with the award, performance, or closeout of a Government contract performed by the contractor or a subcontract awarded there under, credible evidence of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in title 18 of the United States Code or a violation of the False Claims Act. (31 U.S.C. 3729-3733).

If this solicitation or contract includes FAR clause 52.203-13 - CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT; the contractor shall comply with the terms of the clause and have a written code of business ethics and conduct; exercise due diligence to prevent and detect criminal conduct; promote ethical conduct and a commitment to compliance with the law within their organization; and timely report any violations of federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in title 18 of the United States Code or any violations of the False Claims Act. (31 U.S.C. 3729-3733). RAPID GATE, DEFENSE BIOMETRIC IDENTIFICATION SYSTEM (DBIDS) REQUIREMENT and/or OTHER SECURITY PROGRAMS

Many bases may require enrollment in a particular system for base security such as RapidGate, the Defense Biometric Identification System (DBIDS), or other similar system(s). Such systems manage access to Department of War (DoW) installations, and will not allow entry without clearance. During the contract start-up/ implementation period, the Contractor must contact all customer locations to determine whether enrollment in RapidGate, DBIDS, or another security program is required for access to each location. If RapidGate, DBIDS, or other security enrollment is required, the Contractor must take all necessary steps to obtain this in time for the start of performance under this contract. Failure to have clearance may result in a vendor being turned away from the base and being unable to complete delivery. The Contractor is responsible for any costs associated with RapidGate, DBIDS, and/or other security program enrollment and must ensure that a properly enrolled driver is available for all deliveries. We currently estimate that RapidGate or DBIDS enrollment will cost about \$250 per company and \$200 per enrolled employee for 1 year of access to multiple locations, but the cost of RapidGate, DBIDS or other security enrollment may vary, so the Contractor should contact the specific security system contractor to determine its own costs. If more than one driver is required, enrollment must be obtained for each driver. Note that enrollment can take several weeks, so an awardee that is not already enrolled must begin enrollment at the time of award notification at the latest. If difficulty or delay in enrollment is encountered during the start-up/ implementation period, the Contractor MUST contact the specific security system contractor and/or the Security Officer at the applicable customer locations to resolve any issues with processing enrollment so that the Contractor will be able to deliver as required.

For additional information on current base security systems including RapidGate and DBIDS, including enrollment instructions, please visit their websites at <https://dbids-global-enroll.dmdc.mil/preenrollui/#/landing-page>

STATEMENT OF WORK

I. INTRODUCTION

A. Defense Logistics Agency ("DLA") - Troop Support ("Agency") intends to enter into a Simplified Indefinite-Delivery Contract (SIDC) with a commercial firm(s) to supply Canned and Bottled products to Department of War ("DoW", or "Troop") customers in the State of Florida. Specific requirements per item are included in the Schedule of Items (Attachment 1). Failure to propose the specified requirement per item as identified in Attachment 1 may render an offeror's proposal technically unacceptable.

B. The aforementioned zone is comprised of (1) Group in the area described above. Group 1 consists of DoW Florida Troop customers located at and/or in Tyndall AFB. The Agency intends to award one contract. The offeror must support all the customers for which they make an offer. See Attachment 2 - Delivery Schedule for a full list of customers. Offerors are required to propose on all items in the Schedule of Items on which it offers. Failure to do so may result in its proposal being deemed technically unacceptable and therefore excluded from further consideration for award. The Contracting Officer is not obligated to initiate negotiations. Each offeror shall submit its most competitive proposal for Group 1. The proposal submitted shall be responsive to all the Solicitation's requirements and free from any deficiencies.

C. This solicitation is being issued as Other than Full and Open Competition. NAICS is 312111 and size standard is 1,400.

D. This Solicitation utilizes the Lowest Price Technically Acceptable ("LPTA") Source Selection Process. This solicitation utilizes FAR Subpart 12.201-1 Simplified Procedures. The length of the contract is 60 months (5 years).

E. A successful offeror(s) will be required to manufacture, bottle, and deliver a variety of Pepsi Canned and Bottled items to DLA customers on an ongoing basis, while at the same time maintaining acceptable fill rates, levels of customer service, and product quality. Therefore, an offeror must currently possess the physical, logistical, and financial resources to serve as a commercial distributor of a variety of Pepsi Canned and bottled items. It is neither sufficient nor acceptable for an offeror to be a third-party logistics ("3PL") company (i.e. a company that does not intend to serve as the Pepsi Can and Bottle supplier but instead intends to subcontract out the majority of aspects required by the contract, including but not limited to ordering, warehousing, distribution, etc.). By offering, an offeror affirms its status as a current and functioning commercial manufacturer and distributor of Pepsi Canned and Bottled items. In order to determine whether an offeror meets the technical requirement of being a current and functioning commercial Pepsi Can and Bottle manufacturer and distributor, the Contracting Officer will require an offeror to provide a Third-Party warehouse audit (i.e. State and Federal sanitation inspection) or independent third-party certifying company audit inspection report(s) certificate for each place of performance identified in the offeror's proposal. The audit report (s) must demonstrate that a passing score(s) was/were received. Please note that a request for the aforementioned information

Part 12 Clauses (CONTINUED)

by the Contracting Officer will be used to make a determination of whether or not the offeror meets the technical requirement of being a current and functioning commercial manufacturer and distributor of Pepsi Cans and Bottles. This information is not being sought to determine an offeror's likelihood of success in performing the contract as would be the case in a responsibility analysis. Any potential awardee will be required to meet any modified contract requirements for future audit reports/ certifications under the contract(s).

