C&T Value Management Program VECP Breakout

Kelly Floyd, MBA November 22, 2017

Overview

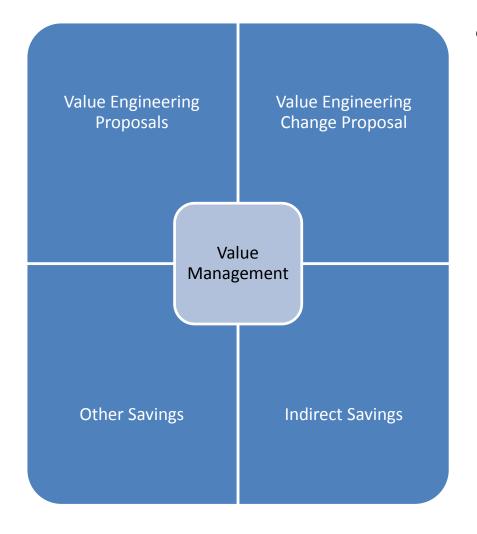

Value Engineering Change Proposal:

- VE/VM Purpose & Examination of Function
- VECP Defined
- VECP Preparation, Eight Points & Submission
- Rules & Tools
- Contractor Guidance & References
- Contact Information

C&T Value Management Program

- Program includes:
 - Value engineering
 - Internal Proposal
 - VEP
 - External Proposal
 - VECP
 - Indirect Savings
 - Reverse Auction*
 last year
 - 3PL(3rd party logistic providers)
 - Other Savings
 - Should Cost
 - Reverse Engineering

What is VM? Value Management

- Umbrella term for Value Engineering functions
- Term often used interchangeably with Value Engineering
- Stakeholder value judgements vary, and VM reconciles differing priorities to deliver best value for all stakeholders
- Defined in DLA Instruction 4245.01 Value Management

What is VE? Value Engineering

An organized technique and effort to purchase:

- An essential function
- At the lower cost
- At the desired time and place
- Without degradation of
 - Performance
 - Quality
 - Reliability
 - Maintainability

Value Engineering Ratio of Function to Cost

Customer needs to stir paint...

Which solution is most appropriate?

VE & Contractors?

 Contractors can apply Value Engineering techniques to their products through the submission of a Value Engineering Change Proposal (VECP) Successful VECPs can result in royalty payments

A contractor-initiated proposal where the savings are shared between the Government and the contractor. A VECP is submitted under the value engineering (VE) clause of a contract pursuant to Federal Acquisition Regulation (FAR) Part 48. It proposes a net life-cycle cost reduction to the DoD and requires a contract modification.

VECP

- VECP Clause in DLA contracts > SAT (150K)
 - Clause can be added by Mod
- Contractual method to share savings
 - Savings shared between Contractor and DoD
 - Typical Share: 50/50
 - Sharing for 3-5 years

- Improve DoD supplies and/or equipment
 - Improvements include any price savings
 - Process
 - Materials
 - Manufacturing Techniques

VECP Clause Preparation

As a minimum, the Contractor shall include in each VECP the information described in paragraphs (c)(1) through (8) of this clause. If the proposed change is affected by contractually required configuration management or similar procedures, the instructions in those procedures relating to format, identification, and priority assignment shall govern VECP preparation. The VECP shall include the following:

VECP Clause Point One

- A description of the difference between the existing contract requirement and the proposed requirement
- The comparative advantages and disadvantages of each
- A justification when an item's function or characteristics are being altered
- The effect of the change on the end item's performance
- Any pertinent objective test data

VECP Point One

Current Requirement

Recommended Modification

- Do:
 - Include pictures
 - Be descriptive
- Don't:
 - Assume anything is common knowledge

VECP Point Two

- A list and analysis of the contract requirements that must be changed if the VECP is accepted
 - Include any suggested specification revisions

Do:

- Cite specific language in Spec
- Cite specific language in contract

Document for Standarized Vecp coat

A-A-XXXXX
Revised 7/30/99 to reflect changes per services. Vecp # 1998006, 1998007, 1998008, 1998009

(Proposed)

COMMERCIAL ITEM DESCRIPTION

COAT, ALL-WEATHER, MEN'S AND WOMEN'S

Army, Navy, Air Force, Marines, Coast Guard

The General Services Administration has authorized the use of this commercial item description for all Federal agencies.

1. Scope. This document covers the requirements for men's and women's all-weather coats made of water repellent-treated cloth, with a removable liner.

