Textile, Construction and Equipment, and Medical Supplies Solutions**

<https://www.dla.mil/TroopSupport/>

## **DLA Distribution – Global Distribution Network**

<https://www.dla.mil/Distribution/>

Wholesale and Retail Receipt, Store, Issue and Distribute Materiel

- [Customer Service](#)
- Inventory Management
- Preservation, Packaging, Packing & Marking
- Care of Supplies in Storage
- Materiel Movement Tracking and Expediting
- Material Processing Center (MPC) – CONUS and OCONUS locations
- Consolidation and Containerization Points (CCP)
- Theater Consolidation Shipment Point

All tied together via our integrated materiel management system called Distribution Standard System (DSS) [DLA DSS Material Tracker](#)

## **DLA Disposition Services – Global Reverse Logistics Solutions**

<https://www.dla.mil/DispositionServices/>

Reutilization - DOD and Military

Transfer - Federal Agencies

Donations - State and Local Agencies

Sales of excess DOD property

Contingency Operations Support

Demilitarization

Hazardous Waste Disposal

Law Enforcement Support Office

Special Programs

## **DLA Programs**

**Federal, State, and Local Government Programs:** Intro to Government Programs, Law Enforcement Support Office (LESO) 1033 Program, Firefighter Support (FESE TLSP), 1122 Program: Counter-Drug, Homeland Security and Emergency Response.

<https://www.dla.mil/Working-With-DLA/Government-Programs/>

## **Small Business Programs**

<https://www.dla.mil/Small-Business/Getting-Started/Programs/>

**Strategic Materials:** Acquisition, storage, sale, recycling and conversion of the critical raw materials operation and oversight of the national defense stockpile.

<https://www.dla.mil/HQ/Acquisition/StrategicMaterials/>

## **Environmental and Sustainable Programs**

<https://www.dla.mil/WhatDLAOffers/EnvironmentalandSustainablePrograms/>

- [Disposal of Hazardous Waste](#)
- [Precious Metal Recovery Program \(PMRP\)](#)
- [DLA Environmental Products & Services](#)
- [Strategic Material Recovery and Reuse Program \(SMRRP\)](#)
- [Green Products Inquiries](#)
- [Hazardous Minimization](#)
- [Regulated Materials Helpline \(PDF\)](#)
- [Qualified Recycling Program](#)

## **DLA Customer Assistance Handbook – Calendars and Brochures**

The 22nd Edition, now accessible to the public, is available for download currently. Please use the link to download [22nd Edition DLA Customer Assistance Handbook Download](#) (PDF version). To order hard copies, complete the [Information Request Form](#). Although we make every effort to provide our customers with up-to-date content in the handbook, information changes frequently. We continue to maintain the web version as the most recent version.

### **Conversion Calendar**

Customers can download and print calendars using the provide file below or request a hard copy of current calendar using the [Information Request Form](#).

- [DLA Conversion Schedule - 2025/2026](#) (Color PDF)
- [DLA Conversion Schedule – 2027/2028](#), (Color PDF) available for download.

### **Brochures**

- [Brochures](#) of DLA products and services are available online for printing or downloading.

## **DLA Self-Help Frequently Asked Questions**

### **[What item do I need?](#)**

Access the WEBFLIS® and DODAAC systems to get reference data for items available at DLA.

### **[Is an item available for order?](#)**

Access FedMall and DoD Supply Chain systems to find end-to-end asset visibility in the DOD logistics operational pipeline.

### **[I need to order, how can I get help?](#)**

Access FedMall and WEBREQ systems to learn more about requisitioning.

[What is the status of my order?](#)

Access Material Tracker systems like DSS and WEBVLIPS to track requisitions.

[How do I report problems with my order?](#)

Access WebSDR to submit Supply Discrepancy Reports.

[How do I dispose of an item?](#)

Access ETID, an electronic method for preparing a disposal turn-in document.

For DLA System Access or Technical Issues

For **system access, password resets, AMPS assistance** or other technical issues, please contact the DISA

Global Service Desk at:

Toll Free: 844-DISA-HLP ( [844-347-2457](tel:844-347-2457))

DSN: 850-0032

- Press 5, then speak or enter D-L-A

[DLA Service Portal](#) (CAC or User ID/Password required)

Email: [disa.global.servicedesk.mbx.dla-ticket-request@mail.mil](mailto:disa.global.servicedesk.mbx.dla-ticket-request@mail.mil) (Non-urgent general IT issues)

DLA recommends using the DLA's Customer Interaction Center (CIC) as your second step with researching your customer inquiries and/or placing Sales Orders. DLA CIC is dedicated to being your "One Call Resolution" point of contact for all logistics issues relating to DLA. DLA is leveraging technology to provide world class customer service, responding to customer needs quickly, accurately, and efficiently while providing quality solutions to real world logistics problems. Toll Free: 1-877-DLA-CALL (1-877-352-2255), DSN CONUS/OCONUS: 877-352-2255, and Commercial: (269) 961-7766. DLA Web site: <https://www.dla.mil/CustomerSupport/>, E-mail: [dlacontactcenter@dlamail.mil](mailto:dlacontactcenter@dlamail.mil).

### **Customer Emergency Requirements**

Please contact the DLA Customer Interaction Center for Customer Emergency Requirements/Emergency Requisitions and/or the corresponding Customer Relationship Management Cell identified in the DODAAC Look-up tool.

## **DLA Customer Interaction Center (CIC)**

The DLA Customer Interaction Center (CIC) is your “One Call Resolution” point of contact for all logistics issues related to DLA. We’re here for you 24 hours a day, 7 days a week, including government holidays.

Toll Free: 1-877-DLA-CALL (1-877-352-2255)

DSN CONUS/OCONUS: 877-352-2255

Commercial: 269-704-7921

Fax: 269-704-7930

Email: [dlacontactcenter@dla.mil](mailto:dlacontactcenter@dla.mil)

## **FedMall**

<https://www.dla.mil/Info/FedMall/>

FedMall is a single-entry point to find and acquire NSN items, COTS items, finished goods and services from the commercial marketplace and government sources. FedMall features include the ability to obtain status of all DLA managed materiel and FedMall orders in a single view as well as proactively identify supportability issues before they become backorders through Supportability Analysis and Stock Out Reports (SA-SORs). FedMall requires a User Registration. For more information and to register visit <https://www.dla.mil/Info/FedMall/>.

## **DLA Logistics Training (J31CT)**

Whether in need of training on WebFLIS®, FED LOG®, FedMall, Logistics Data Interpretation, or a full course on DLA’s organization, mission, and other DLA managed logistics web applications, we can provide this training at your location to include at Military schoolhouses and operational deploying units. Training is delivered in 4, 8 and 12 hour blocks of instruction by highly skilled instructors from DLA Training. Participants gain a complete understanding of the logistical relationship between their agencies and DLA. This training may be provided at no cost to the customer with sponsorship of the Military Services or other authorized U.S. Federal Agencies. Learn more about this training and other customer related courses at

<https://www.dla.mil/HQ/LogisticsOperations/TrainingandReference/Training/>.

## **J31CT Contacts**

For questions or additional interest in Training, contact the Customer Support Training at:

E-mail: [dla.tng@dla.mil](mailto:dla.tng@dla.mil)

## **Ration Programs/Products**

[Operational rations \(dla.mil\)](http://www.dla.mil)

Operational Rations are the first line of Subsistence in a combat situation or humanitarian assistance mission. Items include:

Meals, Ready-to-Eat - individually packaged and used by the services to sustain individuals during military operations that preclude organized food service facilities.

Unitized Group Rations - used when combat conditions permit the establishment of field feeding kitchens, they contain complete food and paper/plastic components to serve 50 meals.

For specific information on Operational Rations products, descriptions and forms select the appropriate option from the "Operational Rations" drop down menu on the left side of your screen. [DLA Troop Support Class I Return Policy](#)

The Operational Rations division ensures our military personnel receive subsistence support in the intense, highly mobile combat situations of the modern battlefield, while also supporting the civilian sector with humanitarian feeding. We are committed to supplying our customers timely and quality products at an affordable cost.

We are also responsible for Subsistence-wide Industrial Base, Value Management, Pest Management/Sanitation/Packaging, and Quality Audit Programs. Our Operational Rations programs

reflect the joint efforts of DLA Troop Support, the industrial base, and the [Natick Research, Development & Engineering Center](#) on behalf of the military services.

Customer Eligibility Policy: It is DLA Troop Support policy NOT to sell rations to individuals, whether members of the Armed Services or civilians. The Department of Defense regulations and DLA Troop Support policy permit the sale of rations to the following: U.S. military organizations, federal government-funded activities, activities empowered to perform a federal-government-legislated function, a DOD sponsored non-appropriated fund instrumentality, State Department sponsored employee commissary (CONUS and OCONUS), a foreign government when an authorized contractual relationship has been established, a federal government contractor, when the contract specifically provides for the purchase of stock fund items by the contractor and other entities when authorized by duly appointed officials. In some instances, sales are only permitted to these entities if other conditions are met.

## Meal, Religious, Kosher/Halal

What is it?

The Meal, Religious, Ready-To-Eat, Kosher or Halal is utilized to feed those individuals in the Military Service who maintain a strict religious diet. Each meal consists of one Kosher or Halal certified entree and religiously certified/acceptable complementary items sufficient to provide the recommended daily nutritional requirements. Each case of Religious Meals contains twelve meals with entrees and component/accessory items.

What's in it?

Each meal contains an entree plus a variety of components. In addition, an accessory packet with condiments/seasonings, utensils, flameless ration heater, and napkin is included with the meal. Each menu provides a minimum of 1200 Calories (11-13% protein, not more than 35% fat, and not less than 48% carbohydrate).

Kosher Menu	Halal Menu
<ul style="list-style-type: none"><li>• Tuscany Beef w/ Cannellini Beans</li><li>• Hickory Smoked Beef in Brown Rice with Lentils &amp; Vegetables</li><li>• Jalapeno Curry Beef w/Potatoes</li><li>• Chicken &amp; Rice</li><li>• Spicy Southwest Chicken in Rice w/Vegetables</li><li>• Pasta Marinara</li><li>• Chicken Noodle</li><li>• Spicy Vegetarian Chili</li><li>• Chicken Royale w/Brown Rice</li><li>• Classic Chicken Curry w/Basmati Rice, Lentils &amp; Vegetables</li><li>• New Orleans Gumbo w/Chicken</li><li>• Smoked Beef Paprikash Noodles &amp; Vegetables</li></ul>	<ul style="list-style-type: none"><li>• Vegetable Barley Ste</li><li>• Beef Roast w/ Vegetables</li><li>• Vegetables &amp; Lamb Jalfrazi</li><li>• Chicken Stew</li><li>• SAAG Chole w/ Lamb</li><li>• Lentil/Channa Del Masala</li><li>• SAAG Chole</li><li>• Chicken &amp; Vegetables</li><li>• Lamb &amp; Lentil Stew</li><li>• Beef Stew</li><li>• Oatmeal Almond Cherry</li><li>• Veg Barley w/ Lamb</li></ul>

*\*Menus are subject to change*

### How do I eat it?

Except for the beverages, the entire meal is ready to eat. While the entree may be eaten cold when operationally necessary, it can also be heated in a variety of ways, including immersion in hot water while still sealed in its individual entree package. A flameless ration heater has also been packed into each meal bag to heat the entree.

### How long will it last?

24-month shelf life from date of production.

### How can I order it?

The NSN for the Kosher Ration is 8970-01-424-1996 and for the Halal Ration is 8970-01-424-1998. Requisitions are processed according to the supply procedures for each Military Service. Point of contact is at (215) 737-5648, DSN: 444-5648 We can only sell Operational Rations (MREs, UGRs, etc.) to the U.S. Military Services and other authorized federally-funded agencies. We cannot sell to the private sector (individual, business, or other organizations). For further information, please [read our Customer Eligibility Policy](#).

### Ordering Lead-Time

<u>Location</u>	<u>Time</u>
Conus East Coast	10-14 business days
Conus Central/Mountains	14-21 business days
CONUS West Coast	21-28 business days
Hawaii & Alaska	45-60 days
OCONUS	90-150 days

**NOTE:** Kosher and Halal meals are not stocked and made to order. These lead-times are estimated, we do everything in our power to get meals to you asap. In addition to above lead-times, please take into consideration current food supply chain shortages, holidays, weather conditions/delivery & trans delays, surge in service requirements and other unforeseen circumstances. The KOSHER vendor is closed for Jewish holidays in Spring, Fall and end of year. The HALAL vendor is typically closed for a week at the end of summer and end of the year. The sooner you submit your order the better we can get you your meals by your RDD.

