

**UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION I
2100 RENAISSANCE BLVD.
KING OF PRUSSIA, PA 19406-2713**

January 20, 2017

Ronnie Favors, Administrator
Defense Logistics Agency
8725 John J. Kingman Road
Fort Belvoir, Virginia 22060-6223

**SUBJECT: DEFENSE LOGISTICS AGENCY, LICENSE AMENDMENT, MAIL CONTROL
NO. 592467**

Mr. Favors:

This refers to your license amendment request dated November 29, 2016. Please find enclosed Amendment No. 38 authorizing Mr. Dewey Blair as Radiation Safety Officer.

An environmental assessment for this action was not required, since this action is categorically excluded under 10 CFR 51.22(c)(10).

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please contact me at 610-337-5399 or via electronic mail at stephen.hammann@nrc.gov so that appropriate corrections or answers can be provided.

You will be periodically inspected by the NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action(s) against you. This could include issuance of a Notice of Violation, or Imposition of a Civil Penalty, or an Order Suspending, Modifying or Revoking Your License as specified in the NRC Enforcement Policy. The NRC Enforcement Policy is available at:
<http://www.nrc.gov/reading-rm/doc-collections/enforcement/>.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

R. Favors

2

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web Site at: <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Hammann", with a long horizontal flourish extending to the right.

Stephen Hammann, Senior Health Physicist
Decommissioning and Technical
Support Branch
Division of Nuclear Materials Safety
Region I

License No. STC-133
Docket No.04000341
Mail Control No. 592467

Enclosure:
Amendment No.38

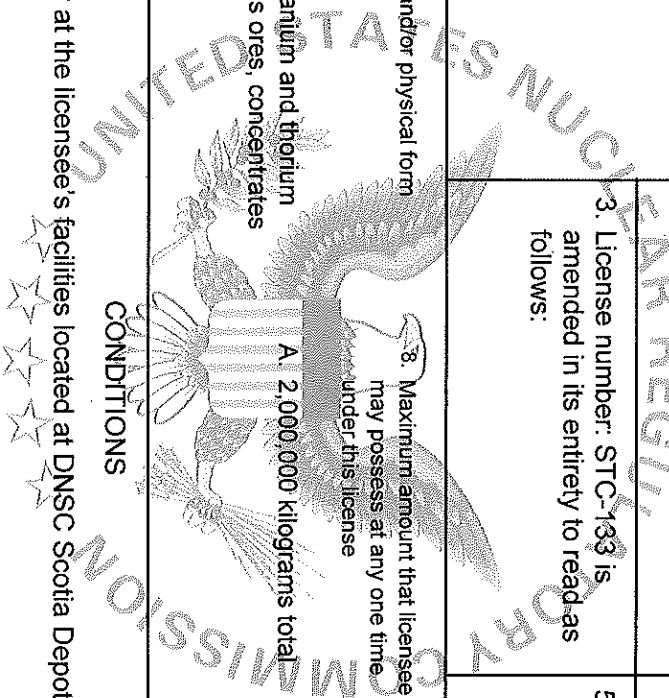

cc: Dewey Blair, Radiation Safety Officer

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended; the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 37, 39, 40, 70 and 71, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

<p>Licensee</p> <p>1. Defense Logistics Agency DLA Strategic Materials</p> <p>2. 8725 John J. Kingman Road Ft. Belvoir, VA 22060-6223</p>	<p>In accordance with letter dated November 29, 2016</p> <p>3. License number: STC-183 is amended in its entirety to read as follows:</p>	<p>4. Expiration Date: February 29, 2020</p> <p>5. Docket No.: 040-00341 Reference No.:</p>
---	---	---

- 6. Byproduct, source, and/or special nuclear material
 - A. Uranium and Thorium
- 7. Chemical and/or physical form
 - A. Natural uranium and thorium mixtures as ores, concentrates and solids
- 8. Maximum amount that licensee may possess at any one time under this license
 - A. 2,000,000 kilograms total
- 9. Authorized use
 - A. Possession and storage only until the decommissioning final status survey can be completed and submitted to the U.S. Nuclear Regulatory Commission.

CONDITIONS

- 10. Licensed material may be stored only at the licensee's facilities located at DNSC Scotia Depot, Route 5, Scotia, New York.
- 11. Licensed material shall be stored by, or under the supervision of, Dewey Blair or individuals who have completed the training described in the application dated January 6, 2010.
- 12. The Radiation Safety Officer for this license is Dewey Blair.

STC-133

Docket or Reference Number
040-00341

Amendment No. 38

- 13. The licensee is authorized to transport licensed material in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."
- 14. The licensee will take all actions that are within its ability to dispose of its material, notifying the U.S. Nuclear Regulatory Commission within 30 days if disposal is achieved.
- 15. The licensee is authorized to delay the completion of decommissioning activities at its Scotia, NY depot until February 29, 2020, in accordance with the licensee's letter received June 2, 2014 and letter dated March 25, 2015.
- 16. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
 - A. Application dated January 6, 2010 (ML100141271)
 - B. Letter received June 2, 2014 (ML14167A147)
 - C. Letter dated March 25, 2015 (ML15089A272)
