Schedule of Supplies and Services

The intent of this solicitation is to issue Multiple Indefinite Delivery/Requirements Contracts for Commercial-type Sweeper and Scrubber Equipment used by the U.S. Military, Federal Government Agencies, and other authorized customers of DLA worldwide. Awards will be made to responsible offerors who take no exception to the terms and conditions of the solicitation and whose prices are determined to be fair and reasonable. This method of contracting is intended to provide broad, flexible, efficient, long-term contracts to provide maximum coverage for Sweeper and

Scrubber Equipment along with comprehensive equipment support. Contracts will be awarded to individual contractors for their product line(s) of Sweeper and Scrubber Equipment.

Product lines can include but not be limited to:

- Utility Sweepers
- Warehouse Sweepers
- Street Sweepers
- Sewer Cleaners
- Runway Sweepers
- Airfield Sweepers
- Vacuum Loaders
- Catch Basin Cleaners
- Scrubbers

Each item delivered under the resulting contracts shall be new and the most recent version of the manufacturer's commercial product. Each product offered shall include all standard components that are offered in the commercial marketplace. The equipment shall be in full and good operating condition, which includes but is not limited to having all fluid levels filled to normal operating ranges, when delivered to the destination. One paper and one electronic set of commercial manuals consisting of operator's instructions, service and repair manuals, and a complete parts list shall be over-packed with each item. Editable/modifiable versions of the commercial manuals, consisting of operator's instructions, service and repair manuals, and complete parts lists shall also be provided to the Government in electronic form upon request, whether at the time of order or at any time thereafter, at no additional cost or expense to the Government. Such information shall not be password protected or restricted upon delivery. The contractor shall provide such documentation upon request, both for the end item and any components integrated into or added to the end item, regardless of whether it is the manufacturer of the item and/or component or subcontracts its manufacture.

Product lines will also include incidental service and support features for each model. Incidental service and support includes but is not limited to operator training, operator certification training, service plans, spare parts support, video packages, extended warranty agreements, and any additional value-added incidental services and support features that the manufacturer or their certified representative(s) offers. This incidental service and support may only be ordered at the time the new equipment is ordered, incidental to and as part of the new equipment order. Service and support features cannot be ordered as stand-alone items under any resulting contract.

Incidental service and support features will be solicited as part of the Request for Quotation/ Delivery Order process, as required.

CAUTION NOTICE

Items Requiring Special Attention

This procurement is a negotiated acquisition issued on an unrestricted basis. The Government intends to award Multiple, Fixed Price, Indefinite Delivery/Requirements Contracts for the purpose of acquiring commercial Sweeper and Scrubber Equipment.

Offerors must submit proposals in accordance with the requirements of the solicitation.

For specific details regarding submission of proposals, see the provision at FAR 52.212-1 Instructions to offerors - Commercial Items. Offerors' proposals will be evaluated based on all of the solicitation requirements, including the evaluation criteria listed in provision FAR 52.212-2, Evaluation – Commercial Items.

After the initial contracts are awarded, all subsequent Sweeper and Scrubber Equipment customer requirements will be competed amongst all contract holders and each contract holder will be afforded a fair opportunity to submit offers on the requirements in accordance with FAR 16.505.

The required delivery schedule is between 30/730 days after the date of order. The required delivery schedule will be referenced in each Request for Quotations (RFQs).

The resulting contracts will be for a term of ten years (no options).

The unit prices for the basic contract items will be awarded on an FOB Origin basis. However, the FOB point is Destination for individual Request for Quotations (RFQs). Contract awardees will be required to quote FOB Destination at the time of each individual RFQ, **including a separate line item for all associated delivery costs.** All customer requirements will be satisfied on an FOB Destination basis. For items shipped overseas (OCONUS), where the RFQ does not request "door-to-door" delivery, the FOB point will be the point of loading closest to the port of embarkation. The cognizant DCMA office is responsible for designating the port of loading (on non "door-to-door" deliveries). For RFQs requiring "door-to-door" delivery, the FOB point is the ultimate end user's destination. Delivery to this final destination should be quoted accordingly, **with a separate line item for all associated delivery costs.**

DLA Troop Support will award only one Requirements Contract per manufacturer's product(s) or product line.

The solicitation will be open continuously with early consideration for offers received by the initial closing date. Offers received by the initial closing date will be the only offers included in the initial evaluation process. New offers may be submitted at any time after the initial closing date but prior to the final closing date. The final closing date will be nine (9) years after the initial closing date. Only proposals for the manufacturer's product(s) or product lines that are not on a contract resulting from this solicitation will be evaluated after the initial closing date. All subsequent proposals for duplicate manufacturer's products/product lines will be sent back to the prospective offerors unevaluated. Proposals received after the initial closing date will be evaluated after all proposals that were received prior to the initial closing date have been awarded or determined not technically acceptable. At the time contracts from this solicitation are awarded, there will still be existing contracts from solicitation SPE8EC-21-R-0002 active under the program. Because the resulting awards will be requirements contracts, there can only be one contract for each manufacturer's product line. Therefore, manufacturer's products that are still on contract from the previous solicitation will not be awarded under this solicitation until the contract from the previous solicitation expires or is terminated for convenience or cause.

DLA Troop Support intends to apply inspection and acceptance at destination as the standard practice. Inspection and acceptance at origin will be required only when deemed necessary. Origin Inspection will be required in at least the following instances: Foreign Military Sales (FMS), First Article Test (FAT) requirements, and deliveries to the Port for OCONUS (non "door-to-door" requirements). Note that FAR 52.246-2, Inspection of Supplies – Fixed Price (AUG 1996) is hereby included in this solicitation and any resulting contract as is FAR 52.212-4 Contract Terms and conditions – Commercial Items (OCT 2018) paragraph (a) Inspection/Acceptance. The applicable clause will be determined by the Contracting Officer upon the issuance of each Request for Quotation and resulting Delivery Order. In the absence of either clause, FAR 52.212-4 Contract Terms and Conditions – Commercial Items (NOV 2023) paragraph (a) Inspection/Acceptance applies.