### **What is it?**

The Unitized Group Ration - Heat and Serve (UGR-H&S) is used to sustain military personnel during worldwide operations that allow organized food service facilities. The UGR-H&S is designed to maximize the use of commercial items and to simplify the process of providing high quality food service in a field

environment. All components for a complete 50-person meal are included in the UGR-H&S, with the exception of mandatory supplements, such as milk and cold cereal, and optional enhancements like bread and fresh fruit and vegetables. The UGR-H&S module is characterized by tray pack entrees and starches/desserts. Currently there are 5 breakfast and 10 lunch/dinner menus available. There is no minimum ordering quantity required (i.e., orders for single modules are accepted). The UGR-H&S Option is unitized into 3 boxes, which places 2 Fifty (50) Soldier menus on one tier of a pallet. One tier provides 100 meals, and one pallet (4 tiers) provides 400 meals. UGR-H&S average weight and cube per module is 124.5 lbs. and 5.25 cubic feet.

### **What's in it?**

The UGR HEAT AND SERVE (UGR-H&S) tray pack components are thermally processed, pre-prepared, shelf-stable foods, and currently packaged in hermetically sealed, half-size steam table containers. The container also serves as the heating pan and serving tray. With the exception of mandatory supplements, such as bread, milk and cold cereal, and optional enhancements like fresh fruit, vegetables, and salad, the 5 breakfast and 10 lunch/dinner menus contain all food items and disposable items (cups, compartment trays, and trash bags) necessary to feed 50 individuals. Each menu, including mandatory enhancements, provides an average of 1450 kilocalories (14% protein, 32% fat, and 54% carbohydrates) per serving.

### **How long will it last?**

The UGR-H&S option has a minimum shelf life of 18 months at 80 degrees F.

### **How can I order it?**

Each individual meal module has a National Stock Number (NSN). Requisitions are processed according to the supply procedures for each Military Service. Point of contact is at (215) 737-4360, DSN: 444-4360.

We can only sell Operational Rations (MREs, UGRs, etc.) to the U.S. Military Services and other authorized federally-funded agencies. We cannot sell to the private sector (individual, business, or other organizations). For further information, please [read our Customer Eligibility Policy](#).

### **Comments**

The Tray Pack Can, which is the critical component in the UGR-H&S, is currently in the process of being replaced by the Polymeric Tray. There is also an Arctic Supplement to the UGR-H&S available. This supplement is only to be used to augment the UGR-H&S. It contains Styrofoam clamshell trays and hot cups with lids and provides additional snacks and hot beverages. The NSN is 8970-01-470-5075 and provides an additional 914 kilocalories. The unit of issue is Module. Click here for a list of components. Point of contact is at (215) 737-4360, DSN: 444-4360.

### **Health and Comfort Pack (HCP)**

#### **HCP Contract Information**

Contract	Solicitation
<a href="#">SPE3S1-20-D-Z125</a> <a href="#">Table of Specifications (Components)</a>	<a href="#">SPE3S1-19-R-0008</a> Amendments

#### **National Stock Numbers (NSNs) for Health & Comfort Packs**

NSN	Description
8530-01-368-9154	Type I
8530-01-368-9155	Type II
8530-01-487-7488	Type III

#### **What is it?**

The Health and Comfort Packs (HCP) are designed to provide a means for forward area troops to acquire the everyday non-food necessities that are required for their health and comfort when the exchange system or local stores are not available to them. The contents listed here are the components that were procured on the last contract. Based upon field surveys, changes may be made in future procurements. If changes are made, they are usually in size of component or due to popularity of a new item, but the basic list of items generally remains the same. There are three types of HCP's, Type I, II and III. Type I- 58 lbs. and 3.3 cube (12 cases/pallet), Type II- 18 lbs. and 1.9 cube (16 cases/pallet) , and Type III- 22 lbs. and 2.2 cube (16 cases/pallet).

#### **What's in it?**

Type I contains components which are suitable for both males and females. The intent is to supply 10 persons for 30 days. The individual components listed in the Table for Health and Comfort Pack Type I shall be placed in the quantities specified into an individual, interlocking closure (zip), opaque polyethylene bag to form individual component packs (e.g., 10 toothbrushes in one bag; 10 tubes of

toothpaste in one bag; 10 dental floss in one bag; etc.) The polyethylene shall have a minimum thickness of 3 mil and dimensions sufficient to contain the components.

Type II is intended to supply 10 females for 30 days.

Type III is a washcloth-sized personal hygiene body wipe. The contents are intended for use by 10 individuals (male or female).

### **How long will it last?**

The shelf life remaining for all components at the time of assembly is two years at 50 to 72 F.

How can I order it?

The NSN for Type I (male and female), Health and Comfort Pack, is 8970-01-368-9154. The NSN for Type II (female), Health and Comfort Pack, is 8970-01-368-9155. The NSN for Type III (male and female), Health and Comfort Pack, is 8970-01-487-7488. Point of contact is at (215) 737-5648, DSN: 444-5648.

We can only sell Operational Rations (MREs, UGRs, etc.) to the U.S. Military Services and other authorized federally-funded agencies. We cannot sell to the private sector (individual, business, or other organizations). For further information, please [read our Customer Eligibility Policy](#).

### **Comments:**

The Health and Comfort Pack (HCP) is not stocked and is made to order by vendor.

The HCP is only intended for OCONUS requirements.

IAW AR 710-2, Supply Policy below the National Level, AR 30-22, Army Food Program, and ATP 4-41, Army Field Feeding and Class I Operations, that "Health and Comfort Packs (HCP's) are only authorized for use at environments where AAFES support is not available or cannot be readily established."

For CONUS units with access to AAFES's support, they can request their installation AAFES General Manager to prepare the packages (including items the unit will need based off the situation) that can be purchased using GPC.

## **Subsistence Commercial Item Descriptions (CIDs)**

[Commercial Item Descriptions \(CIDs\) \(dla.mil\)](http://dla.mil)

Commercial Item Descriptions (CIDs) are product descriptions that concisely describe the most important characteristics of a commercial product. CIDs are official U.S. Government procurement documents that are:

- Uniquely numbered in a Federal series
- Prominently dated for easy reference
- Appropriately titled (according to current Federal labeling policies)

### Related Links

- [ASSIST Quick Search](#) : Provides direct access to Defense and Federal specifications and standards available in the official DOD repository, the ASSIST database.
- [USDA Standards for Grades](#)

### **! Important Notice Regarding Document Changes !**

All Specifications and engineering support changes within this website are the latest approved versions developed by the Specification Preparing Activity. The appropriate individual contract specifications are cited in the individual contract document. Amendments and modifications must be incorporated into the contractual document before any specification or engineering change becomes contractual.

### **Federal Stock Classes listed on this page by code and title:**

- 8905: Fish, Meat, Poultry, & Shellfish
- 8910: Dairy Foods & Eggs
- 8915: Fruits, Juices, Nectar, & Vegetables
- 8920: Bakery & Cereal Products
- 8925: Confectionary, Nuts, & Sugars
- 8930: Jams, Jellies, Peanut Butter, & Preserves
- 8935: Bouillons, Soups, Soup & Gravy Bases
- 8940: Dietary Foods & Foods Specialty Preparation
- 8945: Fats & Food Oils
- 8950: Condiments & Related Products
- 8955: Cocoa, Coffee, & Tea

- 8960: Beverages & Beverage Mixes, Nonalcoholic & Water
- 8970: Composite Food Packages
- Miscellaneous

## **Field feeding and Food service equipment**

[Food Service Equipment \(dla.mil\)](http://dla.mil)

Subsistence offers a full line of equipment for preparing food in the galley, dining facility and in the field.

#### **Field Feeding Equipment NSNs:**

Containerized/Field Kitchens are managed by the U.S. Army and some of the components are managed by DLA. Please review the Technical Manual (TM) of the Kitchens for the list of components and NSNs.

NSN: 7360014733408

CONTAINERIZED KITCHEN WITH TRAILER

NSN: 2330014717006

TRAILER

The Containerized Kitchen (CK) is a mobile, rapidly deployable kitchen that is capable of preparing and serving up to 650 Army field menu meals (A-Ration, Heat and Serve Ration or any combination) up to three times per day. The CK enables cooks to prepare a meal (A-Ration) in less than three hours.

CONFIGURED IN AN 8X8X20 (ISO) CONTAINER // TM 10-7360-226-13&P, the TM is approved for public release and a draft could be viewed and / or downloaded via this link:

For customer support, call 215-737-3113 or DSN 444-3113

For industry support, call 215-737-4514 or DSN 444-4514

For technical support, call 215-737-0339 or DSN 444-0339

## **Clothing and Textiles**

[Clothing and Textiles \(dla.mil\)](http://dla.mil)

### Clothing New Recruits

Clothing and Textiles is the first provider of military clothing items to new Army, Navy, Marine and Air Force recruits. DLA Troop Support provides the basic items recruits need upon entering military service including service-specific utility uniforms, boots, socks and undergarments. C&T owns approximately \$44 million in inventory at eight recruit training centers throughout the country.

By maintaining on-hand stock at the RTCs for uniform items, our customers don't have to order or pre-pay for items. Once a recruit receives is uniform or "bag" items, they are recorded as a point-of-sale transaction using apparel-tracking technology. Each RTC uses radio-frequency identification technology equipment to improve inventory accuracy and return training time back to recruits. In some instances, uniform issuance time is reduced from three hours to one hour using RFID technology.

### Recruit Training Center locations

Army: Ft. Sill, Oklahoma; Ft. Moore, Georgia; Ft. Jackson, South Carolina; Ft. Leonard-Wood, Missouri

Marines: Parris Island, South Carolina; San Diego, California

Air Force: Lackland Air Force Base, Texas

Navy: Great Lakes, Illinois

Contact: 215-737-8315 or DSN 444-8315

## **Customer Support for Clothing and Textile (C&T)**

[Customer Support \(dla.mil\)](#)

### **Supply Request Package**

The introduction of new Clothing and Textiles items requires a Supply Request Package. Please open and fill out the SRP form and email it to C&T's Standardization Office at [TrpSptCTStandardiz@dla.mil](mailto:TrpSptCTStandardiz@dla.mil). For more assistance, call 215-737-2405.

[Supply Request Form](#)

More info on Supply Request Packages and Technical Data Packages:

[SRP and TDP reference guide](#)

[Form field descriptions of TDPs/SRPs](#)

[Sample purchase description - jacket](#)

### **Special Measurement Requests**

Military uniforms are manufactured in a full range of sizes designed to fit most people. For the occasion where a standard size garment can't be used, DLA Troop Support's Clothing and Textiles supply chain provides special measurement garments made to fit the customer's individual body shape.

Please see the documents below for how to measure uniform special measurements, and order forms for men's and women's special measurements.

- [How to measure for military uniform special measurement orders](#)

You can also email the special measurements team ([TrpSptCTPatterns@dla.mil](mailto:TrpSptCTPatterns@dla.mil)) for more information.

## **Tents and Shelters**

To order products found here, customers should log into [FedMall](#) and place an order by NSN, or contact the C&T [Tents team](#) for information on products without NSNs listed. See the [DLA FedMall page](#) for more info on how to register and get training on how to use the system.

## **Flags and Guidons**

<https://www.dla.mil/Troop-Support/Clothing-and-Textiles/#flags-and-guidons>

One of DLA Troop Support's most unique facets of support lie within the capabilities of Clothing and Textiles' flag room. The highly skilled embroiderers who work here hand and machine-embroider various battalion and brigade flags for military units, in addition to the presidential and vice-presidential flags.

C&T's embroidery specialists produce approximately 300 flags a year as requested by government agencies unless it's an inaugural season, when the number of flags produced triples. While the average hand-embroidered flag can take between 14-21 days to complete, the presidential flag can take up to 45 days as its intricate design requires 15 thread colors and flawless mirror-effect imaging.

C&T also works with vendors to procure American flags and other flags and guidons not produced in the flag room.

