# Product Line Overview

- Ground Troop (Ballistic) Helmets & Components
- Flyers' Helmets & Components
- Anti-G & Anti-Exposure Garments
- AirSave & Flexible Body Armor Vests:

- Manage approx. 850 items
- Sales
  - FY18 \$66.5M
  - FY17 \$74.8M
  - FY14 -FY16 Avg. \$64.0M

# Upcoming Opportunities

- Projected procurements in FY' 19

- CVC Liner
- ACH Gen II
- ACVC

# NEXT GENERATION INTEGRATED HEAD PROTECTION SYSTEM

**PE Film / Next Generation Integrated Head Protection System (NG IHPS) Description:** A modular helmet system consisting of a retention system, suspension system, maxillofacial protective system, hearing protection, and Night Vision Device (NVD) bracket. Facial and mandibular protection levels can be added or removed based on mission requirements. The NG Integrated Helmet Protection System (IHPS) provides improved fragmentation, ballistic, and impact protection while reducing the weight and improving fit over the Advanced Combat Helmet/Enhanced Combat Helmet and provides improved ballistic protection over the IHPS.

## **Goals:**

- Threat P protection without the need for a Ballistic Applique (BA) at the same weight or lighter than the current IHPS base configuration
- Maintain same geometry the current generation IHPS and ensure compatibility with all current IHPS components
- Remove NVG bolt hole and integrate with the universal Helmet Mount Assembly
- One size Suspension system for the NG IHPS

## **Projected Schedule:**

- **4QFY19:** Issue NG IHPS Solicitation
- **2QFY20:** Award NG IHPS Contract
- **3QFY20:** Delivery of First Article Test (FAT) Samples

## **Contract Strategy:**

- Five (5) Year IDIQ Contracts
- Anticipate awarding production contracts to two (2) Vendors
- Government will exercise Fair Opportunity procedures in the contracts to award delivery orders
- Contracts will include CLINs for DLA and Rapid Fielding Initiative Requirements
