## [CAUTION - CONTRACTOR CODE OF BUSINESS ETHICS (FEB 2012)]

FAR Part 3.1002(a) requires all government contractors to conduct themselves with the highest degree of integrity and honesty. Contractors should have a written code of business ethics and conduct within thirty days of award. To promote compliance with such code of business ethics and conduct, contractors should have an employee business ethics and compliance training program that facilitates timely discovery and disclosure of improper conduct in connection with government contracts and ensures corrective measures are promptly instituted and carried out. A contractor may be suspended and/or debarred for knowing failure by a principal to timely disclose to the government, in connection with the award, performance, or closeout of a government contract performed by the contractor or a subcontract awarded there under, credible evidence of a violation of

federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in title 18 of the United States Code or a violation of the False Claims Act. (31 U.S.C. 3729-3733)

If this solicitation or contract includes FAR clause 52.203-13 - CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT; the contractor shall comply with the terms of the clause and have a written code of business ethics and conduct; exercise due diligence to prevent and detect criminal conduct; promote ethical conduct and a commitment to compliance with the law within their organization; and timely report any violations of federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in title 18 of the United States Code or any violations of the False Claims Act. (31 U.S.C. 3729-3733). When FAR 52.203-13 is included in the contract, contractors must provide a copy of its written code of business ethics and conduct to the contracting officer upon request by the contracting officer.

[RAPIDGATE]

"Many bases currently require enrollment in RapidGate and will not allow entry without RapidGate clearance. During the contract implementation period, the Contractor must contact all customer locations to determine whether enrollment in RapidGate or another security program is required for access to each location. If RapidGate or other security enrollment is required, the contractor must take all necessary steps to obtain this in time for the start of performance under this contract. Failure to have RapidGate clearance may result in a vendor being turned away from the base and being unable to complete delivery. The contractor is responsible for the additional cost for RapidGate enrollment and must ensure that a RapidGate enrolled driver is available for all deliveries. We currently estimate that RapidGate enrollment will cost about \$250 per company and \$200 per enrolled employee for 1 year of access to multiple locations, but the cost of RapidGate or other security enrollment may vary, so the contractor should contact RapidGate to determine its own costs. If more than one driver is required, RapidGate enrollment must be obtained for each driver. Note that enrollment can take several weeks, so an awardee that is not already enrolled must begin enrollment at the time of award notification at the latest. If difficulty or delay in enrollment in RapidGate is encountered during the implementation period, the contractor MUST contact RapidGate and/or the Security Officer at the applicable customer locations to resolve any issues with processing RapidGate enrollment so that the contractor will be able to deliver as required. For additional information regarding RapidGate, including enrollment instructions, please visit their website at [www.rapidgate.com](http://www.rapidgate.com).

Please note that RapidGate is currently a requirement for access to some military bases; however, these and other locations may require enrollment in other security programs at some time in the future. In this event, the contractor is responsible for obtaining all required enrollments and clearances for each of their drivers as soon as they receive notice of such a requirement."

**STATEMENT OF WORK (SCOPE)****I. INTRODUCTION**

A. The DLA Troop Support Pacific intends to enter into an Indefinite Delivery, Indefinite Quantity (IDIQ) contract with a commercial firm to supply a full-line of USDA Grade No.1 or better Fresh Fruit and Vegetable (FF&V) products to Non-Department of Defense (DoD) USDA School customers, Oahu, in the State of Hawaii.

B. This solicitation consists of non-Department of Defense (DoD) and private non-profit school customers. Offerors are required to offer on all items in the Schedule of Items; failure to do so may result in exclusion from award consideration.

C. This solicitation is being issued as a 100% small business set-aside. It utilizes the Lowest Price Technically Acceptable Source Selection Process.

D. Any award made against this solicitation will result in a Fixed Price with Economic Price Adjustment (FP with EPA), Indefinite Delivery, Indefinite Quantity (IDIQ) contract. The IDIQ contract will provide for an indefinite quantity, within stated limits, of specific supplies or services to be furnished during a fixed period, with deliveries to be scheduled by placing orders with the contractor (reference FAR 16.504 (a)).

E. All Fresh Fruit and Vegetable products delivered under this contract shall be sourced domestically, no exceptions. Non-DoD USDA School Customers are allowed to utilize the resulting contract only when they use Federal funding. Additionally, these customers shall be required to utilize Federal funding on domestic items ONLY. Non-Domestic items are not authorized using Federal funding.

**II. EFFECTIVE PERIOD OF CONTRACT**

A. The resultant contract may be for a total of 4.5 years (one [18 month] base period plus two [18 month] option periods) commencing on the effective date of the contract. The base period will include a start-up period, see paragraph V. Requirements.

B. For evaluation purposes only, the base term of the resultant contract (18 Months), and the term of any option (18 Months), if exercised under the Contract, will not exceed 18 months for the option period. The total length of the contract will not exceed fifty-four (54) months.

C. Exercising of an option is not automatic and depends upon such conditions as acceptable vendor performance in meeting contract specifications and verifying an ongoing demand for this requirement.

**III. OPTIONS**

A. There are two (18 month) option periods in this solicitation. Acceptance of these options is mandatory. Distribution Prices (see Economic Price Adjustment (EPA) Clause), must be submitted for each option period, as well as for the base period. The Distribution Prices offered on each option period will be calculated with the Delivered Price (see Economic Price Adjustment (EPA) Clause), proposed for each evaluated item. The Distribution Price for each option period may be offered as a dollar value, increase or decrease, from the base period. Changes expressed as a percentage will not be accepted.

B. Failure to propose an increase or decrease of distribution prices in the option periods will be considered, and evaluated as, no change per option period.

**IV. GUARANTEED MINIMUM/MAXIMUM**

A. The guaranteed minimum is \$188,613.46 (for the base period only).

B. The maximum ceiling on the resultant contract is \$11,316,807.30.

**V. REQUIREMENTS**

A. Start-up-Period: The Contractor's startup period will take place prior to the first order and is included in the 18-month period of the base period. The Contractor shall submit a proposed implementation schedule to the Contracting Officer within five (5) days after award highlighting the steps that will be taken to implement a fully functional distribution account, including all EDI transactions for all

**CONTINUED ON NEXT PAGE**

customers covered by this solicitation. An additional thirty (30) days will be granted for actual implementation. No more than thirty (30) days after award will be permitted for each contractor to have fully functional distribution accounts in place for all customers.