Contact: 215-737-4191

## **Protective Equipment**

<https://www.dla.mil/Troop-Support/Clothing-and-Textiles/#protective-equipment>

Most of the items **Clothing and Textiles** purchases are militarily unique with performance specifications. The body armor C&T provides to the armed services, including vests and ballistic inserts plates, is manufactured with life-saving technology and capabilities. Interceptor body armor, including an improved outer tactical vest and optional enhanced small armor protective inserts can stop or slow bullets and fragments, thus reducing the number and severity of wounds.

This modular system can be adjusted and gives leaders choices of which configuration to use, both hard and soft and provide service members with lighter-weight comfort and greater maneuverability. It also results in cost-saving benefits to customers as individual components can be purchased to upgrade previous versions of the IOTV, instead of buying the entire vest.

C&T also provides combat protective helmets, chemical protection suits and other individual equipment items designed to protect America's warfighters in harm's way.

Contact: 215-737-3274 or DSN 444-3274

\*\*\* Detailed descriptions and NSNs are in the following Specialty Shops, listed at FedMall - Warfighter Clothing and Textiles corridor.

## **Construction and Equipment**

[CEweb@dla.mil](mailto:CEweb@dla.mil)

### Construction and Barriers (Class IV)

DLA is the Executive Agent for Class IV Construction and Barrier Material, and the Construction and Equipment supply chain is responsible for the logistical support of construction and barrier equipment items: lumber, plywood, concertina wire, barbed wire, sandbags, container defense walls, pickets, airfield matting, sand grids and much more.

C&E partners with the warfighter to provide cradle-to-grave support for these items.

### **Barriers-Bastions - Wall, Protective**

## **Maintenance, Repair and Operations**

[Maintenance, Repair and Operations \(dla.mil\)](http://dla.mil)

Our maintenance, repair and operations program provide tailored support for facilities maintenance, public works, civil engineering, family housing and base supply customers around the world.

There are thousands of items supported through the MRO program, ranging from lumber, paint, small tools, and assorted hardware, and building supplies, to lighting, electrical, plumbing and HVAC supplies.

The MRO program was developed to help customers reduce inventories and associated costs, address reductions in infrastructure and processes, and capitalize on leveraged buying practices. Other benefits include greater control and flexibility in product selection, savings in storage and contracting costs, and on finance charges from credit cards. For more information, see our [MRO Customer Guide Booklet](#).

What the MRO prime vendor program can do for you:

- Bills of Materials (BOMs)
- Brand name preference
- Customer support/service
- Leveraged buying power.
- Total cost savings
- Inventory reduction
- Streamlined acquisition.
- Reduce logistics response time.
- Improve resource management.

MRO support has extended to non-Defense Department agencies such as the United States Department of Agriculture's Food Safety and Inspection Service, the Bureau of Reclamation in Grand Coulee, Washington, federal prisons, the National Imagery and Mapping Agency, FBI, Federal Aviation Administration and the U.S. Postal Service.

The Secretary of Defense cited the MRO program as one of the best practices adopted by the government in 1997. And former Vice President Al Gore honored the MRO program with his National Partnership for Reinventing Government award for its contributions.

## Special Operational Equipment (SOE)

[Spec Ops, marine, lifesaving \(dla.mil\)](#)

The Construction and Equipment supply chain has logistics solutions for marine lifesaving and diving equipment, tactical gear, safety equipment, search and rescue equipment, personal protection gear, flight deck and flight crew safety items, and explosive ordnance equipment.

The Special Operational Equipment tailored logistics support program enables customers to order commercial, off-the-shelf part numbered items within the scope of the contract. Since multiple vendors are solicited for prices, customers benefit from a competitive business model that will ensure best value for the customer.

### Special Operational Equipment (SOE) Ordering Process

As of November 2015, the following ordering procedures took effect for the Special Operational Equipment (SOE) Tailored Logistics Support Program (TLSP). The three major changes are highlighted below:

1. You must have a Finance Office Point of Contact (FOPOC) registered to your account in order to submit a request. If you have not registered a FOPOC for your account and need to do so, please use these [instructions](#) to complete the [Customer Registration/BidWiser FOPOC Designation Form](#) as needed. Customers will receive a hard stop notification upon initial order submission should a FOPOC not be registered.

2. All orders must now be UNFUNDED upon initial request to DLA Troop Support. We will no longer accept any method of funding up front. Column A of the Order Spreadsheet will no longer read R (Funded) or Q (Unfunded). This column will now be replaced with M (MIPR) or R (Requisition).
3. You and your registered FOPOC will receive a Price Acknowledgement Spreadsheet containing the proposed total price of your order(s). The FOPOC will complete this Price Acknowledgement Spreadsheet and, at that time, submit (with funding) to [SOEPriceAcknowledge@dla.mil](mailto:SOEPriceAcknowledge@dla.mil)

The [Excel SOE Order Spreadsheet](#) and [Customer Guidelines Document](#) detail the ordering process. Please be sure to read this Customer Guidance Document prior to submitting your first order under this new process, and review the following documents:

1. [New Process Flow Chart](#)
2. [MIPR Instructions](#)
3. [Material Receipt Acknowledgement in FedMall](#)

For more information, contact: [SOECustomerInfo@dla.mil](mailto:SOECustomerInfo@dla.mil)

For registration or order form questions, contact: [SOEOrders@dla.mil](mailto:SOEOrders@dla.mil)

DLA remains committed to ensuring a seamless transition during this process change, and we look forward to your continued utilization of the SOE TLSP in the future.

\*\* If your email address has changed, please contact [SOEOrders@dla.mil](mailto:SOEOrders@dla.mil) to update your account. \*\*

## **Fire and Emergency Services Equipment (FESE)**

[Fire and Emergency Services equipment \(dla.mil\)](#)

The Fire and Emergency Services Equipment (FESE) Tailored Logistics Support Program (TLSP) enables customers to order commercial, off-the-shelf part numbered items within the scope of the program. Since multiple vendors are solicited for pricing, customers benefit from a competitive business model that will ensure they receive the best value.

## **Lighting, HVAC, and Commercial Hardware**

[Lighting, HVAC and plumbing \(dla.mil\)](http://dla.mil)

The Construction and Equipment supply chain's Lighting program is the federal sector's "Provider of Choice" for all commercial lighting needs. C&E offers the full range of commercial lighting products and specializes in energy efficient lighting.

We specialize in energy efficient lighting such as compact fluorescent lamps, high-pressure sodium, metal halide and low fluorescent lamps, electronic ballast, low mercury lamps, LED lighting, energy efficient lighting fixtures and lamps.

The Heating Ventilation and Air Conditioning program provides refrigeration and AC equipment and components, fans, air circulators, blower equipment and space heaters.

Available Commercial Hardware items include fixtures, pipes, sewage treatment.

For more information, contact:

Lighting: 215-737-3719 or DSN 444-3719

HVAC: 215-737-8239 or DSN 444-8239

Commercial Hardware: 215-737-8487 or DSN 444-8487

## **Heavy Equipment Procurement Program**

[Heavy Equipment \(dla.mil\)](http://dla.mil)

The Construction & Equipment supply chain supports the acquisition of commercial heavy equipment used by military and federal government agencies through the Heavy Equipment Procurement Program (HEPP). A variety of heavy equipment is available through many major suppliers, including construction equipment, agricultural equipment, cranes, trucks, trailers, sweepers, scrubbers, firefighting, and rescue vehicles.

The current HEPP Guide and available Product List and Contracts can be access here:

<https://www.dla.mil/TroopSupport/ConstructionandEquipment/HeavyEquipment/>

## **Containers**

[Containers \(dla.mil\)](http://dla.mil)

The Construction and Equipment supply chain manages a variety of storage equipment including prefabricated and portable buildings, storage tanks, miscellaneous prefabricated structures, drums and cans, bottles and jars, bags and sacks, reels, and spools, and packing bulk materials. Our procurement team employs a variety of acquisition methods to meet the unique shipping and storage needs of our customers.

We have containers that are certified for airlift and helicopter operations, are weatherproof and sand proof. We can also customize containers to meet individual needs for racks and shelving, kits, dehumidifiers, and accessory configuration kits.

The Joint Modular Intermodal Container offers several advantages over past shipping containers including:

- ease of access container contents than previous "box-in-a-box" packaging
- uniformity in size that enables easier transfer.
- containers smaller than the 20-foot standard size that enables a building-block approach to stowage.
- collapsibility that reduces space requirements when not used, and reuse in retrograde ops.

Helpful Tools for Ordering:

- [Container Guide](#) (PDF) (TEAMS has replaced ACAMS in all references)
- [Customer Checklist](#) (PDF) for container ordering (required)
- [TEAMS](#) website
- [Sample CCO Letter](#) (PDF)

## **Material Handling Equipment**

[Material Handling Equipment \(dla.mil\)](http://dla.mil)

The Construction and Equipment supply chain's Ground Support program offers a variety of material handling supplies and aircraft ground support equipment. Many items have tailored vendor arrangements or long-term contracts for enhanced availability.

Material handling products: wood pallets, pallet covers, corrugated pallet/tote box, tie downs, load binders, conveyors and portable scales

Aircraft ground and maintenance facilities products: tow bars, maintenance platforms, wheel chocks, cover sets, adapters and jacks

We also manage desiccants and air purification products, including chlorate candles.

Contact: 215-737-5224

## **Technical, Information and Miscellaneous Equipment**

[Technical and Miscellaneous equipment \(dla.mil\)](http://dla.mil)

### **Miscellaneous Equipment**

The Miscellaneous Equipment group offers an array of parts, accessories, attachments and other items for various types of equipment including: lubrication & fuel dispensing equipment, storage tanks, road clearing & cleaning accessories, earth moving & excavating accessories, truck & trailer attachments, marksmanship targets and much more.

Contact: 215-737-6075 or DSN 444-6075

### **Automatic Data Processing & Information**

Our ADP program offers a diverse, state of the art product line. Through long-term contracts, we offer the latest technology with direct delivery from the contractor. Products available through the ADP & Information program include:

- ruggedized lap-top computers
- notebooks
- desktops and LCD portables
- towers and changers
- rack mount systems
- servers
- storage systems
- printers

- PCs
- cleaning systems
- floppy disks

We can provide the latest, most requested versions through the normal supply channels many organizations are accustomed to using, at competitive prices and delivery schedules. Please call if you don't see the version you want. Our list of products available on contract will be updated as we add new products or update current ones.

Technical and Information equipment.

The Imaging team offers a wide variety of photographic and imaging equipment and supplies. In addition to our traditional film, camera, paper, and chemical supplies, we offer products such as infrared cameras, reel assemblies, cases/bags, and lenses.

C&E offers a full line of commercial and special application products and equipment. Items include various brands of audio and video tapes, telephones, and fax machines.

We can keep abreast of the latest technology in the digital world through our industry partnerships. Although most of our products are commercial in nature, we also specialize in military specification items. Our business solutions are tailored to link specific customer mission needs with industrial partners.

For more information, contact: 215 737-4418 or DSN 444-4418

## **Lumber and Wood Products**

[Wood \(dla.mil\)](http://dla.mil)

The Construction and Equipment supply chain provides a complete line of wood products, including softwoods, hardwoods, plywood and veneer, fire retardant items, millwork, poles, and pilings, crossarms, doors and ties.

Wood products are supplied in CONUS through regional tailored logistics support contracts. OCONUS requirements are supported through these contracts as well as through traditional procurements. The TLSCs allow DLA Troop Support to complete all contract actions up front leading to reduced lead-times.

For CONUS, routine delivery on most items is completed within (10) days; urgent and emergency deliveries can be delivered even faster. Deliveries to Hawaii and Guam are within 30-45 days. Lead-times for Japan and Korea are approximately 60 days. Customers within Europe are supported primarily via DLA Distribution Europe in Gernersheim, Germany, with additional support provided via direct vendor deliveries from in-theater sources.

Wood Products supplied are all quality ensured through independent grading agencies including conformance to American Lumber Standards Committee rules and guidelines. All wood products supplied will carry a grade stamp indicating this conformance. Knowledgeable technical support is available by contacting Troop Support. Ordering is primarily MILSTRIP, but MIPRs can also be accepted. DLA Troop Support Tailored Vendor Logistics Specialists are available to facilitate your ordering and help expedite critical requirements.

The Wood products program supports a wide range of missions including warfare combat units, military construction, major facilities maintenance projects, training, exercises, and shipping, packing, and crating. Wood products required for any use are available through this program. Through our relationships with industry, we offer competitive pricing and rapid delivery.

