REBATES, DISCOUNTS AND PRICE RELATED PROVISIONS (SEE STATEMENT OF WORK / SECTION I / PARAGRAPH 8, PAGES 56)

THIS SOLICITATION INCLUDES A SECTION TITLED REBATES, DISCOUNTS AND PRICE RELATED PROVISIONS. THIS SECTION DEFINES SPECIFIC GOVERNMENT REBATES AND DISCOUNTS, WHICH ARE TO BE PASSED TO THE GOVERNMENT IN THE FORM OF A REDUCED CATALOG PRICE. IT ALSO DEFINES EXCEPTIONS TO THIS REQUIREMENT. THESE EXCEPTIONS INCLUDE EARNED INCOME, QUALIFYING EARLY PAYMENT DISCOUNTS, AND LIMITED DISCOUNTS DESIGNATED FOR CUSTOMERS OTHER THAN THE GOVERNMENT.

WEIGHTING FACTOR (SEE PRICE PROPOSAL EVALUATION / SECTION I PRICE PROPOSAL, PAGES 142)

THIS SOLICITATION INCLUDES THE USE OF A WEIGHTING FACTOR IN THE PRICE PROPOSAL EVALUATION. FOR PURPOSES OF THE PRICE PROPOSAL EVALUATION, WEIGHTED AGGREGATE DISTRIBUTION PRICE AND AGGREGATE DELIVERED PRICE ARE CONSIDERED EQUAL. THIS EQUALITY IS ACCOUNTED FOR MATHEMATICALLY BY APPLYING A WEIGHTING FACTOR OF 11.5 (BASED ON CURRENT GOVERNMENT DATA) TO THE AGGREGATE DISTRIBUTION PRICE. EACH OFFEROR'S TOTAL EVALUATED PRICE WILL BE CALCULATED BY ADDING THE WEIGHTED AGGREGATE DISTRIBUTION PRICE AND THE AGGREGATE DELIVERED PRICE TO ARRIVE AT THE WEIGHTED AGGREGATE UNIT PRICE.

PRIVATE LABEL SAVINGS (SEE STATEMENT OF WORK, SECTION VI. SPECIAL CONTRACT REQUIREMENTS/ PARAGRAPH 2. MANAGEMENT REPORTS / 12. PRIVATE LABEL SAVINGS, PAGE 112)

THIS SOLICITATION INCLUDES A NEW MANAGEMENT REPORT, PRIVATE LABEL SAVINGS. THIS REPORT REQUIRES THE CONTRACTOR TO IDENTIFY SAVINGS ASSOCIATED WITH USING PRIVATE LABEL ITEMS, AND TO IDENTIFY POTENTIAL SAVINGS BY RECOMMENDING PRIVATE LABELS IN LIEU OF BRAND NAMES FOR LIKE ITEMS.

THE CONTRACT CLAUSES SECTION OF THIS SOLICITATION REFERENCES THE REVISED DLAD 52.216-9064 ECONOMIC PRICE ADJUSTMENT (EPA) – ACTUAL MATERIAL COSTS FOR SUBSISTENCE DELIVERED PRICE BUSINESS MODEL – DLA TROOP SUPPORT SUBSISTENCE PRIME VENDOR (SPV) CONTIGUOUS UNITED STATES (CONUS) (FEB 2013)

UNDER LOWEST PRICE TECHNICALLY ACCEPTABLE (LPTA) PROCESS, AWARD WILL BE MADE ON THE BASIS OF THE LOWEST EVALUATED PRICE OF PROPOSALS MEETING OR EXCEEDING THE ACCEPTABILITY STANDARDS FOR ALL NON-PRICE FACTORS.

THE GOVERNMENT INTENDS AND RESERVES THE RIGHT TO MAKE ONE AWARD PER ZONE FOR SEPARATE CONTRACTS. CONSEQUENTLY, THE GOVERNMENT WILL EVALUATE AND MAKE ONE (1) AWARD FOR ZONE 1, AND ZONE 2, SEPARATELY. THE GOVERNMENT ENCOURAGES FIRMS TO SUBMIT OFFERS/PROPOSALS FOR BOTH ZONES 1 AND ZONES 2, ALTHOUGH IT IS NOT A REQUIREMENT TO OFFER ON BOTH ZONES. FIRMS MAY OFFER ON EITHER ZONE 1 OR ZONE 2. NOTE THAT THE DECISION TO OFFER ON ONE OR BOTH ZONES IS A BUSINESS DECISION TO BE MADE BY THE OFFEROR; HOWEVER, OFFERORS' PROPOSALS MUST CLEARLY INDICATE TO WHICH ZONE(S) THE OFFER PERTAINS.

ADDENDUM TO FAR 52.212-4

Contract Terms and Conditions – Commercial Items

The following paragraph(s) of 52.212-4 are amended as indicated below:

1. Paragraph (a), *Inspection/Acceptance*, is revised to add the following:

Inspection and acceptance of products will be performed at destination. The Government's authorized receiving official for each customer is responsible for signing for and accepting products when they are delivered. In the absence of an applicable medical inspection authority, the final disposition decision to accept or reject product rests with the food service officer and/or the Government's authorized receiving official. However, when an applicable medical inspection authority is present, a decision to reject product rests with the medical authority under the following conditions:

- (1) Unsanitary conveyances – gross filth, pesticide spillages, mold, etc.
- (2) Improper temperatures of potentially hazardous foods.
- (3) Unapproved sources (those not previously assessed; passed their required response time; or those deemed an unacceptable risk).
- (4) Contamination (intentional or unintentional).
- (5) Unwholesomeness.
- (6) Off-condition or damaged.
- (7) Stored product pests (insect infestation, rodent or animal damage).
- (8) Food defense concerns

2. Paragraph (c), *Changes*, is deleted in its entirety and replaced with the following:

(c) Changes.

- (1) In addition to bilateral modifications, the Contracting Officer, at his/her discretion, may unilaterally invoke the contingency option set forth in this contract.
- (2) The Contracting Officer may at any time, by unilateral written order, make changes within the general scope of this contract in any one or more of the following:
 - (i) method of shipment or packing;
 - (ii) place, manner, or time of delivery.
- (3) If such change causes an increase or decrease in the cost of, or time required for, performance for any part of the work under this contract, the Contracting Officer shall make equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.
- (4) The Contractor must assert its right to an adjustment under this clause within thirty (30) days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

3. Paragraph (g), *Invoice*, is revised to add the following:

- (3) Each delivery will be accompanied by the Contractor's delivery ticket/invoice. Three (3) copies (an original plus two) shall accompany the shipment. The customer shall sign all copies of the delivery ticket/invoice, keep one (1) copy and return original copy to the

vendor. Any changes must be made on the face of the invoice; attachment are not acceptable.

- (4) All invoicing for payment is to be filed electronically using EDI transaction set 810 (See page 95 for Subsistence Total Order and Receipt Electronic System (STORES) EDI Information). No paper invoices shall be submitted to DFAS for payment. All invoices submitted by the Contractor must be “clean,” i.e. all debits and/or credits must be reflected on the invoice prior to submission. Electronic invoices should be filed promptly (i.e. once all credits and/or credit adjustments are made) and in any case, in fewer than 90 days after delivery.
- (5) Invoice transactions may be submitted to DLA TROOP SUPPORT daily; however, it cannot be stressed enough that all internal debit/credit transactions must be completed prior to the submission of the invoice. Invoice lines that do not contain the correct invoice data and/or contain incorrect quantities delivered or prices charged will be rejected. The vendor will be responsible for correction and re-submission.
- (6) The same invoice cannot be submitted with different dollar amounts.
- (7) For catch weight items, standard rounding methods must be observed, i.e. < 5: rounded down; = 5 or > 5: rounded up. All weights must be rounded to whole pounds using standard rounding methods. Any line submitted for other than whole numbers will be rejected and require correction and re-submission by the vendor.
- (8) Unit prices and extended prices must be formatted not more than two (2) decimal places to the right of the decimal point. Subsistence Total Order and Receipt Electronic System (STORES) will not accommodate positions of 3 and above beyond the decimal point (see Attachment 4).
- (9) The following address must appear in the “Bill To” or “Payment Will Be Made By” block of the Contractor’s invoice:

DFAS – Columbus Center
Attn: DFAS – CO-SEPS
P.O. BOX 182317
COLUMBUS, OH 43218-6260

- (10) Each invoice shall contain sufficient data for billing purposes. This includes, but is not limited to:

Contract Number, Call or Delivery Order Number, and Purchase Order Number;
DoDAAC;
Contract line listed in numeric sequence (also referred to as CLIN order);
Item nomenclature;
LSN or NSN;
Quantity purchased per item in DLA TROOP SUPPORT’s unit of issue;
Total dollar value on each invoice (reflecting changes to the shipment, if applicable).

- (11) Vendors are required to use the Vendor Reconciliation Tool [see 4. (10) below] to identify and correct mismatches between invoices submitted and customers posted receipts. It is the responsibility of the Contractor to adjust as necessary and communicate with the customer or DLA TROOP SUPPORT as needed, in order to resolve any/all discrepancies. In the event of an unresolved payment discrepancy, the vendor must present a signed delivery ticket/invoice.

4. Paragraph (i), *Payment*, is revised to add the following:

- (7) DFAS Columbus Center is the payment office for this acquisition.
- (8) All 810 electronic invoices must be submitted with accurate, sufficient, clean data before any payment can be made.
- (9) All offerors must have the ability to accept an 820 transaction set from its financial institution. DFAS Columbus will no longer forward a detailed summary of payment(s); this information will only be available from your bank.
- (10) Vendor Reconciliation Tool: In an effort to improve the payment process, vendors will have availability to view what the customer has or has not receipted, via the Business Systems Modernization (BMS) website <http://www.troopsupport.dla.mil/subs/recon1.pdf>. The Contractor will have access to “unreconciled” information, i.e. the invoice does not match the receipt because of a quantity or price discrepancy, or because the customer has not posted a receipt. Both invoice information and receipt information will be available for review on the BSM website by the Contractor. While the vendor will not have the capability to update customer receipt information, update capability will be available for unreconciled invoice information for approximately 30 days.
- (11) The Government intends to make payments under the resultant contract by electronic funds transfer (EFT). Reference Clause 52.232-33, “Mandatory Information for Electronic Funds Transfer Payment” appearing in the section of this solicitation entitled “Contract Clauses.” However, the election as to whether to make payment by check or electronic funds transfer is at the option of the Government.

5. Paragraph (m), *Termination for Cause*. Delete paragraph (m) in its entirety and substitute the following:

(m) Termination for Cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If this contract is terminated in whole or in part for cause, and the supplies or services covered by the contract so terminated are repurchased by the Government, the Government will incur administrative costs in such repurchases. The Contractor and the Government expressly agree that, in addition to any excess costs of repurchase, or any other damages resulting from such default, the Contractor shall pay, and the Government shall accept, the sum of \$1350.00 as payment in full for the administrative costs of such repurchase. This assessment of damages for administrative costs shall apply for any termination for cause following which the Government repurchases the terminated supplies or services together

with any incidental or consequential damages incurred because of the termination. If it is determined that the Government improperly terminated this contract for cause, such termination shall be deemed a termination for convenience.

6. Paragraph (o), *Warranty*, is revised to add the following:

“In the event that a product recall is initiated by the Contractor, grower or manufacturer, the Contractor shall follow the procedures as outlined below:

(1) Immediately notify the following personnel:

- (i) Customers that have received the recalled product;
- (ii) DLA TROOP SUPPORT Contracting Officer;
- (iii) DLA TROOP SUPPORT Account Manager; and
- (iv) DLA TROOP SUPPORT Consumer Safety Officer at 215-737-3845

(2) Provide the following information to the DLA TROOP SUPPORT Consumer Safety Officer:

- (ii) Level of recall, i.e. Type I, II or III;
- (iii) Description of product;
- (iv) Amount of product;
- (v) List of customers that have received product; and
- (vi) Name and phone number of responsible person (Recall Coordinator)

(3) The Contractor shall provide a Final Status Report of Recall, when completed, to the DLA TROOP SUPPORT Consumer Safety Officer.”

(4) The supplies furnished under the resultant contract(s) shall be covered by the most favorable commercial warranties that the Contractor gives to any customer. The supplies and the rights and remedies provided therein are in addition to, and do not limit, any rights afforded to the Government by Clause 52.212-4(o) “Warranty,” “Contract Terms and Conditions-Commercial Items” and any addendum contained in the solicitation.

7. Paragraph (s), *Order of precedence*, is revised to add the following:

(10) The Vendor’s Non-Price Proposal

8. Paragraph (t), *Central Contractor Registration (CCR)*, add the following:

(5) Definitions.

“Central Contractor Registration (CCR) Database” means the primary Government repository for Contractor information required for the conduct of business with the Government.

“Commercial and Government Entity (CAGE) Code” means—

- (a) A code assigned by the Defense Logistics Information Service (DLIS) to identify a commercial or Government entity; or

- (b) A code assigned by a member of the North Atlantic Treaty Organization that DLIS records and maintains in the CAGE master file. This type of code is known as an “NCAGE code.”

“Data Universal Number System (DUNS) Number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System+4 (DUNS+4) Number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see Subpart 32.11 of the Federal Acquisition Regulation) for the same parent concern.

“Registered in the CCR Database” means that—

- (a) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database;
- (b) The Contractor’s CAGE code is in the CCR database; and
- (c) The Government has validated all mandatory data fields to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service, and has marked the records “Active.” The Contractor will be required to provide consent for TIN validation to the Government as part of the CCR registration process.

9. Add: Paragraph (u), Contractor Performance Assessment Reporting System (CPARS):

(1) Background

- (i) Contractor Performance Assessment Reporting System (CPARS) is now hosting web-enabled applications that are used to collect and manage a library of automated Contractor performance evaluations that are completed in accordance with FAR Parts 36 and 42. FAR Part 36 identifies the requirements for documenting Contractor performance for architect-engineer and construction contracts while FAR Part 42 identifies requirements for documenting Contractor performance for systems and non-systems acquisitions. The CPARS applications are designed for UNCLASSIFIED use only. Classified information is not to be entered into these systems. In general, Contractor performance assessments or evaluations provide a record, both positive and negative, for a given contract during a specified period of time. When evaluating Contractor performance each assessment or evaluation is based on objective facts and is supported by program and contract management data, such as cost performance reports, customer comments, quality reviews, technical interchange meetings, financial solvency assessments, construction/production management reviews, Contractor operations reviews, functional performance evaluations, and earned contract incentives.
- (ii) Effective October 1, 2006, a Department of Defense (DoD) Public Key Infrastructure (PKI) Certificate will be required for all DoD users accessing CPARS. Effective November 1, 2006, a DoD PKI Certificate will be required for all Contractor users accessing CPARS. The requirement for PKI certificates is implemented in accordance with DoD security policy promoting secure electronic transactions.

(2) Obtaining a PKI certificate

- (i) Contractors who do not work at a Department of Defense facility may purchase a DoD PKI certificate from one of three External Certificate Authorities (ECAs). The ECAs are vendors who provide digital certificates to DoD's industry partners who are using their own equipment or working in non-government facilities. A list of ECAs is available at <http://iase.disa.mil/pki/eca/certificate.html>. Each Contractor employee accessing CPARS will need an Identity Certificate (An Encryption Certificate is not required). Certificate prices range in from \$99 - \$115 per certificate per year, with volume discounts at some ECAs.

Each Contractor must fully comply with the DoD requirement to implement PKI in order for our information systems to remain secure and viable.

10. Add: Paragraph (v), PKI Certificate to access STORES:

(1) Background

- (i) Total Order & Receipt Electronic System (STORES) is the single approved DoD food ordering system. STORES uses Electronic Data Interchange (EDI) and web-enabled applications to pass catalogs, orders and receipts among Services, vendors and DLA Troop Support. STORES consists of electronic catalogs for all food items, and it is used to collect and manage a library of automated reports. The STORES applications are designed for UNCLASSIFIED use only. Classified information is not to be entered into these systems. In general, STORES interfaces with all service food management systems and is used by over 700 customers worldwide.
- (ii) Effective October 25, 2010, a Department Of Defense (DoD) Public Key Infrastructure (PKI) Certificate is required for all DoD users from an External Certificate Authority (ECA) accessing STORES. Currently, a DoD ECA/PKI Certificate will be required for all Contractor users accessing STORES. The requirement for PKI certificates is implemented in accordance with DoD security policy promoting secure electronic transactions. STORES information will not be allowed on a public website for information assurance reasons.

The DLA Troop Support Subsistence main Electronic Catalogs have been migrated/integrated into STORES for information assurance reasons.

(2) Obtaining a PKI certificate

- (i) **Contractors who do not work at a Department of Defense facility may purchase a DoD PKI certificate from one of three External Certificate Authorities (ECAs). The ECAs are vendors who provide digital certificates to DoD's industry partners who are using their own equipment or working in non-government facilities.**
- (ii) **Each Contractor employee accessing STORES will need an Identity Certificate (An Encryption Certificate is not required). Certificate prices are various amounts per certificate per year, with volume discounts at some ECAs. Each Contractor must**

fully comply with the DoD requirement to implement PKI in order for our information systems to remain secure and viable. The DoD website for ECA enrollment: <http://iase.disa.mil/pki/eca/certificate.html>

FAR 52.216-22 – INDEFINITE QUANTITY (OCT 1995)

*52.216-9064 ECONOMIC PRICE ADJUSTMENT (EPA) – ACTUAL MATERIAL COSTS FOR
SUBSISTENCE DELIVERED PRICE BUSINESS MODEL – DLA TROOP SUPPORT SUBSISTENCE
PRIME VENDOR (SPV) CONTIGUOUS UNITED STATES (CONUS) (FEB 2013)*

(a) Warranties. For the portion of the schedule that is covered by this EPA clause, the Contractor warrants that—

(1) Contract unit prices covered by this contract do not include allowances for any portion of the contingency covered by this clause; and

(2) Price adjustments invoiced under this contract shall be computed in accordance with the provisions of this clause.

(b) Definitions. As used throughout this clause, the term:

(1) "Private label holder" means:

(i) a manufacturer or grower with whom the Contractor holds an ownership and/or financial interest, or ownership and/or financial interest in a specific item(s) produced by a manufacturer or grower; or

(ii) an entity holding an intellectual property interest, whether by ownership or license, in the label under which product is being sold in the commercial marketplace; or

(iii) an entity holding exclusive marketing and/or sales authority of a product, or one holding property rights in a proprietary product formula.

(2) "Redistributor" means an entity independent of the Contractor from which the Contractor purchases product for purposes of consolidating quantities and/or obtaining a competitive delivered price.

(3) "Standard Freight" means the published list price or prevailing market rate for transportation of subsistence and food service operating supplies, i.e. the transportation charge for delivery from the manufacturer/grower/private label holder or redistributor to the SPV Contractor. This may include interdivision transfers between the SPV Contractor's warehouses provided the delivered price (inclusive of standard freight) of a product at a given time is identical to the delivered price of the same product at the same time to other commercial customers in the SPV Contractor's electronic purchasing system.

(i) In the event the SPV Contractor picks up product free on board (f.o.b.) origin from a manufacturer/grower/ private label holder, or arranges for delivery transportation from a third party source other than the manufacturer/grower/private label holder, the standard freight charge shall be based on market tariffs/conditions and shall not exceed the lesser of:

(A) the manufacturer/grower/private label holder's or manufacturer/grower/private label holder's carrier's freight price normally payable by the SPV Contractor for inbound shipments of such products and quantities to the Contractor's distribution point; or

(B) an average price based on market conditions for freight in the same market for the same type of freight service for like products, shipping methods and quantities.

(ii) In rare circumstances, and only with the Contracting Officer's written approval, the SPV Contractor may use drop shipments, i.e. the product is shipped directly from the manufacturer/grower/private label holder to the customer without the SPV Contractor taking

possession. This may involve transportation charges using non-standard freight such as FedEx, United Parcel Service (UPS), or the United States (U.S.) Postal Service. In such instances the Contracting Officer will determine price reasonableness on the unit price inclusive of freight.

(4) “Contract unit price” means the total price per unit charged to DLA Troop Support for a product delivered to DLA Troop Support’s customers. The Contract unit price consists of three components: delivered price plus distribution price less Government rebates and discounts. The unit price sum of the three component prices shall be rounded up or down as applicable, to the nearest cent to determine the final Contract unit price.

(5) Delivered price

(i) Delivered price” means the most recent manufacturer, grower, or private label holder commercial price per unit to the Contractor, inclusive of all standard freight, that is input in the Contractor’s purchasing system as the starting basis for its pricing to customers prior to the application of any specific distribution fees, rebates, discounts, limited discounts, or other financial agreements with the Contractor’s customers. The delivered price shall be based on f.o.b. destination delivered using standard freight. The delivered price shall exclude all costs that are to be covered in the distribution price. The SPV Contractor warrants that the delivered price to its delivering warehouse of a product sold at any given time by the SPV Contractor to DLA Troop Support customers is identical to the delivered price of such product sold at the same time to its other customers.

(A) Exception: For mandatory source items, the delivered price shall be limited to the nonprofit agency’s price for product as set in accordance with applicable law, plus standard freight.

(B) Exception: A redistributor’s price for a specific manufacturer/grower/private label holder’s product (or stock keeping unit (SKU)) may be used as long as the redistributor’s price for the quantity ordered is equal to or lower than the manufacturer’s/ grower’s/ private label holder’s current price inclusive of Government rebates and discounts (as defined below). Supporting documentation (published price list, manufacturer letter/email, or similar proof of price comparison) may be required. The determination that the supporting documentation is sufficient to establish the manufacturer’s/grower’s/ private label holder’s current price rests solely with the Contracting Officer.

(C) Exception: Standard freight may not apply to drop shipments and f.o.b. origin pickups.

(ii) The Contractor shall utilize best commercial practices in purchasing its food items under this contract, to include seeking and using competition to the maximum extent practicable for all purchases and purchasing in the most economical order quantities and terms and conditions.

(6) “Distribution Price(s)” means the firm fixed price portion of the Contract Unit price, offered as a dollar amount per unit of issue, rounded up or down to the nearest cent. The distribution price is the only method for the Contractor to bill the Government for all aspects of contract performance other

than delivered price; including but not limited to, the performance requirements of the statement of work(SOW) for the applicable SPV solicitation and resulting contract. As detailed above in paragraph (5), delivered price is distinct from and not to be included in the distribution price. For both drop shipments and Government pick-ups, the Contracting Officer may negotiate a reduced distribution price with the Contractor since the Contractor is not handling the product.

(7) "Government rebates and discounts" means all rebates, discounts, and limited discounts designated for the Government, including National Allowance Pricing Agreements (NAPA) discounts, food show discounts, early payment discounts (other than qualifying early payment discounts as defined in the Rebates, Discounts and Price Related Provisions section of the solicitation), and any other rebates, discounts, or similar arrangements designated by the manufacturer/grower/ private label holder or redistributor to be passed to the Government or passed to all customers without specific designation. In accordance with other provisions of the contract (and subject to any applicable exceptions in those provisions), all Government rebates and discounts shall be passed to the Government via a reduced catalog price (i.e. "off invoice"). Any Government rebates and discounts that must be passed to the Government and which cannot be applied as an up-front price reduction must be submitted via check payable to the U.S. Treasury, with an attached itemized listing of all customer purchases by line item to include contract number, call number, purchase order number and contract line item number (CLIN).

(8) "Ordering catalog" means the electronic listing of items and their corresponding Contract unit prices available for ordering under this contract.

(9) "Ordering Week" means from Sunday at 12:01 AM through the following Saturday until midnight (Eastern Time ET, standard or daylight as applicable).

(c) Price adjustments.

(1) General.

(i) All Contract unit prices shall be fixed and remain unchanged until changed pursuant to this clause or other applicable provision of the contract. Only the delivered price component of the Contract unit price is subject to adjustment under this clause. After the first ordering week, if the Contractor's delivered price changes for any or all Contract unit prices, the Contract unit price shall be changed in the next week's ordering catalog upon the Contractor's request, submitted in accordance with paragraph (iii) below, by the same dollar amount of the change in the delivered price, subject to the limitations in paragraph (d). The price change shall be effective at the beginning of the next ordering week. All ordering catalog unit prices computed in accordance with this clause and in effect when an order is placed shall remain in effect for that order through delivery. DLA Troop Support will be charged the Contract unit price in effect at the time of each order regardless of any changes in the unit price occurring in any subsequent ordering week.

(ii) Catalog delivered prices must be reflective of the Contractor's last receipt price (the price of the stock most recently received into SPV Contractor's inventory).

(iii) Updates to the delivered price: All notices and requests for new item delivered prices and price changes shall be submitted weekly, no later than 1:30 PM Eastern Time on Wednesday, to be effective in the following ordering week's ordering catalog prices. The

Delivered Price shall have any and all Government rebates and discounts subtractions made prior to presenting the delivered price to DLA Troop Support. The Contractor shall notify the Contracting Officer of its notice/request in the form of an electronic data interchange (EDI) 832 transaction set. The change notice shall include the Contractor's adjustment in the delivered price component of the applicable Contract unit price. Upon the Contracting Officer's acceptance of such EDI 832 price changes in accordance with paragraph (v) below, the price change transaction sets will post in the next week's ordering catalog and each Contract unit price shall be changed by the same dollar amount of the change in the delivered price in the next week's ordering catalog.

(iv) All price changes, and catalog contract prices, are subject to review by the Government. The Contracting Officer may at any time require the submission of supporting data to substantiate any requested price change or the requested continuation of the pre-existing price for any item, including prices applicable to prior ordering weeks. Upon notice from the Contracting Officer that supporting data is required, the Contractor shall promptly furnish to the Government all supporting data, including but not limited to, invoices, quotes, price lists, manufacturer/grower/ private label holder documentation regarding Government rebates and discounts, and any other substantiating information requested by the Contracting Officer.

