The Government must exercise its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(b) *Assignment.*

The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C. 3727). 1. Paragraph (a), Inspection/Acceptance, is revised to add the following:

The authorized receiving official for each customer is responsible for signing for and accepting products when they are delivered. The final disposition decision rests with the food service officer and/or the authorized receiving official.

2. Paragraph (c), Changes, is deleted in its entirety and replaced with the following:

(c) Changes.

4. Paragraph (t), Central Contractor Registration(CCR).

Add the following:

(5) Definitions.

“Central Contractor Registration (CCR) Database” means the primary Government repository for contractor information required for the conduct of business with the Government.

“Commercial and Government Entity (CAGE) Code” means—

(a) A code assigned by the Defense Logistics Information Service (DLIS) to identify a commercial or Government entity; or

(b) A code assigned by a member of the North Atlantic Treaty Organization that DLIS records and maintains in the CAGE master file. This type of code is known as an “NCAGE code”.

“Data Universal Number System (DUNS) Number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System+4 (DUNS+4) Number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see Subpart 32.11 of the Federal Acquisition Regulation) for the same parent concern.

“Registered in the CCR Database” means that—

(a) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database;

(b) The Contractor’s CAGE code is in the CCR database; and

(c) The Government has validated all mandatory data fields and has marked the records “Active”.

5. Paragraph (u), Subistence EPA – Actual Cost of Materials, is added as follows:

DSCP 52.216-9P24 ECONOMIC PRICE ADJUSTMENT (EPA) – ACTUAL MATERIAL COSTS (MAY 2006)

(a) WARRANTIES. The Contractor warrants that---

(1) distribution prices covered by this contract do not include allowances for any portion of the contingency covered by this clause; and

(2) all prices invoiced under this contract shall be computed in accordance with the provisions of this clause.

(b) DEFINITIONS. As used throughout this clause, the term:

(1) “*Contract unit price*” means the total fixed price per unit charged to DSCP for a product delivered to DSCP’s customers. The contract unit price consists of two

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

ADDENDUM TO FAR 52.212-4 (CONTINUED)

components: delivered price and distribution price, further defined below. The sum of these two component unit prices shall be rounded up or off as applicable, to two (2) places to the right of the decimal point to calculate the contract unit price.

(2) “*Delivered price*” means the current net price per unit charged to the Contractor for supplying the Contractor a representative weekly requirement for an item covered in the ordering catalog to the Contractor’s distribution point not later than the Wednesday, 3:00 PM ET cutoff for updating the following ordering week’s ordering catalog price. The last (most recent) vendor price for an item should usually meet this definition if covering a substantial quantity of the Contractor’s deliveries for the subsequent weekly period. Only the delivered price component of the contract unit price is subject to adjustment under this clause.

(3) “*Distribution price*” means the firm fixed price portion of the contract unit price, offered as a dollar amount per unit of issue, which represents all the elements of the contract price other than the delivered price. The distribution price typically covers the Contractor’s projected general and administrative expenses, overhead, packaging costs, transportation costs from the contractor’s distribution point, and any other projected expenses associated with delivery to DSCP’s customers, plus profit. This price shall remain constant for the complete term of the contract period then in effect. Distribution prices shall be formatted to two (2) places to the right of the decimal point, for example, \$.50 per case.

(4) “*Ordering catalog*” means the listing of items and their corresponding contract unit prices available for ordering under this contract. Initially it will include only items for which fixed pricing has been established at contract award. Additional items may be priced and added to the ordering catalog following contract award, under procedures specified elsewhere in the contract.

(5) “*Ordering week*” means from Sunday at 12:01 AM through the following Saturday until midnight Eastern Time (ET, standard or daylight as applicable).

(c) **PRICE ADJUSTMENTS.**

(1) General.

(A) All ordering catalog prices shall be fixed and remain unchanged until changed pursuant to this clause or other applicable provision of the contract. If the Contractor’s applicable delivered price changes after the contract date, the corresponding contract unit price shall be changed (increased or decreased) by the same amount. The price change shall be effective at the beginning of the next

ADDENDUM TO FAR 52.212-4 (CONTINUED)

ordering week. All ordering catalog unit prices computed in accordance with this clause and in effect when an order is placed shall remain in effect for that order through delivery. DSCP will be charged the contract unit price at time of each order regardless of any changes in the unit price occurring in any subsequent ordering week. In the event the Contractor finds a price recorded in the ordering catalog was not computed in accordance with this clause, the Contractor shall immediately notify the Contracting Officer in writing and promptly thereafter submit a refund proposal. The posting of updated prices in the ordering catalog, calculated in accordance with this clause, constitutes a modification to this contract. No further contract modification is required to effect the change.

(B) The Contractor shall submit a request weekly for approval of price changes and for the retention of current prices, no later than Wednesday, 3:00 PM ET to be effective in the following ordering week's ordering catalog prices. The Contractor shall notify the Contracting Officer of its request in the form of an EDI 832 transaction set or via an update to the USDA web-ordering tool, as applicable. The notice shall include the Contractor's adjustment in the delivered price component of the applicable contract unit price.

(C) The Contracting Officer may at any time require the submission of supporting data to substantiate any requested price change or the requested continuation of the pre-existing price for any item, including prices applicable to prior ordering weeks. Upon notice from the Contracting Officer that supporting data is required, the Contractor shall immediately furnish to the Government all supporting data, including but not limited to, invoices, quotes, price lists and any other substantiating information requested by the Contracting Officer.

(D) The Contracting Officer may reject any price change or request to maintain a current price for any item, to the extent such price is found not to be representative of the Contractor's current delivered price.

(E) Should the Contracting Officer determine that a price change request contained an erroneous unit price or price change, the Contracting Officer may direct that the impending price be set at the amount determined by the Contracting Officer to reflect the current delivered price, or may direct that the item in question be removed from the Contractor's ordering catalog, without liability to the Contractor or the Government. The Government reserves the right to procure such removed items from any alternate source of supply.

(F) If the Contracting Officer does not notify the Contractor by Friday, 12:30 PM ET that a price or a price change request is being questioned or has been found to be erroneous, the Contractor shall take action to incorporate the requested contract unit price changes in the ordering catalog to be effective with the beginning of the following ordering week. Price change requests that the Contracting Officer

TEXAS/OKLAHOMA**

questions or finds to be inconsistent with the requirements of this clause shall not be posted until the Contracting Officer specifically authorizes the posting.

(G) For all proposed prices that were not correctly entered in time into the ordering catalog for the following week, or were identified following the commencement of the applicable ordering week, and any excessive prices found in prior ordering catalogs, the Contractor shall promptly refund the difference between the correct amount and the incorrect amount to the Government, whether identified by the Contractor or by the Contracting Officer.

(H) The Contracting Officer may also identify and forward to the Contractor for appropriate action, any prices the Contracting Officer deems excessive, such as when they are higher than lower delivered prices for items of comparable quality which are reasonably available to the Contractor from other sources. The Contracting Officer may subsequently remove any such item from the ordering catalog if the Contractor does not take appropriate corrective action in such instances.

(2) Limitations. All adjustments under this clause shall be limited to the effect on contract unit prices of actual increases or decreases in the delivered prices for material. There shall be no upward adjustment for—

- (A) Supplies for which the production cost is not affected by such changes;
- (B) Changes in unit prices other than those in the ordering catalog; or
- (C) Changes in the quantities of material.

(d) UPWARD CEILING ON ECONOMIC PRICE ADJUSTMENT. The aggregate of contract unit price increases for each item under this clause during any single performance period (base or option period) shall not exceed 10 percent (%) of the initial contract unit price in such performance period except as provided hereafter. There is no downward limitation on the aggregated percentage of decreases that may be made under this clause.

(1) If at any time the Contractor has reason to believe that within the near future a price adjustment under the provisions of this clause will be required that will exceed the current contract ceiling price for any item, or in the event the latest actual cost for an item would exceed the allowable ceiling price under the contract, then the Contractor shall immediately notify the Contracting Officer in writing of the facts and circumstances. The notification shall include a revised ceiling the Contractor believes is sufficient to permit completion of the remaining contract performance period, along with appropriate explanation and documentation as required by the Contracting Officer.

(2) If an actual increase in the delivered price would raise a contract unit price for an item above the current ceiling, the Contracting Officer may issue a contract

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

ADDENDUM TO FAR 52.212-4 (CONTINUED)

modification to establish a separate price increase limit for the item for the remainder of the current performance period. If the contract ceiling will not be raised, or raised sufficiently, to enable continued ordering of the item, the Contracting Officer shall so promptly notify the Contractor in writing.

(e) EXAMINATION OF RECORDS.

The Contracting Officer or designated representative shall have the right to examine the Contractor's books, records, documents and other data the Contracting Officer deems necessary to verify Contractor adherence to the provisions of this clause. Such examination may occur during all reasonable times until the end of 3 years after the date of final payment under this contract or the time periods specified in Subpart 4.7 of the Federal Acquisition Regulation (FAR), whichever is earlier.

(f) FINAL INVOICE. The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required by this clause.

(g) DISPUTES. Any dispute arising under this clause shall be determined in accordance with the "Disputes" clause of the contract.

(v) Price Warranty and Verification.

(1) The offeror warrants that its unit prices are equal to or lower than its most favored customer for similar quantities under comparable terms and conditions. Should price verifications reveal any instances of overpricing, the contractor further agrees to reimburse the Government for that amount.

(2) The Government intends to perform price verification analyses from time to time throughout the term of the contract. When requested, the contractor shall provide to the Contracting Officer delivered price invoices. The Prime Vendor shall keep all delivered price invoices for a period of at least three (3) years after issuance of the applicable delivery order, or as otherwise required by the terms of the contract. The Contracting Officer will normally review the invoice in conjunction with the distribution to verify the accuracy of the delivery order unit price (i.e. the unit price in effect with the contractor's electronic catalog at the time of delivery order placement), and may conduct a more extensive review. The contractor shall promptly refund any overcharges discovered during this process. Overcharges will probably also result in more frequent price verification analyses.

(3) The Prime Vendor shall obtain product from suppliers who can provide the best value to the Government in terms of price, delivery, and quality. Whenever appropriate, the Prime Vendor shall take advantage of "reduced price specials" and "sales" offered by suppliers, as well as those manufacturers that have a National Allowance Program Agreement (NAPA) with DSCP. A list of NAPA holders is attached to this solicitation.

(4) In conjunction with the above, the contractor should note the following: Variable (catch) weight items (such as meat and poultry roasts, turkey, etc.) and lump sum billing cannot be receipted in decimals, e.g. 4.6 pounds. Contractors must round using standard mathematical rounding procedures.

ADDENDUM TO FAR 52.212-4 (CONTINUED)

(5) Offerors are advised that the Contracting Officer intends to conduct price verification analysis in the following manner:

(i) Periodically, the Price Verification Team may require the contractor to provide copies of specific invoices from suppliers covering up to 100 items that were previously ordered. These invoices will be used to verify that the Government is only being charged the actual product cost plus the negotiated distribution price.

(ii) The Price Verification Team will request the above documentation in writing and the contractor will have thirty (30) days after the request to furnish the documentation.

