STATEMENT OF WORK**CAUTION NOTICE**

THE CONTENT AND STRUCTURE OF SOLICITATION SPE300-24-R-X014 IS NEW. PLEASE READ CAREFULLY BEFORE SUBMITTING YOUR OFFER.

The awardee will be required to have a computer system capable of accepting delivery orders and processing Electronic Data Interchange (EDI) transactions. This contract will require the contractor to have electronic commerce/electronic data interchange EC/EDI capabilities.

All contractors who choose to conduct business with the Department of Defense must now be registered in the System of Award Management (SAM) database.

CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT (NOV 2021)

FAR Part 3.1002(a) requires all government contractors to conduct themselves with the highest degree of integrity and honesty. Contractors should have a written code of business ethics and conduct within thirty days of award. To promote compliance with such code of business ethics and conduct, contractors should have an employee business ethics and compliance training program that facilitates timely discovery and disclosure of improper conduct in connection with government contracts and ensures corrective measures are promptly instituted and carried out. A contractor may be suspended and/or debarred for knowing failure by a principal to timely disclose to the Government, in connection with the award, performance, or closeout of a Government contract performed by the contractor or a subcontract awarded there under, credible evidence of a violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in title 18 of the United States Code or a violation of the False Claims Act. (31 U.S.C. 3729-3733).

If this solicitation or contract includes FAR clause 52.203-13 - CONTRACTOR CODE OF BUSINESS ETHICS AND CONDUCT; the contractor shall comply with the terms of the clause and have a written code of business ethics and conduct; exercise due diligence to prevent and detect criminal conduct; promote ethical conduct and a commitment to compliance with the law within their organization; and timely report any violations of federal criminal law involving fraud, conflict of interest, bribery or gratuity violations found in title 18 of the United States Code or any violations of the False Claims Act. (31 U.S.C. 3729-3733). When FAR 52.203-13 is included in the contract, contractors must provide a copy of its written code of business ethics and conduct to the contracting officer upon request by the contracting officer.

Form (CONTINUED)**RAPID GATE, DEFENSE BIOMETERIC IDENTIFICATION SYSTEM (DBIDS) REQUIREMENT and/or OTHER SECURITY PROGRAMS**

Many bases may require enrollment in a particular system for base security such as RapidGate, the Defense Biometric Identification System (DBIDS), or other similar system(s). Such systems manage access to Department of Defense (DoD) installations, and will not allow entry without clearance. During the contract start-up/ implementation period, the Contractor must contact all customer locations to determine whether enrollment in RapidGate, DBIDS, or another security program is required for access to each location. If RapidGate, DBIDS, or other security enrollment is required, the Contractor must take all necessary steps to obtain this in time for the start of performance under this contract. Failure to have clearance may result in a vendor being turned away from the base and being unable to complete delivery. The Contractor is responsible for any costs associated with RapidGate, DBIDS, and/or other security program enrollment and must ensure that a properly enrolled driver is available for all deliveries. We currently estimate that RapidGate or DBIDS enrollment will cost about \$250 per company and \$200 per enrolled employee for 1 year of access to multiple locations, but the cost of RapidGate, DBIDS or other security enrollment may vary, so the Contractor should contact the specific security system contractor to determine its own costs. If more than one driver is required, enrollment must be obtained for each driver. Note that enrollment can take several weeks, so an awardee that is not already enrolled must begin enrollment at the time of award notification at the latest. If difficulty or delay in enrollment is encountered during the start-up/implementation period, the Contractor MUST contact the specific security system contractor and/or the Security Officer at the applicable customer locations to resolve any issues with processing enrollment so that the Contractor will be able to deliver as required.

For additional information on current base security systems including RapidGate and DBIDS, including enrollment instructions, please visit their websites at www.rapidgate.com and <http://dbids.dmdc.mil/DBIDS> . .

[] Submit A copy of current Wholesale Price List, Catalog Price Schedule or other documents containing commercial pricing information.

STATEMENT OF WORK

I. INTRODUCTION

A. Defense Logistics Agency (“DLA”) - Troop Support (“Agency”) intends to enter into an indefinite quantity contract(s) (“IQC”) with a commercial firm(s) to supply Fresh Milk & Dairy products to Department of Defense (“DoD”, or “Troop”) customers in the U.S Territory of Puerto Rico. Specific requirements per item are included in the Schedule of Items (Attachment 1). Failure to propose the specified requirement per item as identified in Attachment 1 may render an offeror's proposal technically unacceptable.

A successful offeror(s) will be required to source, purchase, store, and deliver a variety of milk, dairy and ice cream items to DLA Troop Support customers on an ongoing basis, while at the same time maintaining acceptable fill rates, levels of customer service, and product quality. Therefore, an offeror must currently possess the physical, logistical, and financial resources to serve as a commercial distributor of a variety of milk, dairy and ice cream items. It is neither sufficient nor acceptable for an offeror to be a third-party logistics (“3PL”) company (i.e. a company that does not intend to serve as the milk, dairy and ice cream supplier but instead intends to subcontract out the majority of aspects required by the contract, including but not limited to ordering, warehousing, distribution, etc.). By offering, an offeror affirms its status as a current and functioning commercial distributor of milk, dairy and ice cream items. In order to determine whether an offeror meets the technical requirement of being a current and functioning commercial milk, dairy and ice cream distributor, the Contracting Officer will require an offeror to submit a copy of each third party warehouse audit (i.e., Sanitation Compliance and Enforcement Ratings of Interstate Milk Shippers or other state or federal sanitation inspection certificates). The audit report(s) must demonstrate that a passing score(s) was/were received. Please note that a request for the aforementioned information by the Contracting Officer will be used to make a determination of whether or not the offeror meets the technical requirement of being a current and functioning commercial distributor of milk, dairy and ice cream. This information is not being sought to determine an offeror's likelihood of success in performing the contract as would be the case in a responsibility analysis.

B. The aforementioned zone is comprised of (1) Group in the area described above. Group 1 consists of customers located at and/or in Puerto Rico. The Agency intends to award one contract per Group. The offeror must support all of the customers in the Group for which they make an offer. Offerors are required to propose on all items in the Schedule of Items. Failure to do so may result in its proposal being deemed technically unacceptable and therefore excluded from further consideration for award. Because the Contracting Officer is not obligated to initiate negotiations, each offeror shall submit its most competitive proposal. Said proposal shall be responsive to all of the Solicitation's requirements and free from any deficiencies.

C. This solicitation is being issued as a Total Small Business Set-Aside. NAICS is 311511 and size standard is 1150.

D. This Solicitation utilizes the Lowest Price Technically Acceptable (“LPTA”) Source Selection Process. It contains one (24-month) Tier and one (12-month) Tier (hereafter individually referred to as “Tiers”) periods. The length of the contract is 36 months (3 years) including all tiers.

CONTINUED ON NEXT PAGE

Form (CONTINUED)

E. Any award resulting from this Solicitation will be an IQC that is fixed in price. The IQC will provide for an indefinite quantity, within stated limits, of specific supplies or services to be furnished during a fixed period, with deliveries to be scheduled by placing orders with the contractor (reference FAR 16.504(a)).

II. EFFECTIVE PERIOD OF CONTRACT

A. Any resulting contract from this Solicitation will not exceed 3 years or \$250,000 whichever occurs first; commencing on the effective date of the contract.

III. TIERS

A. The 3-year contract period is divided into one (24-month) Tier and one (12-month) Tier period. Each Tier affords offerors an opportunity to provide different Unit Prices.

IV. ESTIMATED DOLLAR VALUE / GUARANTEED MINIMUM / MAXIMUM

A. There is no guaranteed minimum on this contract. The max value of this contract is \$250,000.00 or 3 years, whichever comes first. Once this obligation is met, there is no further ordering obligation on the part of the Agency.

The following chart includes the overall contract maximum.

Puerto Rico Zone Contract Maximum

DoD Customers and Schools \$250,000

V. CONTRACT START-UP PERIOD

A. For this section and all sections of the Statement of Work hereafter, the term “day or “days” is defined as “calendar days” unless otherwise noted. After an award is made, the Contractor (also referred to as the Awardee) will be required to take steps to implement its new contract prior to initial ordering/delivery. Within 15 calendar days after the award is made, the Contractor shall submit a proposed implementation schedule to the Contracting Officer that details all of the necessary steps that are required to ensure proper contract performance. This may include but is not limited to catalog/ordering/invoice testing (FFAVORS), sourcing new items, finalize delivery schedule per customer location, base access, etc. The timeline for the “start-up” period, as described above, is not included in the 36-month contract period.

