

Return Code	Error Message	Warning/Error
4	Unit of Measure and Quantitative Expression is required if Unit of Issue (UI) is a Non-Definitive value	E
4	Unit of Measure (UM) & Unit of Issue (UI) submitted in an invalid combination and request is rejected.	E
11	NSN is in a commodity which cannot be submitted via the SSR process	NA
11	Then return error message: Request [insert Unique ID] is a duplicate.	NA
2A	The request's current design control CAGE ([<i>enter CAGE value</i>]) is foreign, but [<i>enter country</i>] does not have the ability or authority to Catalog. Requires US-assigned NSN.	NA
2C	One or more of the following data elements on the Exact CAGE and Part Number Match does not match the request	NA
	Quantity Unit Pack	
	Unit of issue	
	CIIC- Controlled Inventory Item Code	
	Shelf Life	
	Price	
	AAC- Acquisition Advice Code	
	Unit of Measure	

	Quantitative Expression	
2D	NSN is in a commodity which cannot be submitted via the SSR process. Please see FLIS SSR procedures.	E
2E	NSN is Navy Nuclear.	NA
2F	Exact Match is found. [NIIN] is managed by [enter Svc/Agency managing NSN]. Submit a Maintenance Request as needed.	NA
2G	The NSN's Acquisition Advice Code needs review	NA
2H	Submitted Request matches to the following NIIN [Exact Match NIIN ID]. Submit a Maintenance request to add user data and/or Demand Data	NA
2I	Submitted Request matches to the following NIIN [Exact Match NIIN ID]. In which the OAC is a user. Submit a Maintenance request to record Demand Data .	NA
2J	The submitted transaction cannot be processed because the Criticality Code was applied that indicates there are critical features and MRC Criticality Justification Code (CRTL) was not applied.	E

2K	The submitted transaction cannot be processed because the Criticality Code was applied that indicates there are Nuclear Hardness Critical Features and MRC Nuclear Hardness Critical Feature (NHCF) was not applied.	E
2L	The submitted transaction cannot be processed because MRC Nuclear Hardness Critical Feature (NHCF) was applied and the Criticality Code did not indicate there were Nuclear Hardness Critical Features.	E
2M	The submitted transaction cannot be processed because the Master Requirement Code (MRC) for Precious Material (PRMT) cannot be combined with the submitted or recorded PMIC.	E
2N	The submitted transaction cannot be processed because the PMIC cannot be combined with the submitted or recorded Master Requirement Code (MRC) for Precious Material (PRMT).	E
2O	The only allowable special characters are a forward slash (/) comma (,) dash (-) apostrophe (') decimal (.) parentheses () or a space.	E

2P	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	E
2Q	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	E
2R	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	E
2S	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	E
2U	The Master Requirement Code (MRC) entered is not allowed to have ISAC applied as being allowable for Mode Code G	E
2V	The Master Requirement Code (MRC) entered is not allowed to have AND or OR applied as being allowable for Mode Code G	E
2Y	Item Management Coding Activity (IMCA) is not allowed for any PICA LOA that is not "01" and "02"	E
2Z	Date Repair Parts Requested (DRPR) needs to be more than 45 calendar days and less than 6 years into the future date received	NA

3B	Request Submitted with Manufacturing Method of Additive Manufactured which cannot have a AMC/AMSC of 0/0	E
3D	No US users exist on the NSN's greatest effective dated user data	NA
3E	User Data PICA is not compatible with the Header Level PICA.	NA
	Select a MOE Rule From FLIS Volume 13 that has the same PICA.	
3F	Single Exact CAGE and Part Number Match to NSN in FLIS or NMCRL. NIIN Status Code is invalid or Phrase Code is invalid	NA
	FLIS Volume 10 Table 18	
	FLIS Volume 10 Table 52	
3G	A single CAGE and Part Number combination submitted [Matched CAGE & Part Number Combination] exists on an NSN [enter matched NSN] that is undergoing Logistics Reassignment and the Gaining PICA is [Greatest <Effective Date> of <PICA Activity Code>]	NA
3I	Demilitarization Code (DEMIL) and Controlled Inventory Item Code (CIIC) submitted is not a valid combination and request is rejected. See FLIS Volume 10 Table 192 for valid combinations.	E

3L	Temporary Value Indicator can only be used on MRCs with an existing Mode Code of "D", "J", or "H"	E
3N	Exact CAGE and Part Number match to a single NSN in FLIS. <i>[include NIIN value]</i>	NA
3P	One or more of the requested Reference Numbers has transferred to the replacement NSN [Exact match] as a result of a cancel-use action of an NSN that was in a Standardization relationship (ISC 3 or E)	NA
3R	One or more of the requested Reference Numbers is obsolete on an existing NSN [Exact match NIIN]	NA
3S	The Master Requirement Code (MRC) submitted has indicated it requires a value in the Reply.	E
3T	The CAGE codes INTE8, INTE9, 99998, or 99999 must be recorded with an RNCC=6, RNVC=9, DAC=9, RNFC=4, RNSC=B).	E

3U	Non_Consumable Item Material Support Code (NIMSC), Depot Source of Repair (DSOR), and PICA/SICA Level Of Authority (LOA) submitted is not a valid combination and the request is rejected. NIMSC/DSOR combinations are only valid with Repairable LOA, see FLIS Vol 10 Table 74 and FLIS Vol 10 Table 107.	E
3V	Material is Classified as "Repairable" making both Non_Consumable Item Material Support Code (NIMSC), and Depot Source of Repair (DSOR) mandatory	E
3W	Consumable items cannot have a Net Price	NA
3X	Non_Consumable Item Material Support Code (NIMSC) and Depot Source of Repair (DSOR) submitted is not a valid combination and request is rejected. See FLIS Volume 10 Table 126 for valid combinations.	E
3Y	Non Approved Item Name (NAIN) shall not begin with a numeric value unless FSC is one of the following: 1365, 6505, 6509, 6550, 6750, 6810, 6820	E

4C	The Item Management Coding Activity (IMCA) must be the same Service/Agency as your submitted MOE Rule.	E
4D	The Federal Supply Group of 65 is Medical and all US requests must be submitted through a Domestic service Medical directorate.	E
4E	All CAGEs on the request have a CAGE Status that is not valid for cataloging per Volume 10 Table 19	E
4E	Submitted CAGE [CAGE Value] has a CAGE Status of [CAGE Status Value] that is not valid for cataloging per Volume 10 Table 19	E
4F	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	E
4G	Non Approved Item Names must be identified as Temporary.	E
4I	The Acquisition Method Code (AMC) and Acquisition Method Suffix Code (AMSC) submitted are not a valid combination and the request is rejected. See FLIS Volume 10 Table 70 for valid combinations.	E
4J	The Following Instance of Management Data [Management Key] is inconsistent.	NA