(v) Price change requests that the Contracting Officer questions or finds to be inconsistent with the requirements of this clause shall not be posted until the Contracting Officer specifically authorizes the posting. If the Contracting Officer does not notify the Contractor by close of business Eastern Time each Friday that a price or a price change request is being questioned or has been found to be erroneous, the price change(s) will post to the ordering catalog effective the beginning of the following ordering week. The posting of updated prices in the ordering catalog, calculated in accordance with this clause, constitutes a modification to this contract. No further contract modification is required to effect this change. Any changes that post to the ordering catalog do not constitute a waiver of any of the rights delineated elsewhere in the contract.

(vi) Should the Contracting Officer determine that, or question whether a price change request contained an erroneous unit price or price change, or cannot otherwise determine the changed price(s) to be fair and reasonable, such as when the changed price(s) is(are) higher than lower delivered prices for items of comparable quality which are reasonably available to the Government or Contractor from other sources, the Contracting Officer will so advise the Contractor, prior to close of business Eastern Time on Friday. If the Contracting Officer cannot determine a price fair and reasonable, and the Contracting Officer and the Contractor cannot negotiate a fair and reasonable price, the Contracting Officer may reject any price change and direct in writing that the item in question be removed from the Contractor's ordering catalog, without Government liability. The Contracting Officer may subsequently remove any such item from the ordering catalog if the Contractor fails to remove it. The Government has the right to procure such removed items from any alternate source of supply, and the failure of the Contractor to supply such item may be considered negatively in any evaluation of performance.

(vii) In the event of a price change not posting or an ordering catalog contract unit price not computed in accordance with this clause, resulting in an incorrectly increased or decreased Contract unit price, upon discovery of such event the Contractor shall promptly notify the Contracting Officer in writing and promptly thereafter correct its ordering catalog and

submit a refund including interest for any amounts paid to the Contractor resulting from the erroneous price. In the event of an erroneous price decrease in the ordering catalog, if the Contractor can demonstrate to the satisfaction of the Contracting Officer that the error did not result from the fault or negligence of the Contractor, the Contractor may submit a request for equitable adjustment for consideration by the Contracting Officer.

(2) Limitations. All adjustments under this clause shall be limited to the effect on contract unit prices of actual increases or decreases in the delivered prices for material. There shall be no upward adjustment for—

- (i) Supplies for which the delivered price is not affected by such changes;
- (ii) Changes in the quantities of materials; and
- (iii) Increases in unit prices that the Contracting Officer determines are computed incorrectly (i.e. not adhering to the Contract Unit Price definition in this clause) and/or increases in unit prices that the Contracting Officer determines are not fair and reasonable.

(3) If the Contracting Officer rejects a proposed adjustment for an item because the adjusted unit price cannot be determined fair and reasonable, the Contractor shall have no obligation to fill future orders for such item as of the effective date of the proposed adjustment unless such item is subsequently added to the contract at a Unit Price that is determined fair and reasonable. Alternately, the item may be retained on the catalog at the prior (unadjusted) price for as long as both parties agree to do so.

(d) Upward ceiling on economic price adjustment. The aggregate of contract delivered price increases for each item under this clause during the contract period inclusive of any option period(s) shall not exceed 30 percent (%) for all items except fresh fruits and vegetables (FF&V) and 90 percent (%) for fresh fruits and vegetables (FF&V) of the initial contract delivered price, except as provided below:

(1) If at any time the Contractor has reason to believe that within the near future a price adjustment under the provisions of this clause will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. In the event the latest actual market price for an item would result in a contract unit price that will exceed the allowable ceiling price under the contract, then the Contractor shall immediately notify the Contracting Officer in writing or via its EDI 832 price change request and separate email no later than the time specified in paragraph (c)(1)(iii) above. With either such notification the Contractor shall include a revised ceiling the Contractor believes is sufficient to permit completion of remaining contract performance, along with appropriate explanation and documentation as required by the Contracting Officer.

(2) If an actual increase in the delivered price would raise a contract unit price for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill future orders for such items, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing. After evaluation of a requested actual price increase, if the Contracting Officer authorizes the change in the contract unit price, the Contractor shall submit an EDI 832 price change. The price change shall be posted for the following week's ordering catalog.

(e) Downward limitation on economic price adjustments. There is no downward limitation on the aggregated percentage of decreases that may be made under this clause.

(f) Examination of records. The Contracting Officer or designated representative shall have the right to examine the Contractor's books, records, documents and other data, to include commercial sales data, that the Contracting Officer deems necessary to verify Contractor adherence to the provisions of this clause. Such examination may occur up to twice a year (except as provided for below) until the end of 3 years after the date of final payment under this contract or the time periods specified in Subpart 4.7 of the Federal Acquisition Regulation (FAR), whichever is earlier. These will normally involve Government selection of a statistically significant sample size of invoices/records to examine based on the number of line items on the specific contract catalog. If an examination of records reveals irregularities, further examinations and/or a larger sample size may be required. In addition to normal examination, the Government may conduct additional examinations at the contracting officer's discretion.

(g) Final invoice. The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required or authorized by this clause.

(h) Disputes. Any dispute arising under this clause shall be determined in accordance with the "Disputes" clause of the contract.

FAR 52.217-9 – OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

- (a) The Government may extend the term of this contract by written notice to the Contractor within 3 days provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires. The preliminary notice does not commit the Government to an extension.
- (b) If the Government exercises this option, the extended contract shall be considered to include this option clause.
- (c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 4 years and 2 months (Note: There will be an up to 2 month (60-day) start-up/implementation period upon award followed by a twenty four (24) month performance period and one (1) twenty four (24) month option period).

52.246-9044 – SANITARY CONDITIONS (JAN 2013) – DLAD

(a) Food Establishments.

(1) All establishments and distributors furnishing subsistence items under DLA Troop Support contracts are subject to sanitation approval and surveillance as deemed appropriate by the military medical service or by other Federal agencies recognized by the military medical service. The government does not intend to make any award for, nor accept, any subsistence products manufactured, processed, or stored in a facility which fails to maintain acceptable levels of food safety and food defense, is operating under such unsanitary conditions as may lead to product contamination or adulteration constituting a health hazard, or which has not been listed in an appropriate government directory as a sanitarily approved establishment when required. Accordingly, the supplier agrees that, except as indicated in paragraphs (2) and (3) below, products furnished as a result of this contract will originate only in establishments listed in the U.S. Army

Veterinary Command (VETCOM) Circular 40-1, Worldwide Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement, (Worldwide Directory) (available at: <http://vetcom.amedd.army.mil/>). Compliance with the current edition of DoD Military Standard 3006, Sanitation Requirements for Food Establishments, is mandatory for listing of establishments in the worldwide directory. Suppliers also agree to inform the Contracting Officer immediately upon notification that a facility is no longer sanitarily approved and/or removed from the worldwide directory and/or other Federal agency's listing, as indicated in paragraph (2) below. Suppliers also agree to inform the Contracting Officer when sanitary approval is regained and listing is reinstated.

(2) Establishments furnishing the products listed below and appearing in the publications indicated need not be listed in the worldwide directory. Additional guidance on specific listing requirements for products/plants included in or exempt from listing is provided in Appendix A of the worldwide directory.

(5) When the Military Medical Service or other Federal agency acceptable to the Military Medical Service determines the levels of food safety and food defense of the establishment or its products

have or may lead to product contamination or adulteration, the Contracting Officer will suspend the work until such conditions are remedied to the satisfaction of the appropriate inspection agency. Suspension of the work shall not extend the life of the contract, nor shall it be considered sufficient cause for the Contractor to request an extension of any delivery date. In the event the Contractor fails to correct such objectionable conditions within the time specified by the Contracting Officer, the government shall have the right to terminate the contract in accordance with the "Default" clause of the contract.

(b) Delivery Conveyances.

The supplies delivered under this contract shall be transported in delivery conveyances maintained to prevent tampering with and /or adulteration or contamination of the supplies, and if applicable, equipped to maintain a prescribed temperature. The delivery conveyances shall be subject to inspection by the government at all reasonable times and places. When the sanitary conditions of the delivery conveyance have led, or may lead to product contamination, adulteration, constitute a health hazard, or the delivery conveyance is not equipped to maintain prescribed temperatures, or the transport results in product 'unfit for intended purpose', supplies tendered for acceptance may be rejected without further inspection.

*52.246-9045 – FEDERAL FOOD, DRUG AND COSMETIC ACT-WHOLESALE MEAT ACT
(AUG 2008 SUBSISTENCE) – DLAD*

- (a) The Contractor warrants that the supplies delivered under this contract comply with the Federal Food, Drug and Cosmetic Act and the Wholesome Meat Act and regulations promulgated thereunder. This warranty will apply regardless of whether or not the supplies have been:
- (1) Shipped in interstate commerce,
 - (2) Seized under either Act or inspected by the Food and Drug Administration or Department of Agriculture.
 - (3) Inspected, accepted, paid for or consumed, or any or all of these, provided however, that the supplies are not required to comply with requirements of said Acts and regulations promulgated thereunder when a specific paragraph of the applicable specification directs otherwise and the supplies are being contracted for military rations, not for resale.
- (b) The government shall have six months from the date of delivery of the supplies to the government within which to discover a breach of this warranty. Notwithstanding the time at which such breach is discovered, the government reserves the right to give notice of breach of this warranty at any time within this six-month period or within 30 days after expiration of such period, and any such notice shall preserve the rights and remedies provided herein.
- (c) Within a reasonable time after notice to the Contractor of breach of this warranty, the government may, at its election:
- (1) Retain all or part of the supplies and recover from the Contractor, or deduct from the contract price, a sum the government determines to be equitable under the circumstances;
 - (2) Return or offer to return all or part of the supplies to the Contractor in place and recover the contract price and transportation, handling, inspection and storage costs expended therefore; provided, that if the supplies are seized under either Act or regulations promulgated thereunder, such seizure, at government option, shall be deemed a return of supplies within the meaning of

this clause and thereby allow the government to pursue the remedy provided herein. Failure to agree to any deduction or recovery provided herein shall be a dispute within the meaning of the clause of this contract entitled “disputes.”

- (d) The rights and remedies provided by this clause shall not be exclusive and are in addition to other rights and remedies provided by law or under this contract, nor shall pursuit of a remedy herein or by law either jointly, severally or alternatively, whether simultaneously or at different times, constitute an election of remedies.

STATEMENT OF WORK

I. SUPPLIES/SERVICES AND PRICES

1. INTRODUCTION

- A. DLA Troop Support intends to enter into a Prime Vendor contract to supply subsistence products to the customers in Zone 1 and Zone 2 supported by this solicitation. The Contractor is responsible for furnishing the full-line of food and beverage items required for garrison feeding for DoD and non

DoD customers. In addition, the Contractor may also be requested to provide related non-food items to some customers.

- B. The Government will utilize the Lowest Price Technically Acceptable Process as a means of selecting the awardee for Zones 1 and 2. The Government intends and reserves the right to make one award per Zone for separate contracts. Consequently, the Government will evaluate and make one (1) award for Zone 1, and Zone 2, separately. The Government encourages firms to submit offers/proposals for both Zones 1 and Zones 2, although it is not a requirement to offer on both Zones. Firms may offer on either Zone 1 or Zone 2. Note that the decision to offer on one or both Zones is a business decision to be made by the offeror, however, offerors' proposals must clearly indicate to which Zone(s) the offer pertains.

Proposals for both zones will be evaluated for technical acceptability. The Government will make award to the offeror submitting a technically acceptable proposal with the lowest evaluated price for each zone. Offerors must be technically acceptable in every factor in order for the entire proposal to be rated technically acceptable.

- C. This solicitation contains the estimated food and beverage requirements for DoD and non DoD customers in Zone 1: Puget Sound/Seattle Navy Ships and Zone 2: Seattle, Washington and Surrounding Areas, and Coast Guard Customers in Southeast Alaska.
- D. The resulting contract made against this Solicitation will be an Indefinite Quantity Contract that provides for an indefinite quantity, within stated limits, of specific supplies or services to be furnished during a fixed period, with deliveries to be scheduled by placing orders with the Contractor (FAR 16.504(a)). This contract will be for an up to twenty six (26) month base period with one (1) twenty four (24) month option period.

This contract includes one (1) twenty four (24) month option period. Acceptance of this option by the successful Contractor is mandatory.

4. CATALOG & MARKET BASKET ITEMS

- A. **Zone 1** - Navy inventory item requirements are exclusively contained in the Master Load List (MLL). The MLL will represent the Contractor's permanent catalog. The Contractor will only catalog and offer items contained on the MLL. Contractor catalog compliance to the MLL will be 100%. Cataloged items with stock numbers identical to the primary MLL stock number for that item will be considered Exact Matches to the MLL. Cataloged items with stock numbers that do not match the MLL stock number but are confirmed approved by NAVSUP will be considered REPLACEMENT items. Both EXACT MATCHES and REPLACEMENT items will count toward

catalog compliance and in fill rate calculations. SUBSTITUTE items, approved by the Food Service Officer or his/her agents to replace not-in-stock (NIS) items, will not count toward fill rate calculation, unless the item is an authorized REPLACEMENT or EXACT MATCH to the MLL. The Contractor will not add or delete inventory items from the catalog without approval from NAVSUP through the Contractor's DLA Troop Support representative. The MLL will be revised by NAVSUP periodically and represents the Contractor's permanent catalog requirement. The revised MLL will be forwarded to the Contractor via DLA Troop Support representative no less than 90 days prior to new MLL implementation. 100% MLL compliance on implementation date is required for the revised MLL. The Contractor is responsible to plan replenishments of items scheduled for removal carefully to prevent excess stock on hand once the updated MLL is in effect.

Zone 2 - This solicitation is for total food and beverage support for garrison foodservice feeding. The successful Contractor shall provide full-line food service items, such as, but not limited to, canned items, dry items, chill items, UHT dairy items, frozen bakery products, frozen meats, frozen seafood and poultry, ice cream, eggs and other dairy products, and non-food Food Service Operating Supplies. Currently fresh fruits and vegetables, fresh milk, and fresh bread/bakery items, do not have stated requirements within this solicitation, but they are within the scope of this procurement and the Contractor may be required to provide them during the course of contract performance (see paragraph 5 below).

- B. See Attachment 1 for the "SPM300-13-R-0052 Price Proposal (4-30-2013) - Zone 1 and SPM300-13-R-0052 Price Proposal (4-30-2013) - Zone 2." This proposal contains the Market Basket, which represents the highest usage and major dollar value items of the total catalog of items that will be required. This Market Basket shall be the initial contract catalog at the contract award price.

NOTE: The market basket represents approximately 80% of the contract dollar value per performance period. The items which comprise this 80% of contract dollars per performance period form the basis of the attached price proposal spreadsheet (Attachment 1). This spreadsheet shows, among other information, a detailed item description and the estimated demand data per performance period for each item. Thus, these items represent the majority of the contract value per performance period and the most important customer needs. DLA Troop Support will evaluate your offered prices, which you enter in this spreadsheet. Please take extreme care to complete this spreadsheet accurately (See instructions on page 127).

- C. See Attachment 2 for the "Zone 1 Current Catalog and Zone 2 Current Catalog." This catalog represents a complete list of items that will be required under this acquisition. The remaining catalog items other than the Market Basket items shall be added post-award at prices determined fair and reasonable.

NOTE:

- (1) The complete sample catalog represents the entire scope of customer needs at a given moment in time (Attachment 2). This catalog includes detailed item descriptions.
- (2) This catalog evolves over the course of a contract period due to changing customer requirements. Accordingly, the successful offeror must be responsive to customer requests as described throughout this solicitation. In sum, this catalog gives offerors an idea of the complete scope of responsibilities beyond the portion of items evaluated for price in the market basket.

- D. All item descriptions/specifications are included in the contract Market Basket and total catalog. The item description, and unit package size and units-per-purchase-pack are specific and standardized for each Local Stock Number (LSN), and SHALL NOT be modified in any way. If you wish to supply an item that differs in package or pack size, you must identify such difference and request approval to utilize such item under a different LSN.
- E. The Subsistence homepage (<http://www.troopsupport.dla.mil/subs/index.asp>) includes an "Abbreviation List" used for LSN Item Descriptions. This link, "Abbreviations for Subsistence Item Descriptions," is located in the gray navigation area on the right side of the page, under "TOOLS." This will open a PDF with a list of abbreviations used.
- F. The Contractor shall be responsible for supplying items under the contract that meet the item descriptions and have the required level of quality, at the most economical pricing available to the Contractor for the authorized customer. The Contractor shall assume the responsibility of introducing new food items to the customers that meet this objective, as well as to show cost effective alternatives to their current choices.

5. FRESH FRUITS & VEGETABLES AND MARKET READY ITEMS

- A. Customers supported under this contract are expected to order their Fresh Fruits and Vegetables from separate produce contracts awarded by DLA Troop Support.

(1) PRODUCT QUALITY FOR FRESH FRUITS AND VEGETABLES

- i. Shelf-life: All products delivered shall be as fresh as possible and within the Growers/Packers' original shelf life (i.e., Best if Used- by-Date, Expiration Date, or other markings). Applicable products shall be identified with readable open code such as "Best-Used-by- Date," "Sell-by-Date," date of production, or similar marking indicating the end of the guaranteed freshness date.

For Fresh-Cut Products: Bags must be marked with a 14-day shelf life from the date of production.

- ii. Testing of Fresh-Cut Products: Fresh-Sliced Apples: Each lot or daily production of finished bagged product must be tested for Total Aerobic (Standard) Plate Count (TPC), E. Coli, Listeria, Salmonella, and Shigella. The antioxidant solution used on apples slices must be tested for TPC, E. Coli, and Listeria Monocytogens daily.

Baby-Cut and Peeled Carrots: Each lot or daily production of finished bagged product must be tested for E. Coli, Listeria Monocytogens, Salmonella, and Coagulase Positive Staph Aureus.

- iii. Commercial standards should be used to maintain temperatures appropriate for individual produce items during storage and delivery to DLA Troop Support customers.

Level of Product Quality:

1. When designating an item as a match for the DOD item in the schedule of items listed in the solicitation, the item must be:
 - a. Identical in respect to packaging when the DOD unit of issue is not described by weights (e.g. pound or ounce).
 - b. Equivalent in respect to grade or fabrication.
 2. All items must meet or exceed the Government's item description of their assigned Government stock number and the specified US. Grade.
- B. Customers supported under this contract are expected to order their fresh bread items (primarily sliced bread and rolls) and fresh dairy items (fluid milk, cultured products) from separate market ready contracts awarded by DLA Troop Support.
- C. If, after contract award, the ordering activities have a need for the Contractor to deliver some or all of these items, the Contracting Officer and Contractor will determine the availability and establish a mutually agreed upon start-up period. Items will be priced using the contract Distribution Pricing for these categories. Prior to adding the items to the contract, they must be determined to be at a fair and reasonable price by the Contracting Officer.
- D. Not currently a requirement; however, if fresh fruits and vegetables and/or market ready items (i.e. fresh bread items) are added to the catalog, shelf-life requirements shall be negotiated.

6. DOMESTIC ITEMS/BERRY AMENDMENT

The Berry Amendment requires the Department of Defense (DoD) to buy food that is grown, processed, reused or produced in the United States. There are several exceptions to this requirement that are available for food items. These exceptions include the following:

(1) Processed Foods - Processed Food items, other than fish, shellfish, or seafood that have been manufactured or processed in the United States, regardless of where the foods (and any component if applicable) were grown or produced.

Excluded from this exception are fish, shellfish, or seafood. These items must be manufactured or processed in the United States. This means that fish, shellfish, and seafood delivered under this contract, or contained in foods delivered under this contract must be taken from the sea by U.S.-flag vessels; or if not taken from the sea, must be obtained from fishing within the United States; and any processing or manufacturing of the fish, shellfish, or seafood must be performed on a U.S.-flag vessel or in the United States.

The Berry Amendment requirements as incorporated in this solicitation will be in effect.

7. ABILITYONE MANDATORY ITEMS

AbilityOne Mandatory Procurement Program

13 February 2013

- A. The Javits-Wagner-O'Day Act 41 U.S.C. § 46 et seq. is a U.S. federal law requiring that all federal agencies purchase specified supplies and services from nonprofit agencies employing persons who are blind or have other significant disabilities. The Act was passed in 1971. The program was known as the Javits Wagner

O'Day Program or JWOD. In 2006 the program was renamed "AbilityOne." Mr. Gus Altieri is the Subsistence Program Manager for the Ability One Program.

- B. Within DLA Troop Support Subsistence the AbilityOne procurement list is referred to as the Mandatory Procurement List (MPL). Items and associated local stock numbers and prices are provided here. Prices are F.O.B. origin. DLA Troop Support local stock numbers have been assigned for Individual Unit sales of spice items.
- C. Subsistence Prime Vendors are required to expeditiously catalog the mandatory products and remove any commercial equivalent product with "essentially the same" product characteristics. For CONUS Prime Vendors, if the removal and replacement will take longer than 30 days after notification by the Contracting Officer, the approval of the Contracting Officer must be obtained for the extension. For OCONUS Prime Vendors, within 30 days of notification by the Contracting Officer the OCONUS Prime Vendor must provide the Contracting Officer of current details of issues (outstanding orders, product in the 'pipeline,' etc.) delaying the catalog updates and provide the date when the catalogs will be updated. Contracting Officers will notify Program Manager.
- D. Any other commercial equivalent product with "essentially the same" product characteristics cannot be sold to the DLA Troop Support customers under this contract. The Contractor is not authorized to submit catalog changes containing other commercial equivalent products with "essentially the same" product characteristics as those items on the MPL.

The following criteria should be used in determining if a commercial product is "essentially the same" as an AbilityOne MPL item:

- 1. It has effectively the same form, fit and function.
- 2. The AbilityOne and commercial products may be used for the same purpose.
- 3. The AbilityOne and commercial products are relatively the same size and a change in size will not affect the use or performance.
- 4. The appearance, color, texture, or other characteristic of the AbilityOne product and commercial product are not significantly different from one another.

The only potential exception to this requirement is identified in paragraph E.

- E. If the Prime Vendor is requested to carry items commercially equivalent to MPL items but with unique packaging requirements provided by the supplier but not currently provided by the MPL source, the Prime Vendor must notify the Contracting Officer. The Contracting Officer will notify the Ability One Program Manager.
- F. Prime Vendors are required to adhere to the same contractual requirements and best business practices for MPL items as for all other items provided on this contract.
- G. Price and delivery information for MPL items are available directly from the Designated Sources as provided. Payments shall be made directly to the Designated Source.
- H. Advocacy and Resources Corporation (ARC) d/b/a/ AMP is CURRENTLY SUSPENDED from doing business with the Federal Government. The following items and local stock numbers are NOT to be on any active/current Prime Vendor contracts. The Contracting Officer is required to notify the AbilityOne Program Manager if any of these items remain on any active/current Prime Vendor contracts:

8. REBATES/DISCOUNTS AND PRICE-RELATED PROVISIONS

(a) All rebates, discounts, and limited discounts designated for the Government, which include any rebates or discounts that are passed on to all customers without specific designation (hereafter referred to as “Government Rebates and Discounts”), including NAPA discounts, food show discounts, early payment discounts (except as identified in paragraph (b) herein), and any other rebates, discounts, or similar arrangements designated by the manufacturer/grower/private label holder, as defined in DLAD 52.216-9064, to be passed to the Government, shall be passed to the Government via a reduced catalog price (i.e. “off invoice”). Exceptions to this requirement (hereafter referred to as “Exceptions”) are earned income, qualifying early payment discounts, limited discounts designated for customers other than the Government, as defined in (b) below, and any other exceptions to this requirement specifically stated, with reference to this provision, in the solicitation and contract. Any Government Rebates and Discounts that must be passed to the Government and which cannot be applied as an up-front price reduction must be submitted via check payable to the US Treasury, with an attached itemized listing of all customer purchases by line item to include contract number, call number, purchase order number and CLIN number.

(b) Definitions

1. “Limited Discount” (commonly referred to as a “deviation” in industry parlance) means a discount that is identified by the manufacturer, grower, or private label holder as being limited to a specific customer.
2. “Purported Exception” means an Exception, as defined in (a) above, purported by the Contractor to meet the definition of earned income, qualifying early payment discounts, or other Exceptions

to this provision stated in the contract, but that do not meet the applicable definition or the conditions for use stated in the contract.

3. “Qualifying Early Payment Discounts” are discounts that meet the following conditions:

- (i) the Early Payment Discount is an incentive to encourage payment earlier than the normal payment due date;
- (ii) the Early Payment Discount is consistent with commercial practice;
- (iii) the Early Payment Discount is routinely given by the manufacturer/growers/private label holders or redistributors to customers other than the Subsistence Prime Vendor (SPV) Contractor at the same discount rate and under the same conditions as provided to the SPV Contractor;
- (iv) the Early Payment Discount is not established, requested, or negotiated for the purpose of avoiding giving DLA Troop Support a lower cost or a rebate or in exchange for a higher invoice price;
- (v) the Early Payment Discount is no more than 2 percent of the manufacturer/grower/private label holder’s invoice and the early payment is required within 10 days to obtain the discount (except that in the event that specific terms greater than 2 percent/10 days are offered, the SPV Contractor must obtain prior written approval to retain this discount from the Contracting Officer on a case by case basis); and
- (vi) the Contractor actually made the required payment within the time period required to receive the discount.

4. “Earned income” is defined as monies received by the SPV Contractor from its manufacturers/growers/private label holders or redistributors as consideration for value-added services (as described in the earned income categories identified by the Contractor) that the Contractor provides to its manufacturers/growers/private label holders/redistributors, if the following conditions are met:

- (i) the value-added services are services performed by the Contractor in accordance with commercial practice such as marketing (for example, sales volume incentives earned based on sales of significant quantities to other customers), freight management, consolidated warehousing, or quality assurance, or services providing similar value-added benefit to the manufacturers/growers/private label holders or redistributors; and,
- (ii) the income is retained in the normal course of its commercial business; and,
- (iii) the income does not include manufacturer/grower/private label holder/redistributor-generated Government Rebates and Discounts; and,
- (iv) the income is paid in exchange for services performed by the Contractor in accordance with commercial practice; and,
- (v) the income is properly included in one or more of the earned income categories identified by the offeror, as required in the Submission Requirements section of the Statement of Work.

