DLA Packaging and Marking Guide

April 2025

THE NATION'S LOGISTICS COMBAT SUPPORT AGENCY

DLA Packaging

Material procured, received, stored and issued by DLA requires proper care to ensure that the items arrive and remain in a ready-for-issue condition.

Importance of Packaging

Importance

- Material that is procured, received, stored, and issued must be properly identified and packaged at the time of receipt.
- The warfighter must receive the right item, on time, properly packaged.

Contractual Requirements

- Section B of the contract contains
 - RA001: Incorporates the TQ master requirements.
 - RP001: DLA Packaging Requirements for Procurement
 - RP003: Preservation, Packaging, Packing and Marking Requirements for Federal Aviation Administration Commercial Material
- The prep for delivery section displays the packaging requirements that pass from the material master and could contain additional requirements such as
 - IP025: Packaging, Marking, and Shipping of Hazardous Materials
 - IP027: Packing and Marking Requirements Federal Stock Class (FSC)
5961 Semiconductors and Hardware Devices and FSC 5962 Electronic Microcircuits
 - IP042: Oxygen Clean Packaging and Marking Requirements Apply
 - IP046: Individual Repair Parts Ordering Data (IRPOD) Packaging Requirements Apply
 - IP056: Mercury or Mercury Compounds are Prohibited in Preservation, Packaging, Packing and Marking
 - IP083: Packaging, Marking, and Shipping of Metal Plating, Sheets, and other Metal Products

PAGE 3 OF 6 PAGES

SECTION B

SUPPLIES/SERVICES: 4931-01-115-5443

ITEM DESCRIPTION:

SLING, UNIVERSAL

RA001: THIS DOCUMENT INCORPORATES TECHNICAL AND/OR QUALITY REQUIREMENTS (IDENTIFIED BY AN 'R' OR AN 'I' NUMBER) SET FORTH IN FULL TEXT IN THE DLA MASTER LIST OF TECHNICAL AND QUALITY REQUIREMENTS FOUND ON THE WEB AT:

<http://www.dla.mil/HQ/Acquisition/Offers/eProcurement.aspx>

Link to DLA Master List of Technical and Quality Requirements

FOR SIMPLIFIED ACQUISITIONS, THE REVISION OF THE MASTER IN EFFECT ON THE SOLICITATION ISSUE DATE OR THE AWARD DATE CONTROLS. FOR LARGE ACQUISITIONS, THE REVISION OF THE MASTER IN EFFECT ON THE RFP ISSUE DATE APPLIES UNLESS A SOLICITATION AMENDMENT INCORPORATES A FOLLOW-ON REVISION, IN WHICH CASE THE AMENDMENT DATE CONTROLS.

Callout for RP001: DLA Packaging Requirements for Procurement

RP001: DLA PACKAGING REQUIREMENTS FOR PROCUREMENT

RQ011: REMOVAL OF GOVERNMENT IDENTIFICATION FROM NON-ACCEPTED SUPPLIES

MIL-STD-130N(1) DATED 16 NOV 2012.
IDENTIFICATION MARKING OF U.S. MILITARY PROPERTY

ASTM D3951 Standard Practice for Commercial Packaging

- Prep for Delivery – ASTM D3951, Standard Practice for Commercial Packaging

PREP FOR DELIVERY:

PKGING DATA-QUP:001

WILL BE PACKAGED IN ACCORDANCE WITH ASTM D3951.

All DLA Master List of Technical and Quality Requirements take precedence over ASTM D3951.

Mark and label all packaging and packing in accordance with MIL-STD-129. The Unit of Issue (U/I) and Quantity per Unit Pack (QUP) will be as specified in the contract/purchase order.