(iii) A report of overcharges and undercharges (if applicable) will be forwarded to the contractor with a request for payment, if appropriate. The Government reserves all rights and remedies provided by law or under the contract in addition to recovering any overcharges.

(iv) The Government may elect to expand the scope of the price verification analysis if overcharges are discovered. The Government may also elect to reduce the scope of the price verification analysis if no overcharges are discovered.

(v) Unit prices shall be limited to a maximum of two (2) decimal places. For evaluation and award purposes, offers containing a unit price of more than two (2) decimal places shall be rounded off to two (2) decimal places. For administrative purposes, the extended line item and total dollar amounts will be rounded to two (2) decimal places and may not precisely reflect the quantity(ies) times the unit price(s). Payment shall be accomplished on a unit price basis.

DLAD 52.212-9000 CHANGES – MILITARY READINESS (MAR 2001)

The commercial changes clause at FAR 52.212-4(c) is applicable to this contract in lieu of the changes clause at FAR 52.243-1. However, in the event of a Contingency Operation or a Humanitarian or Peace Keeping Operation, as defined below, the contracting officer may, by written order, change 1) the method of shipment or packing, and 2) the place of delivery. If any such change causes an increase in the cost of, or the time required for performance, the contracting officer shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract. The contractor must assert its right to an adjustment within 30 days from the date of receipt of the modification.

“Contingency operation” means a military operation that-

(i) Is designated by the Secretary of Defense as an operation in which members of the armed forces are or may become involved in military actions, operations, or hostilities against an enemy of the United States or against an opposing military force; or

CONTRACT TERM EXTENSION (MAR 2004)**

(a) Acceptance of the option provision(s)/clauses contained herein is mandatory. Failure to indicate acceptance of the option by annotating the offeror’s option price in the schedule or elsewhere in the solicitation will be deemed non-acceptance of the option and may result in rejection of the offeror’s entire bid/proposal.

(b) Offerors may offer options at unit prices which differ from the unit prices for the base ordering period.

(c) The contracting officer may extend the term of this contract for 3 additional option period(s) (Option 1 is an 18-month period; Option 2 is a 12-month period; Option 3 is an 18-month period) by written notice by close of business to the contractor within three (3) days before the expiration date of the contract, provided that the contracting officer shall give the contractor a preliminary written notice of intent to extend at least 60 days before expiration of the contract. The preliminary notice does not commit the government to an extension.

(d) Performance under the option period shall continue at the same performance level specified for the basic contract.

(e) The option to extend the term of the contract shall be exercised not later than three (3) days before the expiration date of the contract.

(f) The option is deemed exercised when mailed or otherwise furnished to the contractor.

ADDENDUM TO FAR 52.212-4 (CONTINUED)

(g) If the contracting officer exercises this option, the extended contract shall be considered to include this option clause and the minimum and maximum quantities specified in the award for that option period will apply.

(h) The total duration of any options exercised under this clause shall not exceed 18 months for Option 1, 12 months for Option 2, and 18 months for Option 3.

(i) The following provisions apply only to negotiated acquisitions:

(1) If an option has been priced under this solicitation and is to be exercised at time of award of the basic contract, the submission of certified cost or pricing data shall be required prior to award where the combined dollar value of the basic contract and option exceeds \$550,000, unless an exemption thereto is appropriate in accordance with FAR 15.403-1.

(2) Prior to the award of any contract which will contain one or more priced options totaling \$550,000 or more, the submission of certified cost or pricing data covering the basic contract and the option(s) shall be required regardless of when the option(s) may be exercised, unless an exemption thereto is appropriate in accordance with FAR 15.403-1.

DSCP 52.211-9P36 FDA COMPLIANCE (JAN 1992)

If any supplies acquired hereunder are recalled under the provisions of the Federal Food, Drug and Cosmetic Act, and regulations thereunder, the contractor shall, at the Government's option, either reimburse the Government or repair/replace the recalled supplies. Additionally, the contractor shall notify the contracting officer immediately when a firm decides to voluntarily recall or withdraw any product from the marketplace. Upon notification by the contracting officer that supplies acquired hereunder have been recalled, the contractor shall either (a) accept Certificates of Destruction from the Government after the supplies have been properly disposed of, (b) request return of the supplies, or (c) if supplies may be repaired on site without transporting them from their location, furnish all materials necessary to effect repairs. Replacement or reimbursement will be accomplished by the contractor immediately on receipt of Certificates of Destruction or returned supplies. The costs of replacement or repair of supplies, and transportation and handling costs for movement of returned, replaced or repaired supplies within the continental United States shall be paid by the contractor. The provisions of this clause are applicable only when the value of the recalled supplies in the possession of the Government amounts to \$100 or more. DSCP 52.216-9P04 RESPONSIBILITY FOR ADMINISTRATION OF DELIVERY ORDER(S) (AUG 1992)

Delivery orders issued against this indefinite delivery contract shall be administered by the person who placed the order on behalf of the government, i.e., the commissary ordering officer or the ordering officer responsible for the troop support activity. Ordering officers are authorized to modify delivery orders and perform all administrative functions pertaining to such orders including termination of the order for late deliveries and other product nonconformances. In these cases, the applicable agency, commissary, or activity may reprocur the supplies locally. Ordering officers, however, are not authorized to sign purchase orders or contracts and cannot take any action to charge the account of the contractor unless they are also contracting officers. Only an authorized contracting officer acting on behalf of the agency, commissary or activity can take these particular reprocurment actions. Administration of the terms and conditions set forth in the IDC is the responsibility of the DSCP contracting officer. The ordering officer shall also notify the DSCP contracting officer of all terminations and repurchase actions which were processed under the IDC.

DLAD 52.233-9000 AGENCY PROTESTS (SEP 1999)

Companies protesting this procurement may file a protest 1) with the contracting officer, 2) with the General Accounting Office, or 3) pursuant to Executive Order No. 12979, with the Agency for a decision by the Activity's Chief of the Contracting Office. Protests filed with the agency should clearly state that they are an "Agency Level Protest under Executive Order No. 12979." (Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the contracting officer; this process is not an appellate review of a contracting officer's decision on a protest previously filed with the contracting officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the contracting officer.

DSCP 52.246-9P29 ADMINISTRATIVE COST TO THE GOVERNMENT IN PROCESSING CONTRACT MODIFICATIONS (JAN 1992)

Where contract modifications are issued solely for the benefit of the contractor, e.g., acceptance of nonconforming supplies or change in place of performance or delivery, the sum of \$100.00 (the government's administrative cost to process the modification) shall be obtained from the contractor in addition to any other monetary consideration.

government does not intend to make any award for, nor accept, any subsistence products manufactured or processed in a plant which is operating under such unsanitary conditions as may lead to product contamination or constitute a health hazard, or which has not been listed in an appropriate government directory as a sanitarily approved establishment when required. Accordingly, the supplier agrees that, except as indicated in paragraphs (2) and (3) below, products furnished as a result of this contract will originate only in establishments listed in the "Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement", published by the U.S. Army Veterinary Command. Suppliers also agree to inform the contracting officer immediately upon notification that a manufacturing plant is no longer sanitarily approved and/or delisted from another agency's listing, as indicated in paragraph (2) below. The contracting officer will also be notified when sanitary approval is regained and listing is reinstated. Bread and bakery products from an establishment inspected by the American Institute of Baking need not be listed in the "Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement" if the contractor certifies in writing that the establishment is currently in good standing. If the establishment should lose their good standing with the American Institute of Baking, the contractor must notify the contracting officer and provide a new source of supply.

(2) Establishments furnishing the products listed below and appearing in the publications indicated need not be listed in the "Directory of Sanitarily Approved Food Establishments".

(i) Meat and meat products and poultry and poultry products from establishments which are currently listed in the "Meat and Poultry Inspection Directory", published by the Meat and Poultry Inspection Program AMS, USDA. The item, to be acceptable, shall, on delivery, bear on the product, its wrappers or shipping container, as applicable, the official inspection legend or label of the agency.

(ii) Meat and meat products for direct delivery to military installations within the same state may be supplied when the items are processed under state inspection in establishments certified by the USDA as being equal to federal meat inspection requirements.

(iii) Poultry, poultry products, and shell eggs from establishments listed in the "List of Plants Operating under USDA Poultry and Egg Grading Programs" published by Poultry Programs, Grading Branch, AMS, USDA. Egg products (liquid, dehydrated) from establishments listed in the "Meat and Poultry Directory" published by the Food Safety Inspection Service. All products, to be acceptable, shall, on delivery, bear on the product, its wrappers or shipping container, as applicable, the official inspection legend or label of the agency.

(iv) Fish and fishery products from establishments listed in the "Approved List--Sanitary Inspected Fish Establishments", published by the U.S. Department of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service.

(v) Milk and milk products from plants having a pasteurization plant compliance rating of 90 or more, as certified by a state milk sanitation rating officer and listed in "Sanitation Compliance and Enforcement Ratings of Interstate Milk Shippers", published by the U.S. Public Health Service. These may serve as sources of pasteurized milk and milk products as defined in paragraph N, Section I, Part II of the "Grade 'A' Pasteurized Milk Ordinance, 1978 Recommendations of the U.S. Public Health Service", Public Health Service Publication No. 229.

(vi) "Dairy Plants Surveyed and Approved for USDA Grading Service", published by Dairy Division, Grading Branch, AMS, USDA.

(3) Establishments furnishing the following products are exempt from appearing in the “Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement”, or other publication, but will remain subject to inspection and approval by the Military Medical Service or by another inspection agency acceptable to the Military Medical Service:

- (i) Fruits, vegetables and juices thereof.
- (ii) Special dietary foods and food specialty preparations (except animal products, unless such animal products are produced in establishments covered by paragraphs (2)(i), (2)(iii), or (2)(iv) above).
- (iii) Food oils and fats (except animal products, unless such animal products are produced in establishments covered by paragraph (2)(i), (2)(iii), or (2)(iv) above).
- (iv) foreign establishments whose prepackaged finished items are imported by distributors or brokers into the United States as brand name items and then sold to armed forces procurement agencies for commissary store resale.

(4) Subsistence items other than those exempt from listing in the U.S. Army Veterinary Command “Directory of Sanitarily Approved Food Establishments for Armed Forces Procurement”, bearing labels reading “Distributed By”, etc., are not acceptable unless the source of manufacturing/processing is indicated on the label or on accompanying shipment documentation.

(5) When the Military Medical Service or other inspection agency acceptable to the Military Medical Service determines that the sanitary conditions of the establishment or its products have or may lead to product contamination, the contracting officer will suspend the work until such conditions are remedied to the satisfaction of the appropriate inspection agency.

Suspension of the work shall not extend the life of the contract, nor shall it be considered sufficient cause for the contractor to request an extension of any delivery date. In the event the contractor fails to correct such objectionable conditions within the time specified by the contracting officer, the government shall have the right to terminate the contract in accordance with the “Default” clause of the contract.

(b) Delivery Conveyances.