## VI. CATALOGS

Offerors will be required to maintain electronic catalogs that list all items available to the customers covered under this solicitation. Each item in the catalog shall contain the corresponding national or local stock number, Government item description, packaging characteristics, unit of issue and unit price.

### A. Catalog Maintenance

#### 1. New Items

(a) Prior to commencement of the first order, DLA Troop Support Pacific, the customer and the vendor will collaborate to identify items not found in the Schedule of Items which are to be added to the ordering catalog. Neither the vendor nor customer is permitted to add a new item to the catalog without initiating a new item request to the Contracting Officer.

(b) After ordering commencement, if a customer desires to order a Fresh Fruit and Vegetable (FF&V) item that is not part of the ordering catalog, the contractor will be allowed a maximum of twenty (20) days to source the item, obtain a stock number from DLA Troop Support Pacific (if required) and add the item to the ordering catalog via an 832 catalog transaction. These items should then become a permanent part of the contractor's inventory, dependent upon availability, after the Contracting Officer's determination of fair and reasonable pricing. The contractor shall utilize the Contracting Officer provided form when requesting all item approvals (additions and/or changes). The form is mandatory and is Attachment 2.

(c) The successful awardee shall assume the responsibility of introducing new produce items to the customers, as well as showing cost effective alternatives to their current choices.

#### 2. Catalog Pricing

(a) Schedule of Items Pricing: Items priced in the Schedule of Items (See Attachment) will be included in the ordering catalog following award. Schedule of Items will be determined fair and reasonable prior to award. The final proposed price for each item in the Schedule of Items will be the catalog price during the first week of customer ordering.

(b) Catalog Price Changes: Once an item is listed on the ordering catalog, the contracting officer will make on-going price reasonableness determinations. In accordance with clause Economic Price Adjustment –Actual Material Costs for Subsistence Delivered Price Business Model, contractors are permitted to submit a weekly EPA for items found on the catalog. For each item the vendor is requesting a price change, the contracting officer will conduct a separate price reasonableness determination. The item will be removed from the catalog until a fair and reasonable price can be determined by the Contracting Officer.

(c) Catalog Additions: Before an item is added to the catalog vendors are required to submit to the contracting officer a request of proposed catalog additions (See Attachment). The request shall include the stock number, Government item description, proposed unit price and a corresponding supplier invoice or quote, and proposed distribution price. **The request is due by 9:00 AM HST on the Monday prior to inclusion of the Wednesday catalog updates.** The contracting officer will review the catalog addition request and upon determining the price fair and reasonable will contact the contractor to indicate acceptance. The contractor shall then include the item on Wednesday's catalog update. Should the proposed price fail to be determined fair and reasonable, the contracting officer will conduct negotiations with the vendor. If after negotiations the proposed pricing still cannot be determined fair and reasonable the item will not be added to the catalog.

(d) Pricing Requirements: The final negotiated contract fixed unit price for each item delivered to all customers shall be in effect for a minimum of all orders issued during the first ordering week (from Sunday at 12:01 AM through the following Saturday until midnight). The prices shall remain in effect for all subsequent ordering weeks except as otherwise adjusted IAW clause Economic Price Adjustment –Actual Material Costs for Subsistence Delivered Price Business Model (Nov 2011).

(i) On the first week's catalog the vendor shall submit final evaluated prices as awarded using the 832 transaction unless lower market prices are available at time of award whereby the vendor shall adjust their catalog prices to provide all available lower prices to the Government. Because this award is being made as Low Price Technically Acceptable, there is no upward adjustment on the final evaluated price for the first week's catalog. For Troop Customers the vendor retains the right to limit deliveries under the first week's catalog to delivery days in the first week plus the following Monday and Tuesday.

#### 3. Rebates/Discounts and Price-Related Provisions

(a) The contractor shall employ prevailing commercial methods in the pursuit of discounts, rebates, allowances or other similar economic incentives or benefits, for the customers supported under this contract, throughout the period of performance. All NAPA discounts, food show discounts, early payment discounts (except as identified in paragraph (b) herein), and other discounts, rebates, allowances or other similar economic incentives or benefits received by the Contractor at any time during the period of performance shall be passed to the Government via a reduced catalog price. Instructions for identifying discounts, rebates, allowances or other similar economic incentives or benefits that shall be provided to the Government or retained by the contractor are set forth in the submission requirements in the Business Proposal/Pricing and in the Reports section of the Statement of Work.

(b) The contractor may retain Early Payment discounts that meet the following conditions:

(i) the Early Payment discount is an incentive to encourage payment earlier than the normal payment due date;

(ii) the Early Payment discount is consistent with commercial practice;

**CONTINUED ON NEXT PAGE**

- (iii) the Early Payment discount is routinely given by the manufacturer/growers to customers other than the Prime Vendor/Contractor at the same discount rate and under the same conditions as provided to the Prime Vendor/Contractor;
- (iv) the Early Payment discount is not established, requested, or negotiated for the purpose of avoiding giving DLA TROOP SUPPORT PACIFIC a lower cost or a rebate or in exchange for a higher invoice price;
- (v) the Early Payment discount is no more than 2 percent of the manufacturer/grower's invoice and the early payment is required within 10 days to obtain the discount; and
- (vi) the contractor actually made the required payment within the time period required to receive the discount.

(c) Upon request the contractor shall provide to the Government any invoices, quotes, or agreements relevant to the delivered price component for existing catalog items, for any new items being added to the catalog, and for requested price changes to existing catalog items. The contractor must include detailed payment terms on each invoice or quote used to substantiate delivered price, including any applicable discounts or rebates. If there are no payment terms associated with the document, the contractor must annotate it with "No payment terms."

(d) The government may require the contractor to submit invoices and other documentation from all subcontractor tiers or any supplier or person in the delivered price supply chain, to substantiate all discounts, rebates, allowances or other similar economic incentives or benefits. If the Contracting Officer determines, after reviewing an invoice or other documentation, that a discount, rebate, allowance or other similar economic incentive or benefit should have been passed on to the Government, or if price verifications reveal any instance of overpricing or underpricing, the Government shall be entitled to a prospective delivered price reduction and a retroactive refund for the amount of the overcharges or discounts, rebates, allowances or other similar economic incentives or benefits, including interest and the contractor shall be entitled to a credit for any undercharges. The Contracting Officer, or authorized representative, shall have the right to examine and audit all the Contractor's records relevant to the existence of discounts, rebates, allowances or other similar economic incentives or benefits, and commercial customer delivered prices. Failure to exercise this right shall not constitute a defense or alter the Government's entitlement to any other remedies by contract or by law.