4K	Unit of Measure (UM) & Unit of Issue (UI) submitted in an invalid combination and request is rejected.	NA
4M	Primary Inventory Control Activity (PICA), and Source of Supply (SOS) submitted is not a valid combination and request is rejected. See FLIS Volume 10 Table 103.Other:Appendix F	E
4N	Two (2) or more blank spaces between characters in a characteristics reply is not permissible.	E
4P	Item Management Code (IMC) was submitted and the submitted Federal Supply Class (FSC) is not subject to Item Management Code (IMC) Coding. See Volume 13, Appendix 13-2-A Standard Federal Supply Class (FSC) Table.	E
4Q	Item Management Code (IMC) was not submitted and the submitted Federal Supply Class (FSC) is subject to Item Management Code (IMC) Coding. See Volume 13, Appendix 13-2-A Standard Federal Supply Class (FSC) Table.	E
4S	The reply matches before and after the operator.	E
4T	A reply cant contain both AND as well as OR operator.	E

4U	The following CAGE [CAGE Value] and part Number [part Number Value] combination is repeated. These combinations must be distinct	E
4V	The PICA service SOS or MIL RI must be compatible, see FLIS Volume 10 Table 113.	E
6A	An RNJC is not allowed when the RNCC/RNVC combination is D/9	E
6B	When submitting an RNCC of C the SADC is mandatory.	E
6C	Only a RNCC of C allows the use of SADC	E
6D	There is a CAGE Status of F, H, N, or P and the RNVC needs to align with the CAGE Status Code.	NA
6E	The Federal Supply Class of 6630 and 6640 are Medical and all US requests must be submitted through a Domestic service Medical directorate.	E
6F	PMIC Is mandatory for NSN assignment	E
6H	Only Phrase Codes Q, R and K are valid for the Material Create	E
6I	When subtype is Medical or SSR the Source of Supply must always be "SMS"	NA
6L	End Item Description or End Item NIIN is required	NA

6M	The FSC submitted is Managed by GSA and the request was submitted to DLA. Resubmit request to GSA for cataloging action.	NA
6N	One of the following must be provided: Technical Data, URL, Location, or Justification.	NA
6P	Exact CAGE and Part Number match to multiple NSNs in FLIS. <i>[include NIIN values]</i>	NA
6Q	CAGE is in a status other than Active	NA
	FLIS Volume 10 Table 19	
6S	Priority Justification is required if Priority Indicator Code is Emergency	NA
6T	Request's primary (RNCC of 3) CAGE [enter CAGE value] is a Type "F" (Non Manufacturer). Please Review. See FLIS Volume 10, Table 90.	E
7M	An invalid combination of Type II, RNCC/RNVC/DAC submitted, please see Table 8, Section [Minimum Section Number].	E
7N	An invalid combination of Type II, RNCC/RNVC submitted, please see Table 8 for allowable reference number combinations.	E
7P	MRCs must be used to justify the use of a non-definitive primary reference number when an additional RNCC 2/2 or 3/2 is not present	E

AI	Two (2) or more blank spaces between characters in a Reference Number is not permissible.	E
AK	Service managed consumable, repairable or FMS support (Primary Inventory Control Activity (PICA) LOA 06, 22 or 99) <u>cannot</u> use Item Management Code (IMC) F or Z (See Volume 11)	E
AK	Only NSA or DTRA may use Item Management Code (IMC) "F" (See FLIS Volume 11)	E
AK	Only DLA and GSA may use Item Management Code (IMC) "Z" (See FLIS Volume 11)	E
CP	Part numbers used with CAGE INTE8/INTE9 must have format XX-XXX-XXXX, representing the NIIN cross reference.	E
CR	The RNCC applied to the submitted reference number conflicts with the RNCC allowed for the cited CAGE. See Volume 10, Table 40, Part 1 for allowable RNCC and DAC combination with cited CAGE.	E
CR	The RNCC applied to the submitted CAGE conflicts with the allowable values based on Volume 10, Table 40, Part 1.	E
CT	The submitted transaction cannot be processed because the Type II is "N" and the Master Requirement Code of "ZZZY" was not applied.	E

DD	DSOR Values [Repeated DSOR Value] must be Unique per MOE Rule.	E
DI	Submitted or recorded data contained a reply to Master Requirement Code (MRC) Extra Long Reference Number (ELRN) in Characteristics and no dash appears in position 60 of a reference number in the Reference Section of the NSN.	E
DQ	When adding or deleting an Extra Long Reference Number in reference data (indicated by a dash "-" in the 60th position, the value for Master Requirement Code (MRC) Extra Long Reference Number (ELRN) must also be added or deleted in Characteristics.	E
EA	Management Data cannot be recorded on NSN's with the Item Name Code (INC) 97991.	E
FP	All MOE Rules submitted with an MMC DOD value of M, T, S must be consistent	E
FT	Submitted MOE rule [MOE Rule Value] has a MOE Rule status other than 0/Active.	E
	See Volume 13 Appendix 13-b for the Assigned Status	
	See Volume 10 Table 116 for the Status Definition	

FV	A Supplemental Collaborator must be the same Service/Agency as your submitted MOE Rule.	E
FW	The Supplemental Collaborator being added is already on the MOE Rule Profile as the PICA or SICA.	E
FY	Must be in accordance with the MOE Rule Federal Supply Group (FSG)/Federal Supply Class (FSC) Management Exception Table in volume 13, paragraph 13.6.2	E
HR	Submitted Secondary Inventory Control Activity (SICA) Management Data elements must match recorded Primary Inventory Control Activity (PICA) Management Data. (See table FLIS Volume 10 Table 186).	E
ID	The Non Approved Item Name (NAIN) or the Item Name Code (INC) of 77777 to Federal Supply Group (FSG)/Federal Supply Class (FSC) combination is in conflict with the listed Combinations on FLIS Volume 10 TABLE 190	E
IF	The input Non-Approved Item Name (NAIN) matched an Approved Item Name (AIN); however, the submitted Federal Supply Class (FSC) is not permitted for the matched AIN.	E
	Refer to the H6 for additional details	