Listed below is a sample list of the Lumber and Wood Products items managed by the Construction and Engineering Directorate at DLA Troop Support. For more items and information, see the following link:  
<https://www.dla.mil/TroopSupport/ConstructionandEquipment/Wood/>

## **Metals**

[Metals \(dla.mil\)](https://dla.mil/Metals)

The Construction & Equipment supply chain provides worldwide support of Federal Stock Group 95 and 96. These National Stock Number items can be ordered through the traditional supply system (items available through [FedMall](https://fedmall.com) ). The Metals Tailored Logistics Support Program (TLSP) enables customers to order commercial, non-NSN items within scope of the contract (details below). For a list of material groups covered by the Metals TLSP, [jump to the list](#).

## Metals TLSP

The Construction and Equipment supply chain has logistics solutions for support of ferrous metals, non-ferrous metals (including specialty metals), angle, bar, extrusions, sheet, strip, plate, structural shapes, tubing, and ingots. Other items provided by the TLSP include nonelectrical wire, wire rope, and chain. Customer specifications available via TLSP include cutting, shearing, and grinding to size; painting and other finishes; commercial inspection, such as ABS, magnetic particle, and ultrasonic; and minor machining.

The Metals tailored logistics support program enables customers to order commercial, non-NSN items within scope of the contract. Since multiple vendors are solicited for prices, customers benefit from a competitive business model that will ensure best value for the customer.

## TLSP Ordering Process

As of September 23, 2021, the following updates have been made to the Metals TLSP. The five major changes are highlighted below:

1. The Metals TLSP is now a multiple award program whereby all orders submitted will be completed amongst all vendors on contract.
2. The Metals TLSP is for procurement of material which does not have an established National Stock Number (NSN). The traditional supply system will be used to support NSN requirements. Please visit [FedMall](#) for traditional NSN orders.
3. Customers must complete a one-time registration before they may place orders through the Metals TLSP. The approved Metals [Customer Registration form](#) can be submitted to [MetalsRegistration@dla.mil](mailto:MetalsRegistration@dla.mil).
4. All orders must now be submitted directly to DLA UNFUNDED. Orders will be sent in utilizing only the approved Metals Order Spreadsheet to [MetalsOrders@dla.mil](mailto:MetalsOrders@dla.mil). The Order Spreadsheet will be included in the Welcome Package upon registration.
5. The registered customer will receive a Price Acknowledgement Spreadsheet containing the proposed total price of your order. The customer will complete this Price Acknowledgement Spreadsheet and, at that time, submit (with funding) to [MetalsFunding@dla.mil](mailto:MetalsFunding@dla.mil).

The [Metals Customer Guidelines Document](#) details the ordering process. Please be sure to read this prior to submitting your first order under this new process, and review the following documents:

1. [Metals TLSP process flow chart](#)
2. [MIPR Instructions](#)
3. [Material Receipt Acknowledgement in FedMall](#)

**For more information, contact:** [MetalsRegistration@dla.mil](mailto:MetalsRegistration@dla.mil)

DLA remains committed to ensuring a seamless transition during this process change, and we look forward to your continued utilization of the Metals TLSP in the future.

## Traditional Metals Support

Material Group – Federal Supply Class	Item Description
5335	Metal Screening
9505	Wire, Nonelectrical Iron and Steel
9510	Bars and Rods, Iron and Steel
9520	Structure Shapes, Iron and Steel
9525	Wire, Nonelectrical, Nonferrous Base Material
9530	Bars and Rods, Nonferrous Base Material
9535	Plate, Sheet, Strip and Foil: Nonferrous Base Metal
9540	Structural Shapes, Nonferrous Base Metals
9545	Plate, Sheet, Strip, Foil and Wire: Precious Metals
9610	Ores
9620	Mineral, Natural and Synthetic
9630	Additive Metal Materials and Master Alloys
9640	Iron and Steel Primary and Semi-Finished Prod
9650	Nonferrous Base Metal Refinery and Intermediate Forms
9660	Precious Metals Primary Forms
9670	Iron and Steel Scrap
9680	Nonferrous Metal Scrap

Visit [FedMall](#) to search for any NSN items covered under our traditional support.

215-737-2779; DSN 444-2779

### Precious Metals

The Construction and Equipment supply chain manages DLA's stock of Precious Metals (PM) in support of DoD's Precious Metals Recovery Program (PMRP). Precious Metals include: gold, silver, platinum, palladium, rhodium, iridium, and ruthenium. The PMRP makes precious metals available to DoD and non-DoD activities for organic use or as Government Furnished Material. Through DLA Disposition Services' recovery of precious metals from scrap recycling, the PMRP is able to offer precious metals for Government use at a cost significantly below market pricing.

For more information, availability, or to submit an order, email [pmrp-ts@dla.mil](mailto:pmrp-ts@dla.mil)

## **Consumable Hardware**

<https://www.dla.mil/What-DLA-Offers/Consumable-Hardware/>

Consumable Hardware Items are managed across the agency and include the following federal supply classes:

- 5305 (Screws)
- 5306 (Bolts)
- 5307 (Studs)
- 5310 (Nuts and Washers)
- 5315 (Nails, Keys and Pins)
- 5320 (Rivets)
- 5325 (Fasteners)
- 5330 (Packing and Gasket Materials)
- 5331 (O-Rings)
- 5340 (Miscellaneous Hardware - Brackets and DOD Lock Program)
- 5355 (Knobs and Pointers)
- 5360 (Springs)
- 53GP (Hardware and Abrasives)

## **Medical Supply Chain**

<https://www.dla.mil/TroopSupport/Medical/>

## **DOD Medical Online**

<https://www.medical.dla.mil/Portal/>

Medical Supply Chain mission is to provide the military medical community the products and services needed every day for every crisis around the world. Our goal is to provide our customers and commercial trading partners a convenient, state-of-the-art, readily accessible web portal that enables them to accomplish their business efficiently and effectively.

### **Pharmaceuticals and Vaccines**

Pharmaceuticals – Medical procures and manages the full spectrum of pharmaceuticals for the military and their dependents all over the world, including the Navy fleet. Benefits of the pharmaceutical prime vendor program include:

- Item Selection and Availability
  - Extensive product coverage is available.
  - In the event of product unavailability, substitute items are available with permission of the ordering facility.
  - Expanded item selection includes regional pricing agreements.
- Pricing
  - Potential 10-year period with lowering distribution fees as contracts age
  - Lowest distribution fees in our 12-year history
  - DLA Troop Support Medical supply chain sends the PPVs daily price files ensuring accurate pricing.
  - DLA Troop Support Medical supply chain performs 100% price verification.
- Fill Rates
  - Contractual fill rates range between 95% and 98% for routine orders
  - Guaranteed 100% fill rate for surge and sustainment requirements.
- Delivery
  - Routine orders delivered within 24 hours.
  - Emergency orders delivered within 6 hours.
- Expanded Readiness Coverage

- War reserve requirements for Army, Navy, Air Force, and Marine Corps
- Army surge
- Useful Features for Customers
  - One-on-one customer assistance
  - DLA Troop Support Medical supply chain handles payment of bills
  - Customers have a credit account.
  - PV's web-based ordering system
  - Pharmaceutical Reverse Distribution Program

Vaccines – Most vaccines are available. Medical delivered 3.8 million doses of flu vaccine to service members and their dependents worldwide.

Reverse distribution – Customers can return pharmaceuticals and medical supplies dispensed by a pharmacy, and any related waste materials that may arise due to un-returnable pharmaceuticals.

### **Medical and surgical equipment**

A full line of medical and surgical products are available for customers around the globe, including the Navy Fleet.

Pre-Packs – Supplies for a specific medical procedure are packed in a “single bag” tailored for the customer. Save time and money by choosing the consumable devices and related supplies for your procedural Pre-Pack.

All high technology capital and critical care medical equipment, including routine installation, turnkey installation, maintenance, repair parts, training and other services are available for the military and other federal agencies.

Critical care equipment: anesthesia systems, defibrillators, ventilators, pulse oximeters, suction apparatus and a full range of dental equipment

Engineering and technical support for a wide variety of hospital, laboratory and field equipment is available for fixed hospital activities and deployed field units such as combat support hospitals and forward surgical teams, including these federal supply classes:

- 4110: Refrigeration Equipment
- 4610: Water Purification Equipment

- 6515: Expeditionary Deployable Oxygen Generating System & Mobile Oxygen Storage Tanks
- 6530: Hospital Furniture and Equipment
- 6540: Ophthalmic Instruments and Equipment
- 6545: Repair Part and Repair Part Kits / Medical Chest and Accessories
- 6625: Electrical and Electronic Testing and Measuring Instruments
- 6630: Chemical Analysis Instruments
- 6640: Laboratory Equipment
- 6650: Optical Instruments and Test Equipment
- 6665: Hazardous Detecting Instruments and Apparatus
- 6670: Scales and Balances
- 6910: Training Aids
- Expeditionary Deployable Oxygen Generating Systems
- Mobile Oxygen Storage Tanks
- Deployable Medical Systems (DEPMEDS)

### **Medical Readiness Division**

Medical's Strategic Materiel Sourcing Group (SMSG) Readiness Division contracts for access to medical consumable supplies in support of deploying and deployed forces. Support for surge and sustainment is provided through contingency contracts awarded to manufacturers and distributors. The main objective is to maximize coverage against readiness requirements using minimal investment dollars. The preference is to buy guaranteed access to material rather than to purchase or own material outright. Funding for this approach to readiness is provided through annual DLA Warstopper program appropriations.

Requirements are derived from the Services' annual Medical Contingency File (MCF) submission, which identifies joint time phased "go-to-war" medical materiel shortfalls. In order to ensure that the healthcare industry and the industrial base can support contingency operations, Medical attempts to place the National Stock Number (NSN) based items under contingency contract to improve planning and sustainment operations. These contracts require that manufacturers and distributors use existing commercial inventories to support the critical go-to-war requirements. The manufacturers and distributors are responsible to rotate the inventories to ensure a fresh supply of materiel. This materiel could be utilized to support military operations such as contingencies or humanitarian assistance and/or disaster relief (HADR) efforts. Combatant Commands also have the option of submitting MCFs to cover requirements associated with their various plans.

The primary types of contingency contract vehicles are Prime Vendor War Readiness Materiel (PVWRM), Vendor Managed Inventory (VMI) contracts, and Corporate Exigency (CEC) contracts.

## **DLA Medical Equipment - Overview for Capital & Hospital Supply**

<https://www.medical.dla.mil/Portal/Equipment/EquipmentOverview.aspx>

### **Capital Equipment**

The Capital Equipment Division acquires high technology capital and critical care medical equipment for all branches of the Military and other Federally funded agencies. Acquisitions may include routine installation, turnkey installation, maintenance, trade-in of existing equipment, training and other incidental services required for the operation of the medical equipment. Capital equipment items are complex, state of the art durable medical equipment used for imaging, diagnosing, or treating patients, operating on electricity, generally requiring installation and/or set-up by a vendor. Critical care medical equipment are durable equipment items, operating on electricity, used to treat or monitor life threatening medical conditions.

### **Hospital Supply**

The Hospital Section of the Equipment Business Unit procures, manages, and provides engineering and technical support for a wide variety of hospital, laboratory, and field equipment. The section provides support for both fixed hospital activities, and deployed field units such as Combat Support Hospitals and Forward Surgical Teams. Project Support includes but is not limited to:

- Contracting support/expertise in product line
- Engineering and technical support/expertise in product line
- Managing contracts/orders and depot inventory
- Requisition processing
- Logistics management/shipping and tracking

### **Products Offered**

The product lines managed in this section include the following Federal Supply Classes:

- 4110: Refrigeration Equipment
- 4610: Water Purification Equipment
- 6515: Expeditionary Deployable Oxygen Generating System & Mobile Oxygen Storage Tanks
- 6530: Hospital Furniture and Equipment

- 6540: Ophthalmic Instruments and Equipment
- 6545: Repair Part and Repair Part Kits / Medical Chest and Accessories
- 6625: Electrical and Electronic Testing and Measuring Instruments
- 6630: Chemical Analysis Instruments
- 6640: Laboratory Equipment
- 6650: Optical Instruments and Test Equipment
- 6665: Hazardous Detecting Instruments and Apparatus
- 6670: Scales and Balances
- 6910: Training Aids

## Other

- Expeditionary Deployable Oxygen Generating Systems
- Mobile Oxygen Storage Tanks
- Deployable Medical Systems (DEPMEDS)
- Foreign Military Sales (FMS)
- Natural Disaster Support / FEMA

## Defense Medical Logistics Item Identification System (DMLIIS)

<https://www.medical.dla.mil/Portal/Homepages/Dmliis.aspx>

DMLIIS is a web-based, workflow-driven, collaborative enterprise software application hosted by DLA Troop Support Medical Supply Chain's DMMOnline Portal, that enables registered users associated with one of the armed services, DHA MEDLOG or the DLA Troop Support Medical Supply Chain, to submit New Item Medical NSN and Maintenance Actions involving existing Medical NSN and existing Suppliers, to the item's source authority (either DLA's Enterprise Business System [EBS], Defense Logistics Information Service's [DLIS] Federal Logistics Information System, or the [System for Award Management \[SAM\]](#) for final disposition.