All delivery orders issued under the resulting contracts will be written/placed only by DLA Troop Support, which will be the ordering office.

FAR Clause 52.216-2, Economic Price Adjustment - Standard Supplies (NOV 2021) is incorporated in full text which allows for price changes (see clause text for details on adjustment requirements). The clause is modified to allow for an aggregate increase not to exceed 20 percent of the original contract unit price and vendors are limited to a maximum of two upward adjustments per year, if requested and fully supported.

Items may be added to the contract as they are added to the awardees' commercial catalog. Items that become obsolete or discontinued from the commercial catalog may be deleted. Requests for the addition of items, during the contract term, will require submittal of commercial invoices. Requirements for invoices will follow the same manner as the original proposal and will be dependent on the number of models trying to be added (stipulated below).

DFARS 252.247-7023, Transportation of Supplies by Sea is referenced in the solicitation and will be included in all contracts resulting from this solicitation.

Offerors must submit a complete proposal, including commercial catalog prices for all items and commercial catalog prices for all machine attachments and related equipment. The proposal must also include any discounts to be offered on the proposed commercial catalog prices. In addition, offerors must supply pricing support data relating to the proposed products which includes: commercial invoices for items sold commercially, pricing and or discount structure pertaining to commercial customers/dealers, and other supporting documentation that can be used to determine price reasonableness.

This solicitation requires offerors to submit the following:

- 1.) Commercial Price Lists and Discounts
- 2.) Commercial Catalogs (descriptive literature)
- 3.) Commercial Invoices (required number per Invoice requirements)

Refer to 52.212-1 and its addendum for the full list of submission requirements.

Commercial Price Lists and Discounts: Offerors are required to submit pricing and discounts for each model offered, and to include discounts, if any, for commercially available price listed equipment attachments and optional features for each proposed model (See Attachment 1).

Commercial Catalogs: Offerors must submit commercial catalogs and/or other commercially offered descriptive literature that will be used to determine that commerciality of all models, attachments and optional features.

Commercial Invoices: Offerors must submit commercial invoices that will verify commercial sales and discounts offered to the commercial market. Offerors submitting invoices not based on the currently proposed price lists shall provide the corresponding price lists that were in effect at the time the invoices were issued.

OEM's Letter of Commitment: DLA Troop Support will award one contract per the Original Equipment Manufacturers (OEM) product(s) or product line. Dealers and suppliers, other than the OEM, that wish to be considered for an award must submit an original letter of commitment from the OEM specifically addressing the products or product line, the offeror, and this solicitation. The OEM's letter of commitment must confirm that the offeror is "the OEM's sole representative for purposes of the contract and DLA Troop Support's Heavy Equipment Procurement Program (HEPP)." The OEM's letter of commitment must include assurance "to provide the offeror a guaranteed, uninterrupted source of supply sufficient to satisfy the Government's requirements for the entire contract period". The offeror must submit the letter of commitment with the proposal. Failure to provide the

guarantees mentioned above will result in elimination of an offeror that is not an OEM from further consideration for award.

Manufacturers' letters of commitment for the same products or product line from more than one offeror will render all offerors of that manufacturer's product(s) or product line(s) unacceptable and therefore excluded for award.

This procurement is being solicited on an unrestricted basis. Awards will be made to responsible offerors who take no exception to the terms and conditions of the solicitation, meet all solicitation requirements, and whose prices are determined fair and reasonable. The evaluation criteria for award are contained in FAR clause 52.212-2 Evaluation - Commercial Items.

The following procedures will be used in issuing delivery orders:

A fair notice of intent to make a purchase, including an item description of the equipment to be delivered and the basis upon which the contracting officer will make the selection, will be issued to all contractors who currently hold Sweeper and Scrubber Equipment contracts on contracts resulting from both solicitation SPE8EC-21-R-0002 and this solicitation, unless an exception to fair opportunity applies pursuant to FAR 16.505(b). The Request for Quotations (RFQs)/E-mail notification will identify the customer's requirements, include reference to specific equipment requirements, and, if applicable, will clearly identify the best value delivery order placement criteria to be used for the specific purchase. Note that DLA's customer will be responsible for determining whether or not an item is technically acceptable within its sole and exclusive discretion. DLA Troop Support is the designated ordering office and will issue delivery orders in accordance with the delivery order placement criteria specified in the RFQ. No other government activities may place delivery orders against this contract.

All delivery orders will be awarded based on Lowest Price Technically Acceptable (LPTA) unless otherwise specified in the RFQ.

Unless otherwise specified in the Request for Quotations/Delivery Order process, preservation, packaging, and packing shall be of sufficient nature as to preclude damage to the equipment under normal shipping and handling conditions. In accordance with ASTM D 3951 (Standard Practice for Commercial Packaging) and MIL-STD 147, such packaging must conform to industry commercial and military practices and be consistent with applicable carrier regulations, at a minimum. Shipping containers shall be in compliance with National Motor Freight Classification and Uniform Freight Classification requirements. OCONUS shipping must conform to International Air Transport Association regulations and all packaging directions included in the specific delivery order.

The contractor shall be responsible for packaging and over packing the equipment in commercial material of the type, size and kind commonly used for the purpose and so constructed as to ensure preservation of its condition, acceptance, and safe delivery to destination. A packing list/slip containing at least the following information: Contractor's name, delivery order number, date of order, itemized list of equipment / attachments/ supplies included in the shipment, manufacturers name, part number, quantity shipped, delivery site, secondary delivery site, if applicable, and any special instructions, shall be enclosed with each shipped order. The line number used in the order shall be duplicated on the packing slip.

Any special packaging or delivery instructions will be specified in the RFQs as applicable.

Offerors must provide a list of any hazardous material to be delivered under this contract and submit a Material Safety Data Sheet for items meeting specific criteria (See FAR 52.223-3 incorporated by referenced and the Hazard Communication Standard Notice).

Large Business concerns must submit a Subcontracting Plan with their offers. For further information on subcontracting plans, please visit: <https://www.esrs.gov>.

