Program Overview

• C&T Extended Cold Weather Clothing System (ECWCS) cold weather gear sales exceeded
• C&T manages 80 cold weather gear items
• FY 13 Sales: 202M
  FY 14 Sales: 217M
  FY 15 Sales: 184M
  FY 16 Sales: 201M
Obligations

- Obligations - FY16 plan vs. actual
  - Plan $129M
  - Actual $144M

- FY17 Obligation Forecast $191M
Open Procurements Actions

- **03358 – AF APECS Trouser**
  - SPE1C1-15-R-0101,
  - Base and each of two option years:
  - Min 5,394  AOLQ 26,850
  - Closed 7/18/16
  - Total Small Business Set aside
  - APECS Stands for All Purpose Environmental Camouflage

- **04059 - Gen III Layer IV Wind shirts**
  - Estimated Quantities base and each of 2 options
  - Min 7K  AOLQ  35K
  - Estimated Solicitation Issue Date DEC 2016
  - Anticipated Small Business Set Aside
  - Target award date June 2017
Open Procurements Actions

- **04057/8415-01-641-1633(s) Gen III Layer 5 Midweight Jacket, OCP**
  - SPE1C1-16-R-0037
  - Base and each of two option years:
  - Min 10,000; AOLQ 50,000
  - Closed May 6, 2016
  - TAD Dec 16
  - Total Small Business Set-Aside
Upcoming Procurement Actions

• Various Sleep System items
  – Solicitation TBA
  – Base and each of two option years:
    – Quantities Outer Bag – Approx. min per year, 5k, Approx. AOLQ 22K/Year
    – Quantities Stuff Sack - Approx. min per year, 8k, Approx. AOLQ 40K/Year
    – Estimated Solicitation issue date: OCT 2016
    – Unrestricted

• Various Parkas
  – Solicitation TBA
  – Base and each of two option years:
    – Quantities TBA
    – Estimated Solicitation issue date: NOV
    – Anticipated Total Small Business Set aside
    – TAD March 2017
Upcoming Procurement Actions

• Various Afghan Field Coats
  – Market Research to begin by end of OCT 2016
  – Quantities TBA
  – Estimated Date of Solicitation Issuance: DEC 2016
  – Target Award Date – July 2017

• PGC: 04058 – Gen III Layer 5 Trousers
  – Analyzing Market Research.
  – Estimated Quantities Base and each of 2 options
  – Min 10K AOLQ 50K
  – Estimated Date of Solicitation Issuance: NOV 2016
  – Target Award Date – July 2017
Other Potential Upcoming Acquisition

Various Navy/MC Trousers --

Market Research to Commence shortly

Particulars TBA

Purpose

Update industry on the status of current and future U.S. Army Cold Temperature initiatives
Fire Resistant Environmental Ensemble

- Undergarments - WORN IN ALL CONDITIONS
- Base -50° to 60°
- Mid Weight -50° to 60°
- DUTY UNIFORM(A2CU or ICVC) - WORN IN ALL CONDITIONS (Not Part of the FREE system)
- IWOL -50° to 0°
- EWOL -50° to 40°
System Description:

• A multi-component, versatile clothing system that allows the Soldier to adapt to mission requirements and environmental conditions

• Designed to be used in several possible layered configurations

• 12 different components issued as follows:
  – 2 x Lightweight Cold Weather Undershirts/Drawers
  – 1 x Mid-weight Cold Weather Shirt/Drawers
  – 1 x Fleece Cold Weather Jacket
  – 1 x Wind Cold Weather Jacket
  – 1 x Soft Shell Cold Weather Jacket/Trousers
  – 1 x Extreme Cold/Wet Weather Jacket/Trousers
  – 1 x Extreme Cold Weather Parka/Trousers

Objective: Improve Soldier acceptance in form, fit, function in field and garrison environment, and improve compatibility with body armor

BOI: One per deploying Soldier (if required)

NSN: Available by component
Environmental Protection System (EPS)