B. It is intended that the Contractor shall meet Indian Tribe Organization “ITO” preferred delivery days where specified within the solicitation. Only the Contracting Officer can approve a contractor's request to deviate from the ITO's preferred delivery days.

VI. ELECTRONIC ORDERING CATALOGS

An offeror that receives an award will be required to maintain electronic catalogs (FFAVORS) that list all items available to the

CONTINUED ON NEXT PAGE

Form (CONTINUED)

customers covered under this solicitation. Each item in the catalog shall contain the corresponding national or local stock number (as appropriate), Government item description, packaging characteristics, unit of issue, and unit price.

A. Catalog Maintenance**1. New Items**

- (a) If a customer seeks to order a Milk and/or Dairy item that is not a part of the catalog after the customers' ordering period commences (i.e. post "start-up" period), the Contractor will be afforded a maximum of 10 days to source the item and have the item added to the ordering catalog. The final step prior to the item being "live" on the catalog is for the Contracting Officer to determine the item's price "fair and reasonable." Once this is complete, the item should remain a constant within the contractor's inventory, subject to availability issues. When requesting all item approvals (including new additions and/or changes to an existing item, such as pack size, etc.) with the Contracting Officer, the Contractor shall use the "Request for New Item" Form (Attachment 2). This form is mandatory and without it, no new items or changes to existing items will be processed by the Contracting Officer.

2. Catalog Pricing

- (a) Schedule of Items Pricing: Items priced in the Schedule of Items (see Attachment 1) will be included in the ordering catalog following award. Schedule of Items will be determined fair and reasonable prior to award. The final proposed price for each item in the Schedule of Items will be fixed as the catalog price during the first two weeks of customer ordering.
- (b) Contractor-Requested Catalog Price Changes: Upon award, all items included in the Solicitation's Schedule of Items that ultimately are included in the ordering catalogs have been deemed "fair and reasonable" from a pricing standpoint by the Contracting Officer.
- (c) Contractor-Requested Catalog Additions: Before an item is added to the catalog, the Contractor is required to submit to the Contracting Officer the "Request for New Item" Form as previously addressed (see Attachment 2). Said request shall include the stock number, Government item description including the quality grade of the item (if applicable), proposed unit price with a corresponding supplier invoice or quote (quotes permitted in very limited circumstances as approved by the Contracting Officer; e.g. Contractor never purchased item before. The Contracting Officer will review the catalog addition request and upon determining the price fair and reasonable will contact the Contractor to indicate acceptance. The item once accepted will be added by the Contracting Officer to the catalog. Should the proposed price fail to be determined "fair and reasonable," the Contracting Officer will conduct negotiations with the Contractor. If, after negotiations, the proposed price still cannot be determined "fair and reasonable," the item will not be added to the catalog.
- (d) Pricing Requirements: The Contractor's catalog prices, as awarded, constitute the initial catalog prices. The prices shall remain in effect for all subsequent ordering periods except as otherwise adjusted in accordance with the EPA provision.

VII. BUY AMERICAN ACT**CONTINUED ON NEXT PAGE**

Form (CONTINUED)

- A. The Buy American Act, contained in Federal Acquisition Regulation ("FAR") 52.225-1 and included in this solicitation, is applicable. This regulation mandates that all food items, including milk and dairy items, provided under the instant solicitation and resulting contracts be produced and manufactured in the United States.

VIII. ADDITION OF NEW CUSTOMERS

- A. Adding Customers within the Contract's Geographic Distribution Region/Zone:

1. After contract award, there may be instances when new customers request support of their fresh milk and dairy requirements. Additional DoD and/or Non-DoD federal government customers that request DLA Troop Support fresh milk and dairy support may be added to the contract without any new acquisition or competition process, if the customer(s) is/are within the geographic distribution region/zone covered by this contract.
2. The decision as to whether a potentially new customer is within the contract region or zone and, thus, will be added to the contract without further competition and at the existing contract prices, shall be the sole decision of the DLA Troop Support Contracting Officer.
3. Pursuant to the above, the Contracting Officer will instruct the contractor to include the customer(s) at the effective contract prices applicable to that distribution zone/region.

- B. Under no circumstance may the resulting contract's maximum dollar value be exceeded with the addition of any customer(s) and its respective milk and dairy requirements.

IX. CUSTOMER SERVICE

- A. Troop, USDA, and other customers conduct periodic food menu boards and similar meetings that the Contractor may be required to attend. At these meetings, the customers typically review their internal business practices and may request that the Contractor show new products, demonstrate produce preparation, and/or provide nutritional information. Contractor shall visit customers as directed by the KO when it is determined, within the KO's sole discretion, that there is a need for a visit to the customer's site.
- B. The Contractor shall provide at least one full-time Customer Service representative to maintain continuous contact with all of the ordering customers, as well as at least one back-up representative.
- C. As an industry expert, the Contractor shall assume the responsibility of introducing new FF&V items to the customers, as well as to show cost-effective alternatives to their current choices, if the customer so desires. (For procedures to add items, see New Items paragraph under the Section VI. Electronic Ordering Catalogs.) However, the decision as to which items are ultimately included in the Ordering Catalog are at the discretion of the customer(s) and the Contracting Officer.
- D. The contractor(s) shall treat each of the customers covered under the contract as one of its best customers. Therefore, any treatment and/or customer service policy given to other essential accounts shall also be given to the customers covered under the resulted contract.

X. ORDERING SYSTEMS

- A. Fresh Fruits and Vegetable Order Receipt System ("FFAVORS"): USDA customers (School customers and Tribal Organizations)

CONTINUED ON NEXT PAGE

Form (CONTINUED)

will utilize the FFAVORS Web catalog as applicable. The Contractor, upon award, will be provided a User ID and password to Log in and receive orders through FFAVORS Web, a web-based ordering system. The Contractor is responsible for establishing and maintaining the FFAVORS WEB catalog in accordance with the FFAVORS Web Manual (Attachment 4).

1. Accessed via the Internet. FFAVORS WEB is the Government's ordering system for USDA Customers. It is capable of accepting orders from the schools and tribal reservations.
2. Customers will be able to order all of their requirements through FFAVORS WEB. The system will transmit orders to the Contractor and DLA-Troop Support.
3. In the event that the FFAVORS WEB system is not operational, the Contractor must provide alternate ways for the customer to order (e.g., by fax, by phone, pick up orders). Be aware that even in this situation, however, it is mandatory that the Contractor subsequently place the same order through FFAVORS when it becomes operational again in order to effect obligation/receipt/payment.
4. The Contractor shall have access to the Internet and be able to send and receive electronic mail (email).
5. Unit prices must be formatted not more than two (2) places to the right of the decimal point in all ordering catalogs. Standard rounding methods must be applied. For example, a price of \$2.215 or higher must be rounded up to \$2.22 and a price of \$2.214 or lower must be rounded down to \$2.21.
6. Contractors are required to utilize the Government's item descriptions on all invoices, delivery tickets to the customer, and 810 invoice transaction set.
7. The Contractor will utilize the DLA Troop Support invoice reconciliation process, or other such systems as may become available, to the maximum extent, towards the goal of correcting invoices early and facilitating the payment process.
8. In the event the FFAVORS system or the Contractor's interface is not operational, the Contractor must provide alternate ways for the customer to order (e.g., by fax by phone, pick up orders, etc.)
9. Public Key Infrastructure ("PKI")/ External Certificate Authorities ("ECA") Certificates: The Department of Defense ("DoD") PKI Certificate will be required for all DoD users. A DoD PKI certificate will be required for all contractors. The requirement for PKI certificates is implemented in accordance with DoD security policy promoting secure electronic transactions.
 - (a) Obtaining a PKI certificate:
 - (i) Contractors who do not work on-site at a Department of Defense facility may purchase a DoD PKI certificate from one of three External Certificate Authorities ("ECAs"). The ECAs are vendors who provide digital certificates to DoD's industry partners who are using their own equipment or working in non - Governmental facilities. Certificate prices range from \$99 - \$179 per certificate per year, with volume discounts at some ECAs. A list of ECAs is available at the following web address: https://www.transactionservices.dla.mil/daashome/pki_contacts.asp .
 - (ii) Each contractor must fully comply with the DoD requirement to implement PKI in order for our information systems to remain secure and viable.