Quantity per Unit Pack (QUP)-
How many units of issue allowed
in same unit package

Packaging IAW ASTM D3951

Marking requirements

ASTM D3951, STANDARD PRACTICE FOR COMMERCIAL PACKAGING

- Select items are eligible to be packaged in accordance with ASTM-D3951, Standard Practice for Commercial Packaging
- Commercial packaging QUP:
 - ASTM-D3951, paragraph 5.1.2.2 governs unit package Quantity
 - Generally, use QUP of 001 unless otherwise specified in your contract
- Commercial packaging Intermediate Container Quantity (ICQ):
 - ASTM-D3951, paragraph 5.1.3 governs intermediate package
- Commercial packaging “Marking”:
 - ASTM-D3951, paragraph 5.1.6.5 governs markings for DOD (IAW with MIL-STD-129)

Military vs Commercial Packaging

- Access to commercial standards requires purchase of the standards from the ASTM

- <https://www.astm.org/>

Military Packaging	Commercial Packaging
Use of specification materials	Permits use of non-specification materials
Requires interpretation of preservation/packaging/packing instructions	ASTM D3951 provides standard commercial guidelines
Requires the preservation methods and materials from MIL-STD-2073-1	Application of preservation/packing techniques is at the discretion of the vendor
MIL-STD-129 marking required	MIL-STD-129 marking required
Compliant WPM required	Compliant WPM required
Available on ASSIST	Must be purchased

Packaging Standards

- MIL STD 2073-1E, DOD Standard Practice for Military Packaging
- MIL STD 129R, DOD Standard Practice for Military Marking for Shipment and Storage
- ASTM D3951, Standard Practice for Commercial Packaging
- AFMAN 24-604/DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipments
- MIL STD 147E, DOD Standard Practice, Palletized Unit Loads

* Refer to contract/solicitation for appropriate revision (and change number) of specification

Overview

Title: Barrier Materials, Flexible, Electrostatic Discharge Protective, Heat-Sealable	
Scope: This specification establishes the requirements for heat-sealable, electrostatic discharge protective, flexible barrier materials used for the military packaging of microcircuits, sensitive semiconductor devices, sensitive resistors, and associated higher assemblies. In addition, the type I materials provide for watervaporproof protection and attenuation of electromagnetic interference effects (see 6.1).	
Status: Active	Document Date: 12-NOV-2014
FSC/Area: 8135	Next Review Due: 11-NOV-2019
Qualification	Doc Category: Performance Specification

Responsibilities

Lead Standardization Activity: SM	LOGSA Packaging, Storage and Containerization Center
Preparing Activity: AS	Naval Air Systems Command
Coordination: Full	
Army Custodian: GL	U.S. Army Natick Soldier Research, Development & Engineering Center
Navy Custodian: AS	Naval Air Systems Command
Air Force Custodian: 69	Air Force Life Cycle Management Center - Packaging Technology and Engineering
DLA Custodian: CC	DLA Land and Maritime

Projects

Project Number: 8135-2015-001

Amendments to military specifications or specification sheets issued after August 1, 2003 are incorporated in the modified document.

MIL-STD-129R Item Identification Markings

Why do we need them?

- Identify items shipped, received, and stored in a standardized format.
- Assist warehousing personnel in sorting shipments, picking from storage, and taking inventory.
- Communicate the degree of protection of the item.
- Communicate hazards and special handling requirements.
- Expedite the shipment.
- Communicate the reusability of the container.
- Communicate the destination of the shipment.

MIL-STD-129R Item Identification Markings

- Identification markings
 - NSN - (National Stock Number) – Includes spaces, dashes, prefix and suffix
 - CAGE Code – for the company AWARDED the contract
 - PN - (Part #)
 - Nomenclature (Not always required on exterior containers)
 - Quantity and unit of issue
 - PIID (or Contract and call for legacy contracts)
 - Military Method and date of unit preservation
 - Gross Weight (Exterior containers)
 - Shelf-Life Information (if applicable)
 - Serial Numbers (if applicable)
- Identification bar code markings
 - NSN (& Serial Number) for unit and intermediate packs
 - NSN, Contract number, CAGE, CLIN, Shipment Number (& Serial Number) on exterior shipping containers

MIL-STD-129R Item Identification Markings - PIID

- Procurement instrument identifier (PIID) (e.g., contract number or purchase order number)
 - For current DFARS compliant DOD contracts, cite the 13-character PIID. When applicable, use the 13-character PIID call order number (identified by F or M in the 9th position) alone (since the call order PIID is treated as an independent contractual document)
 - For legacy contracts, cite the PIIN (contract number or purchase order number) including four-digit delivery order or call number if applicable, and lot number (see 5.10.13) shall be shown. Additional information may be required by the contract or purchase order

