

DEFENSE LOGISTICS AGENCY ENERGY SMALL BUSINESS

[DLA Energy](#) is responsible for providing the Department of Defense and other government agencies with comprehensive energy solutions in the most effective and efficient manner possible.

DLA Energy is organized to work with customers and suppliers to accomplish all areas of its mission. [Bulk Petroleum Products](#) and [Bulk Petroleum Supply Chain Services](#) provide procurement and distribution of military specification petroleum products, the majority of DLA Energy's business. [Direct Delivery Fuels](#) manages commercial fuels that are delivered directly from the contractor to the customer. Supply Chain Management manages fuel terminal and storage operations, including government-owned, contractor-operated and contractor-owned, contractor-operated facilities.

Outside of petroleum, [Installation Energy](#) provides support for natural gas, coal, renewable energy, electricity and energy savings performance contracts. [Utility Services](#) manages the utility services contracting mission supporting the utilities privatization programs of service partners. The [Aerospace Energy](#) business unit provides propellants, cryogenics and gases in support of weapon systems and space programs.