(c) Upon request the Contractor shall provide to the Government any invoices, quotes, or agreements relevant to the Delivered Price component for existing catalog items, for any new items being added to the catalog, and for requested price changes to existing catalog items. The Contractor must include detailed payment terms on each invoice or quote used to substantiate Delivered Price, including any applicable Government Rebates and Discounts. The government may also require the Contractor to submit pricing agreements and other documentation to substantiate all Government Rebates and Discounts and Exceptions,

including the existence of Earned Income agreements, on the DLA Troop Support contracts. Specific dollar amounts contained in Earned Income agreements may be redacted prior to submitting. If the Contracting Officer determines, after reviewing an invoice or other documentation, that a Government Rebate and Discount or Early Payment Discount should have been passed on to the Government, or if price verifications reveal any instance of overpricing or underpricing, the Government shall be entitled to a prospective Unit Price reduction and a retroactive refund for the amount of the overcharges or Purported Exception, including interest. The Contractor shall be entitled to a payment for any undercharges. The Contracting Officer, or authorized representative, shall have the right, up to twice a year or more often as determined necessary by the Contracting Officer, to examine and audit a statistically significant sample of the Contractor's records relevant to the existence of Earned Income agreements, Government Rebates and Discounts, Exceptions, and commercial customer Delivered Prices. The Government may review/audit the SPV Contractor's electronic purchasing system to confirm that the Delivered Price of a product sold at a given time to a DLA Troop Support customer is identical to the Delivered Price used by the SPV Contractor to determine the price of such product sold at the same time to its other customers. Should the Government identify evidence of incorrect pricing, or should other pricing issues arise, the Government reserves the right to conduct more frequent and extensive reviews/audits. Failure to exercise any of these rights shall not constitute a defense or alter the Government's entitlement to any other remedies by contract or by law.

(d) Contractor pricing disclosures shall be treated as proprietary and will not be released outside the Government unless otherwise required by law or as agreed to by the Contractor

9. CONTRACTOR PRICING - CONUS

A. Pricing will be based on the following formula:

$$\text{Contract Unit Price} = \text{Delivered Price} + \text{Distribution Price} - \text{Government Rebates and Discounts}$$

B. Definitions:

1. "Contract Unit Price" means the total price per unit charged to DLA TROOP SUPPORT for a product delivered to DLA TROOP SUPPORT's customers. The Contract Unit Price consists of three components: Delivered Price plus Distribution Price less Government Rebates and Discounts. The unit price sum of the three component prices shall be rounded up or down as applicable, to the nearest cent.
2. Delivered price:
 - (a) "Delivered Price" means the most recent manufacturer, grower or private label holder commercial price per unit to the Contractor, inclusive of all standard freight, that is input in the Contractor's purchasing system as the starting basis for its pricing to customers prior to the application of any specific distribution fees, rebates, discounts, limited discounts, or other financial agreements with the Contractor's various customers. The Delivered Price shall be based on FOB Destination delivered using Standard Freight. Delivered Price shall exclude all costs that are to be covered in the Distribution Price. The SPV Contractor warrants that the Delivered Price to its delivering warehouse of a product sold at any given time by the SPV Contractor to DLA Troop Support customers is identical to the Delivered Price of such product sold at the same time to its other customers.

- (i) Exception: For mandatory source items, the Delivered Price shall be limited to the nonprofit agency's price for product as set in accordance with applicable law, plus standard freight.
 - (ii) Exception: A Redistributor's price for a specific manufacturer/grower/private label holder's product (SKU) may be used as long as the Redistributor's price for the quantity ordered is equal to or lower than the manufacturer's/ grower's/ private label holder's published price inclusive of Government Rebates and Discounts. Supporting documentation may be required.
 - (iii) Exception: Standard Freight may not apply to drop shipments and FOB Origin pickups.
- (b) The Delivered Price includes Standard Freight, meaning the published list price or prevailing market rate for transportation of subsistence and food service operating supplies, i.e. the transportation charge for delivery from the manufacturer/grower/private label holder to the SPV Contractor. This may include inter-division transfers between the SPV Contractor's warehouses provided the Delivered Price (inclusive of standard freight) of a product at a given time is identical to the Delivered Price of the same product at the same time to other commercial customers in the SPV Contractor's electronic purchasing system. In the event the SPV Contractor picks up product FOB Origin from
 - (i) manufacturer/grower/ private label holder, or arranges for delivery transportation from a third party source other than the manufacturer/grower/ private label holder, the Standard Freight charge shall be based on market tariffs/conditions and shall not exceed the lesser of:
 - (ii) the manufacturer/grower/private label holder's, or manufacturer/grower/private label holder's carrier's freight price normally payable by the SPV Contractor for inbound shipments of such products and quantities to the Contractor's distribution point; or
 - (iii) an average price based on market conditions for freight in the same market for the same type of freight service for like products, shipping methods and quantities.
- (c) In rare circumstances, and only with the Contracting Officer's written approval, the Contractor may use drop shipments, i.e. the product is shipped directly from the manufacturer/grower/private label holder to the customer without the Contractor taking possession. This may involve non-Standard Freight charges such as FedEx, UPS, or the US Postal Service. In such instances the Contracting Officer will determine price reasonableness on the Unit Price inclusive of freight. Likewise, occasionally the Government may elect to pick up product directly from a manufacturer/grower/private label holder/redistributor. In such instances the normal Standard Freight charge from the manufacturer/grower/private label holder/ redistributor to the Contractor will not apply.

- (d) The Contractor shall utilize best commercial practices in purchasing its food items under this contract, to include seeking and using competition to the maximum extent practicable for all purchases and purchasing in the most economical order quantities and terms and conditions.
3. Government Rebates and Discounts (defined elsewhere in the contract) include National Allowance Price Agreements (NAPA) and food show discounts. The Government will accept additional or greater Government Rebates and Discounts at any time. In accordance with other provisions of the contract (and subject to any exception in those provisions), all Government Rebates and Discounts on particular items which are reflected in the amounts shown on the face of the manufacturer's, grower's or private label holder's invoice (referred to as "off-invoice allowances") or designated to be given to the Contractor by the manufacturer, grower or private label holder, shall be passed by the Contractor to the Government, in the form of an up-front price reduction. The total of these Government Rebates and Discounts shall be reflected via a reduced Subsistence Total Order and Receipt Electronic System (STORES) price, resulting in a lower invoice price to the customer. Any Government Rebates and Discounts that must be passed to the Government and which cannot be applied as an up-front price reduction must be submitted via check payable to the US Treasury, with an attached itemized listing of all customer purchases by line item to include contract number, call number, purchase order number and CLIN number.
4. Distribution Price: "Distribution Price(s)" means the firm fixed price portion of the Contract Unit Price, offered as a dollar amount per unit of issue, rounded up or down to the nearest cent. The Distribution Price is the only method for the Contractor to bill the Government for all aspects of contract performance other than Delivered Price; including but not limited to, the performance requirements of the SOW for the applicable SPV solicitation and resulting contract. As detailed above in 2. (a), Delivered Price is distinct from and not to be included in the Distribution Price. For both drop shipments and pick-ups, the Contracting Officer may negotiate a reduced Distribution Price with the Contractor since the Contractor is not handling the product.
5. "Ordering Catalog" means the listing of items and their corresponding Contract Unit Prices available for ordering under this contract. Initially it will include only items for which pricing has been established at contract award. Additional items may be priced and added to the Ordering Catalog following contract award, under procedures specified elsewhere in the contract.
6. "Ordering Week" means from Sunday at 12:01 AM through the following Saturday until midnight Eastern Time (ET, standard or daylight as applicable).

C. Price Adjustments:

1. All Ordering Catalog prices are subject to adjustment in accordance with the Economic Price Adjustment (EPA) clause of the contract. Only the Delivered Price component of the Contract Unit Price is subject to adjustment under the EPA clause. DLA TROOP SUPPORT will accept Contractor offered Delivered Price, Distribution Price, and Contract Unit Price reductions at any time.

2. All Ordering Catalog prices shall be fixed and remain unchanged through the contract first order week, and thereafter unless changed pursuant to the EPA clause of the contract or reduced by other price reduction provided by the Contractor. Price changes under the EPA clause shall be effective in accordance with the provisions of the EPA clause. All Ordering Catalog Contract Unit Prices in effect when an order is placed shall remain in effect for that order through delivery. DLA TROOP SUPPORT will be charged the Contract Unit Price at time of each order regardless of any changes in the Contract Unit Price resulting from application of the EPA clause that occur in any subsequent Ordering Week.
3. Erroneous prices in the Ordering Catalog will be dealt with in accordance with the provisions of the EPA clause.

10. CENTRAL CONTRACTS

DLA TROOP SUPPORT reserves the right to issue Indefinite Delivery Type Contracts (IDTCs) to various suppliers for specific products to be distributed by the Contractor. It may be mandatory for the Contractor to order directly from these contracts. In the event the contracts do not specify the supplier(s) as a mandatory source, these contracts will provide the price ceiling for these items in same similar packaging, and if the Contractor chooses to catalog items from another source, other than that of the IDTC, the price charged by the Contractor to the ordering activity will not exceed the IDTC price, plus the Contractor's contract fixed distribution price. At time of award, and at other times when applicable, DLA TROOP SUPPORT will provide the Contractor with a list and copy of all IDTCs awarded, or it will be posted on the DLA TROOP SUPPORT website, to include their sourcing terms and conditions.

11. DISTRIBUTION PRICE CATEGORIES

- A. The items to be procured under this contract shall be broken down into separate food categories for purposes of proposing distribution prices. Offerors must utilize the Government's food category listing below for their Distribution Prices. Each item in the Market Basket has been assigned a Distribution Price category by the Government; offerors must utilize the Distribution Price category assigned to each item in the Market Basket as part of their Price Proposal. All items within the same Distribution Price Category shall have the same Distribution Price portion of the Contract Unit Price. Distribution Prices shall be formatted to no more than two (2) places to the right of the decimal point, for example \$1.50. Distribution Prices must be based on the UOM as indicated for each category. Distribution Prices must be submitted with your Price Proposal (see instructions on page 127).

NOTE: For any items that are delivered in individual units (i.e. breaking cases), the distribution price shall be pro-rated based on the number of individual units ordered/delivered. Example: a spice item is priced at \$1.50/case distribution price, and the product is packed 12 units per case. If a customer orders 1 container, the distribution price is prorated to \$0.13/container for that order.

12. NATIONAL ALLOWANCE PROGRAM AGREEMENT (NAPA) DISCOUNTS

A. Definitions:

1. Agreement Holder: The supplier or manufacturer that has agreed to offer discounts to DLA TROOP SUPPORT on product under DLA TROOP SUPPORT Prime Vendor contracts.
2. National Allowance Program: The program implemented by the DLA Troop Support to maximize the leverage of DLA TROOP SUPPORT's buying power and reduce the overall delivered price under Prime Vendor contracts to the customers of DLA Troop Support.
3. National Allowance Program Agreements (NAPAs): The agreements between DLA Troop Support and suppliers/manufacturers that identify product category allowances. These allowances or discounts apply only to the delivered/invoice price of the product. The NAPA does not affect the Contractor's distribution price in any way.

B. DLA TROOP SUPPORT has implemented a NAPA Program as part of the Subsistence Prime Vendor Program. Under the NAPA Program, DLA TROOP SUPPORT will enter into agreements with suppliers/manufacturers offering domestic products.

C. Under the NAPA Program, Agreement Holders will:

1. Authorize and consent to allow the Contractor(s) to distribute covered products to ordering activities under the Prime Vendor Program.
2. Offer discounts on the delivered price of the product ordered under Prime Vendor contracts, whereby the price to the customer includes the discount. The discounted price is the price that will be submitted via the 832 catalog transaction.

D. NAPAs neither obligate the Contractor to carry, nor the ordering activity to purchase, any of the Agreement Holder's products; however, NAPA terms will apply to any order placed by the customer for products covered by a NAPA, in which case the STORES catalog price must reflect the NAPA discount even if the NAPA item is not ordered directly from the NAPA manufacturer (i.e. from a distributor).

E. Under a contract resulting from this solicitation:

1. Within five (5) working days from notification of award, the awardee will contact Margaret Conforto, Program Manager, NAPA Team, 215-737-8461. The NAPA Team will provide general instructions and a password to access the allowances on the NAPA website.
2. The Contractor agrees to catalog and bill the invoice price less the NAPA allowance to the Government, and initiate a bill-back to the Agreement Holder, if any activity orders any product covered by a NAPA. The Agreement Holder will reimburse allowances to the

Contractor within a time period mutually agreeable to the Contractor and the Agreement Holder.

3. DLA TROOP SUPPORT will attempt to facilitate resolution of any such disputes.
- F. The NAPA Program is for the exclusive use of DLA TROOP SUPPORT customers purchasing product under the resultant contract.
- G. NAPA Tracking Program: The Contractor agrees to comply with the requirements of DLA TROOP SUPPORT's Tracking Program and shall provide the required product information to support the NAPA allowance and sales tracking website. Data shall be submitted as follows:
1. The required information shall be formatted into a flat ASCII data file.
 2. The data file shall be submitted electronically via FTP to ftp://ftp.one2oneus.com. To obtain a username and password please contact the contracting officer.
 3. File naming convention of yyymmdd[xxxx].txt should be used when transferring a data file to the ftp site. Where xxxx can be used to keep data file names unique if transmitting more than once per day.
 4. The information shall be submitted weekly.
 5. The content of the data file includes a recap of all invoices submitted under all contracts of the prime vendor program for the previous week. The contents of the data file shall include all the information shown in the chart below.

13. BRAND NAME ITEMS

Based on the ordering habits of the customers listed in this solicitation, the current Market Basket and total catalog includes numerous Brand Name items. These are items whose manufacturers have offered the Government a discount under the NAPA Program, and which the customers have expressed a preference for, and shall be included in the catalog at the customer's request. This does not preclude future catalog changes during the life of the contract to add competing products based on added value to the customer.

14. BEVERAGE DISPENSERS

- A. When requested, the Contractor is required to furnish all hot and cold beverage dispensing machines, without additional charge to the Government, as well as the beverage products as listed in the STORES Vendor Item Catalog. The upkeep of the machines consisting of, but not limited to, labor, transportation, and supplies required to repair and maintain the equipment, shall be the sole responsibility of the Contractor.

- B. The Contractor shall furnish mechanically refrigerated dispensing machines and heads suitable for use with the Contractor's bag-in-the-box juices and drinks product and mixes. A sufficient number of machines and dispensing heads shall be installed in the customer's facility to accommodate the specific needs of each ordering activity. For **Zone 1**, The Contractor will provide a technically qualified service representative to perform maintenance and quality control inspections, as required, when ships are in port and upon notice of the customer of a problem on each dispensing system. Soda dispensing may not be part of this contract based on customer preference. It is expected that Soda will be covered under market ready contracts. For **Zone 2**, The Contractor will provide a technically qualified service representative to perform maintenance and quality control inspections, as required, and upon notice of the customer of a problem on each dispensing system.
- C. Any equipment or material furnished by the Contractor shall remain the property of the vendor and will be returned to the vendor at the conclusion of the contract in the same condition in which it was received, fair wear and tear excepted. Any concerns of excessive "wear and tear," as noticed during routine maintenance and/or customer problem notification shall be immediately brought to the attention of the Contracting Officer for further investigation.

15. GUARANTEED CASE MINIMUM / NEW ITEMS

- A. The Contractor shall be required to catalog and supply any item required by customers provided the total order quantity for that product for all contract customers is at a minimum rate of 20 cases per month.
- B. The Contractor shall source and add new items to the catalog within a maximum 45 days for new suppliers (or 21 days for existing suppliers) of notification of the Contracting Officer's approval of price reasonableness. The Contractor must notify DLA Troop Support and the requesting activity when new items are available for distribution. The Contractor will be responsible for notifying the Contracting Officer on a monthly basis if any catalog item is not meeting the twenty (20) case monthly usage minimum so that the item may be considered for deletion. Under no circumstances can a line item be removed from the catalog unilaterally by the Contractor.
- C. **Zone 1**- For Navy unique items, if after a period of 90 days in stock with zero overall case sales, or if an item is approaching the minimum acceptable shelf-life for delivery, and when removal of an item from the catalog is recommended, the Contractor will bring this to the attention of the Contracting Officer. Disposition of the item will then be resolved by a detailed review of the requirements by the Contractor and the Government. The Contractor will explore all available avenues for resale of non-moving stock, including other commercial and DoD customers.
- D. **Zone 1** – RAMP UP/RAMP DOWN
New MLL items will have a 30 day ramp up period prior to the new MLL date. Items scheduled for deletion will have a 60 day ramp down period from the new MLL date, in which both the new and old item will appear on the catalog, in order to reduce the levels of stock on-hand for the deleted item. The Contractor will inform NAVSUP of stock on hand of the deleted item, and the customer will make a reasonable effort to deplete the item prior to ordering the new item.
- E. **Zone 1**- The Contractor is encouraged to show cost effective alternatives to their current choices within the limits of the MLL. **Zone 2**- The Contractor is encouraged to introduce new food items to the customers, as well as to show cost effective alternatives to their current choices.

- F. All new items need the approval of the individual service Headquarters' prior to stocking the item. New item additions and/or changes to LSNs must be authorized in writing by the Contracting Officer prior to the 832 catalog update transmissions.
- G. When a new item is being added to the catalog to replace an item that is currently on the catalog, inventory of the current cataloged item must be depleted before the new item can be added to the catalog.

II. PACKAGING AND LABELING/MARKING

- A. All packaging and packing shall be in accordance with good commercial practice. Labeling shall be in accordance with commercial labeling complying with the Federal Food, Drug and Cosmetic Act and regulations promulgated there under. Shipping containers shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification Code. The Contractor shall be responsible for abiding to any applicable packaging, packing, and marking regulations of the various countries in/through which product will be stored/transported.
- B. Semi-perishable items shall be snugly packed in shipping containers that fully comply with the National Motor Freight Classification and Uniform Freight Classification Code, as applicable.
- C. Frozen product must be processed and packed to allow removal of the individual units from the container without damage to that or other units. The intent is to be able to remove only that amount of product required for current needs, without the necessity of defrosting all units. Meats, poultry, and seafood should be vacuum packed when practicable. In all instances the packaging must protect the product from freezer burn and contamination.
- D. To ensure that the carrier and the receiving activity properly handle and store items, standard commercial precautionary markings such as "KEEP FROZEN" for frozen items, "KEEP REFRIGERATED" for chilled items, etc. shall be used on all cases when appropriate.
- E. Chill and freeze products must be shipped in refrigerated (Reefer) Vans and appropriately separated per temperature requirements.
- F. To the maximum extent possible, nutritional and ingredient labels shall be placed on the individual package.
- G. Any delivered product not labeled with the name and address of the manufacturing establishment must be identified as to its manufacturer by "timely" advance written notice to each installation's officer in charge of food service (e.g. Installation Food Advisor (IFA)). The listing is requested in alphabetical order in respect to the shipping container nomenclature. This listing must be kept current and provided to each Installation's Food Advisor, Food Service Officer, or NAVSUP Fleet Logistics Center Seattle on a quarterly basis.
- H. **CODE DATES:** All food and beverage products shall be identified with readable dates (open code dates), or coded dates, as determined by the type of product delivered. For semi-perishable, shelf stable items, open dating is preferred but code dating is acceptable. Contractors that do not use open dating shall provide a product code number key to the Account Manager and each customer facility. This product code key is to be issued to each customer as well as the DLA TROOP SUPPORT

Account Manager on or before first delivery. Changes to the book are to be made as necessary. It is highly recommended that the Contractor review and update this book on a quarterly basis. Items other than semi-perishable, shelf stable products must have readable, open code dates clearly showing the use by date, date of production, date of processing/pasteurization, sell by date, Best If Used By date, or similar markings.

I. TRACEABILITY REQUIREMENTS FOR CONTRACTORS OR CONTRACTOR'S SUPPLIERS RE-PACKAGING AND RE-LABELING PRODUCTS

If the Contractor removes the item from the manufacturer's original packaging/shipping container and re-packages/re-labels an item, documentation must be maintained to trace the item back to the original producer/packer in case of a hazardous food recall or an item is rated Red/Critical during a DLA TROOP SUPPORT audit. The Contractor shall maintain or request from their suppliers documentation/certificates containing the following information: item nomenclature, name and number of establishment/vessel, location, country of origin, date of production/pack (DOP), lot number, etc.

If processing/production/packaging of the item occurred in more than one establishment/vessel, documentation for each item must also be maintained/provided. These records must maintain traceability of the item to the extent that a lot number/DOP/Code Date of an item can be traced back to the original manufacturers/producers of an end item. The manufacturer/producer and/or the Contractor's item label shall clearly identify the item(s) shelf life information (using an open code date) on the exterior of each case. In addition, the Contractor must maintain records of quantities and when and where the re-packaged/re-labeled item(s) were shipped. The Contractor must be able to show/provide DLA TROOP SUPPORT-FTSB's Quality Auditors the documentation for samples selected during Prime Vendor Product Quality Audits or unannounced Quality Systems Management Visits (QSMVs). It is the Contractor's responsibility to notify and ensure their suppliers understand and comply with this requirement.

The above requirements are necessary in the event of a food recall (i.e., ALFOODACT) of potentially hazardous products when a recall is issued by a Regulatory Agency and for the Contractor to isolate suspected items in order to notify customers in an expeditious manner whenever products are rated "Red/Critical" during a DLA TROOP SUPPORT audit. The above requirements serve two main purposes: (1) to protect DLA TROOP SUPPORT's customers and expeditiously notify them in case of accidental or intentional tempering/contamination, and/or to prevent consumption of unsafe/hazardous products; and (2) to maintain traceability of re-packaged/re-labeled items in order to verify country of origin, approved source requirement during the shelf life cycle of the item in Contractor storage, and the customer's receipt/storage of the item in order to expedite the recall process for all suspected items intended for DLA TROOP SUPPORT's customers.

- J. Zone 1**- The Navy has incorporated a new initiative that adds a bar code of the Stock Number to the label. The bar code is used to receipt product at time of delivery. In addition to the information listed above, the Contractor must provide a bar code on the case label.

The label shall be placed on each case so that the bar code is not wrinkled, wet or wrapped around case corners. It must be suitable for accurate and quick scanning and must include:

1. Requisition or Purchase Order number

2. The Stock Number represented in both human readable and bar coded format. This format shall be Code 128 with no less than 7.5 mil bar. Approximate size to be 3" long by ½" tall.
3. Human readable FIC.
4. When the weight of a packaged item is random or catch-weight, the weight must appear on the label.

The following sample label is provided. Actual labels must AT LEAST be the same size as the sample. (Approximately 4" X 4")

- K. To ensure that the carrier and the receiving activity properly handle and store items, standard commercial precautionary markings such as "KEEP FROZEN," "KEEP REFRIGERATED," etc. shall be used on all cases when appropriate.
- L. All products delivered by the Contractor will have an "open coded" (month/year) "Date of Pack" (DOP) and an "open coded" "Best When Used By Date", "Sell by Date", date of production, date of processing/pasteurization or similar marking indicating the end of the guaranteed freshness date.
- M. All beef, pork, lamb, and veal items shall be packaged in a vacuum process, gas flushed and wrapped in polyethylene wrapping, or vacuum packed and received in a frozen state. All poultry and seafood items are to be received in a frozen state. Commercial cartons will be used for all boxed items. **The Contractor should maximize the use of commercial packing that employs sturdy containers. Head space shall conform to standard commercial practice. Case weights should not exceed sixty (60)**

pounds. Case weights for high volume items should not be less than forty (40) pounds. These items will be identified at cataloging. Clarification and changes of high volume items will continue throughout the life of this contract.

- N. Packaging for shipboard stowage may require deviation from standard commercial pack. Product should be snugly packed.
- O. Commercial cartons that fail to hold up under ship board stowage conditions must be changed to ensure product durability.

