## USE OF GSA SCHEDULES & GWACS

Like many other Federal Agencies, DLA often purchases computer hardware, software and professional services using Schedules managed by the General Services Administration (GSA) such as Schedule 70. Schedules, also known as Federal Supply Schedules (FAS), and Multiple Award Schedules (MAS), are long-term governmentwide contracts with commercial companies that provide access to millions of commercial products and services at fair and reasonable prices to the government.

DCSO uses Governmentwide Acquisition Contracts (GWACs) for information technology requirements such as [8\(a\) STARS III](#), [VETS 2](#), and [Alliant 2 \(A2\)](#). GWACs are pre-competed, multiple-award, indefinite delivery, indefinite quantity (IDIQ) contracts that agencies can use to buy total IT solutions.

DCSO also utilizes [GSA's OASIS](#) (One Acquisition Solution for Integrated Services) multiple award IDIQ contract vehicle.