2. Classification. The coat shall be in the following classes and sizes:

Class 1 - Marine Corps Pewter 2246 Class 2 - Army Black 385

- Don't:
 - Use generalizations
 - Forget reference docs

VECP Point Three

 Identification of the unit to which the VECP applies

- Do:
 - Include PGC(s)
 - Include NSN(s)
 - Include Part Number(s)
- Don't:
 - Include items not on your contract

VECP Point Four

A separate, detailed cost estimate

Current Process Cost

Recommended Process Cost

Cost Savings

- A separate, detailed cost estimate for:
 - The affected portions of the existing contract requirement and the VECP
 - The cost reduction
 associated with the VECP
 shall take into account the
 Contractor's allowable
 development and
 implementation costs,
 including any amount
 attributable to subcontracts
 under the Subcontracts
 paragraph of this clause

VECP Point Five & Six

VECP Point Five

- A description and estimate of costs the Government may incur in implementing the VECP
 - such as test and evaluation and operating and support costs

VECP Point Six

 A prediction of any effects the proposed change would have on collateral costs to the agency.

VECP Point Seven & Eight

VECP Point Seven

 A statement of the time by which a contract modification accepting the VECP must be issued in order to achieve the maximum cost reduction, noting any effect on the contract completion time or delivery schedule

VECP Point Eight

- Identification of any previous submissions of the VECP
- If there are previous submissions include:
 - The dates submitted
 - The agencies and contract numbers involved
 - Previous Government actions, if known

Submission

- The Contractor shall submit VECP's to the Contracting Officer
 - unless this contract states otherwise

- If the contract is administered by other than the contracting office
 - The Contractor shall submit a copy of the VECP simultaneously to the Contracting Officer and to the Administrative Contracting Officer

End State:

- ✓ Deployers ALWAYS supported
- ✓Increased operational effectiveness in all environments
- √Sustainable capabilities
 - ✓ Greater capability at reduced cost

Value Engineer Change Proposal (VECP)

General Guidelines

- Know the requirements for the End Item
- Performance gaps in the item requirement between the Thresholds (T) and Objectives (O) are the items that can change through a VECP and an approved Material Change Proposal (MCP)
- PM-SPIE MCPs authorize improvements for end-items supported by a program of record.
- Approval from the Army Uniform Board authorizes a change for Clothing Bag Items

Clothing and Individual **Equipment Approval Process**

Army Uniform Board (AUB)

The Army Uniform Board (AUB) is the primary review forum for clothing bag, mess, dress, service, and optional purchase uniform items. The AUB resolves issues, provides and obtains guidance, ensures that items fit the 5th to the 95 percentile, and makes recommendations to the CSA. The CSA approves the initiation of concept development and adoption of these items. The AUB will-

- (a) Conduct milestone reviews on new or improved items and make recommendations to the CSA (Milestone Decision Authority) for decision.
- (b) Review policies pertaining to the wear of new or improved clothing items.
 - AR 70-1 (Army Acquisition Policy)

ARMY UNIFORM BOARD MEMBERS

- -DA G4 (Chair)
- -ASA (ALT)
- -ASA (FMC)
- -DA G1
- -Director, Army National Guard
- -Chief, Army Reserve
- -Sergeant Major of the Army
- -Deputy Inspector General
- -DA G3

- -Senior Female Officer on the
- -Army Staff
- -PEO Soldier
- -Senior Female Representative from ASA(M&RA)
- -Female Command Sergeant Major
- -Junior Enlisted Male
- -Junior Enlisted Female

Clothing Bag, **Dress Clothing**

Approval Processes

and Optional Clothing

Organizational Clothing And Individual Equipment (OCIE)

Results of the AUB are provided to the CSA at the conclusion of the AUB.

CSA

AUB

PEO Soldier presents improvements to the AUB for concept approval

PEO Soldier

TRADOC Requirement

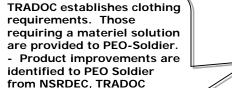

- Service Uniforms & Accessories
- ACUs & Accessories

ASA(ALT)

PEO Soldier

TRADOC Requirement

- FR ACU
- Environmental Clothina
- MOLLE
- **Body Armor**

schools, Soldier feedback,

etc.

Potential Areas for VECP

- Flame Resistant Army Combat Uniform (FR ACU)
 - Fabric that improves burn injury prediction
 - Fabric that increases durability (strength and color fastness)
- Fire Resistant Environmental Ensemble (FREE)
 - Lower Cost fabrics
 - Knits that meet requirements with improved shade consistency
- Army Physical Fitness Uniform (APFU)
 - Trunk lining material improved color fastness/lower cost
- Load Carriage
 - Reduce weight and cost
- Fuel Handler's Coverall
 - Improved Comfort/Breathability
- Fastening system for rank/patch that does not pill/wear out