CONTINUED ON NEXT PAGE

Form (CONTINUED)**XI. ORDER PLACEMENT and ADJUSTMENTS/CANCELLATION OF ORDERS**

- A. The minimum order requirement for any resultant contract is \$25.00. This requirement shall be based on the aggregate total of orders for a specific delivery date to all customers located within a particular military base or delivery location.
- B. Once submitted through the applicable electronic ordering system (FFAVORS), an order may be cancelled by a customer up to 24 hours before scheduled delivery via written notification to the Contractor and the Contracting Officer. Within less than 24 hours from delivery, an order may be cancelled by mutual agreement between the customer and the Contractor. In the event of an act of God, such as extreme weather, the specific situation regarding a cancelled delivery will be dealt with in an equitable manner by the Contracting Officer, who has the ultimate authority and discretion to resolve said issues.
- C. Adjustments - For procedures discussing adjustments to order, refer to Attachment 4 (FFAVORS manual).

XII. ITEM AVAILABILITY

- A. Contractors must have the ability to provide to the customers a range of milk and dairy items in sufficient quantities to fill all customer requirements and maintain the overall 97% contract fill rate for each customer group (Troops, Schools and ITOs ...). All supplies shall be delivered on a "fill or kill" per line item basis (i.e. If a Contractor cannot fill a line item, the line item dies). Therefore, item substitutions are not authorized.
- B. Contractors shall notify the customer within 24 hours of required delivery date/time of the non-availability of any particular ordered item, whether in whole or in part. The customer may choose to replace the non-available item with another item from the contract catalog by placing a new, separate order for the item in FFAVORS as applicable. Assuming the proper procedure is followed, this circumstance (i.e. replacement of a NIS item with a separate order for another catalog item) will not negatively impact a Contractor's fill rate.

XIII. REPACKAGING & SPLITTING OF CASES

- A. For some items, DLA customers, particularly Schools and ITOs, may require smaller pack sizes than are commonly available in the commercial marketplace. Such items are included in the instant Schedule of Items and may be added at a later date during contract performance. It is incumbent on the Contractor to determine how it will supply these items in accordance with the required pack sizes. In so doing, the Contractor may decide to split cases and repackage product at its own facility.
- B. Splitting cases and repackaging product, as described in the preceding paragraph, do not constitute processing, and, therefore, do not meet the conditions of a private label holder, as defined in Section VII. Accordingly, the Contractor is prohibited from including any costs associated with its own in-house splitting of cases and repackaging product in the Contractor's Delivered Price. Instead, the costs associated with in-house splitting cases and repackaging product must be included in the Contractor's Distribution Price.

XIV. PACKAGING, PACKING, LABELING, AND MARKINGS

- A. All packaging and packing shall be in accordance with good commercial practice. Labeling shall be in accordance with commercial

CONTINUED ON NEXT PAGE

Form (CONTINUED)

labeling complying with the Federal Food, Drug and Cosmetic Act and regulations promulgated there under. Shipping containers shall comply with the National Motor Freight Classification and Uniform Freight Classification Code.

B. All items must be identified with readable dates (open code dates), coded dates.

C. Protection during inclement weather is required. All products that are susceptible and sensitive to temperature must be protected by any means to prevent damage.

XV. DELIVERY INSTRUCTIONS

A. Contractors shall ensure all products are delivered in sanitary trucks that are of a commercially acceptable standard. All delivery trucks must be equipped with a lift gate to expedite the offloading of products. Trucks shall maintain proper temperatures in accordance with standard commercial practices. Deliveries shall be FOB Destination to all delivery points. Delivery will be completed when the Contractor has unloaded the order(s) from the vehicle and placed them on the dock, and customer-receiving personnel has accepted the delivery ticket, in accordance with Section XV below. All items will be delivered to customer locations free of damage and with all packaging and packing intact. The Contractor shall remove all excess pallets used for delivery from the delivery point. See Attachment 3 Delivery Schedule.

B. Customers' delivery schedules (days and times), routes, and stop-off sequences will be coordinated and verified with the customers on a post-award basis by the Contractor immediately following award and on an annual basis as required. On average, each Troop customer receives one to three deliveries per week. However, these schedules may be revised as necessary on a case-by-case basis at the approval of the Contracting Officer.

C. Products for individual customers/dining facilities must be segregated. Many of the military bases have more than one delivery point. All products shall be segregated by drop-off point and loaded into the delivery vehicle in reverse drop sequence. The intent is to provide expeditious off-loading capability and delivery to the customers.

D. The Contractor shall ensure that the personnel loading and delivering the product provide professional, prompt, and efficient service to the customer. Failure to adhere to these standards will be reported to the Customer Representative and the Contracting Officer by the affected customer(s) whereby appropriate corrective action will be coordinated with the Contractor.

XVI. INSPECTION AND ACCEPTANCE

A. Inspection and acceptance of products will be performed at destination. The inspection is normally limited to identity, count and condition; however, this may be expanded if deemed necessary by either the military, Veterinary Inspector, Dining Facility Manager, Food Service Advisor/Officer, or the Contracting Officer. Delivery vehicles may be required to stop at a central location for inspection before proceeding to the assigned delivery point(s). In addition, the delivery vehicles will be inspected for cleanliness and condition. Supplies transported in vehicles that are unsanitary, or which are not equipped to maintain prescribed temperatures, may be rejected without further inspection. Failure to identify latent defects or similar issues at time of acceptance will not absolve the Contractor of its liability or preclude the customer from obtaining appropriate remedy upon the timely discover of said defects or issues after-the-fact. In this circumstance, the customer shall notify the Customer Representative who will coordinate with the Contracting Officer in seeking an appropriate resolution.

B. The authorized Government receiving official at each delivery point is responsible for inspecting and accepting products as they are delivered. The delivery ticket shall not be signed prior to the inspection of each product. All overages/shortages/returns are to be noted on the delivery ticket by the receiving official and truck driver. The authorized Government receiving official's signature and printed name on the delivery ticket is required for acceptance of the product. All signatures MUST be legible along with a

Form (CONTINUED)

printed name and title block. Failure to adhere to this requirement may result in disputes going against that party as its failure can severely limit the Contracting Officer's judgment.

C. Delivery Ticket and related information. No electronic invoice may be submitted for payment until acceptance is verified.

1. Troops: The Contractor shall provide three copies of the delivery ticket with the shipment. The first copy is provided to the receiving official (i.e. the customer) who will use the delivery ticket as the new receipt document. The second copy will be retained by the Contractor (or its agent) for invoicing and the final copy will be forwarded (either as the driver leaves the base or faxed/emailed with 24 hours of delivery) to the Fleet Logistics Center "FLC" or Fleet Industrial Supply Center "FISC" located at the prospective Base.

XVII. AUTHORIZED RETURNS

A. The Contractor shall accept returns under the following conditions:

1. Products shipped in error.
2. Products damaged in shipment.
3. Products with concealed or latent damage.
4. Products that are recalled.
5. Products that do not meet shelf life requirements.
6. Products that do not meet the minimum quality requirements as defined for the items listed in the schedule.
7. Products delivered in unsanitary delivery vehicles.
8. Quantity excess as a result of catalog error by the Contractor.
 9. Products that do not comply with FAR 52.225-1 - Buy American Act.
 10. Any other condition not specified above that is deemed by the customer to be valid reasons for return, confirmed by the Contracting Officer within his/her discretion.

XVIII. REJECTION/RETURN PROCEDURES

A. In the event an item is returned for any of the reasons cited in Section XV., the delivery ticket/invoice shall be annotated as to the item(s) rejected/returned. These items shall then be deducted from the delivery ticket/invoice. The invoice total must be adjusted to reflect the correct dollar value of the shipment. Replacements will be authorized based on the customer's needs. On an as-needed basis determined by customer need/request, same day re-delivery of items that were previously rejected shall be made, so that the customer's food service requirements do not go unfulfilled for that day. Take note that replacement / re-delivery of rejected product is the preferred action for ITOs. The re-delivered items will be delivered under a separate invoice utilizing the same call number, contract line item number, and purchase order number for the discrepant line. These re-deliveries will not constitute an emergency order requirement.