It is anticipated that there will be Sweeper and Scrubber Equipment contracts in place as a result of a prior solicitation (SPE8EC-21-R-0002) and/or subsequent solicitation(s) when this solicitation closes. This solicitation permits overlap with any such solicitation(s) when competing Request for Quotations (RFQs). This solicitation will allow for RFQs to accommodate quotations and the resulting contract delivery orders to be made under active contracts from prior, current, or subsequent solicitation(s) in order to enhance competition to the fullest extent. It should be noted that not more than one contract for a specific manufacturer's product(s) or product line is permissible at any given point in time.

Contractors shall submit contract retention plans as referenced in FAR 52.212-5(d) and FAR 4.703 no later than forty-five days after the effective contract award date. The contract retention plans must be in accordance with FAR 4.703.

CAUTION – Contractor Code of Business Ethics (Nov 2021)

FAR Part 3.1002(a) requires all government contractors to conduct themselves with the highest degree of integrity and honesty. Contractors must have a written code of business ethics and conduct within thirty days of award. To promote compliance with such code of business ethics and conduct, contractors must have an employee business ethics and compliance training program that facilitates timely discovery and disclosure of improper conduct in connection with government contracts and ensures corrective measures are promptly instituted and carried out. A contractor may be suspended and/or debarred for knowing failure by a principal to timely disclose to the government, in connection with the award, performance, or closeout of a government contract performed by the contractor or a subcontract awarded there under, credible evidence of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in title 18 of the United States Code or a violation of the False Claims Act. (31 U.S.C. 3729-3733)

If this solicitation or contract includes FAR clause 52.203-13 - CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT; the contractor shall comply with the terms of the clause and have a written code of business ethics and conduct; exercise due diligence to prevent and detect criminal conduct; promote ethical conduct and a commitment to compliance with the law within their organization; and timely report any violations of federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in title 18 of the United States Code or any violations of the False Claims Act. (31 U.S.C. 3729-3733). When FAR 52.203-13 is included in the contract, contractors must provide a copy of its written code of business ethics and conduct to the contracting officer upon request by the contracting officer.

Addendum to FAR 52.212-4 continued, the following additional clauses are incorporated in full text.

FAR 52.211-16 Variation in Quantity (APR 1984)

(a) A variation in quantity of any item called for by this contract will not be accepted unless the variation has been caused by conditions of loading, shipping, or packing, or allowances in manufacturing processes, and then only to the extent, if any, specified in Paragraph (b) of this clause.

(b) The permissible variation shall be limited to:

0 % increase 0% decrease

This increase or decrease shall apply to total quantity of each line item per delivery order.

FAR 52.216-2 -- Economic Price Adjustment -- Standard Supplies (JAN NOV 2021)

(a)The Contractor warrants that the unit price stated in the Schedule for ALL awarded items not in excess of the Contractor's applicable established price in effect on the contract date for like quantities of the same item. The term "unit price" excludes any part of the price directly resulting from requirements for preservation, packaging, or packing beyond standard commercial practice. The term "established price" means a price that-

(1)Is an established catalog or market price for a commercial product sold in substantial quantities to the general public; and

(2)Is the net price after applying any standard trade discounts offered by the Contractor.

(b)The Contractor shall promptly notify the Contracting Officer of the amount and effective date of each decrease in any applicable established price. Each corresponding contract unit price shall be decreased by the same percentage that the established price is decreased. The decrease shall apply to those items delivered on and after the effective date of the decrease in the Contractor's established price, and this contract shall be modified accordingly.

(c)If the Contractor's applicable established price is increased after the contract date, the corresponding contract unit price shall be increased, upon the Contractor's written request to the Contracting Officer, by the same percentage that the established price is increased, and the contract shall be modified accordingly, subject to the following limitations:

(1)The aggregate of the increases in any contract unit price under this clause shall not exceed 20 percent of the original contract unit price.

(2)The increased contract unit price shall be effective-

(i)On the effective date of the increase in the applicable established price if the Contracting Officer receives the Contractor's written request within 10 days thereafter; or

(ii)If the written request is received later, on the date the Contracting Officer receives the request.

(3) The increased contract unit price shall not apply to quantities scheduled under the contract for delivery before the effective date of the increased contract unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause.

(4) No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price.

(5) Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.

(d) During the time allowed for the cancellation provided for in paragraph (c)(5) of this clause, and thereafter if there is no cancellation, the Contractor shall continue deliveries according to the contract delivery schedule, and the Government shall pay for such deliveries at the contract unit price, increased to the extent provided by paragraph (c) of this clause.

FAR 52.216-19 -- Order Limitations (OCT 1995)

(a) *Minimum order.* When the Government requires supplies or services covered by this contract in an amount of less than one each, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) *Maximum order.* The Contractor is not obligated to honor --

(1) Any order for a single item in excess of \$100M;

(2) Any order for a combination of items in excess of \$100M; or

(3) A series of orders from the same ordering office within five (5) days that together call for quantities exceeding the limitation in subparagraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (*i.e.*, includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within thirty (30) days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

FAR 52.216-18 - ORDERING (AUG 2020)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from date of contract award through contract expiration date.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) A delivery order or task order is considered "issued" when—

(1) If sent by mail (includes transmittal by U.S. mail or private delivery service), the Government deposits the order in the mail;

(2) If sent by fax, the Government transmits the order to the Contractor's fax number; or

(3) If sent electronically, the Government either—

(i) Posts a copy of the delivery order or task order to a Government document access system, and notice is sent to the Contractor; or

(ii) Distributes the delivery order or task order via email to the Contractor's email address.

(d) Orders may be issued by methods other than those enumerated in this clause only if authorized in the contract.

FAR 52.216-21 – Requirements (OCT 1995)

(a) This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c) Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d) The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e) If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 365 days.

