

**DEFENSE LOGISTICS AGENCY (DLA) MASTER SOLICITATION
FOR AUTOMATED SIMPLIFIED ACQUISITIONS
REVISION 50 (JULY 9, 2018)**

PART I - Instructions to Suppliers for the Submission of Quotations and Automated Evaluation

1. General Information/Instruction:

(a) This solicitation, called the DLA Master Solicitation for Automated Simplified Acquisitions, is used with the request for quotations (RFQ) and the award of purchase orders for automated EProcurement acquisitions valued up to the simplified acquisition threshold (SAT). The information/instruction found in this document expands upon information/instruction found within individual solicitations that reference this document. The DLA Master Solicitation for Automated Simplified Acquisitions is referenced in all automated RFQs that are located on the DLA Internet Bid Board System (DIBBS). Each RFQ contains a web link to this master solicitation. Suppliers are required to read PART I of this master solicitation to understand the automated solicitation, evaluation and award process for the automated simplified acquisitions. Suppliers shall comply with the master solicitation in effect at time of award. The master solicitation will be updated to reflect changes in law, regulation and acquisition policies and procedures. Updates to this master solicitation will be identified by a date and revision number. Changes from the preceding revision will be indicated by using strikethrough to mark deleted text and yellow highlighting to mark added text. Prior versions of the DLA Master Solicitation for Automated Simplified Acquisitions will be archived and available.

(b) The master solicitation contains multiple parts. Part I instructs suppliers in the submission of quotations, use of the DIBBS, and the automated award evaluation. Part II contains the mandatory provisions and clauses, conditional provisions and clauses, and procurement notes that apply to automated solicitations and purchase orders. Provisions, clauses, and procurement notes are incorporated by reference. They have the same force and effect as the full text. The full text of provisions, clauses, and procurement notes can be found via the applicable links provided in Part II below. Note: On or about October 5, 2017, mandatory provisions and clauses located in Part II Subpart A will appear in automated solicitations and awards. Refer to the Master Solicitation for the conditional provisions and clauses, and procurement notes as set forth in Part II Subparts B and C. In the event of a conflict between mandatory provisions and clauses explicitly cited in automated solicitations and awards and those located in the Master Solicitation Part II Subpart A, the mandatory provisions and clauses in the automated solicitation or award will take precedence.

2. DLA Internet Bid Board System (DIBBS) Instructions for Automated Solicitations.

(a) AUTOMATED SOLICITATION NUMBERING: Automated solicitations are identified by "SPE" in the first three positions of the solicitation number and "T" or "U" in the ninth position of the solicitation number.

(b) SUBMITTING QUOTATIONS: Automated quotations must be submitted electronically on DIBBS at <https://www.dibbs.bsm.dla.mil/> for all automated RFQs posted on DIBBS. Quotations received by other electronic means, even though within the FAR definition of "electronic commerce" or "electronic and information technology", such as facsimile (fax) or electronic mail (email) will not be considered for award. Quotations transmitted in hard copy by U.S. Mail or other means will not be considered for award. Quotations received after the return date/time may only be considered in accordance with the late quotation provision in paragraph (e) below.

(c) RETURN DATE AND TIME: The time for receipt of quotations is 3:00 P.M. Eastern Standard Time, or when applicable, Eastern Daylight Savings Time on the return date. If a return date falls on a Saturday, Sunday or federal holiday, the return date will be extended to the next business day. Quotations submitted using EDI/DIBBS are subject to electronic interface latency which can result in transmission delays. Suppliers must consider transmission delays in the EDI/DIBBS system when submitting quotations and assume the risk of late transmission/submission. As an alternative, the direct entry of quotation information into the DIBBS website is a method that precludes transmission delays, and will ensure the quotation is evaluated. **Except as provided herein, awards will not be made prior to the solicitation return date/time.** Fast Auto Evaluation solicitations are solicitations estimated to be less than the micro-purchase threshold. They may be awarded prior to the solicitation return date/time. Solicitations for items with documented urgency may be awarded prior to solicitation return date/time. Solicitations may also result in award prior to the solicitation return date when the response date is 30 days or greater and a responsive quotation is received prior to the 30 days but at least 11 days after issuance. Therefore, suppliers are advised to submit quotations as quickly as possible.