IG	Your submittal failed to process due to the CAGE Code of the prime reference (RNCC 3) resides in a NATO nation outside of the US and does not allow for US Codification and a US CAGE as a Source Control reference (RNCC 1 and RNVC 2) was not recorded. See Volume 4, Chapter 4.12 for instructions on how to obtain a non-US NATO NSN.	E
IN	The CAGE code IREF0 must be recorded with an RNCC=3, RNVC=2, DAC=9, RNFC=4,	E
	RNSC=B. The CAGE code IREF0 must be recorded with one other CAGE/part number with RNCC=5.	
IR	Proposed action to add or change MRC, Reply, and ISAC data for the NIIN contains an identical combination repeated in this input or is already recorded on the NIIN.	E
JR	The submitted reference number with a Reference Number Justification Code (RNJC) is returned because it did not match a reference number in either the FLIS or NMCRL.	E

KP	Based on the submitted CAGE and Part Number's RNCC and RNVC, the submittal created a possible duplicate where the RNJC was required or the submittal created an actual duplicate regardless of the RNJC provided See FLIS Volume 10 Table 13	E
KT	The input Federal Supply Class (FSC)/NAIN key word combination is in conflict with the allowable values on <Table 191>	E
MA	Submitted Federal Supply Class (FSC), and Approved Item Name (AIN) combination is invalid. Valid combinations can be found in H6	E
MR	The submitted or recorded data contained an Incompatible combination of Document Availability Code (DAC) and PRPY. When the DAC is B, D, F, or H the PRPY must exist.	E
MR	The submitted or recorded data contained an Incompatible combination of Document Availability Code (DAC) and PRPY. When the DAC is not B, D, F, or H the PRPY cannot exist.	E
OC	When Secondary Inventory Control Activity (SICA) NIMSC is 0 or 5, the	E

	DSOR values for the Secondary Inventory Control Activity (SICA) must match Primary Inventory Control Activity (PICA) values.	
QC	The submitted Acquisition Advice Code (AAC) is not permissible for your activity based on you recorded LOA. (See FLIS Volume 10 Table 113)	E
QC	The submitted Acquisition Advice Code (AAC) is not permissible for your activity based on you recorded LOA. (See FLIS Volume 10 Table 113)	E
QC	The submitted Acquisition Advice Code (AAC) is not permissible for your activity based on you recorded LOA. (See FLIS Volume 10 Table 113 Note 2)	E
QE	The SICA service SOS or MIL RI must be compatible, see FLIS Volume 10 Table 113.	E

QF	When the submitter is recorded as a Secondary Inventory Control Activity (SICA) with an LOA 8D and a NIMSC of other than 0 or 6, the SOS Code must correlate with the activity recorded as the Secondary Inventory Control Activity (SICA) on the applicable MOE Rule. (See Volume 10 table 103)	E
QG	For Marine Corps, when the IMM has a SOSM Code and an Acquisition Advice Code (AAC) of K or L recorded on the FLIS data base or in the futures file, the submitted SOS Code must correlate with the Primary Inventory Control Activity (PICA) reflected on the recorded MOE Rule. (See FLIS Volume 10 Table 103)	E
RJ	Catalog Management Data is missing on input.	E
SM	The Service User Data MOE Rule [Repeating Matched MOE Rule Value] are part of the same service. Each service must have only one MOE Rule	E
SO	A Secondary Inventory Control Activity (SICA) may not submit a Phrase Code of M or P if the Primary Inventory Control Activity (PICA) does not reflect the same Phrase Code	E

SV	Item Management Coding Activity is required for PICA LOA "01" and "02"	E
UF	For The submitted INC, CAGE, RNCC, RNVC, and MOE Rule combination is incompatible for Submitting Activity Code "XA" (DTRA) per FLIS Volume 11, DIC LNK	E
UG	An Extra long reference number must reflect RNVC of 1.	E
UP	Based on the CAGE and Item Name Code (INC), XA must be the submitter for this transaction.	E
UY	Non Approved Item Name (NAIN) is not allowed to be an exact duplicate of an Approved Item Name already in the system.	E
VX	Non Approved Item Name (NAIN) submitted contains two or more consecutive spaces, commas, dashes, decimal points, forward slashes, parentheses or apostrophes.	E
VZ	A decimal can only be used in conjunction with a numeric entry.	E
W1	Parentheses not equal, opened to closed in your Non Approved Item Name (NAIN).	E
W2	The first position of the submitted Non Approved Item Name (NAIN) is not an alpha character	E
W5	Item Name contains an improper use of a comma. A comma must immediately follow a word.	E

W8	Submitted Non Approved Item Name (NAIN) has a space before or after a comma or dash.	E
W9	An apostrophe in the submitted Non Approved Item Name (NAIN) is followed by other than an 'S' a space or a comma	E
WA	The same word may not appear more than once in the Non Approved Item Name (NAIN).	E
WB	Submitted Non Approved Item Name (NAIN) contains invalid words not contained in the Item Name Dictionary.	E
WC	Apostrophes may only follow words. For assistance with Item Names, see Volume 3 Chapter 2 "ITEM NAMES". To add a word to the <i>ITEM NAME DICTIONARY</i> please contact FIIGs@dla.mil.	E
WD	Submitted Non Approved Item Name (NAIN) cannot use the word AND or WITH at the end of a noun phrase or as a standalone modifier. For assistance with Item Names, see Volume 3 Chapter 2 "ITEM NAMES". To add a word to the ITEM NAME DICTIONARY please contact FIIGs@dla.mil.	E

WF	Proper use of Non-Limiting words within the Non Approved Item Name (NAIN) must be utilized as laid out in Volume 3, please see Volume 3 for a complete listing. For assistance with Item Names please contact FIIGs@dla.mil.	E
WG	Non Approved Item Name (NAIN) must contain a noun prior to the first comma if a comma is present. For assistance with Item Names please contact FIIGs@dla.mil.	E
WH	A NOUN must be present in the basic NOUN phrase. For assistance with Item Names please contact FIIGs@dla.mil.	E
WI	Submitted Non Approved Item Name (NAIN) cannot end with a comma. For assistance with Item Names please contact FIIGs@dla.mil.	E
ZB	Submittal reflected Master Requirement Code (MRC) of ZZZY and a reference number with RNCC 3 was not submitted/recorded.	E
ZY	the Contract Number and Main Contractor NCage are missing	NA
AK	Only NSA or DTRA may use Item Management Code (IMC) "F" (See FLIS Volume 11)	NA/E
AK	Only DLA and GSA may use Item Management Code (IMC) "Z" (See FLIS Volume 11)	NA/E