C03 Contractor Retention of Supply Chain Traceability Documentation (JUN 2023)

(1) By submitting a quotation or offer, the contractor agrees that, when the contractor is not the manufacturer of the item, it is confirming that it currently has or will obtain before delivery and shall retain documented evidence (supply chain traceability documentation) that the item is from the approved manufacturer and conforms to the technical requirements. The retention period is five years after final payment under this contract.

(2) At a minimum, the supply chain traceability documentation for the item shall include: basic item description, part number and/or national stock number, manufacturing source, manufacturing source's commercial and government entity code (e.g. CAGE code), and clear identification of the name and location of all supply chain intermediaries between the manufacturer to the contractor to item(s) acceptance by the Government. The documentation should also include, where available, the manufacturer's batch identification for the item(s), such as date codes, lot codes, or serial numbers.

(3) Examples of acceptable supply chain traceability documentation can be found at:

<http://www.dla.mil/LandandMaritime/Business/Selling/Counterfeit-Detection-Avoidance-Program/>

(4) The contractor shall immediately make available documentation upon request of the contracting officer. The contracting officer determines the acceptability and sufficiency of documentation. If the contractor fails to retain or provide the documentation or the contracting officer finds the documentation to be unacceptable, corrective action may be taken including, but not limited to, cancellation of undelivered orders or rejection of delivered supplies.

STATEMENT OF WORK

DLA Troop Support intends to award contracts for the supply of Sweeper and Scrubber Equipment to fulfill submitted requirements of the military services and federal agencies that are authorized customers of DLA. Contracts will be awarded to individual contractors for their offered line(s) of Sweeper and Scrubber Equipment.

Product lines can include but not be limited to:

- Utility Sweepers
- Warehouse Sweepers

- Street Sweepers
- Sewer Cleaners
- Runway Sweepers
- Airfield Sweepers
- Vacuum Loaders
- Catch Basin Cleaners
- Scrubbers

Product lines shall also include “incidental service and support” for each machine offered. This incidental service and support includes, but is not limited to operator training, operator certification training, service plans, spare parts support, video packages, extended warranty agreements, and any additional value-added incidental services that the manufacturer or its certified representative can offer in support of fleet maintenance and lifetime equipment support. This incidental service and support may only be ordered at the time the new equipment is ordered. This support cannot be ordered as a stand-alone item.

DLA Troop Support will award only one contract per manufacturer’s product line. It is intended to issue multiple Requirements Contracts to responsible vendors that conform to the solicitation requirements contained within this document and whose prices are determined fair and reasonable. After the initial contracts are awarded, customer Sweeper and Scrubber Equipment requirements described by specifications, commercial item descriptions, or other commercial descriptions will be competed among all contract holders, and each contract holder will be afforded a fair opportunity to submit a quotation. In accordance with FAR 16.505(b), all contract holders will be given a fair opportunity to be considered unless an exception under FAR 16.505 (b)(2) applies. When only one contractor can meet the requirement, or only specific equipment satisfies the need, the exception will be documented, and only applicable contract holders will be solicited.

The unit prices for the basic contract items in response to this solicitation will be awarded on an FOB Origin basis. Contract awardees will be required to quote FOB Destination at the time of each individual RFQ, **including a separate line item for all associated delivery costs.** Any differences between the catalog price and the contract price in response to an individual RFQ exist solely because of identifiable, Government-specific requirement which shall be clearly identified and broken out in the proposal for the Contracting Officer's review.

Time of Delivery – Ordering Office

Material ordered under the terms of this Contract shall be delivered within 30 to 730 days after the date of the order. Notwithstanding any other provisions or clauses of this Contract, no deliveries shall be made prior to issuance of the delivery order on Department of Defense (DD) Form 1155.

Addition/Deletion of Items in Contract

The Government reserves the right, with agreement from the contractor, to add to this contract any new or replacement items at the offeror’s current price (i.e. latest catalog price minus negotiated discount). If any item included in this contract becomes obsolete, discontinued, or cancelled as a commercial catalog item by the contractor, the contractor will provide to the Government 30 days advance written notice to identify a suitable replacement. New/replacement items will be added to the contract only after prices are determined to be fair and reasonable by the contracting officer. All additions/deletions will be accomplished by modification to the contract. This clause is intended to keep the offeror’s catalog current at all times, as it is the Government’s intent to maintain access to the contractors’ entire product line at any given time.

Additional Items- Furnish one commercial catalog page/pages, including the price list and applicable discount(s), for the new or replacement item(s). Pages should reflect the effective date. Also, submit commercial invoices in accordance with the original proposal procedures (“sampling”). The number of required invoices will depend on the number of models being added. In addition, submit the production location and delivery lead time as applicable. Product/spec sheets must be submitted for each addition. If price, place of performance and delivery are unchanged from the original, a statement to that effect is all that is required. The additional items will be added by inserting the offeror’s new catalog pages, option pages, spec sheets and discount sheets to the existing commercial catalog.

Deletions- The reason for deletion must be stated in writing and supported by company documentation, should the Contracting Officer deem such support necessary. The contractor agrees to honor any delivery orders issued for the item to be deleted during the thirty-day period following the contractor's notice to the Government of its anticipated deletion. If the contractor adds a catalog item as a suitable replacement item, such notice is to be provided to the Contracting Officer along with the product/specification sheets, replacement catalog pages, option pages, and discount sheets for insertion into the catalog. The Government will delete any item from this contract within 30 days of receiving the required notice. The Government reserves the right to reject any subsequent offer of a substantially equal or same item at a higher price during the same contract period, if in the opinion of the Contracting Officer, the price for the item replacing the deleted item is considered unreasonable as compared to that of the deleted item.

Note: The government reserves the right to request and receive additional commercial invoices at any time (prior to and after contract award), including prior to the addition of any new item(s).