III. PALLETIZATION

Zone 1

- A. All product must be palletized and placed on the pier at the brow of the ship.
- B. The Contractor will use standard commercial palletization and shrink-wrapping. Pallet height shall not exceed 60" in height including the pallet. Pallet retrieval, and all associated costs, shall be the responsibility of the Contractor. There is no pallet exchange program. No pallets may block the piers at any time. The Prime Vendor shall sweep all FLC Puget Sound piers for Prime Vendor owned pallets on a daily basis as a minimum, Monday through Friday between 0800-1500 hours (i.e. 8:00 AM-3:00 PM) and retrieve Prime vendor owned property. Pallets must be identifiable with the Contractor's logo or other distinct markings. If pallets are not retrieved before the cut-off times, the base recycle truck driver is required by security regulations to pick up and move pallets to a remote location.
- C. Palletizing for Aircraft Carriers and Resupply Ships must be done by using a two-way wing-type pallet. The commercial wood wing pallet dimensions must be 40"X48"X48" or 48"X40"X48". The Industrial Standard Specification for Wood pallets is the "American Society of Mechanical Engineers (ASME) MH1-Part 9, Part Number MH1-9-05-SW4048." All pads must be commercial fiberboard, 40"X48", positioned on the pallets before loading. Pallet height must NOT exceed 54". The unit load bonding material must consist of strappings: two girth-wise and three lengthwise. Bonding material shall be threaded through the strapping slots on the pallet to form a consolidated, stable cargo, which can be handled as a unit.
- D. The palletized/containerized unit loads require placards. The placards contain identification and contract data markings, which are to be stenciled, printed or labeled on two adjacent sides of the unitized load. 3. PRODUCT QUALITY & SHELF LIFE REQUIREMENTS

For all Customers acceptance of supplies awarded under this solicitation will be limited to product processed and packed from the latest seasonal pack during the contract period. The SPV Contractor shall use First Expired First Out (FEFO) and/or First In First Out (FIFO) methods in accordance with its regular commercial practice. All products delivered shall be as fresh as possible and within the manufacturer's original shelf life (i.e., Best if Used by Date, Expiration Date, or other markings). These highly-perishable and short-shelf life items may include but are not limited to: hot dogs, bologna, bacon, deli meat(s), cooked ham(s), other cooked meat(s), and cheeses. These items should be frozen at the manufacturer's plant (preferably) and/or shall be blast-frozen by the Contractor following the manufacturer's "Freeze-by-Date" guidelines to preclude degradation and to extend shelf-life. Documentation of the manufacturer's recommended "Freeze-by-Date" and the frozen item recommended shelf life should be available for review if the product is blast-frozen at the Contractor's facility. - D. It is NOT DLA TROOP SUPPORT's Policy to grant shelf life extensions. However, on a limited case by case basis, the Contracting Officer reserves the right to authorize extensions giving

consideration to the reason requested, manufacturer letter of extension granted, military veterinarian approval, customer approval, and price reduction offered. The procedures for Contractor request for shelf life extensions are as follows:

1. The Contractor submits written notification to the customer regarding over aged product and request customer agreement to receive the product if it is approved for extension by DLA TROOP SUPPORT and Vet Services.
2. The Contractor submits the extension request paperwork to include Customer agreement, NSN, Item Description, # of Cases, Dollar Value, Price Reduction Offered, Reason/Justification for the request, Manufacturer Letter of Extension, Manufacturer's original expiration date, and Manufacturer's extended expiration date to the Contracting Officer for review/concurrence.
3. The Contracting Officer as designated, replies to the Contractor with accept/reject of the submitted package and go or no-go for the Vet inspection request.
4. Vets inspect product (in accordance with their list of priorities) to see if it is wholesome and of adequate quality (consideration should be given to the length of the extension guarantee before Vet approval is granted).
5. Items that are approved by the Vets are used by the Contractor.

E. Level of Product Quality:

1. All items must meet the Government's item description of their assigned Government stock number. When designating an item as a match for the DoD item in the schedule of items listed in the solicitation, the item must be:
 - a. Identical in respect to packaging when the DoD unit of issue is not described by weights (e.g. pound or ounce).
 - b. Identical for portion/package size and units per pack.
 - c. Equivalent in respect to grade or fabrication.

- A. If product is determined to be defective, damaged, and/or compromised in any other manner, it may be rejected by the Government’s authorized receiving official.

- B. Product found to be non-conforming or damaged, or otherwise suspect, the Government's authorized receiving official shall reject the item and/or determine the course of action to be taken with the product in question. The final decision to accept or reject the product is to be made by the Government's authorized receiving official.
- C. In the event an item is rejected, the delivery ticket/invoice shall be annotated as to the item(s) rejected. These items shall then be deducted from the delivery ticket/invoice. The invoice total must be adjusted to reflect the correct dollar value of the shipment. Replacements will be authorized based on the customer's needs. To the greatest extent possible, on an as-needed, emergency basis, same day re-delivery of items that were previously rejected shall be made, so that the customer's food service requirements do not go unfulfilled for that day. The re-delivered items will be delivered under a separate invoice utilizing a new order. These re-deliveries will not constitute an emergency, separate requirement and therefore will have no additional charges.
- D. In the event that a product is rejected after delivery is made, the Contractor will pick up the rejected product or make other disposition arrangements deemed acceptable by the customer. Credit due to the ordering activity as a result of the rejected product being returned, will be handled through a receipts adjustment process in STORES. If the vendor has already been paid for the product, a claim will be issued through DLA TROOP SUPPORT's financial system and the Contractor shall promptly pay the claimed amount. In all cases, one (1) copy of the credit memo is to be given to the customer and one (1) copy of the credit memo is to be sent to the DLA TROOP SUPPORT Contracting Officer.
- E. It is a requirement of this Contract that product shall be inspected by the Government to affect receipt. However, failure to promptly inspect or accept supplies at the time of receipt shall not relieve the Contractor from responsibility, nor impose liability on any of the customers, for nonconforming supplies. When an item is rejected the vendor is to take the food back to its location.
- F. Supplies transported in vehicles which are not sanitary, or which are not equipped to maintain prescribed temperatures, may be rejected without further inspection.

8. FOOD DEFENSE

- A. The DLA Troop Support Subsistence Directorate provides world-wide subsistence logistics support during peacetime as well as during regional conflicts, contingency operations, national emergencies, and natural disasters. At any time, the United States Government, its personnel, resources and interests may be the target of enemy aggression to include espionage, sabotage, or terrorism. This increased risk requires DLA TROOP SUPPORT to insure steps are taken to prevent the deliberate tampering and contamination of subsistence items. Such precautions are designed to provide for Food Defense as described by the Food & Drug Administration (FDA) at www.fda.gov/Food/FoodDefense/.
- B. As the holder of a contract with the Department of Defense, the Contractor should be aware of the vital role they play in supporting our customers. It is incumbent upon the Contractor to take all necessary actions to secure product delivered to all military customers, as well as any applicable commercial destinations. The Government strongly recommends that all firms review their force protection/food defense plans relating to plant security and security of the product in light of the heightened threat of terrorism, and secure product from intentional adulteration/contamination.

- C. The Contractor shall comply with its Food Defense Plan (as submitted as the Food Defense portion of its Non-Price Proposal under this contract solicitation) to prevent product tampering and contamination, and assure overall plant security and food safety. The Contractor/Vendor must take all practicable measures that are within its control to deter or prevent tampering or contamination of supplies provided for under this contract solicitation. The Contractor/Vendor must immediately inform DLA TROOP SUPPORT Subsistence of any attempt or suspected attempt by any party or parties, known or unknown, to tamper with or contaminate subsistence supplies.

NOTE: The Food Defense Plan submitted as part of the Non-Price Proposal is one of the factors to be rated. This plan may be modified at any point prior to contract start-up/implementation or during the period of performance. Whenever a change is made to the Food Defense Plan, it shall be submitted to the Contracting Officer.

- D. Accordingly, a revised Food Defense Plan will be evaluated to ensure compliance with the DLA Troop Support Food Defense Checklist (NOTE: to download a copy of the DLA Troop Support Food Defense Checklist go to http://www.troopsupport.dla.mil/subs/fs_check.pdf or contact the applicable Contracting Officer or the DLA Troop Support Quality Audits & Food Defense Branch at 215-737-8656). DLA Troop Support-FTSB will conduct Food Defense Audits/reviews during Prime Vendor Product Quality Audits, Unannounced Quality Systems Management Visits and/or other visits to verify the implementation, compliance and effectiveness of the firm's Food Defense Plan. Firms should include specific security measures relating to but not limited to the following areas:

1. Employee Identification
2. Background checks where applicable
3. Control of access to plant facility, gates and doors at the facility
4. Internal Security
5. Training and security awareness
6. Product Integrity
7. Transportation Security

NOTE: If more than one facility will be used to store or distribute product this must be clearly indicated in the Non-Price Proposal, and a separate Food Defense Plan for each facility must be submitted.

9. WAREHOUSING AND SANITATION PROGRAM/STORED PRODUCT PEST MANAGEMENT

The Contractor shall develop and maintain a sanitation program and a stored product pest management program for the food and other co-located non-food items that comply with industry standard programs such as the Code of Federal Regulations, Title 21, Part 110, Good Manufacturing Practices (GMPs), Food Safety Modernization Act (FSMA), the Federal Insecticide, Fungicide, and Rodenticide Act, the Food, Drug, and Cosmetic Act of 1938 as well as other pertinent US federal, state and local laws and regulations (and other applicable laws in US Territories and other countries where facility is located) applicable to products and facility. Records of inspections performed by the firm, Subcontractor, or recognized industry association shall be maintained and made available to the Government at the Contracting Officer's request. Any findings by the firm or its agent documenting a critical sanitation deficiency shall be reported immediately to the Contracting Officer with an attached report of corrective action.

10. PRODUCT SANITARILY APPROVED SOURCE REQUIREMENTS

Applicable food products, e.g. poultry, dairy and seafood items, delivered to customers listed in this solicitation, as well as any customer added to the Prime Vendor Program, shall originate either from an establishment listed in the “Directory of Sanitarily Approved Food Establishments For Armed Forces Procurements,” or one which has been inspected under the guidance of the United States Department of Commerce (USDC) or the United States Department of Agriculture (USDA). For detailed information see Clause 52.246-9044 “Sanitary Conditions” in this solicitation. Warehouse/storage facility used by the Contractor to store food products intended for DLA customers will be inspected for sanitation and food defense compliance during Joint Quality Audits performed by USDA-AMS’ and DLA Troop Support’s Quality Auditors or by USDA-AMS’s Auditors as requested/directed by DLA.

Note: If the Contractor stores, distributes, processes, and/or ships fresh fruits and vegetables (Produce) to DLA customers, the USDA Guidance for fresh fruits and vegetables is the USDA-AMS Good Agricultural Practices (GAP) Verification Directory or the USDA-AMS Good Handling Practices (GHP)/Verification Directory for fresh fruits and vegetables, as applicable HACCP Audit will be performed if a fresh-cut operation is performed at the Contractor’s facility. Bulk Fresh fruits and vegetables suppliers must be inspected and listed under the USDA-AMS GAP and/or the GHP Directory.

11. PRIME VENDOR QUALITY SYSTEMS MANAGEMENT VISITS AND AUDITS

A. QUALITY SYSTEMS MANAGEMENT VISITS (QSMVs)

1. The DLA Troop Support Subsistence Supplier Support Division's audit personnel may conduct unannounced Quality Systems Management Visits (QSMVs) to review the Contractor's compliance with the terms of the contract. The visits will be internally scheduled within DLA Troop Support as a result of unsatisfactory ratings received during DLA TROOP SUPPORT Prime Vendor Product Audits, customers’ complaints, requests from the Contracting Officer, or as deemed necessary by the Government. QSMVs may include visits to Subcontractors and/or product suppliers/food distributors used by the Contractor. If DLA TROOP SUPPORT deems it necessary to conduct an on-site visit with a Subcontractor, product supplier and/or food distributor used by the Contractor, the Contractor shall make arrangements for these visits.

During the QSMV the Government may review/verify one, several or all of the following areas (this list is not inclusive) as deemed necessary: the methods and procedures used to comply with the terms of the contract; condition of storage facilities; product shelf-life management; inventory in-stock (age of product and condition, labeling, product rotation (FIFO), etc.); shelf life extensions; product substitutions; control of material targeted for destruction/disposal or to return to suppliers as a result of customers’ returns including DLA TROOP SUPPORT’s Contractor audit results and other recalls; review of paperwork for product destroyed/condemned or returned to supplier including but not limited to product rated Blue/Red during the last DLA TROOP SUPPORT audit, customer returns, etc.; customer’s notification on product recalls (product rated Blue/Red/other reason), etc.; Contractor’s response to customer returns/issues and visits to customers’ locations. The QSMV may also include unannounced visits to DLA TROOP SUPPORT customers served by the Contractor.

2. The Contractor must provide the Government a report showing all DLA TROOP SUPPORT catalog products sorted by location when the QSMV Team arrives.
3. The Contractor's Non-Price Proposal will be incorporated by reference into the contract. The Contractor will be responsible for complying with its Non-Price Proposal. Procedures and processes set forth in the Contractor's Non-Price Proposal may be used as standards for a QSMV. If there is any conflict between the solicitation language and the Contractor's Non-Price Proposal, the solicitation language governs.
4. The Contractor must address and take corrective and preventive action to any concerns identified as a result of the QSMV, within the required timeframe as cited in the QSMV report or out brief. Concerns identified during the QSMV, or Contractor failure to take corrective action in response to QSMV findings, will be grounds for terminating the Contractor's contract. The Government may, at its discretion, take other action to correct the concerns identified during the QSMV such as but not limited to unannounced QSMVs. Such action will not eliminate the Government's right to terminate the Contractor's contract should the identified concerns continue, the Contractor fails to take corrective and preventive action, or the Contractor's corrective action fails to correct the problem.

B. PRIME VENDOR PRODUCT QUALITY AUDITS:

1. Basic Audits
 - a. The DLA TROOP SUPPORT Prime Vendor Product Quality Audit Program, covering all Food Classes within the Contractor's catalog (Meat, Poultry, Seafood and Processed Products, and other items as deemed appropriate) functions as a Service and Quality Assurance check for our DoD customers to ensure the war fighters are receiving products of an optimum quality level. The audit objectives are to ensure:
 - i. Contractor adherence to contract requirements
 - ii. The quality level of the materials supplied is satisfactory and uniform throughout the DLA TROOP SUPPORT-FT Prime Vendor Regions.
 - iii. There is no product misrepresentation or unapproved substitution.
 - b. The Audit objectives are accomplished utilizing the expertise of the U.S. Dept. of Agriculture (USDA) Agricultural Marketing Service (AMS) Meat, Poultry and Processed Products Graders, U.S. Dept. of Commerce (USDC) National Marine Fisheries Services and DLA TROOP SUPPORT-FT Quality Assurance personnel. Representatives from the above agencies form the DLA TROOP SUPPORT Prime Vendor Product Quality Audit Team.
 - c. The Contractor will undergo an initial audit once per contract period with the first audit occurring during the base period and other initial audits or QSMVs occurring up to once per option period. The audits are conducted as a product cutting. The cost of one Food Audit is estimated at \$9,500.00 (for product cost only). The Contractor will provide samples of catalog items chosen by the government at a cost of up to \$9,500.00 per audit. In addition to this amount, if a Produce Quality Audit is performed the Contractor will also provide produce

sample items at a cost of up to \$1,500. The Contractor is required to provide the following support to the DLA Troop Support Audit Team: personnel and equipment to select, separate, move, and discard audit samples and to monitor thawing of some products before and during the audit. The Contractor is also required to provide a digital camera and personnel to take digital pictures during the audit. Additional cost may be incurred by the Contractor if their facility does not have a facility/kitchen or the equipment needed to perform the audit. For additional costs associated with Follow Up Audit/QSMV due to prior audit/QSMV failure, see paragraph 6 below ("Follow Up Audits").

NOTE:

- (1) Since there is no destructive sampling performed during a QSMV, there is no cost of product associated with QSMVs.
- (2) The Government reserves the right to conduct an unannounced QSMV in lieu of an initial audit or other audit during the base period and/or any option periods if deemed in the best interest of the Government.

2. Audit Process

- a. The Contractor will be given advance notice of sixty (60) calendar days of an impending audit. Effective upon receipt of the 60 day notification, the Contractor will not delete items from the contract catalog without first receiving written permission from the Contracting Officer to delete the item(s). The Government reserves the right to conduct unannounced food audits or QSMV.
- b. The DLA Troop Support Quality Audit is typically a three (3) day process. Day one is devoted to sample selection at the Contractor's warehouse and performance of the Joint USDA-AMS/DLA Sanitation /Food Defense Audit. Days two and three encompass the performance of the actual Prime Vendor Product Quality Audit.

NOTE: If a Produce Audit is performed in conjunction with a Prime Vendor Audit, an additional day will be added to the audit (See Produce Audit information in c. below.) In the event of a Produce Audit being conducted in conjunction with a Prime Vendor Audit, the Prime Vendor Audit portions will occur on days three and four.

- c. If the Contractor stores, distributes and/or ships fresh fruits and vegetables (Produce) to DLA customers, a Produce Quality Audit may be conducted in conjunction with the Prime Vendor Product Quality Audit or separately. Fresh fruits and vegetables supplied shall be US Grade 1 or higher. Also, if fresh-cut operations are performed at the Contractor's facility, a Joint DLA/USDA-AMS Good Agricultural Practices (GAP)/Good Handling Practices (GHP)/Hazard Analysis Critical Control Points (HACCP) Audit will be performed.
 - i. A Produce Quality Audit is typically a two (2) day process. Day one is devoted to sample selection at the Contractor's warehouse and

performance of the GAP/GHP/HACCP Audit. Day two encompasses the performance of the actual Produce Quality audit. Warehouse/storage facilities used by the Contractor to store food products intended for DLA customers will be inspected for sanitation and food defense compliance during Joint Quality Audits performed by USDA-AMS's and DLA Troop Support's Quality Auditors or by USDA-AMS's Auditors as requested/directed by DLA.

- d. Upon arrival at the Contractor's facility (day one), the Lead Auditor will provide a list of items identified for evaluation and the samples will be selected by a USDA-AMS Auditor. The Lead Auditor will accompany the USDA-AMS during the performance of the GAP/GHP Audits.
- e. Items selected for evaluation will be segregated from the Contractor's regular inventory and appropriate procedures shall be used to maintain the integrity of the samples. Evidence that the Contractor has replaced or tampered with samples, or otherwise interfered with the audit samples and/or audit process will result in the Contractor failing the audit.
- f. During the Prime Vendor Audit the DLA Troop Support Lead Auditor will assign an item rating based on compliance with or departure from stated requirements as specified in the DLA Troop Support NSN, LSN, or NAPA catalogs. Items will also be audited to determine compliance with the Berry Amendment, approved source requirements, FDA Retail Food Code, USDA-AMS Warehousing Standards, Good Manufacturing Practice, Food Safety Modernization Act, additional provisions of the Code of Federal Regulations and other applicable standards, regulations, and contract requirements.

NOTE: If a Produce Quality Audit is performed, the DLA Lead Auditor will assign an item rating based on compliance with or departure from stated requirements in the DLA Troop Support NSN/LSN catalog and the specified US Grade 1 Standards.

- g. Deviations from the contract or stock number requirements will be color coded and classified based on the severity of departure from requirements as follows:

PRIME VENDOR PRODUCT AUDIT RATINGS (COLOR CODE RATING SYMBOLOGY)

ACCEPTABLE (GREEN) = Acceptable. No deviations from the contract or the item description stock number requirements.

MINOR NONCONFORMANCE (YELLOW) = Not fully acceptable. A Minor nonconformance is a deviation from the contract or the item description stock number requirements. This minor nonconformance is not likely to materially reduce the usability or serviceability of the item for its intended purpose or affect its condition and/or the continued storage of the item for further use. Examples of minor nonconformances: Cataloging issues; Minor workmanship/fabrication violations; Minor weight/portion control violations; Items that exhibit very slight freezer burn or dehydration on some sample units; Minor workmanship/fabrication or minor weight issues; Minor deviations from packing, packaging, labeling and marking requirements that

would not necessitate a regulatory market suspension or affect DLA TROOP SUPPORT's ability to recall the item.

ACTION REQUIRED: This nonconformance requires attention from the Contractor. Minor nonconformances may be tolerated by the customer for a short period of time (until the Contractor receives a new product at OCONUS but for no more than 30 days at CONUS locations).

MAJOR NONCONFORMANCE (BLUE) = A major nonconformance, other than critical, is a deviation from the contract or the item description stock number requirements. This major nonconformance is a deviation that materially affects or is likely to have a major effect on the serviceability, usability, condition and/or continued storage of an item for further use. Examples of major nonconformances: Domestic source/regulatory/approved source violations; Wrong item; Grade failures or mismatch; Major workmanship/fabrication violations; Major weight/portion control violations; Item shelf life/ expiration date violations; Not latest season pack/crop year violations; Items that exhibit major freezer burn or dehydration, temperature abuse, and/or other off condition that although not likely to result in hazardous or unsafe conditions, the defect and/or combination of defects materially affect the item serviceability for its intended purpose and/or prevents the performance and production of an end item/meal by the customer; and/or Major deviations from packing, packaging, labeling and markings that would necessitate a regulatory market suspension or have a major effect on DLA TROOP SUPPORT's ability to recall the product.

ACTION REQUIRED: Contractor is required to STOP ISSUE of the item, unless otherwise approved by the Contracting Officer.

CRITICAL NONCONFORMANCE (RED) = A critical nonconformance is a deviation that judgment and experience indicate consumption of the item is likely to result in hazardous or unsafe conditions for individuals. An item will receive a Red Rating if it contains a critical defect(s) that involve food safety issues such as wholesomeness, foreign material, contamination or adulteration issues that judgment and experience indicate consumption of the item is likely to result in hazardous or unsafe conditions for individuals. Examples of critical nonconformances: Items with food safety concerns are those items that exhibit decomposition, contamination, foreign material, and/or other conditions that render an item unfit for human consumption.

ACTION REQUIRED: Contractor is required to STOP ISSUE of the item, immediately NOTIFY DoD CUSTOMERS, REQUEST RETURN of the item in question, and notify supplier/producer of the item (if applicable).

NOTES:

1. **MAJOR NONCONFORMANCE (BLUE)** = In OCONUS locations only, the Contracting Officer may approve continue issue of the item because of location extenuating circumstances and on a case-by-case basis. This approval is depending on the type and severity of the deviation, DLA TROOP SUPPORT Lead Auditor recommendation, customer approval, and if the same item and/or a substitute of equal/higher technical quality is Not-in-Stock at OCONUS location. Continue issue of the item may require and include Contractor screening/rework of the nonconforming item and follow-up Government inspection/audit to verify action taken by the Contractor (at no cost to the Government for inspection/travel costs). At CONUS/OCONUS locations, only the Contracting Officer, not the customer or the Lead Auditor, has the authority to accept wrong items (not meeting item description cited in DLA TROOP SUPPORT catalogs).

The Rating assigned to the item WILL NOT be changed by the Lead Auditor because of acceptance with a waiver/rework/repair of the item in question. The DLA TROOP SUPPORT Food Safety Office (DLA TROOP SUPPORT-FTW), at the request of the Contracting Officer, may issue a restricted (to DLA TROOP SUPPORT customers only) Hazardous Food Recall for all those items originating from an unapproved source and distributed to DLA TROOP SUPPORT customers worldwide.

2. CRITICAL NONCONFORMANCE (RED) = The DLA TROOP SUPPORT Food Safety Office (DLA TROOP SUPPORT-FTW) will issue a Hazardous Food Recall for all critical nonconformances involving items with food safety concerns that render an item unfit for human consumption or may present a health hazard for DoD customers. If applicable, the Contracting Officer should suggest suppliers/producers of the item to review shipping documents to ensure the same item was not delivered to other DoD customers.

3. Prime Vendor Audit Preparation

The Contractor is responsible and will bear all costs for the facility and the equipment/supplies used during the audit. Immediately upon receipt of the audit notification, the Contractor shall make arrangements to use their normal product cutting room/kitchen (if adequate) or find another facility for the audit. If there is no space available at the Contractor's facility or the space is inadequate, other arrangements must be made by the Contractor. The room must be equipped with running water. To ensure accurate weight of audited items, it is highly recommended that scales used during the audit are calibrated within the 60-day notification period and an applicable set of test weights are available to verify scale accuracy. A scale capable of weighing portion control items and roasts, and a scale capable of weighing full cases are required. Clean-up of the cutting area/room and continuous clean-up of equipment will be the Contractor's responsibility. The Contractor must contact the Lead Auditor to discuss the location, adequacy of the facility, and equipment available as soon as possible but no later than 45 Calendar days prior to the audit. The following is the list of equipment/supplies needed:

- (a) Freezer storage area to store samples selected;
- (b) Chill area for tempering product for approximately 10 + pallets;
- (c) Tables for conducting the audit and demonstration;
- (d) Sinks/wash area equipped with sanitizing soap for cleaning knives and equipment;
- (e) Water jet spray attachment for the sink;
- (f) Pans or work area in close proximity to a sink area to drain/purge from packaged product;
- (g) Deep fat fryer;
- (h) Microwave;
- (i) Calibrated Scales/Test Weights: One digital portion scale able to record product weights in both ounces and grams and capable of measuring down to the nearest hundredth is preferable, and a set of test weights with a recommended weight range of 1.0 ounce to 1 pound; and, one scale able to record product weights for full cases with an approximate weight range of 0 -100 lb and capable of measuring down to the nearest tenth is preferable and a 25 lbs. test weight;
- (j) A minimum of 10 large flat baking sheet pans, plastic trays or some type of tubs to place thawed meats;
- (k) Cart to move samples around;
- (l) Cutting boards (two or three);
- (m) Large trash cans with bags;
- (n) Power hook-up for 3-4 computers;
- (o) Access to a copy machine;
- (p) Small box for ground beef samples (Approx. 10 oz) and dry ice or cold packs for mailing;

- (q) Miscellaneous supplies: Paper towels; large heavy-duty plastic trash bags; one-gallon zip-lock storage bags (for microwave cooking); one box of large latex gloves; paper flip chart/easel with markers (RED, BLUE, ORANGE, GREEN, BLACK); cellophane tape; binder clips; and a stapler; and
- (r) Optional but considered highly desirable: Cloth towels and floor covering to maintain clean and sanitary floor areas.
- (s) The Contractor may be asked to provide a digital camera with date and time stamp capabilities and a person to take the digital pictures during the audit. If applicable, a copy of the time and date stamped pictures shall be E-Mailed to the DLA TROOP SUPPORT Lead Auditor at the conclusion of the audit. A separate E-Mail shall be submitted to the DLA TROOP SUPPORT Lead Auditor for each food class within a Contractor's catalog which has been audited (Meat, Poultry, Seafood and Processed Products, and other items as deemed appropriate). The destination E-Mail address of the DLA TROOP SUPPORT Lead Auditor will be provided during the audit.