## VII. CUSTOMERS

A. Adding Customers within the Oahu distribution zone.

1. Additional customers that request DLA Troop Support Pacific produce support will be added on to the resultant Produce Long Term Contract under this solicitation, without any new acquisition or competition process, if the customer(s) is clearly within the Oahu Distribution Zone covered by this contract.

2. In this case, the contractor shall include this customer(s) at the effective contract prices applicable to that contract zone or region.

3. The decision as to whether the new customer is clearly within the contract region or zone and will be added to the contract without further competition and at existent contract prices, shall be the sole decision of the DLA Troop Support Pacific Contracting Officer.

B. Adding Customers outside the Contract Geographic Distribution Region/Zone that are not Covered by a Current Produce Long Term Contract.

1. This provision applies to the following customers:

(a) A new DoD federal customer that is not clearly within the contract geographic distribution region/zone and for which the contractor will not accept the customer(s) at the effective contract price,

(b) A customer(s) located in an area that may be considered adjacent or proximal to the geographic distribution region/zone covered by more than one contractor.

(c) The above instances may occur when new customers request DLA Troop Support Pacific produce support or a current Contractor is no longer able to support that proximal customer installation(s). In these latter events, the DLA Troop Support Pacific will utilize this provision to expeditiously source a Contractor for the customer installation(s).

2. The customer installations described in paragraph B above, and their Produce requirements, will be added to a Contractor's contract as follows:

(a) Complete price proposals to support the subject new customer(s), to include distribution and delivered prices, will be requested from only existing Subsistence Produce contractors that are proximal to the new customer, i.e. close in distance. Also, the Government may use any in house records.

3. The contract maximum may not be exceeded, even with the addition of a new customer(s).

4. The decision as to which contractors are proximal to the new customer and will be requested to provide a proposal to support such customer shall be the sole decision of the DLA Troop Support Pacific Contracting Officer.

## VIII. CUSTOMER SERVICE

CONTINUED ON NEXT PAGE

A. USDA School Lunch Program have periodic food menu board, and other types of meetings which the vendor may be required to attend. B. Vendors shall provide at least one (1) full time Customer Service representative to maintain continuous contact with all of the ordering activities. The name of the representative and the phone number, mobile phone number, beeper number, email address, or any other method of communicating with the representative, shall be furnished to the customer after award.

C. The vendor shall assume the responsibility of introducing new food items to the customers, as well as to show cost effective alternatives to their choices.

D. Since many of our customers only have access to the Government phone network, it is strongly preferred that a toll free number be provided.

#### **IX. VALUE ADDED SERVICES**

A. Market Forecast: The vendor is required to provide the customer and the contracting officer with a weekly produce market forecast bulletin on Friday which outlines for the following week information regarding supply availability, product quality, associated growing areas, price trends, weather conditions, and handling tips.

#### **X. ORDERING SYSTEMS**

A. Fresh Fruits and Vegetable Order Receipt System (FFAVORS WEB): Non-DoD customers (USDA school customers and Tribal Organizations) will utilize the Fresh Fruit and Vegetable Order Receipt System (FFAVORS) Web catalog. The successful awardee will be provided a User ID and password to Log in and receive orders through FFAVORS Web, a web-based ordering system. The vendor is responsible for establishing and maintaining the FFAVORS WEB catalog in accordance with the attachment.

1. Accessed via the Internet. FFAVORS WEB is the Government's ordering system for USDA Customers. It is capable of accepting orders from the schools.

2. Customers will be able to order all of their requirements through FFAVORS WEB. The system will transmit orders to the vendor and DLA-Troop Support. USDA will assume responsibility for this system beginning with school year 2013.

3. In the event the FFAVORS WEB system is not operational, the vendor must provide alternate ways for the customer to order (e.g., by fax, by phone, pick up orders.)

C. Public Key Infrastructure (PKI)/ External Certificate Authorities (ECA) Certificates: The Department of Defense (DoD) Public Key Infrastructure (PKI) Certificate will be required for all DoD users. A DoD PKI certificate will be required for all contractors. The requirement for PKI certificates is implemented in accordance with DoD security policy promoting secure electronic transactions.

1. Obtaining a PKI certificate:

(a) Contractors who do not work on-site at a Department of Defense facility may purchase a DoD PKI certificate from one of three External Certificate Authorities (ECAs). The ECAs are vendors who provide digital certificates to DoD's industry partners who are using their own equipment or working in non – Governmental facilities. Certificate prices range from \$99 - \$115 per certificate per year, with volume discounts at some ECAs. A list of ECAs is available at: [https://www.daas.dla.mil/daashome/pki\\_contacts.asp](https://www.daas.dla.mil/daashome/pki_contacts.asp).

(b) Each contractor must fully comply with the DoD requirement to implement PKI in order for our information systems to remain secure and viable.

#### **XI. ORDER PLACEMENT**

A. Minimum order requirement for any resultant contract is \$100.00. The \$100.00 minimum order shall be based on the aggregate total of orders to all customers located within a particular base or location. See attachment for specific delivery information for the customers.

B. School customers shall place their orders to accommodate a 3 day order/ship time. For example, the vendor downloads the order on Tuesday and prepares shipment for Friday, in effect, 3 day order/ship time. See attachment for specific delivery information for School and Reservation customers.

C. All invoice pricing will be based upon the unit price at time of order. For example, for any item ordered on a Friday to be delivered the following week, pricing will be based upon the Friday price, regardless of whether the unit price for that item changed as part of the weekly catalog update.

**CONTINUED ON NEXT PAGE**

**XII. ITEM AVAILABILITY**

A. Vendors must have access to items in sufficient quantities to fill all ordering activity requirements. All supplies shall be furnished on a "fill or kill" basis. The order must be filled in its entirety or canceled (killed). Partial shipments are acceptable if the customer is notified in advance and agrees to the partial shipments; however, the unfilled quantity is to be reported as not-in-stock (NIS). Offerors are required to have procedures for handling NIS situations. The contractor is required to stipulate timeframes in which the NIS item will be identified to the customer prior to delivery, in order that a substitute item may be requisitioned via a new order. Only substitutes of comparable description, quality, and price may be offered to the customer.

