2. Page 6, CAUTION NOTICE – add in the following after existing paragraphs:

This solicitation includes some provisions that differ from past DLA Troop Support solicitations. Following are notes summarizing some major new language, for information purposes. Please refer to the full text of the provisions in the body of the solicitation.

Rebates/Discounts and Price Related Provisions (See Statement of Work / Section I / paragraph 8, page 50.

This solicitation includes a section titled Rebates/Discounts and Price Related Provisions. This section defines specific Government Rebates and Discounts, which are to be passed to the Government in the form of a reduced catalog price. It also defines exceptions to this requirement. These exceptions include earned income, qualifying early payment discounts, and limited discounts designated for customers other than the Government.

Weighting Factor (See Price Proposal Evaluation / Section I Price Proposal, page 122

This solicitation includes the use of a weighting factor in the Price Proposal evaluation. For purposes of the Price Proposal Evaluation, Weighted Aggregate Distribution Price and Aggregate Delivered Price are considered equal. This equality is accounted for mathematically by applying a weighting factor of 11.5 (based on current Government data) to the Aggregate Distribution Price. Each offeror's total evaluated price will be calculated by adding the Weighted Aggregate Distribution Price and the Aggregate Delivered Price to arrive at the Weighted Aggregate Unit Price.

Private Label Savings (See Statement of Work, Section VI. Special Contract Requirements/ paragraph 2. Management Reports / 15. Private Label Savings, page 99

This solicitation includes a new management report, Private Label Savings. This report requires the Contractor to identify savings associated with using private label items, and to identify potential savings by recommending private labels in lieu of brand names for like items.

8. Page 111, Price Proposal – Volume II , paragraph C and E:

Paragraph C, line one (1): Add the word “Totals” to the sentence so it reads: The price proposal workbook consists of multiple spreadsheets: “Totals”; “Distribution Category Pricing,” “Price Proposal” and “Item Descriptions & Qualifications.”

After paragraph E, insert the following paragraph:

Totals Sheet:

For reference purposes, DLA Troop Support has provided offerors with a tab titled “TOTALS” on the price proposal spreadsheet. Offerors do not enter any information in this tab. This tab calculates the offeror’s aggregate offer for the base and option periods, accounting for quantities and other additional calculations. These calculations rely on the information the offeror enters into the other portions of the spreadsheet. Any incorrect information entered by the offeror, therefore, will skew this stated total.

After the offeror submits the price proposal, DLA Troop Support will verify the offeror-entered information based on the offeror-submitted documentation: invoices, quotes and specification sheets.

Note: this is not the offeror’s total evaluated price. The total evaluated price is determined through the process described on solicitation page123.

 Subsistence CONUS Prime Vendor for North Carolina Region

Any changes, additions or deletions to those categories identified by the contractor in their price proposal that occur during contract performance will be immediately reported by the Contractor as part of its next scheduled monthly management reports. It is not necessary to submit specific dollar amounts of Earned Income, just the categories. Examples of categories are marketing allowances and sales volume incentives.

11. Pages 112 and 113, paragraph O:

Delete in its entirety and replace with:

Input the dollar amount of the NAPA discount deducted from the offeror's UOM Delivered Price as it appears on the offeror's invoice/quote, if applicable. If a NAPA discount is not deducted from the UOM Delivered Price as it appears on the invoice/quote then enter \$0.00. The offeror shall NOT deduct a NAPA discount from its UOM Delivered Price (Column R) when they enter it on the Price Proposal Spreadsheet in accordance with the solicitation's submission requirements (see NOTE under Column R).

EXAMPLES:

1. An invoice/quote shows a UOM Delivered Price of \$18.00. The item has an associated NAPA Discount of \$2.00 per case which is deducted from the offeror's UOM Delivered Price of \$20.00 as it appears on the invoice/quote. Therefore, the offeror must enter \$2.00 in Column O and \$20.00 in Column R.
2. An invoice/quote shows a UOM Delivered Price of \$45.00. The item has an associated NAPA Discount of \$5.00 per case; however, this discount is not deducted from the offeror's UOM Delivered Price (\$45.00) as it appears on the invoice/quote. Therefore, the offeror must enter \$0.00 in Column O and \$45.00 in Column R.

12. Page 122, SECTION B – PAST PERFORMANCE:

The first full paragraph under this section is revised as follows to include fill rate performance:

The Government will evaluate the offeror's record of Past Performance through its written proposal, Government in-house records (if applicable), and the information provided by the points of contact or references designated by the offeror. Government in-house records will be considered more reliable than information provided by other references. Government in-house records include, but are not limited to, fill rate performance, customer surveys, DLA Troop Support Prime Vendor Product Quality Audit scores, Quality System Management Visit (QSMV) reports, Contractor Performance Assessment Reporting System (CPARS), and destination inspection reports.

13. Page 44 – 4. Catalog & Market Basket, Paragraph B., NOTE, change to read:

The market basket represents approximately 80% of the contract dollar value per performance period. The items which comprise this 80% of contract dollars per performance period form the basis of the attached price proposal spreadsheet (Attachment 1). This spreadsheet shows, among other information, a detailed item description and the estimated demand data per performance period for each item. Thus, these items represent the majority of the contract value per performance period and the most important customer needs. DLA Troop Support will evaluate your offered prices, which you enter in this spreadsheet. Please take extreme care to complete this spreadsheet accurately (See instructions on page 111).
