(a) Definitions. As used in this clause—

"Compromise" means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

"Controlled technical information" means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restriction.

"Covered defense information" means unclassified controlled technical information or other information (as described in the Controlled Unclassified Information (CUI) Registry at [http://www.archives.gov/cui/registry/category-list.html](http://www.archives.gov/cui/registry/category-list.html)) that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is—

1. Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or
2. Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

"Cyber incident" means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

"Information system" means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

"Media" means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

"Technical information" means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013, Rights in Technical Data-Noncommercial Items, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) Restrictions. The Contractor agrees that the following conditions apply to any information it receives or creates in the performance of this contract that is information obtained from a third-party’s reporting of a cyber incident pursuant to DFARS clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting (or derived from such information obtained under that clause):

1. The Contractor shall access and use the information only for the purpose of furnishing advice or technical assistance directly to the Government in support of the Government’s activities related to clause 252.204-7012, and shall not be used for any other purpose.
2. The Contractor shall protect the information against unauthorized release or disclosure.
3. The Contractor shall ensure that its employees are subject to use and non-disclosure obligations consistent with this clause prior to the employees being provided access to or use of the information.
(4) The third-party contractor that reported the cyber incident is a third-party beneficiary of the non-disclosure agreement between the Government and Contractor, as required by paragraph (b)(3) of this clause.

(5) A breach of these obligations or restrictions may subject the Contractor to—
   (i) Criminal, civil, administrative, and contractual actions in law and equity for penalties, damages, and other appropriate remedies by the United States; and
   (ii) Civil actions for damages and other appropriate remedies by the third party that reported the cyber incident, as a third party beneficiary of this clause.

(c) Subcontracts. The Contractor shall include this clause, including this paragraph (c), in subcontracts, or similar contractual instruments, for services that include support for the Government's activities related to safeguarding covered defense information and cyber incident reporting, including subcontracts for commercial items, without alteration, except to identify the parties.

In Personam Jurisdiction for Civil or Criminal Actions Brought By the United States Government (DEC 2009)

(a) Definitions, as used in this clause,
   (1) Contractor - For purposes of this clause the term “contractor” includes both the contractor and subcontractors at any tier and any employees of the contractor or any subcontractor performing work under or in connection with the contract.
   (2) United States - For purposes of this clause the term “United States” means the 50 States and the District of Columbia. The term does not include any military installation or facility located outside the United States, as so defined.

(b) The contractor consents to and, in the event of initiation of an action by the United States, shall also consent at that time to in personam jurisdiction over the contractor by the Federal courts of the United States with respect to any civil or criminal action brought by the United States Government based on any act or failure to act of the contractor in the performance of or otherwise arising from or related to this contract. The contractor further agrees to accept service of process with regard to any such action, failing which the contractor shall be deemed to be subject to the in personam jurisdiction of any Federal court of competent subject matter jurisdiction through operation of this clause.

(c) Consent to in personam jurisdiction pursuant to this clause shall not operate to deprive or terminate in personam jurisdiction in any other court that otherwise has in personam jurisdiction under applicable law.

(d) Where a cause of action arises from an act or omission occurring outside the United States, in personam jurisdiction shall lie in the United States District Court for the District of Columbia if it cannot be established in another Federal court.

(e) In the event that the value of the contract (including options) equals or exceeds $5,000,000 and the contractor does not maintain an office in the United States, the contractor shall designate an agent located in the United States for service of process in any action covered by this clause, and provide the name and address of that agent to the Contracting Officer.

(f) The contractor shall include this clause in any subcontracts under this contract, and each subcontractor shall include this clause in any of its subcontracts.

The Contractor agrees to cooperate in any Government investigation relating to Contract Numbers SPE300-17-D-4027 and SPM300-12-D-3595, including any modification or thereto. Cooperation includes making officials available for interviews or depositions in the United States, production of records, and other assistance requested by the Government.

4. The following clauses are updated:

52.204-9000 Contractor Personnel Security Requirements (JUL 2015)

(a) Work to be performed under this contract or task order may, in full or in part, be performed at the Defense Logistics Agency (DLA) Headquarters (HQ), DLA field activity office(s), or other Federally-controlled facilities. Prior to beginning work on a contract, DLA requires all Contractor personnel working on the Federally-controlled facility to have, at a minimum, an initiated National Agency Check with Written Inquiries (NACI) or NACI equivalent and favorable completion of a Federal Bureau of Investigation (FBI) fingerprint check.