AK	Only Service managed consumable, repairable or FMS support (Primary Inventory Control Activity (PICA) LOA 06, 22 or 99) may use Item Management Code (IMC) F or Z (See Volume 11)	NA/E
CT	The submitted transaction cannot be processed because the Type II is "N" and the Master Requirement Code of "ZZZY" was not applied.	NA/E
DD	DSOR Values [Repeated DSOR Value] must be Unique per MOE Rule [Repeated DSOR Value].	NA/E
EA	Management Data cannot be recorded on NSN's with the Item Name Code (INC) 97991.	E/E
FP	All MOE Rules submitted with an MMC DOD value of M, T, S must be consistent	NA/E
FT	Submitted MOE rule [MOE Rule Value] has a MOE Rule status other than 0/Active. See Volume 13 Appendix 13-b for the Assigned Status. See Volume 10 Table 116 for the Status Definition	NA/E
FV	A supplemental collaborator/receiver must be the same service/agency as your submitted MOE Rule.	NA/E
FW	The submitted transaction is rejected because the Service Activity Code is already represented in the MOE Rule profile.	NA/E

FY	Must be in accordance with the MOE Rule Federal Supply Group (FSG)/Federal Supply Class (FSC) Management Exception Table in volume 13, paragraph 13.6.2	NA/E
HR	Submitted Secondary Inventory Control Activity (SICA) Management Data elements must match recorded Primary Inventory Control Activity (PICA) Management Data. (See table FLIS Volume 10 Table 186).	NA/E
KP	Based on your submitted RNCC and RNVC, Your submittal created a possible duplicate where the RNJC was required or your submittal created an actual duplicate regardless of the RNJC provided See Volume 10 Table 13	E
MR	The submitted or recorded data contained an Incompatible combination of Document Availability Code (DAC) and PRPY. When the DAC is not B, D, F, or H the PRPY cannot exist.	NA/E
MR	The submitted or recorded data contained an Incompatible combination of Document Availability Code (DAC) and PRPY. When the DAC is B, D, F, or H the PRPY must exist.	NA/E

OC	When Secondary Inventory Control Activity (SICA) NIMSC is 0 or 5, the DSOR values for the Secondary Inventory Control Activity (SICA) must match Primary Inventory Control Activity (PICA) values.	NA/E
QC	The submitted Acquisition Advice Code (AAC) is not permissible for your activity based on you recorded LOA. (See FLIS Volume 10 Table 113)	NA/E
QC	The submitted Acquisition Advice Code (AAC) is not permissible for your activity based on you recorded LOA. (See FLIS Volume 10 Table 113)	E/E
QC	The submitted Acquisition Advice Code (AAC) is not permissible for your activity based on you recorded LOA. (See FLIS Volume 10 Table 113 Note 2)	E/E
QF	When the submitter is recorded as a Secondary Inventory Control Activity (SICA) with an LOA 8D and a NIMSC of other than 0 or 6, the SOS Code must correlate with the activity recorded as the Secondary Inventory Control Activity (SICA) on the applicable MOE Rule. (See Volume 10 table 103)	NA/E

QG	For Marine Corps, when the IMM has a SOSM Code and an Acquisition Advice Code (AAC) of K or L recorded on the FLIS data base or in the futures file, the submitted SOS Code must correlate with the Primary Inventory Control Activity (PICA) reflected on the recorded MOE Rule. (See FLIS Volume 10 Table 103)	NA/E
RJ	Catalog Management Data is missing on input.	NA/E
SM	The Service User Data MOE Rule [Repeating Matched MOE Rule Value] are part of the same service. Each service must have only one MOE Rule	NA/E
SO	A Secondary Inventory Control Activity (SICA) may not submit a Phrase Code of M or P if the Primary Inventory Control Activity (PICA) does not reflect the same Phrase Code	NA/E
UF	For The submitted INC, CAGE, RNCC, RNVC, and MOE Rule combination is incompatible for Submitting Activity Code "XA" (DTRA) per FLIS Volume 11, DIC LNK	NA/E
UF	For the submitted INC, CAGE, RNCC, RNVC, and MOE Rule combination is incompatible for Submitting Activity Code "XA" (DTRA) per Volume 11, DIC LNK	NA/E

UG	An Extra long reference number must reflect RNVC of 1.	NA/E
2O	The only allowable special characters are a forward slash (/) comma (,) dash (-) apostrophe (') decimal (.) parentheses () or a space.	NA/E
VX	Non Approved Item Name (NAIN) submitted contains two or more consecutive spaces, commas, dashes, decimal points, forward slashes, parentheses or apostrophes. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
VZ	A decimal can only be used in conjunction with a numeric entry. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
W1	Parentheses not equal, opened to closed in your Non Approved Item Name (NAIN). For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
W2	The first position of the submitted Non Approved Item Name (NAIN) is not an alpha character	NA/E
W5	Item Name contains an improper use of a comma. A comma must immediately follow a word. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E

W8	Submitted Non Approved Item Name (NAIN) has a space before or after a comma or dash. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
W9	An apostrophe in the submitted Non Approved Item Name (NAIN) is followed by other than an 'S' a space or a comma. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
WA	The same word may not appear more than once in the Non Approved Item Name (NAIN).For assistance with Item Names FIIGs@dla.mil.	NA/E
WB	Submitted Non Approved Item Name (NAIN) contains invalid words not contained in the Item Name Dictionary. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
WC	Apostrophes may only follow words. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
WD	Submitted Non Approved Item Name (NAIN) cannot use the word AND or WITH at the end of a noun phrase or as a standalone modifier. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E

WF	Proper use of Non-Limiting words within the Non Approved Item Name (NAIN) must be utilized as laid out in Volume 3, please see Volume 3 for a complete listing. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
WG	Non Approved Item Name (NAIN) must contain a noun prior to the first comma if a comma is present. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
WH	A NOUN must be present in the basic NOUN phrase. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
WI	Submitted Non Approved Item Name (NAIN) cannot end with a comma. For assistance with Item Names please contact FIIGs@dla.mil.	NA/E
ZB	Submittal reflected Master Requirement Code (MRC) of ZZZY and a reference number with RNCC 3 was not submitted/recorded.	NA/E
7M	An invalid combination of Type II, RNCC/RNVC/DAC submitted, please see Table 8, Section [Minimum Section Number].	NA/E
7N	An invalid combination of Type II, RNCC/RNVC submitted, please see Table 8 for allowable reference number combinations.	NA/E