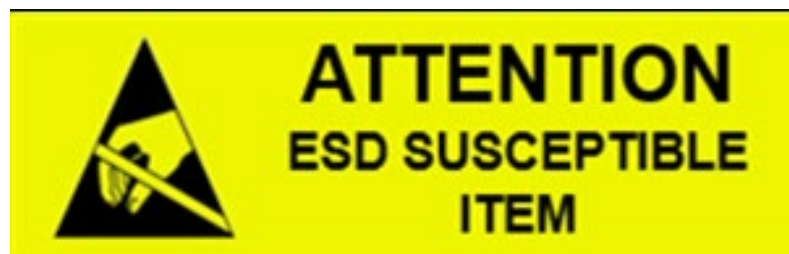

- Required shelf-life markings
 - TYPE I (non-extendable):
 - MFD DATE 10/01
 - EXP DATE 10/06
 - TYPE II (extendable):
 - ASSEMBLED DATE 10/01
 - INSP/TEST DATE 10/04
 - RUBBER or ELASTOMER (TYPE I OR II):
 - CURED DATE 4Q01
 - INSP/TEST DATE 4Q05

Special Markings-Electrostatic Discharge Susceptible (ESDS)

NOTE: This document is for general guidance only and should not be used to determine compliance with 49 CFR, Parts 100-185.

HAZARDOUS MATERIALS MARKINGS

Unit and Intermediate Marking Example-Linear Bar Code

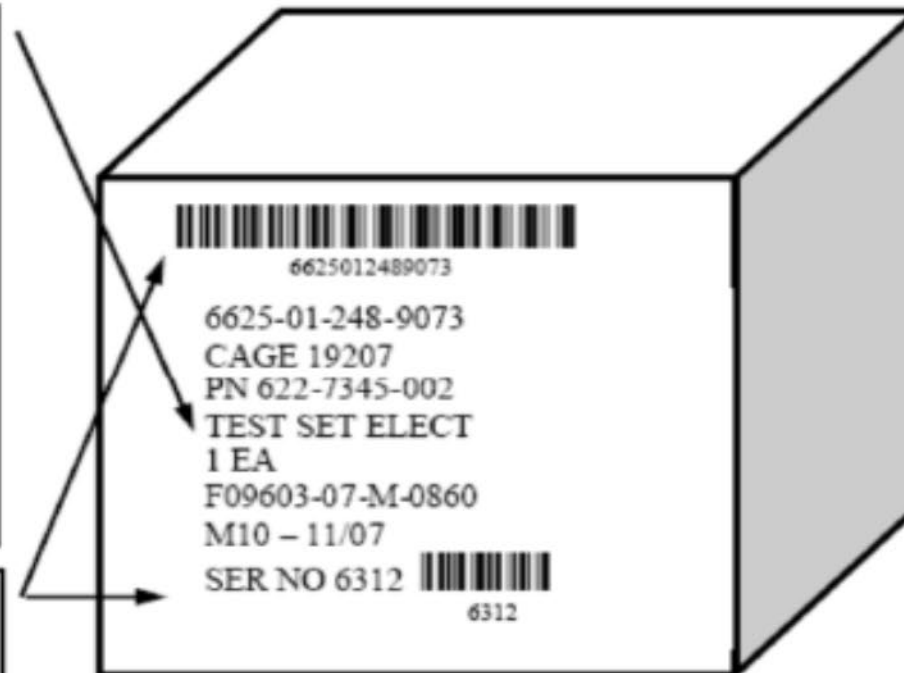

Unit & Intermediate Containers with linear (Code 39) bar codes

1 - IDENTIFICATION MARKINGS

- NATIONAL STOCK NUMBER
- CAGE CODE
- PART NUMBER
- ITEM DESCRIPTION
- QUANTITY AND UNIT OF ISSUE
- CONTRACT NUMBER & LOT NUMBER
- MILITARY METHOD &
DATE OF UNIT PRESERVATION
- SERIAL NUMBER (WHEN ASSIGNED)

#2 - BAR CODES

- NATIONAL STOCK NUMBER (NSN)
- SERIAL NUMBER (WHEN ASSIGNED)

