SUBJECT: Legacy Letter for Tungsten Ores and Concentrates

All current DLA Strategic Materials National Defense Stockpile inventory of Tungsten Ores and Concentrates was acquired during the 1940s, 1950s, and 1960s. All inventory has been stored at various United States Government-controlled facilities since acquisition. Therefore, all Tungsten Ores and Concentrates inventory is considered "legacy material". As such, the material adheres to the Dodd-Frank conflict mineral provision and the SEC Fact Sheet modified on 14 March 2017. The Government has no reason to believe that any item/lot should be considered to have originated in the covered countries.
