

# Soldier Crew Tent

[8340-01-359-0084 for the Tent with a Green/Tan Reversible Fly](#)

[8340-01-359-1481 for the Tent with a Green/White Reversible Fly](#)

The Soldier Crew Tent (SCT) was developed to provide environmental protection for the billeting of combat vehicle crews. It's compact transport size, rapid erect design and military grade construction makes it a perfect shelter for the crew. This tent has expanded its intended mission and become popular for short mission use. When the need requires just a little more interior space and durability than a lightweight nylon back packing style or the new larger MGPTS Small is too big this tent may fit the need. This tent mission Multi season and will hold up in most environments. We really like the SCT's ground hugging profile with its high wind capability. There is plenty of screening and vents with the protection of the weather resistant fly and removable single ply liner.

## KEY FEATURES:

- Made of water and flame resistant, lightweight, nylon fabric
- Erect time of 1 unit is accomplished by 2 soldiers in 5 minutes
- 110 square feet of floor space
- Constructed with tear and weather resistant, reinforced floor
- Green/Tan Reversible Fly
- Includes 4" stove pipe opening for use with standard military heater
- Includes storage/transport cover
- Includes field repair kit

## Description:

The SCT is a lightweight, durable, single frame, single hub tent. The tent body is suspended from the frame in a canopy style. An over-cover lies on top of the frame to provide an air gap for added insulation. Two reversible over-covers are available in either a green/tan or green/white configuration. A cold weather cotton liner is also provided. The SCT is 53 inches high, weighs 70 lbs., 110 square feet (10' 10" x 10' 10") floor space, shipping 6 cubic feet. Erect/strike is accomplished in less than five minutes. A mesh gear loft for storage is suspended over the sleeping area. A storage/transport cover is included as well as a field repair kit. A 4" stove pipe opening is included for use with a standard military heater.

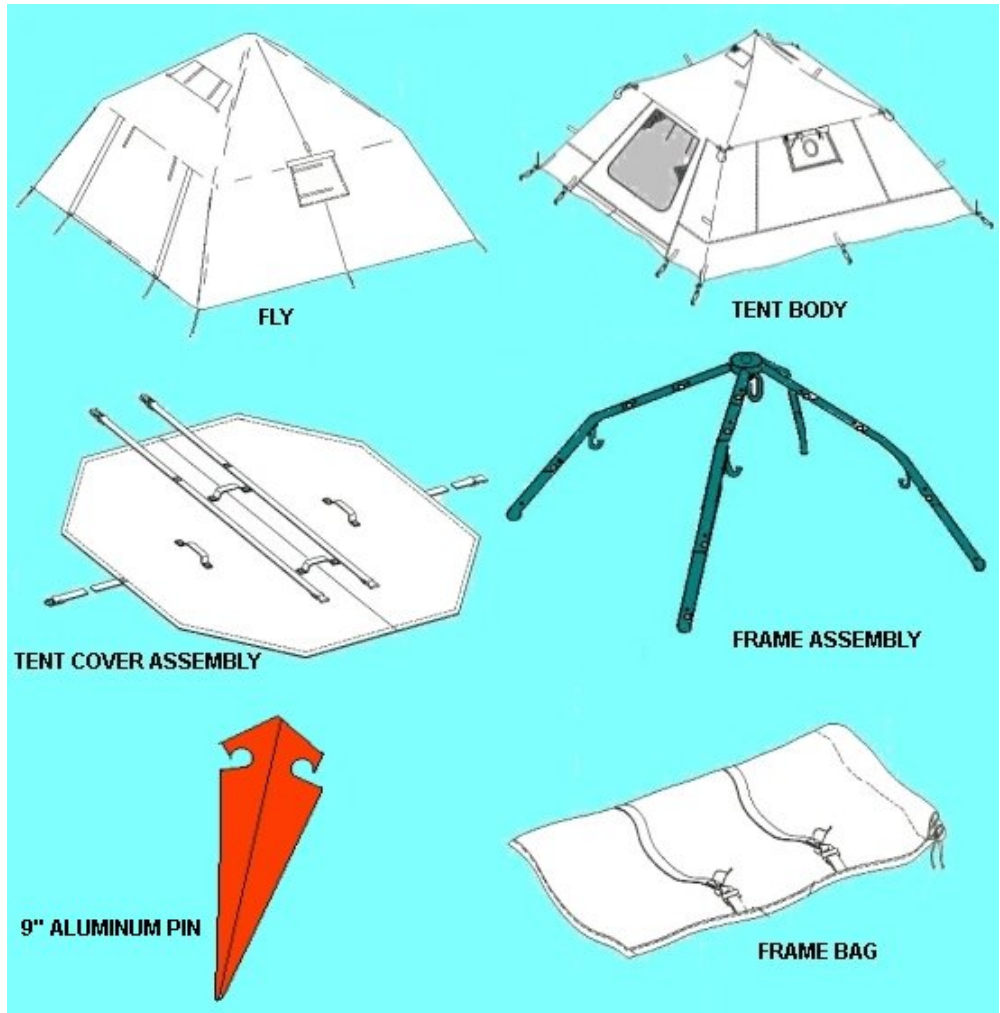

And if you like this tent, you may also like the same design and construction in the Commercial Design Expanded Soldier Crew Tent NSN 8340-01-476-3414 (GREEN/TAN Reversible Fly) or NSN 8340-01-476-3470 for the Expanded Soldier Crew (GREEN/WHITE Reversible Fly). This tent has 200 Square Feet of Floor Space, a center height of 7'8" and weighs 125lbs.

The Technical Manual for this tent is TM 10-8340-227-13&P
