#### SECTION II. Questions and Answers

The answers in Section II are provided for clarification purposes only and do not change the solicitation requirements. In the event of any discrepancy between the answers provided in Section II and the solicitation documents, the solicitation documents will take precedence.

The answers included in this Section are in response to relevant questions submitted regarding this solicitation. Please note, some questions may have been consolidated for convenience and/or revised to remove sensitive, misleading, irrelevant or extraneous information.

1. Question: Because DLA is already evaluating proposals in response to its five-year prime vendor contract that may be awarded by the time the purchase order is even transitioned, why is DLA exploring a four-month purchase order when only the incumbent may perform the work in the four month period, since the transition itself will take three months? Will DLA reconsider and cancel Solicitation SPE300-17-X-0026?

Answer: Solicitation SPE300-17-X-0026 is intended to establish a contractual vehicle that will satisfy the Government's requirements for a limited period of time until a long term contract can be put into place, while using procedures that promote competition to the maximum extent practicable. At this time, DLA does not intend to cancel Solicitation SPE300-17-X-0026.

2. Question: Will DLA let offerors know the minimum technical or performance requirements? Why has DLA

decided to use a LPTA here when it is soliciting its long-term needs using best value?

Answer: The performance requirements covered by solicitation SPE300-17-X-0026 are included in the Statement of Work. The technical factors that will be used for evaluation are also identified in the Statement of Work. The Government has determined that the use of simplified acquisition procedures and the LPTA source selection process are appropriate for SPE300-17-X-0026.

3. Question: Will DLA revise the Solicitation to allow offerors to bid the pricing they already proposed in response to SPE300-17-R-0013? If DLA will not allow offerors to use the same quotes that the bid for the same work, will DLA reduce the size of the market basket or, alternatively, extend the time and date for receipt of proposals?

Answer: DLA utilized the market basket from Solicitation SPE30017R0013 in this Solicitation SPE30017X0026 in order to facilitate offer preparation. Accordingly, offered pricing submitted using either the DLA Troop Support Quote Summary Spreadsheet or the Invoice Summary Spreadsheet must be dated within 150 days prior to the closing date of the solicitation. Solicitation language has been revised and is included in this amendment.

4. Question: DLA has only solicited a quote and has not obligated itself to award any purchase order until it issues the first purchase order. If the awardee is an entity other than the incumbent, how will it know to begin its 21-day start up? If the awardee begins its startup and DLA never issues an order, what, if any, obligation does DLA have to reimburse the costs of start-up?

Answer: Solicitation SPE300-17-X-0026 will result in an IDPO that allows for a relatively short performance period and low dollar value. It is anticipated that implementation can be completed within a twenty-one (21) day time period, particularly given the limited items in the Market Basket in addition to the limited catalog required at contract award (issued in Amendment 0002) which is based on items with usage over \$1K from the previous four (4) months. Please note that after award, additional items may be added to the catalog as required. Solicitation language has been revised and is included in this amendment. Whether or not it is the incumbent or an entity other than the incumbent, the implementation period will start on the date of award. The resultant agreement will become binding upon the signatures of both parties on the award document. The Government will issue orders that will collectively meet the guaranteed minimum. Once the guaranteed minimum is met, the Government is under no obligation to place additional orders under this IDPO. However, the Government anticipates to place additional orders for the period of performance stated in the purchase order, effective from the date of the basic order.

5. Comment: Please verify that in this Lowest Price Technically Acceptable Solicitation, enhanced proposals will not be given any additional evaluation weight over minimally acceptable proposals.

Verification: This acquisition will use Lowest Price Technically Acceptable source selection procedures. Offers will be evaluated and award will be made in accordance with the terms of the solicitation.