Users are associated with a sponsoring organization and role. All access and entitlements within DMLIIS are mapped to this organization/role association. DMLIIS also provides robust search and reporting functionality.

## **Medical Air Bridge**

[Medical Air Bridge \(dla.mil\)](https://dla.mil/medical-air-bridge)

The Medical Air Bridge (MAB) Program is a consolidation and transshipment cross docking operation for the transport and delivery of authorized medical material to Warfighters overseas. DLA Troop Support Medical Supply Chain manages the MAB in partnership with Cardinal Health, the Prime Vendor (PV), customers, commercial suppliers, and delivery services. Cardinal Health operates both the global North region, serving the Central Command (CENTCOM), and the European Command (EUCOM) Theater; as well as the global West region, serving the Pacific Command (PACOM) Theater.

The MAB application is a centralized database of logistical information (for all) orders submitted to process through the MAB cross docks. Customers are required to input their order information into the application immediately after placing the order(s) with the vendors. The application then enables DLA Troop Support and its partners to input, communicate and track shipments through the MAB program. It provides detailed In-Transit Visibility (ITV) to include open, received and shipped orders, with accessible links to obtain commercial bill numbers to provide transit data and proof-of-delivery information.

## **Medical Master Catalog**

[Medical Master Catalog \(dla.mil\)](https://dla.mil/medical-master-catalog)

The MMC Web Application provides users the ability to execute product searches and product sourcing requests against the Medical Master Catalog (MMC). The MMC Web Application includes a sophisticated product search capability that will assist users in finding products that they are interested in. Once found, users can immediately execute a sourcing action for one or more of the products of interest that will return a list of executable sources for the product to their associated DODAAC. This sourcing results set identifies source program (Prime Vendor, ECAT, Readiness ECAT) and includes product ordering numbers (PVON, NDC) as well as pricing available to that customer.

The application also provides product information, NSNS associated to a given product, equivalent products based on First Data Bank and Supply Line Classification and product Identifier cross references (Manufacturer Part Number to PVON to Vendor Catalog Number).

## **Medical Electronic Catalog (ECAT)**

[ECAT Homepage \(dla.mil\)](https://dla.mil/ecat)

DLA Troop Support's Medical Supply Chain developed ECAT to streamline its business practices and expand its range of procurement options. ECAT is a Net-centric ordering, distribution, and payment system providing Department of Defense and other Federal agencies access to multiple manufacturers and distributors commercial catalogs at discounted prices. The program is a complementary acquisition strategy allowing customers to browse, compare, and order a wide range of laboratory, dental, optical fabrication, orthopedic implants, cardiovascular, medical/surgical supplies, and equipment. ECAT also allows deploying units to rapidly acquire the full spectrum of products necessary to satisfy their requirements from a multitude of commercial sources.

ECAT automates the entire customer procurement cycle - from searching for products, to creating reorder lists, submitting an order, approving an order, and receiving and paying for an order. ECAT provides status of vendor acceptance within 24 hours. Delivery often can be within 72 hours from receipt of the order within the United States and within 7-10 days for overseas orders. ECAT accepts Military Standard Billing System (MILSBILLS) as a payment method. These features give Medical customers the best of both worlds; the convenience of purchasing from local vendors while still benefiting from the volume discount prices associated with central procurement systems. In addition, ECAT interfaces with the Services' Material Management Systems allowing customers to procure materiel in a business-to-business procurement model. ECAT provides products from both manufacturers and distributors to maximize the breadth and depth of its product offerings and promote competition among vendors. Vendors are not charged any fees to participate in the ECAT program. DLA Troop Support Medical Supply Chain contracting specialists negotiate discounted pricing off the vendors' commercial catalog price. This discounted price is presented to ECAT customers as the "Total Delivered Price" of the product. This price includes all transportation/distribution and administrative costs.

**If you need assistance with ECAT issues, please contact the ECAT Help Desk via email: [DSCPECATHELP@dla.mil](mailto:DSCPECATHELP@dla.mil) or phone: 800-290-8201 (7:00 AM to 5:00 PM).**

In an Emergency, if you need assistance with ECAT issues after duty hours, you can contact the DLA Customer Interaction Center (CIC) at 1-877-352-2255. You should indicate to the CIC that your issue is "Urgent". The CIC staff will contact the DLA Troop Support Staff Duty Officer (SDO). The SDO will contact the DLA Troop Support Medical Supply Chain representative that is On Call to address your issue. It could take some time for the DLA Troop Support On Call representative to respond back to you, so please be patient. Calls to the CIC should only be made in true emergency situations.

### **Medical Materiel Information Portal (MMIP)**

<https://www.amlc.army.mil/USAMMA/Information-Portal/> has been developed as the central information and data repository for published information regarding medical materiel.

The MMIP accomplishes 3 tasks:

1. Provide a centralized location to access Army Medical Logistics Command (AMLC), US Army Medical Materiel Agency (USAMMA) medical materiel logistical knowledge and publications.
2. Upgrade and improve the former medical materiel catalog Medical Services Information Logistics System (MEDSILS) and Army Unit Assemblage (UA) search tools.
3. Implement command and agency requirements to provide extensive medical device/equipment detail currently maintained outside of the catalog environment including USAMMA and U.S. Army Medical Materiel Development Agency (USAMMDA) publications.

## **DLA Aviation Parts Catalog – RPPOB**

[Aviation RPPOB Parts Catalog \(dla.mil\)](https://dla.mil/aviation/rpob/)

### **Resources**

- [\*\*Parts Catalog Spreadsheet\*\*](#) : Breakdowns of each sole source item are shown in the linked spreadsheet. Display room staff can show contractors how to view the DLA Internet Bid Board System (DIBBS) and other computer systems that allow them to see annual demand and other helpful information.
- [\*\*Online Parts Catalog\*\*](#): Web-based search for Aviation RPPOB Parts
- [\*\*DLA Aviation Managed Part Request\*\*](#) : (CAC-Authentication Required - DoD Users must use Email Certificate) Contractors interested in the Reverse Engineering Program can submit their request and we will get back to you in a timely manner.
- [\*\*RPPOB Overview\*\*](#): Find general information and helpful resources associated with the Aviation Engineering RPPOB Program
- [\*\*Aviation Industrial Supply Day Conference - Display Supplier Brief \(PDF\)\*\*](#): This presentation explains the basics of the RPPOB program.
- [\*\*AMPS Pre-Approval Instruction\*\*](#): Learn more about the first phase of the RPPOB process, the ability to logon to our system and order parts for Sale or Loan.
- [\*\*New Source Contract Step-by-Step instructions\*\*](#): Learn the requirements to request a new source contract.
- [\*\*Aviation Source Approval and Management Handbook\*\*](#): The SAM handbook enables vendors to become a source of supply for DLA-managed product.
- [\*\*RPPOB ICE Customer Comment Card\*\*](#)

### **Pre-package POL and Gases Commodities**

[Commodities \(dla.mil\)](https://dla.mil/commodities/)

The Chem/POL/Gas/Cylinder Integrated Supply Team (IST) manages a variety of national stock numbers (NSNs) in various Federal Stock Groups, which include privatization contracts and kitting procurements.

The privatization contracts include Chemicals, Petroleum, Oils and Lubricants (SAIC), Gases/Cylinders (HGI), Gases/Cylinders Europe (IG&S), Gases/Cylinders CENTCOM (ISS), and Closed Loop Re-Refined Motor Oil (Safety-Kleen). This IST is responsible for related administrative and post-award functions.

All administrative, pre-, and post-award functions for kitting commercial procurements are also a part of this IST. These procurements consist of made-to-stock kits. Kits contain multiple components which may be part

numbered or NSN components and are both DLA- and non-DLA-managed items. Kits are tailored to meet customers need and may contain sub-kits.

IST members perform a variety of functions such as procurement, technical/quality assurance, and chemical review.

## **Ozone Depleting Substance (OSD) Reserve Products**

<u>CFCs</u>	<u>CHEMICAL NAME</u>
R-11	Trichlorofluoromethane
R-12	Dichlorodifluoromethane
R-114	Dichlorotetrafluoroethane
R-500	Azeotropic mixture of CFC-12 and HFC-152A (1,1 Difluoroethane)
R-502	Azeotropic mixture of CFC-115 and HCFC-22

<u>HCFCs</u>	<u>CHEMICAL NAME</u>
R-22	Chlorodifluoromethane

<u>HALONS</u>	<u>CHEMICAL NAME</u>
Halon 1202	Dibromodifluoromethane
Halon 1211	Bromochlorodifluoromethane
Halon 1301	Bromotrifluoromethane

<u>SOLVENTs</u>	<u>CHEMICAL NAME</u>
Methyl Chloroform	1,1,1 Trichloroethane
CFC-113	Trichloro trifluoroethane

## **OSD Requisitioning and Turn-in Procedures**

For our military customers needing procedural guidelines for requisitioning or turning-in ozone depleting substances, you may reference or download the following:

- [ODS Requisitioning Procedures \(PDF\)](#)
- [ODS Turn-In Procedures \(PDF\)](#)

Customers must be authorized by their Service to requisition the chemicals from the OSD Reserve.

Army and Navy/USMC and Coast Guard provide DLA with an Authorized Users List (AUL), and requisitions are checked against the AUL to determine if the requisitioning activity is authorized to requisition ODS products.

Air Force does not require pre-approval for the following NSNs, if the quantity requisitioned is below the indicated threshold.

Each ODS NSN has an inventory system freeze in the DLA supply system and will require Manager's review before release. Requisitions (sales orders) submitted to DLA Aviation by non-authorized activities will be processed with Status Code "D8" (Rejected) to the requisitioner, indicating the material is a commodity requiring advance service authorization. The Military Standard Requisition and Issue Procedure (MILSTRIP) is used to requisition ODS.

### **[NSNs for OSD Commodity](#) & Service/Agency Points of Contacts web link**

Contact ODS Reserve Program Management Office are DSN 695-4525, 5202, 5203 and 5004 or COMM (804) 279-4525, 5202, 5203, and 5004. The email address is [avnodsreserve@dla.mil](mailto:avnodsreserve@dla.mil).

### **DLA Energy Bulk Fuel Regional Support Offices**

The link below will display all DLA Energy worldwide Regional Support Offices. These offices can provide information on global fuel support: <https://www.dla.mil/Energy/>; For 24/7 assistance, contact the DLA Energy Operations Center at 571-767-8420 or DSN 392-767-8420. <https://www.dla.mil/Energy/Contact/>

Class III Bulk-Fuel locations and points of contacts are provided in <https://www.dla.mil/Energy/Locations/Regions/>.

## **DLA Energy Products**

### [DLA Energy Products](#)

DLA Energy provides energy to the military services, the Department of Defense, and other federal agencies at more than 4,000 locations worldwide.

DLA Energy manages petroleum products – jet fuels, aviation and automotive gasoline, heating oil and lubricants – in addition to coal, natural gas, electricity, alternative fuels, and missile fuels. The major fuels DLA Energy procures are JP5, a high flash jet fuel used shipboard by the Navy; JP8, a kerosene-based jet fuel comparable to commercial jet fuel; Jet A1, a commercial jet fuel with additive; and F76, a naval diesel fuel.

For more information on each of the products DLA Energy manages, you can reference the list of products on the drop-down list to the left or browse the major product areas below:

### [Aerospace Energy](#)

DLA Energy Aerospace Energy manages the worldwide acquisition of missile fuels, liquid propellants for space launch and satellites, aviator’s breathing oxygen and other bulk industrial chemicals and gases – including nitrogen, oxygen, argon, hydrogen, and helium.