F. Any award resulting from this Solicitation will be a Simplified Indefinite-Delivery Contract (SIDC) with firm-fixed-price that provides for an indefinite quantity, within stated limits, of specific supplies or services to be furnished during a fixed period, with deliveries to be scheduled by placing orders with the contractor (FAR 16.504-1(a)).

II. EFFECTIVE PERIOD OF CONTRACT/TIERS

The contract period of performance will be from July 26, 2026 through July 26, 2031. The contract will not exceed sixty (60) months or \$250,000.00 aggregate value, whichever occurs first.

The 5-year contract period is divided into two 30-month Tier periods. Each Tier affords offerors an opportunity to provide different Unit Prices to the items on the schedule of items.

The duration of the contract is for a term of 60 months, with two separate pricing tiers.

The first pricing tier shall be for a 30-month period (July 26, 2026, through January 27, 2029).

The second pricing tier shall be for the following 30-month performance period (January 28, 2029, through July 26, 2031). The pricing will remain firm-fixed for each pricing tier.

III. ESTIMATED DOLLAR VALUE

A. The following chart includes the 60-month estimated dollar value for Tier 1, and the overall 5-year period, along with the 10% and 250% guaranteed minimum and contract maximum values, respectively. Though both figures are based on estimates, the guaranteed minimum and the contract maximum are both fixed firm dollar amounts, which are calculated as a percentage of the Tier 1 and 5-year estimated dollar values, respectively.

B. **NOTE:** The guaranteed minimum, per group, which is shown in the "Guaranteed Minimum" column below, constitutes the Agency's full legal obligation as to its ordering requirements for that group. The guaranteed minimum covers the entire contract term (inclusive of all tiers) and, once this obligation is met, there is no further ordering obligation on the part of the Agency regardless of what tier period said obligation is met within. If multiple groups are awarded under the contract, the aggregate guaranteed minimum and contract maximum dollar values for those groups apply to the entire contract, and not on a per group basis.

Tyndall	30 Month Estimate (Tier 1)	5 Year Estimate (Total Including All Tiers)	Guaranteed Minimum	Contract Maximum 250%
Group 1: Tyndall AFB Troops	\$50,000.00	\$100,000.00	\$5,000.00	\$250,000.00

The term “estimate” refers to the Agency's good faith estimate of the requirement for the specific periods stated.

IV. CONTRACT START-UP PERIOD

After an award is made, the Contractor (also referred to as the Awardee) will be required to take steps to implement its new contract prior to initial ordering/delivery. This may include but is not limited to catalog/ordering/invoice testing (STORES), sourcing new items, finalizing delivery schedule per customer location, base access, etc. The timeline for the “start-up” period, as described above, is not included in the contract 60-months performance period.

1. After contract award, there may be instances when new customers request support of their Canned and Bottled products requirements. Additional DoW customers that request DLA Troop Support Canned and Bottled products support may be added to the contract without any new acquisition or competition process, if the customer(s) is/are within the geographic distribution region/zone covered by this contract.
2. The decision as to whether a potentially new customer is within the contract region or zone and, thus, will be added to the contract without further competition and at the existing contract prices, shall be the sole decision of the DLA Troop Support Contracting Officer.
3. Pursuant to the above, the Contracting Officer will instruct the contractor to include the customer(s) at the effective contract prices applicable to that distribution zone/region.

V. ELECTRONIC ORDERING CATALOGS

An offeror that receives an award will be required to maintain electronic catalogs (STORES) that list all items available to the

customers covered under this solicitation. Each item in the catalog shall contain the corresponding national or local stock number (as appropriate), Government item description, packaging characteristics, unit of issue, and unit price.

A. Catalog Maintenance

1. New Items

(a) If a customer seeks to order Canned and Bottled Soda products that is not a part of the catalog after the customers' ordering period commences (i.e. post "start-up" period), the Contractor will be afforded a maximum of 20 days to source the item, obtain a stock number from the Agency (in the event that one does not already exist), and have the item added to the ordering catalog. The final step prior to the item being "live" on the catalog is for the Contracting Officer to determine the item's price "fair and reasonable." Once this is complete, the item should remain a constant within the contractor's inventory, subject to availability issues. When requesting all item approvals (including new additions and/or changes to an existing item, such as pack size, etc.) with the Contracting Officer, the Contractor shall use the "Request for New Item" Form (Attachment 3). This form is mandatory and without it, no new items or changes to existing items will be processed by the Contracting Officer.

2. Catalog Pricing

(a) Schedule of Items Pricing: Items priced in the Schedule of Items (see Attachment 1) will be included in the ordering catalog following award. Schedule of Items will be determined fair and reasonable prior to award.

(b) Contractor-Requested Catalog Price Changes: Upon award, all items included in the Solicitation's Schedule of Items that ultimately are included in the ordering catalogs have been deemed "fair and reasonable" from a pricing standpoint by the Contracting Officer.

(c) Contractor-Requested Catalog Additions: Before an item is added to the catalog, the Contractor is required to submit to the Contracting Officer the "Request for New Item" Form as previously addressed. Said request shall include the stock number, Government item description including the quality grade of the item (if applicable), proposed unit price with a corresponding supplier invoice or quote (quotes permitted in very limited circumstances as approved by the Contracting Officer, e.g. Contractor never purchased item before. The Contracting Officer will review the catalog addition request and upon determining the price fair and reasonable will contact the Contractor to indicate acceptance. The item once accepted will be added by the Contracting Officer to the catalog. Should the proposed price fail to be determined "fair and reasonable," the Contracting Officer will conduct negotiations with the Contractor. If, after negotiations, the proposed price still cannot be determined "fair and reasonable," the item will not be added to the catalog.

(d) Pricing Requirements: The Contractor's catalog prices, as awarded, constitute the initial catalog prices. The prices shall remain in effect for all subsequent ordering periods.

