Warstopper Mission Statement

Government investments when readiness demand is higher than the commercial industry is willing to invest

Warstopper Program Description

- **Criteria**
 - Mission essential or critical
 - Low peacetime demand but high wartime demand
 - Limited shelf life
 - Long production lead time
 - Cost effective alternative to War Reserve Inventory
- **Government Investment Opportunities**
 - Provide lean six-sigma analysis to maximize vendor capacity
 - Provide industrial equipment
 - Stage raw material, subcomponents, and/or raw material buffers
 - Facilitate access to vendor managed inventory
 - Award industrial base maintenance contracts to maintain vital domestic industry

Past Investments

- C&T:
 - Nomex® buffer stock
 - Milspec tents & shelters
 - Minimum sustaining rate investments
 - Helmets
 - Hard body armor
- Other Commodities:
