Accessing the DLA Internet Bid Board (DIBBS) and the Collaboration Folders (cFolders)

03/25/2025

This guide will walk Vendors through:

- How to create both a DIBBs and cFolders account.
- How to search in both DIBBs and cFolders.
- How to access Export Controlled or License Agreement controlled data in cFolders
- How to search for a Long-Term Contract (LTC) Technical data packages (TDPs) in cFolders.

DIBBS: The DLA Internet Bid Board System (DIBBS) is a web-based application that provides the capability to search for, view, and submit secure quotes on Requests For Quotations (RFQs) for Defense Logistics Agency (DLA) items of supply. DIBBS also allows users to search and view Request For Proposals (RFPs), Invitations For Bid (IFBs), Awards and other procurement information related to DLA.

cFolders: Collaboration Folders (cFolders) is a web-based platform that brings together all business partners who are participating in a collaboration – internal users, engineering and design partners, suppliers, manufacturers and customers. To access cFolders, suppliers will need to first be obtained a DLA Internet Bid Board (DIBBS) account. Upon creation of a DIBBS account, suppliers can then establish a cFolders account.