Customers' delivery schedules (days and times), routes, and stop-off sequences will be coordinated and verified with the customers on a post-award basis by the Contractor immediately following award and on an annual basis as required. On average, each Troop customer receives one to three deliveries per week. However, these schedules may be revised as necessary on a case-by-case basis at the approval of the Contracting Officer.

C. Products for individual customers/dining facilities must be segregated. Many of the military bases have more than one delivery point. All products shall be segregated by drop-off point and loaded into the delivery vehicle in reverse drop sequence. The intent is to provide expeditious off-loading capability and delivery to the customers.

D. The Contractor shall ensure that the personnel loading and delivering the product provide professional, prompt, and efficient

service to the customer. Failure to adhere to these standards will be reported to the Customer Representative and the Contracting Officer by the affected customer(s) whereby appropriate corrective action will be coordinated with the Contractor.

XIV. INSPECTION AND ACCEPTANCE

A. Unless otherwise directed by the Contracting Officer, the Inspection and Acceptance of products will be performed at destination. The inspection is normally limited to identity, count and condition; however, this may be expanded if deemed necessary by either the military Food Inspector\Public Health Inspector\Contracting Officer or his representative. All deliveries are subject to Public Health\Military Food Inspections. In addition, the delivery vehicles may be inspected for cleanliness and condition. The Food Service Officer (and/or) Authorized Receiving Official (ARO) at each delivery point (are/is) responsible for coordinating or conducting the inspecting and accepting of products as they are delivered. The invoice/delivery ticket shall not be signed prior to inspection of the product. All overages, shortages, and/or returns are to be annotated on the delivery ticket by the receiving official and print and signed by the truck driver. A signature on the delivery ticket/invoice denotes acceptance of the product subject to inherent defects within 24 hours after delivery. If directed by the Contracting Officer and or requested by the customer, the Contractor's delivery vehicles will stop and report to the Public Health\Military Food inspection points as designated for inspection of products before proceeding to any other designated delivery point.

B. The authorized Government receiving official at each delivery point is responsible for inspecting and accepting products as they are delivered. The delivery ticket shall not be signed prior to the inspection of each product. All overages/shortages/returns are to be noted on the delivery ticket by the receiving official and truck driver. The authorized Government receiving official's signature and printed name on the delivery ticket is required for acceptance of the product. All signatures MUST be legible along with a printed name and title block. Failure to adhere to this requirement may result in disputes going against that party as its failure can severely limit the Contracting Officer's judgment.

C. Delivery Ticket and related information. No electronic invoice may be submitted for payment until acceptance is verified.

1. Troops: The Contractor shall provide three copies of the delivery ticket with the shipment. The first copy is provided to the receiving official (i.e. the customer) who will use the delivery ticket as the new receipt document. The second copy will be retained by the Contractor (or its agent) for invoicing and the final copy will be forwarded (either as the driver leaves the base or faxed/emailed with 24 hours of delivery) to the Fleet Logistics Center "FLC" or Fleet Industrial Supply Center "FISC" located at the prospective Base.

XV. AUTHORIZED RETURNS

A. The Contractor shall accept returns under the following conditions:

1. Products shipped in error.
2. Products damaged in shipment.

3. Products with concealed or latent damage.
4. Products that are recalled.
5. Products that do not meet shelf-life requirements.
6. Products that do not meet the minimum quality requirements as defined for the items listed in the schedule.

10. Any other condition not specified above that is deemed by the customer to be valid reasons for return, confirmed by the Contracting Officer within his/her discretion.

XVI. REJECTION/RETURN PROCEDURES

A. In the event an item is returned for any of the reasons cited in Section XV, the delivery ticket/invoice shall be annotated as to the item(s) rejected/returned. These items shall then be deducted from the delivery ticket/invoice. The invoice total must be adjusted to reflect the correct dollar value of the shipment. Replacements will be authorized based on the customer's needs. On an as-needed basis determined by customer need, same day re-delivery of items that were previously rejected shall be made, so that the customer's food service requirements do not go unfulfilled for that day. The re-delivered items will be delivered under a separate invoice utilizing the same call number, contract line item number, and purchase order number for the discrepant line. These re-deliveries will not constitute an emergency order requirement.

B. In the event a product is rejected after initial delivery is made, the Contractor will pick up the rejected product or make other disposition arrangements deemed acceptable by the customer. Credit due to the ordering activity as a result of the rejected product being returned, will be handled through a receipts adjustment process in STORES. If the Contractor has already been paid for the product, a claim will be issued through DLA TROOP SUPPORT's financial system and the Contractor shall promptly pay the claimed amount. In all cases, one (1) copy of the credit memo is to be given to the customer and one (1) copy of the credit memo is to be sent to the DLA TROOP SUPPORT Contracting Officer.

C. It is a requirement of this solicitation that product shall be inspected upon receipt as promptly as practicable. However, failure to promptly inspect or accept supplies shall not relieve the contractor from responsibility, nor impose liability on any of the customers, for nonconforming supplies. See FAR clause 52.212-4, paragraph (o) and addendum to clause 52.212-4, paragraph 1.

XVII. INVOICING

A. Each delivery will be accompanied by the Contractor's delivery ticket/invoice. The customer shall sign all copies of the invoice/delivery ticket. **Any changes must be made on the face of the delivery ticket/invoice; attachments are not acceptable.** See Section XIV, para. C.

B. No paper invoices shall be submitted to DFAS for payment. For all orders placed via STORES, invoicing for payment is to be filed electronically using EDI transaction set 810 (see <https://www.troopsupport.dla.mil>, Select supply chains: Select Subsistence, Select Information: Select Stores & EDI Requests for EDI guidelines).