**DEFENSE LOGISTICS AGENCY (DLA) MASTER SOLICITATION
FOR AUTOMATED SIMPLIFIED ACQUISITIONS
REVISION 50 (JULY 9, 2018)**

Auto Evaluation may extend the solicitation return date for three business days for price negotiations for “qualified” (see paragraph 3 (a) below) quotations in the competitive range. Notice of the extension will be provided by email to suppliers in the competitive range (bids without exception) inviting them to revise their quotation. DIBBS sends an email notification to the email address registered for the person who submitted the quotation. If a third party submitted the quotation, DIBBS sends the notification to the email addresses of the third party and the super user CAGE. Suppliers are responsible for the accuracy of the email addresses in DIBBS. Suppliers who have submitted their best quotation do not need to resubmit.

(d) **HOW INTERRUPTIONS AFFECT RETURN TIME AND DATE:** If an emergency or unanticipated event interrupts DIBBS processing preventing quotation submission through DIBBS at the close of a solicitation, the return date/time will be extended to the same time of day on the next business day that DIBBS processing resumes. Notice of the extension will be provided on the DIBBS home page. A supplier’s inability to submit a quotation caused by failure of a supplier’s hardware, software, Internet Service Provider, or the World Wide Web itself, is not cause for extension of a solicitation.

(e) **LATE QUOTATIONS:** Quotations received after the return date/time for automated solicitations may be considered until the evaluation process begins. Once the evaluation process begins, late quotations will only be considered if the procurement is manually reviewed and the contracting officer determines that considering the late quotation is in the best interest of the Government and would not unduly delay the award. Quotations received after the evaluation process has begun will not be considered if the procurement is processed entirely through the DLA Automated Evaluation program without manual evaluation or buyer assist. The procurement will not be manually reviewed solely because a quote is received after the return date/time.

(f) **QUOTATION REVISIONS:** Suppliers may revise quotations on DIBBS up until the time the solicitation is awarded. Quotation revisions overlay previously submitted quotations on the same solicitation.

(g) **QUOTATION WITHDRAWAL:** Suppliers may withdraw quotations on DIBBS up until the time the solicitation is awarded by selecting a bid type of “no bid.” A “no bid” quotation overlays a previously submitted quotation on the same solicitation.

(h) **SET-ASIDE SOLICITATIONS:** Solicitations with an estimated dollar value between the micro-purchase threshold and the SAT are set-aside for small business when cited in the solicitation. When a solicitation is set-aside, only small business quotations that comply with the non-manufacturer rule will be considered. See FAR 19.502-2(c) for an explanation.

(i) **FAST AUTO EVALUATION SOLICITATIONS:** A Fast Auto Evaluation icon  on the DIBBS “search results” screen identifies Fast Auto Evaluation solicitations. These solicitations are estimated to be at or less than the micro-purchase threshold and are not set-aside. They may be awarded prior to the solicitation return date/time. A quotation valued less than the micro-purchase threshold that is submitted in response to a solicitation that has an estimated value equal to or greater than the micro-purchase threshold and was not originally marked , may result in an early award as a result of being evaluated as a Fast Auto Evaluation quotation. Fast Auto Evaluation commences at 3:00 P.M., 3 business day after the issue date, and continuing every day thereafter at 3:00 P.M. until the return date. The automated evaluation program for an early award evaluates all quotations not exceeding the micro-purchase threshold.

(j) **SOLICITATIONS WITH FAT OR PRODUCTION LOT TESTING (PLT) REQUIREMENTS:** The FAT and PLT appear as separate line items in the solicitation. The number of units shown in the solicitation for the FAT or PLT line item is “1 EA”. The actual number of units required for the FAT line item will be identified in clause FAR 52.209-3 or 52.209-4. The actual number of units required for the PLT line items will be identified in the specification for PLT requirements in Section A of the solicitation. The required delivery schedule for FAT line items will be identified in FAR 52.209-3 or 52.209-4. The required delivery schedule for PLT line items will be identified in Section A of the solicitation.

(k) **QUANTITY REQUIREMENTS:** Quotation must be submitted on the total quantity of each item.

(l) **DELIVERY REQUIREMENTS:** The Government required delivery will be stated in days after date of order (ADO). If the supplier is not able to meet the delivery requirement, the supplier must submit their delivery timeframe on the DIBBS quote page in number of days ADO. This includes time to deliver production quantity, required testing, and government inspection and acceptance. If a FAT is required, the supplier must also comply with the FAT delivery requirement and if unable to comply, must submit their delivery timeframe on the DIBBS quote page in number of days ADO. This includes time to deliver the completed test report (if contractor FAT).

