

# DEFENSE LOGISTICS AGENCY DISPOSITION SERVICES SMALL BUSINESS

[DLA Disposition Services](#) disposes of excess property received from the military services. The inventory changes daily and includes thousands of items: from air conditioners to vehicles, clothing to computers, and much more. That property is first offered for reutilization within the Department of Defense (DoD), transfer to other federal agencies, or donation to state and local governments and other qualified organizations.

## SCRAP REMOVAL

**DLA Disposition Services**  
Scrap disposal coordination efforts at Tyndall Air Force Base after Hurricane Michael created an estimated 15 million pounds of scrap.

**Selling DoD surplus property.** DLA Disposition Services manages the DoD surplus property sales program. Excess property that is not reutilized, transferred or donated may be sold to the public. The property, no longer needed by the government, is only sold if it is appropriate and safe for sale to the general public.

**Hazardous Property Disposal.** DLA Disposition Services manages the disposal of hazardous property for DoD activities, maximizing the use of each item and minimizing environmental risks and costs through monitored compliant disposal.

**Demilitarization as condition of sale.** Certain property is demilitarized (i.e., rendered useless for its originally intended purpose). Surplus property with inherent military characteristics must undergo "demil." Offensive and defensive weapons and associated material are demilitarized prior to sale of scrap residue or as a condition of sale of scrap residue.

**Special programs.** A Resource Recovery and Recycling Program conserves natural resources, reduces waste products and returns revenue to the military services. Through recycling, the Precious Metals Recovery Program significantly reduces the need for DoD to purchase metals such as gold, silver and platinum family metals through recycling of excess and surplus scrap containing precious metals.

**Support for the U.S. military.** DLA Disposition Services supports the Nation's military wherever they are called to serve. They are part of the worldwide presence within DoD, with people serving in 16 foreign countries, two U.S. territories (Guam and Puerto Rico) and 41 states.

## WHAT DOES DISPOSITION SERVICES PROCURE?

Services		Supplies

## Product and Service Search

Use the [Product and Service Search tool](#) to search and sort products and services a Supplier can supply to the Government. These products and services are categorized by the Major Subordinate Commands (i.e. Weapons Support, Energy) that manage the supply chain, and a Supplier can use the information to determine a pathway to which primary DLA supply chains (i.e. MSCs) need the material or service.

## WHERE TO FIND PROCUREMENT OPPORTUNITIES

The DLA Disposition sites post their opportunities on the Federal Contract Opportunities website at [SAM.gov](#). Search for DLA Disposition opportunities and notices in SAM.gov using the following codes:

Site	Department of Defense Activity Address Code (DoDAAC)			
Battle Creek, Michigan	SP4500 (HW)	SP4510 (MHE)
