Recognize and Avoid Phishing Emails

GSA vendors may be the targets of fraudulent phishing emails. Phishing is a scheme that lures victims into providing personal or financial information. Do not open unsolicited emails or suspicious attachments/links. These emails may contain harmful viruses and malware, and may result in identity theft. To protect yourself against these types of scams and malware campaigns follow these precautionary measures:

- Do not follow links in unsolicited email messages
- Do not open or download attachments in unsolicited email messages
- Do not send any form of payment to unknown individuals
- Keep antivirus software up-to-date

Refer to Cybersecurity and Infrastructure Security Agency's Security Tips on [Avoiding Social Engineering and Phishing Attacks](#) for additional techniques and recommendations.

Real property could include stand-alone facilities and structures such as hospitals and federal buildings to large, multi-facility complexes such as DoD military installations. Services can be ordered individually or in combination. Typical maintenance services include: elevator, HVAC, electrical, plumbing, septic, fire alarm/fire suppression, energy management control systems (EMCS), water distribution, septic, telephone, water tanks, renewable energy systems, waste management, recycling, etc. This SIN can also be used for facilities management solutions such as to fulfill a requirement for adequate staff/personnel to help manage federal facility operations. In addition, this SIN provides a complete array of facilities consulting and facilities assessment services.

Subgroups (Subgroups are provided for market research purposes only. Buyers should confirm specific contract offerings are available by verifying awarded products and services on the contractor's GSA pricelist.)

Forecast of Contract Opportunities Tool

What is the Forecast of Contract Opportunities Tool?

What?

The forecast of contracting opportunities is a list of expected Federal contracts.

Why?

Public Law (PL) 100-656, the Business Opportunity Development Reform Act of 1988, requires agencies to prepare a forecast.

How?

The Forecast Tool is an automated solution to provide forecast information to the public.

Who?

Federal executive agencies are required to forecast; vendors use the tool to find forecasted opportunities

Forecast and Forecast Tool Benefits

- Early awareness of anticipated opportunities
- Able to prepare market strategies in advance
- User friendly search and filter functions
- Ability to export data
- One-stop-shop for Federal agency forecasts

Search for Anticipated Opportunities