The supplies delivered under this contract shall be transported in delivery conveyances maintained to prevent contamination of the supplies, and if applicable, equipped to maintain any prescribed temperature. (Semiperishable supplies shall be delivered in a non-refrigerated conveyance.) The delivery conveyances shall be subject to inspection by the government at all reasonable times and places. When the sanitary conditions of the delivery conveyance have led, or may lead to product contamination, or they constitute a health hazard, or the delivery conveyance is not equipped to maintain prescribed temperatures, supplies tendered for acceptance may be rejected without further inspection.

(1) Shipped in interstate commerce,

(2) Seized under either act or inspected by the Food and Drug Administration or Department of Agriculture.

(3) Inspected, accepted, paid for or consumed, or any or all of these, provided however, that the supplies are not required to comply with requirements of said acts and regulations thereunder when a specific paragraph of the applicable specification directs otherwise and the supplies are being contracted for military rations, not for resale.

(b) The government shall have six months from the date of delivery of the supplies to the government within which to discover a breach of this warranty. Notwithstanding the time at which such breach is discovered, the right is reserved to give notice of breach of this warranty at any time within such applicable period or within 30 days after expiration of such period, and any such notice shall preserve the rights and remedies provided herein.

(c) Within a reasonable time after notice to the contractor of breach of this warranty, the government may, at its election:

(1) Retain all or part of the supplies and recover from the contractor, or deduct from the contract price, a sum determined to be equitable under the circumstances;

(2) Return or offer to return all or part of the supplies to the contractor in place and recover the contract price and transportation, handling, inspection and storage costs expended therefore; provided, that if the supplies are seized under either act, such seizure, at government option, shall be deemed a return of supplies within the meaning of this clause and thereby allow the government to pursue the remedy provided herein. Failure to agree to any deduction or recovery provided herein shall be a dispute of a question of fact within the meaning of the clause of this contract entitled "disputes".

(d) The rights and remedies provided by this clause shall not be exclusive and are in addition to other rights and remedies provided by law or under this contract, nor shall pursuit of a remedy herein or by law either jointly, severally or alternatively, whether simultaneously or at different times, constitute an election of remedies.

II. ITEMS

- A. This solicitation is for total food and beverage support and covers a broad range of items. The successful Prime Vendor will be expected to provide full-line food service items, such as, but not limited to, canned items, dry items, chill items, UHT dairy items, frozen bakery products, frozen meats, frozen seafood and poultry, ice cream, eggs, and other dairy products and non-food Food Service Operating Supplies. Currently fresh fruits and vegetables, fresh milk, and fresh bread/bakery items, do not have stated requirements within this solicitation, but they are within the scope of this procurement and the offerors may be required to provide them during the course of contract performance. However, distribution fees for these categories will be negotiated under this solicitation should the need arise. Prior to the actual addition of these items to the contract they must be determined to be at a fair and reasonable price by the Contracting Officer.

III. PRICING

Pricing will be based on the following formula: $\text{Unit Price} = \text{Delivered Price} + \text{Distribution Price}$

A. Definitions:

1. Unit Price: The unit price is defined as the total price charged to DSCP per unit for a product delivered to the Government. The price shall be formatted to no more than two (2) places to the right of the decimal point.
 2. Delivered Price: The “delivered price” is defined as the last invoice price of a product the prime vendor has paid a manufacturer or supplier for that product delivered to its distribution point. This is sometimes referred to as “landed cost”. The price shall be formatted to no more than two (2) places to the right of the decimal point.
 3. Distribution Price: The distribution price is defined as a firm fixed price, offered as a dollar amount, which represents all elements of the contract price other than the delivered price. The distribution price typically consists of the Prime Vendor’s projected general and administrative costs, overhead, packaging costs, transportation costs from the Prime Vendor’s distribution point; any other projected expenses associated with the Prime Vendor’s function and anticipated profit. The price shall be formatted to no more than two (2) places to the right of the decimal point.
- B. All of the customers listed will be utilizing the Government’s ordering system, STORES, (The Subsistence Total Order and Receipt Electronic System). It is a requirement that pricing be fixed at the time the order is placed.
- C. Vendors may change prices in their STORES Vendor Item Catalog on a weekly basis at a maximum, in accordance with the Subsistence EPA clause in these contracts. The submissions are to be made by Wednesday, to be in effect the following Sunday. All price changes must be submitted to DSCP via the 832 EDI Transaction Set. This transmission must be received by Wednesday, 3:00 PM Philadelphia time. See Attachment 3, “EDI Implementation Guidelines” for more information on the various

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

EDI transaction sets to check for price and other changes; however, the accuracy of the vendor item catalog is the responsibility of the Prime Vendor.

- D. Vendors may not submit an 832 transaction to add any item or to change an existing part number of an item without prior approval of the Contracting Officer. Requests to add any new item or to change part numbers of an existing item must be submitted via a completed "Modified" Request for New LSN form with invoice documentation attached, 72 hours prior to the planned 832 transmission. See additional information provided in Section XVIII. Catalog.
- E. Vendors may submit alternate price change transmission timeframes (832 Updates). However, it should be noted prices cannot be updated more than once a week. For example, it may benefit both the offeror and the Government to submit prices bi-weekly on Wednesday. Price changes will only take effect the Sunday following their transmission as new catalogs are issued to the customers for Monday morning download.

IV. OPTIONS

- A. The terms on this solicitation are as follows: Option 1 is an 18 month-term; Option 2 is a 12-month term; and Option 3 is an 18-month term. Acceptance of these options by the successful Prime Vendor(s) is mandatory. Distribution Prices must be submitted for each option term, as well as for the two (2) year base term. The Distribution Price for each option term must be offered as a dollar amount, formatted with no more than two (2) places to the right of the decimal point.
- B. Prices will be evaluated inclusive of the options, i.e., the totals for all prices for the base term plus option terms will be added together to arrive at the total aggregate dollar value. This dollar value will be used as the basis for evaluating offers.
- C. Failure to propose an increase or decrease of distribution prices in the option terms will be considered, and evaluated, as no dollar value change (\$0.00 change) per option term.

V. CATEGORIES OF ITEMS

- A. The items to be procured under this contract shall be broken down into separate food categories for purposes of proposing distribution prices. For the Distribution Price Category only, prices are to be offered in the same manner in which you sell the product. For example, if you sell a product by the "case", then the distribution price would be by the "case"; whereas, if you sell the product by the "pound" or by the "each", the distribution price would be listed accordingly. If items in a specific distribution category are sold in more than one unit of measure, then distribution prices for each unit of measure applicable under that category must be offered. For example, if items in Category #1 are sold by the pound and some items are sold by the case, then a distribution price per pound and per case should be stated. Distribution Prices shall be formatted to no more than two (2) places to the right of the decimal point, for example \$1.50. Offerors must utilize the Government's food category listing below. However, offerors may submit an additional, alternate proposal utilizing a different set of categories developed by their own firm. If an alternate proposal is submitted, please be aware that a

VI. BACKUP PRIME VENDORS

- A. The offeror(s) awarded the Prime Vendor contract for one zone may become a potential backup supplier for other zones should a Prime Vendor in an adjacent or nearby zone, in an extremely rare instance, be unable to support one, some, or all of the customers in that assigned zone. The offeror's agreement to perform as a potential backup Prime Vendor is required; however, if this rare situation does arise, a contractor's assignment to act as a backup to any or all customers in the zone would be renegotiated through a bilateral agreement/modification to the contract. As part of this agreement, the distribution prices for the backup Prime Vendor to support the customers of another zone would be negotiated at that time. These measures would be taken to preclude the need to re-solicit for support to the affected customers, as well as to maintain the required service to these customers.

VII. EFFECTIVE PERIOD OF CONTRACT – INDEFINITE QUANTITY CONTRACT

- A. The effective period for the base term of the contract is from the first order placed (excluding test orders) through two (2) years thereafter.

VIII. NON-COMPETE PROVISION

- A. The offeror warrants that he will not actively promote, encourage, or market any of the customers on this acquisition away from a resultant DSCP contract and onto a contract of

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

any other Government agency or commercial entity. This prohibition applies both on a pre-award and post-award basis. The Contracting Officer reserves the right to resolicit the contract and may not exercise the option to extend the term of the contract if he/she discovers that the successful Prime Vendor has violated this provision. Customers that have been approached by a vendor regarding ordering off of a separate contract should immediately contact the Contracting Officer.

IX. FRESH FRUITS AND FRESH VEGETABLES

- A. Customers supported under this contract are expected to order their Fresh Fruits and Vegetables from produce contracts awarded by DSCP under a separate contract.
- B. If, after contract award, the ordering activities have a need for the Prime Vendor to deliver some or all of these items, the Contracting Officer and Prime Vendor will determine the availability and establish a mutually agreed upon start-up period and negotiate a price for these additional items. Prior to adding the items to the contract, they must be determined to be at a fair and reasonable price by the Contracting Officer.

X. MARKET READY ITEMS

- A. Fresh bread items (primarily sliced bread and rolls) and fresh dairy items (fluid milk, cultured products) are procured by DSCP and are not expected to be ordered from the Prime Vendor. It is anticipated that DSCP will enter into contracts with local suppliers for the above stated items. Local vendors will deliver these items directly to the customers. However, the distribution prices for these items will be evaluated, so that they will be pre-priced should the need arise for the Prime Vendor to deliver some or all of these items. Prior to adding to the catalog the contracting Officer will review pricing for a fair and reasonable determination. The offeror MUST provide a distribution fee for these categories.

XI. RELATED NON-FOOD ITEMS

- A. This solicitation does not presently include disposable products (related non-food items) associated with the preparation or serving of food for the DoD and non-DoD customers. However, the government reserves the right to include such items at a later time. These items include, but are not limited to, plastic, foam, paper goods and cleaning supplies. A list identifying all stock classes related to non-food items can be found under Attachment 7.

XII. MANDATORY FOOD ITEMS AND DINING PACKETS

- A. Certain supplies or services to be provided under this contract for use by the Government are required by law to be obtained from nonprofit agencies participating in the program operated by the Committee for Purchase From People Who Are Blind or Severely Disabled (the Committee) under the Javits-Wagner-O'Day Act (JWOD) (41 U.S.C. 46-48c).

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

- B. The mandatory products are required to be purchased from the Non Profit Agency manufacturers listed in paragraph H. The listing of required mandatory products and Non Profit Agency manufacturers is subject to change when directed by the Committee. The contractor (Subsistence Prime Vendor) is required to expeditiously catalog the mandatory products and remove any commercial equivalent product with “essentially the same”¹ product characteristics. If the removal and replacement will take longer than 30 days after notification by the Contracting Officer, the approval of the Contracting Officer must be obtained for the extension.
- C. Any other commercial equivalent product with “essentially the same”* product characteristics can not be sold to the DSCP customers under this contract.
- D. The contractor must ensure that sufficient stocks of mandatory products are on hand to satisfy anticipated customer demand taking into account lead times for delivery from the designated mandatory source to the Prime Vendor. If a contractor is notified that any of the below products are not available from the designated mandatory source, the contractor must notify the Contracting Officer immediately.
- E. The contractor is not authorized to submit catalog changes containing other commercial equivalent products with “essentially the same” product characteristics as those items listed below.
- F. If the contractor is requested to carry other commercially equivalent product with “essentially the same”* product characteristics but with a unique packaging requirement that is not currently provided by the mandatory source, the contractor must notify the mandatory source and the Contracting Officer in order to provide the designated mandatory source with the opportunity to satisfy the unique packaging requirement being requested. Included in the contractor notification to the designated mandatory source and Contracting Officer, will be the customer’s justification for the unique packaging requirement.
- G. Price and delivery information for the mandatory products are available directly from the Designated Sources as listed in paragraph H. below. Payments shall be made directly to the Designated Source making delivery.