RP001: DLA Packaging Requirements for Procurement

1. Additional Packaging and Marking Requirements:

a. Prohibited cushioning and wrapping materials: Use of asbestos, excelsior, newspaper, shred paper (all types, including wax paper and computer paper), and similar hygroscopic or non-neutral materials and all types of loose-fill materials, including polystyrene, is prohibited for application such as cushioning, fill, stuffing, and dunnage. In addition, the use of yellow wrapping or packaging material is prohibited, except where used for the containment of radioactive material.

b. MIL-STD-129R establishes requirements for contractors that ship packaged materiel to the Government to provide both linear bar codes and two-dimensional (2D) symbols on shipping labels. Shipping labels with 2D symbols are referred to as Military Shipping Labels (MSL) and are required on all CONUS and OCONUS shipments with the following exceptions:

1) Subsistence items procured through full-line food distributors (prime contractors), “market ready” type items shipped within the Continental United States (CONUS) to customers within CONUS.

2) Any item for which ownership remains with the contractor until the item is placed in designated locations at the customer location prior to issuance to the customer. Government control begins upon placement of the item by the contractor into the designated location or issuance from the designated location by contractor personnel (i.e., the contractor is required to stock bins at the customer location and/or issue parts from a contractor-controlled parts room).

3) Bulk petroleum, oil and lubricant products delivered by pipeline; or tank car, tanker and tank trailer for which the container has a capacity greater than 450 L (119 gallons) as a receptacle for a liquid; a maximum net mass greater than 400 kg (882 pounds) and a capacity

greater than 450139 L (119 gallons) as a receptacle for a solid; or a water capacity greater than 454 kg (1000140 pounds) as a receptacle for a gas.

4) Medical items procured through Customer Direct suppliers or prime contractors that do not enter the Defense Transportation System.

5) Delivery orders when the basic contract has not been modified to require MIL-STD129R.

c. MIL-STD-129R provides numerous illustrations of what should be bar-coded and the recommended placement of the bar code. Further information is available on the DLA Packaging Web Site at: <https://www.dla.mil/HQ/LogisticsOperations.Packaging/>

d. PIID and MIL-STD-129R label marking requirements. The FAR has been amended to implement a uniform award identification system. This uniform numbering system is referred to as the Procurement Instrument Identification (PIID). For current DFARS compliant DOD contracts, cite the 13-character PIID (e.g., SPE8EJ16F0001) on the MIL-STD-129R label as the 7 contract marking. For legacy contracts, cite the PIIN (contract number or purchase order number (e.g., SPE8EJ14D0002)) including four-digit delivery order or call number ((e.g., 959U) if applicable) and lot number.

2. Requirements for Treatment of Wood Packaging Material (WPM)

a. Assets packed in or on wood pallets, skids, load boards, pallet collars, wood boxes, reels, dunnage, crates, frames, and cleats must comply with the Heat Treatment (HT) or Heat Treatment/Kiln Dried (HT/KD) (continuous at 56 degrees Centigrade for 30 minutes) standard in DOD Manual 4140.65-M "Compliance for Defense Packaging: Phytosanitary Requirements for Wood Packaging Material (WPM)". WPM must be stamped or branded with the appropriate certification markings as detailed in DODM 4140.65 and be certified by an accredited American Lumber Standards Committee (ALSC)-recognized agency. The WPM certification markings must be easily visible, especially in pallet loads, to inspectors.

3. Palletization shall be in accordance with the following requirements. Among the required pallet's characteristics are wing type and four-way entrance. Complete specification of the acceptable pallets can be found in Part 9 of ANSI MH1.

a. Shipments of identical items packed in four or more unit, intermediate or shipping containers exceeding a total of 20 cubic feet per destination shall be palletized except when the containers are required to be skidded (Para 4 of Requirements), by contract requirements, or consist of a shipping container that exceeds the size or weight limitations for palletized loads (see ANSI MH1 Part 9, Table 9-4). Shipments packaged in accordance with ASTM D3951 and/or MIL-STD-2073-1E shall be palletized in accordance with MIL-STD-147E. Additionally, when the total number of containers going to the same destination is 250 pounds or greater (excluding pallet), or a volume of 20 cubic feet or greater, then palletization IAW MIL-STD-147E is required. The load shall be prepared and secured in a manner that will ensure carrier acceptance and permit safe re-handling at destination. Loads shall be stable and should not exceed the size and overseas limitations of MIL-STD-147E. Glued loads shall not be used. Overhang of Unit Load shall not be permitted.

b. For Level A packing, pallets shall utilize ANSI/MHIA-MH1, Part No. MH1/9-05SW4048 pallet. The total weight of the unitized load shall not exceed 3000 lbs. evenly distributed.

c. For Level B packing, pallets shall utilize ANSI/MHIA-MH1, Part No. MH1/9-02SW4048 pallet for unit loads less than 1500 lbs. evenly distributed. For unit loads greater than 1500 lbs. but less than 3000

lbs. evenly distributed, ANSI/MHIA-MH1, part numbers MH1/9-03SW4048, MH1/9-05SW4048 or MH1/9-10BW4048 pallet shall be utilized.

d. Residual quantities of less than the quantity required for one course of the load need not be palletized.

e. Palletization is not required for shipping containers that are constructed on skids.

Unit/Intermediate/Shipping containers, except drums, exceeding 70 pounds gross weight or 40 inches in length, may be constructed with skids. Skids shall be a minimum of 3 X 4-inch (nominal) lumber and shall be securely attached to permit multiple handlings at destination.

f. Specialized requirements 8

1) Clothing and Textiles: Pallet loads containing more than one NSN shall be clearly marked to all the NSNs contained in the load. No carton shall have more than one NSN. At the end of a size run, no more than one carton per NSN may be short or over the specified quantity. Said carton shall be clearly marked "short" or "over."

2) Medical Exceptions:

a) A single medical item having a height of 48 inches or greater: If a properly palletized load (equipment and pallet) exceeds 54 inches in height limitations need not be adhered to.

b) A single medical item having dimensions exceeding the maximum pallet loads length and/or width dimensions: If a single item exceeds the maximum pallet load dimensions, length and width need not be adhered to. Contact the contracting officer for additional guidance.

c) Loading: Five-gallon tight head pails shall be loaded on pallets IAW Load Type III or IIIA of MIL-STD-147E, except that a triple layer or course may be used for a total not to exceed 42 pails.

d) Unitization: Supplies that do not lend themselves to the use of MIL-STD-147E palletization due to size, weight, configuration, etc. shall be unitized by securely blocking, bracing, or anchoring the load on a skid base or commercial type pallet in a manner that assures safe delivery.

