

# DEFENSE LOGISTICS AGENCY AVIATION SMALL BUSINESS

DLA Aviation is the aviation demand and supply chain manager for DLA. It provides aviation weapon systems and environmental logistics support to the defense aviation community and other governmental customers.

DLA Aviation supports more than 2,200 weapon systems and is the U.S. military's integrated material manager for more than 1.2 million national stock number items, industrial retail supply and depot-level reparable (DLR) acquisitions. Using a comprehensive demand planning process, our priorities align with those of our military customers.

Positioned alongside its military customers, DLA Aviation manages industrial support activities and DLR procurement operations in Georgia, Oklahoma, Utah, North Carolina, California, and Florida. It also manages DLR procurement at Naval Supply Systems Command (NAVSUP) Weapon Systems Support Philadelphia and Redstone Army Arsenal, Alabama.

DLA Aviation also operates the federal government's only industrial plant equipment repair facility at NAVSUP Weapon System Support, Mechanicsburg, Pennsylvania.

DLA Aviation's primary mission is to procure repair parts for both fixed- and rotary-wing aircraft, bottled gases and cylinders, and oversee DLA's green products initiative harnessing and recycling elements that would be hazardous to the environment.

DLA Aviation manages the Department of Defense (DoD) map repository of aeronautical, digital, hydrographic and topographic map products and operates the federal government's only industrial plant equipment facility providing a full range of maintenance services to include repair, rebuilding and acquisition of all types of industrial machinery, including lathes and milling machines.

## WHERE TO FIND PROCUREMENT OPPORTUNITIES

DLA Aviation conducts most of its business electronically—from solicitation to award to payment. The DLA Internet Bid Board System (DIBBS) is a web-based bid board that allows suppliers to search for, view, and submit secure quotes on Requests for Quotations (RFQs), search and view Request for Proposals (RFPs), and view awards for DLA items of supply. Most DLA Aviation solicitations are posted on the DIBBS bid board at [www.dibbs.bsm.dla.mil](http://www.dibbs.bsm.dla.mil).

The DLA Aviation DLR sites use the Federal Contract Opportunities website at [beta.SAM.gov](http://beta.SAM.gov) for posting of their opportunities. All procurements over \$25,000 are publicized in beta.Sam.gov. Beta.SAM.gov is especially important for RFP searches, since the RFP search capability in DIBBS is more limited. DLR solicitations, Sources Sought, and Requests for Information (RFIs) are also found on beta.SAM.gov as these notices are not published in DIBBS.