### [Bulk Petroleum Products](#)

DLA Energy Bulk Petroleum Products provides contract support for the bulk petroleum supply chain, including worldwide military jet fuel and marine diesel fuel requirements (JAA/JA1, JP8, JP5, F76 and EN590).

### [Carbon Pollution-Free Electricity](#)

DLA Energy is partnering with and enabling the military services and whole-of-government partners to achieve their climate change goals.

### [Direct Delivery Fuels](#)

DLA Energy Direct Delivery Fuels provides worldwide acquisition and integrated materiel management of commercial fuels delivered directly to military and federal civilian customers.

#### [Installation Energy](#)

Installation Energy offers acquisition support for facility energy requirements such as coal, natural gas, electricity commodity purchase support, renewable energy credit purchases, long term renewable energy project development and energy savings performance initiatives.

#### [Government Fuel Cards](#)

DLA Energy's Government Fuel Card Program Management office performs overall program management responsibilities, training and support for DLA's customer purchasing tools used worldwide.

#### [AIR Card](#)

The U.S. Government AIR Card® Program is a government program that provides the Department of Defense military services and federal civilian agencies a means to procure aviation fuel, fuel-related supplies, and approved ground services worldwide.

#### [Fleet Card](#)

The Department of Defense Fleet Card Program uses a fuel charge card to provide the DOD and U.S. Coast Guard a means to procure ground fuel, parts, maintenance, and roadside assistance worldwide at commercial service stations while conducting official government business.

#### [Logistics Fuel Card](#)

Established in 2022, the Logistics Fuel Card Program is a dual platform card solution that provides the DOD and Federal Civilian agencies with a means to only procure fuel worldwide at commercial locations for storage tanks in support of official government business.

#### [SEA Card](#)

The SEA Card® program is DLA Energy's efficient, easy-to-use, secure Internet-based solution to marine fuel procurement challenges.

#### [Swipe SEA Card](#)

The Swipe SEA Card® program provides the services and federal agency users with a charge card to purchase fuel up to the simplified acquisition threshold of \$250,000.

## **DLA Disposition Services**

### **[DLA Disposition Services](#)**

**Part of the Defense Logistics Agency, DLA Disposition Services** disposes of excess property received from the military services. The inventory changes daily and includes thousands of items: from air conditioners to vehicles, clothing to computers, and much more. That property is first offered for reutilization within the Department of Defense (DoD), transfer to other federal agencies, or donation to state and local governments and other qualified organizations. Reutilization means big savings. In the past four years more than \$2.2 billion worth of property was reused each year. Every dollar's worth of property reutilized is a tax dollar saved. DLA Disposition Services also supports disaster relief at home, and humanitarian assistance and foreign military sales programs.

**Selling DoD surplus property.** DLA Disposition Services manages the DoD surplus property sales program. Excess property that is not reutilized, transferred or donated may be sold to the public. The property, no longer needed by the government, is only sold if it is appropriate and safe for sale to the general public.

**Keeping the environment in mind.** DLA Disposition Services manages the disposal of hazardous property for DoD activities, maximizing the use of each item and minimizing environmental risks and costs through monitored compliant disposal.

**Special programs.** A Resource Recovery and Recycling Program conserves natural resources, reduces waste products and returns revenue to the military services. Through recycling, the Precious Metals Recovery Program significantly reduces the need for DoD to purchase metals such as gold, silver and platinum family metals through recycling of excess and surplus scrap containing precious metals.

**Demilitarization.** Certain property is demilitarized (i.e., rendered useless for its originally intended purpose). Surplus property with inherent military characteristics must undergo "DEMIL." Offensive and defensive weapons and associated material are demilitarized prior to sale or as a condition of sale.

**Support for the U.S. military.** DLA Disposition Services supports America's military wherever they are called to serve. Current contingency missions see DLA Disposition Services civilians serving alongside combat forces in Afghanistan. They are part of the worldwide presence within DoD, with people serving in 14 foreign countries, two U.S. territories (Guam and Puerto Rico) and 40 states.

**Small Business Ombudsman.** The DLA Disposition Services Small Business Ombudsman will receive, review and investigate concerns from small businesses about DLA Disposition Services initiatives and process changes. The Small Business Ombudsman will function in this capacity independent from DLA Disposition Services operational and policy offices and ensure that small business concerns are given fair consideration. The DLA Disposition Services Small Business Ombudsman can be reached at [DLADispositionServicesOmbudsman@dla.mil](mailto:DLADispositionServicesOmbudsman@dla.mil)

## **Digital DSR**

## **Hazardous Material/Waste Turn-In**

### **[Hazardous Waste Disposal \(dla.mil\)](https://dla.mil)**

DLA Disposition Services manages the disposal of hazardous property for Department of Defense (DoD) activities. Hazardous Materials (HM) are handled with the same priorities as other property: reutilization within DoD, transfer to other federal agencies, donation to qualified organizations, or sale to the public. Hazardous Wastes (HW) are handled through a worldwide network of HW management and disposal contracts. All HW services are provided on a reimbursable basis where the generator pays the unit price for management and disposal services identified by the Contract Line Item Number (CLIN) ordered.

Disposition Services accepts accountability of HM/HW as “receipt-in-place” by means of a Receipt-In Place (RIP) agreement or a Memorandum of Understanding (MOU) in accordance with DoDM 4160.21 Vol1. The following guidance provides information to assist the generator with preparing documentation required for DLA Disposition Services to take accountability. Procedures for turning in hazardous property are commodity based and complex. For detailed guidance, contact your DLA Disposition Services Environmental Protection Specialist on the [Site Locator](#).

### **Hazardous Waste Turn-In Services**

Since 2005, the [DoDM 4160.21 Vol. 2](#) has mandated the usage of “automated and electronic DTID transfer documentation” for normal, day-to-day turn-in of HW.

GENCOMM, DLA’s data transfer system for automated turn-in of HW has been decommissioned. Automated turn-in of HW from customer systems to DLA Disposition Services system (Hazardous Material Management System – Hazardous Waste Disposal (HMMS-HWD)) will now utilize Defense Automatic Addressing System (DAAS).

### **Primary Turn-in Method:**

Common data transfer systems listed below are utilized by military service customers to electronically transmit turn-in documentation to DLA Disposition Services HMMS-HWD. Customers utilizing a system not listed below may discuss options for connecting their data transfer system to HMMS-HWD by contacting [HMIRS@dla.mil](mailto:HMIRS@dla.mil).

- HWMS

## Resources

Hazardous Material Turn-In – [Digital DSR](#)

Hazardous Waste Turn-In – [Turn-In Toolbox - HAZMAT](#)

Hazardous Waste Contract Development

DLA Disposition Services Environmental Support Branch meets with our military customers to develop a comprehensive, uniquely tailored requirement for hazardous waste disposal and support services. Disposal services include disposing of hazardous, non-hazardous, State-regulated, and Universal Wastes. Some examples of available services include industrial cleaning, laboratory analysis, hazardous waste characterization, hazardous waste profile sheet completion, lab/loose packing, and expedited removals.

Hazardous Waste Disposal Contract Model

Profile-Based CLINs

Profile-Based CLINs (PBCs) are the standard disposal CLINs utilized on DLA's HW Disposal contracts supporting DoD and DHS activities across the U.S. and its territories. PBCs are intended to give the contracting community sufficient information to accurately formulate bids based upon necessary disposal technologies and required treatments. Available disposal technologies might include stabilization and landfill, microencapsulation, fuels blending, recycling, destructive incineration, etc. For containerized waste, the pricing structure is based primarily by container size, with some wastes being billed by the pound, gallon, or 'each,' depending on the industry standard unit of measure for disposal.

## Approved Hazardous Waste Contractors

Only contractors holding current HW disposal contracts with DLA Disposition Services or contractors offering on a solicitation may request the addition of a facility or transporter to our qualified list. All facilities and transporters are scrutinized by DLA Disposition Services to ensure standards specified in DLA Disposition Services contracts are upheld. Inclusion on a Qualified List does not determine acceptability or relieve the contractor of any responsibility for performing DLA Disposition Services contract specifications.

## Hazardous Waste Contracts

[Hazardous Waste Disposal Price Database](#) *(users utilizing Chrome may have issues accessing this database).*

## Qualified Lists

[Qualified Facilities \(PDF\)](#): Contractors will only utilize facilities listed on the Qualified Facility List (QFL) for U.S. Government disposal or recycling services. Use of a facility for disposal or recycling services not listed on the QFL is not authorized. This list does not relieve the Contractor or their sub-contractor of any responsibilities for performing in accordance with local, State, and Federal regulations, and DLA Disposition Services contract terms and conditions.

[Qualified Transporters \(PDF\)](#): Contractors will only utilize transporters listed on the Qualified Transporter List (QTL) for any transportation of U.S. Government waste. Use of a transporter not listed on the QTL is not authorized. This list does not relieve the contractor or sub-contractor of any responsibilities for performing in accordance with local, State, and Federal regulations, and DLA Disposition Services contract terms and conditions.

If you have any questions about these lists, please email the TSDF and Transporter Inquiries at [TSDFandTransporterInquiries@dla.mil](mailto:TSDFandTransporterInquiries@dla.mil).

### Documentation Requirements for QFL Additions

1. Complete application (DLA Form 2507 dated Nov 2023).
2. Inspection reports.
3. Proof of insurance.
4. Copy(s) of applicable permits.

### Documentation Requirements for QTL Additions

1. Complete application (DLA Form 2503 dated Mar 2022).
2. If the answer is yes on the application to safety training program, a cover page of the training is required.
3. Proof of insurance.
4. For CONUS, copy of the PHMSA Hazardous Material Registration (if non-regulated, provide a business license). For OCONUS, HM transporter permit, (if non-regulated, provide a business license).

### Instructions on QFL/QTL additions

TSDF and/or Transporter addition requests may be sent to [TSDF and Transporter Inquiries](#). Specific requirements for TSDF and Transporter additions to the QFL/QTL are outlined in Section 5.1 of Disposition Services Hazardous Waste Disposal contracts. Questions may be directed to [TSDF and Transporter Inquiries](#).

## **DOD Lock Program is administered under DLA Land and Maritime**

[DOD Locks \(dla.mil\)](http://dla.mil)

### **Mechanical Combination Lock**

S&G Model 2937

NSN 5340-01-566-7405

### **FF-L-2740B Mounted Combination Locks**

NSN 5340-01-625-9851: 2740B Style 1 Combination Lock (Kaba Mas X-10) for GSA approved security containers and GSA approved vault doors.

NSN 5340-01-628-4750: 2740B Style 2 Combination Lock (Sargent & Greenleaf) for GSA approved security containers and GSA approved vault doors.

### **FF-L-2890B Pedestrian Door Deadbolt Devices**

NSN 5340-01-626-0087 is the most similar to the now obsolete CDX-09 (5340-01-498-2760). At this time CDX-10 (5340-01-626-0087) is the only FF-L-2890B item stocked by DLA. This item is available in as little as two business days when ordered through [FedMall](http://FedMall.com).

If you need a different strike plate, call the DOD Lock Program Technical Support Hotline at (800) 290-7607 and one can be provided free of charge when your lock is purchased from DLA Troop Support.

### **General Field Service Padlocks**

NSN 5340-01-380-9432: 1/2 Inch Shackle with two (2) keys

NSN 5340-01-380-9430: 3/8 Inch Shackle with two (2) keys

### **High Security Padlocks**

NSN 5340-01-217-5068: S&G 951, Padlock, Key Operated. High security shrouded shackle.

(For use by DOD personnel and active-duty U.S. military only)

NSN 5340-01-449-4346: S&G 951, Padlock, Key Operated. High security shrouded shackle (with R1 key-way)

(For use by all other Federal agencies and DOD contractors)

NSN 5340-01-585-7691: S&G 951C, Padlock, Key Operated. High security shrouded shackle (with S1 key-way)  
(For use by Foreign Military Sales)

### **High Security Cylinders**

NSN 5340-01-323-1087: MEDECO Cylinder supplied with three (3) keys: Two (2) operator and one (1) control - S&G 833C ONLY.

For use by DOD personnel and active-duty military only.

NSN 5340-01-449-4349: MEDECO Cylinder supplied with three (3) keys: Two (2) operator and one (1) control (with R1 key-way) - S&G 833C ONLY.

For use by all other Federal agencies and DOD contractors.

NSN 5340-01-576-8298: Replacement MEDECO Cylinder with R1 key-way for S&G 951. Supplied with three (3) keys: Two (2) operator and one (1) control.