B. Vendors shall notify the customer within 24 hours of order placement of the non-availability of any item. Vendors shall offer the customer a substitute of equal or higher quality and at an equal or lower cost, or advise them of the not-in-stock position of the item. Substituted product shall not be delivered without prior consent by the customer. Substituted items must be noted as such on the invoice.

**XIII. PACKAGING, PACKING, LABELING AND MARKINGS**

A. All packaging, labeling and packing shall be in accordance with good commercial practice. Shipping containers shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification Code.

B. To ensure that the carrier and the receiving activity properly handle and store items, standard commercial precautionary markings such as "KEEP REFRIGERATED" shall be used on all cases when appropriate.

C. Protection during inclement weather is required. All products that are susceptible and sensitive to temperature must be protected by any means to prevent damage.

**XIV. DELIVERY INSTRUCTIONS**

A. Vendors shall ensure all products are delivered in sanitary trucks that are of a commercially acceptable standard. Trucks shall maintain proper temperatures, as determined through standard commercial practices (USDA Protecting Perishable Foods During Transport by Truck, <http://www.ams.usda.gov/AMSV1.0/getfile?dDocName=STELDEV3021003&acct=atpub>). Deliveries shall be F.O.B. destination to all ordering activities and delivery points. All items will be delivered to customer locations, free of damage, with all packaging and packing intact. The contractor shall remove all excess pallets used for delivery from the delivery point. A listing of all the delivery points per zone can be found in the attachment.

B. School delivery schedules (days and times) routes and stop-off sequence will be coordinated and verified with the customers on a post award basis by the awardee(s). In general, each school customer receives one (1) delivery per week.

C. Products for individual customers. Many of the school customers may have more than one delivery point. All products shall be segregated by drop-off point and loaded into the delivery vehicle in reverse drop sequence. The intent is to provide expeditious off-loading and delivery to the customer.

D. The offeror shall also ensure that the personnel loading and delivering the product provide prompt and efficient service to the customer.

**XV. INSPECTION AND ACCEPTANCE**

A. Inspection and Acceptance of products will be performed at destination. The inspection is normally limited to identity, count and condition; however, this may be expanded if deemed necessary by either the military Veterinary Inspector, Dining Facility Manager, Food Service Advisor/Officer, or the Contracting Officer. Delivery vehicles may be required to stop at a central location for inspection before proceeding to the assigned delivery point(s). In addition, the delivery vehicles will be inspected for cleanliness and condition. Supplies transported in vehicles that are not sanitary, or which are not equipped to maintain prescribed temperatures, may be rejected without further inspection.

B. The authorized receiving official at each delivery point is responsible for inspecting and accepting products as they are delivered. The delivery ticket shall not be signed prior to the inspection of each product. All overages/shortages/returns are to be noted on the delivery ticket by the receiving official and truck driver. The authorized Government receiving official's signature and printed name on the delivery ticket is required for acceptance of the product.

C. The contractor shall forward two (2) copies of the delivery ticket with the shipment. The receiving official will use the delivery ticket as the receipt document. 1. The DLA Troop Support Pacific Quality Audit personnel may conduct unannounced Quality Systems Management Visits (QSMVs) to review the contractor's compliance with the terms of the contract. The visits will be scheduled as a result of unsatisfactory ratings received during Troop Support Produce Quality Audits, customers' complaints, requests from the Contracting Officer, or as deemed necessary by the Government. QSMVs may include visits to subcontractors, growers, and/or suppliers/food distributors used by the contractor. If DLA Troop Support Pacific deems it necessary to conduct an on-site visit with a subcontractor, grower, produce supplier, and/or food distributor used by the contractor, the contractor shall make arrangements for these visits.

2. During the QSMV the Government will review/verify the contractor's implemented Quality Program and several or all of the following areas (this list is not inclusive) as deemed necessary: The methods and procedures used to comply with the terms of the contract; condition of storage facilities; product shelf-life management; inventory in-stock (age of product and condition, labeling, product rotation, etc.); product substitutions; control of material targeted for destruction/disposal as a result of DLA customers' returns including DLA Troop Support Pacific audit results and recalls; review of paperwork for product destroyed/condemned including but not limited to product rated Blue/Red during the last DLA Troop Support Pacific audit, customer, returns, etc.; customer's notification on product recalls (product rated Blue/Red/other reason), etc; contractor's response to customer returns/issues, and contractor's visits to customers. 3. The contractor's proposal will be incorporated by reference into the contract. The contractor will be responsible for complying with its proposal. Procedures and processes set forth in the contractor's proposal may be used as standards for a QSMV. If there is any conflict between the solicitation language and the contractor's proposal, the solicitation/contract/ language governs.

4. The Contractor must take corrective action to address any concerns identified as a result of the QSMV. Concerns identified during the QSMV, or contractor failure to take corrective action in response to QSMV findings, will be grounds for terminating the contract. The government may, at its discretion, take other action to correct the concerns identified during the QSMV such as but not limited to another QSMV or Special Produce Audit. Such action will not eliminate the government's right to terminate the contract should the identified concerns or contractor failure to take corrective action continue.

**B. Produce Quality Audits:****1. Basic Audits:**

(a) The DLA Troop Support Pacific Produce Quality Audit Program covers all produce items listed in the contractor's catalog (fresh, fruits and vegetables, fresh-cut products, etc.) and functions as a Service and Quality Assurance check for DLA Troop Support Pacific customers to ensure customers are receiving safe produce of an optimum quality level. The audit objectives focus on the following:

1. Contractor's adherence to contractual requirements.
2. Compliance with the specified US Grade or higher.
3. The quality level of the products supplied is satisfactory and uniform.
4. There is no product misrepresentation or unapproved substitution.

(b) The Produce Quality Audit objectives are accomplished utilizing the expertise of the US. USDA Agricultural Marketing Service (AMS) Fresh Products Branch personnel and DLA Troop Support Pacific Quality Auditors. Representatives from the above agencies form the DLA Troop Support Pacific Produce Quality Audit Team.