3. Automated Award Evaluation Information

(a) AUTOMATED EVALUATION: Acquisitions (excluding automated solicitations with first article test requirements – (see paragraph (c) below) may be candidates for automated award under DLA Automated Evaluation program. The program uses price reasonableness logic and other automated filters to make fully automated and buyer assisted automated awards valued at the SAT or less. The Automated Evaluation program begins the evaluation process at the time and date set for receipt of quotations and only considers “qualified quotations” for award. Qualified quotations are in exact compliance with the solicitation requirements (bid type equal to “bid without exception”), and are submitted on the DIBBS.

(1) The following are not considered exceptions to the solicitation requirements and will not make a quotation ineligible for an award:

(i) Quoting delivery days different than the required delivery days.

(ii) Quoting origin inspection on solicitations requiring destination inspection. NOTE: The Department of Defense limits government source inspection; we permit government source inspection for certain circumstances. If a supplier’s quotation does not comply with the requirements stated in the solicitation, an evaluation factor will be applied to the quotation. See paragraph (b)(1) below. Additionally, should a quotation citing origin inspection for a solicitation requiring destination inspection be evaluated manually, the quotation may be determined ineligible for award.

(iii) Quoting a superseding or previously approved part or correction to a CAGE/part number cited in the procurement identification description (PID) for an item described by manufacturer’s CAGE and part number.

(iv) Quoting a used, reconditioned, remanufactured item, or unused former Government surplus property.

(v) Quoting other than a domestic end product on an unrestricted solicitation.

(vi) Quoting a hazardous item.

(vii) Quoting “Other” when the solicitation states a Higher Level Quality requirement.

(2) The following are considered exceptions to the solicitation requirements and will make a quotation ineligible for an automated award:

(i) Quoting an alternate product or otherwise taking exception to the solicitation’s item description.

(ii) Exceptions to packaging requirements.

(iii) Exceptions to FOB terms.

(iv) Quoting destination inspection on a solicitation requiring origin inspection.

(v) Exceptions to required quantity.

(vi) Quoting a quantity variance greater than specified on the solicitation.

(vii) Quoting “None” when a Higher Level Contract Quality Requirement is required.

(viii) Quoting the use of Child Labor.

(b) AUTOMATED EVALUATION FACTORS: The automated evaluation program evaluates all qualified quotations on the basis of price alone and does not consider quantity price breaks. Price evaluation factors are added to the total quotation price in the following instances:

(1) \$2,500 for quoting origin inspection when the Government’s requirement is for destination inspection

(2) \$200 for offers of surplus for unused former Government surplus material.

(3) \$600 for CSI evaluations of surplus by each ESA. The evaluation factor may be applied if the contracting office cannot determine acceptability of quotations for other than CSI items and requires ESA coordination.

(4) When the solicitation is subject to the Buy American statute or the Balance of Payments Program (see DFARS 225.502(c).

(c) SOLICITATIONS WITH FAT/PLT REQUIREMENTS:

(1) Solicitations with FAT/PLT requirements are not candidates for automated evaluation or award. All quotations received for solicitations with FAT/PLT requirements shall be manually evaluated and manually awarded.

(2) For solicitations with FAT testing by the Government, the contracting officer will apply an evaluation factor that reflects the cost of the testing.

**DEFENSE LOGISTICS AGENCY (DLA) MASTER SOLICITATION
FOR AUTOMATED SIMPLIFIED ACQUISITIONS
REVISION 50 (JULY 9, 2018)**

(3) When FAT is waived, the contracting officer may negotiate for revised delivery since the original delivery requirement may have been based on prior production deliveries with first article included.

(d) TIE QUOTATIONS: If evaluated quotations result in a tie between qualified quotations, the award decision will be based on the following order of precedence:

(1) A domestic end product quotation over a non-qualifying country end product quotation.

(2) Small business quotation over a large business quotation.

(3) Quotation with the shortest delivery. (If a quotation contains different deliveries for multiple line items the automated evaluation program uses the average of the delivery periods).

(4) First quotation submitted.

(e) MANUAL EVALUATION: When automated evaluation is not used, as in the case of FAT and PLT requirements, or if the system is unable to make a fully automated award, quotations will be evaluated and awarded manually. When a quotation is manually evaluated, the contracting officer may consider quantity price breaks quoted without further discussion. When manually issued awards reference the Master Solicitation, all mandatory and conditional provisions, clauses, and procurement notes are incorporated by reference with the same force and effect as if set forth in full text.

(f) MANUAL EVALUATION FACTORS: If the requirement is evaluated manually, price, delivery, and past performance will be considered in accordance with the terms in the solicitation. Since delivery is an evaluation factor, there may be an evaluation preference for quotes/offers of fewer delivery days than the number of delivery days requested by the Government. Quoting/offering a greater number of delivery days than requested may result in the quote/offer not being considered.