4. Sample List/Selection of Samples

The Lead Auditor will provide a list of sample items upon arrival at the Contractor's facility. Two samples for each item will be selected. A pick list/picker stickers, six month velocity or usage report, and an on-hand inventory quantity report (i.e. number of cases on hand) should be developed for each item after receipt of the list. Warehousing assistance will be required to pull and prepare samples for the audit. Assistance with moving samples from the storage areas to the audit area and also continuous removal of items after review will be required on audit days. Some samples will require tempering/thawing. An area will need to be provided for the sample tempering process with a capacity for at least 10 or more single layer pallets side by side. In order to rapidly temper these items the warmest area at the facility will be needed. Upon tempering the items will need to be placed in a chilled environment. All samples must be stored in controlled conditions to protect from abuse or tampering. Samples of product may be sent for lab testing to ascertain wholesomeness and safety of a product if determination cannot be made by normal inspection/observation during the audit (food safety issues such as wholesomeness, foreign material, contamination or adulteration, etc.). The meat audit items (approx. 13-20) will be primarily Center of the Plate –Beef and Pork- Steaks, Roasts, Chops, Diced, and Ground items. Ground Beef Bulk and Patties will be sent to the USDA laboratory for Analytical testing- Fat only. The Contractor will need to arrange for the shipping of the samples approximately 4 ounces, except in OCONUS areas where prohibition exists or it is impractical. The seafood items (approx. 13-20) will consist of Fish - Portions, Sticks, Fillets, and Steaks, Shrimp, Lobster, Crab, Clam, Oyster, and Crawfish. Poultry items (approx. 13-20) will also be center of the plate items. Processed Products Fruit and Vegetable will consist of approximately 13-20 Items. Since the DLA TROOP SUPPORT Prime vendor Product Quality Audit covers all Food Classes within the catalog (Meat, Poultry, Seafood and Processed Products, and other items as deemed appropriate), samples of "other" items may be selected to make-up the number of samples required for a commodity when the Contractor's Catalog lists a limited number of items for one or more of the major commodities. A combined rating score will be assigned during the audit (e.g., Seafood/Other).

NOTE: Certification/Documentation - To avoid delays/questions during the audit, the Contractor should ensure that ALL products intended for DLA TROOP SUPPORT's customers are derived from Approved Sources and meet the Berry Amendment requirements (unless otherwise is excluded in the contract/FAR/DFAR or authorized by the Contracting Officer). The Contractor should obtain and have the following certifications/documentation available during the sample selection (preferable) and/or during the audit should the Lead Auditor need to review documentation to verify compliance with the following: All Seafood items

are required to originate from an approved domestic source; processed fruits and vegetables are required to be from the latest seasonal pack (crop year) available, so be prepared to provide seasonal pack/crop year information for samples selected; and any item on the list that is required to be certified must be available for review.

5. Audit Results

The audit results are performance indicators that will be used in conjunction with a firm's past performance. DLA TROOP SUPPORT considers 85% acceptability for each category (Meats, Poultry, Seafood, and Processed Products) as the minimum standard for acceptable performance. The Contractor will be given a detailed report on each product reviewed. It will be the Contractor's responsibility to take immediate action to correct any deficiency uncovered during the audit. Corrective action must include action to address the deficiency and the system which allowed the deficiency to occur. Audit failures and/or failure to take corrective action will be grounds for terminating the contract.

6. Follow-Up Audits

Follow up audits may be scheduled within a one-year period of the initial audit as deemed necessary by the Government. Grounds for follow-up audits include but are not limited to failure to obtain an acceptable rating (< 85%) in one or more commodities, repetitive failures, and customer complaints. All samples, audit facility, and equipment/supplies needed for the follow-up, same as indicated above for the initial audit, are to be at the expense of the Contractor. The Contractor will also be responsible for reimbursement of USDA-AMS/USDC's incurred expenses associated with inspection and travel cost.

During a follow-up audit only those commodities that failed the initial audit (scored < 85%) will be audited. Also, a commodity that had an unreasonable number of items not-in-stock (more than 50% of items listed in the Contractor's catalog were NIS) during the initial audit, may also be audited during a follow-up. If the follow-up is a one-day audit (one or two commodities) these samples may require removal from refrigeration and/or frequent monitoring by Contractor's personnel the previous day/evening to ensure thawing within a 24-hour period. Additionally, the DLA TROOP SUPPORT Lead Auditor may stop at the facility to review the thawing progress the evening before the audit.

NOTE:

- (1) In addition to the cost of product and other expenses, the Contractor is also responsible for the reimbursement of USDA-AMS/USDC's Inspection costs, as well as travel costs, associated with a Follow-Up Audit/QSMV conducted as a result of the Contractor's failure of a prior Quality Audit or QSMV. Since there is no destructive sampling performed during a QSMV, there is no cost of product associated with a QSMV.
- (2) The estimated cost of a Follow-Up Audit includes the current USDA-AMS/USDC fee at the time of the audit/QSMV (FY 2013 fee - \$90.00 per hour); in CONUS, two (2) eight (8) hour days of temporary duty and one (1) or two (2) eight (8) hour day(s) of review/audit time. The total cost of review time is dependent upon the number of auditors/graders needed to perform the Follow-up Audit. For example, one (1) commodity failure will require two (2) USDA-AMS/USDC auditors, two (2) commodity failures will require three (3) USDA-AMS/USDC auditors, and three to four (3-4) commodities failures will require four (4) auditors. Follow-up QSMVs require two USDA-AMS Auditors, regardless of number of commodity failures. In CONUS, the maximum fee charges/cost for 4 days/8hr day is \$2,880 per auditor **plus** reimbursement for actual travel cost (transportation, lodging, per diem, rental car, miscellaneous

expenses) as authorized by the Government Joint Travel Regulation. After the Follow-up Audit/QSMV, the Contracting Officer will request for reimbursement of USDA-AMS/USDC's inspection and travel costs associated with the Follow-up Audit/QSMV from the Contractor. Contractor will submit payment (check made payable to the US Department of Treasury) to the Contracting Officer within **45** Calendar days of request.

7. Audit Failures

As noted herein, audit failures and/or failure to take preventative and corrective action will be grounds for terminating the contract. The Government may, at its discretion, take other action to address the audit failure such as, but not limited to unannounced QSMVs and/or follow-up audits. Such action will not eliminate the Government's right to terminate the Prime Vendor contract should the deficiency or system which allowed the deficiency to occur remain uncorrected.

V. ORDERING and DELIVERIES & PERFORMANCE

1. START-UP / IMPLEMENTATION PERIOD

- A. A start-up/implementation period of up to 2 months (or 60 days) is allowed. An incumbent Contractor who receives the award may be afforded less time for start-up/implementation.
- B. The new contractor's 60-day start-up period is defined as the timeframe which begins immediately after award and ends as the first order is placed. Within this timeframe the new contractor shall be fully operational to support all customers listed in this solicitation. The start-up/implementation period is the period in which the contractor shall source and add, at fair and reasonable prices, the balance of the required catalog items, complete its ability to fully execute all EDI transactions and interact with STORES, and fully populate its complete electronic catalog for customer support. The complete electronic catalog must be submitted via 832 transaction at least two weeks prior to the first order date. The catalog prices will establish the initial catalog and must be held throughout the first ordering week of the contract, if determined fair and reasonable by the Contracting Officer. The Contractor shall submit a proposed implementation schedule to the Contracting Officer within ten (10) days after award highlighting the steps that will be taken to implement a fully functional distribution account, including all EDI transactions (and testing), for all customers covered by this solicitation. An additional 50 days will be granted for complete implementation.
- C. During the start-up/implementation period, the incumbent Contractor will remain the principal source of food and non-food supplies. Notwithstanding other provisions of any resultant contract, performance failure during this period may result in termination for cause. In unusual or emergency circumstances, the new Contractor may consider procuring residual levels of inventory from the incumbent as an initial basis for creating a catalog of items. It is the Government's intent to have all orders placed under the new Contractor's contract when the incumbent contract expires.
- D. The Government reserves the right to coordinate a post award conference to be hosted by the awardee within the start-up/implementation period. The Contracting Officer, or designated representative, initiating the conference will designate, or act as, the chairperson.
- E. Many bases currently require enrollment in RapidGate and will not allow entry without RapidGate clearance. During the contract start-up/implementation period, the Contractor must contact all customer locations to determine whether enrollment in RapidGate or another security program is

required for access to each location. If RapidGate or other security enrollment is required, the Contractor must take all necessary steps to obtain this in time for the start of performance under this contract. Failure to have RapidGate clearance may result in a vendor being turned away from the base and being unable to complete delivery. The Contractor is responsible for the additional cost for RapidGate enrollment and must ensure that a RapidGate enrolled driver is available for all deliveries. We currently estimate that RapidGate enrollment will cost about \$250 per company and \$200 per enrolled employee for 1 year of access to multiple locations, but the cost of RapidGate or other security enrollment may vary, so the Contractor should contact RapidGate to determine its own costs. If more than one driver is required, RapidGate enrollment must be obtained for each driver. Note that enrollment can take several weeks, so an awardee that is not already enrolled must begin enrollment at the time of award notification at the latest. If difficulty or delay in enrollment in RapidGate is encountered during the start-up/implementation period, the Contractor **MUST** contact RapidGate and/or the Security Officer at the applicable customer locations to resolve any issues with processing RapidGate enrollment so that the Contractor will be able to deliver as required. For additional information regarding RapidGate, including enrollment instructions, please visit their website at www.rapidgate.com.

Please note that RapidGate is currently a requirement for access to some military bases; however, these and other locations may require enrollment in other security programs at some time in the future. In this event, the Contractor is responsible for obtaining all required enrollments and clearances for each of their drivers as soon as they receive notice of such a requirement.

2. ORDER LEADTIMES

Zone 1

- A. Routine lead times (in-port ships): Deliveries will be made with a 7-day turnaround (orders placed Monday will be delivered the following Monday.) The customer shall submit their orders by 2:00 p.m. for delivery the same day of the following week. Orders with less than a 7-day lead time up to and including same day delivery will be treated as either “emergency orders”, or the order will be filled, without the guarantee of receiving a fill rate of 98%.
- B. Other lead times for special circumstances for Navy Ships:
 - 1. For in-port Navy Ships loading out for deployment, the order lead-time shall be 14 days, providing a fill rate of at least 98%.
 - 2. For Visiting Navy Ships (i.e. Ships underway and ordering from other than their home port Contractor catalog) the order lead time shall be 21 days. In the event the visiting Navy Ship cannot provide a 21 day lead-time, the Visiting Ship(s) shall submit orders with the greatest lead-time possible.
- C. Customers will receive a 98% fill rate regardless of the number and types of ships ordering consistent with the required lead time.

Zone 2

- A. Orders, other than Emergency Orders or orders for Special Order items, shall be delivered on a “skip day” basis (the 2nd day thereafter) , at a minimum, e.g. Monday orders shall be delivered no later than Wednesday.
- B. Orders shall be submitted by the customer by 2:00 p.m. for skip-day deliveries.

3. EMERGENCY/SAME DAY ORDERS

Zone 1

- A. The Contractor shall fulfill emergency orders, i.e. orders with less than a 7-day lead time up to and including same-day delivery, as needed. The Contractor is responsible for providing the ordering facilities with the name of the Contractor’s representative responsible for notification of receipt and handling of such emergency service and his/her phone number and/or pager number.
- B. A STORES order must be placed for all emergency orders to assure proper Contractor invoicing and payment. If STORES is inoperable, the order must be entered into STORES post-delivery.
- C. In the event of a hurricane or other disaster, it may be necessary for the government to pick up certain key disaster-relief products at the Contractor’s facility, including but not limited to bottled water, packaged ice, and commercial meal kits. In case of such an emergency, the Contractor and government will negotiate FOB Origin distribution prices for such items.
- D. All emergency order(s) for supplies must be same day service. Expeditious fulfillment of the emergency requirement is imperative. The offeror is required to submit their plan for handling emergency orders. The Contractor shall provide two (2) emergency orders per month per individual DODAAC (ordering activity), at no additional charge to the government.
- E. The Contractor may experience unscheduled arrival of ships, with only a few hours notice, as part of normal operations, where the order requirements could more than double from their normal usage on a given days notice (these will be considered emergency orders).
- F. Emergency orders will not be counted against Fill Rate.

Zone 2

- A. The Contractor shall fulfill emergency orders, i.e. orders for same-day delivery, as needed. The Contractor is responsible for providing the ordering facilities with the name of the Contractor representative responsible for notification of receipt and handling of such emergency service and his/her phone number and/or pager number.
- B. The time emergency orders must be placed for same-day delivery will be determined by award based on successful offeror’s proposal. Emergency orders may be changed/cancelled no later than time

outlined in successful offeror's proposal. Regardless of when an emergency order is placed, the Contractor will take all actions to deliver the same day as required.

- C. A STORES order must be placed for all emergency orders to assure proper Contractor invoicing and payment. If STORES is inoperable, the order must be entered into STORES post-delivery.
- D. The Contractor shall be responsible for completing no more than two Emergency orders per customer, per month, without additional charge.
- E. In the event of a hurricane or other disaster, it may be necessary for the government to pick up certain key disaster-relief products at the Contractor's facility, including but not limited to bottled water, packaged ice, and commercial meal kits. In case of such an emergency, the Contractor and government will negotiate distribution prices for such FOB Origin items.

4. SPECIAL ORDER ITEMS and DELIVERY TERMS

- A. **Zone 1** - The Contractor may add a reasonable (7-14 day) lead-time to stock numbered items that have an average monthly case movement of less than 20 cases over a six month period. However, there are many items required by the customer that do not meet this requirement, for example infrequently ordered and seasonal or holiday items. *NOTE: THERE IS THE POSSIBILITY OF INFREQUENT ORDERING BY VISITING SHIPS, CARGO, OR THE MSC. Additionally, certain items that are maintained on the contract catalog may require longer lead-time for the Contractor (e.g. 14-21 days). The Contracting Officer must approve longer order lead-times for such Special Order items (see paragraph F below). These items that the Contractor is not required to maintain on its seven day delivery catalog, but is required to supply as needed, and approved longer lead-time items, are Special Order items. * THESE CUSTOMERS (DoDAAC's) ARE NOT TO BE DELETED OR DEACTIVATED FROM THE CONTRACTOR'S SYSTEM UNLESS AUTHORIZED BY THE CONTRACTING OFFICER.

Zone 2 - The Contractor is not required to maintain any item/LSN on the contract catalog that has an average usage rate of less than 20 cases (or lesser amount as proposed and awarded) per month. However, there are many items required by the customer that do not meet this requirement, for example infrequently ordered and seasonal or holiday items. Additionally, certain items that are maintained on the contract catalog may require longer lead-time for the Contractor (e.g. 14-21 days). The Contracting Officer must approve longer order lead-times for such Special Order items (see paragraph F below). These items that the Contractor is not required to maintain on its skip-day delivery catalog, but is required to supply as needed, and approved longer lead-time items, are Special Order items.

- B. **Zone 1**- For items on the catalog that are specified as Special Order items with a longer than 7 day order lead-time, customers shall submit separate STORES orders for such items, i.e. all items on a single STORES order shall have the same order lead-time and required delivery date.

Zone 2 - For items on the catalog that are specified as Special Order items, with a longer than skip-day order lead-time, customers shall submit separate STORES orders for such items, i.e. all items on a single STORES order shall have the same order lead-time and required delivery date.

- C. For items not maintained on the catalog, when required, the customer will provide written email request to the Contractor, and copy the DLA TROOP SUPPORT Contracting Officer and Account Manager, for such Special Order items, to include the item description, LSN if known, quantity and required delivery date. The Contractor shall immediately source the Special Order item(s), and shall provide the request to add the item(s) to the contract catalog to the Contracting Officer within 5 working days of receipt of the customer requirement/request, in accordance with paragraph V.2.A.1.c herein. Annotate "SPECIAL ORDER ITEM" on the request form. The Contractor shall be required to make deliveries of Special Order items, as required, no greater than 21 days (for existing suppliers) after approval by the Contracting Officer of the Contractor's add-item request, or no greater than 45 days from Contracting Officer approval when the item supplier is a new source for the Contractor, i.e. the Contractor does not have an existing Purchase Agreement in place with the new item supplier at the time of the Contracting Officer's approval to add the item.

NOTE: Prior to the Special Order request, the customer must obtain approvals from their Service HQ for all catalog item additions.

- D. **Zone 1** - After approval by the Contracting Officer to add the line-item/LSN to the contract catalog, the contractor shall either; (1) acquire the item and add such item immediately to the catalog, at the approved price, designating the item as a Special Order item with the required, longer order lead-time, or (2) acquire the item and add the line item/LSN to its contract catalog, after receipt of such item, for availability for customer seven day order.

Zone 2 - After approval by the Contracting Officer to add the line-item/LSN to the contract catalog, the Contractor shall either; (1) acquire the item and add such item immediately to the catalog, at the approved price, designating the item as a Special Order item with the required, longer order lead-time, or (2) acquire the item and add the line item/LSN to its contract catalog, after receipt of such item, for availability for customer skip-day order.

- E. The Contractor shall be required to maintain a historical spreadsheet of all Special Order items, by LSN and item description and including date(s) added to the catalog, and price(s). This spreadsheet shall be available to all customers and the Government, and is intended to streamline the Special Order process for future, repetitive requirements. The Contractor may be required to implement an additional, separate electronic contract catalog exclusively for Special Order items.

- F. **Zone 1** – The Contractor may, upon approval from the Contracting Officer, designate certain items as Special Order items, i.e. items that will remain on the order catalog but require longer than 7 day order lead-time. These items shall be designated as "SO" in 832 field REF02 with the corresponding order lead-time in 832 field REF03.

Zone 2 - The Contractor may, upon approval from the Contracting Officer, designate certain items as Special Order items, i.e. items that will remain on the order catalog but require longer than skip-day order lead-time. These items shall be designated as "SO" in 832 field REF02 with the corresponding order lead-time in 832 field REF03.

- G. Special Order items not maintained on the catalog may be deleted in accordance with paragraph V.2.A.2 below.

5. ORDER CHANGE and CANCELLATION TIMES

- A. **Zone 1** – The Contractor shall advise the customer by 12 noon on the day after the order is placed of the non-availability of an item. If a customer places an order more than 7 days before the required delivery date, the Contractor must still notify the customer on the day after the order is placed of the non-availability of an item. At this time, if it appears that the Contractor does not expect a stock replenishment (in sufficient time to fulfill the requirement, the Contractor will source a NAVSUP approved suitable replacement. NAVSUP will make the final decision on the acceptability of any replacements. The Contractor will charge no “restocking fees” for canceled orders resulting from unforeseen circumstances such as pier closures, ceremonies, or weapons load outs.

Zone 2 - Skip-day purchase orders may be revised, i.e. the required quantity for a line-item(s) may be increased, reduced, or cancelled in its entirety (zero amount), by such change made by the customer (by telephone, or receipt-confirmed fax, or email) by 12:00pm (noon), Contractor local time, the day prior to delivery.

- B. Orders may be cancelled at the customers’ discretion (within the timeframe specified above) including but not limited to the following reasons:
1. Change in requirement
 2. Change in troop location
 3. Change in troop mission
 4. User error on original order
- C. Special Order Item purchase orders may be revised, i.e. the required quantity for a line-item(s) may be increased, reduced, or cancelled in its entirety (zero amount), by such change made by the customer (by telephone, or receipt-confirmed fax, or email) and received by the Contractor no later than 3 days (72 hours) after order (for Special Order long lead-time items on the catalog); or no later than 3 days (72 hours) after approval by the Contracting Officer to the Contractor to add and acquire such item.
- D. For revisions/cancellations placed after the times specified, the Contractor shall not ship/deliver such cancelled items or quantities and shall take all reasonable efforts to sell such residual product(s) to other customers and orders placed under this contract or via commercial sales. In the event that late cancellation of Special Order item(s), or failure to place a STORES order for a previously requested Special Order item(s) results in expiration of shelf-life of such item(s) and a loss to the Contractor, the Contractor shall be entitled to payment for such product loss(es), provided that all of the following conditions occur:
1. The item(s) and quantity was purchased and receipted by the Contractor exclusively for the DLA TROOP SUPPORT ordering customer(s) in accordance with the DLA TROOP SUPPORT customer’s written direction,;
 2. The customer does not order or take delivery of the item or quantity as ordered or requested, and failed to timely revise/cancel the order/request notification in accordance with contract requirements,

3. The Contractor immediately notifies the Contracting Officer of the customer activity(s) failure to order as requested (i.e. for items not previously on the ordering catalog, within 2 weeks of the item going on the catalog; and for long lead-time items on the catalog, within 2-days of late cancellation),
4. The Contractor provides additional written notice to the Contracting Officer when the product has only 45 days or less of shelf-life remaining, to allow for emergency actions within the remaining shelf-life of the item, e.g. discounted commercial sales as authorized by the Contracting Officer,
5. The Contractor actually incurs the monetary loss and places a claim for such loss. The customer activity that failed to order or to take delivery of such Special Order item(s) as requested or ordered, will be liable for such product loss, and will be billed for any such loss.

6. SUBSISTENCE TOTAL ORDER AND RECEIPT ELECTRONIC SYSTEM (STORES)

A. The Contractor shall be capable of receiving electronic orders via STORES. In conjunction with STORES, the Armed Forces use a food management program to run their dining facilities. In order to be compatible and to take full advantage of its integrated food management function, the current version of STORES includes elements supporting the program. Offerors must have working IT systems which are capable of interfacing with STORES in order to be considered for award. Reference I includes the EDI transaction sets information and specifics.

B. Subsistence Total Order and Receipt Electronic System (STORES)

1. STORES is the Government's ordering system that is capable of accepting orders from any of the Services'; i.e. Army, Air Force, Navy, or Marines, individual ordering systems and creating Electronic Data Interchange (EDI) orders. In addition, this information is passed to the DLA TROOP SUPPORT Enterprise Business System (EBS) for the purposes of Contractor payment and customer billing. The web link below provides additional EDI information.
2. Customers will order all of their food and beverage requirements through STORES. Some customers will also be able to order non-food items through STORES. The system will transmit orders to the Contractor. It may be possible during the life of this contract that all customers will have the opportunity to order the non-food items from STORES.
3. The awardee shall be required to interface with STORES and must be able to support the following EDI transactions:

- a. 810 – Electronic Invoice
- b. 832 – Catalog (Outbound: Vendor to DLA TROOP SUPPORT)
- c. 850 – Purchase Order
- d. 997 – Functional Acknowledgment

A complete description of these transaction sets is included in the "STORES EDI Requirements" located at
http://www.troopsupport.dla.mil/subs/STORES_and_EDI_Requirements.pdf.

4. The Contractor shall have access to the Internet and be able to send and receive electronic mail (email).

5. Unit prices and extended prices must be formatted not more than two (2) places to the right of the decimal point.
6. The Contractor shall utilize the Government's standard item descriptions and unit package/pack sizes for each catalog LSN in the Electronic Catalog (832 transmission). This data **SHALL NOT** be modified for any LSN.

NOTE: Contractors are highly encouraged to adopt GS1 Standards. The adoption of GS1 Standards in the Foodservice Industry will greatly improve efficiency, product information, and food safety. The GS1 Standards begin with GS1 identification numbers, for products, using GS1 Global Trade Item Numbers (GTINs). GTINs uniquely distinguish all products (trade items), and logistic units across the supply chain from manufacturer to consumer. GTINs provide the link between the item and databases containing detailed information pertaining to that item. If your trading partners currently use GTINs, please reference the STORES EDI Implementation Guide attachment for segment and element instructions.

For more information regarding GS1 and GTINs, please visit the GS1 US website: www.gs1us.org/foodservice or contact: Julie McGill, Industry Relations Director, Foodservice, GS1, US, T +1 312.463.4032, E jmcgill@gs1us.org or Dennis Harrison, Senior Vice President, GS1 US, T +1 609.620.4522, Edharrison@gs1us.org.

C. STORES Ordering Process

1. All customers are required to electronically submit every order through the Government's STORES system.
2. If the STORES system is down, the Contractor shall accept the order via fax, email, or phone, and the Contractor shall deliver in accordance with the order required delivery date. In order to assure customer inventory receipting, and prompt Contractor payment and customer billing, the order must still be input by the customer into STORES as soon as possible. **The Contractor shall receive the STORES order and Purchase Order (PO) number before invoicing.** The STORES order generates the Purchase Order numbers and the funding commitment in our financial system. A Purchase Order number is one of the contractually required fields of your invoice, and **if your invoice does not have a Purchase Order number, it will not get paid. If the Contractor does not timely receive a STORES order for prior fax, email, or phone orders, immediately contact your Contracting Officer, Acquisition Specialist, or Account Manager.**
3. There shall be no line-item (LSN) additions or substitutions to existing STORES orders. Requirements for additional LSNs to prior/existing orders shall be ordered by customers via STORES as a new and separate STORES order.
4. **Authorized Telephonic, Fax, Email Changes to existing STORES Orders:** Customers may only revise the required quantities for the line-items (LSNs) on an existing STORES PO, i.e. customers may require the Contractor to reduce the quantity for, increase the quantity for, or cancel in its entirety (zero quantity), any line-item(s) on an existing STORES order, in accordance with the provisions of IV.3 and 5 above. **In this event, the Contractor shall clearly annotate the quantity adjustment on the delivery ticket/invoice, and the customer shall receipt the correct delivered quantity.**

7. NOT-IN-STOCK (NIS) NOTIFICATION & ORDERS FOR SUBSTITUTIONS

- A. A separate STORES order must be placed for all substitution/replacement items.
- B. All orders will be treated on a fill-or-kill basis; there can be no substituting of items.

Specifically, a purchase order line item quantity will either be filled (whether in whole or in part) or, if the item is not in stock, it will be reported as a zero fill on the vendor's invoice. If there is an item on the existing STORES catalog that may serve as a replacement for the NIS item, the vendor will notify the customer within 24 hours after order. If the customer agrees, they will place a separate order for that line item. The replacement item will be delivered along with the rest of the purchase order however it will be invoiced separately, including a separate purchase order number, CLIN, etc. The vendor must show the original item as a zero quantity fill on their first invoice, and the replacement item on the second invoice. The replacement item will be priced at its own catalog price. Invoices must have all the correct information (contract number, purchase order number, CLIN, quantity, price, etc.) in order to be paid.

8. VARIATION IN QUANTITY for NON-CATCH-WEIGHT ITEMS

- A. Catch-weight items are items for which a weight range per purchase case is acceptable; normally meat items purchased by the pound, e.g. 8905-01-E29-2117, Beef Flank Steak, 11-15 LB.
- B. Non-catch weight items are all other items, which must meet the exact case weight or units per purchase pack.
- C. There shall be zero variation in quantity for non-catch-weight items, i.e. the Government shall not be obligated to accept and purchase any quantities of any item delivered in excess of the exact order quantity.