(b) Additionally, in accordance with Department of Defense (DoD) Regulation 5200.2-R, Personnel Security Programs, and DLA Issuance 4314, Personnel Security Program, all DoD Contractor personnel who have
Nova Global Supply and Services (Nova)

access to Federally-controlled information systems must be assigned to positions which are designated at one of three information technology (IT) levels, each requiring a certain level of investigation and clearance, as follows:

1. IT-I for an IT position requiring a single scope background investigation (SSBI) or SSBI equivalent;
2. IT-II for an IT position requiring a National Agency check with Law and Credit (NACLC) or NACLC equivalent; and
3. IT-III for an IT position requiring a NACI or equivalent.

Note: IT levels will be designated according to the criteria in DoD 5200.2-R.

(c) Previously completed security investigations may be accepted by the Government in lieu of new investigations if determined by the DLA Intelligence Personnel Security Office to be essentially equivalent in scope to the contract requirements. The length of time elapsed since the previous investigation will also be considered in determining whether a new investigation is warranted. To assist the Government in making this determination, the Contractor must provide the following information to the respective DLA Intelligence Personnel Security Office immediately upon receipt of the contract. This information must be provided for each Contractor employee who will perform work on a Federally-controlled facility and/or will require access to Federally-controlled information systems:

1. Full name, with middle name, as applicable, with social security number;
2. Citizenship status with date and place of birth;
3. Proof of the individual’s favorably adjudicated background investigation or NACI, consisting of identification of the type of investigation performed, date of the favorable adjudication, name of the agency that made the favorable adjudication, and name of the agency that performed the investigation;
4. Company name, address, phone and fax numbers with email address;
5. Location of on-site workstation or phone number if off-site (if known by the time of award); and
6. Delivery order or contract number and expiration date; and name of the Contracting Officer.

(d) The Contracting Officer will ensure that the Contractor is notified as soon as a determination is made by the assigned or cognizant DLA Intelligence Personnel Security Office regarding acceptance of the previous investigation and clearance level.

1. If a new investigation is deemed necessary, the Contractor and Contracting Officer will be notified by the respective DLA Personnel Security Office after appropriate checks in DoD databases have been made.
2. If the Contractor employee requires access to classified information and currently does not have the appropriate clearance level and/or an active security clearance, the DLA Intelligence Personnel Security Office will relay this information to the Contractor and Contracting Officer for further action. Investigations for Contractor employees requiring access to classified information must be initiated by the Contractor Facility Security Officer (FSO).
3. The Contracting Officer will ensure that the respective DLA Intelligence Personnel Security Office initiates investigations for Contractor employees not requiring access to classified information (i.e., IT or unescorted entry).
4. It is the Contractor’s responsibility to ensure that adequate information is provided and that each Contractor employee completes the appropriate paperwork, as required either by the Contracting Officer or the DLA Intelligence Personnel Security Office, in order to begin the investigation process for the required clearance level.
5. The Contractor is responsible for ensuring that each Contractor employee assigned to the position has the appropriate security clearance level.
6. The Contractor shall submit each request for IT access and investigation through the Contracting Officer to the assigned or cognizant DLA Intelligence Personnel Security Office. Requests shall include the following information and/or documentation:

1. Standard Form (SF) 85, Questionnaire for Non-Sensitive Positions, or the SF 86, Questionnaire for National Security Positions (see note below);
2. Proof of citizenship (i.e., an original or a certified copy of a birth certificate, passport, or naturalization certificate); and
3. Form FD-258, Fingerprint Card (however, fingerprinting can be performed by the cognizant DLA Intelligence Personnel Security Office).

(Note to (f)(1) above: An investigation request is facilitated through use of the SF 85 or the SF 86. These forms with instructions as well as the Optional Form (OF) 306, Declaration for Federal Employment, which is required with submission of the SF85 or SF 86, are available at the Office of Personnel Management’s (OPM) system called Electronic – Questionnaires for Investigations Processing (e-QIP). Hard copies of the SF85 and SF86 are available at OPM’s web-site, www.opm.gov, but hard copies of the forms are not accepted.)
(g) Required documentation, listed above in paragraphs (f) (1) through (3), must be provided by the Contractor as directed by the Contracting Officer to the cognizant DLA Intelligence Personnel Security Office at the time of fingerprinting or prior to the DLA Intelligence Personnel Security Office releasing the investigation to OPM.

(h) Upon completion of the NACI, NACLC, SSBI, or other sufficient, appropriate investigation, the results of the investigation will be forwarded by OPM to the appropriate adjudication facility for eligibility determination or the DLA Intelligence Personnel Security Office for review and determination regarding the applicant’s suitability to occupy an unescorted entry position in performance of the DLA contract. Contractor personnel shall not commence work on this effort until the investigation has been favorably adjudicated or the Contractor employee has been waived into the position pending completion of adjudication. The DLA Intelligence Personnel Security Office will ensure that results of investigations will be sent by OPM to the Department of Defense, Consolidated Adjudications Facility (DoD CAF) or DLA Intelligence Personnel Security Office.