*For units without UII

Unit and Intermediate Marking Example- 2D (PDF417) Symbol

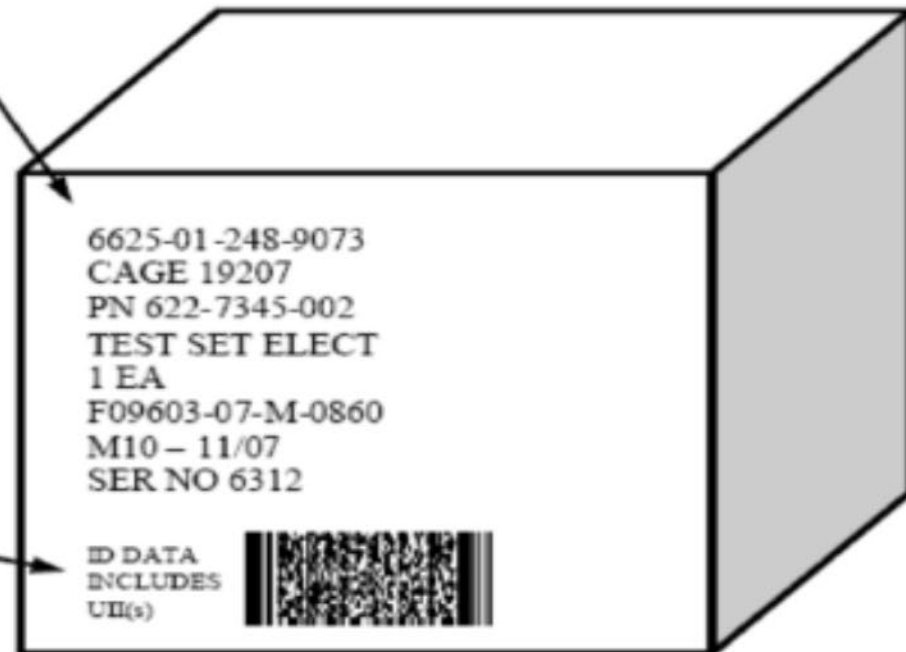

Unit & Intermediate Containers with 2D (PDF417) symbol*

1 - IDENTIFICATION MARKINGS

- NATIONAL STOCK NUMBER
- CAGE CODE
- PART NUMBER
- ITEM DESCRIPTION
- QUANTITY AND UNIT OF ISSUE
- CONTRACT NUMBER & LOT NUMBER
- MILITARY METHOD & DATE OF UNIT PRESERVATION
- SERIAL NUMBER

#2 - 2D (PDF417) Symbol Data with (Data Identifiers)

- NATIONAL STOCK NUMBER (N)
- SERIAL NUMBER (S)
- UNIQUE ITEM IDENTIFIER (25S)

*For units with UII

- Unless specifically exempted in the contract, DoD and Vendor shipping activities must apply address markings using a bar coded MSL.
- Multiple suppliers can provide necessary software. An internet search will display multiple options.
- The DLA Vendor Shipment Module -
<https://www.dla.mil/Working-With-DLA/Applications/Details/Article/2923161/vsm-vendor-shipment-module/>

- The Code 39 (Linear) and 2D (PDF417) bar codes must be easily machine readable.
- The MSL label must be made of a water-resistant grade of paper, coated on one side with water-insoluble permanent type adhesive.
- ASTM D5486, Type I, Class 2 tape can be used to waterproof labels on exterior containers.

Military Shipping Label (MSL)

The recommended MSL size is 4 inches by 6 inches.

Wood Packaging Material (WPM)

- WPM is defined as wood pallets, skids, load boards, pallet collars, wooden boxes, reels, dunnage, crates, frames, and cleats.
- All WPM is required to be heat treated, including pallets, and marked with the heat-treated compliant marking.
- The stamp can only be applied by vendors who meet the standards of an accredited agency of the American Lumber Standards Committee.

Examples of Non-Compliant Materiel

Examples of Non-Compliant Shipments

Non-Compliant Shipments

- One out of every 15 new procurement receipts has a packaging and/or marking discrepancy/defect that requires correction before acceptance.
- Over 50% of packaging/marking discrepancies are from repeat vendor/NIIN combinations.
- Receiving activities must create and submit Supply Discrepancy Reports (SDR) for every non-compliant shipment.
 - If the shipment does not exceed the threshold noted in DLAD Procurement Note C14, Correction of Nonconforming Packaging or Marking, the SDR will be informational, and the materiel will stay in Supply Condition Code (SCC) A.
 - Vendor will receive an automated letter notifying them of the discrepancy.
 - If the shipment exceeds the threshold noted in DLA Procurement Note C14, the materiel will be suspended and payment withheld until the discrepancy is remediated.