4D	The Federal Supply Group of 65 is Medical and all US requests must be submitted through a Domestic service Medical directorate.	NA/E
4C	The Item Management Coding Activity (IMCA) must be the same Service/Agency as your submitted MOE Rule.	NA/E
4P	Item Management Code (IMC) was submitted and the submitted Federal Supply Class (FSC) is not subject to Item Management Code (IMC) Coding. See Volume 13, Appendix 13-2-A Standard Federal Supply Class (FSC) Table.	E/E
4Q	Item Management Code (IMC) was not submitted and the submitted Federal Supply Class (FSC) is subject to Item Management Code (IMC) Coding. See Volume 13, Appendix 13-2-A Standard Federal Supply Class (FSC) Table.	E/E
7O	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	NA/E
7O	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	NA/E

7O	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	NA/E
7O	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	NA/E
7O	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	NA/E
IA	Two (2) or more blank spaces between characters in a characteristics reply is not permissible.	NA/E
4S	The reply matches before and after the operator.	NA/E
4T	A reply cant contain both AND as well as OR operator.	NA/E
2M	The submitted transaction cannot be processed because the Master Requirement Code (MRC) for Precious Material (PRMT) cannot be combined with the submitted or recorded PMIC.	NA/E
2N	The submitted transaction cannot be processed because the PMIC cannot be combined with the submitted or recorded Master Requirement Code (MRC) for Precious Material (PRMT).	NA/E

2L	The submitted transaction cannot be processed because MRC Nuclear Hardness Critical Feature (NHCF) was applied and the Criticality Code did not indicate there were Nuclear Hardness Critical Features.	NA/E
2K	The submitted transaction cannot be processed because the Criticality Code was applied that indicates there are Nuclear Hardness Critical Features and MRC Nuclear Hardness Critical Feature (NHCF) was not applied.	NA/E
2J	The submitted transaction cannot be processed because the Criticality Code was applied that indicates there are critical features and MRC Criticality Justification Code (CRTL) was not applied.	NA/E
6A	An RNJC is not allowed when the RNCC/RNVC combination is D/9	NA/E
4V	The PICA service SOS or MIL RI must be compatible, see FLIS Volume 10 Table 113.	NA/E
IN	The CAGE code IREF0 must be recorded with an RNCC=3, RNVC=2, DAC=9, RNFC=4,	NA/E
	RNSC=B. The CAGE code IREF0 must be recorded with one other CAGE/part number with RNCC=5.	

4O	Secondary Inventory Control Activity (SICA) MOE Rule is Incompatible to the Primary Inventory Control Activity (PICA) MOE Rule based on the LOA See	NA/E
4U	The following CAGE [CAGE Value] and part Number [part Number Value] combination is repeated. These combinations must be distinct	NA/E
6B	When submitting an RNCC of C the SADC is mandatory.	NA/E
6C	Only a RNCC of C allows the use of SADC	NA/E
6F	PMIC Is mandatory for NIIN assignment	NA/E
4	Unit of Measure and Quantitative Expression is required if Unit of Issue (UI) is a Non-Definitive value	E/E
6T	Request's primary CAGE [enter CAGE value]: [enter Volume 10, Table 90 explanation for CAGE Type "F"].	W
6T	NIIN has PICA of GX and primary (RNCC/RNVC of 3/2) CAGE [enter CAGE value] is a Type "F" (Non Manufacturer) and RNSC is not G, K, or L. Please Review. See FLIS Volume 10, Table 90.	NA/E
	Return Code: 6T - Sequence 1	
AC	The mandatory fields, MOE Code, PICA/SICA, and at least one other value from the seg are not populated.	E/E

N/A	IF the type of action is Reinstate NSN the system will set the Item Standardization Code (ISC) to "0" if DTRA Managed or "5" for all others.	N/A
N/A	If RNFC is blank on a request, populate it with 4	N/A
N/A	AC1: If the current PICA Management Line (USC I) has a recorded AAC of is A, B, G, H, Q or U, make the DLA AAC = J	N/A
	AC2: If the current PICA Management Line (USC I) has a recorded AAC of is C, E, M, O or S, make the DLA AAC = D	
	AC3: If the current PICA Management Line (USC I) has a recorded AAC of is AAC = N, make the DLA AAC = Y	
	AC4: If the current PICA Management Line (USC I) has a recorded AAC of any other AAC, make the DLA AAC = the recorded AAC.	
ID	The Non Approved Item Name (NAIN) or the Item Name Code (INC) of 77777 to Federal Supply Group (FSG)/Federal Supply Class (FSC) combination is in conflict with the listed Combinations on FLIS Volume 10 TABLE 190	NA/E

IF	The input Non-Approved Item Name (NAIN) matched an Approved Item Name (AIN); however, the submitted Federal Supply Class (FSC) is not permitted for the matched AIN.	E/E
KT	The input Federal Supply Class (FSC)/NAIN key word combination is in conflict with the allowable values on <Table 191>	NA/E
MA	Submitted Federal Supply Class (FSC), and Approved Item Name (AIN) combination is invalid. Valid combinations can be found in H6	NA/E
UP	Based on the CAGE and Item Name Code (INC), XA must be the submitter for this transaction.	E/E
UY	Non Approved Item Name (NAIN) is not allowed to be an exact duplicate of an Approved Item Name already in the system.	NA/E
CR	The RNCC applied to the submitted reference number conflicts with the RNCC allowed for the cited CAGE. See Volume 10, Table 40, Part 1 for allowable RNCC and DAC combination with cited CAGE.	NA/E
CR	The RNCC applied to the submitted CAGE conflicts with the allowable values based on Volume 10, Table 40, Part 1.	NA/E