¹ “Essentially the Same”

The following is the criteria for determining whether the items are “essentially the same” when comparing JWOD mandatory products and commercial products. The JWOD product will be considered “essentially the same” when:

1. It has effectively the same form, fit and function.
2. The JWOD and commercial products may be used for the same purpose.
3. The JWOD and commercial products are relatively the same size and a change in size will not affect the use or performance.
4. The appearance, color, texture, or other characteristic of the JWOD product and commercial product are not significantly different from one another.

XIII. REBATES/DISCOUNTS

- A. The following instructions for rebates and discounts refer to those in addition to NAPA's and Food Show Discounts. As discussed in the following sections, NAPA's and Food Show Rebates must be given in the form of a discounted price.
- B. Rebates and discounts are to be returned to DSCP when they are attributable to sales resulting from orders submitted by DSCP or its customers. Additionally, any rebates and discounts offered to any commercial customer or other Government organization shall be given to DSCP or its customers in the form of an up-front price reduction. The discount/allowance shall be reflected via a reduced STORES price, resulting in a lower invoice price to the customer. Any rebates that cannot be applied as an up-front price reduction must be coordinated with the Contracting Officer. The rebate must be submitted via check made to the US Treasury, attached with itemized listing of all customer purchases by line item to include contract number, call number, purchase order number and CLIN number.
- C. The Prime Vendor shall be as aggressive as possible in pursuing all rebates, including mail-in coupons and discounts for the customers supported under this contract. Notwithstanding the requirements included herein, the offeror warrants, at a minimum, that DSCP and its customers will receive rebates and discounts equal to or better than the offeror's most favored commercial or other Government customer.
- D. A rebate report shall be provided to the Contracting Officer on a monthly basis. This rebate report shall be a break out of all rebates by manufacturer, and then sorted by customer/dining facility. The final procedures relative to managing and returning lump sum rebates will be based on the final proposal and confirmed after award. The Government, however, reserves the right to audit applicable records to ensure proper

administration of the rebate program and ensure that monies due to the Government have been properly returned in accordance with the offer.

- E. As described in this section, the terms “rebates” and “discounts” do not include any discounts or rebates by the Prime Vendor due to early or prompt payments to its suppliers. Discounts or rebates by the prime vendor from its suppliers as a result of a prompt or early payment made by the prime vendors to such suppliers are not required to be passed to DSCP or its customers.

XIV. NATIONAL ALLOWANCE PROGRAM AGREEMENT (NAPA)

A. Definitions:

1. Agreement Holder: The supplier or manufacturer that has agreed to offer discounts to DSCP on product under DSCP Prime Vendor contracts.
2. National Allowance Program: The program implemented by the Defense Supply Center Philadelphia (DSCP) to maximize the leverage of DSCP’s buying power and reduce the overall delivered price under Prime Vendor contracts to the customers of DSCP.
3. National Allowance Program Agreements (NAPAs): The agreements between DSCP and suppliers/manufacturers that identify product category allowances. These allowances or discounts apply only to the delivered/invoice price of the product. The NAPA does not affect the Prime Vendor’s distribution price in any way.

- B. DSCP has implemented a NAPA Program as part of the Subsistence Prime Vendor Program. Under the NAPA Program, DSCP will enter into agreements with suppliers/manufacturers offering domestic products.

C. Under the NAPA Program, agreement holders will:

1. Authorize and consent to allow the contractor(s) to distribute covered products to ordering activities under the Prime Vendor Program.
2. Offer discounts on the delivered price of the product ordered under Prime Vendor contracts, whereby the price to the customer includes the discount. The discounted price is the price that will be submitted via the 832 catalog transaction.

- D. NAPAs neither obligate the Prime Vendor to carry, nor the ordering activity to purchase, any of the agreement holder’s products; however, NAPA terms will apply to any order placed by the customer for products covered by a NAPA, in which case the invoice price must reflect the NAPA.

- E. If a Prime Vendor has a pricing agreement/arrangement with more favorable terms and/or pricing structure, then it is required to pass on these savings to the customer.

TEXAS/OKLAHOMA**

F. Under a contract resulting from this solicitation:

1. Within five (5) working days from notification of award, the awardee will contact John Steenberge, Program Manager, NAPA Team, 215-737-8461. The NAPA Team will provide general instructions and a password to access the allowances on the NAPA website.
2. The Prime Vendor agrees to bill the invoice price to the Government as specified by the NAPA allowance and initiates a bill-back to the agreement holder, if any activity orders any product covered by a NAPA. The agreement holder will reimburse allowances to the Prime Vendor within a time period mutually agreeable to the Prime Vendor and the agreement holder.
3. Any disputes involving the NAPA between the Prime Vendor and the agreement holder will be resolved between them according to their own commercial practice. However, DSCP will attempt to facilitate any such disputes.

G. NAPA Tracking Program: The Prime Vendor agrees to comply with the requirements of DSCP's Tracking Program for NAPAs and shall provide the required product information to support the NAPA allowance and sales tracking website. Data shall be submitted as follows:

1. Format: The required information shall be formatted in an Excel spreadsheet, flat ASCII file or a delimited file. Each transmission must be of the same format. Request to change from one format to another must be forwarded to the Contracting Officer for approval.
2. Transmission of Data: The information shall be submitted electronically via-
 - a. Email to data@one2oneus.com Include contract number(s) in email title.
 - b. FTP to <ftp://ftp.one2oneus.com> Inquire for a username and password.
3. Frequency of Submission: The information shall be submitted as often as the data may change but no more than weekly.
4. Contents of the data File: The contents of the data file shall include the information shown below for all of the products, NAPA and non-NAPA that are shipped to the Government. All of the fields for each item must be populated with information unless otherwise stated.

Fields 6, 7, and 8 relate to NAPA. If a product is NOT subject to a NAPA allowance then fields 6, 7, and 8 can be left blank or zero.

Notes:

1. This field represents the manufacturer's part number of the product. If a valid case UPC is available, you should use the case UPC. The UPC check digit is optional. In the case where a UPC is not available, then you must use the manufacturer's part number (SKU number) as designated by the manufacturer. All leading zeros are required. All characters such as dashes are also required if the manufacturer uses the character in their part number identifier.
2. This field needs to identify the manufacturer (not necessarily the supplier) of the product. If your item master has a valid case UPC and you send the UPC in field 4 there is no need to provide this field. If you do not have a valid case UPC, please indicate the manufacturer or brand name or some code indicating the same. If you use a code please provide an additional listing of those codes and their description. Please note, this is the manufacturer of the product not necessarily who supplied you the product.
3. This is the off-invoice allowance amount. It can be found in the NAPA table. If the product is not subject to a NAPA allowance then please set this field to zero.
4. This is the allowance UOM. It can be found in the NAPA table. If the product is not subject to a NAPA allowance then please leave this field blank.
5. Conversion to the Unit of Issue UOM. The conversion factors to equalize the allowance UOM to the unit of issue UOM. For example, if the unit of issue UOM is "CA", for case, and the allowance UOM is "CS", for case, the conversion factor would be set to 1. However, in the case where the Unit of Issue is "CS" and the allowance UOM is "LB", for pounds, this conversion factor may be fifty (50) because there are 50 lbs in a case. If the product is not subject to a NAPA allowance then please set this field to zero.
6. For each item, provide the applicable markup amount. As previously negotiated with DSCP, you have assigned a markup amount to each food category or to each item. This amount should correspond to the unit of issue measurement. This is required in order to insure that a NAPA allowance was provided off-invoice.

H. The NAPA Program is for the exclusive use of DSCP customers purchasing product under the resultant contract.

XV. FOOD SHOWS

- A. DSCP actively participates in Vendor Food Shows for the purpose of obtaining food show “allowances”. These allowances are negotiated by DSCP with each exhibitor at the Food Show, whether it is a broker representing several firms, the distributor representing a firm, or the manufacturer directly. In addition, other procedures in accordance with a vendor’s normal commercial practice may be used to negotiate the allowances or savings.
- B. The Prime Vendor is required to advise the Contracting Officer and the Acquisition Specialist of all Food Shows that are conducted throughout the course of the contract. This includes annual shows, as well as regional and/or mini food shows. The Government reserves the right to participate.
- C. Approximately one (1) week prior to the Food Show, the Prime Vendor shall furnish the Contracting Officer and/or Acquisition Specialist the following information:
 - 1. List of brokers/manufacturers attending the Food Show;
 - 2. Map showing the locations of booths;
 - 3. Effective period of allowances;
 - 4. Statement as to whether the allowances are applicable to all orders placed within the effective period, or for only the amount of product booked; and
 - 5. Usage report for all customers covered by the contract. This data shall represent the same number of weeks as the effective period of the allowances. The data shall be a consolidation of all customers, and be sorted in booth order sequence. At a minimum the following elements are required:
 - a. Vendor Part Number
 - b. Description of item
 - c. Usage quantity
 - d. Manufacturer/Brand
 - e. Booth Number of the exhibitor and the products they represent
- D. At the end of the Food Show allowance period, the Prime Vendor shall submit to the Contracting Officer/Acquisition Specialist a Food Show savings report by customer. This shall be completed within 2 weeks of the end of the allowance period. A total sales report for the same period shall also be submitted.
- E. Food Show allowances must be passed on to the customers directly as a discounted price. Accordingly, when the applicable items are ordered, the price must reflect the discount if ordered during the specified time frame. The discounted price is the price that is to be submitted via the 832 catalog transmission. All decreases in price must be submitted via the 832 transmission the week prior to the beginning of the allowance period.

XVI. CUSTOMER SERVICE AND SUPPORT

- A. The Prime Vendor shall treat each and every customer covered under this contract as one of its best customers. Therefore, any treatment and/or customer service policy given to other essential accounts shall also be given to the customers covered under this contract.
- B. The Prime Vendor shall provide at least one (1) full time Customer Service Representative to maintain continuous contact with all the ordering activities. The name of the representative and the phone number, mobile phone number, beeper number, email address, and any other method of communicating with the representative, shall be furnished to the customers after award.
- C. The customers have periodic food menu board meetings and the Prime Vendor may be invited to attend these meetings. At these meetings, the customers not only review their internal business practices, but the offeror can utilize this forum to show new products, demonstrate product preparation, provide nutritional information and address any other concerns the customer may have. Offerors shall address how they will take part in these forums and the value added services they will employ to enhance these meetings, as requested in the section entitled "Submission Requirements".
- D. Since many of our customers only have access to the Government phone network, it is required that a toll free telephone number be provided.