(c) Each contractor will undergo an initial audit once per contract period with the first audit occurring during the base period and other initial audits or QSMVs occurring once per option period. The Audits are conducted as a product cutting. The average cost of one Produce Quality Audit is approximately \$1,000.00 (product cost only). The contractor is expected to provide samples of the Government's choice of a cost of approximately \$1,000.00 per audit. The contractor is required to provide the following support to the DLA Troop Support Pacific Produce Quality Audit Team: Personnel and equipment to select separate/move/discard audit samples, control of samples while at the contractor facility and during the audit. Additional cost may be incurred by the contractor if additional produce samples are selected due to initial audit failure or customer complaint or if the contractor's facility does not have a facility/kitchen or the equipment needed to perform the audit and/or space to accommodate customers attending the audit. NOTE: The Government reserves the right to conduct an Unannounced QSMV in lieu of an initial audit or a follow-up audit during the base period and/or any option period if deemed in the best interest of the Government.

**2. Audit Process:**

(a) The Contractor will be given advanced notice of sixty (60) calendar days of an impending audit. Notwithstanding this, the Government reserves the right to conduct unannounced Produce Quality Audits or QSMVs.

**CONTINUED ON NEXT PAGE**

(b) The DLA Troop Support Pacific Produce Quality Audit is typically a two (2) day process. Day one is devoted to sample selection at the contractor's warehouse and performance of the USDA's Good Agricultural Practices (GAP) & Good Handling Practices (GHP) Audits. Day two encompass the performance of the actual Produce Quality audit.

(c) Upon arrival at the contractor's facility (Day One), the DLA Troop Support Pacific Representative will provide a list of items identified for evaluation and the samples will be selected by a USDA-AMS' Auditor. This representative will accompany the USDA-AMS during the performance of the GAP/GHP Audits.

(d) Items selected for evaluation will be segregated from the contractor's regular inventory and appropriate procedures shall be used to maintain the integrity of the samples. Evidence that the contractor has replaced or tampered with samples, or otherwise interfered with the audit samples and/or audit process will result in the contractor failing the audit. One or more audit failures may be grounds for terminating the contract.

(e) During the Produce Quality Audit (Days Two), the DLA Troop Support Pacific Representative will assign an item rating based on compliance with or departure from stated requirements in the DLA Troop Support Pacific NSN catalog and the specified US Grade Standard. Items will also be audited to determine compliance with the Berry Amendment, as applicable, approved source requirements, FDA Retail Food Code, USDA Warehousing Standards, Good Manufacturing Practice, additional provisions of the Code of Federal Regulations and other applicable standards.

(f) Failure to meet the specified US Grade, deviations from the required contract or stock number requirements will be color coded and classified based on the severity of departure from requirements as follows:

1. Contractor Product Audit Ratings (Color Code Ratings Symbology):

a. ACCEPTABLE (GREEN) = Acceptable. No deviations from the contract or the item description stock number requirements.

b. MINOR NONCONFORMANCE (YELLOW) = Not fully acceptable. A Minor nonconformance is a deviation from the contract or the item description stock number requirements. This minor nonconformance is not likely to materially reduce the usability or serviceability of the item for its intended purpose and, depending on the defect, or affect its condition and/or the continued storage of the item for further use. Products that meet the specified US Grade but exhibit product defects (decay, spoilage, skin breakdown, etc.) likely to continue affecting the condition of the product and continue deteriorating during storage and/or effecting good product if defective units are not removed from cases/containers. Examples of other minor nonconformance's: Cataloging issues; Minor or workmanship/fabrication violations (fresh pre-cut products); Minor weight violations; Minor deviations from packing, packaging, labeling and marking requirements that would not necessitate a regulatory market suspension or affect DLA Troop Support Pacific's ability to recall the item. ACTION REQUIRED: Produce with defects (decay, spoilage, skin breakdown etc.) that will continue deteriorating or condition/defects that will affect the condition of good product during storage requires attention from the contractor such as reworking and removing defective product while in-storage or prior to delivering to customers. Minor nonconformance's that will not change or further deteriorate (scars, size, weight, etc.) while product is in-storage or when delivered to the customer may be tolerated by the customer for a short period of time (until the contractor receives a new product at OCONUS but for no more than 30 days at CONUS locations).

c. MAJOR NONCONFORMANCE (BLUE) = A major nonconformance, other than critical, is a deviation from the contract, the item description stock number and/or failure to meet the specified US Grade requirements. This major nonconformance is a deviation that materially affects or is likely to have a major effect on the serviceability, usability, condition and/or continued storage of an item for further use. Examples of major nonconformance's: Grade failures; Domestic source/regulatory/approved source violations; Wrong item; Major workmanship/fabrication violations (pre-cut items); Major weight violations; Item shelf life/ expiration date violations; Not latest season pack/crop year violations; Items that exhibit temperature abuse, and/or other off condition that although not likely to result in hazardous or unsafe conditions, the defect and/or combination of defects materially affect the item serviceability for its intended purpose; and/or major deviations from packing, packaging, labeling and markings that would necessitate a regulatory market suspension or have a major effect on DLA TROOP SUPPORT PACIFIC 's ability to recall the product. ACTION REQUIRED: The contractor is required to STOP ISSUE of the item immediately, unless otherwise approved by the Contracting Officer.

d. CRITICAL NONCONFORMANCE (RED) = A critical nonconformance is a deviation that judgment and experience indicate consumption of the item is likely to result in hazardous or unsafe conditions for individuals. An item will receive a Red Rating if it contains a critical defect(s) that involve food safety issues such as wholesomeness, foreign material, contamination or adulteration issues that judgment and experience indicate consumption of the item is likely to result in hazardous or unsafe conditions for individuals. Examples of critical nonconformance's: Items with food safety concerns are those items that exhibit contamination, foreign material, and/or other conditions that render an item unfit for human consumption. ACTION REQUIRED: Contractors are required to immediately STOP ISSUE of the product and notify DLA Troop Support Pacific customers to return or dispose of the product in question, and notify grower/supplier/distributor of the product (if applicable).