3) Hazardous Materials:

a) Unless otherwise specified in the contract or purchase order hazardous material containers, except cylinders and 55-gallon drums, shall be palletized IAW load type IV of MIL-STD-147E UTILIZING ANSI/MHIA-MH1 part number MH1/9-07SW4848 pallets. "Hazardous Materials" for the purpose of this document, means any material considered hazardous under FED-STD-313F, the Department of Transportation Hazardous Material Regulations, 49 CFR part 171-79, IATA, IACO, IMDG, unless otherwise specified.

b) Use of nonstandard commercial pallets is forbidden unless cited in the contract/purchase order. Shrink wrap is not authorized for use with Hazardous Materials.

c) 55-gallon drums for domestic delivery shall be palletized 3 per ANSI/MHIA-MH1, Part No. MH1/9-02SW4048 pallet (1500 lbs. max), ANSI/MHIA-MH1, Part No. MH1/9-03SW4048 pallet or part number MH1/9-05SW4048 pallet (3000 lbs. max) IAW with load type 3a bonding method G (stretch wrap) or 4 per ANSI/MHIA-MH1, Part No. MH1/9-07SW4848 pallet IAW load type XIIC of MIL-STD-147E (placing an inverted wood cap under and over the load secured by metal strapping).

d) 55-gallon drums for export delivery shall be palletized with three per MHIA-MH1, Part No. MH1/9-07SW4848 pallet IAW load type XIIC of MIL-STD-147E (placing an inverted wood cap under and over the load secured by metal strapping).

e) Large cylinders for domestic delivery shall be palletized vertically IAW load type IX of MILSTD 147E or horizontally using metal strapping IAW MIL-STD-147E bonding D (figure 36) and notched wood spacers (storage aid #25, figure 50) to assure the stability of the load.

f) Large cylinders for export delivery shall be Palletized (vertically) IAW load type IX of MIL- 9 STD-147E.

g) Narrow or short cans, small gas cylinders, hand fire extinguishers and unstable units such as bags shall be palletized IAW load type XVII.

h) The use of stretch-wrap, shrink film or nonmetallic strapping for bonding is not authorized for "Export Shipments".

4) Electro-Static Discharge Sensitive (ESDS) - If vendors/contractors providing ESDS items encounter a situation in which the packaging requirements in the contract reflect ASTM-D3951 and do not reflect MIL-STD 2073-1E Military ESD packaging (i.e., Method of Preservation GX, etc.) requirement, then the vendor/contractor must contact the contract issuing agency (i.e., DLA Land and Maritime, DLA Aviation, DLA Troop Support) to seek clarification for the proper packaging requirements.

5) DLA Troop Support-Subsistence FSG 89 National Stock Numbers establishes special requirements for Packaging (Preservation Method and Preservative Material). For all Packaging, Packing, Labeling, Unitization, and Marking (PPLUM)-Use DLA Troop Support Form 3556 for PPLUM

<https://www.dla.mil/Portals/104/Documents/TroopSupport/Subsistence/Rations/forms/3556.pdf>

Packaged hardware must be placed within each individual unit container to meet the contractual Quantity per Unit Pack (QUP) requirements. No additional sorting, packaging, packing, and/or marking by user or receiving activities should be necessary. Bulk shipments are not authorized.

52.212-1 Instructions to Offerors—Commercial Products and Commercial Services (SEP 2023)

(a)North American Industry Classification System (NAICS) code and small business size standard. The NAICS code(s) and small business size standard(s) for this acquisition appear elsewhere in the solicitation. However, the

small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

- (1) Is set aside for small business and has a value above the simplified acquisition threshold;
- (2) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or
- (3) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;

- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) "Remit to" address, if different than mailing address;

Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no

expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with FAR subpart 4.10), or alternative commercial products or commercial services for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers. (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2) (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best

terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

(1) (i) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101–29, and copies of Federal specifications, standards, and product descriptions can be downloaded from the ASSIST website at <https://assist.dla.mil>.

(i) Using the ASSIST feedback module (<https://assist.dla.mil/feedback>); or

(ii) Contacting the Defense Standardization Program Office by telephone at 571–767–6688 or email at assisthelp@dlamail.

(4) Nongovernment (voluntary) standards must be obtained from the organization responsible for their preparation, publication, or maintenance.

(j) Unique entity identifier. (Applies to all offers that exceed the micro-purchase threshold, and offers at or below the micro-purchase threshold if the solicitation requires the Contractor to be registered in the System for Award Management (SAM).) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "Unique Entity Identifier" followed by the unique entity identifier that identifies the Offeror's name and address. The Offeror also shall enter its Electronic Funds Transfer (EFT) indicator, if applicable. The EFT indicator is a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the Offeror to establish additional SAM records for identifying alternative EFT accounts (see FAR subpart 32.11) for the same entity. If the Offeror does not have a unique entity identifier, it should contact the entity designated at www.sam.gov for unique entity identifier establishment directly to obtain one. The Offeror should indicate that it is an offeror for a Government contract when contacting the entity designated at www.sam.gov for establishing the unique entity identifier.

(k) [Reserved]

(l) Debriefing. If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

- (1) The agency's evaluation of the significant weak or deficient factors in the debriefed offeror's offer.
- (2) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.

Example: If you are offering at least 6 items from each of TWO different Manufacturer's product lines then you are required to submit **at least**

30 invoices

(15 per each Manufacturer's product line)

All submitted invoices must be for commercial items that have been sold under the current catalog price. Offerors unable to submit commercial invoices that correspond to the current catalog price may submit other invoices for the same item but the offeror must also submit the concurrent catalog price list in effect at the time of the invoice(s). All submitted invoices must identify a manufacturer's part number that is referenced in the commercial catalog and proposed under the solicitation. The government must be able to perform an analysis of the invoices and the corresponding price list to determine the commercially afforded discount, if any. Invoices that deviate from these criteria must be accompanied by supporting documentation that clarifies the invoice price compared to the catalog price to determine the commercially afforded discount, if any. The documentation must adequately support the invoice price for the base unit and all base unit options that may or may not be itemized on the invoice. Invoices must not be altered or redacted in any manner. The government reserves the right to request additional invoices at any time during the evaluation process.