C. All invoices submitted by the Contractor must be “clean”, i.e. all debits and/or credits must be reflected on the invoice prior to its submission. The Contractor is required to ensure the accuracy of its invoices. The Reconciliation Tool in STORES provides the Contractor the ability to ensure said accuracy.

D. **All internal debit/credit transactions must be completed prior to the submission of the invoice.** Invoice lines that do not contain the correct invoice data and/or contain incorrect quantities delivered or prices charged will be rejected. The Contractor will be responsible for correction and re-submission.

E. The same invoice cannot be submitted with different dollar amounts.

F. Any manually keyed, or emergency, orders must contain the word “Emergency” in the Purchase Order field when the invoice is submitted for payment. In addition, the CALL number and contract line item number (CLIN) will be entered as “9999” on the invoice. Failure to follow this procedure may result in the rejection of the Contractor's invoice.

G. **For catch weight items, standard rounding methods must be observed, i.e. less than .5 is rounded down; greater than or equal to .5 is rounded up. All weights must be rounded to whole pounds using standard rounding methods.**

Any line submitted for other than whole numbers will be rejected and require correction and re-submission by the Contractor. Note: Currently, no catch weight items apply to this Solicitation. This does not preclude the possibility that catch weight items may be added in the future for certain items.

H. Unit prices and extended prices must be formatted not more than two (2) places to the right of the decimal point. Standard rounding methods must be applied. For example, a price of \$2.215 or higher must be rounded up to \$2.22 and a price of \$2.214 or lower must be rounded down to \$2.21.

I. Although invoices must be submitted electronically via an 810 Electronic Invoice; the following address must appear in the “Bill To” or “Payment Will Be Made By” block of the Contractor's invoice.

The following tools have been developed to provide an additional method for the Contractor to ensure the accuracy of its own internal accounting process. 1. For STORES: Vendor Reconciliation Tool (Attachment 5)- In an effort to improve the payment process, Contractors are required to view what the customer has or has not receipted via the DLA Troop Support STORES website: https://www.stores.dla.mil/stores_web/Admin_Logon.aspx. The Contractor will have access to "un-reconciled" information, i.e., the invoice does not match the receipt because of the quantity and/or price discrepancy or because the customer has not posted a receipt. Both invoice information and receipt information will be available for review on the website by the Contractor. While the Contractor will not have the capability to update customer receipt information, update capability will be available for un-reconciled invoice information for 120 days. It is the Contractor's responsibility to ensure accurate invoices. XVIII. FILL RATE A. Order fill rates may need to be calculated by the Contractor on an on-time, per order basis and tracked for monthly submission to the Contracting Officer/Account Manager. To ensure accuracy in the Contractor's reported fill rates, the Government will utilize its own internal data for comparison purposes. The fill rate shall be calculated as follows and <u>shall not include mis-picks, damaged packages or rejected items</u> (No other method of calculating fill rate will be accepted): <u>Packages accepted</u> * 100 = fill rate % <u>Packages ordered</u> CONTINUED ON NEXT PAGE

Troop requirements can accelerate and surge during wartime, civil emergencies, natural disasters, adverse weather or other conditions. Therefore, last-minute ordering may take place as necessary to fulfill customers' requirements.

For Troop customers, the contractor will provide up to two emergency orders per month per customer at no additional cost to the Government. As specified by the customer, all emergency order(s) for supplies must be same day or next day. Expeditious fulfillment of the emergency requirement is imperative. XXI. FOOD DEFENSE

A. DLA Troop Support Subsistence Directorate provides world-wide subsistence logistics support during peace time as well as during regional conflicts, contingency operations, national emergencies, and natural disasters. At any time, the United States Government, its personnel, resources and interests may be the target of enemy aggression to include espionage, sabotage, or terrorism. This increased risk requires DLA Troop Support to take steps to ensure measures are taken to prevent the deliberate tampering and contamination of subsistence items. The Contractor must ensure that products and/or packaging have not been tampered with or contaminated throughout the growing, storage, and delivery process. The Contractor must immediately inform DLA Troop Support Subsistence of any attempt or suspected attempt by any party or parties, known or unknown, to tamper with or contaminate subsistence supplies.

At a minimum, the third-party audits are to take place annually and submitted to the Contracting Officer within 30 calendar days of completion of audit. The contractor must achieve a passing score without major deficiencies in order to continue performance under any resultant contract. The contractor is to submit a copy of each third-party warehouse audit (i.e., third party, or other state or federal sanitation inspections) to the Contracting Officer prior to contract award. XXV. PRODUCT SANITARILY APPROVED SOURCE REQUIREMENTS AND SANITARY CONDITIONS

A. Food Establishments.

1. All establishments and distributors furnishing subsistence items under DLA Troop Support contracts are subject to sanitation approval and surveillance as deemed appropriate by the Military Medical Service or by other Federal agencies recognized by the Military Medical Service. The Government does not intend to make any award for, nor accept, any subsistence products manufactured, processed, or stored in a facility which fails to maintain acceptable levels of food safety and food defense, is operating under such unsanitary conditions as may lead to product contamination or adulteration constituting a health hazard, or which has not been listed in an appropriate Government directory as a sanitarily approved establishment when required. Accordingly, the supplier agrees that, except as indicated in paragraphs 2 and 3 below, products furnished as a result of this contract will originate only in establishments listed in the U.S. Army Public Health Command (USAPHC) Circular 40-1, Worldwide Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement, (Worldwide Directory) (available at <http://phc.amedd.army.mil/topics/foodwater/ca/Pages/DoWApprovedFoodSources.aspx>). Compliance with the current edition of DoW Military Standard 3006A, Sanitation Requirements for Food Establishments, is mandatory for listing of establishments in the Worldwide Directory. Suppliers also agree to inform the Contracting Officer immediately upon notification that a facility is no longer sanitarily approved and/or removed from the Worldwide Directory and/or other Federal agency's listing, as indicated in paragraph 2 below. Suppliers also agree to inform the Contracting Officer when sanitary approval is regained, and listing is reinstated.