XVII. RECALL PROCEDURES

In addition to the required recall procedures detailed in the Addendum to Clause 52.212-4, Contract Terms and Conditions – Commercial Items, the Prime Vendor will be required in the event of a product recall initiated by the Prime Vendor, supplier or manufacturer, to follow these procedures: immediately, notify the customers that have received the recalled product, the DSCP Contracting Officer, the DSCP Account Manager and the DSCP Consumer Safety Officer. The Prime Vendor will provide that following information to the DSCP Consumer Safety Officer: the reason for recall, level of recall, i.e. Type I, II or III, description of product, amount of product, and list of customers that have received the product, name and phone number of responsible person (Recall Coordinator). The Prime must provide a Final Status Report of Recall, when completed, to the DSCP Consumer Safety Officer.

XVIII. CATALOG

The market basket of items, along with their respective prices as determined fair and reasonable during the acquisition process will become the basis of the catalog. It should be noted that this Market Basket represents 81.4% of the customers' requirements. After award, additional items will be added as required by our customers. Any item added to the catalog after award will be determined fair and reasonable prior to its addition. Unless otherwise specified, items catalogued are not considered proprietary. In addition, the following applies to all weekly 832 updates in the catalog.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

- A. Additions to the Catalog - All catalog updates via 832 transactions for additions of any/all new item(s) and/or changes to vendor part numbers to any existing item(s) currently on the prime vendor catalog must have written approval from the Contracting Officer prior to any transmission for any/all addition(s) and/or change(s). This written approval from the Contracting Officer shall authorize the specified addition(s) and/or changes(s) and represent the Contracting Officer's determination of price reasonableness.

Under no circumstance shall a Prime Vendor transmit any catalog update addition without the Contracting Officer's approval. Vendors shall submit their request for approval for such additions no later than seventy-two hours prior to the planned 832 transmission update. Vendors shall utilize one of the attached Modified Local Stock Number (LSN) Request forms, completed in full, when requesting all item approvals. (See Attachment Section)

Each request must, at the same time, have the following documentation attached: copy of manufacturer's original invoice signifying the delivered price, or a written price quote, on the manufacturer's letterhead, if the item is not currently in stock. This quote should include: price, date price quote was obtained, time period quote is effective for, quantity covered by price quote, manufacturer's part number, and manufacturer's point of contact information. Also included in the request should be the distribution price category and the distribution price dollar amount per unit of measure annotated on the invoice or price quote submitted for review by the Contracting Officer. Requests and their supporting documentation shall be faxed and/or emailed to the Contracting Officer for immediate review. The approved price for any/all items as submitted on the Modified LSN Request Form MUST be the price submitted upon the 832 transmission. Incoming 832 transmissions will be verified for compliance. Prices submitted other than those approved will be rejected.

- B. New Item Introduction - The successful offeror shall assume the responsibility of introducing new food items to the customers, as well as to show cost effective alternatives to their current choices. The company would still be required to perform the normal supplier selection process to include the analysis, comments, and recommendations of the new products prior to the product sampling and/or taste testing. If a product is terminated or replaced by a new item due to customer preference, the customer must draw down the existing inventory before ordering the new replacement item. If a customer desires to order an item that is not part of the contractor's inventory, the Prime Vendor will be allowed a total of thirty (30) days, excluding Government processing time, to source the items, obtain DSCP Contracting Officer approval for the item and price, obtain a stock number from DSCP (if required), and add the items to its Vendor Item Catalog via 832 catalog transmission. The Prime Vendor must notify DSCP and the requesting activity when new items are available for distribution. These items should then become a permanent part of the Prime Vendor's inventory, if it appears that these items will be ordered on a regular basis, and if the customer indicates a minimum movement of twenty (20) cases or more per month, or otherwise specified minimum case requirement.

As part of this review, the Contracting Officer may require additional substantiated proof of the cost prior to final approval.

XIX. ADDITIONAL CUSTOMERS

- A. The Government reserves the right to add DoD and non-DoD customers in the solicited area to the Prime Vendor contract based on a mutually agreed upon implementation plan.
- B. The increase of the new business will be reflected in the 150% maximum guarantee and the higher alternate ceiling.
- C. Additional customers are limited to those that receive Federal funding.

XX. CENTRAL CONTRACTS

- A. DSCP's Central Contracting Office administers the contracts for Coca-Cola, Pepsi, and Dr. Pepper Bag-in-Box and canned soda. Additional information and points of contact can be located on the DSCP web page using the following web address:

From time to time during the performance of this contract, DSCP may issue Indefinite Delivery Type Contracts (IDTCs) to various suppliers for specific products to be distributed by the Prime Vendor. It is not mandatory for the Prime Vendor to order directly from these contracts. However, these contracts will provide the price ceiling for these items in same similar packaging. If the Prime Vendor chooses to catalog items from another source, other than that of the IDTC the price charged by the Prime Vendor to the ordering activity will not exceed the IDTC price, plus the Prime Vendor's negotiated distribution price. At time of award, and at other times when applicable, DSCP will provide the Prime Vendor with a list of all IDTCs awarded and their terms and conditions of the awarded IDTCs. Currently, there are three (3) contracts in place for several types of French Fries and Hash Brown items.

 - 1. STORES is the Government's translator/ordering system that is capable of accepting orders from any of the Services'; i.e. Army, Air Force, Navy, or Marines, individual ordering systems and translating them into an Electronic Data Interchange (EDI) format. In addition, this information is passed to DSCP for the purposes of contractor payment and customer billing. Attachment provides additional EDI information.
 - 2. Customers will be able to order all of their food and beverage requirements through STORES. Some customers will also be able to order non-food items through STORES. The system will transmit orders to the Prime Vendor, the produce supplier (for fresh fruits and vegetables), the bakery (for fresh bread), the dairy (for fresh milk and dairy items) and to DSCP for ration type items. It may be possible during the life of this contract that all customers will have the opportunity to order the non-food items from STORES.
 - 3. The awardee shall be required to interface with STORES and must be able to support the following EDI transactions:
 - a. 810 – Electronic Invoice
 - b. 820 – Payment Voucher Information
 - c. 832 – Catalog (Outbound: Vendor to DSCP)
 - d. 850 – Purchase order
 - e. 861 – Receipt
 - f. 997 – Functional Acknowledgement

II. ORDER PLACEMENT

- A. Customer orders are placed to accommodate a “skip day” delivery. An order placed on March 1st would have a required delivery date of March 3rd. Orders may be placed with a longer lead-time; however, the minimum lead-time is “skip-day”.
- B. As part of its Technical Proposal, the Prime Vendor shall submit a plan describing how it intends to notify customers of the non-availability of an item. It should be noted that the maximum time frame is 24 hours. If it appears that the vendor does not expect a stock replenishment in sufficient time to fulfill the requirement, the Prime Vendor should offer the customer a substitute of equal or higher quality and of equal or lower cost, or advise them of the not-in-stock position of the item and the date of the expected delivery from the manufacturer.

III. FORCE PROTECTION

- A. The Defense Supply Center Philadelphia (DSCP) Subsistence Directorate provides world-wide subsistence logistics support during peacetime as well as during regional conflicts, contingency operations, national emergencies, and natural disasters. At any time, the United States Government, its personnel, resources and interests may be the target of enemy aggression to include espionage, sabotage, or terrorism. This increased risk requires DSCP to insure steps are taken to prevent the deliberate tampering and contamination of subsistence items. The contractor/vendor must insure that products and/or packaging have not been tampered or contaminated throughout the manufacturing, storage, and delivery process. The contractor/vendor must immediately inform DSCP Subsistence of any attempt or suspected attempt by any party or parties, known or unknown, to tamper with or contaminate subsistence supplies.
- B. As the holder of a contract with the Department of Defense, the awardees should be aware of the vital role they play in supporting our customers. It is incumbent upon the awardees to take all necessary actions to secure product delivered to all military customers, as well as any applicable commercial destinations. The Government strongly recommends that all firms review their security plans relating to plant security and security of the product, especially in light of the heightened threat of terrorism.

IV. PRODUCT QUALITY

- A. Acceptance of supplies awarded under this solicitation will be limited to product processed and packed from the latest pack available or the latest seasonal pack during the contract period. All products delivered shall be as fresh as possible and within the manufacturer’s established shelf life (i.e., Best if Used by Date, Expiration Date, or other markings). For annual pack items, products will be from the latest seasonal pack available, unless specifically authorized by the customer.
- B. Commercial standards should be used to maintain temperatures appropriate for individual items.

**PRIME VENDOR SUPPORT

C. Level of Product Quality:

1. When designating an item as a match for the DoD item in the schedule of items listed in the solicitation, the item must be:
 - a. Identical in respect to packaging when the DoD unit of issue is not described by weights (e.g. pound or ounce).
 - b. Identical for portion control items, except that pack size may vary. For example, NSN 8905-00-133-5889 "Beef Braising Steak, Swiss" is described as "frozen, formed, portion-cut, not mechanically tenderized, US Choice Grade or higher, 6 oz each, NAMP 1102 or equivalent, from knuckle, inside round, Eye of Round, or Outside Round, 53 lbs. per box". The requirement for the formed six (6) ounce portion must be identical. However, if the commercial pack size were a 15-lb. box, it would be acceptable by modifying the unit of issue ratio in the STORES ordering system. In respect to the previous examples, the DoD ordering activities require continuity with the DoD unit of issue for proper inventory and accounting within DoD.
 - c. Equivalent in respect to grade or fabrication.
2. A substitute item must be of equal or higher quality and equal or lower in price.
3. All items must meet or exceed the Government's item description of their assigned Government stock number.

Include an organizational and administrative structure that ensures effective and efficient procurement of required quality materials and parts at the most economical cost from responsible/reliable sources. B. Worldwide Meat and Seafood Audits:

(a) Basic Audits

- 1. The DSCP Worldwide Food Audit Program, covering all Food Classes within a Prime Vendor’s catalog (Meat, Poultry, Seafood and Processed Products) functions as a Service and Quality Assurance check for our DoD customers to ensure the war fighters are receiving products of an optimum quality level. 3. For each Prime Vendor it is expected that an audit would be conducted once per contract year. This includes the base year(s) of the contract, plus any and all option-years in which the government's option is exercised. The Audits are conducted in a seminar setting with participation from you and your suppliers. The average cost of a Food Audit is approximately \$9,500.00. Any expense for the sampled product above these ceilings may be billed to the Government under your contract.

(b) Audit Process

1. During the Audit, the DSCP Quality Assurance Representative will assign an item rating based on compliance with or departure from stated requirements as specified in the DSCP NSN/LSN stock catalog. This includes, but is not limited to, adherence to the Berry Amendment and approved source requirements. Deviations from the contract or stock number requirements will be color code-classified based on the severity of departure from requirements as follows:

GREEN = Acceptable - no departures from the contract or the item description stock number requirements.