NSN 5340-01-576-8313: Replacement MEDECO Cylinder with D4 key-way for S&G 951. Supplied with three (3) keys: Two (2) operator and one (1) control.

### **High Security Hasps**

NSN 5340-01-196-2547: NAPEC 0957 Shrouded, Right Hand

NSN 5340-01-235-6907: NAPEC 0958 Shrouded, Left Hand

### **High Security Hasps for shipboards and shipboard hatches**

NSN 5340-01-281-7938: NAPEC 1300 for shipboard doors and hatches

### **Low Security Steel/Brass Padlocks:**

To place an order using MILSTRIP or Government Purchase Cards, register and order online at [FedMall](#).

#### Program Contacts:

For ordering and product availability, contact the DLA program manager at [email: DLALock@dla.mil](mailto:DLALock@dla.mil)

For technical support issues, call the DOD Lock Program hotline:

1-800-290-7606 | 805-982-1212 | DSN: 551-1212

or email NAVFAC DOD Lock Program Support: [W NAVFAC DOD Lock Program Support@navy.mil](mailto:W_NAVFAC_DOD_Lock_Program_Support@navy.mil)

## **POLARIS Part Number (P/N) Long Term Contract (LTC)**

[POLARIS P/N LTC SPM7LX-13-D-0079 \(dla.mil\)](mailto:POLARIS P/N LTC SPM7LX-13-D-0079 (dla.mil))

### Contract Features

- LTC SPE7LX-18-D-0044 allows for ordering non-NSN Polaris items. These parts are not stocked by DLA; however, they are now available for direct vendor delivery in 7 days from Polaris Sales, the OEM, in Medina, MN.
- Supplies covered include replacement parts for the following Polaris vehicle models: DAGOR, MRZR, MV850, SPORTSMAN, RANGER, RZR and GENERAL.
- CAGE and P/N Requisitions can be used for email ordering, although Army customers will have to input their requisitions directly via GSCC-A. Specific instructions for processing a ME51N Transaction via GSCC-A are included at the PowerPoint link below.
- These P/Ns have already been cataloged for the Army and can be ordered using a standard funded "MILSTRIP" requisition or via "[FedMall](#)". The process is the same as ordering approved Army NSNs; the only difference is that you enter the Polaris cage (3FP69) followed by the Polaris P/N (no spaces), in lieu of an NSN.

### Other Ordering Methods:

Government entities with a GPC/GSA IMPAC card may order directly from the contractor. Orders may be placed by email, telephone or by facsimile and will follow commercial practices to the maximum extent practicable including payment through the banking system. The telephone number for credit card orders is 1-866-468-7783, Fax number 763-847-8288, and email at [gov.info@polaris.com](mailto:gov.info@polaris.com)

### Polaris Information and Assistance

Link: <https://military.polaris.com/en-us/>

E-mail: [gov.info@polaris.com](mailto:gov.info@polaris.com).

Verify Polaris P/N: In the top right corner of the Polaris homepage [www.polarisdefense.com](http://www.polarisdefense.com) is a "Part Search" block. You can type in the P/N and select "Go" to verify the P/N you are looking for any superseding P/N.

## **Global Tires Program**

[Global Tires Program \(GTP\) \(dla.mil\)](http://dla.mil)

### Global Tires Program

The Global Tires Program (GTP) is a Performance Based Logistics (PBL) requirements contract for the total supply chain management of tires for the Air Force, Army, Coast Guard, Marine Corps, Navy, and Foreign Military Sales (FMS). The GTP contract has a potential performance period of 10 years from award in 2019 and is the successor to the Tire Successor Initiative (TSI) contract.

DLA Land and Maritime's Strategic Acquisition Programs Directorate (SAPD) was tasked by the 2005 Base Realignment and Closure (BRAC) statute to decentralize the Department of Defense's wholesale supply, storage, and distribution functions for tires. The privatized supply chain and materiel support of the Government's demand for aircraft and ground tires aims to provide more responsive supply support to user organizations, improved support during mobilization, and sustainment of deployed forces worldwide.

The structure of GTP is parallel to that of TSI in that only one logistics provider supplies all tires under one contract; however, the scope of GTP is expanded from the previous TSI contract to incorporate Navy-managed aircraft tires that were previously supported by the Navy's Performance Based Logistics Successor (TPS) contract. GTP consolidates these efforts to a single supply chain management providing responsive global supply and support to military customers.

The GTP Program consists of the GTP integrator contractor, Science Applications International Corporation (SAIC), and numerous tire manufacturers and dealers. In order to sustain warfighter readiness, SAIC will be required to order tires directly from manufacturers and dealers utilizing long-term contracts established by DLA. The GTP Contractor will provide global logistical support services, demand planning and forecasting, order processing and fulfillment, purchasing (from DLA-directed sources/LTCs), inventory management, storage and warehouse operations management, distribution and transportation, packaging, obsolescence management, data management, and customer support services.

## GTP Supply Chain Service Provider

### Arctic Slope Regional Corporation (ASRC) Federal Facilities Logistics

- Provides the services mentioned above and ensures timely delivery of tires to the customer.
- Obtains tires from the best value source under contracts awarded by the DLA with tire manufacturers and dealers.
- Provides global support for all DLA customers.
- Will handle tire scrap and retread requirement of designated NSNs (see links below).
- Will maintain a web portal and customer service phone line that is accessible 24/7.

### Customer Service and Tracking Information

ASRC has provided a toll-free 24-hour number **(855-874-7242)** to customers worldwide. The toll-free number allows customers to track requisitions, shipments, schedule scrap/retread tire pickups, and obtain technical assistance or advice on tire application, installation, removal, and maintenance.

Additional tracking support can be requested through the DLA Global Tires Team.

Email [DSCC.TiresTeam@dla.mil](mailto:DSCC.TiresTeam@dla.mil) for tracking information. The GTP team will coordinate with ASRC and provide the requested information.

### **Interactive DLA Map Catalogs, via FedMall**

[Utilities - Maps \(FedMall.mil\)](#)

The DLA Map Catalog allows customers to order Aeronautical, Digital, Hydrographical, and Topographical products needed for mission planning and navigation.

Customers who order geospatial products through the DLA must have the following:

- A valid DoDAAC
- A current Map Account with [DLA Aviation, Mapping Customer Operations](#)

- The DLA Map Catalog (standalone or FedMall)
- A [Federal Mall \(FedMall\)](#) account

There is currently one online version, two CD versions and two online download areas available. These versions are described below:

- Online Version
  - Nonsecure Internet Protocol Router Network (NIPRNet)
    - Log into [FedMall](#) and click on the "Interactive DLA Map Catalog" link under the "Tools" tab on the homepage.
- CD Versions
  - Limited Distribution
    - Gray CD - Reserved for military and government agencies which possess access to limited distribution data
    - Navy/Marine Corps Intranet (NMCI) compatible
    - New edition released as needed.
  - Classified
    - Red CD - Reserved for military and government agencies that have access to classified data
    - New edition released as needed.
- Download Areas
  - Limited Distribution - NIPRNet
    - Log into [FedMall](#) and click on the "Interactive DLA Map Catalog" link under "Tools". Then, click on the "Download Map Catalogs" link at the bottom of the page. Download the application to your desktop and follow the instructions to unzip the application to your computer.
  - Classified- SIPRNet
    - Navigate to the Intelink – IntelDocs site (<https://www.intelink.sgov.gov>) and click on "Group Folders." Search for "DLA Map Catalog". When the results window opens, select the "DLA Map Catalog Application" folder. Download the application to your desktop and follow the instructions to unzip the application to your computer.

## DLA Map Catalog

Prior to ordering map products from DLA, you need to have a valid map account on file with DLA Aviation Mapping Customer Operations (MCO). To verify you have a valid map account, call 1-800-826-0342 or DSN: 695-6500. You can also email the DLA Aviation Account Management team at [acctmgr@dla.mil](mailto:acctmgr@dla.mil).

### Contact Information

If you have any concerns or questions, please contact us at:

Commercial: 269-961-4757

DSN: 661-4747

Email: [DLAMapCatalog@dla.mil](mailto:DLAMapCatalog@dla.mil)

To order the Unclassified/Limited Distribution DLA Map Catalog, submit a MILSTRIP requisition using the following NRN (part number) or NSN:

NRN: CATCDNMCI

NSN: 7644015433809

To order the Classified DLA Map Catalog, submit a MILSTRIP requisition using the following NRN (part number) or NSN:

NRN: CATCDCLASIFIED

NSN: 7644014784791

To obtain map products from Mapping Customer Operations (MCO), customers must first register in AMPS (Account Management Provisioning System) to gain access to MEBS (Mapping Enterprise Business System), which replaces the old RMF Customer Portal. To establish a map account, you must register in AMPS to establish a map account role. Please use this link, <https://amps.dla.mil>, and complete accordingly. Once you have received your approval, log in to AMPS and request a role for MEBS. Follow the instructions to complete Customer Account Request and submit. You will receive email confirmation once approved. To access your account, log in to AMPS and select your MEBS role. It is strongly recommended that customers read the Customer Handbook, which is posted on Mapping Customer Operations website at <https://www.dla.mil/Aviation/Offers/Products/Mapping/>.

If you have any questions call MCO Account Management for help at DSN 695- 6500, Option 2, or commercial 804-279- 6500, or 1-800-826-0342 (toll free), Option 2. You may also contact us via email at [acctmgr@dla.mil](mailto:acctmgr@dla.mil).

Information on how to request a DODAAC may be found at:

**DODAAC / RIC Request Form**

[https://www.dla.mil/Portals/104/Documents/DLMS/Committees/DODAAD/DODAAD\\_Entry\\_Form.pdf](https://www.dla.mil/Portals/104/Documents/DLMS/Committees/DODAAD/DODAAD_Entry_Form.pdf)

**Account Management and Provisioning System (AMPS) information may be found at:**

## **The DLA Industrial Base Extension (IBex) Program**

<https://www.dla.mil/Portals/104/Documents/TroopSupport/CloTex/2019%20JAPBI/DLA%20Industrial%20Base%20Program.pdf?ver=2019-11-15-144308-253>

IBex was developed to support DOD operations in remote or hostile environments where little or no commercial capability information is known or exists. Bolstering DLA's ability to rapidly respond to shifting worldwide events, IBex's strategic partnerships with industry experts allows government planners to leverage the expertise of the commercial sector, and to gain access to those commercial capabilities if required.

Utilized as a sourcing tool by the Services and DLA since 2004, I Bex provides the DOD detailed narrative studies for countries and regions around the globe; these narrative logistical capability assessments feature the following:

- Region/Country Presence by Class of Supply
- Host Nation Knowledge
- Knowledge of Infrastructure and Transportation
- Storage Facilities
- DOD Integration
- Manpower
- Field Feeding Capability
- Supplies and Services by category
- Contingency Support

IBex's partnerships with industry improves the ability of global commercial sectors to respond to the mobilization needs of the U.S. Government in the event of a surge situation, reduces the overall costs to the government involved in planning and maintaining visibility of commercial global logistical assets, and maintains industrial base awareness over assets that can be utilized during a contingency or national emergency.

There are three types of I Bex vendors: Global Third-Party Logistics Providers (can support whatever, wherever); Product Specialists (provide one service or supply extremely well); and local vendors (COCOM or country specific). At least one vendor in our pool can provide supplies or services in the following areas:

- Warehousing, Distribution, and Forwarding
- Health Care and Personal Demand Items
- Emergency Preparedness
- Maintenance, Repairs & Operations
- Subsistence, Catering, and Bottled Water
- Tents, Organizational Tool Sets and Kits, and Administrative/Housekeeping Supplies
- POL
- Construction Materials, Lumber, and Fortification/Barrier Material
- Security Services, Site Support Services, Camp Design, and Facility Management
- Contract Logistics

**IBex data repository hosted on ASOC Intelink site.**

## **DOD Authorized Protective Eyewear List (APEL) NSNs**

<https://www.peosoldier.army.mil/Equipment/Approved-Eyewear-QPL/>

APEL NSN and Image List: [https://www.peosoldier.army.mil/Portals/53/files/APEL\\_Poster\\_29062022.pdf](https://www.peosoldier.army.mil/Portals/53/files/APEL_Poster_29062022.pdf)

## **IMPORTANT NOTICES**

Please be advised that only eyewear on the APEL® have been validated against Army requirements for ballistic fragmentation protection. Other commercial eyewear products, even if marked ANSI Z87.1 compliant, do not necessarily meet military impact requirements. Eyewear not on the APEL® are not authorized for wear during combat, training, or when there is a risk of impact injury to the eyes.