2. Notes:

**CONTINUED ON NEXT PAGE**

a. MAJOR NONCONFORMANCE (BLUE) = In OCONUS locations only, the Contracting Officer may approve continue issue of the product because of location extenuating circumstances and on a case-by-case basis. This approval is depending on the type and severity of the deviation/defect, the DLA Troop Support Pacific Quality Lead Auditor (lead Auditor that performed the audit) recommendation, customer approval, and if the substitute of equal/higher quality is Not-in-Stock at OCONUS location. Continued issue of the item may require and include contractor screening/rework of the nonconforming product (removal of defective product) and follow-up Government inspection/audit to verify action taken by the contractor (at no cost to the Government for inspection/travel costs). At CONUS/OCONUS locations, only the Contracting Officer, NOT the customer or the Lead Auditor, has the authority to accept wrong items (not meeting item description cited in DLA TROOP SUPPORT PACIFIC catalog or not meeting the specified US Grade cited in the contract, etc.). The Rating assigned to the item WILL NOT be changed by the Lead Auditor because of acceptance with a waiver/rework/repair of the product in question. The DLA TROOP SUPPORT PACIFIC Food Safety Office at the request of the Contracting Officer, may issue a restricted (to DLA TROOP SUPPORT PACIFIC customers only) a Hazardous Food Recall for all those items originating from an unapproved source and distributed to DLA Troop Support Pacific customers.

b. CRITICAL NONCONFORMANCE (RED) = The DLA Troop Support Pacific Representative will issue a Hazardous Food Recall for all critical nonconformance's involving items with food safety concerns that render an item unfit for human consumption or may present a health hazard for DLA Troop Support Pacific customers . If applicable, the Contracting Officer should suggest growers/suppliers of the item to review shipping documents to ensure the same item was not delivered to other DOD customers.

### 3. Contractor Audit Preparation:

(a) The contractor is responsible and will bear all costs for the facility and the equipment/supplies used during the audit. Immediately upon receipt of the audit notification, the contractor shall make arrangements to use their normal product cutting room/kitchen (if adequate) or find another facility for the audit. If there is no space available at the contractor facility or the space is inadequate other arrangements must be made by the contractor. The room must be equipped with running water. To ensure accurate weight of audited items, it is highly recommended that scales used during the audit are calibrated within the 60-day notification period and an applicable set of test weights are available to verify scale accuracy. A digital scale capable of weighing small items and a scale capable of weighing full cases are required. Cleanup of the cutting area/room and continuous cleanup of equipment will be the contractor's responsibility. The contractor must contact the Lead Auditor to discuss the location, adequacy of the facility, and equipment available as soon as possible but no later than 45 Calendar days prior to the audit. The following is the list of equipment/supplies needed:

1. Storage area to store samples selected. (Approximately 2 pallets).
2. Chill storage area for samples that require refrigeration (Approximately 2 pallets).
3. Tables for conducting the audit and demonstration.
4. Sinks/wash area equipped with sanitizing soap for cleaning knives and equipment.

### 4. Sample List / Selection of Samples:

Two-case sample for each item will be selected. An on-hand inventory quantity report (i.e. number of cases on hand) should be developed for each item after receipt of the list. Warehousing assistance will be required to pull and prepare samples for the audit. Assistance with moving samples from the storage areas to the audit area and also continuous removal of items after review will be required on audit days. Some samples may require refrigeration; an area will need to be provided for sample storage. All samples must be stored in a controlled environment to protect from temperature abuse or tampering. Fruit and Vegetable commodities will consist of 8 - 13 samples (2-case/ shipping container per item) randomly selected per each commodity depending on last audit acceptability rating for each commodity. The entire contents of the two-case samples will be examined during the audit. Additional samples may be selected at the request of the Contracting Officer due to customer complaints.

**CONTINUED ON NEXT PAGE**

Note: Certification/Documentation - To avoid delays/questions during the audit, the contractor should ensure that ALL products intended for DLA Troop Support Pacific's customers are derived from Approved Sources and meet the Berry Amendment requirements (unless otherwise is excluded in the contract/FAR/DFAR or authorized by the Contracting Officer). The contractor should obtain and have certification/documentation available during the sample selection (preferable) and/or during the audit should the Lead Auditor need to review documentation to verify compliance.

#### 5. Audit Results:

(a) The audit results are performance indicators that will be used in conjunction with a contractor's past performance. DLA TROOP SUPPORT PACIFIC considers 85% acceptability for each commodity (fresh fruits and vegetables) as the minimum standard for acceptable performance. Contractors will be given a detailed report on each product reviewed. It will be the Contractor's responsibility to take immediate action to correct any deficiency uncovered during the audit. Corrective action must include action to address the deficiency and the system which allowed the deficiency to occur. Audit failures and/or failure to take corrective action will be grounds for terminating the contract.

#### 6. Follow-Up Audits:

(a) Follow up audits may be scheduled within a one-year period of the initial audit or sooner as deemed necessary by the Government. Grounds for follow-up audits include but are not limited to failure to obtain an acceptable rating (<85%) in the Fresh Fruit & Vegetable Commodity, repetitive failures, and customer complaints. All samples, audit facility, and equipment/supplies needed for the follow-up, same as indicated above for the initial audit, are to be at the expense of the Contractor. During a follow-up audit only the commodity that failed the initial audit (scored <85%) will be audited. Also, a commodity that had an unreasonable number of items not-in-stock (more than 50% of items listed in the contractor's catalog were NIS) during the initial audit, may also be audited during a follow-up. If the follow-up audit is for failure of the USDA-AMS' GAP or GHP Audits or other non-product issue, no product will be audited during the follow-up audit.

#### 7. Audit Failures:

(a) As noted herein, audit failures and/or failure to take corrective action will be grounds for terminating the contract. The government may, at its discretion, take other action to address the audit failure such as, but not limited to unannounced QSMVs and/or follow-up audits. Such action will not eliminate the government's right to terminate the contract should the deficiency or system which allowed the deficiency to occur remain uncorrected.

Fresh-cut products bags must be marked with the appropriate shelf life from the Date of Production (DOP).

##### 2. Traceability Requirements for Contractors, Contractor's Suppliers Re-Packaging and Re-Labeling Products:

(a) All fresh fruits and vegetables must be able to be traced back to the grower/supplier of the product. If the contractor or the contractor's distributor/supplier removes the produce from the grower/packer's original packaging/shipping container and re-packages/re-labels an item, documentation must be maintained to trace back to the grower/packer to verify domestic origin, approved source as applicable, and/or in case of a hazardous food recall or an item is rated Red/Critical during a DLA Troop Support Pacific Produce Quality Audit. The contractor shall maintain or request from their suppliers/distributors documentation/certificates containing the following information: Item nomenclature, name of establishment/Grower, location, country of origin, date of production/pack (DOP), lot number, etc. If packaging of the item occurred in more than one establishment, documentation for each item must also be maintained / provided. These records must maintain traceability of the item to the extent that an item can be traced back to the original grower/packer of a product. In addition; the contractor shall maintain records of quantities and when and where the re-packaged/re-labeled item(s) were shipped. The contractor must be able to show/provide DLA Troop Support Pacific Produce Quality Audit Team the documentation for samples selected during Produce Quality Audits or Unannounced QSMVs. It is the contractor's responsibility to notify and ensure their suppliers understand and comply with this requirement. The above requirements are necessary in the event of a Hazardous Food Recall (i.e., ALFOODACT) of potentially hazardous product when a recall is issued by a Regulatory Agency and for the contractor to isolate suspected items in order to notify customers in an expeditious manner whenever products are rated "Red/Critical" during a DLA Troop Support Pacific Produce Quality Audit. The above requirements serve two main purposes:

(4) The Contractor must assert its right to an adjustment under this clause within thirty (30) days from the date of receipt of the written order. **ECONOMIC PRICE ADJUSTMENT (EPA) CLAUSE (DLAD)**

Economic Price Adjustment (EPA) – Actual Material Costs for Subsistence Delivered Price Business Model

- (a) Warranties. For the portion of the schedule that is covered by this EPA clause, the Contractor warrants that—

CONTINUED ON NEXT PAGE

(1) Contract unit prices covered by this contract do not include allowances for any portion of the contingency covered by this clause; and

(2) All price adjustments invoiced under this contract shall be computed in accordance with the provisions of this clause.

(b) Definitions. As used throughout this clause, the term:

(1) "Contract Unit Price" means the total price per unit charged to DLA Troop Support for a product delivered to DLA Troop Support's customers. The Contract Unit Price consists of two components: Delivered Price and Distribution Price. The unit price sum of the two component prices shall be rounded up or down as applicable, to the nearest cent to determine the final Contract Unit Price.

(2) "Delivered Price" means the most recent manufacturer, grower or private label holder commercial price per unit to the Contractor, inclusive of standard freight. The Delivered Price shall be based on free on board (f.o.b.) Destination. Delivered Price shall exclude all costs that are to be covered in the Distribution Price.

(i) Exceptions:

(A) Mandatory Source Items: The Delivered Price shall be limited to the nonprofit agency's price for product as set in accordance with applicable law, plus applicable freight.

(B) A contiguous United States (CONUS)-based redistributor's price for a specific manufacturer's/grower's/private label holder's product (SKU) may be considered by the Government as long as the redistributor's price for the quantity ordered is equal to or lower than the manufacturer's/grower's/private label holder's published price inclusive of discounts/allowances. This exception must be approved by the Contracting Officer on a case by case basis. Supporting documentation may be required.

(3) "Product Allowance" means discounts, rebates, and allowances to be passed on to the Government. In accordance with other provisions of the contract (and subject to any exception in those provisions), all discounts, rebates, or allowances on particular items which are reflected in the amounts shown on the face of the manufacturer's, grower's or private label holder's invoice (referred to as "off-invoice allowances") or otherwise given to the Contractor by the manufacturer, grower or private label holder, shall be passed by the Contractor to the Government, in the form of an up-front price reduction. The total of these discounts, rebates, and allowances (Product Allowance), shall be reflected via a reduced Subsistence Total Order and Receipt Electronic System (STORES) price and Fresh Fruit and Vegetable Order Receipt System (FFAVORS), resulting in a lower invoice price to the customer. Any rebates that must be passed to the Government and which cannot be applied as an up-front price reduction must be submitted via check made to the US Treasury, with an attached itemized listing of all customer purchases by line item to include contract number, call number, purchase order number and CLIN number.

(4) "Distribution Price(s)" means the firm fixed price portion of the Contract Unit Price, offered as a dollar amount per unit of issue, rounded up or down to the nearest cent. The Distribution Price is the only method for the Contractor to bill the Government for all aspects of contract performance other than Delivered Price; including but not limited to, the performance requirements of the SOW for the applicable SPV solicitation and resulting contract. As detailed above in (2), Delivered Price is distinct from and not to be included in the Distribution Price.

(5) "Ordering Catalog" means the electronic listing of items and their corresponding contract unit prices available for ordering under this contract.

(6) "Ordering Week" means from Sunday at 12:01 AM through the following Saturday until midnight (Hawaii Time (HT), standard or daylight as applicable).

(c) Price adjustments.

(1) General.

(i) All contract unit prices shall be fixed and remain unchanged until changed pursuant to this clause or other applicable provision of the contract. Only the Delivered Price component of the Contract Unit Price is subject to adjustment under this clause. After the first Ordering Week, if the Contractor's Delivered Price changes for any or all contract unit prices, the Contract Unit Price shall be changed in the next week's Ordering Catalog upon the Contractor's request, submitted in accordance with paragraph (iii) below, by the same dollar amount of the change in the Delivered Price, subject to the limitations in paragraph (d). The price change shall be effective at the beginning of the next Ordering Week. All Ordering Catalog Unit Prices computed in accordance with this clause and in effect when an order is placed shall remain in effect for that order through delivery. DLA Troop Support will be charged the

Contract Unit Price in effect at the time of each order regardless of any changes in the unit price occurring in any subsequent Ordering Week.

(ii) Catalog Delivered Prices must be reflective of the prime vendor's last receipt price (the price of the stock most recently received into SPV Contractor's inventory).

(iii) Updates to the Delivered Price: All notices and requests for new item Delivered Prices and price changes shall be submitted weekly, no later than 12:00PM Hawaii Standard Time on Wednesday to be effective in the following Ordering Week's Ordering Catalog prices. The Delivered Price shall have any and all Product Allowance subtractions made prior to presenting the Delivered Price to DLA Troop Support. The Contractor shall notify the Contracting Officer of its notice/request in the form of an electronic data interchange (EDI) 832 transaction set. The change notice shall include the Contractor's adjustment in the Delivered Price component of the applicable Contract Unit Price. Upon the Contracting Officer's acceptance of such 832 price changes in accordance with paragraph (v) below, the price change transaction sets will post in the next week's Ordering Catalog and each Contract Unit Price shall be changed by the same dollar amount of the change in the Delivered Price in the next week's Ordering Catalog.

(iv) All price changes, and catalog contract prices, are subject to review by the Government. The Contracting Officer may at any time require the submission of supporting data to substantiate any requested price change or the requested continuation of the pre-existing price for any item, including prices applicable to prior Ordering Weeks. Upon notice from the Contracting Officer that supporting data is required, the Contractor shall promptly furnish to the Government all supporting data, including but not limited to, invoices, quotes, price lists, supplier documentation regarding rebates/allowances, and any other substantiating information requested by the Contracting Officer.