Supply Discrepancy Reports (SDR)

Packaging

Packaging

Inadequate to protect the item
Wrong Method of Preservation
Wrong Packaging Materials/Non-Specification Materials
Use of non-compliant wood packaging materials

Caps/Plugs

Marking

Not MIL-STD-129 Compliant
Missing Elements
Missing Special Markings

Unitization

Not unitized/palletized to MIL_STD-147
Stacked too high

Hazardous Shipments

Not prepared for mode of shipment
Incorrect Shippers Declarations

DLAD Procurement Note C14, Correction of Nonconforming Packaging or Marking

- (1) The Government may correct nonconforming packaging or marking for receipts of DLA- owned materiel if the estimated costs of correction are \$1,000 or less. The contracting officer will advise the contractor of the discrepancy, and that the Government has corrected the packaging or marking. The contracting officer will make a determination concerning appropriate reimbursement by the contractor for the Government's costs to correct the deficiencies. Upon determining that reimbursement is required, the contracting officer will send a notice to the contractor. Upon receipt of notice from the contracting officer, the contractor shall reimburse the Government for the costs incurred by the Government to correct the deficiencies.
- (2) If the estimated costs of correction for receipts of DLA-owned materiel are more than \$1,000, the contracting officer will advise the contractor of the discrepancy and have the materiel returned to the contractor for correction/resubmittal; or, if there are urgent requirements, have the Government remediate the discrepancy at the contractor's expense. If the Government remediates the discrepancy, the contracting officer will make a determination concerning appropriate reimbursement by the contractor for the Government's costs to correct the deficiencies. Upon determining that reimbursement is required, the contracting officer will send a notice to the contractor. Upon receipt of notice from the contracting officer, the contractor shall reimburse the Government for the costs incurred by the Government to correct the deficiencies. *****

Nonconformance:

Identification markings omitted, incomplete, incorrectly located, or not legible

“For Informational Purposes Only”

Preservation, packaging, packing or marking (PPP&M) nonconformance has been identified for a shipment received against contract (see below). The Government has corrected the packaging or labeling deficiencies at the distribution center at a cost of \$66.7.

No action is required at this time. This letter serves as a notice to inform the contractor of the non-conformance reported at the Distribution Center following a visual inspection. The Government's efforts to correct the discrepancies encumbers valuable resources that would be more efficiently utilized to support our Warfighters in other areas.

DLA must ensure that supplies tendered by contractors conform to contract requirements to uphold the integrity of the supply chain. It is essential for your company to identify non-conformances and establish corrective measures for future deliveries.

Use the resource links above before contacting the Contract Administrator. If you need additional packaging and marking guidance, contact your Contract Administrator via the Post Award Request (PAR) on DIBBS (<https://www.dibbs.bsm.dla.mil>). For additional information regarding PPP&M, select DLA Packaging under Technical Data on the DIBBS Home screen.

“This has been provided for informational and educational purposes only”

Under the Packaging Threshold

- The vendor letter only describes the first discrepancy code listed and the definition for that code.
- The SDR, although informational, is given a Cause Code of CP for Contractor Non-Compliance with Packaging.
 - This could affect a vendor color/score in the Supplier Performance Risk System (SPRS).

Over the Packaging Threshold

- Shipments that exceed the packaging threshold are suspended in SCC L and an actionable SDR is submitted.
 - Until upgraded to SCC A, vendors may not be paid.
- While suspended, materiel is not eligible for issue.
- The contracting officer will contact the vendor and negotiate per procurement note C14.
- Materiel may be
 - Returned to vendor for correction and return, or
 - Remediated at vendor expense.
 - If the Government remediates the discrepancy, the contracting officer will decide appropriate reimbursement by the contractor for the Government's costs to correct the deficiencies.

Contract Questions?

- The primary contact for all contractors/vendors is the contracting officer. Vendors should submit a Post Award Request (PAR) for any question (packaging related or other) using the PAR link on DIBBS