9. DELIVERY DESTINATIONS AND INSTRUCTIONS

- A. Deliveries shall be F.O.B. destination to all ordering activities and delivery points. All items will be delivered to customer locations, free of damage, with all packaging and packing intact. Deliveries shall be scheduled according to the customer's timetable as listed below.
- B. Installation delivery routes and stop-off sequence will be coordinated and verified with the installations on a post award basis by the awardee(s).
- C. All deliveries are subject to military inspection at destination. Delivery vehicles may be required to stop at a central location for inspection before proceeding to the assigned delivery point(s). Additionally, upon completing the delivery (or deliveries) and before the carrier leaves the installation, copies of the delivery tickets/ invoices may be required to be delivered to a central "Accounting Office" activity on the installation after all drops have been made and prior to the carrier's departure from the installation.

- D. Specific delivery point information is provided below. Some installations have more than one delivery point. Pertinent information has been included to explain specific customer delivery requirements, point of contact and instructions.
- E. Products for individual customers/dining facilities must be segregated. Many of the military bases have more than one delivery point. All products shall be segregated by drop-off point. The intent is to provide expeditious off-loading and delivery to the customer.
- F. The Contractor shall also ensure that the personnel loading and delivering the product provide prompt and efficient service to the customer.
- G. Delivery Points:

Please see ATTACHMENT 3 - Zone 1 and Zone 2 Delivery Schedule for a detailed listing of all delivery points.

10. ADDITION OF CUSTOMERS

- A. Adding customers within the contract geographic distribution region/zone.
 - 1. Additional DoD and non-DoD federal government customers that request DLA TROOP SUPPORT foodservice support will be added on to the resultant prime vendor contract under this solicitation, without any new acquisition or competition process, if the customer(s) is clearly within the geographic distribution region/zone covered by this contract.
 - 2. In this case, the Contractor shall include this customer(s) at the effective contract prices applicable to that contract zone or region.
 - 3. The decision as to whether the new customer is clearly within the contract region or zone and will be added to the contract without further competition and at existent contract prices, shall be the sole decision of the DLA TROOP SUPPORT Contracting Officer.
- B. Adding customers outside the contract geographic distribution region/zone that are not covered by a current Prime Vendor contract.
 - 1. This provision applies to the following customers:
 - i. A new DoD or non-DoD federal customer that is not clearly within the contract geographic distribution region/zone and for which the Contractor will not accept the customer(s) at the effective contract price,
 - ii. A customer(s) located in an area that may be considered adjacent or proximal to the geographic distribution region/zone covered by more than one Contractor.
 - iii. The above instances may occur when new customers request DLA TROOP SUPPORT prime vendor support or a current Contractor is no longer able to support that proximal customer installation(s). In these latter events, the DLA TROOP SUPPORT will utilize this provision to expeditiously source a Contractor for the customer installation(s).

2. The customer installations described in paragraph (a) above, and their foodservice requirements, will be added to a Contractor's contract as follows:
 - i. Complete price proposals to support the subject new customer(s), to include distribution and delivered prices, will be requested from only existing Subsistence prime vendor Contractors that are proximal to the new customer, i.e. close in distance. Also, the Government may use any in house records.
3. The addition of a new customer(s) may not exceed the contract maximum dollar stated.
4. The decision as to which Contractors are proximal to the new customer and will be requested to provide a proposal to support such customer shall be the sole decision of the DLA TROOP SUPPORT Contracting Officer.

11. HOLIDAYS

- A. All orders are to be delivered on the specified delivery date, except for Federal holidays, as outlined below. When a scheduled delivery day falls on one of these days, or one designated by your firm, delivery should occur on the next business day, unless otherwise agreed to by the customer,

- B. Holidays celebrated by your firm, other than those specified above, must be listed below. Also specify your policy for celebrating holidays that fall on the weekend.

12. AUTHORIZED RETURNS

- A. The Contractor shall accept returns under the following conditions:
1. Products shipped in error;
 2. Products damaged in shipment;
 3. Products with concealed or latent damage;
 4. Products that are recalled;
 5. Products that do not meet shelf life requirements;
 6. Products that do not meet the minimum quality requirements as defined for the items listed in the Schedule;
 7. Products delivered in unsanitary delivery vehicles;
 8. Products delivered that fail to meet the minimum/maximum specified temperature;
 9. Quantity excess as a result of order input error/and or purchase ratio factor error; and

10. Any other condition not specified above that is determined a valid reason for return by the customer.

13. SHORT SHIPMENTS AND SHIPPING ERRORS

- B. Any product delivered in error by the distributor must be picked up no later than the next delivery day after notification by the ordering facility.

14. WAREHOUSE/TRANSPORTATION

The offeror must possess a fully functional and operating commercial food distribution warehouse (including distinct temperature-controlled sections for dry, chill and frozen products, and docks for receiving/shipping product) of sufficient size and sufficient open capacity to satisfactorily perform on this contract for the zone offered. The offeror must also have the ability to pick ordered product, stage and wrap in pallets for shipping and transport product in temperature-controlled, temperature recording trucks directly to all the customers listed in the delivery schedule on an ongoing basis fulfilling skip-day schedule as described herein. Attachment 2 contains the current line items/SKUs that are being used by the customers. An offeror must have the ability to fulfill all the customers' food supply requirements on a long-term, just-in-time basis in terms of both warehouse and transportations capabilities.

15. SURGE AND SUSTAINMENT (S&S) REQUIREMENTS

Zone 1 - The Navy deploys Carrier or Expeditionary Strike Groups. A Carrier Strike Group will consist of one aircraft carrier, one fast combat support ship (AOE), and three surface combatants, plus one submarine. Expeditionary Strike Groups will consist of one amphibious assault ship (LHA/LHD), two smaller 'L' class amphibious ships, and three Surface Combatants, plus one submarine. The following definitions apply: Surge: The capability to deliver a large increase in order size for multiple units within 96 hours of order receipt and achieve a 98% order fill rate. Mobilization: During a national emergency/full-scale mobilization, deliver up to 45 days of provisions endurance to all ships in the vendor's region within 30 days of order receipt and achieve a 98% order fill rate. A surge condition could evolve into full scale mobilization or national emergency where-in consumption could easily increase at any site for a protracted period of time."

Zones 1 & 2: This solicitation includes items that are critical to support the Department of Defense's ability to conduct contingency operations. These items are designated as the S&S requirements, including the Services' go-to-war requirements. S&S requirements are identified as "Surge Quantity Option" expressed in a percent or exact quantity in this solicitation, and are in addition to peacetime quantities. The objective of this requirement is to obtain contractual coverage to meet the S&S quantities and sustainable accelerated delivery specified in this solicitation. S&S coverage includes access to production capability as well as vendor owned or managed inventory/safety stocks. Offerors will be evaluated on their ability to meet the terms and conditions of the S&S requirements. S&S requirements are defined as follows:

- (a) Surge and sustainment capability means the ability of the supplier to meet the increased quantity and/or accelerated delivery requirements, using production and/or supplier base capabilities, in support of

Department of Defense (DOD) contingencies and/or emergency peacetime requirements. This capability includes both the ability to ramp-up to meet early delivery or increased requirements (i.e., Surge), as well as to sustain an increased production and delivery pace throughout the contingency (i.e., Sustainment). The spectrum of possible contingencies ranges from major theater wars to smaller-scale military operations.

(b) S&S quantity and accelerated delivery schedule are identified on an individual item basis, based on the Services wartime planning requirements. The surge quantity option is expressed as a percent or an exact number with a sustainable accelerated delivery. The S&S quantity and delivery requirements are above and beyond the peacetime requirements in the schedule of supplies.

(c) S&S Capability Assessment Plan (CAP) (previously known as the “surge plan”). The CAP provides the offeror’s method of covering the S&S quantity and delivery requirements, identification of competing priorities for the same resources, and date the Contractor can provide the required S&S capability. If any of the S&S quantity and delivery requirements cannot be met, the offeror must identify the shortfall and provide the best value solutions to include a proposed investment strategy to offset the shortfall. For example, the CAP may include, but is not limited to, one of the following scenarios to address wartime delivery requirements:

(1) The S&S quantity and delivery requirements can be fully covered within the supplier’s resources.

(2) The S&S delivery schedule can be fully covered with early deliveries due to unit pack shipping.

(3) The total S&S quantity and delivery requirements can be met but at a different delivery rate, and the supplier has no cost-effective investment strategy that would improve the capability to deliver according to the quantity and delivery requirements.

(4) The total S&S quantity and delivery requirements can be met but at a different delivery rate, and includes an investment strategy that would improve the supplier’s capability to deliver according to the surge quantity option (e.g., the surge quantity option calls for 50% of estimated annual demand quantity or an exact quantity of 20 boxes) every 10 days, and the vendor can meet the schedule starting in the third ordering period but needs Government investment to become capable of meeting deliveries in the first two months).

(5) The S&S quantity and delivery requirements can be partially covered (the supplier can only provide a fraction of the total quantities specified); however, the supplier has no cost-effective investment strategy that would improve the capability to deliver at the surge quantity option.

(6) The S&S quantity and delivery requirements can be partially covered (the supplier can only provide a portion of the surge quantity option specified), and includes an investment strategy that would improve the supplier’s capability to deliver at the surge quantity option.

(d) Government Investments. Use of Government investment may be considered to address S&S coverage shortfalls as specified under (c)(3) to (7) above only when it is in the Government’s best interest. Use of Government investment is limited per clause 52.217-9010. Contracting Officer (CO) approval is required for any Government investment requests and any investment costs incurred by the supplier without the explicit written approval of the Contracting Officer are the sole responsibility of the supplier.

(e) Agreement to participate in S&S validation/testing. By submission of an offer, the supplier agrees to participate in S&S validation/testing as required by the Government to verify the stated S&S capability. Testing/Validation may include any methodology that can validate the supplier's S&S capability. Validations will be conducted on randomly selected items by the Industrial Specialist after contract award and throughout the contract period. Validations include, but are not limited to, verification that the supplier and any subcontractor(s) have sufficient equipment, facilities, personnel, stock, pre-positioned raw material, production capabilities, visibility of supplier base resources and agreements, networks and plans for distribution (receiving, storing, packaging and issuing) and transportation services to accommodate the S&S requirements in the contract. This validation includes examination of any in-house work, review of the stock rotation plan (if applicable), and other contracts that impact the production of any added or accelerated quantities. The Government reserves the right to require validation using other methodologies when deemed appropriate. The language in this clause does not limit the Government's right, at any time after award, to perform inspections or validate the supplier's S&S capability.

(f) Supplier notification of S&S capability changes. The supplier agrees to maintain S&S capability to produce and/or deliver the S&S quantity identified in the Schedule of supplies in accordance with the approved CAP and S&S terms and conditions throughout the life of the contract. Changes that negatively impact S&S capability must be reported in writing to the Contracting Officer within ten (10) working days after the supplier becomes aware of such an impact. Such notification must include a revised S&S CAP with the supplier's proposed corrective action(s) and date when the supplier can attain the required S&S capability. Refer to 52.217-9007(a) for instructions on submitting changes to the CAP.

(g) Government changes, additions and deletions to S&S requirements. The identification of new S&S items in the peacetime schedule or increases in quantities of items already in the S&S schedule will be done through bilateral contract modifications. Deletion of S&S requirements or decreases in quantities will be made by the Government through unilateral contract modifications. The government reserves the right to obtain S&S requirements from other sources without liability to the supplier. This language does not relieve the supplier of the responsibility to provide, in accordance with the applicable delivery schedule, non-S&S and S&S quantities agreed to in the Schedule and CAP during the contingency.

(h) Early or unexpected S&S requirements. The supplier shall support S&S requirements to the maximum extent practical (1) prior to the supplier achieving full S&S capability agreed to in the Schedule and the CAP, and (2) for requirements exceeding those agreed upon in the Schedule and the CAP, if agreed to by the Contractor and not exceeding any applicable contract maximum dollar value or quantity. The Government reserves the right to obtain S&S requirements from other sources without liability to the supplier.

VI. CONTRACT ADMINISTRATION DATA

1. ADMINISTRATION AUTHORITY

- A. The DLA TROOP SUPPORT Prime Vendor Supplier Operations Office will perform administration of the contract. The DLA TROOP SUPPORT Contracting Officer is the only person authorized to approve changes, or modify any requirement of the contract. Notwithstanding any provisions contained elsewhere in the contract, said authority remains solely with the DLA TROOP SUPPORT Contracting Officer.

- B. A Government designated representative at the ordering activity will perform administration of the individual delivery order. This includes approving product substitutions and delivery changes.
- C. In the event the vendor effects any change at the direction of any person other than the DLA TROOP SUPPORT Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made. The Contracting Officer must authorize any modification or costs associated with a change.
- D. Requests for information on matters related to this contract, such as an explanation of terms or contract interpretation, shall be submitted to the DLA TROOP SUPPORT Contracting Officer.

2. CATALOG CHANGES

- A. The market basket of items, along with their respective prices as determined fair and reasonable during the acquisition process, will become the basis of the catalog. It should be noted that this Market Basket represents a minimum of 75% of the customers' requirements. After award and during the catalog start-up/implementation period, the additional customer required catalog items will be added at prices determined fair and reasonable by the Contracting Officer. The entire customer catalog must be submitted via 832 transaction at least two weeks prior to the first order date. The catalog prices will establish the initial catalog and must be held throughout the first ordering week of the contract, if determined fair and reasonable by the Contracting Officer. Subsequent to implementation of the initial catalog, additional items may be required by customers, and individual items may be deleted. All items added to the catalog must be determined fair and reasonable for price prior to addition. Unless otherwise specified, items catalogued are not considered proprietary. In addition, the following applies to all subsequent weekly 832 updates in the catalog.

1. Addition of New Items to the Catalog –

- a. All catalog 832 transactions for additions of any/all new item(s) to an existing catalog, must have written approval from the Contracting Officer prior to any such 832 transmission and addition. This written approval from the Contracting Officer shall authorize the specified addition(s), and represent the Contracting Officer's determination of price reasonableness.

NOTE: Prior to all requests, the customer must obtain approval from their Service HQ for all catalog item additions.

- b. Vendors shall email or fax their request for approval for such additions to the Contracting Officer and Acquisition Specialist utilizing one of the Local Stock Number (LSN) Request forms, completed in full, available at:

<http://www.troopsupport.dla.mil/subs/support/techops/index.asp#>

- c. When the Government customer requests a new item(s) not inventoried by the Contractor be added to the contract catalog, the customer shall provide sufficient information to the Contractor to enable it to promptly source the required item. Customer requests for new items shall be copied to the Contracting Officer and Account Manager. The Contractor shall source the item and submit the fully

completed LSN Request Form to add such item(s) to the Contracting Officer within 5 working days of the complete request. The Contractor shall promptly add the item to the catalog in the first weekly 832 transmission after Contracting Officer approval, and have the item available for order and delivery within 21 days of receipt of such Contracting Officer approval for existing suppliers, or no greater than 45 days from Contracting Officer approval when the item supplier is a new source for the Contractor, i.e. the Contractor does not have an existing Purchase Agreement in place with the new item supplier at the time of the Contracting Officer's approval to add the item.

- d. Each Contractor request to the Contracting Officer to add new item(s) must include the following documentation: copy of manufacturer's/grower's/private label holder's or Redistributor's original invoice signifying the delivered price, or a written price quote on the manufacturer's letterhead if the item is not currently in stock, and a copy of the product label. For any new add requests for items which have closed shelf life code dates, the Contractor is required to provide code break data so the Government can determine the product expiration date.
- e. The approved price for any/all items as submitted on the LSN Request Form SHALL be the price submitted in the subsequent 832 transmission. Incoming 832 transmissions will be verified for compliance. If circumstances warrant a price change prior to initial 832 submission, the Contractor must resubmit the new price supported with invoice for approval. Without Contracting Officer approval, prices submitted other than those originally approved will be rejected.
- f. The LSN Request Form includes a field for the Contractor to suggest a Distribution Category. However, the Contracting Officer will make the final decision on the Distribution Category assigned.

NOTE: Under no circumstance shall a Contractor transmit any catalog 832 transaction to add a catalog item without the Contracting Officer's written approval.

- 2. Deletion of Items from the Catalog: The Contractor shall provide email notification of all planned catalog LSN deletions to the DLA TROOP SUPPORT Contracting Officer and all catalog customers in accordance with paragraph B. Such notification should provide the LSN, item description, brand/label, and the fully explained reason for the requested deletion, e.g.: customers requested replacement item xxxx, item being discontinued and replaced by xxxxx, insufficient demand (with details), item replaced by Common Food Management System (CFMS), LSN xxx, etc.

If a product is terminated or replaced by a new item due to customer preference, the customers must draw down the existing inventory before ordering the new replacement item.

The Contractor shall not delete items due to not-in-stock status.

- A. Customer Notification of Catalog Changes, i.e. Adds and Deletes - The Contractor shall notify all contract customers of planned catalog item additions by emailing them copies of the completed Local Stock Number (LSN) Request when they submit same to the DLA TROOP SUPPORT

Contracting Officer. The Contractor shall also provide email notification to the DLA TROOP SUPPORT Contracting Officer, and all customers of catalog item LSN additions and deletions no later than the day and time of submission of 832 catalog transactions to DLA TROOP SUPPORT (i.e. Wednesday 2:00pm ET).

- B. Notification of Change of Brand/Label for Generic LSNs: The Contractor shall provide email notification to all customers and the DLA TROOP SUPPORT Contracting Officer, Acquisition Specialist, and Account Manager, when it changes any/all product brands/labels.
- C. Price Changes - Price changes will be in accordance with the Economic Price Adjustment (EPA) clause included in this contract. The DLA TROOP SUPPORT Contracting Officer will review all price changes to determine fair and reasonableness when 832 transmission updates are received, but prior to release of catalog to customer. As part of this review, the Contracting Officer may require additional substantiated proof of the cost prior to final approval.

3. FILL RATES

Zone 1

- A. Contractor quantity performance will be measured by the number of filled line items accepted by the customer as compared to line items ordered by the customer. The Contractor will provide the customer's signed invoice or receipt document to their local NAVSUP Fleet Logistics Center STORES operator the same day the order was delivered and accepted by the customer.

For catch weight items, the Contractor will meet or exceed the requisition required weight.

****A line item and stock numbered item are the same for the purposes of calculating fill rates.**

Line Item Fill Rate= ((Quantity Accepted)/(Quantity Ordered)) x 100

- B. The Contractor will provide a line item fill rate of 98% without substitutions. This is measured by the quantity of each line or stock numbered item accepted divided by the quantity of each line or stock numbered item ordered, all within one order opportunity. It is not necessary to propose a higher fill rate, nor will we evaluate a proposed higher fill rate. During contract performance, higher fill rates may result in a higher Past Performance and Experience rating for option determinations and future acquisitions. Fill rates will be documented in the Contractor Performance Review System (CPARS) and low fill rates may impact past performance evaluations on subsequent acquisitions. If a Contractor delivers less than 98% of the customer ordered quantity, the affected line item will be considered not filled for performance reporting purposes only (i. e. Contractor still receives payment for quantity accepted based on submitted invoice, even if line item fill is below 98%).

A fill rate below 98% is considered unacceptable and will be counted against the vendor's performance rating.

No single line item will be credited for more than 100% fill-rate.

The Contractor's performance will be verified against the Subsistence Total Order Requisitioning Electronic System (STORES) for accuracy.

- C. The Contractor shall promptly inform the Acquisition Specialist or Contracting Officer of any specific instances that would absolve or excuse its failure to deliver an order, or individual line item(s), in full; e.g. customer cancelled line or quantity without adjusting STORES, customer ordered incorrect quantity, item being discontinued, etc. If the Government agrees with the justification, the Government will post the exception into its in-house system which will result in the order or line(s) either being excluded from the Government fill-rate calculation or the correct order and receipt quantities being included in the calculation. These excusable instances represent Fill-Rate Exceptions, and are shown below.

Non-conforming cases, e.g. incorrect items (mis-picks) and damaged cases will not be accepted and receipted.

The Contractor shall submit its fill-rate report (to include a line by line fill rate) to the DLA Troop Support Contracting Officer. The reports shall be based on order required delivery dates (RDD), not order placement dates. The Government will compare and attempt to reconcile the Government and Contractor's report. The Government's fill-rate report will be the official government record for contract performance evaluation.

The Contractor shall submit its hard-copy fill-rate report grouped and sorted by customer DODAAC (first 6 positions of the PO), and then sorted by PO within each DODAAC grouping. Only POs whose Required Delivery Date (RDD) falls within the report period, should be included on the report.

In addition to the hard-copy fill rate report, and the aforementioned Vendor Fill Rate Exception Spreadsheet, the Contractor is required to submit an additional spreadsheet which is an electronic version of their hard-copy fill rate data. The Contractor shall use the provided, pre-formatted DLA Troop Support Vendor Fill Rate Line by Line Spreadsheet. Contractors are not permitted to reformat the spreadsheet. Column totals are not desired on this spreadsheet.

The Government fill rate will be the official fill rate.

Zone 2

- A. Fill rates will be measured in two categories: non catch-weight items and catch-weight items. The required overall contract purchase order fill rate is 98.5% for non catch-weight and catch-weight items. It is not necessary to propose a higher fill rate for either category, nor will we evaluate a proposed higher fill rate. During contract performance, higher fill rates may result in a higher Past Performance and Experience rating for future acquisitions. Fill rates will be documented in the Contractor Performance Review System (CPARS) and low fill rates may impact past performance evaluations on subsequent acquisitions.
- B. The Government's in-house record for non catch-weight fill rate shall be calculated utilizing the purchase order and receipt information located in STORES, as specified below. The vendor's submitted non catch-weight fill rate reports will be based on the same formula, and shall not include substitutions, mis-picks, damaged cases, etc.

(Cases accepted / cases ordered) X 100 = Fill Rate %

- C. The fill rate for catch-weight items shall be calculated as follows and shall not include substitutions, mis-picks, damaged cases, etc.:

$$(\text{Cases accepted} / \text{cases ordered}) \times 100 = \text{Fill Rate } \%$$

Zones 1 & 2

D. Definitions:

1. Non catch-weight item: An item which has a specific weight per case, e.g. 8920-01-E09-7315, Cake Mix, Yellow, 6/5 LB BX.
2. Catch-weight item: An item for which a weight range is acceptable; normally meat items purchased by the pound, e.g. 8905-01-E29-2117, Beef Flank Steak, 11-15 LB.
3. Cases accepted: For non catch-weight items, the product quantity that the customer has received and receipted, not including damaged cases, and mis-picks.
4. Cases ordered: For non catch-weight items, the product quantity requested by a customer.
5. Pounds accepted: For catch-weight items, the product quantity that the customer has received and receipted, not including damaged cases, and mis-picks.
6. Pounds ordered: For catch-weight items, the product quantity requested by a customer. However in the event that a catch-weight item is overfilled, and the customer accepts the extra quantity, the 'pounds ordered' will be adjusted to match the 'pounds accepted.' This is to preclude a fill rate greater than 100%.

- E. **Designation of catch-weight items:** To designate a catch-weight item, the Contractor must input catch-weight indicator "AVG" in 832 catalog field PO404, Packaging Code, for each catch-weight item. The Contractor shall assure that the correct average case weight (i.e. the estimated weight average of cases that will be delivered) is input in 832 catalog field CTP04, Catch Weight Multiple.

- F. See paragraph V.3.C above for the calculation of fill rate for catch-weight items.

- G. No single line item will be credited for more than 100% fill rate. This includes both catch-weight and non-catch-weight items and for any items should the accepted quantity be greater than the quantity ordered.

- H. Non-conforming cases, e.g. incorrect items (mis-picks) and damaged cases will not be accepted and receipted.

- I. The Government in-house record for fill rate calculates the fill rate for each line item of each purchase order, the fill rate per purchase order, the fill rate per customer, and the fill rate for all customers, for any period of time, based on purchase order required delivery dates (RDD). Fill rates are calculated for non-catch-weight items and catch-weight items.

- J. The Contractor shall promptly inform the Acquisition Specialist and Contracting Officer of any specific instances that would absolve or excuse its failure to deliver an order, or individual line item(s), in full; e.g. customer cancelled line or quantity without adjusting STORES, customer ordered incorrect quantity, item being discontinued, etc. If the Contracting Officer agrees with the justification, the exception will post to its in-house system which will result in the purchase order or line(s) either being excluded from the Government fill rate calculation or the correct purchase order and receipt quantities being included in the calculation. These excusable instances represent Fill rate Exceptions, and are shown below.
- P. The Contractor shall submit its fill rate report (to include overall non catch-weight item fill rate based on cases and overall catch-weight fill rate based on pounds) on a monthly basis to the DLA TROOP SUPPORT Contracting Officer. The reports shall be based on purchase order required delivery dates (RDD), not purchase order placement dates. The Government will compare and attempt to reconcile the Government and Contractor's report. The Government's fill rate report will be the official government record for contract performance evaluation.

3) Do not add additional columns.										
4) Do not delete existing columns.										
5) Do not provide additional column totaling.										