(v) Price change requests that the Contracting Officer questions or finds to be inconsistent with the requirements of this clause shall not be posted until the Contracting Officer specifically authorizes the posting. If the Contracting Officer does not notify the Contractor by close of business, 3:00PM Hawaii Standard Time each Friday that a price or a price change request is being questioned or has been found to be erroneous, the price change(s) will post to the ordering catalog effective the beginning of the following Ordering Week. The posting of updated prices in the Ordering Catalog, calculated in accordance with this clause, constitutes a modification to this contract. No further contract modification is required to effect this change.

(vi) Should the Contracting Officer determine that, or question whether a price change request contained an erroneous unit price or price change, or cannot otherwise determine the changed price(s) to be fair and reasonable, such as when the changed price(s) is(are) higher than lower Delivered Prices for items of comparable quality which are reasonably available to the Government or Contractor from other sources, the Contracting Officer will so advise the Contractor, prior to close of business, 3:00PM Hawaii Standard Time on Friday. If the Contracting Officer cannot determine a price fair and reasonable, and the Contracting Officer and the Contractor cannot negotiate a fair and reasonable price, the Contracting Officer may reject any price change and direct in writing that the item in question be removed from the Contractor's Ordering Catalog, without Government liability. The Contracting Officer may subsequently remove any such item from the Ordering Catalog if the Contractor fails to remove it. The Government has the right to procure such removed items from any alternate source of supply, and the failure of the Contractor to supply such item will be considered a negative instance of performance.

(vii) In the event of a price change not posting or an Ordering Catalog Contract Unit Price not computed in accordance with this clause, resulting in an incorrectly increased or decreased Contract Unit Price, the Prime Vendor shall immediately notify the Contracting Officer in writing and promptly thereafter correct its Ordering Catalog and submit a refund for any amounts paid to the Contractor resulting from the erroneous price. In the event of an erroneous price decrease in the Ordering Catalog, if the Contractor can demonstrate to the satisfaction of the Contracting Officer that the error did not result from the fault or negligence of the Contractor, the Contractor may submit a request for equitable adjustment for consideration by the Contracting Officer.

(2) Limitations. All adjustments under this clause shall be limited to the effect on contract unit prices of actual increases or decreases in the Delivered Prices for material. There shall be no upward adjustment for—

(i) Supplies for which the delivered price is not affected by such changes;

(ii) Changes in the quantities of materials; and

(iii) Increases in unit prices that the Contracting Officer determines are computed incorrectly (i.e. not adhering to the Contract Unit Price definition in this clause) and/or increases in unit prices that the Contracting Officer determines are not fair and reasonable.

(d) Upward ceiling on economic price adjustment. The aggregate of contract Delivered Price increases for each item under this clause during the contract period inclusive of any option period(s) shall not exceed **90 percent (%) for Fresh Fruits and Vegetables (FF&V)** of the initial Contract Delivered Price, except as provided below:

CONTINUATION SHEET	REFERENCE NO. OF DOCUMENT BEING CONTINUED: SPE302-15-D-P001	PAGE 37 OF 39 PAGES
--------------------	--	---------------------

(1) If at any time the Contractor has reason to believe that within the near future a price adjustment under the provisions of this clause will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. In the event the latest actual market price for an item would result in a contract unit price that will exceed the allowable ceiling price under the contract, then the Contractor shall immediately notify the Contracting Officer in writing or via its EDI 832 price change request and separate email no later than the time specified in paragraph (c)(1)(iii) above. With either such notification the Contractor shall include a revised ceiling the Contractor believes is sufficient to permit completion of remaining contract performance, along with appropriate explanation and documentation as required by the Contracting Officer.

(2) If an actual increase in the delivered price would raise a contract unit price for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill future orders for such items, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing. After evaluation of a requested actual price increase, if the Contracting Officer authorizes the change in the contract unit price, the Contractor shall submit an EDI 832 price change. The price change shall be posted for the following week's ordering catalog.

(e) **DOWNWARD LIMITATION ON ECONOMIC PRICE ADJUSTMENTS.** There is no downward limitation on the aggregated percentage of decreases that may be made under this clause.

(f) **Examination of records.** The Contracting Officer or designated representative shall have the right to examine the Contractor's books, records, documents and other data, to include commercial sales data, that the Contracting Officer deems necessary to verify Contractor adherence to the provisions of this clause. Such examination may occur during all reasonable times until the end of 3 years after the date of final payment under this contract or the time periods specified in Subpart 4.7 of the Federal Acquisition Regulation (FAR), whichever is earlier.

(g) **Final invoice.** The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required or authorized by this clause.

(h) **Disputes.** Any dispute arising under this clause shall be determined in accordance with the "Disputes" clause of the contract.

(End of Clause)

**52.217-09 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000) FAR**

(a) The Government may extend the term of this contract by written notice to the Contractor within 2 DAYS [insert the period of time within which the Contracting Officer may exercise the option]; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 30 DAYS days [60 days unless a different number of days is inserted] before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 54 MONTHS/4.5 YEARS (months) (years).

(End of clause)

**252.225-7993 PROHIBITION ON CONTRACTING WITH THE ENEMY  
(DEVIATION2014-O0008)(FEB 2014)**

(a) The Contractor shall exercise due diligence to ensure that none of the funds received under this contract are provided directly or indirectly to a person or entity who is actively opposing United States or Coalition forces involved in a contingency operation in which members of the armed forces are actively engaged in hostilities.

(b) The Contractor shall exercise due diligence to ensure that none of their subcontracts are associated with a person or entities listed in "NDAA FY2012 Section 841/FY2014 Section 831 Identified Entities" list posted at <http://www.acq.osd.mil/dpap/pacc/cc/policy.html>.

(c) The Head of the Contracting Activity (HCA) has the authority to—  
(1) Terminate this contract for default, in whole or in part, if the HCA determines in writing that the contractor failed to exercise due diligence as required by paragraph (a) and (b) of this clause; or

(2) Void this contract, in whole or in part, if the HCA determines in writing that any funds received under this contract have been provided directly or indirectly to a person or entity who is actively opposing or Coalition forces involved in a contingency operation in which members of the armed forces are actively engaged in hostilities.

(d) The substance of this clause, including this paragraph (d), is required to be included in subcontracts under this contract that have an estimated value over \$50,000.