B. In the event a product is rejected after initial delivery is made, the Contractor will pick up the rejected product or make other disposition arrangements deemed acceptable by the customer. Credit due to the ordering activity as a result of the rejected product being returned, will be handled through a receipts adjustment process in FFAVORS. If the Contractor has already been paid for the product, a claim will be issued through DLA TROOP SUPPORT's financial system and the Contractor shall promptly pay the claimed amount. In all cases, one (1) copy of the credit memo is to be given to the customer and one (1) copy of the credit memo is to be sent to the DLA TROOP SUPPORT Contracting Officer.

C. It is a requirement of this solicitation that product shall be inspected upon receipt as promptly as practicable. However, failure to promptly inspect or accept supplies shall not relieve the contractor from responsibility, nor impose liability on any of the customers,

for nonconforming supplies. See FAR clause 52.212-4, paragraph (o) and addendum to clause 52.212-4, paragraph 1.

- C. All invoices submitted by the Contractor must be "clean", i.e. all debits and/or credits must be reflected on the invoice prior to its submission. The Contractor is required to ensure the accuracy of its invoices. The Invoicing Tool in FFAVORS Web provides the Contractor the ability to ensure said accuracy.
- D. **All internal debit/credit transactions must be completed prior to the submission of the invoice.** Invoice lines that do not contain the correct invoice data and/or contain incorrect quantities delivered or prices charged will be rejected. The Contractor will be responsible for correction and re-submission.
- E. The same invoice cannot be submitted with different dollar amounts.
- F. Any manually keyed, or emergency, orders must contain the word "Emergency" in the Purchase Order field when the invoice is submitted for payment. In addition, the CALL number and contract line item number (CLIN) will be entered as "9999" on the invoice. Failure to follow this procedure may result in the rejection of the Contractor's invoice.
- G. **For catch weight items, standard rounding methods must be observed, i.e. less than .5 is rounded down; greater than or equal to .5 is rounded up. All weights must be rounded to whole pounds using standard rounding methods.** Any line submitted for other than whole numbers will be rejected and require correction and re-submission by the Contractor. Note: Currently, no catch weight items apply to this Solicitation. This does not preclude the possibility that catch weight items may be added in the future for certain items.
- H. Unit prices and extended prices must be formatted not more than two (2) places to the right of the decimal point. Standard rounding methods must be applied. For example, a price of \$2.215 or higher must be rounded up to \$2.22 and a price of \$2.214 or lower must be rounded down to \$2.21.
- I. Although invoices must be submitted electronically via an 810 Electronic Invoice; the following address must appear in the "Bill To" or "Payment Will Be Made By" block of the Contractor's invoice.

Invoice lines that do not contain the correct invoice data and/or contain incorrect quantities delivered or prices charged will be rejected. The Contractor will be responsible for correction and re-submission.

K. Invoice Reconciliation. The following tools have been developed to provide an additional method for the Contractor to ensure the accuracy of its own internal accounting process.

1. For FFAVORS: **Invoicing Tool** - In an effort to improve the payment process, Contractors are required to view what the customer has or has not receipted via the USDA FFAVORS website: <http://www.fns.usda.gov/fdd/fresh-fruits-and-vegetables-order-receipt-system-ffavors> The Contractor will have access to "un-reconciled" information, i.e., the invoice does not match the receipt because of the quantity and/or price discrepancy or because the customer has not posted a receipt. Both invoice information and receipt information will be available for review on the website by the Contractor. It is the Contractor's responsibility to ensure accurate invoices.

XX. FILL RATE

A. Order fill rates shall be calculated by the Contractor on an on-time, per order basis and tracked for monthly submission to the Contracting Officer/Account Manager. To ensure accuracy in the Contractor's reported fill rates, the Government will utilize its own internal data for comparison purposes. The fill rate shall be calculated as follows and shall not include mis-picks, damaged cases or rejected items (**No other method of calculating fill rate will be accepted**):

$$\frac{\text{Cases accepted} * 100}{\text{Cases ordered}} = \text{fill rate \%}$$

B. Definitions:

1. Cases Accepted: Product that the customer has received and receipted not including damaged cases, rejected items, or mis-picks.
2. Cases Ordered: Product ordered by a customer through FFAVORS.

At any time, the United States Government, its personnel, resources and interests may be the target of enemy aggression to include espionage, sabotage, or terrorism. The Contractor must ensure that products and/or packaging have not been tampered with or contaminated throughout the growing, storage, and delivery process. The Contractor must immediately inform DLA Troop Support Subsistence of any attempt or suspected attempt by any party or parties, known or unknown, to tamper with or contaminate subsistence supplies.

In the event the vendor is subcontracting milk and dairy products, the vendor shall be responsible for replacing any noncomplying subcontractor with an approved subcontracting source or risk termination of the contract.

5. When the Military Medical Service or other Federal agency acceptable to the Military Medical Service determines the levels of food safety and food defense of the establishment or its products have or may lead to product contamination or adulteration, the Contracting Officer will suspend the work until such conditions are remedied to the satisfaction of the appropriate inspection agency. Suspension of the work shall not extend the life of the contract, nor shall it be considered sufficient cause for the Contractor to request an extension of any delivery date. - A. After an award is made, the Contractor (also referred to as the Awardee) will be required to take steps to implement its new contract prior to initial ordering/delivery. This may include but is not limited to catalog/ordering/invoice testing (STORES), sourcing new items, finalize delivery schedule per customer location, base access, etc. The timeline for the "start-up" period, as described above, is not included in the first 24-month Tier 1 period.

VI. ELECTRONIC ORDERING CATALOGS

CONTINUED ON NEXT PAGE

Form (CONTINUED)

An offeror that receives an award will be required to maintain electronic catalogs (STORES) that list all items available to the customers covered under this solicitation. Each item in the catalog shall contain the corresponding national or local stock number (as appropriate), Government item description, packaging characteristics, unit of issue, and unit price.

A. Catalog Maintenance**1. New Items**

- (a) If a customer seeks to order a Bread and/or Bakery item that is not a part of the catalog after the customers' ordering period commences (i.e. post "start-up" period), the Contractor will be afforded a maximum of 20 days to source the item, obtain a stock number from the Agency (in the event that one does not already exist), and have the item added to the ordering catalog. The final step prior to the item being "live" on the catalog is for the Contracting Officer to determine the item's price "fair and reasonable." Once this is complete, the item should remain a constant within the contractor's inventory, subject to availability issues. When requesting all item approvals (including new additions and/or changes to an existing item, such as pack size, etc.) with the Contracting Officer, the Contractor shall use the "Request for New Item" Form (Attachment 2). This form is mandatory and without it, no new items or changes to existing items will be processed by the Contracting Officer.

2. Catalog Pricing

- (a) Schedule of Items Pricing: Items priced in the Schedule of Items (see Attachment 1) will be included in the ordering catalog following award. - (b) Contractor-Requested Catalog Price Changes: Upon award, all items included in the Solicitation's Schedule of Items that ultimately are included in the ordering catalogs have been deemed "fair and reasonable" from a pricing standpoint by the Contracting Officer.
- (c) Contractor-Requested Catalog Additions: Before an item is added to the catalog, the Contractor is required to submit to the Contracting Officer the "Request for New Item" Form as previously addressed (see Attachment 2). Said request shall include the stock number, Government item description including the quality grade of the item (if applicable), proposed unit price with a corresponding supplier invoice or quote (quotes permitted in very limited circumstances as approved by the Contracting Officer; e.g. Contractor never purchased item before. The Contracting Officer will review the catalog addition request and upon determining the price fair and reasonable will contact the Contractor to indicate acceptance. The item once accepted will be added by the Contracting Officer to the catalog. Should the proposed price fail to be determined "fair and reasonable," the Contracting Officer will conduct negotiations with the Contractor. If, after negotiations, the proposed price still cannot be determined "fair and reasonable," the item will not be added to the catalog.
- (d) Pricing Requirements: The Contractor's catalog prices, as awarded, constitute the initial catalog prices. These prices are in effect during the first two ordering weeks (from Sunday at 12:00 AM (Eastern Time (ET)), standard or daylight as applicable) through 11:59 PM on the Saturday of the second week following (i.e. the 14th day).