4. FOOD SHOWS

- A. The Contractor is required to advise the Contracting Officer and the Acquisition Specialist of all Food Shows that are conducted throughout the course of the contract. The Contractor is not required to conduct a Food Show specifically for its DLA contract customers; however the Contracting Officer reserves the right to participate in any Food Show that the Contractor conducts for its general business. Participation may or may not involve customers or DLA personnel attending the Food Show.
- B. Should the Contracting Officer choose to participate,
- 1) Approximately one (1) month prior to the Food Show, the Contractor shall furnish the Contracting Officer and/or Acquisition Specialist the following information:
- (a) List of manufacturers/brokers attending the Food Show;
 - (b) Map showing the locations of booths;
 - (c) Effective period of any offered allowances, i.e. off-invoice discounts;
 - (d) Statement as to whether the allowances are applicable to all orders placed within the effective period, and
 - (e) Usage report for all customers covered by the contract. This data shall represent the same number of weeks as the effective period of the allowances. The data shall be a consolidation of all customers, and be sorted in booth order sequence. At a minimum the following elements are required:
 - (i) Vendor Part Number;
 - (ii) Description of item;
 - (iii) Usage quantity;
 - (iv) Manufacturer/Brand; and
 - (v) Booth Number of the exhibitor and the products they represent

- 2) At the end of the Food Show allowance period, the Contractor shall submit to the Contracting Officer/Acquisition Specialist a Food Show savings report by customer. This shall be completed within 2 weeks of the end of the allowance period. A total sales report for the same period shall also be submitted.
- 3) Food Show allowances must be passed on to the customers directly as a discounted price. Accordingly, when the applicable items are ordered, the price must reflect the discount if ordered during the specified time frame. The discounted price is the price that is to be submitted via the 832 catalog transmission. All decreases in price must be submitted via the 832 transmission the week prior to the beginning of the allowance period.

5. CUSTOMER SERVICE AND SUPPORT

- A. The Contractor shall treat each and every customer covered under this contract with the same customer service policy given to their commercial and/or other accounts.
- B. The Contractor shall provide at least one (1) full time Customer Service Representative to maintain continuous contact with all the ordering activities. The name of the representative and the phone number, mobile phone number, beeper number, email address, and any other method of communicating with the representative, shall be furnished to the customers after award.
- C. The customers in this area have periodic food menu board meetings and the Contractor may be invited to attend these meetings. At these meetings, the customers not only review their internal business practices, but the Contractor can utilize this forum to show new products, demonstrate product preparation, provide nutritional information and address any other concerns the customer may have. Contractors shall participate in these meetings as requested.
- D. The Contractor shall be prepared to conduct periodic visits with all customers serviced under resultant contract.

Since many of our customers only have access to the Government phone network, it is required that a toll free telephone number be provided.

VII. SPECIAL CONTRACT REQUIREMENTS

1. NON-COMPETE PROVISION

- A. The offeror warrants that it will not actively promote, encourage, or market any of the customers on this acquisition away from a resultant DLA TROOP SUPPORT contract and onto a contract of any other Government agency or commercial entity. This prohibition applies both on a pre-award and post-award basis. The Contracting Officer reserves the right to resolicit the contract and may not exercise the option to extend the term of the contract if he/she discovers that the successful Contractor has violated this provision. Customers that have been approached by a vendor regarding ordering off of a separate contract should immediately contact the Contracting Officer.

2. MANAGEMENT REPORTS

- A. The Contractor shall electronically transmit the following reports to the DLA TROOP SUPPORT Contracting Officer and Acquisition Specialist on a monthly basis, except as otherwise noted. All reports shall be cumulative for a one (1) month period (except as otherwise noted) and submitted no later than the seventh day of the following month, e.g., reporting period of January 1st through January 31st – the reports are due February 7th. Weekly reports shall be submitted by the Friday after the week being reported. The Contractor may be required to submit reports on an as-needed basis in addition to the regularly scheduled reports.

These reports are reviewed by the Contracting Officer. Other performance measurements monitored include, but are not limited to, adherence to mandatory items, Contractor Performance Assessment Reports (CPARS), adherence to delivery of domestic products, and adherence to the Contractor's Food Defense Plan. The Contracting Officer has determined that routine methods are appropriate to monitor contract performance. Metrics are reported monthly to Subsistence top management who in turn reports these measurements to Command.

The following are in-depth descriptions of the major reports listed in the table:

2) Fill Rate:

The Contractor shall submit its monthly fill rate report (to include overall fill rate; non-catch weight item fill rate; and catch-weight item fill rate) to the DLA Troop Support Contracting Officer. The report shall be based on order required delivery dates (RDD), not order placement dates, i.e. the report for March xx shall include all orders placed for deliveries 01-31 March xx. This would normally include orders placed the last day(s) of February xx. In addition to monthly fill rate reports, more frequent reports may be required on an as needed basis. The Government will compare and attempt to reconcile the Government and Contractor's reports. The Government's fill rate report will be the

official government record for contract performance evaluation. The fill rate is calculated by dividing the number of cases accepted by the customer by the number of cases ordered. Mis-picks and damaged cases should not be included in this calculation. The report shall specify fill rates per customer and an overall average fill rate for all customers under the contract for the period being reported. The monthly fill rate reports should specify fill rates grouped by contract number/DODAAC (first six positions of the purchase order)/purchase order number. The date range of the report shall be based on the customer's required delivery date (RDD). Overall discrepancy report shall only include purchase orders that contain less than 100% fill rate and reason code for discrepancy. The Contractor shall submit a separate discrepancy spreadsheet containing a list of Government authorized and verifiable fill rate exceptions using acceptable codes as outlined in the solicitation. Please note that the fill rate could take up to three months to be calculated due to system reconciliation. However, the government's finding will serve as the final rate.

3) AbilityOne Subcontracting:

This report must list all products supplied by AbilityOne firms. Total dollars and percentages shall be highlighted within the Socioeconomic Report. Progress reports regarding these subcontracting efforts relative to AbilityOne entities are also required.

4) Small Business:

This report shall list all products manufactured and/or supplied by small business, small disadvantaged business, minority owned small business, women-owned small business, women owned small disadvantaged business, HUB Zone small business, veteran owned small business, service disabled veteran owned small business, and AbilityOne Program. This shall be sorted by manufacturer/supplier and include quantity and dollar value and shall be sorted by the applicable business size category of the manufacturer/supplier. The workshops in Non Profit Agencies participating in the AbilityOne Program are not to be categorized under Small Disadvantaged Business as they are non-profit organizations and should be considered their own separate category. Note: This report is for direct subcontracts for products supplied to customers. This report is not to include direct costs. SBA must certify (a) SDB that are a part of the SBA 8(a) program; and (b) HUB Zone business.

A summary page of the report shall also be submitted which highlights the total dollars and percentages for each category. This information is very important since DLA TROOP SUPPORT is required to report its success in meeting these goals for the Defense Logistics Agency (DLA). Also requested, but not required since DLA does not mandate that these goals be reported, is a listing of products supplied and/or manufactured by UNICOR, Labor Surplus Areas, Historically Black Colleges or Universities and Minority Institutions.

5) Descending Case Report :

This report must list all products sold for a one-month period in descending order by case. Provides visibility of regularly purchased line items in terms of quantity, from most to least.

6) Descending Dollar :

Sorted by line item; each line to contain at a minimum the DLA TROOP SUPPORT stock number, item description, pack or size, brand description, quantity, and total dollar value of units shipped. Dollar amounts must be totaled. This report shall be submitted by individual customer accounts AND also by the total customer base.

7) NAPA Report:

This report should summarize the savings passed along to the customers in the form of deviated allowances realized as a result of utilizing the NAPA's. List each customer, the NAPA amount, the manufacturer/broker name, and quantity ordered. NAPA figures should be listed per customer, per contract and per manufacturer.

8) Customer Visits

The Contractor must document their customer visits and provide a copy to the Contracting Officer.

9) Not In Stock:

This report must list all not-in-stock products (in accordance with the definition of fill rate/not in stock) for a one-month period.

10) Government Rebates and Discounts:

- a. General: The Contractor shall provide a monthly report identifying any and all Government Rebates and Discounts received by the Contractor, and the amount passed on to the Government. The Contractor must indicate the type of Government Rebates and Discounts received by the Contractor, whether they are being passed on to the Government customers consistent with its Price Proposal, whether they are of limited or special duration, and the amount that has been passed on to the Government, in the form of an upfront price reduction.
 - (i) This report should summarize the savings passed along to the customers in the form of general Government Rebates and Discounts. List each customer, the amount, the manufacturer/broker name, and quantity ordered. General Government Rebate and Discount figures should be listed per customer, per contract and per manufacturer.
- b. Food Show: This report should show a detailed break out of all savings received at your Food Show. This report is not a monthly requirement, but is based on the timing of your Food Show. List each customer, the Food Show amount, the manufacturer/broker name, and quantity ordered. Food Show Government

Rebates and Discounts should be listed per customer, per contract, and per manufacturer. The total should be per customer and per contract.

11) Earned Income Categories:

During the implementation period of the contract, the Contractor will submit a list of categories of Earned Income received. Examples of categories are marketing allowances and sales volume incentives. Any changes, additions or deletions to those categories that occur during contract performance will be immediately reported by the Contractor as part of its next scheduled monthly management reports. It is not necessary to submit specific dollar amounts of Earned Income, just the categories

12) Private Label Savings

a. Current Savings: This section of the report will identify all “private label” items on the contract catalog and the savings (by line item and cumulative) associated with using private label versus national brand names for like items. Likewise, in the event that any private label items cost more than national brand like items, identify these items and dollar amounts.

b. Potential Savings: This section of the report shall identify other items that would be suitable for conversion to private label and the estimated cost savings, projected on a quarterly basis (by line item and cumulative). As part of the Customer Visits, the contractor will recommend items that may be switched from brand name to private label to save the customer money.

If a conversion to a private label item occurs, the item shall be included in the Current Savings section of this report as explained in paragraph A. Any private label item that is added or deleted from the catalog during the quarter must be clearly annotated on the report to include the date the action (add or delete) occurred.

Both sections of the report must include the usage quantity for the item currently on the catalog. In addition, the LSN/NAPA (if applicable), part number, item description, and price for both the private label and national brand must be provided.

13) Slow Movers (Excess Stock): (Zone 1 only)

This report shall list all products that are being ordered in less than the required contract minimum monthly quantity. Purpose is to track slow moving items for possible deletion from the catalog.

Below is an example of Slow Movers report in Excel format:

FIC	STOCK #	DESCRIPTION	U M	Jan 11 Sales	Feb 11 Sales	Mar 11 Sales	Apr 11 Sales	May 11 Sales	Jun 11 Sales	Jul 11 Sales	Avg Monthly Movement for past 6 months	QTY ON HAND	MANU F SHELF LIFE	1/3 RULE	PVRECEIPT DATE	SHELF LIFE AT TIME OF RECEIPT	DAYS IN STOCK	APPROX SH/LF GONE	APPROX LIFE LEFT

NOTE: FIC only applies to Navy Ships' contracts.

14) Total Asset Visibility (Zone 2 only)

The vendor will submit a report of assets on hand, anticipated usage, average demand and assets on order. The vendor needs to be able to present real time asset visibility of their entire inventory. At a minimum the vendor will be required to submit this report on an as needed basis, however it may also be required weekly or monthly as circumstances warrant.

3. SUBMITTED PLANS FROM CONTRACTOR

A. All plans submitted as part of the offeror's Non-Price Proposal shall be incorporated into the resultant contract(s), to include those elements of an offeror's Non-Price Proposal that exceed solicitation requirements, as well as all Implementation and general Business Plans. Final negotiated prices shall become the baseline catalog prices at the start of the contract and at the time of first order. These prices should not change unless documented market conditions arise.

SOLICITATION PROVISIONS

FAR 52.212-1 – INSTRUCTIONS TO OFFERORS—COMMERCIAL ITEMS (FEB 2012)

- (a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 100 employees.
- (b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—
 - (1) The solicitation number;
 - (2) The time specified in the solicitation for receipt of offers;
 - (3) The name, address, and telephone number of the offeror;
 - (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
 - (5) Terms of any express warranty;
 - (6) Price and any discount terms;
 - (7) “Remit to” address, if different than mailing address;
 - (8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(b) for those representations and certifications that the offeror shall complete electronically);
 - (9) Acknowledgment of Solicitation Amendments;
 - (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
 - (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

- (c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.
- (d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.
- (e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.
- (f) Late submissions, modifications, revisions, and withdrawals of offers.
 - (1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.
 - (2)
 - (i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and
 - A. If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or
 - B. There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or
 - C. If this solicitation is a request for proposals, it was the only proposal received.
 - (ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.
 - (3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.
 - (4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of

offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

- (5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.
- (g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.
- (h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.
- (i) Availability of requirements documents cited in the solicitation.

The DUNS+4 is the DUNS number plus a 4-character suffix that may be assigned at the discretion of the offeror to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see FAR Subpart 32.11) for the same concern. If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one. An offeror within the United States may contact Dun and Bradstreet by calling 1-866-705-5711 or via the internet at <http://fedgov.dnb.com/webform>. - (k) *Central Contractor Registration.* Unless exempted by an addendum to this solicitation, by submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance and through final payment of any contract resulting from this solicitation. INSTRUCTIONS FOR PROPOSALS

I. GENERAL INFORMATION

- A. The Government will utilize the Lowest Price Technically Acceptable process as a means of selecting the most qualified vendor to support the needs of the customers listed in this solicitation; i.e. proposals will be evaluated for both technical acceptability for every non-price factor and price reasonableness in accordance with the evaluation criteria outlined in the “Evaluation Factors for Award” section of this solicitation. Accordingly, a written Non-Price Proposal and a written Price Proposal shall be submitted as detailed below.
- B. Your Non-Price Proposal and Price Proposal must be submitted in writing, in accordance with the Submission Requirements below. The Non-Price Proposal must be prepared separately in the quantities shown below and shall not be combined with the Price Proposal.

WRITTEN VOLUME	TITLE	NO. OF COPIES
I	Non-Price	3 (2 hard copies and 1 CD)
II	Price	3 (2 hard copies and 1 CD)

Evaluations for each volume of the proposal will be performed exclusive of one another. Therefore, the Non-Price Proposal shall contain no reference to pricing data. However, if your proposal offers benefits that have a quantitative and measureable dollar value to the Government, you may describe and detail such value. Conversely, the Price Proposal should not address information requested under an element listed as a non-price factor. Pricing information shall only be contained in Volume II, Price Proposal. Each volume shall be bound separately and labeled accordingly.

Proposals will be evaluated for both technical acceptability for every non-price factor and price reasonableness in accordance with the evaluation criteria outlined in the “Evaluation Factors for Award” section of this solicitation. The offeror must clearly demonstrate its capability to support the customers’ requirements in the most efficient, cost-effective manner. Proposals will be evaluated in accordance with the factors listed in the solicitation. The rating methodology for the Non-Price Proposal will be Acceptable or Unacceptable.

- C. In order to receive full consideration, firms are encouraged to ensure that the information provided in the Non-Price Proposal is factual and complete. To ensure that a complete and accurate evaluation of this proposal is made, **please address the factors in the same order and format as presented in the solicitation sections entitled Submission Requirements and Non-Price Proposal Evaluation Criteria.** Failure to do so may result in the Evaluation Panel overlooking important information. Continuation sheets shall clearly identify the solicitation number and the offeror’s name on each page.
- D. Offerors may provide additional technical information that will enhance the proposal; however, overly elaborate proposals that contain information not pertinent to this acquisition are not desired. The Non-Price Proposal must provide, at a minimum, the information requested in the section entitled Submission Requirements. The Non-Price Proposal must demonstrate the offeror’s ability to meet the Government’s requirements as set forth in the solicitation. Failure to provide information as requested in any of the non-price factors identified in the solicitation section entitled Submission Requirements may be considered a “no response” and may result in a deficiency finding and warrant

an “Unacceptable” rating for the applicable factor. Failure to provide the information requested may cause an offeror’s proposal to be determined unacceptable and eliminated from further consideration for award.

- E. **The Government reserves the right to verify any information presented in the Non-Price and Price Proposals.** Site visits to assess the accuracy of the information provided in an offeror’s proposal may be conducted during the evaluation process.
- F. All plans submitted as part of the offeror’s Non-Price Proposal shall be incorporated into the resultant contract(s), to include those elements of an offeror’s Non-Price Proposal that exceed solicitation requirements, as well as all Implementation and general Business Plans. Final negotiated prices shall become the baseline catalog prices at the start of the contract and at the time of first order.

NOTE: Offeror’s Exceptions to Any Solicitation Requirements – If the offeror proposes to take exception to any of the requirements of the Statement of Work (SOW), terms, conditions, or provisions cited in the solicitation, such exceptions shall be listed and detailed on the first, separate page of the Non-Price Proposal, and titled “Exceptions.”

WARNING: Although an offeror may take exception to any of the solicitation’s requirements, if such exception(s) do not meet the minimum requirements of the solicitation, and are deemed unacceptable, the offeror’s proposal may be determined unacceptable and eliminated from further consideration for award.

SUBMISSION REQUIREMENTS

NON-PRICE PROPOSAL – VOLUME I

NOTE: Electronic copies of Non-Price Proposals shall be submitted as Word Documents.

NOTE: The experience and past performance information below is required at the offeror’s individual house(s) level (i.e. not at a corporate level, but for the actual distribution facility or facilities that will actively participate in the performance of this contract). Offerors that are proposing a joint venture, partnership, or teaming approach, or utilizing more than a single distribution center to perform the contract requirements, should fully cite each participating facility to be used, describe the functions that will be performed by each member or facility, and provide the required experience and past performance information below for each participating entity. However, the most relevant experience and past performance data is the information directly related to the offering entity.

SECTION A – TECHNICAL FACTORS

FACTOR I. EXPERIENCE

Full-Line Distributor of Foods and Operating Supplies for Institutional Feeding

The offeror shall provide the place(s) of performance and the following information for the last twelve (12) months preceding solicitation closing to describe its overall extent of experience as a full-line distributor of foods and operating supplies for institutional feeding:

- (1) The annual sales dollar amount
- (2) The average number of customers currently serviced as a full-line distributor of foods and operating supplies for institutional feeding per week
- (3) The average number of delivery stops (i.e. delivery stops are individual delivery points receiving supplies under delivery orders) made per week
- (4) The approximate total number of line items/SKUs currently stocked for delivery

A full-line distributor of foods and operating supplies for institutional feeding carries a “full-line” of products including, but not limited to, dry grocery, frozen, equipment and supplies, and perishable items such as meat, dairy, and produce. The typical full-line distributor carries numerous line items/SKUs in stock and provides multiple deliveries per week to various customers.

FACTOR II. QUALITY CONTROL & QUALITY ASSURANCE PROCEDURES

The offeror shall submit Quality Control & Quality Assurance Procedures that describe the product selection (purchase and receipt) used to ensure delivered products meet all standards for product quality and that describe warehouse management system(s) that will be used to ensure adequate inventories to avoid not-in-stock positions and that delivered products have been maintained under proper temperature control, have proper shelf-life dating and remaining shelf-life, and are the correct items and correct quantities as ordered.

Include the stages of quality control (i.e. purchasing, receipt, storage, picking, and delivery of product), the frequency, type and amount of inspection; the processes and/or characteristics to be inspected (include standards used to inspect, e.g. temperatures); criteria for selecting products and the quality assurance for delivered product lots and stored product, to include the criteria for acceptance or rejection, and removal of product from inventory; how inspections and results are documented; and the method for identifying the inspection status of approved and rejected product. Describe in sufficient detail the warehouse management system(s) used to assure adequate inventories with acceptable product shelf-life remaining, and that only the correct items in the correct and total quantities are picked and shipped for delivery. Include a thorough discussion of the inventory control system to include the level of automation and how it relates to receipt, storage and outbound movement of product. Include in the discussion the reserve inventory and/or let down control procedures. Discuss the inventory rotation methods used, e.g. FIFO or “oldest-date-of-pack first-out.”

FACTOR III. FOOD DEFENSE

The offeror shall submit its Food Defense Plan to describe what procedures are, or will be, in place to prevent product tampering and contamination, and assure overall plant security and food safety, for the performance period of this contract. The plan should be formatted in accordance with, and address the issues contained in, the DLA Troop Support Food Defense Checklist. An electronic copy of the DLA Troop Support Food Defense Checklist dated April 28, 2011 is available at http://www.troopsupport.dla.mil/subs/fs_check.pdf.

The Plan should include specific security measures relating to but not limited to the following areas:

- a. Employee Identification
- b. Background checks where applicable
- c. Control of access to plant facility, gates and doors at the facility
- d. Internal Security

- e. Training and security awareness
- f. Product Integrity
- g. Transportation Security

NOTE: If more than one facility will be used to store or distribute product this must be clearly indicated in the Non-Price Proposal, and a separate Food Defense Plan for each facility must be submitted.

FACTOR IV. SURGE & SUSTAINMENT

The offeror shall submit a Capability Assessment Plan (CAP) that describes the method and capability to meet the contract ceiling identified in this solicitation. The CAP must show how the 250% ceiling stated for Zone 1 and the 275% ceiling stated for Zone 2 in this solicitation will be supported. This demand level is indicative of the requirements that could be submitted during a surge/sustainment event. The Contractor must address the amount of increased demands that can be handled for surge (first 15 days) and identify the length of time the Contractor would require to ramp up. The Contractor must indicate the length of time this increased pace can be sustained. The CAP should describe and/or include all aspects of their supply chain management. For example, if normal resupply is 30-45 days, the offeror should state how this time would be decreased by 50% to meet ongoing surge requirements.

The offeror must submit evidence, to include letters or other documentation, of the following capability:

- a. Agreements with suppliers and service providers to assist in meeting increased surge requirements
- b. Evidence of ability to utilize additional suppliers or Subcontractors, as needed
- c. Ability to access additional warehouse and distribution facilities, if necessary, to include labor and transportation (delivery vehicles),
- d. Description of logistical technology with regard to asset visibility.

The CAP submission should also include a plan of action if the Contractor facility is damaged or otherwise not able to conduct normal operations. The response should include but is not limited to:

- a. How quickly a secondary operations site is up and running and ready for re-routed shipments including adding personnel and delivery vehicles when necessary
- b. What is the estimated time needed to set up operations at the secondary site for office space, personnel, security, storage and inventory?
- c. Backup communications plan to alert Contractor and DLA Troop Support personnel of the activation of this Emergency Operations Plan. This communications plan should also address how shipments in route to the facility will be re-routed to the secondary facility.

SECTION B – PAST PERFORMANCE

Customer Satisfaction and Conformance to Contract Requirements

The offeror shall provide the information required below for the minimum of three (3) and the maximum of five (5) contracts or customer accounts performed during the past twelve (12) months preceding solicitation closing as a full-line distributor of foods and operating supplies for institutional feeding. The referenced accounts/contracts should be those that best approximate or exceed the scope of the DLA Troop Support contract being solicited (see the Evaluation criteria for Factor I – Experience). For the accounts/contracts of similar nature (size and/or scope) to the DLA Troop Support contract being solicited, they will be considered

more relevant than other accounts/contracts provided by the offeror. Offerors who have performed on a DLA Troop Support Subsistence Prime Vendor contract(s) during the past 12 months preceding solicitation closing shall include the DLA Troop Support contract(s) among the referenced contracts/accounts. Additionally, the offeror shall provide the same information for any other federal government contract(s) with a dollar value over \$1 million, if such other federal government contract(s) are not included in the similar-scope references.

- 1) The following information is required for each of the submitted DLA Troop Support/commercial contracts or customer accounts, and other federal government contract(s) (in accordance with preceding paragraph):
 - a. Contracting Agency / Account Name
 - b. Contract Number / Account Identifier
 - c. Contracting Officer / point(s) of contact, and phone number(s) and email address(es)
 - d. Annual Dollar Value
 - e. Average number of delivery stops (i.e. delivery stops are individual delivery points receiving supplies under a delivery order) per week
 - f. Average number of line items/SKUs on the contract/catalog
 - g. Instances of problems and the actions taken to resolve and preclude recurrence
 - h. Any instances of exceptional performance exceeding requirements
 - i. Fill Rate without substitutions

PRICE PROPOSAL – VOLUME II

I. PRICE PROPOSAL

- A. Offerors' proposed pricing shall be in accordance with the Pricing provisions of the contract, i.e.

Contract Unit Price = Delivered price + Distribution Price - Government Rebates and Discounts

Each item in the Market Basket has been assigned a Distribution Price category by the Government; offerors must utilize the Distribution Price category assigned to each item in the Market Basket as part of their Price Proposal.

NOTE: The Delivered price portion of the proposed Contract Unit Prices shall be those prices that are in effect the week of 14 April 2013.

- B. The price proposal shall be submitted utilizing the Solicitation Price Proposal Workbook Spreadsheets ("Spreadsheet") prepared for this solicitation, and available on the DIBBS website, <https://www.dibbs.bsm.dla.mil/>, named "ATTACHMENT 1 - SPM300-13-R-0052 Price Proposal (4-30-2013) - Zone 1 and ATTACHMENT 1 - SPM300-13-R-0052 Price Proposal (4-30-2013) – Zone 2." **If you have any difficulty in locating or downloading the spreadsheet, or have any questions on completing the spreadsheet, please contact the Contracting Officer immediately.**

Complete the spreadsheet proposal for the 193 Market Basket items for Zone 1 and/or for the 200 Market Basket items for Zone 2.

Each firm must submit their completed spreadsheets on a CD for each Price Proposal. Please name the spreadsheet with the solicitation number and your company name. Please use an Anti-Virus utility to ensure that your CD is virus free before submitting.

- C. The price proposal workbook consists of multiple spreadsheets: "Total," "Distribution Category Pricing," "Price Proposal" and "Item Descriptions & Qualifications." The Distribution Category Pricing sheet provides the fixed Distribution Prices applicable to each proposed distribution category, for the base and option period for all line items. The Price Proposal Sheet includes all pricing information for the base and option period, and the "Item Descriptions & Qualifications" includes the detailed specifications for each solicited line item.
- D. For the purpose of the proposal, the Unit of Measure (UOM) may be defined as the unit of purchase/sale by the manufacturer and prime vendor offeror, and the Unit of Issue (UOI) is the unit of purchase/sale by the Government.
- E. The solicitation spreadsheets should be filled out as follows:

Totals Sheet:

For reference purposes, DLA Troop Support has provided offerors with a tab titled "TOTALS" on the price proposal spreadsheet. Offerors do not enter any information in this tab. This tab calculates the offeror's aggregate offer for the base and option periods, accounting for quantities and other

additional calculations. These calculations rely on the information the offeror enters into the other portions of the spreadsheet. Any incorrect information entered by the offeror, therefore, will skew this stated total.