2. Establishments exempt from Worldwide Directory listing. Refer to AR 40-657/NAVSUPINST 4355.4H/MCO P1010.31H, Veterinary/Medical Food Safety, Quality Assurance, and Laboratory Service, for a list of establishment types that may be exempt from Worldwide Directory listing. (AR 40-657 is available from National Technical Information Service, 5301 Shawnee Road, Alexandria, VA 22312; 1-888-584-8332; or download from web site: http://www.apd.army.mil/pdf/files/r40_657.pdf) For the most current listing of exempt plants/products, see the Worldwide Directory (available at: <http://phc.amedd.army.mil/topics/foodwater/ca/Pages/DoWApprovedFoodSources.aspx>).

3. Subsistence items other than those exempt from listing in the Worldwide Directory, bearing labels reading "Distributed By", "Manufactured For", etc., are not acceptable unless the source of manufacturing/processing is indicated on the label or on accompanying shipment documentation.

4. When the Military Medical Service or other Federal agency acceptable to the Military Medical Service determines the levels of food safety and food defense of the establishment or its products have or may lead to product contamination or adulteration, the Contracting Officer will suspend the work until such conditions are remedied to the satisfaction of the appropriate inspection agency. Suspension of the work shall not extend the life of the contract, nor shall it be considered sufficient cause for the Contractor to request an extension of any delivery date. In the event the Contractor fails to correct such objectionable conditions within the time specified by the Contracting Officer, the Government shall have the right to terminate the contract in accordance with the "Default" clause of the contract.

When the sanitary conditions of the delivery conveyance have led, or may lead to product contamination, adulteration, constitute a health hazard, or the delivery conveyance is not equipped to maintain prescribed temperatures, or the transport results in product 'unfit for intended purpose', supplies tendered for acceptance may be rejected without further inspection.

XXVI. CONTRACTOR QUALITY AUDITS

The Government may conduct formalized audits to verify the vendor's adherence to the contract requirements and the quality of product being supplied under any resultant contract.

The term does not include information that is lawfully publicly available without restrictions. “Covered contractor information system” means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information. “Covered defense information” means unclassified controlled technical information or other information, as described in the Controlled Unclassified Information (CUI) Registry at http://www.archives.gov/cui/registry/category-list.html, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is— (1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or (2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract. “Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein. “Forensic analysis” means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data. “Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information. “Malicious software” means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware. “Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system. “Operationally critical support” means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation. “Rapidly report” means within 72 hours of discovery of any cyber incident. “Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data—Other Than Commercial Products and Commercial Services, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code. (b) Adequate security. The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections: (1) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government, the following security requirements apply: (i) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract. (ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract. (2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply: (i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (available via the internet at https://csrc.nist.gov/publications/sp800) in effect at the time the solicitation is issued or as authorized by the Contracting Officer. (ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded CONTINUED ON NEXT PAGE

Part 12 Clauses (CONTINUED)

prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award.

(B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

(C) If the DoD CIO has previously adjudicated the contractor's requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (<https://www.fedramp.gov/documents-templates/>) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) Cyber incident reporting requirement.

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the Contractor shall—

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at <https://dibnet.dod.mil>.

(2) Cyber incident report. The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <https://dibnet.dod.mil>.

(3) Medium assurance certificate requirement. In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <https://public.cyber.mil/eca/>.

(d) Malicious software. When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DoD Cyber Crime Center (DC3) in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.

(e) Media preservation and protection. When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) Access to additional information or equipment necessary for forensic analysis. Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) Cyber incident damage assessment activities. If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) DoD safeguarding and use of contractor attributional/proprietary information. The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such

(i) Use and release of contractor attributional/proprietary information not created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD— (1) To entities with missions that may be affected by such information; (2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents; (3) To Government entities that conduct counterintelligence or law enforcement investigations; (4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or (5) To a support services contractor (“recipient”) that is directly supporting Government activities under a contract that includes the clause at 252.204-7009 , Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information. (j) Use and release of contractor attributional/proprietary information created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government's use and release of such information. (k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data. (l) Other safeguarding or reporting requirements. The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor's responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements. (m) Subcontracts. The Contractor shall— (1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial products or commercial services, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and (2) Require subcontractors to— (i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and (ii) Provide the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable, when reporting a cyber incident to DoD as required in paragraph (c) of this clause. If repair/ replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post acceptance rights --

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(A) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt within 30 days;

(k) *Taxes.* The contract price includes all applicable Federal, State, and local taxes and duties.

(l) *Termination for the Government's convenience.* The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. In the event of such termination, the Contractor shall immediately stop all work and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

(m) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. The Government will send a cure notice to the Contractor, unless the reason for the termination is late delivery. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) *Title.* Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) *Warranty.* The Contractor warrants and implies that the items delivered under this contract are merchantable and fit for use for the particular purpose described in this contract.

(p) *Limitation of liability.* Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

(q) *Compliance with laws unique to Government contracts.* The Contractor agrees to comply with 31 U.S.C. 1352 relating to limitations on the use of appropriated funds to influence certain Federal contracts; 40 U.S.C. chapter 37, Contract Work Hours and Safety Standards; 41 U.S.C. chapter 87, Kickbacks; 49 U.S.C. 40118, Government-financed air transportation; and 41 U.S.C. chapter 21 relating to procurement integrity.

(8) The specification.