2. The decision as to whether a potentially new customer is within the contract region or zone and, thus, will be added to the contract without further competition and at the existing contract prices, shall be the sole decision of the DLA Troop Support Contracting Officer.
3. Pursuant to the above, the Contracting Officer will instruct the contractor to include the customer(s) at the effective contract prices applicable to that distribution zone/region.

B. Under no circumstance may the resulting contract's maximum dollar value be exceeded with the addition of any customer(s) and its respective bread and bakery requirements.

IX. CUSTOMER SERVICE

- A. The contractor(s) shall treat each of the customers covered under the contract as one of its best customers. Therefore, any treatment and/or customer service policy given to other essential accounts shall also be given to the customers covered under the resulted contract.

At these meetings, the customers typically review their internal business practices and may request that the Contractor show new products and/or provide nutritional information.

 - (a) Obtaining a PKI certificate:

Form (CONTINUED)**XI. ORDER PLACEMENT and ADJUSTMENTS/CANCELLATION OF ORDERS**

- A. The minimum order requirement for any resultant contract is \$25.00. This requirement shall be based on the aggregate total of orders for a specific delivery date to all customers located within a particular military base or delivery location.
- A. Once submitted through the applicable electronic ordering system (STORES), an order may be cancelled by a customer up to 24 hours before scheduled delivery via written notification to the Contractor and the Contracting Officer. Within less than 24 hours from delivery, an order may be cancelled by mutual agreement between the customer and the Contractor. In the event of an act of God, such as extreme weather, the specific situation regarding a cancelled delivery will be dealt with in an equitable manner by the Contracting Officer, who has the ultimate authority and discretion to resolve said issues.
- B. Adjustments - For procedures discussing adjustments to order, refer to Attachment 4 (STORES manual).

XII. ITEM AVAILABILITY

- A. Contractors must have the ability to provide to the customers a range of bread and bakery items in sufficient quantities to fill all customer requirements and maintain the overall 98% contract fill rate. All supplies shall be delivered on a "fill or kill" per line item basis (i.e. If a Contractor cannot fill a line item, the line item dies). Therefore, item substitutions are not authorized.
- B. Contractors shall notify the customer within 24 hours of required delivery date/time of the non-availability of any particular ordered item, whether in whole or in part. The customer may choose to replace the non-available item with another item from the contract catalog by placing a new, separate order for the item in STORES as applicable. Assuming the proper procedure is followed, this circumstance (i.e. replacement of a NIS item with a separate order for another catalog item) will not negatively impact a Contractor's fill rate.

XIII. PACKAGING, PACKING, LABELING, AND MARKINGS

- A. All packaging and packing shall be in accordance with good commercial practice. Labeling shall be in accordance with commercial labeling complying with the Federal Food, Drug and Cosmetic Act and regulations promulgated there under. Shipping containers shall comply with the National Motor Freight Classification and Uniform Freight Classification Code.
- B. All items must be identified with readable dates (open code dates), coded dates, or with color-coded twist ties. Contractors that do not use open dating will provide a product code number key/twist tie color listing. The product code number key/color coded twist tie listing shall explain the actual date of production or processing. After award of contracts under this solicitation, the successful awardee shall provide a copy of key/color codes listing to each destination's receiving officer and each destination's inspection agency with prior to the first delivery.
- C. Protection during inclement weather is required. All products that are susceptible and sensitive to temperature must be protected by any means to prevent damage.

XIV. DELIVERY INSTRUCTIONS

- A. Contractors shall ensure all products are delivered in sanitary trucks that are of a commercially acceptable standard. All delivery trucks must be equipped with a lift gate to expedite the offloading of products. Trucks shall maintain proper temperatures in accordance with standard commercial practices. Deliveries shall be FOB Destination to all delivery points. Delivery will be completed when the Contractor has unloaded the order(s) from the vehicle and placed them on the dock, and customer-receiving personnel has accepted the delivery ticket, in accordance with Section XV below. All items will be delivered to customer locations

Form (CONTINUED)

free of damage and with all packaging and packing intact. The Contractor shall remove all excess pallets used for delivery from the delivery point. See Attachment 3 Delivery Schedule.

- B. Customers' delivery schedules (days and times), routes, and stop-off sequences will be coordinated and verified with the customers on a post-award basis by the Contractor immediately following award and on an annual basis as required. On average, each Troop customer receives one to three deliveries per week. However, these schedules may be revised as necessary on a case-by-case basis at the approval of the Contracting Officer.
- C. Products for individual customers/dining facilities must be segregated. Many of the military bases have more than one delivery point. All products shall be segregated by drop-off point and loaded into the delivery vehicle in reverse drop sequence. The intent is to provide expeditious off-loading capability and delivery to the customers.
- D. The Contractor shall ensure that the personnel loading and delivering the product provide professional, prompt, and efficient service to the customer. Failure to adhere to these standards will be reported to the Customer Representative and the Contracting Officer by the affected customer(s) whereby appropriate corrective action will be coordinated with the Contractor.

XV. INSPECTION AND ACCEPTANCE

- A. Inspection and acceptance of products will be performed at destination. The inspection is normally limited to identity, count and condition; however, this may be expanded if deemed necessary by either the military, Veterinary Inspector, Dining Facility Manager, Food Service Advisor/Officer, or the Contracting Officer. Delivery vehicles may be required to stop at a central location for inspection before proceeding to the assigned delivery point(s). In addition, the delivery vehicles will be inspected for cleanliness and condition. Supplies transported in vehicles that are unsanitary, or which are not equipped to maintain prescribed temperatures, may be rejected without further inspection. Failure to identify latent defects or similar issues at time of acceptance will not absolve the Contractor of its liability or preclude the customer from obtaining appropriate remedy upon the timely discover of said defects or issues after-the-fact. In this circumstance, the customer shall notify the Customer Representative who will coordinate with the Contracting Officer in seeking an appropriate resolution.
- B. The authorized Government receiving official at each delivery point is responsible for inspecting and accepting products as they are delivered. The delivery ticket shall not be signed prior to the inspection of each product. All overages/shortages/returns are to be noted on the delivery ticket by the receiving official and truck driver. The authorized Government receiving official's signature and printed name on the delivery ticket is required for acceptance of the product. All signatures MUST be legible along with a printed name and title block. Failure to adhere to this requirement may result in disputes going against that party as its failure can severely limit the Contracting Officer's judgment.
- C. Delivery Ticket and related information. No electronic invoice may be submitted for payment until acceptance is verified.
 - 1. Troops: The Contractor shall provide three copies of the delivery ticket with the shipment. The first copy is provided to the receiving official (i.e. the customer) who will use the delivery ticket as the new receipt document. The second copy will be retained by the Contractor (or its agent) for invoicing and the final copy will be forwarded (either as the driver leaves the base or faxed/emailed with 24 hours of delivery) to the Fleet Logistics Center "FLC" or Fleet Industrial Supply Center "FISC" located at the prospective Base.

XVI. AUTHORIZED RETURNS

- A. The Contractor shall accept returns under the following conditions:

Form (CONTINUED)

3. Products with concealed or latent damage.
4. Products that are recalled.
5. Products that do not meet shelf life requirements.
6. Products that do not meet the minimum quality requirements as defined for the items listed in the schedule.

10. Any other condition not specified above that is deemed by the customer to be valid reasons for return, confirmed by the Contracting Officer within his/her discretion.

XVII. REJECTION/RETURN PROCEDURES

- A. In the event an item is returned for any of the reasons cited in Section XVI., the delivery ticket/invoice shall be annotated as to the item(s) rejected/returned. These items shall then be deducted from the delivery ticket/invoice. The invoice total must be adjusted to reflect the correct dollar value of the shipment. Replacements will be authorized based on the customer's needs. On an as-needed basis determined by customer need, same day re-delivery of items that were previously rejected shall be made, so that the customer's food service requirements do not go unfulfilled for that day. The re-delivered items will be delivered under a separate invoice utilizing the same call number, contract line item number, and purchase order number for the discrepant line. These re-deliveries will not constitute an emergency order requirement.
- B. In the event a product is rejected after initial delivery is made, the Contractor will pick up the rejected product or make other disposition arrangements deemed acceptable by the customer. Credit due to the ordering activity as a result of the rejected product being returned, will be handled through a receipts adjustment process in STORES. If the Contractor has already been paid for the product, a claim will be issued through DLA TROOP SUPPORT's financial system and the Contractor shall promptly pay the claimed amount. In all cases, one (1) copy of the credit memo is to be given to the customer and one (1) copy of the credit memo is to be sent to the DLA TROOP SUPPORT Contracting Officer.
- C. It is a requirement of this solicitation that product shall be inspected upon receipt as promptly as practicable. However, failure to promptly inspect or accept supplies shall not relieve the contractor from responsibility, nor impose liability on any of the customers, for nonconforming supplies. See FAR clause 52.212-4, paragraph (o) and addendum to clause 52.212-4, paragraph 1.