QE	The SICA service SOS or MIL RI must be compatible, see FLIS Volume 10 Table 113.	E/E
3T	The CAGE codes INTE8, INTE9, 99998, or 99999 must be recorded with an RNCC=6, RNV=9, DAC=9, RNFC=4, RNSC=B).	NA/E
UL	Your submittal failed to process because the CAGE Code was for a Government specification or Standard Reference Number, and the RNCC was other than 2, 4, 5, C, or E and/or the DAC is other than 3, 4, 6, E, F, G, or H. (Please see Volume 10, Table 94, Part 1 for a list of CAGE Codes)	E/E
DI	Submitted or recorded data contained a reply to Master Requirement Code (MRC) Extra Long Reference Number (ELRN) in Characteristics and no dash appears in position 60 of a reference number in the Reference Section of the NSN.	NA/E
DQ	When adding or deleting an Extra Long Reference Number in reference data (indicated by a dash "-" in the 60th position, the value for Master Requirement Code (MRC) Extra Long Reference Number (ELRN) must also be added or deleted in Characteristics.	NA/E

4O	Submitted CAGE [CAGE Value] has a CAGE Status of [CAGE Status Value] that is not valid for cataloging per Volume 10 Table 19	E/E
IR	Proposed action to add or change MRC and ISAC data for the NIIN contains an identical combination repeated in this input or is already recorded on the NIIN.	NA/E
4G	The Submitted request is for a Limited Distribution NIIN. For Limited Distribution call DTRA (DRN) 946-8912, (COMM) 515-846-8912	E/E
6W	Submitted NIIN does not exist in any database.	E/E
63	Request Submitted is SSR and the NSN submitted is not managed by DLA. Support Rejected.	E/E
3	SSR submitted was against an NSN with a FSC that is not subject to Item Management Coding (IMC). Support Rejected.	E/NA
6X	A NIIN (4130 and 4131) was not provided for a Cancel Use or Cancel DUP.	E/E
6Y	NIIN replacement activity does not support other users.	E/NA
6Z	You are not a Manager or User on the selected NIIN.	E/E
7A	One or more NIINs present on the Request contains activity code "HX".	W/NA

7B	The submitted NIIN must have an Acquisition Advice Code of Y.	NA/E
7C	The submitted NIIN has an ISC code not authorized to be canceled. The ISC must first be changed to other than 1 or B.	E/E
KH	The Cancellation transaction cannot be processed because the Source of Supply has a Future Effective Date.	E/E
KN	The submitted NIIN has already been cancelled or is in the process of being cancelled.	E
UN	The Cancellation transaction cannot process because the Replacement NIIN is the same as the Request NIIN.	E/E
UK	The Cancellation transaction cannot process because the PICA is "XJ".	E/E
BB	Proposed Duplicate FSC/INC does not match the Cancelled Duplicate FSC/INC. (Volume 10, Chapter 4, Table 12)	NA/E
7D	The Replacement NSN is not authorized for procurement (ISC 3 or E).	E/E
BC	NSN to be retained is inactive (no recorded MOE Rule Number), whereas the NSN to be cancelled is active. (See table 12)	NA/E

7E	When an item is Service managed repairable (PICA LOA 22), each service must have at least one DSOR value.	E/E
7F	If Phrase Code Q is submitted then either Phrase Reply NIIN and/or Phrase Reply Clear Text must be entered for this Phrase Code.	E/E
7G	The submitted transaction was rejected because only the PICA can update Packaging data	E/E
7H	The submitted transaction was rejected because only the PICA can update the UIT	E/E
4H	Reference Number submitted contained a special character not allowable (ACodP-1 Chapter IV, Annex B2)	E/E
A3	The submitted request to update the DoDAC is rejected because the submitter is not authorized for this transaction.	E/E
4K	The Standardization Family submitted does not have compatible Item Standardization Codes (ISC) per FLIS Volume 10 Table 92.	E/E
7I	An Action Type of Change Code was provided and the SSR Demand Data was not provided.	E/NA
4L	The submitted Add request is rejected because the requested item already exists on the NIIN.	E/E

4M	The submitted Change request is rejected because the requested item already exists on the NIIN.	E/E
AA	The SICA cannot request a NIIN to be moved to a Cancel-Use Status. Please submit a request to remove your User line if appropriate.	E/NA
A4	The submitted request to add or change the DODAC on an NIIN is rejected because the FSC, INC, and DODAC combination has not been assigned. See FLIS Volume 3 Chapter 6	E/E
AJ	Secondary Inventory Control Activity (SICA) MOE Rule may not be added to an LOA 01, 02, 06, 22, or 23 item if there exists a future Effective Dated deletion of the Primary Inventory Control Activity (PICA) MOE Rule (LOA 01, 02, 06, 22 or 23).	NA/E
JK	The submitted Primary Inventory Control Activity (PICA) MOE Rule Level of Authority (LOA) is in conflict with another recorded PICA MOE Rule LOA. (See Volume 10 Table 187 and Table 74)	NA/E
NS	The submitted transaction to Add Standardization Data cannot be processed because the NIIN Status Code is other than 0 or 6.	NA/E
NS	The submitted transaction to Change Standardization Data cannot be processed because the NIIN Status Code is other than 0, 1, 6, or 9.	NA/E

NS	The submitted transaction to Cancel NIIN cannot be processed because the NIIN Status Code indicates the NIIN is already Cancelled.	E/E
NS	The submitted transaction to Cancel Use/ Cancel Duplicate cannot be processed because the Replacement NIIN must be an Active NIIN.	E/E
NS	The submitted transaction to Add, Change or Delete Freight Data on NIIN cannot be processed because the NIIN Status Code is other than 0.	NA/E
NS	The submitted transaction to Add, Change or Delete data elements on a NIIN cannot be processed because the NIIN is in a cancelled status.	E/E
ZZ	The submitted transaction to is rejected because the submitted/recorded Phrase Code and AAC statuses must be compatible.	E/E
BY	The transaction to establish a Standarization relationship would create multiple heads of family, ISC of 1 or B. (See FLIS vol 10 table 91).	NA/E

CO	Submitted transaction for adding standardization data cannot be processed because the Nuclear Hardened Criticality Code (Criticality Code of H, M or E) of the ISC 1/B replacement NIIN is not compatible with a related NIINs Non Nuclear Hardened Criticality Code	E
	See FLIS Volume 10 Table 181	
CY	The transaction to cancel without replacement cannot be processed because the NIIN is in a Standardization Relationship.	E/E
JX	The submitted NIIN has an Item Standardization Code (ISC) of 3 or E and cannot be Reinstated as there is a replacement NIIN.	NA/E
UJ	Transaction (New Item, Reinstate or Maintenance) failed to process because the RNCC IS OTHER THAN 5, 6 or 8.	NA/E
YG	The submitted transaction is rejected because it contains an AAC code that is not allowed with members of a I&S Family.	NA/E
7K	If a Phrase Code is provided, only Phrase Codes Q, R and K are valid for Reinstatement	NA/E