Please be advised only clear and neutral grey sunglass lenses are approved, with the exception of products with approved laser protective lenses. Non-laser commercial lens tints, such as yellow, are not approved for use due to their impact on color perception.

APEL® vendors should take all precautions to mitigate APEL® products being sold to non-DOD or non-military personnel or entities.

## **EYEWEAR FAQS**

- [About the APEL® list](#)
- [Safety-rated eyewear not on the APEL®](#)
- [Protective eyewear requirement](#)
- [Protection against lasers](#)
- [Prescription lenses](#)
- [Previously authorized eyewear](#)
- [Ordering APEL® eyewear](#)
- [VIEW ALL FAQS](#)

## RELATED RESOURCES

### [Government Eyewear System \(G-Eyes\)](#)

Service members who require prescription correction may obtain the UPLC filled with their prescriptive lenses through their garrison optometry clinic, deployed optometry clinic or medical support section. Deployed soldiers may also obtain replacement prescription lenses through the G-Eyes website.

### [Spectacle Request Transmission System \(SRTSweb\)](#)

The Spectacle Request Transmission System (SRTS) is a web-based application that provides the United States Department of Defense (DoD) military ordering facilities(clinics) and fabrication facilities (labs) with an automated mechanism to order and track military eyewear.

## **HOW TO EXPEDITE AN ORDER/REQUISITION?**

### **DLA Managed Item/NSN**

Submit a Supply Assistance Request (SAR) via DLA Orders or Contact the DLA CIC

### **Service Managed Item/NSN**

Contact the Military Services Item Manager / Equipment Specialist

**Army:** <https://vantage.army.mil/i3log>

**USAF & USMC:** <https://scsweb.csd.disa.mil/smsweb/>

**USN:** [https://www.onetouch.navy.mil/static\\_ots/index.html](https://www.onetouch.navy.mil/static_ots/index.html)

### **Green or Purple Sheet Submissions**

[https://www.ustranscom.mil/dtr/part-ii/dtr\\_part\\_ii\\_203.pdf](https://www.ustranscom.mil/dtr/part-ii/dtr_part_ii_203.pdf)

**The Green and Purple sheet submission requirement must be process by the requiring unit and must be reviewed and approved by the respective Logistics/Support Operations Center/Office.**

**Green Sheet** is a procedure whereby specifically identified cargo in the AMC system may gain movement precedence over other expedited cargo, including RDD: 999 shipments, of the sponsoring Service. Green sheet is not a priority, but it is designed to override priorities when expedited movement of specific shipments is required in the national or defense interest and is certified as an operational necessity by the sponsoring Service. It only overrides priorities for the requesting Service's shipments. The requester submits requests for Green sheet action to the sponsoring Service Air/Airlift Clearance Authority (ACA) or to the overseas ACA that has geographic responsibility over the aerial port where the on-hand cargo is located. The ACA originating the Green sheet action will ensure coordination is accomplished with intermediate ACAs prior to departure of the cargo from the origin station. The originating ACA must document in writing (via e-mail or fax) requests to down-line ACAs to ensure identified cargo is Green sheeted after each terminating channel and on any subsequent flight to the final destination. All down-line stations are required to honor original Green sheet action.

**Purple Sheet** is a Combatant Command (CCMD) request to identify a specific cargo shipment for movement precedence over all other cargo currently within the AMC channel system designated for the requesting CCMD. PS is not a priority, but a request to override priorities for shipment movement to the supported CCMD. The PS process is only applicable to expedite movement of individual cargo shipments, does not apply to passenger movement, and should not be used to move full paneloads. Due to the potential disruption to

DoD common user cargo movements, requests must be of the utmost urgency of national interest and operational necessity. Official Memorandum or Letter endorsed by the respective CCMD is suggested. The supported CCMD/J4 will review and approve all requests at the General/Flag Officer level prior to submission to the United States Transportation Command (USTC) Deployment Distribution Operations Center (DDOC) (USTC/J3) at [transcom.scott.tcj3.mbx.ddoc-chief@mail.mil](mailto:transcom.scott.tcj3.mbx.ddoc-chief@mail.mil). Once received, USTC will coordinate with the 618th Air Operations Center (618th AOC) on the movement viability with regard to current airlift schedules and movement plans. In cases where channel airlift is not viable to meet the Required Delivery Date (RDD), the CCMD should be advised to consider Special Assignment Airlift Mission (SAAM). On channels supporting more than one CCMD, the potential exists for major disruptions to another CCMD critical shipments. Therefore, it is essential that all CCMD's impacted continue to coordinate throughout the planning process. If validated, the 618th AOC will provide USTC with a movement plan and DDOC will task the 618th AOC Tanker Airlift Control Center (TACC) to execute.

## Military Services Support and DLA LNOs and Forward Facing and Customer Representatives

The names and telephone numbers of Defense Logistics Agency (DLA) personnel located worldwide are listed in the DLA Customer Assistance Handbook. DLA is committed to providing superior logistics support to both our Department of Defense and civil agency customers. The DLA representatives are an integral part of DLA's efforts to meet that commitment. Their mission is to provide quality customer assistance on a continuing basis and alert the proper DLA activities of significant problems that could affect our support, services, or customer satisfaction. They are also available to provide basic information about DLA and give you information on the DLA support initiatives that can best serve your particular needs. This listing is updated on a regular basis. For the most current listing, please visit the DLA Customer Website at

<https://www.dla.mil/CustomerSupport/WarfighterSupport.aspx/> and  
<https://www.dla.mil/CustomerSupport/Resources/Communications.aspx>

Appendix B

TYPE XXVI NYLON MULTI-LOOP LINE

NSN	Description
1670-01-062-6301	2-loop, 3 foot
1670-01-062-6306	4-loop, 3 foot
1670-01-062-6304	2-loop, 9 foot
1670-01-062-6305	4-loop, 9 foot
1670-01-063-7760	2-loop, 11 foot
1670-01-062-6310	4-loop, 11 foot
1670-01-062-6303	2-loop, 12 foot
1670-01-062-6307	4-loop, 12 foot
1670-01-063-7761	2-loop, 16 foot
1670-01-062-6308	4-loop, 16 foot
1670-01-062-6302	2-loop, 20 foot
1670-01-064-4453	4-loop, 20 foot

ROUNDSLINGS

NSN	PART NUMBER	CAPACITY	LENGTH
1670-01-388-6789	PRS 2E008	5,300-pound	8 foot
1670-01-388-3845	PRS 2E017	5,300-pound	17 foot
1670-01-388-8480	PRS 3E008	8,400-pound	8 foot
1670-01-388-8479	PRS 3E017	8,400-pound	17 foot
1670-01-388-3917	PRS 5E030	13,200-pound	30 foot
1670-01-388-3901	PRS 7E065	21,200-pound	65 foot
1670-01-388-3965	PRS 7E070	21,200-pound	70 foot

**NOTE: excerpt from: TM 4-48.09**

Appendix B

5,000-AND 10,000-POUND CAPACITY CARGO NETS AND COMPONENTS

NSN	PART NUMBER	DESCRIPTION	QTY
1670-01-058-3811	6018-5	Net, 5,000-pound capacity, LIN N02776	1 ea
1670-01-058-3810	6018-10	Net, 10,000-pound capacity, LIN N02708	1 ea
1670-01-070-5276	6019	Apex fitting	1 ea
1670-01-067-9989	6020	Hook	4 ea
4020-01-118-5826	6018-15	Repair cord, used on part no. 6018-5	As req
4020-01-119-5994	6018-20	Repair cord, used on part no. 6018-10	As req
8030-01-152-2286	2300-3	Antiabrasion compound, olive drab	As req
8030-01-154-2327	WB1003 black	Antiabrasion compound, black	As req
1080-00-108-1155	13226EO964-2	Transportease	1 ea*
8460-00-606-8366	MIL-K-41835	Kit bag, flyers	1 ea*

\* Alternate NSN is 1080-00-107-8580. These cases are designed and marked for use with the camouflage screen. Camouflage system markings should be replaced with "Helicopter External Cargo Net, 10,000-pound capacity."

Appendix B

PROTECTIVE EQUIPMENT

NSN	Description
4240-00-052-3776	Eye goggles
8415-01-158-9445	Gloves, electrical workers, size 9
8415-01-158-9446	Gloves, electrical workers, size 10
8415-01-158-9447	Gloves, electrical workers, size 11
8415-01-158-9448	Gloves, electrical workers, size 12
8415-00-268-7859	Gloves, leather
4240-00-759-3290	Protector, hearing
8415-00-071-8786	Helmet, flight deck (USN/USMC/USAF)
6515-00-137-6345	Plugs, ear, hearing protection
5920-01-347-0728	Discharger, Electrostatic

MISCELLANEOUS EQUIPMENT AND MATERIAL

NSN	Description
4030-00-360-0304	Clevis assembly, small, MS 700871
5305-00-726-2553	Bolt
5310-00-835-2037	Nut
4030-00-678-8562	Clevis assembly, medium, MS 700872
5305-00-940-8069	Bolt
5310-00-842-1190	Nut
4030-00-090-5354	Clevis assembly, large, MS 700873
5305-00-177-5617	Bolt
5310-00-891-3428	Nut
4020-00-240-2146	Cord, nylon, Type III, 550pound breaking strength
8305-00-958-3685	Felt sheeting, 1/2inch thick, 30inch wide

8305-00-191-1101	Felt sheeting, 1/2inch thick, 60inch wide
7520-00-079-0286	Ink, marking, parachute, orange yellow, marker
7520-00-634-6583	Ink, marking, parachute, orange yellow, liquid
7520-00-230-2734	Ink, marking, parachute, strata blue, marker
7520-00-286-5362	Ink, marking, parachute, strata blue, liquid
5825-00-917-3738	Light, beacon, beanbag
6260-01-074-4230	Light, chemical wand, 30minute glow time
6260-00-106-7478	Light, chemical wand, 6hour glow time
6260-01-074-4229	Light, chemical wand, 12hour glow time
1670-00-783-5988	Link assembly, Type IV
1670-00-212-1149	MB1 chain assembly, 10,000pound capacity
1670-00-516-8405	Chain assembly
1670-00-753-3928	Pad, energy dissipating, honeycomb
8135-00-664-6958	Padding, cellulose, 20inch by 60foot
8135-00-808-6446	Padding, cellulose, 24inch by 125foot
8345-00-174-6865	Panel, marker, red, yellow, VS17
4020-00-231-2581	Rope, 3/8inch, TR605
4020-00-968-1357	Rope, fibrous, 1/2inch, MILR17343
6850-00-264-9038	Solvent, dry cleaning, PD680
7510-00-266-5016	Tape, adhesive, pressure sensitive, 2inch wide roll, green
7510-00-074-4969	Tape, adhesive, pressure sensitive, 2inch wide roll, red
1670-00-725-1437	Tiedown strap, CGUI/B, 5,000pound capacity
5340-01-204-3009	Tiedown strap, web nylon, 5,000pound capacity
1670-00-937-0271	Tiedown strap, web nylon, 10,000pound capacity
5365-00-937-0147	D-Ring, aerial delivery
1670-00-937-0272	Load binder assembly
1670-00-360-0340	Quick-fit strap fastener
1670-00-587-3421	Bag, cargo, A-22, LIN B 14181, TAMCN C4070

3940-00-892-4380	Cargo net, 14-foot square, 10-inch mesh
3940-00-892-4374	Cargo net, 14-foot square, 8-inch mesh
1450-01-219-4360	Mk105 pendant
1450-00-414-7172	Mk105 hoisting sling assembly, 6,000-pound capacity
1450-00-881-8736	Mk105 sling leg assembly
4020-01-365-3115	Pendant, reach, 11,000-pound capacity
4020-01-337-3185	Pendant, reach, 25,000-pound capacity
1670-01-003-0803	Releasable swivel hook pendant sling AC6000500 Mod 1
1450-00-169-6927	Sling, pallet, Mk86, LIN S80670
1398-00-004-9175	Sling, pallet, Mk100, LIN S80738
1670-00-103-6617	Swivel hook sling leg, AC6000153 (USMC, USN)
1670-01-531-1882	Spreader bar, 15,000-pound