XVIII. INVOICING

- A. Each delivery will be accompanied by the Contractor's delivery ticket/invoice. The customer shall sign all copies of the invoice/delivery ticket. **Any changes must be made on the face of the delivery ticket/invoice; attachments are not acceptable.** See Section XV, para. C.
- A. No paper invoices shall be submitted to DFAS for payment. For all orders placed via STORES, invoicing for payment is to be filed electronically using EDI transaction set 810 (see <https://www.troopsupport.dla.mil>, Select supply chains: Select Subsistence, Select Information: Select Stores & EDI Requests for EDI guidelines).
- C. All invoices submitted by the Contractor must be "clean", i.e. all debits and/or credits must be reflected on the invoice prior to its submission. The Contractor is required to ensure the accuracy of its invoices. The Reconciliation Tool in STORES provides the

Contractor the ability to ensure said accuracy.

The Contractor will be responsible for correction and re-submission.
- E. The same invoice cannot be submitted with different dollar amounts.
- F. Any manually keyed, or emergency, orders must contain the word "Emergency" in the Purchase Order field when the invoice is submitted for payment. In addition, the CALL number and contract line item number (CLIN) will be entered as "9999" on the invoice. Failure to follow this procedure may result in the rejection of the Contractor's invoice.
- G. **For catch weight items, standard rounding methods must be observed, i.e. less than .5 is rounded down; greater than or equal to .5 is rounded up. All weights must be rounded to whole pounds using standard rounding methods.** Any line submitted for other than whole numbers will be rejected and require correction and re-submission by the Contractor. Note: Currently, no catch weight items apply to this Solicitation. This does not preclude the possibility that catch weight items may be added in the future for certain items.
- H Unit prices and extended prices must be formatted not more than two (2) places to the right of the decimal point. Standard rounding methods must be applied. For example, a price of \$2.215 or higher must be rounded up to \$2.22 and a price of \$2.214 or lower must be rounded down to \$2.21.
- I. Although invoices must be submitted electronically via an 810 Electronic Invoice; the following address must appear in the "Bill To" or "Payment Will Be Made By" block of the Contractor's invoice.

K. Invoice Reconciliation. The following tools have been developed to provide an additional method for the Contractor to ensure the accuracy of its own internal accounting process.

1. For STORES: **Vendor Reconciliation Tool** - In an effort to improve the payment process, Contractors are required to view what the customer has or has not receipted via the DLA Troop Support STORES website: https://www.stores.dla.mil/stores_web/Admin_Logon.aspx. The Contractor will have access to "un-reconciled" information, i.e., the invoice does not match the receipt because of the quantity and/or price discrepancy or because the customer has not posted a receipt. Both invoice information and receipt information will be available for review on the website by the Contractor. While the Contractor will not have the capability to update customer receipt information, update capability will be available for un-reconciled invoice information for 120 days. It is the Contractor's responsibility to ensure accurate invoices.

XIX. FILL RATE

A. Order fill rates shall be calculated by the Contractor on an on-time, per order basis and tracked for monthly submission to the Contracting Officer/Account Manager. To ensure accuracy in the Contractor's reported fill rates, the Government will utilize its own internal data for comparison purposes. The fill rate shall be calculated as follows and shall not include mis-picks, damaged cases or rejected items (**No other method of calculating fill rate will be accepted**):

$$\frac{\text{Cases accepted} * 100}{\text{Cases ordered}} = \text{fill rate \%}$$

B. Definitions:

1. Cases Accepted: Product that the customer has received and receipted not including damaged cases, rejected items, or mis-picks.
2. Cases Ordered: Product ordered by a customer through STORES or FFAVORS.

C. Contractor is required to maintain at a minimum a **98.0%** fill-rate.

D. The Contractor will submit a monthly report, by customer, to the DLA Troop Support Contracting Officer with the following information:

1. Fill Rate
2. List of all items that were Not in Stock, Returned, Damaged, and/or Mis-picked.

XX. HOLIDAYS

As specified by the customer, all emergency order(s) for supplies must be same day or next day. Expeditious fulfillment of the emergency requirement is imperative. Unless otherwise noted by the Contractor, the Contractor's Tailor Vendor Logistics Specialist ("TVLS") or Customer Service Representative ("CSR") will be the point of contact for emergency orders, and will vet the appropriateness of such a request.

XXII. FOOD DEFENSE

A. DLA Troop Support Subsistence Directorate provides world-wide subsistence logistics support during peace time as well as during regional conflicts, contingency operations, national emergencies, and natural disasters. At any time, the United States Government, its personnel, resources and interests may be the target of enemy aggression to include espionage, sabotage, or terrorism. This increased risk requires DLA Troop Support to take steps to ensure measures are taken to prevent the deliberate tampering and contamination of subsistence items. The Contractor must ensure that products and/or packaging have not been tampered with or contaminated throughout the growing, storage, and delivery process. The Contractor must immediately inform DLA Troop Support Subsistence of any attempt or suspected attempt by any party or parties, known or unknown, to tamper with or contaminate subsistence supplies.

B. As the holder of a contract with the Department of Defense, the Contractor should be aware of the vital role it plays in supporting the Agency's customers. It is incumbent upon the Contractor to take all necessary actions to secure product delivered to all military customers, as well as any applicable commercial destinations.

XXIII. PRODUCT QUALITY

B. The Contractor is responsible to contract for independent third party warehouse audits for each proposed place of performance as part of any resultant contract. At a minimum, the third party audits are to take place annually and submitted to the contracting officer within 30 calendar days of completion of audit. The contractor must achieve a passing score without major deficiencies in order to continue performance under any resultant contract. The contractor is to submit a copy of each third party warehouse audit (i.e., American Institute of Baking (AIB) certification, other state or federal sanitation inspections) to the contracting officer prior to contract award. Failure to submit timely and complete audit reports may result in termination of the contract (Third party warehouse audits exclude Government agency audits).

XXV. WAREHOUSING AND SANITATION PROGRAM/STORED PRODUCT PEST MANAGEMENT

A. The Contractor shall develop and maintain a sanitation program and a stored product pest management program for food and other co-located non-food items that comply with industry standard programs such as the Code of Federal Regulations, Title 21, part 110, Food Manufacturing Practices, the Federal Insecticide, Fungicide and Rodenticide Act, as well as all pertinent state and local laws and regulations. Any findings by the Contractor or its agent documenting a critical sanitation deficiency shall be reported immediately to the Contracting Officer with an attached report of corrective action.

B. The Contractor shall have in place the proper temperature controls in their warehouse to ensure product is stored at commercially acceptable temperature settings.

XXVI. PRODUCT SANITARILY APPROVED SOURCE REQUIREMENTS AND SANITARY CONDITIONS

A. Food Establishments.

1. All establishments and distributors furnishing subsistence items under DLA Troop Support contracts are subject to sanitation approval and surveillance as deemed appropriate by the Military Medical Service or by other Federal agencies recognized by the Military Medical Service. The Government does not intend to make any award for, nor accept, any subsistence products manufactured, processed, or stored in a facility which fails to maintain acceptable levels of food safety and food defense, is operating under such unsanitary conditions as may lead to product contamination or adulteration constituting a health hazard, or which has not been listed in an appropriate Government directory as a sanitarily approved establishment when required. Accordingly, the supplier agrees that, except as indicated in paragraphs 2 and 3 below, products furnished as a result of this contract will originate only in establishments listed in the U.S. Army Public Health Command (USAPHC) Circular 40-1, Worldwide Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement, (Worldwide Directory) (available at <http://phc.amedd.army.mil/topics/foodwater/ca/Pages/DoDAApprovedFoodSources.aspx>). Compliance with the current edition of DoD Military Standard 3006A, Sanitation Requirements for Food Establishments, is mandatory for listing of establishments in the Worldwide Directory. Suppliers

also agree to inform the Contracting Officer immediately upon notification that a facility is no longer sanitarly approved and/or removed from the Worldwide Directory and/or other Federal agency's listing, as indicated in paragraph 2 below. Suppliers also agree to inform the Contracting Officer when sanitary approval is regained and listing is reinstated.