(s) *Unauthorized obligations.*

(1) Except as stated in paragraph (s)(2) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government-authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (s)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(t) *Comptroller General examination of record.* This paragraph applies if this contract was awarded using other than sealed bid procedures and is in excess of the simplified acquisition threshold on the date of award of this contract.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices, at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR part 4, longer period required by statute, or periods specified in other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This clause does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(u) *Incorporation by reference.* The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

- (4) The Contractor must assert its right to an adjustment under this clause within thirty (30) days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

- (m) *Termination for Cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If this contract is terminated in whole or in part for cause, and the supplies or services covered by the contract so terminated are repurchased by the Government, the Government will incur administrative costs in such repurchases. The Contractor and the Government expressly agree that, in addition to any excess costs of repurchase, or any other damages resulting from such default, the Contractor shall pay, and the Government shall accept, the sum of \$1350.00 as payment in full for the administrative costs of such repurchase. (a) *Definitions.* As used in this clause

Adequate security means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

Compromise means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

Contractor attributional/proprietary information means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

Controlled technical information means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

Covered contractor information system means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

Covered defense information means unclassified controlled technical information or other information, as described in the Controlled Unclassified Information (CUI)

Registry at <http://www.archives.gov/cui/registry/category-list.html>, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is --

(1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or

(2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

Cyber incident means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

Forensic analysis means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

Information system means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

Malicious software means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

Media means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

Operationally critical support means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

Rapidly report means within 72 hours of discovery of any cyber incident.

Technical information means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data --Other Than Commercial Products and Commercial Services, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) *Adequate security.* The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections:

(1) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government, the following security requirements apply:

Part 12 Clauses (CONTINUED)

- (i) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract.
(ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract.

(2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply:

(i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations", Revision 2 (available via the internet at <http://dx.doi.org/10.6028/NIST.SP.800-171>).

(ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award.

(B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

(C) If the DoD CIO has previously adjudicated the contractor's requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (<https://www.fedramp.gov/resources/documents/>) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) *Cyber incident reporting requirement.*

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the Contractor shall --

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at <https://dibnet.dod.mil>.

(2) *Cyber incident report.* The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <https://dibnet.dod.mil>.

(3) *Medium assurance certificate requirement.* In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <https://public.cyber.mil/eca/>.

(d) *Malicious software.* When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DoD Cyber Crime Center (DC3) in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.

(e) *Media preservation and protection.* When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) *Access to additional information or equipment necessary for forensic analysis.* Upon request by DoD, the Contractor shall provide DoD with access to additional information equipment that is necessary to conduct a forensic analysis.

Part 12 Clauses (CONTINUED)

(g) *Cyber incident damage assessment activities.* If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) *DoD safeguarding and use of contractor attributional/proprietary information.* The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) *Use and release of contractor attributional/proprietary information not created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD --

(5) To a support services contractor ("recipient") that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(j) *Use and release of contractor attributional/proprietary information created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph

(i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government's use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) *Other safeguarding or reporting requirements.* The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor's responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) *Subcontracts.* The Contractor shall --

(1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial products or commercial services, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and

(2) Require subcontractors to --

(i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

(ii) Provide the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable, when reporting a cyber incident to DoD as required in paragraph (c) of this clause.

Cost of components does not include any costs associated with the manufacture of the end product. <i>Critical component</i> means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105 . <i>Domestic end product</i> means -- (1) For an end product that does not consist wholly or predominantly of iron or steel or a combination of both- (i) An unmanufactured end product mined or produced in the United States;

Part 12 Clauses (CONTINUED) (ii) An end product manufactured in the United States, if- (A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029. Components of foreign origin of the same class or kind as those that the agency determines are not mined, produced, or manufactured in sufficient and reasonably available commercial quantities of a satisfactory quality are treated as domestic. Components of unknown origin are treated as foreign. Scrap generated, collected, and prepared for processing in the United States is considered domestic; or (B) The end product is a COTS item; or (2) For an end product that consists wholly or predominantly of iron or steel or a combination of both, an end product manufactured in the United States, if the cost of foreign iron and steel constitutes less than 5 percent of the cost of all the components used in the end product. The cost of foreign iron and steel includes but is not limited to the cost of foreign iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the end product and a good faith estimate of the cost of all foreign iron or steel components excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the end product contains multiple components, the cost of all the materials used in such end product is calculated in accordance with the definition of "cost of components". <i>End product</i> means those articles, materials, and supplies to be acquired under the contract for public use. <i>Fastener</i> means a hardware device that mechanically joins or affixes two or more objects together. Examples of fasteners are nuts, bolts, pins, rivets, nails, clips, and screws. <i>Foreign end product</i> means an end product other than a domestic end product. <i>Foreign iron and steel</i> means iron or steel products not produced in the United States. Produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, from the initial melting stage through the application of coatings, except metallurgical processes involving refinement of steel additives. The origin of the elements of the iron or steel is not relevant to the determination of whether it is domestic or foreign. <i>Predominantly of iron or steel or a combination of both</i> means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners. <i>Steel</i> means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements. <i>United States</i> means the 50 States, the District of Columbia, and outlying areas. (b) 41 U.S.C. chapter 83, Buy American, provides a preference for domestic end products for supplies acquired for use in the United States. In accordance with 41 U.S.C. 1907, the domestic content test of the Buy American statute is waived for an end product that is a COTS item (see 12.505(a)(1)), except that for an end product that consists wholly or predominantly of iron or steel or a combination of both, the domestic content test is applied only to the iron and steel content of the end product, excluding COTS fasteners. (c) Offerors may obtain from the Contracting Officer a list of foreign articles that the Contracting Officer will treat as domestic for this contract. (d) The Contractor shall deliver only domestic end products except to the extent that it specified delivery of foreign end products in the provision of the solicitation entitled "Buy American Certificate." As used in this clause -- “Foreign-flag vessel” means any vessel that is not a U.S.-flag vessel. “Ocean transportation” means any water-borne transportation aboard a ship, vessel, boat, barge, ferry, or the like outside the internal waters of the United States as defined in 33 CFR 2.24. “Subcontractor” means a supplier, materialman, distributor, or vendor at any level below the prime contractor whose contractual obligation to perform results from, or is conditioned upon, award of the prime contract and who is performing any part of the work or other requirement of the prime contract. “Supplies” means supplies that are clearly identifiable for eventual use by or owned by DoD at the time of transportation by sea, or are otherwise transported by DoD, regardless of ownership or use by DoD. An item is clearly identifiable for eventual use by DoD if, for example, the contract documentation contains a reference to a DoD contract number or a military destination. “U.S.-flag vessel” means either a vessel belonging to the United States or a vessel of the United States as that term is defined in 46 U.S.C. 116.: (b)(1) The Contractor shall use U.S.-flag vessels when transporting any supplies by sea under this contract. Part 12 Provisions (CONTINUED)

