One (1) 30" W x 80" H aluminum personnel door with locking flush mount handle and one (1) 36" w x 84" h double zipper entry are also included. Also included is the anchoring package with twenty-eight (28) double headed 18" base frame spikes and ten (10) guy ropes and guy spikes, 30 day spares / repair, and the verified technical manual. Shelter comes standard in wood crates, but can be upgraded to CAMSS Roto-Mold Containers for shipping and storage.			

**22.DESCRPTION:**

One of the most widely used shelters of the EX series is the CAMSS20EX Shelter System. Its straight vertical sidewalls and 20ft wide interior makes it ideal for many applications. Unlike curved or slanted sidewalls, the straight sidewalls allow for equipment and furniture to be placed adjacent to the walls, maximizing available space. This makes the CAMSS20EX Shelter System the preferred choice for hospitals, kitchens, and other applications requiring tall sidewalls. The CAMSS20EX shelter is rugged and durable for long life. It is able to withstand extreme temperatures, high winds, and heavy snow loads. The CAMSS20EX Shelter System uses a high strength aluminum frame to meet a 20PSF ground snow and a 100 mph wind load per ASCE 7-16.