5.) Discount Structure: Offerors must identify the standard discount structure for customers and/or dealers (*in a separate memo or cover letter*). If different discount arrangements exist for different classes of customers or dealers, a detailed explanation of the discount for each such customer or dealer is required.

6.) Original Equipment Manufacturers (OEMs) Letter(s) of Commitment: Dealers and suppliers, other than the manufacturer, that wish to be considered for an award must submit an original letter of commitment from the manufacturer specifically addressing the products or product line, the offeror, and the solicitation. The Original Equipment Manufacturers' (OEMs) letter of commitment must confirm that the offeror is the OEM's sole representative for purposes of the contract and DLA Troop Support's Heavy Equipment Procurement Program (HEPP). The OEM's letter of commitment must include assurances to provide the offeror a guaranteed, uninterrupted source of supply sufficient to satisfy the Government's requirements for the contract period. Manufacturers' letters of commitment for the same products or product line from more than one offeror will render all offerors of that manufacturer's products or product line unacceptable.

7.) Warranty Requirements

Offerors are invited to submit with their proposal an express warranty, offering the Government at least the same warranty terms, including offers of extended warranties, offered to the general public in customary commercial practice. Unless it meets all minimum requirements set forth below, the express warranty shall be in addition to and shall not disclaim the implied warranties of merchantability and fitness for a particular purpose contained in FAR

52.212-4(o). Should an express warranty fail to meet the minimum requirements set forth below, the contractor shall be bound by FAR 52.212-4(o), and any purported disclaimer of the implied warranties of merchantability and fitness for a particular purpose shall be deemed void and ineffective.

Any express warranty must meet the following minimum requirements:

- 1) The equipment purchased under the contract will be sold by DLA Troop Support to our customers in the Military Services and Federal Agencies, and possibly State and/or Local governmental entities. Any proposed express warranty must apply to these subsequent users or purchasers.
- 2) The warranty must clearly and unambiguously identify the items and/or components covered and distinguish any items and/or components excluded from coverage under its terms.
- 3) Any proposed express warranty must cover the equipment including if it is used or operated outside the United States. The warranty may not require equipment outside the United States to be shipped back to a domestic facility for repair.
- 4) FAR 52.212-4(p) in the RFP states that "Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items." Language in a proposed express warranty attempting to further limit Contractor's liability to the Government, or attempting to limit Contractor's liability to third parties, may result in rejection of the offeror's proposal, or in the inclusion of a statement in the resultant contract that the express warranty applies only to the extent not prohibited by law or regulation.
- 5) The warranty period shall be not less than 1 year and must be in effect from the date of delivery under the Troop Support delivery order. Earlier dates, such as the date of manufacture or date of delivery to the manufacturer's dealer, are not acceptable.
- 6) The warranty shall provide that Federal law applies, rather than the law of a State or other jurisdiction.
- 7) The express warranty shall not result in liability for any form of costs or expenses, including, but not limited to labor costs, travel costs, transportation and/or shipping costs, investigative costs, or the like, on the part of DLA's customer.
- 8) The express warranty may not purport to limit the contractor's liability, regardless of legal theory, beyond any limitations already set forth in the solicitation.
- 9) The express warranty shall not grant the contractor any rights in data or information as against the Government.
- 10) The express warranty may not make the customer liable for taxes. FAR 52.212-4(k) provides that the contract price includes all applicable Federal, State, and local taxes and duties.
- 11) If the warranty requires the customer to return a registration card or form, the customer must be given at least ninety (90) days from the date of delivery to do so.

The offeror shall indicate below whether they will comply with the following requirements:

1. The criteria contained in FAR 52.212-4(o)

☐ **The offeror confirms** they will comply with all criteria contained in FAR 52.212-4(o)

☐ **The offeror does not confirm** compliance with the above requirement.

2. The additional minimum terms listed above under 7.) Warranty Requirements

☐ **The offeror confirms** they will comply with minimum terms listed above

☐ **The offeror does not confirm** compliance with the above requirement.

If the offeror does **not** confirm compliance, please provide an explanation below regarding any exceptions or alternate warranty terms proposed:

Explanation of Exceptions (if applicable):

Taking exception to the minimum express warranty terms set forth above will not itself render a proposal ineligible for award. However, should an offeror fail to either confirm compliance the criteria of FAR 52.212-4(o) or submit an express warranty that is fully compliant with the minimum requirements above, it will be deemed to have taken exception to the terms of the solicitation, and its proposal will be deemed unacceptable and removed from further consideration for award.

(ii) The offeror shall list as other end products those end products that are not U.S.-made or designated country end products.

Other End Products:

Line Item No.	Country of Origin
_____	_____
_____	_____
_____	_____

[List as necessary]

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126).* [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(1) *Listed end products.*

For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly-

(1) ☐ In the United States (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or

(2) ☐ Outside the United States.

(k) *Certificates regarding exemptions from the application of the Service Contract Labor Standards* (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.) [The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

☐ (1) Maintenance, calibration, or repair of certain equipment as described in FAR 22.1003-4(c)(1). The offeror ☐ does ☐ does not certify that-

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(l) *Taxpayer Identification Number (TIN)* (26 U.S.C. 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to the SAM to be eligible for award.)

DFARS 252.247-7023 TRANSPORTATION OF SUPPLIES BY SEA—BASIC (Oct 2024)

(a) Definitions. As used in this clause—

"Foreign-flag vessel" means any vessel that is not a U.S.-flag vessel.

"Ocean transportation" means any water-borne transportation aboard a ship, vessel, boat, barge, ferry, or the like outside the internal waters of the United States as defined in 33 CFR 2.24.