(a) *Definitions.* As used in this provision --

"Controlled technical information," "covered contractor information system," "covered defense information," "cyber incident," "information system," and "technical information" are defined in clause [252.204-7012](#) , Safeguarding Covered Defense Information and Cyber Incident Reporting.

(b) The security requirements required by contract clause [252.204-7012](#) , shall be implemented for all covered defense information on all covered contractor information systems that support the performance of this contract.

(c) For covered contractor information systems that are not part of an information technology service or system operated on behalf of the Government (see [252.204-7012](#) (b)(2) --

(1) By submission of this offer, the Offeror represents that it will implement the security requirements specified by National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171 "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations" (see <http://dx.doi.org/10.6028/NIST.SP.800-171>) that are in effect at the time the solicitation is issued or as authorized by the contracting officer not later than December 31, 2017.

(2)(i) If the Offeror proposes to vary from any of the security requirements specified by NIST SP 800-171 that are in effect at the time the solicitation is issued or as authorized by the Contracting Officer, the Offeror shall submit to the Contracting Officer, for consideration by the DoD Chief Information Officer (CIO), a written explanation of --

(A) Why a particular security requirement is not applicable; or

(B) How an alternative but equally effective, security measure is used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection.

Part 12 Provisions (CONTINUED)

(4) Information necessary to evaluate the factors contained in the provision at 52.212-2 or as described in the solicitation;

(5) Responses to provisions that require Offeror completion of information, representations, and certifications (other than those collected via the System for Award Management (SAM)); and

(6) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and any solicitation amendments.

(b) Period for acceptance of offers. The Offeror agrees to hold the prices in its offer firm for 60 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(c) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers and any modifications or revisions to the Government office designated in the solicitation by the time specified in the solicitation.

(2) Any offer, modification, or revision received after the time specified for receipt of offers is "late" and will not be considered unless it is received before award is made and the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition. However, a late modification of an otherwise successful offer that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(3) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(4) Offerors may withdraw their offers by written notice to the Government received at any time before award.

(d) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with Offerors. Therefore, the Offeror's initial offer should contain the Offeror's best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.

(e) Debriefings. If a postaward debriefing is given to requesting Offerors, the Government will disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed Offeror's offer.

(2) The overall evaluated cost or price and technical rating of the successful Offeror and the debriefed Offeror and past performance information on the debriefed Offeror.

(3) The overall ranking of all Offerors when any ranking was developed by the agency during source selection.

(4) A summary of the rationale for award.

(5) For acquisitions of commercial products, the make and model of the product to be delivered by the successful Offeror.

(6) Reasonable responses to relevant questions posed by the debriefed Offeror as to whether the agency followed source-selection procedures set forth in the solicitation, applicable regulations, and other applicable authorities.

(End of provision)

Addendum to 52.212-1

1. Paragraph (a), Submission of Offers.

b. Email and DIBBS are the acceptable forms of transmission for submission of initial proposals or revisions to proposals submitted in

response to this solicitation. **E-mailed submissions should be sent to Rasheed O'Kelley, rasheed.o'kelley@dla.mil and Joshua Weber, Joshua.Weber@dla.mil** . Limit the file size of any individual email attachment to 5MB, and the total size of any email to 10MB. Multiple email submissions may be required. If submitting multiple emails as a proposal submission, label each email with a number (e. g., 1 of 8), accordingly. After transmitting an email submission, offerors should confirm receipt of all emails with the intended recipients. A notice with instructions to vendors has been posted to DIBBS. If submitting via DIBBS, guidance can be found at: DIBBS-Upload-Offer-User-Help.pdf (dla.mil)

c. Facsimile is not an acceptable form of transmission for submission of initial proposals or revisions to initial proposals submitted in response to this solicitation. As directed by the Contracting Officer, email may be used during discussions/negotiations, if discussions/ negotiations are held, for proposal revisions, including Final Proposal Revisions.

2. Paragraph (b), Period for Acceptance of Offers, is revised as follows:

Period of acceptance is **180** calendar days from the date specified for receipt of offers (initial or revised, whichever is later).

3. Paragraph (d), Contract Award, is revised as follows:

The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest, and waive informalities and minor irregularities in offers received.