YELLOW = Needs Work to be fully acceptable - these minor departures from requirements have some impact on the usability of the item for the food service requirements however, can be tolerated by the services for short period of time, not more than 30 days. BLUE = STOP - Supply To Other Programs or use Undesirable - are deviations from contract or stock number requirements that materially affect, or are likely to materially affect the acceptability or serviceability, condition, or continued storage of an item for further use. Product is not desirable for DOD customer food service application. X. HAZARD ANALYSIS CRITICAL CONTROL POINT (HACCP) PROGRAM

- A. HACCP is a system of preventative controls and scientific testing designed to improve the safety of products from "farm to table". Food and Drug Administration (FDA) and Food Safety and Inspection Service (FSIS) HACCP regulations require industry to verify the effectiveness of its operations by continuous monitoring of the controls established, end item product testing, and careful record keeping of the complete HACCP system. The regulatory agency responsible for designing and enforcing its agency's food safety programs will review each plant's records and conduct other in-plant inspection activities to verify that proper food safety procedures are being followed in accordance with the establishment's HACCP plan. The HACCP-based system requires a commitment by establishments to consistently control operations in the interest of public health.

I. NOTICE TO OFFERORS

- A. Once the guaranteed minimum has been met, customers may or may not choose to continue ordering from the contract. To a large extent, their decision to continue ordering will be based on the performance of the Prime Vendor.

II. MANAGEMENT REPORTS

- A. The contractor shall electronically transmit the following reports to the DSCP Contracting Officer and Acquisition Specialist on a monthly basis. All reports shall be cumulative for a one (1) month period and submitted no later than the seventh day of the following month, e.g., reporting period of January 1st through January 31st – the reports are due February 7th.

This should be sorted by manufacturer/supplier and include quantity and dollar value and should be sorted by the applicable business size category of the manufacturer/supplier. NIB/NISH firms are not to be categorized under Small Disadvantaged Business as they are non-profit organizations and should be considered their own separate category. Note: This report is for direct subcontracts for products supplied to customers. This report is not to include direct costs. SBA must certify SDB and HUB Zone businesses.

- ii. A summary page of the report shall also be submitted which highlights the total dollars and percentages for each category. This information is very important since DSCP is required to report its success in meeting these goals for the Defense Logistics Agency (DLA). Also requested, but not required since DLA does not mandate that these goals be reported, is a listing of products supplied and/or manufactured by UNICOR, Labor Surplus Areas, Historically Black Colleges or Universities and Minority Institutions.

Mis-picks and damaged cases should not be included in this calculation. This report should reflect the fill rates with and without substitutions. The report should specify fill rates per customer and an overall average fill rate for all customers under the contract for the month being reported.
 5. Customer Service Report: The Prime Vendor shall develop and provide a report summarizing all discrepancies, complaints and all positive feedback from ordering activities and the respective resolutions by providing a summary from customer visits.

Also include the manufacturer offering the rebate and the product usage. The total should be per customer and per contract.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

- b. Food Show Rebates: This report should show a detailed break out of all savings received at Food Shows. This report is not a monthly requirement, but is based on the timing of the Food Show and should be received by the Contracting Officer no later than two weeks after the end of the special pricing period. List each customer, the Food Show amount, the manufacturer/broker name, and quantity ordered. Food Show rebates should be listed per customer, per contract, and per manufacturer. The total should be per customer and per contract.
- 7. Financial Status Report: In order to ensure timely payments, a summarized accounts receivable and/or a “days of outstanding sales” shall be submitted on a monthly basis. The report should be categorized by time periods, and sorted further by customer. If problems should occur, a detailed listing by invoice number/purchase order number/call number will be requested. However, it is suggested that this report contain as much information as possible to alleviate problems immediately.

III. CATALOG ORDER GUIDE

- A. The contractor shall provide a catalog order guide, with descriptions and pack sizes, to each of the customers serviced under this contract. At a minimum, the order guide should list the DSCP Stock Number, DSCP Unit of Issue, the contractor’s part number, and the brand of each item.

FAR 52.212-1 INSTRUCTIONS TO OFFERORS—COMMERCIAL ITEMS (SEP 2006)
--

As prescribed in 12.301(b)(1), insert the following provision:

INSTRUCTIONS TO OFFERORS—COMMERCIAL ITEMS
(SEPT 2006)

(a) *North American Industry Classification System (NAICS) code and small business size standard.* The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;
- (3) The name, address, and telephone number of the offeror;
- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) “Remit to” address, if different than mailing address;
- (8) A completed copy of the representations and certifications at FAR 52.212-3 (see FAR 52.212-3(k) for those representations and certifications that the offeror shall complete electronically);
- (9) Acknowledgment of Solicitation Amendments;
- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers.

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and—

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(i) Availability of requirements documents cited in the solicitation.

The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" or "DUNS+4" followed by the DUNS or DUNS+4 number that identifies the offeror's name and address. The DUNS+4 is the DUNS number plus a 4-character suffix that may be assigned at the discretion of the offeror to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see FAR Subpart 32.11) for the same parent concern. If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one. 2. Paragraph (c), Period for Acceptance of Offers.

Period of acceptance is 300 days.

3. Paragraph (f), LATE offers is changed to read as follows:

Late proposals and revisions. Any proposal received at the office designated in the solicitation after the exact time specified for receipt of offers will not be considered unless it is received before award is made and:

It was sent by mail or hand-carried (including delivery by a commercial carrier) if it is determined by the Government that the late receipt was due primarily to Government mishandling after the receipt at the Government installation.

It was sent by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee, not later than 5:00 p.m. at the place of mailing two working days prior to the date specified for receipt of proposals.

There is acceptable evidence to establish that it was received at the activity designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers, and the Contracting Officer determines that accepting the late offer would not unduly delay the procurement; or

It is the only proposal received.

Any modification or revision of a proposal or response to requested information, including any final proposal revision, is subject to the same conditions indicated above.

ADDENDUM TO FAR 52.212-1 (CONTINUED)

Proposals may be withdrawn by written notice (including facsimile) received at any time before award.

4. Paragraph (h), *Multiple Awards*.

The Government intends to make one award.

INSTRUCTIONS, CONDITIONS AND NOTICES TO OFFEROR**

I. GENERAL INFORMATION

A. The Government is committed to utilizing the Trade-Off Process as a means of selecting the most qualified vendor to support the needs of the customers listed in this solicitation while assessing acquisition procedures, quality assurance practices, and reasonable pricing, as well as other factors.

1. Two (2) different techniques will be utilized when submitting your Technical Proposal, an Oral Presentation and a Written Proposal. Except where otherwise noted, the Technical Proposal shall be orally presented in accordance with the instructions outlined in these "Instructions, Conditions, and Notices to Offeror". The Business Proposal must be submitted in writing. The Technical Proposal information required to be submitted in writing must be prepared separately in the quantities shown below and shall not be combined with the Business Proposal.

<u>WRITTEN VOLUME</u>	<u>TITLE</u>	<u>No. OF COPIES</u>
I	Technical (written)	6
	Formal Oral Presentation	
	Briefing Charts ²	6
II	Business	2

² To include any presentation materials to be used (i.e. slides, videos, handouts, etc). The names and titles of the presenters and copies of handouts must be included in the written proposals, either on your briefing charts or as an attachment to the written part of your technical proposal.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

ADDENDUM TO FAR 52.212-1 (CONTINUED)

2. Evaluations for each volume of the proposal will be performed exclusive of one another. Therefore, the Technical Proposal shall contain no reference to cost or pricing data. Conversely, the Business Proposal should not address information requested under an element listed as a technical factor. Cost and Pricing information shall only be contained in Volume II, Business Proposal. Each volume shall be bound separately and labeled accordingly.
- B. Proposals will be evaluated for both technical excellence and price reasonableness in accordance with the evaluation criteria outlined in the “Evaluation Factors for Award” section of this solicitation. Technical factors listed in this solicitation are considered to be more important than price (business) factors. However, as proposals become more equal in their technical merit, the evaluated price becomes more important. The offeror must clearly demonstrate its capability to support the customers’ requirements in the most efficient, cost-effective manner. Proposals will be evaluated in accordance with the factors listed in the solicitation. The rating methodology will be adjectival, i.e. **Exceptional, Very Good, Satisfactory, Marginal, or Unsatisfactory**. A **Neutral** rating for Past Performance may also be used.
- C. In order to receive full consideration, firms are encouraged to ensure that the information provided in the Technical Proposal is factual and complete. To ensure that an accurate evaluation of the proposal is made, **please address the factors in the order in which they appear in the solicitation.** Failure to do so may result in the Technical Evaluation Panel overlooking important information.
- D. All plans submitted as part of the offeror’s Technical Proposal are to be followed during contract performance. The Government reserves the right to incorporate into the resultant contract(s) those elements of an offeror’s Technical Proposal that exceed solicitation requirements, as well as all Implementation and general Business Plans. The Business Proposal “Market Basket Schedule of Items” delivered prices are used for evaluation purposes; but, the market basket items will also become part of the catalog. Final negotiated prices shall become the baseline catalog prices at the start of the contract and shall be reflective of these prices at the time of first order. These prices should not dramatically change for orders placed early in the contract unless documented market conditions arise.
- E. Offerors may provide additional technical information that will enhance the proposal; however, overly elaborate proposals that contain information not pertinent to this acquisition are not desired. **Failure to provide the information requested may render the proposal unacceptable and may lead to a rejection of the offer.**
- F. The Government reserves the right to verify any information presented in the Technical and Business Proposals. Site visits to assess the accuracy of the information provided in an offeror’s proposal will be conducted during the evaluation process.

II. ORAL PRESENTATIONS AND SITE VISITS

- A. An Oral Presentation is a technique that provides offerors with an opportunity to present information through oral means as a substitute for information traditionally provided in written form under the cover of the offeror's proposal. The Oral Presentation is not a mere restatement or replication of the written proposal information but is in lieu of it. The purpose of using the Oral Presentation technique is to eliminate, or greatly reduce, the need for written material, where information can be conveyed in a more meaningful and efficient way through verbal means. One of the benefits of the Oral Presentations is that it permits the evaluators to receive information demonstrating the offeror's understanding of the work or describing how the work will be performed, directly from the key members of the offeror's team that will actually perform the work. The Oral Presentation should demonstrate the offeror's understanding of the work to be performed and should describe how the work will be performed.
- B. The purpose of a site visit is to view the offeror's facility(ies) and business operations to verify what is presented in the Technical Proposal (Oral Presentation and Written Technical Portion). Site visits will be conducted after all Oral Presentations have been completed. You will be notified of the date of your site visit(s) approximately two days prior to the actual visit.

Note: The Technical Evaluation Panel may take pictures during the site visit. The offeror will refrain from the use of picture taking while the site visit is being conducted.