Current Systems

Extended Cold Weather Clothing System (ECWCS) Gen III
- Lightweight, many layers, not tailorable with Body Armor
- No Flame Resistant (FR) Properties at all
- No Gloves tied to this system
- Does not allow for additional Technology Insertion

*DOES NOT SERVE POTENTIAL SAFETY NEEDS OF STRYKER, BRADLEY FIGHTING VEHICLE (BFV), OR OTHER MOUNTED SOLDIERS NOT CONSIDERED VEHICLE CREWMEMBERS

Footwear
- Capability gap for -20 to 14 degrees (F)
- No domestic production of boot for -65 to -20 degrees (F)

Handwear
- No domestic source for the insulated knit liners for the mitten sets
- The majority of cold weather handwear currently in the system was designed 30-plus years ago (eg. Extreme Cold Weather Mitten, Trigger-Finger Mitten, Intermediate Cold/Wet Glove)

Proposed EPS System Provides:

Modernized combat clothing that spans the entire environmental spectrum

- Issued to All Soldiers
- Environmental System w/ FR capabilities where needed
- Lightweight, Tailorable, Durable
- Modernizes Jungle and Cold Weather (CW) Footwear
- Glove Modularity
- Allows for Technology Insertion

EPS Components
- Cold Weather Clothing System
- Glove Systems
- Multi-utility cold weather boots (for use w/ skis, crampons, etc.)

Last Modernized
- 2000
- 1980's
- Never

EPS enables the Warfighter to tailor environmental clothing to fit specific mission requirements; Directly addresses Mounted, Dismounted, and Military Freefall capability gaps

**Description:** The US Army Natick Soldier Research, Development, and Engineering Center (NSRDEC) in collaboration with the Product Manager for Soldier Clothing and Individual Equipment (PdM-SCIE), and the Maneuver Center of Excellence (MCoE) have launched a developmental program for a Cold Temperature and Arctic Protective System (CTAPS). The intent of CTAPS is to assess the currently fielded and commercial cold weather protective footwear, handwear, and clothing to identify capability areas of interest and inform acquisition requirements to develop a novel and innovative cold weather ensemble solution. It will be the next progression in cold weather protection.

**Purpose:** CTAPS will protect against external extreme cold wet/dry environments while regulating internal system comfort and maintaining Soldier core body temperature during mission operations.
**Cold Temperature and Arctic Protective System (CTAPS)**

**Current Status:**
- Initial Focus Groups in cold wet/dry regions (AK,VT,NY)
- Formation of Military Cold Weather Working Group
- Government and Commercial-Off-the-Shelf survey of items
- Subject Matter Expert (SME) Design Review for FY17 Concept Evaluation

**Future plan:**

**Concept Evaluations (CE):**
1) Fiscal year (FY) Winter 2017 - Footwear, Handwear, and Base Layer. Market research and testing on all materials in system.
2) Fiscal year (FY) Winter 2018 - Footwear and Handwear, Insulative layer.
3) Fiscal year (FY) Winter 2019 – Clothing ensemble

**Future plan:**

- Concept Evaluations (CE):
  - 1) Fiscal year (FY) Winter 2017 - Footwear, Handwear, and Base Layer. Market research and testing on all materials in system.
  - 3) Fiscal year (FY) Winter 2019 – Clothing ensemble

Overview

Six (6) Capability Production Documents will spin off of the EPS Capabilities Development Document

1. Jungle Combat Boot (JCB)

2. Jungle Combat Clothing Ensemble (JC2E)

3. Cold/Extreme Cold Weather Boot

4. Cold/Extreme Cold Weather Glove System

5. Cold/Extreme Cold Clothing System

6. Military Free Fall Parachutists’ Environmental Kit

20 Oct 2016 Unclassified
Other Important aspects of the Ensemble:

Operationability:
- Enhance survivability, sustainability and mobility
- Mission tailorable-quick don/doff, layer up/down, adjustability, secure closures
- Uniform design-fit/sizing of layering, vents, pockets, access points
- Full integration with Other Clothing and Individual Equipment (OCIE)

Final ensemble must be Berry Compliant

Flame Resistance:
Protection level and layer To Be Determined.