PROPOSAL SUBMISSION INFORMATION**A. Pricing**

1. An offeror's price proposal shall consist of prices submitted for each of the items found in the Schedule of Items (Attachment 1). The Schedule of Items is a grouping of items expected to be ordered by the customers along with the estimated quantities. The items found in the Schedule of Items represent 100% of the estimated dollar value for that particular Group. Offerors are required to submit their Contract Unit Price for each item.
2. Formatting of Prices: Prices shall be formatted to no more than two places to the right of the decimal point, for example, \$2.50. In the event that the offeror submits a price that exceeds this limitation, the price will be rounded up or down using standard rounding methods. For example, a price of \$2.215 or higher will be rounded up to \$2.22 and a price of \$2.214 or lower will be rounded down to \$2.21.

B. Schedule of Items: Pricing

1. The Schedule of Items in Attachment 1 represents 100% of the estimated dollar value of this procurement. Offerors must submit pricing for all items in the Schedule of Items. The unit prices of all items found in the Schedule of Items will be comparatively assessed to identify any unusually high or low priced items. This assessment includes, but is not limited to, comparison amongst offerors' prices as well as comparison against market report prices and internal Government databases that are applicable.
2. Estimated quantities for each Tier period (2 separate Tiers, consisting of two (30-month) tier periods) are indicated next to each item and are for information and evaluation purposes only. The Offeror's proposed Contract Unit Prices found in the Schedule of Items will be multiplied by the estimated quantities by Tier in order to calculate the Offeror's overall

Part 12 Provisions (CONTINUED)

aggregate total price, which will be compared against the other offerors in order to identify the lowest overall price proposal.

C. Contract Unit Prices

1. Prices must not extend more than two places to the right of the decimal point. Standard rounding methods must be observed. For example, a delivered price of \$2.215 or higher must be rounded up to \$2.22 and a price of \$2.214 or lower must be rounded down to \$2.21.
2. If an offeror carries a variety of brands for the same item, the price submitted shall be for the lowest priced, technically acceptable, item that meets the Government's minimum requirements.
3. All items procured under the resultant contract are subject to all contractual clauses and regulations, including, but not limited to, DFARS 252.225-7012, Preference for Certain Domestic Commodities, and the requirement that items be procured from a sanitarily approved source. All invoices and quotes must contain sufficient information to clearly reflect compliance with solicitation/contract terms and conditions.
4. Offerors are required to submit a spreadsheet containing the following information (Attachment 1):
 - (a) Government Item Number: Number provided.
 - (b) Stock Number: Numbers provided.
 - (c) Government Item Description: Provided.
 - (d) Estimated Quantity: Provided.
 - (e) Unit of Issue: Provided

 - (h) Tier 2 Price Per Case: Your price for this item.
 - (i) Total Evaluated Price for Tier 2: This column will calculate automatically.
 - (j) Total Evaluation Including All Tiers: This cell will calculate automatically.

D. Instructions for Proposal Spreadsheet - Attachment 1

1. Please fill in the white boxes only for each Group. For Group 1 Florida, Tyndall AFB: fill in Cell D2, F6-F15 and H6-H15 for CLIN #1-10. The spreadsheet will automatically calculate your aggregate total. All prices must be rounded to two places to the right of the decimal point using standard rounding methods (see paragraph A.2. above.)
2. When preparing the spreadsheet, totals must appear in row 16 Columns G & I and "Total Evaluation Including all tiers" in row 18 column H for Group 1,

- (iv) Wholesale Price List, catalog price schedule or other documents containing commercial pricing information.

No hard copy is required when submitting a proposal through email or DIBBS.

For email submissions, offerors are reminded to limit the file size of any required documents being emailed, i.e., signed copy of the solicitation, amendments, completed Attachment 1, completed list of Places of Performance, warehouse audit documents, wholesale price list, etc. No individual document submitted should be greater than 5MB and no entire email should be larger than 10 MB. Multiple emails are likely necessary. When submitting multiple emails as a proposal submission, label each email with a number (e.g., 1 of 8), accordingly. 52.212-2 -- Evaluation -- Commercial Products and Commercial Services. (DEVIATION 2026-O0038) (FEB 2026)

As prescribed in [12.205\(a\)\(2\)](#), insert a provision substantially as follows:

Evaluation --Commercial Products and Commercial Services (DEVIATION 2026-O0038) (FEB 2026)

This provision is incorporated by reference.

Addendum to FAR 52.212-2

(a) The Government will award contract(s) resulting from this solicitation to the responsible offeror(s) whose offer(s) conforming to the solicitation will be most advantageous to the Government, price and other factors considered. Lowest Price Technically Acceptable (LPTA) source selection procedures will be used as the source selection method in this procurement. The following factors shall be used to evaluate offers:

1. Technical Acceptability - A technically acceptable offer is an offer that takes no exceptions to the terms and conditions in the solicitation and complies fully with all submission requirements. A proposal that takes exception to solicitation terms and conditions or that fails to comply with all submission requirements may be deemed technically unacceptable and, thus, may be found ineligible, and removed from further consideration, for the award. By submitting a proposal with no exceptions, an offeror is confirming it possesses the necessary facilities, equipment, technical skills and capacity to successfully provide all items required by this solicitation.
2. Pricing - Pricing is required for all items found in the Schedule of Items (for each Group, if applicable) and for all tiers. Failure to offer pricing for all items and for all tiers may result in a proposal being removed from consideration for award as technically unacceptable. The Government will perform an aggregate price analysis for all items found in the Schedule of Items (for each Group, if applicable). To determine an offeror's evaluated aggregate price, the estimated quantities in the Schedule of Items will be multiplied by the unit prices to determine the lowest aggregate price, (for each Group, if applicable) to the Government. Offered prices, on an individual line-item basis, will be evaluated to determine fair and reasonableness. The award(s) will be made on the basis of the lowest Evaluated Aggregate Price (for each Group, if applicable) of proposals meeting or exceeding the acceptability standards for non-price factors. Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area.

Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that --

- (1) It ☐ is ☐ is not a foreign person; and

- (2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.