2. Establishments exempt from Worldwide Directory listing. Refer to AR 40-657/NAVSUPINST 4355.4H/MCO P1010.31H, Veterinary/Medical Food Safety, Quality Assurance, and Laboratory Service, for a list of establishment types that may be exempt from Worldwide Directory listing. (AR 40-657 is available from National Technical Information Service, 5301 Shawnee Road, Alexandria, VA 22312; 1-888-584-8332; or download from web site: http://www.apd.army.mil/pdf/AR40_657.pdf) For the most current listing of exempt plants/products, see the Worldwide Directory (available at: <http://phc.amedd.army.mil/topics/foodwater/ca/Pages/DoDAApprovedFoodSources.aspx>).
3. Subsistence items other than those exempt from listing in the Worldwide Directory, bearing labels reading "Distributed By", "Manufactured For", etc., are not acceptable unless the source of manufacturing/processing is indicated on the label or on accompanying shipment documentation.
4. When the Military Medical Service or other Federal agency acceptable to the Military Medical Service determines the levels of food safety and food defense of the establishment or its products have or may lead to product contamination or adulteration, the Contracting Officer will suspend the work until such conditions are remedied to the satisfaction of the appropriate inspection agency. Suspension of the work shall not extend the life of the contract, nor shall it be considered sufficient cause for the Contractor to request an extension of any delivery date. In the event the Contractor fails to correct such objectionable conditions within the time specified by the Contracting Officer, the Government shall have the right to terminate the contract in accordance with the "Default" clause of the contract.

C. Delivery conveyances: The supplies delivered under this contract shall be transported in delivery conveyances maintained to prevent tampering with and/or adulteration or contamination of the supplies, and if applicable, equipped to maintain a prescribed temperature. The delivery conveyances shall be subject to inspection by the government at all reasonable times and places. When the sanitary conditions of the delivery conveyance have led, or may lead to product contamination, adulteration, constitute a health hazard, or the delivery conveyance is not equipped to maintain prescribed temperatures, or the transport results in product 'unfit for intended purpose', supplies tendered for acceptance may be rejected without further inspection.

XXVII. CONTRACTOR QUALITY AUDITS

A. The Government may conduct formalized audits to verify the vendor's adherence to the contract requirements and the quality of product being supplied under any resultant contract.

A. The offeror warrants that upon receiving the award, it will not actively promote, engage, or market any of the customers on this acquisition away from the resultant DLA Troop Support contract and onto a fresh bread and bakery subsistence contract or account of any other Government agency or commercial entity. This prohibition is in effect during the life of the resultant contract, and restricts competition in the specific area or zone that is the subject of this acquisition. (h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. Addendum to 52.212-1

The following paragraphs of 52.212-1 are amended as indicated below:

1. Paragraph (b), Submission of Offers.

a. See pages 3-4, for any specific instructions on how to submit your offer if mailed or hand carried.

b. E-mail is an acceptable form of transmission for submission of initial proposals or revisions to proposals submitted in response to this solicitation. E-mailed submissions should be sent to Jaisen E. Tobin, jaisen.e.tobin@dla.mil , and Matthew P. Sacca, matthew.sacca@dla.mil . Limit the file size of any individual email attachment to 5MB, and the total size of any email to 10MB. Multiple email submissions may be required. If submitting multiple emails as a proposal submission, label each email with a number (e.g., 1 of 8), accordingly. After transmitting an email submission, offerors should confirm receipt of all emails with the intended recipients.

c. Facsimile is not an acceptable form of transmission for submission of initial proposals or revisions to initial proposals submitted in response to this solicitation. As directed by the Contracting Officer, facsimile may be used during discussions/negotiations, if discussions/negotiations are held, for proposal revisions, including Final Proposal Revisions.

2. Paragraph (c), Period for Acceptance of Offers, is revised as follows:

Period of acceptance is 180 days.

3. Paragraph (h), Multiple Awards, is revised to add the following:

The Government intends to make one (1) award, for each Group based on the technically acceptable offer with the lowest aggregate evaluated price. In the event that one offeror is the awardee for more than one Group, the award for more than one Group may be issued under a single contract. Offerors shall submit their best proposal for each Group independently due to the Government's right to make separate awards for Group 1. Offerors are required to offer on all items in the Schedule of Items for each Group; failure to do so may result in exclusion from award consideration.

PROPOSAL SUBMISSION INFORMATION**A. Pricing**

1. An offeror's price proposal shall consist of prices submitted for each of the items found in the Schedule of Items (Attachment 1). The Schedule of Items is a grouping of items expected to be ordered by the customers along with the estimated quantities. The items found in the Schedule of Items represent 100% of the estimated dollar value for that particular Group. Offerors are required to submit their Contract Unit Price for each item.

2. Formatting of Prices: Prices shall be formatted to no more than two places to the right of the decimal point, for example, \$2.50. In the event that the offeror submits a price that exceeds this limitation, the price will be rounded up or down using standard rounding methods. For example, a price of \$2.215 or higher will be rounded up to \$2.22 and a price of \$2.214 or lower will be rounded down to \$2.21.

CONTINUED ON NEXT PAGE

Part 12 Clauses (CONTINUED)**B. Schedule of Items: Pricing**

1. The Schedule of Items in Attachment 1 represents 100% of the estimated dollar value of this procurement. Offerors must submit pricing for all items in the Schedule of Items. The unit prices of all items found in the Schedule of Items will be comparatively assessed to identify any unusually high or low priced items. This assessment includes, but is not limited to, comparison amongst offerors' prices as well as comparison against market report prices and internal Government databases that are applicable.

2. Estimated quantities for each Tier period (2 separate Tiers, consisting of one (24-month) and one (12-month) tier periods) are indicated next to each item and are for information and evaluation purposes only. The Offeror's proposed Contract Unit Prices found in the Schedule of Items will be multiplied by the estimated quantities by Tier in order to calculate the Offeror's overall aggregate total price, which will be compared against the other offerors in order to identify the lowest overall price proposal.

C. Contract Unit Prices

1. Prices must not extend more than two places to the right of the decimal point. Standard rounding methods must be observed. For example, a delivered price of \$2.215 or higher must be rounded up to \$2.22 and a price of \$2.214 or lower must be rounded down to \$2.21.

2. If an offeror carries a variety of brands for the same item, the price submitted shall be for the lowest priced, technically acceptable, item that meets the Government's minimum requirements.

3. All items procured under the resultant contract are subject to all contractual clauses and regulations, including, but not limited to, DFARS 252.225-7012, Preference for Certain Domestic Commodities, and the requirement that items be procured from a sanitarily approved source. All invoices and quotes must contain sufficient information to clearly reflect compliance with solicitation/contract terms and conditions.

4. Offerors are required to submit a spreadsheet containing the following information (Attachment 1):

(a) Stock Number.

(b) Item Description: Government Item Description.

(c) Estimated Quantity: Quantity provided.

(d) Unit of Issue: Self-explanatory. Note: Unit of Issue must be the same as that identified in the Government's Schedule of Items.

(e) Total: Estimated Quantity multiplied by Contract Unit Price.

(f) Gov't Average Case Weight: Provided.

D. Instructions for Proposal Spreadsheet - Attachment 1

Part 12 Clauses (CONTINUED)

1. Please fill in the white boxes only for each Group. For Group 1 Puerto Rico: fill in Columns B, D, G, and J. The spreadsheet will automatically calculate your aggregate total. All prices must be rounded to two places to the right of the decimal point using standard rounding methods (see paragraph A.2. above.)

2. When preparing the spreadsheet, totals must appear in row 19 Columns H, K, & L, and "Total Aggregate" in row 21 column L for Group 1.

E. Proposal Submission: Each offeror must submit:

- (i) a signed copy of the solicitation (and amendments, if applicable),
- (ii) all solicitation attachments (including Attachment 1 with proposed prices),
- (iii) signed financial arrangement information,

When submitting a proposal to the Business Opportunities Office an offeror must provide a hard copy as well an electronic version (CD/DVD) of all items listed above. No hard copy is required when submitting a proposal through DIBBS.