"Subcontractor" means a supplier, materialman, distributor, or vendor at any level below the prime contractor whose contractual obligation to perform results from, or is conditioned upon, award of the prime contract and who is performing any part of the work or other requirement of the prime contract.

"Supplies" means supplies that are clearly identifiable for eventual use by or owned by DoD at the time of transportation by sea, or are otherwise transported by DoD, regardless of ownership or use by DoD. An item is clearly identifiable for eventual use by DoD if, for example, the contract documentation contains a reference to a DoD contract number or a military destination.

"U.S.-flag vessel" means either a vessel belonging to the United States or a vessel of the United States as that term is defined in 46 U.S.C. 116.

(b) If the transportation of supplies by sea is anticipated under this contract, the Contractor shall—

(1) Notify the Contracting Officer and Maritime Administration (MARAD) at Cargo.Marad@dot.gov

- (i) Within 3 business days after contract award; or

(ii) Immediately prior to the shipment departure date necessary to meet delivery schedules, whichever is earlier; and

(2) Include in the notification—

- (i) A statement of the Contractor's intent to transport supplies by sea;
- (ii) The contract number; and
- (iii) The task-order or delivery-order number, when applicable.

(c) (1) The Contractor shall use U.S.-flag vessels when transporting any supplies by sea under this contract.

(2) A subcontractor transporting supplies by sea under this contract shall use U.S.-flag vessels if—

- (i) This contract is a construction contract; or
- (ii) The supplies being transported are—

- (A) Other than commercial products; or
- (B) Commercial products that—

- (1) The Contractor is reselling or distributing to the Government without adding value (generally, the Contractor does not add value to items that it subcontracts for f.o.b. destination shipment);
 - (2) Are shipped in direct support of U.S. military contingency operations, exercises, or forces deployed in humanitarian or peacekeeping operations; or
 - (3) Are commissary or exchange cargoes transported outside of the Defense Transportation System
- in accordance with 10 U.S.C. 2643.

(d) The Contractor and its subcontractors may request, via the Contracting Officer, a waiver of the requirement to use a U.S.-flag vessel, or identification of any available U.S.-flag vessels, if the Contractor or a subcontractor sufficiently explains that—

- (1) U.S.-flag vessels are not available at a fair and reasonable rate for commercial vessels of the United States; or
- (2) U.S.-flag vessels are otherwise not available.

(e) The Contractor must submit any request for use of foreign-flag vessels in writing to the Contracting Officer at least 45 days prior to the sailing date necessary to meet its delivery schedules. The Contracting Officer will process requests submitted after such date(s) as expeditiously as possible, however, if a DoD waiver is not approved prior to the shipper's sailing date, this will not of itself constitute a compensable delay under this or any other clause of this contract. Requests shall contain at a minimum—

- (1) Type, weight, and cube of cargo;
- (2) Required shipping date(s) and required delivery date(s);
- (3) Special handling and discharge requirements;
- (4) Loading and discharge points;
- (5) Name of shipper and consignee;
- (6) Prime contract number; and
- (7) A documented description of current, diligent efforts made to secure U.S.-flag vessels, including

points of contact (with names and telephone numbers) with at least two U.S.-flag carriers contacted.

Copies of quotes will suffice for this purpose. Copies of telephone notes, emails, and other relevant communications will otherwise be considered for this purpose.

(f) The Contractor shall, within 30 days after each shipment covered by this clause, provide the Contracting Officer and MARAD at Cargo.Marad@dot.gov, Attention: Military Team, one copy of the rated on board vessel operating carrier's ocean bill of lading, which shall contain the following information:

- (1) Prime contract number;
- (2) Name of vessel;
- (3) Vessel flag of registry;
- (4) Date of loading;
- (5) Port of loading;
- (6) Port of final discharge;
- (7) Description of commodity;
- (8) Gross weight in pounds and cubic feet if available;
- (9) Total ocean freight in U.S. dollars; and
- (10) Name of the carrier.

(g) If this contract exceeds the simplified acquisition threshold, the Contractor shall provide with its final invoice under this contract a representation that to the best of its knowledge and belief—

- (1) No ocean transportation was used in the performance of this contract;
- (2) Ocean transportation was used and only U.S.-flag vessels were used for all ocean shipments under the contract;
- (3) Ocean transportation was used, and the Contractor had received a prior-approved waiver for U.S.-flag vessels for all foreign-flag ocean transportation; or
- (4) Ocean transportation was used and some or all of the shipments were made on foreign-flag vessels without the written consent of DoD. The Contractor shall describe these shipments in the following format:

	Item Description	Contract Line Items	Quantity
Total			

(h) If this contract exceeds the simplified acquisition threshold and the final invoice does not include the required representation, the Government will reject and return it to the Contractor as an improper invoice for the purposes of the Prompt Payment clause of this contract. In the event there has been unauthorized use of foreign-flag vessels in the performance of this contract, the Contracting Officer is entitled to equitably adjust the contract, based on the unauthorized use.

(i) If the Contractor did not anticipate transporting any supplies by sea at the time of contract award and, therefore, did not provide the notification required by paragraph (b) of this clause, but prior to shipment of supplies, the Contractor learns that supplies will be transported by sea, the Contractor shall—

- (1) Provide the notification required by paragraph (b) of this clause to the Contracting Officer and MARAD as soon as it is known that supplies will be transported by sea; and
- (2) Comply with all the terms and conditions of this clause.

(j) Subcontracts. In the award of subcontracts, for the types of supplies described in paragraph (c)(2) of this clause, including subcontracts for commercial products, the Contractor shall flow down the requirements of this clause as follows:

- (1) The Contractor shall insert the substance of this clause, including this paragraph (j), in subcontracts that exceed the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.
- (2) The Contractor shall insert the substance of paragraphs (a) through (f) of this clause, and this paragraph (j), in subcontracts that are at or below the simplified acquisition threshold in part 2 of the Federal Acquisition Regulation.

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and with legal counsel (see DLA Directive 5145.1).