(g) ALTERNATE OFFERS: Alternate offers will not be considered for automated award. Alternate offers may be submitted for evaluation for future procurements to the location identified in the solicitation.

(h) NOTICE OF AWARD: Purchase orders are based on a submitted quotation. Suppliers are requested to notify the administrative contracting officer, within 14 days after receiving the notice of award, when they will not perform in accordance with a purchase order. Failure to provide prompt notice will adversely affect your past performance evaluation if the purchase order is later cancelled at other than the Government's request.

(i) AUTOMATED EVALUATION DISTRIBUTION: The automated award will be posted to the DIBBS web site and distributed via email notification with a Web link to an electronic copy of the DD Form 1155, Order for Supplies or Services. Orders will be transmitted via Electronic Data Interchange (EDI) to contractors who are EDI capable. Contractors that are not EDI capable will receive their orders via email award notification containing Web links. Delays in the receipt of awards that are caused by email interruptions and Internet access are not excusable delays and will not extend delivery schedules.

(j) Quotations submitted by firms newly registered in DIBBS (i.e., registered in DIBBS within the past 60 days) in volumes significantly exceeding the historical average for newly registered firms will be excluded from consideration for automated awards and manual awards.

PART II – Provisions, Clauses and Procurement Notes:

The following clause applies to all solicitations and contracts issued on or after July 16, 2018, or as otherwise provided in the solicitation or contract:

FAR 52.204-23 (Jul 2018) Prohibition on Contracting for Hardware, Software, and Services Developed or Provided by Kaspersky Lab and Other Covered Entities

(a) *Definitions.* As used in this clause—

Covered article means any hardware, software, or service that—

(1) Is developed or provided by a covered entity;

(2) Includes any hardware, software, or service developed or provided in whole or in part by a covered entity; or

(3) Contains components using any hardware or software developed in whole or in part by a covered entity.

Covered entity means—

(1) Kaspersky Lab;

(2) Any successor entity to Kaspersky Lab;

(3) Any entity that controls, is controlled by, or is under common control with Kaspersky Lab; or

(4) Any entity of which Kaspersky Lab has a majority ownership.

(b) *Prohibition.* Section 1634 of Division A of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91) prohibits Government use of any covered article. The Contractor is prohibited from—

(1) Providing any covered article that the Government will use on or after October 1, 2018; and

(2) Using any covered article on or after October 1, 2018, in the development of data or deliverables first produced in

FOR AUTOMATED SIMPLIFIED ACQUISITIONS
REVISION 50 (JULY 9, 2018)**

the performance of the contract.

(c) *Reporting requirement.* (1) In the event the Contractor identifies a covered article provided to the Government during contract performance, or the Contractor is notified of such by a subcontractor at any tier or any other source, the Contractor shall report, in writing, to the Contracting Officer or, in the case of the Department of Defense, to the website at <https://dibnet.dod.mil>. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at <https://dibnet.dod.mil>.

(2) The Contractor shall report the following information pursuant to paragraph (c)(1) of this clause:

(i) Within 1 business day from the date of such identification or notification: The contract number; the order number(s), if applicable; supplier name; brand; model number (Original Equipment Manufacturer (OEM) number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the report pursuant to paragraph (c)(1) of this clause: Any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of a covered article, any reasons that led to the use or submission of the covered article, and any additional efforts that will be incorporated to prevent future use or submission of covered articles.

(d) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (d), in all subcontracts, including subcontracts for the acquisition of commercial items.

(End of clause)

The following websites are provided to suppliers to obtain the full text of the FAR, DFARS, and DLAD provisions, clauses, and Procurement Notes listed below: <https://www.acquisition.gov>, <http://www.acq.osd.mil/dpap/dars/dfarspgi/current/index.html>, <http://www.dla.mil/hq/acquisition/offers/DLAD.aspx> and <http://www.dla.mil/HQ/Acquisition/Offers/eProcurement.aspx>.

All provisions, clauses, and procurement notes are incorporated herein by reference with the same force and effect as if set forth in full text, and made a part of the solicitation/order as applicable. The submission of a quotation in response to a RFQ that references this document constitutes the supplier's compliance with the representations and certifications and acceptance of the individual clauses, provisions, and procurement notes incorporated by reference herein. Certain representations and certifications may be required as part of a quotation submitted via DIBBS. These representations and certifications will be contained on the DIBBS quotation input form. Suppliers are reminded that all provisions incorporated herein by reference remain binding in their entirety. Any penalties for misrepresentation contained in the reference clauses and provisions apply.