No hard copy is required when submitting a proposal through email.

For email submissions, offerors are reminded to limit the file size of any required documents being emailed, i.e., signed copy of the solicitation, amendments, completed Attachment 1, financial arrangement letter, completed list of Places of Performance, third party warehouse audit results, invoices, etc. No individual document submitted should be greater than 5MB and no entire email should be larger than 10 MB. Multiple emails are likely necessary. When submitting multiple emails as a proposal submission, label each email with a number (e.g., 1 of 8), accordingly. In addition, label each individual document according to submission requirement with which it corresponds.

52.212-2 Evaluation --Commercial Products and Commercial Services.

As prescribed in 12.301(c), the Contracting Officer may insert a provision substantially as follows:

Evaluation --Commercial Products and Commercial Services (Nov 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

_____ [Contracting Officer shall insert the significant evaluation factors, such as (i) technical capability of the item offered to meet the Government requirement; (ii) price; (iii) past performance (see FAR 15.304); and include them in the relative order of importance of the evaluation factors, such as in descending order of importance.]

CONTINUED ON NEXT PAGE

Part 12 Clauses (CONTINUED)

Technical and past performance, when combined, are _____ [Contracting Officer state, in accordance with FAR 15.304, the relative importance of all other evaluation factors, when combined, when compared to price.]

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

ADDENDUM to FAR 52.212-2, Evaluation of Commercial Items.

(a) The Government will award contract(s) resulting from this solicitation to the responsible offeror(s) whose offer(s) conforming to the solicitation will be most advantageous to the Government, price and other factors considered. Lowest Price Technically Acceptable (LPTA) source selection procedures will be used as the source selection method in this procurement. The following factors shall be used to evaluate offers:

1. Technical Acceptability - A technically acceptable offer is an offer that takes no exceptions to the terms and conditions in the solicitation and complies fully with all submission requirements. A proposal that takes exception to solicitation terms and conditions or that fails to comply with all submission requirements may be deemed technically unacceptable and, thus, may be found ineligible, and removed from further consideration, for the awards. By submitting a proposal with no exceptions, an offeror is confirming it possesses the necessary facilities, equipment, technical skills and capacity to successfully provide all items required by this solicitation.
2. Pricing - Pricing is required for all items found in the Schedule of Items (for each Group, if applicable) and for all tiers. Failure to offer pricing for all items and for all tiers may result in a proposal being removed from consideration for award as technically unacceptable. The Government will perform an aggregate price analysis for all items found in the Schedule of Items (for each Group, if applicable). To determine an offeror's evaluated aggregate price, the estimated quantities in the Schedule of Items will be multiplied by the unit prices to determine the lowest aggregate price, (for each Group, if applicable) to the Government. Offered prices, on an individual line item basis, will be evaluated to determine fair and reasonableness.

The award(s) will be made on the basis of the lowest Evaluated Aggregate Price (for each Group, if applicable) of proposals meeting or exceeding the acceptability standards for non-price factors. The Government reserves the right to remove item(s) from the Schedule of Items or do a common item comparison if offerors do not submit pricing for all items. Prior to award, the offered prices of the presumptive awardee(s) will be evaluated on an individual line-item basis to determine whether each price is fair and reasonable using analytical techniques deemed appropriate by the Contracting Officer in her/his complete discretion.

(b) Options are not included in this solicitation.

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

Part 12 Clauses (CONTINUED)**52.212-4 Contract Terms and Conditions --Commercial Products and Commercial Services.**

(u) Unauthorized Obligations.

(1) Except as stated in paragraph (u)(2) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(v) Incorporation by reference. The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

Part 12 Clauses (CONTINUED)**2. Paragraph (c), Changes, is deleted in its entirety and replaced with the following:**

(c) Changes.

- (1) In addition to bilateral changes, the Contracting Officer, at his/her discretion, may unilaterally invoke any of the contingency options set forth in this contract.
- (2) The Contracting Officer may at any time, by unilateral written order, make changes within the general scope of this contract in any one or more of the following:
 - (i) Method of shipment or packing;
 - (ii) Place, manner, or time of delivery.
- (3) If such change causes an increase or decrease in the cost of, or time required for, performance for any part of the work under this contract, the Contracting Officer shall make equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.
- (4) The Contractor must assert its right to an adjustment under this clause within thirty (30) days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.
- (5) Failure to agree to any adjustment shall be a dispute under the Disputes Clause. However, nothing in this clause shall excuse the Contractor from proceeding with the contract.

3. Paragraph (m), Termination for Cause.

Delete paragraph (m) in its entirety and substitute the following:

- (m) *Termination for Cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If this contract is terminated in whole or in part for cause, and the supplies or services covered by the contract so terminated are repurchased by the Government, the Government will incur administrative costs in such repurchases. The Contractor and the Government expressly agree that, in addition to any excess costs of repurchase, or any other damages resulting from such default, the Contractor shall pay, and the Government shall accept, the sum of \$1350.00 as payment in full for the administrative costs of such repurchase. This assessment of damages for administrative costs shall apply for any termination for cause following which the Government repurchases the terminated supplies or services together with any incidental or consequential damages incurred because of the termination. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

As prescribed in 204.7304 (c), use the following clause:

SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (JAN 2023)

(a) Definitions. As used in this clause—

“Adequate security” means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

“Compromise” means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

“Contractor attributional/proprietary information” means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

“Controlled technical information” means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

“Covered contractor information system” means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

“Covered defense information” means unclassified controlled technical information or other information, as described in the Controlled Unclassified Information (CUI) Registry at <http://www.archives.gov/cui/registry/category-list.html>, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is—

(1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or

(2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

“Cyber incident” means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

“Forensic analysis” means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

“Information system” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

“Malicious software” means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

Part 12 Clauses (CONTINUED)

“Media” means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

“Operationally critical support” means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

“Rapidly report” means within 72 hours of discovery of any cyber incident.

“Technical information” means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7013 , Rights in Technical Data—Other Than Commercial Products and Commercial Services, regardless of whether or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) Adequate security. The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections:

(1) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government, the following security requirements apply:

(i) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010 , Cloud Computing Services, of this contract.

(ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract.

(2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply:

(i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, “Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations” (available via the internet at <http://dx.doi.org/10.6028/NIST.SP.800-171>) in effect at the time the solicitation is issued or as authorized by the Contracting Officer.

(ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award.

(B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

(C) If the DoD CIO has previously adjudicated the contractor’s requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (<https://www.fedramp.gov/resources/documents/>) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) Cyber incident reporting requirement.

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor’s ability to perform the requirements of the contract that are designated as operationally critical

Part 12 Clauses (CONTINUED)

support and identified in the contract, the Contractor shall—

- (i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and
- (ii) Rapidly report cyber incidents to DoD at <https://dibnet.dod.mil>.
- (2) Cyber incident report. The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <https://dibnet.dod.mil>.
- (3) Medium assurance certificate requirement. In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <https://public.cyber.mil/eca/>.
- (d) Malicious software. When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DoD Cyber Crime Center (DC3) in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.
- (e) Media preservation and protection. When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.
- (f) Access to additional information or equipment necessary for forensic analysis. Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.
- (g) Cyber incident damage assessment activities. If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.
- (h) DoD safeguarding and use of contractor attributional/proprietary information. The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.
- (i) Use and release of contractor attributional/proprietary information not created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD—
- (1) To entities with missions that may be affected by such information;
 - (2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;
 - (3) To Government entities that conduct counterintelligence or law enforcement investigations;
 - (4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or
 - (5) To a support services contractor ("recipient") that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.
- (j) Use and release of contractor attributional/proprietary information created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government's use and release of such information.
- (k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

Part 12 Clauses (CONTINUED)

(l) Other safeguarding or reporting requirements. The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor's responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) Subcontracts. The Contractor shall—

(1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial products or commercial services, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and

(2) Require subcontractors to—

(i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

(ii) Provide the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable, when reporting a cyber incident to DoD as required in paragraph (c) of this clause.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals -

(1) Are, are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) Have, have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*. (A) The taxpayer has received a statutory notice of deficiency, under [I.R.C. § 6212](#), which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under [I.R.C. § 6320](#) entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to [I.R.C. § 6159](#). The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under [11 U.S.C. 362](#) (the Bankruptcy Code).