CA	Submittal reflects deletion of the last reference number recorded on the item without adding a reference number.	E/E
YH	Submittal to change or delete a data element failed to process because the data element (or data element value) is not recorded in the FLIS data base.	E/E
ES	The submitted transaction to add, change or delete a data element within the Management Data section is related to an instance of Management Data that is scheduled to be deleted before the submitted request is activated.	NA/E
SN	Submittal to delete a standardization relationship cannot be processed because the relationship is not recorded in the FLIS database.	E/E
MS	Primary Inventory Control Activity (PICA)/Secondary Inventory Control Activity (SICA) Indicator Code P can only be submitted by the PICA or the PICA's authorized submitter. PICA/SICA Indicator Code S can only be submitted by a Navy SICA when recorded as a SICA LOA 8D.	E/E
AQ	The submitted transaction to change Item Management Code (IMC) to V failed due to one of the following	E

	The Acquisition Advice Code (AAC) is other than N, V, X or Y; The standardization code is 1, 3, E or B; There are I&S phrase codes present; PICA LOA is not 06 or 23. Use the IMC of Z instead.	
DO	The submitted transaction failed to process because the Criticality Code is being changed to H, E or M on an NIIN assigned ISC 3/E (or 2 in generic relationships), and the Criticality Code of the Replacement NIIN (ISC 1/B) is C, N, X, Y or blank.	E
DV	The submitted transaction is rejected because the use of the [&"I&S Phrase Code"&] Phrase Code requires entry to the Related NIIN or Phrase Reply Clear Text. If Related NIIN is provided both the Quantity per Assembly and Unit of Measure of Related NIIN are required. See FLIS Volume 10 Table 100.	E
DV	The submitted transaction is rejected because the use of the [&"Non- I&S Phrase Code"&] Non- I&S Phrase Code requires entry into the Phrase Reply Clear Text. See FLIS Volume 10 Table 100.	W
DV	The submitted transaction is rejected because when using the "N" or "V" Non-I&S Phrase Code, entry into the Non-I&S Phrase Code fields is not allowed. See FLIS Volume 10 Table 100.	E/E

EW	The transaction to add, change or delete a data element on the NIIN will process with an effective date greater than the cancellation date.	NA/E
FG	The submitted transaction to delete the Management Data is related to an instance of Management Data that contains an add, change or delete to a data element within the Management Data section. The submitted request effective date must be greater than the existing request's effective date.	E/E
FK	The submitted transaction to add management data has a earlier effective date than an already recorded future effective dated transaction to add the same service / agency as a user to the NIIN.	NA/E
FM	The submitted transaction to delete management data has a earlier effective date than an already recorded future effective dated transaction to delete the same service / agency as a user to the NIIN.	E/E
HB	The submitted transaction to change the FSC can not be processed because there is a recorded FSC change in the future. There is already a future effective change on [<i>Future Effective Date</i>].	NA/E

HC	The submitted transaction to change the [&Data Element] is related to an instance of the same data element that is already scheduled to be changed. The submitted request must have the same or greater effective date.	E/E
	See FLIS Volume 10 Table 99.	
HJ	The submitted transaction to Change management data has a later effective date than an already recorded future effective dated transaction to delete the same service / agency as a user to the NIIN.	NA/E
HK	The submitted transaction to add, change or delete a data element within the User Data section is related to an instance of User Data that is scheduled to be deleted before the submitted request is activated.	E/E
HN	The submitted cancellation action was less than a future effective date on the NIIN	NA/E
HU	The submitted transaction to change the PICA has been rejected because it contains an unauthorized combination of FSC and MOE Rule. See FLIS Volume 13 Standard FSC Table (13-2-A) and Moe Rule Table (13-2-B).	NA/E

HW	An item in the transaction has ISC of B. An effective dated transaction will change the Federal Supply Class of the item to one not included in FLIS Volume 10 Table 93 .	E/E
IO	The submitted transaction to add a Phrase Code of "T" is rejected because the Acquisition Advice Code (AAC) of T is required.	NA/E
JE	The submitted transaction to change a MOE Rule is rejected because it is changing the MOE Rule to the same value.	E/E
KO	The submitted transaction to change a user was rejected because it did not replace the existing MOE Rule with a MOE Rule for the same service/agency.	E/E
LJ	The submitted transaction was rejected because it is removing Management Data without removing its associated User Data	NA/E
LM	The submitted transaction to change the Acquisition Advice Code of W is rejected because the NIIN is the Master of a Generic DoD I&S Family.	E/E
NG	The submitted transaction is to delete a User against a DoD I&S Master NIIN, and a MOE Rule representing the same activity is recorded on a Related NIIN.	E/E

NJ	The submitted transaction was rejected because the transaction does not meet effective date requirements.	NA/E
NK	The submitted change would cause the PICA, PICA LOA, SICA LOA to be unequal for NIINs recorded in a DoD I&S Family.	E/E
NL	The submitted Secondary Inventory Control Activity (SICA) Management Data transaction is against the Master NIIN, in the Primary Inventory Control Activity (PICA)s I&S Family, and your service has not established the I&S Data for the I&S Family.	E/E
NQ	The submitted transaction to delete a user is against the last Generic Related NIIN on which the service has a recorded MOE Rule.	E/E
OA	The submitted transaction contains an LOA that is not repairable (LOA is other than 22 or 8D) and is not part of the following services (Army, Air Force, Marine Corps or Navy), making DSOR an invalid entry. See FLIS Volume 10 Table 117.	E/E
OC	The submitted transaction contains a Secondary Inventory Control Activity (SICA) DSOR/NIMSC	NA/E

	change which cannot be processed as there is a change to these data elements in the future file. Resubmit after effective date of Secondary Inventory Control Activity (SICA) change.	
OC	The Primary Inventory Control Activity (PICA) Moe Rule cannot submit an effective dated DSOR change as you support a Secondary Inventory Control Activity (SICA) with NIMSC 5. Resubmit a non-effective dated change.	NA/E
OD	DTRA is not authorized to submit any data elements other than FSG/FSC, Submitting Activity Code, Type II, DEMIL, MOE Rule, INC, CAGE, AMC, AMSC, RNCC/RNVC, DAC, Reference/Part Number, Limited Distribution Code.	E/E
P6	The submitted Management Data deletion could not be processed because there exists a MOE Rule for the Service/Agency or there exists SICA MOE Rule with a PICA LOA of 01, 02, 11, or 15 in the User Data section.	NA/E
P9	Submitted NIIN in the Item Identification Data cannot be identical to the NIIN in the Standardization related NIIN.	E/E