C. Instructions for Oral Presentations:

1. A portion of the Technical Proposal will be submitted to the Technical Evaluation Panel (TEP) via an Oral Presentation. The Oral Presentation will be conducted at the Defense Supply Center Philadelphia (DSCP). The date of the Oral Presentation will be confirmed in writing seven (7) working days after solicitation closing. It is anticipated that the first Oral Presentation will be scheduled to take place approximately seven (7) to fourteen (14) days after solicitation closing.
2. The Oral Presentation is to be made only by key members of the offeror's company, including any partner(s) whom will be directly involved in the successful performance of the resultant contract(s). The names and titles of presenters must be included in the written proposal. If the offeror fails to indicate in its offer the names of those people who will be presenting at the Oral Presentation, then the presenter will be restricted to the individual who signed the proposal.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

ADDENDUM TO FAR 52.212-1 (CONTINUED)

3. All Oral Presentations will be recorded on a VHS-format videotape. A copy of the videotape will be made available to the offeror, if requested. It should be noted that the awardee's Oral Presentation videotape may be used for future training sessions. Offerors will be allotted no more than three (3) hours to present information, as specified below, on the following technical factors:
 - a. Experience/Past Performance
 - b. Distribution System/Capacity
 - c. Quality Assurance
 - d. Socioeconomic Considerations
 - e. Javits-Wagner-O'Day Act Entity Support

4. It should also be noted that the DSCP Technical Evaluation Panel (TEP) may audiotape the presentation for its immediate reference, in addition to the videotaping.
5. Offerors will be allotted no more than three (3) hours to present information. It should be noted that there will only be one (1) Oral Presentation per submission, i.e. if there is any type of joint venture or partnership, only one (1) Oral Presentation at the three (3) hour limit will be permitted. If a firm is submitting a proposal for more than one zone, only one (1) Oral Presentation is required and acceptable. However, a firm will receive an additional 30 minutes for each/any other zone being offered on. Therefore, if a firm is offering on one zone, the Oral Presentation is limited to three (3) hours; two zones- three and one-half hours; three zones- four hours. Any/all information must be clearly identified as to which zone it applies to.
6. The TEP will NOT ask any questions during the presentation, nor will any questions from the presenters be allowed. There will be a break of approximately 20 minutes at the end of the first 1½ to 2 hours, then a 30-60 minute break at the end of the presentation. The Question and Answer period will immediately follow the Oral Presentation; this portion will also be videotaped. During the Question and Answer period, the TEP will ask for any clarifications to the offeror's presentation. The offeror will not be permitted to ask questions of the panel other than to elicit a better understanding of the TEP's question(s). The Oral Presentation, or the Question and Answer session, will not constitute discussions as defined in FAR 15.306(d). DSCP reserves the right to award without discussions.
7. The order in which Oral Presentations occur will be randomly selected, by lottery. Within two (2) days after the closing of the solicitation, offerors will be notified of the date when presentations are to be conducted. Once the date for the Oral Presentation is set, requests for changes will not be entertained. Offerors are reminded to specify in writing what dates would not be allowable for an Oral Presentation. The Oral Presentation dates will begin approximately seven (7) to fourteen (14) days after solicitation closing. Oral Presentations may or may not be scheduled for consecutive days.

If briefing charts are not submitted by the date and time specified for closing, then the firm waives the right to use any charts during its Oral Presentation. **NO HANDOUTS WILL BE ACCEPTED DURING THE ORAL PRESENTATION.** The briefing charts may not be altered between the time of the closing and the Oral Presentation. Any changes to the briefing charts may result in a score of “Unsatisfactory” for the factor to which the chart applied.
9. Offerors are reminded that they should not develop overly elaborate Oral Presentations or presentation materials, including briefing charts.
10. No pricing information shall be included in the Oral Presentation.
11. The offeror shall use the Oral Presentation as a means to communicate its understanding, approach, and experience in accomplishing requirements similar to those stated in the solicitation.
12. Oral Presentations will begin approximately at 9:00 AM. If the offeror has not completed its presentation within 15 minutes prior to the required ending time, a warning will be given. At the end of the applicable time limit, the offeror will be instructed to end its presentation and the recording equipment will be turned off. Any briefing charts that have not been presented within the allowable timeframe will not be considered as part of the proposal and will not be evaluated.
13. DSCP will make available for the Oral Presentations an overhead projector, screen, monitor, and VCR. Any additional audiovisual equipment that is required is the responsibility of the presenters. The offerors shall indicate in its proposal what equipment is needed for its Oral Presentation.
14. If technical difficulties are encountered during the taping of the Oral Presentation, or if it is discovered subsequent to the presentation that a technical difficulty occurred, the affected offeror(s) will be notified. However, the Government reserves the right to view the remaining videotapes during the evaluation process.
15. Any portion of the Technical Proposal that has been submitted in writing, but not listed in paragraph 18 below as being required in writing, must still be addressed in the Oral Presentation. Information pertaining to the Technical Proposal that is received in writing, but not required to be submitted in writing will not be evaluated unless it is orally presented.
16. At the time of the closing of offers, the offeror shall submit detailed directions/maps to its facility from the closest major airport. The information will be used for future site visits. If the offeror will be utilizing warehouses/facilities that are in addition to, or separate from its primary place of business, then separate directions must be submitted for the additional location(s). The contractor’s descriptions/specifications will be used by the Subsistence Prime Vendor Office/Technical Evaluation Panel to determine if the item offered meets the minimum quality standard described or preferred. It should be noted that the technical descriptions may also be used by the Business Panel for evaluation and confirmation of the item description as set forth in the Market Basket.
5. Technical descriptions submitted for Brand Name (NAPA) items must be an exact match to the specified Brand Name item/SKU (NAPA). You may not submit another manufacturer’s technical description as a substitute.

IV. SOCIOECONOMIC CONSIDERATIONS

Both large and small business offerors must indicate what portion of the proposal will be subcontracted to Small Business (SB), Small Disadvantaged Business (SDB), Women-Owned Small Business (WOSB), Veteran-Owned Small Business (VOSB), Service-Disabled Veteran-Owned Small Business (SDVOSB), and HUBZone Small Business (HZSB)

ADDENDUM TO FAR 52.212-1 (CONTINUED)

concerns in terms of percentages and total dollars. The percentage shall be formulated using the total to be subcontracted as the divisor. The offeror must describe the proposed SB, SDB, WOSB, VOSB, SDVOSB, and HZSB concerns' participation in the performance of this contract at the contractor, subcontractor, and product supplier levels. These figures shall pertain to the proposed acquisition only. These figures shall represent what percentage/dollar value of products to be supplied under this contract by a SB, SDB, WOSB, VOSB, SDVOSB, and HZSB manufacturer or distributor. A goal for the Prime Vendor may be to obtain at least 30% of the supplies for proposed contract from SB firms, 5% from WOSB, 5% from SDB firms, 2% from VOSB firms, 1% from SDVOSB firms, and 2% from HZSB firms.

Socioeconomic Definitions:

1. Small Business Concern: a firm, including its affiliates, that is organized for profit, independently owned and operated, not dominant in the field of operation in which it is competing, and can further qualify under the criteria concerning the number of employees, average annual receipts and other criteria as described by the Small Business Administration.
2. HUBZone Small Business Concern: a concern located in a "historically underutilized business zone"; is owned and controlled by one or more U.S. citizens; and at least 35% of its employees reside in the HUBZone. A HUBZone is a historically underutilized business zone, which is an area located in within one or more qualified census tracts, qualified non-metropolitan counties, or lands within the external boundaries of an Indian Reservation.
3. Small Disadvantaged Business Concern: a firm (1) that is at least 51% owned by one or more socially and economically disadvantaged individuals; or, in the case of any publicly owned business, at least 51% of the stock is owned by one or more socially and economically disadvantaged individuals and (2) whose management and daily operations are controlled by one or more such individuals. The term "socially disadvantaged" means individuals who have been subjected to racial or ethnic prejudice or cultural bias because of their identity as a member of groups without regard to their individual qualities. The following individuals are presumed to be socially disadvantaged: Black Americans, Hispanic Americans, Native Americans (Indians), Asian-Pacific Americans, and Subcontinent Asian Americans. The term "economically disadvantaged" means socially disadvantaged individuals whose ability to compete is impaired due to diminish capital and credit opportunities. Generally, a socially disadvantaged individual whose personal net worth does not exceed \$750,000 (\$250,000 for SBA 8(a) Program certification) excluding ownership interest in the company and equity in a primary residence, is considered to be economically disadvantaged.
4. Women Owned Small Business Concern: a small business concern that is at least 51% owned by one or more women; or in the case of any publicly owned business, at least 51% of the stock is owned by one or more women and whose management and daily business operations are controlled by one or more women.
5. Veteran Owned Small Business Concern: a small business concern that is not less than 51% of which is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in any case of any publicly owned business, not less than 51% of the

stock of which is owned by one or more veterans; and the management and daily operations of which are controlled by one or more veterans.

6. Service Disabled Veteran Owned Small Business Concern: a small business concern that is not less than 51% of which is owned by one or more service disabled veterans or, in the case of any publicly owned business, not less than 51% of the stock of which are controlled by one or more service disabled veterans; and the management and daily business operations of which are controlled by one or more service disabled veterans or, in the case of a veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran. Service disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service connected, as defined in 38 U.S.C. 101(16).
7. Subcontract: any agreement (other than one involving an employee-employer relationship) entered into by a Government Prime Contractor or subcontractor calling for supplies and/or services (direct costs only) required for contract performance, contract modification or subcontracts.

A. * Socioeconomic Goals

1. Under socioeconomic goals, and subsequent management reports, offerors are to submit figures based on direct subcontracts for items that would be supplied under contract. No direct costs for equipment or services are to be included.
2. The offeror shall describe the proposed extent of SB, SDB, VOSB, SDVOSB, and HZSB participation in the performance of the contract at the contractor, subcontractor and product supplier level. In addition, firms shall also state whether they are a LARGE or SMALL food service distributor. A small firm is defined as having less than an average of 500 employees and must not be a subsidiary or division of a large company/corporation.
3. * The following is the preferred format for the submission of socioeconomic data. Separate subcontracting goals must be submitted for each proposed contract.

	Dollar	Percent
1. Total Contract Price	\$_____	<u>100%</u>
2. Total to be Subcontracted:		
a. To Large Business:	\$_____	_____
b. To Small Business: (Total Small)	\$_____	_____
1. SDB	\$_____	_____
2. WOSB	\$_____	_____
3. VOSB	\$_____	_____
4. SDVOSB	\$_____	_____
5. HZSB	\$_____	_____
6. OTHER SB	\$_____	_____

ADDENDUM TO FAR 52.212-1 (CONTINUED)

Notes: 1) When calculating figures for socioeconomic goals, the business size of the manufacturer is to be considered, NOT the business size of the broker/agent that may have supplied the product to the distributor. 2) If the offeror is a Small, Small Disadvantaged, Veteran Owned, Small Service Disable Veteran Owned, Small Women Owned Small or HUBZone Small Business, the offeror may NOT include its “cost of doing business” as part of the subcontracting goals proposed for this acquisition. 3) Offerors that are Small Business will receive additional credit under this factor for evaluation purposes. 4) Performance on prior contracts in subcontracting with and assisting Small, Small Disadvantaged, Women Owned Small and HUBZone Small Business will be part of past performance evaluation.