(i) A waiver for IT level positions to allow assignment of an individual Contractor employee to commence work prior to completion of the investigation may be granted in emergency situations when it is determined that a delay would be harmful to national security. A request for waiver will be considered only after the Government is in receipt of the individual Contractor employee’s completed forms, the background investigation has been initiated and favorable FBI fingerprint check has been conducted. The request for a waiver must be approved by the Commander/Director or Deputy Commander/Director of the site. The cognizant DLA Intelligence Personnel Security Office reserves the right to determine whether a waiver request will be forwarded for processing. The individual Contractor employee for which the waiver is being requested may not be assigned to a position, that is, physically work at the Federally-controlled facility and/or be granted access to Federally-controlled information systems, until the waiver has been approved.

(j) The requirements of this clause apply to the prime Contractor and any subcontractors the prime Contractor may employ during the course of this contract, as well as any temporary employees that may be hired by the Contractor. The Government retains the right to request removal of Contractor personnel, regardless of prior clearance or adjudication status whose actions, while assigned to this contract, who are determined by the Contracting Officer to conflict with the interests of the Government. If such removal occurs, the Contractor shall assign qualified personnel, with the required investigation, to any vacancy.

(k) All Contractor personnel who are granted access to Government and/or Federally-controlled information systems shall observe all local automated information system (AIS) security policies and procedures. Violations of local AIS security policy, such as password sharing, performing personal work, file access violations, or browsing files outside the scope of the contract, will result in removal of the Contractor employee from Government property and referral to the Contractor for appropriate disciplinary action. Actions taken by the Contractor in response to a violation will be evaluated and will be reflected in the Contractor’s performance assessment for use in making future source selection decisions. In addition, based on the nature and extent of any violations of AIS security policy, the Government will consider whether it needs to pursue any other actions under the contract such as a possible termination.

(l) The Contractor may also be required to obtain a Common Access Card (CAC) or Installation Access Badge for each Contractor employee in accordance with procedures established by DLA. When a CAC is required, the Contracting Officer will ensure that the Contractor follows the requirements of Homeland Security Presidential Directive 12 and any other CAC-related requirements in the contract. The Contractor shall provide, on a monthly basis, a listing of all personnel working under the contract that have CACs.

(m) Contractor personnel must additionally receive operations security (OPSEC) and information security (INFOSEC) awareness training. The DLA annual OPSEC refresher training and DLA annual INFOSEC training will satisfy these requirements and are available through the DLA Intelligence Office.

(n) When a Contractor employee who has been granted a clearance is removed from the contract, the Contractor shall provide an appropriately trained substitute who has met the investigative requirements of this clause. The substitute may not begin work on the contract without written documentation, signed by the Contracting Officer, stating that the new Contractor employee has met one of the criteria set forth in paragraphs (c), (d), or (i) of this clause, (i.e., acceptance of a previously completed security investigation, satisfactory completion of a new investigation, or a waiver allowing work to begin pending completion of an investigation). Contractor individual employees removed from this contract as a result of a violation of local AIS security policy are removed for the duration of the contract.

(o) The following shall be completed for every employee of the Government Contractor working on this contract upon contract expiration. Additionally, the Contractor shall notify the contracting officer immediately in writing whenever a Contractor employee working on this contract resigns, is reassigned, is terminated or no longer requires admittance to the Federally-controlled facility or access to Federally-controlled information systems. When the Contractor employee departs, the Contractor will relay departure
information to the cognizant DLA Intelligence Personnel Security Office and the Trusted Agent (TA) that entered the individual into the Trusted Associated Sponsorship System (TASS), so appropriate databases can be updated. The Contractor will ensure each departed employee has completed the DLA J6 Out-Processing Checklist, when applicable, for the necessary security briefing, has returned any Government-furnished equipment, returned the DoD CAC and DLA (or equivalent Installation) badge, returned any DoD or DLA vehicle decal, and requested deletion of local area network account with a prepared Department of Defense (DD) Form 2875. The Contractor will be responsible for any costs involved for failure to complete the out-processing, including recovery of Government property and investigation involved.

(p) These Contractor security requirements do not excuse the Contractor from meeting the delivery schedule/performance requirements set forth in the contract, or waive the delivery schedule/performance requirements in any way. The Contractor shall meet the required delivery schedule/performance requirements unless the contracting officer grants a waiver or extension.

(q) The Contractor shall not bill for personnel, who are not working on the contract while that Contractor employee’s clearance investigation is pending.