PP	The submitted transaction to add a user, Secondary Inventory Control Activity (SICA) is against a Generic I&S Master NIIN and that SICA is not recorded on at least one Related item within the Generic Masters Family.	NA/E
PU	The submitted transaction to add a user MOE Rule on a DoD I&S Related NIIN cannot be processed because the Service does not have a MOE Rule recorded on the I&S Master NIIN.	NA/E
PZ	The submitted transaction to Reinstate an NIIN contained DoD I&S phrase Data.	E/E
QI	The submitted Standardization transaction failed to process because the replaced NIIN's PICA Level of Authority (LOA) must be the same for every NIIN with a Domestic User in the Standardization Relationship. See FLIS Volume 6.	E/E
QJ	The submitted transaction failed to process because logistics reassignment would change the Primary Inventory Control Activity (PICA) (LOA 01, 02, 06, 22, 23) on a related member of a standardization family.	NA/E

RH	The Cancellation transaction cannot process because the Phrase Code is incorrect for the Cancellation action.	NA/E
RI	The submitted Reinstatement transaction rejected because the NIIN has not been cancelled (NIIN stat code other than 4, 5, 7, or 8. See Volume 10 table 18)	E/E
NS	The submitted transaction to change or add an NIIN within a standardization relationship must have the same FSC as all members of the standardization relationship.	E/E
SB	When the ISC is B, the Federal Supply Class (FSC) must be in FLIS Volume 10 Table 93 and the CAGE Code must be on FLIS Volume 10 Table 94.	E/E
SD	If a Standardization Relationship is being dissolved, the submitted ISC must be 2, 5, 6, or C.	NA/E
SJ	The submitted transaction to change the ISC of an NIIN NOT in a Standardization Relationship is unauthorized. Cannot change the ISC value to anything other than 2, 5, 6, or C when a Standardization Relationship does not exist.	NA/E
SU	A DLA peculiar Primary Inventory Control Activity (PICA) MOE Rule (first position D) may not be recorded on a NIIN that has a Secondary Inventory Control Activity (SICA).	NA/E

1A	The input Item Management Classification Activity (IMCA (DRN 4075)) for this NIIN must be a valid DLA or GSA activity, as specified by the DLA/GSA Management Exception Table.	NA/E
TM	Primary Inventory Control Activity (PICA) LOA 02 for NWS, 06, 22, 23 or 26 MOE Rules must be established on the FLIS database prior to or concurrent with the supported Secondary Inventory Control Activity (SICA) MOE Rules and must remain on the item until all SICA MOE Rules have been deleted.	NA/E
TM	The submitted transaction cannot be processed because MRC Criticality Code Justification (CRTL) was applied and the Criticality Code did not indicate there were critical features.	E
UD	The submitted transaction with a Criticality Code other than F or Blank must include an MRC.	NA/E
UF	Reinstatement NIIN contains an invalid or historical Item Name Code (INC) the INC will need to be updated.	NA/E
VA	DTRA is not authorized to submit changes to the reference data.	E/E

A2	The submitted activity to update DLA Repairable Characteristics Indicator Code is being maintained on a management line other than DLA.	E/E
XA	Submitted transaction failed to process because it matched a nuclear ordinance item. Contact the Nuclear Ordinance Cataloging Office at (505)846-8912 or DSN 246-8912 for additional information.	E/E
XP	The Cancellation Request cannot be Processed because the submitted Phrase Code is not a valid combination with the current Phrase Code per Volume 10, Table 96.	NA/E
XR	Unit Price must be greater than Zero if Acquisition Advice Code (AAC) is D, G, K, P, R, W, or Z. See FLIS Volume 10 Table 97.	E/E
XR	Unit Price must be equal or greater than Zero if Acquisition Advice Code (AAC) is F, L, O, Q, T, V, or X. See FLIS Volume 10 Table 97.	E/E

XR	Input of a zero Unit price with AAC “I” is restricted to activity GX in FSG 89 when Source of Supply (SoS) is SMS. Zero Unit Price is allowed with an activity 54 (VA) in FSG 65 and 89 when SoS is JVS. If activity GSA a Zero Unit Price and AAC of I is always allowed. See FLIS Volume 10 Table 97.	E/E
XR	Input of a zero Unit Price with AAC “H” or “J” is restricted to activity GX in FSG 89 when the SOS is SMS. See FLIS Volume 10 Table 97.	E/E
XU	The submitted transaction is rejected because the use of the [& "Non-I&S Phrase Code"&] Non-I&S Phrase Code" requires entry to the Related NIIN. See FLIS Volume 10 Table 100.	E/E
UV	The combination of the HMIC (Hazardous Material Indicator Code) and FSC (Federal Supply Class) are incompatible according to Volume 10, Table 180	E/E
7O	The combination of RNCC/ RNVC/ DAC across reference lines are incompatible. See Volume 10 Table 8.	NA/E
7P	MRCs must be used to justify the use of a non-definitive primary reference number when an additional RNCC 2/2 or 3/2 is not present	NA/E
7Q	Only certain FSCs are allowed to use forward slash in an Item Name.	NA/E

4W	The submitted transaction contains a CAGE/NCAGE Code which reflects a CAGE Status that is not compatible with your RNCC/RNVC codes.	NA/E
	See FLIS Volume 10 Table 19	
7S	CHANGE/DELETE NATO REFERENCE (RNAAC 9Z or Foreign) cannot be requested by another nation (U.S. submitter).	E/E
7T	ADD/DELETE NATO USER (LOA 81) cannot be requested by another nation (U.S. submitter).	E/E
4W	The submitted transaction contains a CAGE/NCAGE Code which reflects an CAGE Status that is not compatible with your RNCC/RNVC codes.	NA/E
	See FLIS Volume 10 Table 19	
4W	The submitted transaction contains a CAGE/NCAGE Code which reflects an CAGE Status that is not compatible with your RNCC/RNVC codes.	NA/E
	See FLIS Volume 10 Table 19	
O	The AAC on the submitted NIIN must be updated to a procurable AAC.	E/E