After the offeror submits the price proposal, DLA Troop Support will verify the offeror-entered information based on the offeror-submitted documentation: invoices, quotes and specification sheets.

Note: This is not the offeror's total evaluated price. The total evaluated price is determined through the process described on solicitation page 136.

Distribution Category Pricing Sheet:

- a. The Distribution Category Price is that Distribution Price that is applicable to the same UOM for all items that fall in that product distribution category. The distribution price must be offered as a dollar amount. Distribution prices offered as a percentage of the delivered price are not acceptable.
- b. Firms shall offer a distribution price for the designated UOM for each category of items, as they are listed in this spreadsheet. The listed product categories on the spreadsheet represent the Government's Category Listing. **Please complete column E and F.**

NOTE: The offeror shall input its name in cell B2.

- c. The awarded distribution prices shall remain fixed for each applicable contract ordering period. Proposed distribution prices may remain the same, increase, or decrease for the option period.

Price Proposal Sheet:

This sheet includes fields pre-populated by DLA Troop Support; fields to be populated by the offeror; and fields that are formulated to calculate values based on the offeror's submission. Pricing shall be offered in accordance with the Pricing provisions of the solicitation, i.e. Contract Unit Price = Delivered price + Distribution Price - Government Rebates and Discounts.

- a. DLA Troop Support populated fields are as follows (columns A - G and I - K):
 1. Solicitation number,
 2. Line item numbers, stock numbers, item names, descriptions, required NAPA brand names,
 3. 1-year estimated quantities, the Unit of Issue ("UOI") being solicited, e.g., CN, CS, LB, distribution price category#, and distribution price category# Unit of Measure ("UOM").
- b. The Offeror shall complete the following fields for each line item (columns L-R), as follows:

NOTE: The offeror shall not add any columns or rows, or otherwise modify any cell positions in the spreadsheet.

L “ALT Item” – Input “Y” if offering an alternate item; input “N” if the item matches the item name (column C) and description (column D). If “N” is input a message will appear on the “Item Descrs & Qualifications” sheet, column F stating ‘DO NOT FILL LINE AS AN ALTERNATE ITEM.’

M “Comm. Inv” - Input “Y” if the item is customarily carried in the offeror’s inventory; input “N” if the item will be inventoried solely for DLA TROOP SUPPORT.

N “Invoice or Quote” – Input “I” if the proposed delivered price is based on the actual delivered price; “Q” if product is not in inventory, there is no inventory/invoice price available, and the proposed delivered price is based on an accompanying quote.

The following invoice or quote data:

O Input the dollar amount of the NAPA discount deducted from the offeror’s UOM Delivered Price (Column R). This dollar amount should be \$0.00 since the offeror shall NOT deduct a NAPA discount from its UOM Delivered Price on the Price Proposal Spreadsheet in accordance with the solicitation’s submission requirements (see NOTE under Column P). However, if an offeror’s invoice/quote used to substantiate its UOM Delivered Price includes a NAPA discount, this dollar amount must be entered here.

P The value you fill in this column helps to calculate the distribution price applied to the item on a unit of issue basis. Each distribution category has an associated government unit of measure (“UOM”) which is either case (“CS”) or pound (“LB”). This is called the *Distribution Price Category # Unit of Measure*. For a complete list of categories and associated government UOMs, see the tab titled ‘Distr Category Pricing.’ On that sheet, you offer distribution prices on a (government) UOM basis.

Each item is eventually issued to the customer in a specific unit: the unit of issue (“UOI”) which is identified in column I. You derive the column P value dividing the number of units (UOI) by the government’s UOM.

Example (1):

$UOI = \frac{PG}{LB}$

Distribution Price Category # Unit of Measure = LB

Item Packaging = 6/43 OZ PG

43 oz = 2.6875 LB (the size of one package)

COLUMN P Calculation:

Unit of Issue

Distribution Price Category # Unit of Measure

↓
1 PG

2.6875 LB
↓

COLUMN P VALUE = 0.3721

Plainly stated, this is the number of packages in a pound.

Example (2):

UOI = LB

Distribution Price Category # Unit of Measure = LB

COLUMN P Calculation:

Unit of Issue Size

Distribution Price Category # Unit of Measure

↓
1 LB

1 LB
↓

COLUMN P VALUE = 1

NOTE: Improper fractions shall be submitted to four (4) decimals. E.g. the column P value $1/3 = 0.3333$

Q The value you fill in this column shows the number of smaller units contained in your firm's Delivery UOM. The Delivery UOM describes in what measurement your firm receives the item from your supplier. This smaller unit is the UOI (column I). Therefore, in this column you type the number of units (UOI) contained in your Delivery UOM.

Example (1):

UOI = PG

Delivery UOM = CS

Item Details = 6/43 OZ PG

COLUMN Q = 6 because one case contains 6 PGs.

Example (2):

UOI = LB

Delivery UOM = CS
Item Details: 20 LB CS

COLUMN Q = 20 because one case contains 20 LBs.

Example (3):

UOI = CN
Delivery UOM = CS
Item Details: 24 CNs per CS

COLUMN Q = 24 because one case contains 24 CNs.

Example (4):

UOI = PG
Delivery UOM = LB
Item Details: 1 / 2.5 LB PG

COLUMN Q = 0.4 $\left(\frac{1}{2.5} = 0.4\right)$ because one LB contains 0.4 PGs.

- R The UOM Delivered Price is the invoice price per the Delivery UOM. The Delivery UOM is the unit of purchase by the Contractor from its Supplier.

NOTE: DO NOT deduct NAPA, Food Show or any other Government Rebates and Discounts from the delivered price on your price proposal. However, the actual Contract Unit Prices in the awarded contract order catalog shall include and be reduced by all applicable Government Rebates and Discounts.

- c. Pre-populated fields correlated to the Distribution Category Pricing Sheet (Columns S & T)

1. The proposed UOM Distribution Prices for the base and option period.

NOTES:

- (1) The UOM Distribution Prices shall automatically correlate to the Distribution Category proposed on the Distribution Category Pricing sheet. Once the offerors input the Distribution Category Price on the Distribution Category Pricing sheet, this information will be populated in to the Price Proposal sheet. Therefore, all items in a specific Distribution Category will be priced the same per Distribution Price Category # previously assigned by the Government.

- (2) Option pricing shall be provided for the Distribution Price portion of the Contract Unit Price only. Acceptance of the option is mandatory, and if an offeror does not submit option terms or indicate acceptance, the offeror's proposal may be rejected.

d. Fields that will be calculated are as follows (Columns W – AB and AD - AH)

1. The proposed UOI Delivered price,
2. The proposed UOI Distribution Price (DIP) for the base and option period,
3. The proposed UOI Unit Price, which is the sum of the DIP plus the delivered price, for the base and option period,
4. The total UOI Distribution Price (DIP) for the base and option period,
5. The total dollar value for the line item, for the base and option period.

NOTES:

1. The Government will evaluate UOI pricing only. If the spreadsheet calculated UOI prices are not the prices you intend to propose, please contact the Contracting Officer immediately.
 2. The Government will sum columns Z, AA, AB, AF, AG and AH to arrive at total distribution price and total aggregate price for each contract period.
- e. Prices must not extend more than two (2) places to the right of the decimal point. Standard rounding methods should be observed. For example, a delivered price of \$4.578 plus a distribution price of \$0.232 should be rounded to \$4.58 plus \$0.23. All Government calculated numbers will be so rounded.
- f. The items on the spreadsheet represent the contract market basket, i.e. the highest usage items as well as items listed under the Basic Daily Food Allowance (BDFA) listing. These items will represent the initial contract vendor catalog, at the prices proposed and awarded (reduced by the application of all applicable Government Rebates and Discounts). This means that the Contract Unit Prices in the initial contract order catalog shall be equal to or less than the awarded unit prices and this catalog will initiate the catalog baseline prices. Estimated annual quantities for the items are for information and evaluation purposes only.
- g. **If an offeror carries a variety of brands for the same item, the price submitted shall be for the lowest price, technically acceptable, item that meets the Government's minimum requirements, except that Brand Name/NAPA items must be priced according to the exact Brand Name/SKU/NAPA that is listed in the Market Basket, as specified. The inclusion of required Brand Name/NAPA items on the initial contract catalogs does not preclude future catalog changes during the life of the contract to add competing products based on added value to the customer.**

Item Descriptions and Qualifications sheet

- a. This sheet contains the detailed item description specification for each solicited line item.

- b. All offered items should be an exact match to the solicited LSN specification requirements, to include item description, unit package size, and units per purchase pack. If the item you are offering is not an exact match, you must fully detail and highlight the difference/qualification (e.g. alternate LSN item, alternate item description, package size or units per purchase pack) on this sheet. If your alternate proposed item matches a different DLA TROOP SUPPORT LSN, please provide that LSN.

NOTES:

- (1) If 'N' is input into column L on the Price Proposal spreadsheet, a note will appear on column F stating 'DO NOT FILL LINE AS AN ALTERNATE ITEM.' In this situation, no additional information shall be entered for the corresponding item.
- (2) Meat items shall meet all the general and detailed requirements of the Government's item description in accordance with the IMPS or NAMPS equivalent. Regarding fat limitations, unless otherwise specified, the maximum average fat thickness shall be 0.25 inch, and trim, weight and thickness tolerances shall be as the specified quality grade.
- (3) An offeror should not attempt to convert pricing to match the requirements in the solicitation when proposing an alternate item. Any conversion will be done by DLA Troop Support and will be for evaluation purposes.
 - a. If an alternate item falls into a new distribution category, an example would be a different package size not in the distribution category list; it should be noted on the Item Desc & Qual (Item Descriptions and Qualifications) sheet and priced on the Price Proposal sheet as per the alternate item.

II. SUPPORTING PRODUCT INFORMATION

A. Invoice/Quotes:

- 1) ALL offered Delivered prices in the Price Proposal spreadsheet must be substantiated with either an invoice or a quote. Due to the commercial nature of the items being evaluated, the Government expects offerors to have many of the market basket items in stock as part of its regular business and to therefore submit invoices to substantiate Delivered Price. For each line item in the market basket, you are required to provide two copies of the manufacturer's/grower's/private label holder's or Redistributor's invoice for the last product received AND two copies of a screen shot of the Delivered Price in your electronic purchasing system. In lieu of invoices, two copies of a written quote from the manufacturer/grower/private label holder may be submitted. Your submission of copies is an acknowledgment that all copies provided are true, correct, and unaltered. The Government reserves the right to verify the validity of all invoices and quotes. In particular, quoted prices will be compared to Delivered Prices submitted by other offerors, and any quotes that appear too low will be verified for validity. Methods of verification may include but are not limited to communicating with the manufacturer/grower/private label holder or redistributor and checking published price lists and/or market prices. Evidence of fraudulent invoices and/or quotes may preclude award. Evidence of fraudulent invoices and/or quotes discovered after award may result in contract termination. An invoice or quote from an incumbent Contractor for an item currently on the contract catalog(s) for the solicited zone(s) should match the current contract Delivered Price. However if a quoted price on a current contract item is lower, the Contractor shall apply that quote to the current contract catalog and reduce the Unit Price of the item on the following

weekly EDI price update. That Unit Price will be retained for the entire effective period of the quote. A quote must include the following:

- a. The manufacturer/grower/private label holder's letterhead;
- b. Date price quote was supplied;
- c. Time period price quote is effective;
- d. Quantity covered by price quote;
- e. Manufacturer part number;
- f. Manufacturer's point of contact, including name, title, address, and phone number;
- g. Early payment terms.

NOTES:

- (1) The quantity covered by the price quote should be the Delivered Price for the anticipated individual purchase order quantity that would be placed by the offeror for supplies, NOT for the estimated total quantity over the contract period. Unless the quote certifies that prices will remain fixed for an extended period of the contract (e.g. 6 months), the quote shall be for a delivered quantity no greater than 1/12th the annual estimated quantity for the line item. If the quote is for the entire estimated quantity and the offeror certifies the price will remain fixed for the quote's specified period, the line item price shall not be increased under the Economic Price adjustment clause during such period of the contract.
- (2) The invoice or quote for each proposed item shall include the solicitation line item number and be collated in sequential numerical order. All invoices/quotes shall identify the delivered price by Unit of Measure. Two separate copies (preferably in folder or booklet form) of the invoices/quotes are to be included with your offer.
- (3) In the event of award based on initial offers, i.e. award without negotiations, the submission of insufficient or incorrect manufacturer invoices and/or quotes may make an offeror ineligible for award. In the event that negotiations are conducted prior to award, the submission and subsequent failure to correct insufficient or incorrect manufacturer invoices and/or quotes may make an offeror ineligible for award.

B. Technical Descriptions

- 1) In order to assure the offered item is the appropriate item being solicited, the offeror shall provide a technical description (specification) for the item it will deliver, for ALL items in the Market Basket. The technical description must contain sufficient detail to determine that the product meets all requirements of the item description, to include weights, package sizes, and any macro-nutritional requirements. Nutritional information is not required and does not constitute required technical details.
- 2) The Contractor's descriptions/specifications will be used to determine if the item offered meets the minimum quality standard described or preferred, and meets the item description as set forth in the solicitation and Market Basket.
- 3) Each technical description must be labeled with the corresponding market basket line item number and its corresponding NSN/LSN.

III. EARNED INCOME

The Contractor shall identify all categories of earned income (as defined elsewhere in the solicitation/contract) received. It is not necessary to submit specific dollar amounts of earned income, just the categories.

THE GOVERNMENT RESERVES THE RIGHT TO VERIFY ALL ASPECTS OF AN OFFEROR'S NON-PRICE AND PRICE PROPOSALS.

FAR 52.212-2 – EVALUATION—COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

NON – PRICE FACTORS

A. Technical Factors

- I. Experience
- II. Quality Control (QC) & Quality Assurance (QA) Procedures
- III. Food Defense
- IV. Surge and Sustainment

B. Past Performance

PRICE FACTORS

Weighted Aggregate Unit Price (composed of Weighted Aggregate Distribution Price plus Aggregate Delivered Price)

(b) *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

ADDENDUM TO FAR 52.212-2

Clause 52.212-2 "Evaluation – Commercial Items," which is incorporated herein in full text, is revised as follows:

1. Paragraph (a) is hereby expanded to read as follows:

Any exceptions to the terms and conditions of the solicitation may render the proposal ineligible for award. Under Lowest Price Technically Acceptable process, award will be made on the basis of the lowest evaluated* price of proposals meeting or exceeding the acceptability standards for all non-price factors. All non-price factors are of equal importance. Offerors must be technically acceptable in every non-price factor in order for the entire proposal to be rated technically acceptable. A Technically Acceptable proposal is defined as meeting or exceeding the acceptability standards for all non-price factors. Those standards are found on pages 138-140.

* - See paragraph (e) (ii) (2) below – Price Evaluation Process for further explanation.

2. Paragraph (b) is hereby expanded to read as follows: “Total price” as used in this paragraph means “Total Evaluated Price” and is the Weighted Aggregate Unit Price for the basic requirement and each option period.

3. Add paragraph (d) as follows:

(d) Definitions of non-price factors and price factors:

Non Price factors:

A. Technical Factors

- I. Experience - (see Non-Price Proposal, Volume I, page 138).
- II. Quality Control (QC) and Quality Assurance (QA) Procedures – (see Statement of Work, Non-Price Proposal, Volume I, page 139)
- III. Food Defense – (see Statement of Work, Non-Price Proposal, Volume I, page 139)
- IV. Surge & Sustainment – (see Non-Price Proposal, Volume I, page 140)

B. Past Performance – (see Non-Price Proposal, Volume I, page 140)

Price factors:

Weighted Aggregate Distribution Price

Aggregate Distribution Price is obtained by multiplying each distribution price of each of the items listed in the Market Basket by its estimated quantity, and totaling the results for all distribution prices of the items listed in the Market Basket for the base period and the option period. The Aggregate Distribution Price is then multiplied by a weighting factor of 11.5 to arrive at the Weighted Aggregate Distribution Price. Note: the weighting factor is applied only to the overall aggregate of Distribution Price (not on a line item basis), and is to be used for evaluation purposes only.

Aggregate Delivered Price

The Aggregate Delivered Price is obtained by multiplying the Delivered Price of each of the items listed in the Market Basket by its estimated quantity, and totaling the results for all Delivered Prices of the items listed in the Market Basket for the base period and option period.

Weighted Aggregate Unit Price

Weighted Aggregate Unit Price is obtained by adding the Weighted Aggregate Distribution Price and the Aggregate Delivered Price for the base period and option period. This Weighted Aggregate Unit Price will be used to determine the lowest evaluated price to the Government.

4. Add paragraph (e) as follows:

(e) Evaluation Procedures:

(1) Summary

All timely proposals will undergo a non-price and price evaluation as described in paragraph (e) (2) below. The Government intends to evaluate offers and award a contract without discussions, however, the Government reserves the right to conduct discussions if determined by the Contracting Officer to be necessary. If discussions are determined to be necessary, the Contracting Officer will make a competitive range determination based on initial evaluations and written and/or oral discussions will be conducted with all offerors in the competitive range. The Government will request final proposal revisions from all offerors with proposals that remain in the competitive range. Final revised offers resulting from discussions will undergo further non-price and price evaluations. Finally, an award will be made on the basis of the lowest evaluated price of proposals meeting or exceeding the acceptability standards for all non-price factors.

(2) Evaluation Process

- (i) *Non-Price Evaluation Process* – Each Non-Price Proposal will be evaluated against the non-price factors (technical factors and past performance) specified in paragraph (a) above. The rating methodology for the Non-Price Proposal will be Acceptable or Unacceptable.

NOTE: In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305 (a) (2) (iv)). Therefore, the offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability, “unknown” shall be considered “acceptable.”

- (ii) *Price Evaluation Process* – Each proposal will be evaluated against the requirements of, and in accordance with the terms of, the solicitation. The Government will evaluate limited pricing data with the initial proposals and during discussions, in accordance with FAR 15.4, “Contract Pricing.” Included in this process is the evaluation of the option. The Government will evaluate offeror’s pricing on the items in the Market Basket of items contained in Attachment 1 – “SPM300-13-R-0052 Price Proposal (4-30-2013) – Zone 1 and Attachment 1 – “SPM300-13-R-0052 Price Proposal (4-30-2013) – Zone 2”.

SEE PRICE PROPOSAL EVALUATION ON PAGE 141.

(3) Selection Process

The final non-price and price evaluation reports will be furnished to the Contracting Officer by the Non-Price and Price Proposals evaluators. Award will be made to the responsive, responsible offeror that offers a technically acceptable Non-Price Proposal at the lowest evaluated price.

EVALUATION FACTORS FOR AWARD

NON-PRICE PROPOSAL EVALUATION

The overall Non-Price ratings will be on an ACCEPTABLE / UNACCEPTABLE basis.

NOTE: All non-price factors must be rated “acceptable” in order for the entire proposal to be rated as acceptable and considered for award.

SECTION A – TECHNICAL FACTORS

The following technical factors will be evaluated: Factor I (Experience), Factor II (Quality Control & Quality Assurance Procedures), and Factor III (Food Defense).

- I. EXPERIENCE – Full-Line Distributor of Foods and Operating Supplies for Institutional Feeding
- II. QUALITY CONTROL & QUALITY ASSURANCE PROCEDURES
- III. FOOD DEFENSE
- IV. SURGE & SUSTAINMENT

FACTOR I. EXPERIENCE

Full-Line Distributor of Foods and Operating Supplies for Institutional Feeding

The Government will evaluate the offeror’s record of Experience and determine if it demonstrates a level of experience that provides reasonable assurance of successful performance on any contract awarded under this solicitation. In evaluating experience, the Government will consider the current business volume (sales, customers, stops) and line items/SKUs inventoried. The estimated size/scope of this DLA Troop Support contract is defined as follows:

NOTE: The Government may also take into consideration other aspects of the offeror’s contracts that bear similarities to the solicited requirements.

ZONE 1: PUGET SOUND/SEATTLE NAVY SHIPS

FACTOR II. QUALITY CONTROL & QUALITY ASSURANCE PROCEDURES

The Government will evaluate the offeror's Quality Control & Quality Assurance Procedures to ensure delivered products meet all standards for product quality and adequate inventories are available to avoid not-in-stock positions, and that delivered products have been maintained under proper temperature control, have proper shelf-life dating and remaining shelf-life, and are the correct items and correct quantities as ordered.

FACTOR III. FOOD DEFENSE

The Government will evaluate the offeror's security plans relating to plant security and security of the product in light of the heightened threat of terrorism. The steps taken to insure that products and/or packaging have not been tampered with or contaminated throughout the entire manufacturing, storage, and distribution process will be evaluated. The DLA Troop Support Food Defense Checklist (available at http://www.troopsupport.dla.mil/subs/fs_check.pdf) will be used to evaluate the plan.

The Food Defense Plan will be considered acceptable if the score is greater than or equal to 80 for all nine elements of the DLA Troop Support Food Defense Checklist and the plan reasonably assures product integrity of all delivered products.

NOTE: If an offeror submits more than one Food Defense Plan as a result of using more than one facility to store and distribute product, each plan must be rated as acceptable in order to receive an acceptable rating for this factor.

FACTOR IV. SURGE & SUSTAINMENT

The Government will evaluate the offeror's Capability Assessment Plan (CAP) and previous Surge and Sustainment experience in order to determine their ability to meet the increased quantity and or accelerated delivery requirements, using production and or supplier base capabilities, in support of DoD contingencies and/or emergency peacetime requirements. This capability includes both the ability to ramp up to meet early delivery or increased requirements (i.e., Surge), as well as to sustain an increased production and delivery pace throughout the contingency (i.e., Sustainment). The Government will also evaluate the offeror's ability to meet the surge ceiling percentage within 15 days and provide detailed answers to all questions in the Capability Assessment Plan (CAP) as well as information relating to the setting up of a secondary facility if the primary facility is damaged.

SECTION B – PAST PERFORMANCE

Customer Satisfaction and Conformance to Contract Requirements

The Government will evaluate the offeror's record of Past Performance through its written proposal, Government in-house records (if applicable), and the information provided by the points of contact or references designated by the offeror. Government in-house records will be considered more reliable than information provided by other references. Government in-house records include, but are not limited to, customer surveys, DLA Troop Support Prime Vendor Product Quality Audit scores, Quality System Management Visit (QSMV) reports, Contractor Performance Assessment Reporting System (CPARS), and destination inspection reports.

The offeror's customer surveys combined overall average score, for all provided contracts, including Government in-house records (if applicable), indicates performance greater than or equal to 3.0 on the DLA Troop Support Ops Survey) and there are no issues of significance regarding contract compliance with contractual terms (e.g. non-ABILITYONE competing items and Berry Amendment non-compliance) or commercial account terms.

"3.0" is the equivalent of acceptable performance on the Subsistence customer survey and represents adequate performance.

NOTE: The Government may contact the offeror's listed references to confirm the provided information and survey the performance of the offeror. The Government may also obtain and use past performance information from sources other than those identified by the offeror. These would be publicly available, non-confidential sources.

NOTE: Past Performance will be evaluated on an Acceptable or Unacceptable basis. In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305 (a)(2)(iv)). Therefore, the offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability, "unknown" shall be considered "acceptable."

PRICE PROPOSAL EVALUATION

I. PRICE PROPOSAL

For purposes of the Price Proposal Evaluation, Weighted Aggregate Distribution Price and Aggregate Delivered Price are considered equal. This equality is accounted for mathematically by applying a weighting factor of 11.5 (based on current Government data) to the Aggregate Distribution Price.

Each offeror's total evaluated price will be calculated by adding the Weighted Aggregate Distribution Price and the Aggregate Delivered Price to arrive at the Weighted Aggregate Unit Price. The Weighted Aggregate Unit Price will be used to evaluate each offeror's price proposal.

Although Aggregate Weighted Unit Prices will be used as the evaluation factor for the Price Proposals, individual line items will be reviewed to determine if offered prices are accurate and fair and reasonable. As part of this review, prices will be assessed to ensure competitive pricing. If any line items are not found to be fair and reasonable, they may be subject to negotiations and/or may require supporting documentation.

Invoices and/or quotes will be individually evaluated in accordance with the submission requirements.

Of the 38 Distribution Categories, a limited number may not be represented among the Market Basket line items. These categories are being included in the event that such items may be required during contract performance.

II. SUPPORTING PRODUCT INFORMATION

The Government will examine all of the offerors' product invoices and technical data sheets to compare against the solicitation line item descriptions to determine whether proposed items meet the solicited requirements, and that the Delivered Prices are in accordance with the terms and conditions of the solicited pricing provisions. Proposed item qualifications and substitutes will be shared and evaluated with the Government's customers to determine their acceptability.

To ensure an objective price evaluation, the pricing of all offerors are to be based on the exact item in our market basket of items. When offerors qualify the salient characteristics of an item or items in the market basket and/or when the government detects (through a relative pricing review and/or a review of supporting invoices or quotes) that the pricing proposed is on an item which differs from the market basket of items description then the government reserves the right to employ remedies such as:

- (a) If an insignificant number of items differ from the schedule of item descriptions, those items will be eliminated from the evaluation of all offerors;
- (b) Single-serve items with minute quantity differences may be evaluated without adjustment, as any additional quantity provides no additional value;
- (c) Larger, generally case size items, with pack-quantity differences may be evaluated on a per-pound or similar basis; and,

IMPORTANT: DLA Troop Support will evaluate these items on a similar basis to the exact item in the market basket. Due to the fact that all of the quantities are based on the UOI, DLA Troop Support will make the appropriate conversions to an offeror's acceptable alternate item in order to adjust an offeror's UOI Unit Price to put it in line with the exact item in the market basket.

- (d) If a significant number of items differ from the schedule of item descriptions, the offeror may be eliminated from the competitive range or may be deemed ineligible for award.

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the

lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability.