B. Organizational Efforts

1. The offeror shall describe the efforts it will make to ensure that SB, SDB, WOSB, VOSB, SDVOSB, and HZSB concerns will have an equitable opportunity to compete for subcontracts or as product suppliers on this acquisition.
2. The offeror shall describe its willingness and any plans it has to develop additional opportunities for SB, SDB, WOSB, VOSB, SDVOSB, and HZSB concerns. The offeror must furthermore identify the employee(s) responsible for ensuring that an equitable opportunity is afforded to the SB, SDB, WOSB, VOSB, SDVOSB, and HZSB firms to compete for contracts or supplier selection.
3. The offeror must indicate what percentage of its available subcontracting (or supplier utilization) dollars is allocated to small business concerns. Included in this percentage range is an estimated total subcontracting allocation to SB, SDB, WOSB, VOSB, SDVOSB, and HZSB concerns.
4. The offeror shall be required to cooperate in studies or surveys in order to allow the Government to determine the extent of subcontracting opportunities identified for this acquisition.
5. The offeror is to demonstrate a knowledge of, and more preferably a working relationship with local, state, and/or federal organizations whose mission it is to promote Small Business, Small Disadvantaged Business, Women Owned Small Business, Veteran Owned Small Business, Service Disabled Veteran Owned Small Business and HUBZone Small Business.

Note: Large business offerors are required to submit the Small, HUBZone Small, Small Disadvantaged Business, Veteran Owned Small Business, Service Disable Veteran Owned Small Business, and Women Owned Small Business Subcontracting plan information as required by Clause 52.219-9, “Small Business Subcontracting Plan” in addition to the information that is a requirement of this section of the proposal. The subcontracting plan required by the FAR clause can incorporate all costs, direct and indirect, associated with this proposal. If an individual contract Subcontracting Plan is submitted, the plan

must contain separate Small, HUBZone Small, Small Disadvantaged, Veteran Owned Small Business, Service Disabled Veteran Owned Small Business and Women Owned Small Business subcontracting percentages and dollar levels for the base year as well as each option year.

V. JAVITS-WAGNER-O'DAY ACT ENTITY SUPPORT

A. The offeror must provide the following:

1. A description of the efforts your company will make to assure that Javits-Wagner-O'Day Act (JWOD) qualified nonprofit agencies for the blind or other severely disabled will have equal opportunity to compete for subcontracts under any resulting contract. Describe your current and proposed range of services, supplies, and any other support that will be provided to you by JWOD concerns. Include specific names of such subcontractors, to the extent they are known. Describe any future plans your company has for developing additional subcontracting possibilities for JWOD entities, or ways in which these entities could be partnered with other business and agencies in opportunities to diversify revenue production during the contract period.
2. *Specify what portion of your proposal, **as a percentage of dollars**, will be subcontracted to JWOD entities.
3. Progress reports in reference to your subcontracting efforts with JWOD activities will be submitted to the Contracting Officer as part of your monthly socioeconomic report. Provide the name and title of the individual principally responsible for ensuring company support to such entities (generally, this is the individual responsible for subcontracting with Small, Small Disadvantaged, and Women Owned Small business, etc.).

VI. DLA MENTORING BUSINESS AGREEMENT (MBA)

The DLA MBA Program was designed for prime contractors to provide developmental assistance to Small Business, Small Disadvantaged Business and Women Owned Small Business concerns for value added services and/or products. Prime contractors may also mentor Javits-Wagner-O'Day (JWOD) qualified nonprofit agencies for the blind and other severely disabled that have been approved by the Committee for Purchase from People Who Are Blind or Severely Disabled under the JWOD Act.

DLA MBA's encourage participation and growth opportunities for Small, Small Disadvantaged, Women Owned Small Business concerns or JWOD workshop that will participate in carrying out the requirements of the prime contract. The opportunities must constitute real business growth, which is measurable and meaningful.

An MBA shall be a written agreement between the prime contractor and the Small, Small Disadvantaged, Women Owned Small Business, or other applicable business, involved. The mentor will be required to submit periodic progress reports on its agreements. An MBA shall include, at a minimum, the elements listed below:

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

ADDENDUM TO FAR 52.212-1 (CONTINUED)

* Participants: Cite the criteria in selecting a firm or firms with whom to mentor. Include the following information with all submissions:

1. Name, address, and plant location for contract holder and potential or actual SB/SDB/WOSB or JWOD participant(s).
2. Point of contact, job title, and phone number of all personnel involved in the development and oversight of any agreement from both parties.
3. The number of people employed by the Small Business, Small Disadvantaged Business, or Women Owned Small Business concern. If the firm is in the service sector, specify its annual average gross revenue for the last three (3) fiscal years.

A. Agreement Type

1. Describe the type of agreement executed by the contract holder and the Small business, Small Disadvantaged Business, Women Owned Small Business or JWOD entity. The agreement should state the benefits of the plan for both parties. Criteria in selecting firm(s) shall be included as previously stated. The Contracting Officer will review the plan to ensure that the agreement will not jeopardize future contract performance. The agreements should clearly define the roles and responsibilities of each party. Plans that identify new business ventures rather than expansion of existing agreements are preferred. Indicate whether or not signed mentoring agreements exist or are in the planning/development stage.
2. DLA MBA Agreements shall specifically identify the areas of developmental assistance (i.e. management/technical) that will be provided. The offeror should provide a discussion of the areas chosen for development/enhancement. Describe the scope of the plan, i.e. whether the plan will be specifically related to the requirements contained in the solicitation or if the plan will cover other Government and commercial customers.
3. Offerors shall identify and describe the management control techniques that would be used to insure that contract requirements are met. This should include the record keeping and communication techniques and the methods to be used to control track performance.

B. Measurements and Reporting

1. Provide milestones for program implementation.
2. Discuss and describe the measurement/yardsticks that will be utilized to determine if the program objectives have been met. Projections of successful measurements should result in:
 - a. An increase in the dollar value of subcontracts awarded to SB/SDB/WOSB and JWOD workshops under DLA contracts.
 - b. An improvement in the participation in DoD, other Federal agencies and commercial contracting opportunities.

*THIS PORTION MUST BE SUBMITTED IN WRITING

I. PRICING

- A. An evaluation will be made against the market basket items, which are selected from the highest usage items and general and non-food supplies provided by the customers supported under this solicitation, as well as items listed under the Basic Daily Food Allowance (BDFA) listing. Estimated annual quantities for the items selected are indicated next to each item and are for information and evaluation purposes only. A separate evaluation will be made of the offeror's distribution pricing, using the same Market Basket of items.
- B. Offerors are to submit their most current unit prices. The invoices should reflect the prices effective within two (2) weeks prior to closing or within two weeks prior to final proposal revision, as applicable for these items. However, if invoices are not available for that time period, e.g., products not purchased within that time period, the most recent invoices shall be submitted reflecting the last purchase made for the item. This unit price submitted must reflect the delivered price separately and the distribution price separately, then added together. For example, if the delivered price is \$2.00 and the distribution price is \$0.50, pricing should be formulated to reflect a \$2.50 unit price as follows:

$$\$2.00 + \$0.50 = \$2.50$$

1. Do not submit only the unit price; the two (2) elements must be shown separately as two separate evaluations are being performed.
 2. DO NOT deduct NAPA or Food Show allowances from the delivered price on your business proposal.
 3. Prices for Market Basket Schedule of Items are to be submitted according to the Government's unit of issue (THERE ARE NO EXCEPTIONS). The Market Basket will ultimately become part of the vendor catalog. The prices submitted at the time of final revisions will be incorporated into the vendor's catalog. This means that the awardee(s) final prices will be the prices for the same items in the catalog when the contract becomes effective. This catalog will initiate the baseline prices.
- C. Prices must not extend more than two (2) places to the right of the decimal point. Standard rounding methods should be observed. For example, a delivered price of \$4.578 plus a distribution price of \$0.232 should be rounded to \$4.58 plus \$0.23.
- D. If an offeror carries a variety of brands for the same item, the price submitted shall be for the lowest price, technically acceptable, item that meets the Government's minimum requirements. However, Brand Name/NAPA items must be priced according to the exact Brand Name –SKU/ NAPA that is listed in the Market Basket, as specified.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

ADDENDUM TO FAR 52.212-1 (CONTINUED)

- E. ALL offered delivered prices must be substantiated with a copy of the manufacturer's invoice for each item in the Schedule of Items. The Market Basket Item No. must be reflected on each invoice so as to identify what item each invoice corresponds to. The preferred documentation is the manufacturer's invoice. However, if you do not have a manufacturer's invoice due to the item not currently being carried in your inventory, a written quote from the manufacturer will be accepted. The quote must be presented in the following manner:
1. Detailed on manufacturer/company letterhead;
 2. Date price quote was supplied;
 3. Time period price quote is effective;
 4. Quantity covered by price quote;
 5. Manufacturer part number; and
 6. Manufacturer's point of contact, including name, title, address, and phone number.
- F. The invoices should reflect the prices effective within two (2) weeks prior to closing or within two weeks prior to final proposal revision, as applicable for these items. If invoices are not available for that time period, the most recent invoices shall be submitted reflecting the last purchase made for the item. The Government has a strong preference for invoices over market quotes and prices within two (2) weeks from closing over earlier dates. For evaluation purposes, the offeror is required to submit pricing for Market Basket Items that will meet the Government's minimum requirement, except for Brand Name items, which must be priced according to the exact brand name product.
- G. Offerors are required to submit this portion of the Business Proposal on a spreadsheet containing the following information:
1. Item: Item number and description as listed;
 2. Estimated Quantity: Quantity given;
 3. Unit of Issue: Self explanatory. Note: Unit of Issue must be the same as the Government's listed in the Market Basket of Items;
 4. Distribution Price Category: Identify by number, the distribution category each item falls under for purposes of establishing the distribution price. For example, if the market basket item is ground beef patties, #3 would be inserted;
 5. Delivered Price (DEP): The price you actually paid for the item, as substantiated by the manufacturer invoice (landed cost);
 6. Distribution Price (DIP): Your distribution price;
 7. Unit Price: Delivered Price + Distribution Price;
 8. Total: Estimated Quantity multiplied by Unit Price;
 9. DIP/DEP: Distribution Price divided by the Delivered Price
 10. DIP AGG: Quantity multiplied by the Distribution Price.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

ADDENDUM TO FAR 52.212-1 (CONTINUED)

All prices submitted MUST NOT be more than two (2) places to the right of the decimal point. If in any column prices appear having more than two (2) decimal places, the Government will automatically round your prices using standard rounding procedures. Be sure that all formulas used within your Excel spreadsheet utilize prices with no more than 2 decimals.

- H. When preparing the spreadsheet, totals must appear at the bottom of the “TOTAL” column and the “DIP AGG” column. Firms MUST use Microsoft Excel to complete the spreadsheets and submit a CD with the completed workbook on it. Remember to include the offeror’s name on the top of the spreadsheet.
- I. Each firm must submit a hard copy of their spreadsheet, for the base term and each option term, as well as a copy of the spreadsheet(s) on a CD. (This means four spreadsheets or one workbook with a sheet labeled for each option term plus the base term).
- J. Option term prices must be submitted in dollars and cents for each item for each option period under the Market Basket Schedule of Items.
- K. For evaluation purposes of the Market Basket of Items, distribution prices shall correspond to the unit of issue for each product, e.g. if the offered product is issued on a “per pound” basis, the distribution price shall be “per pound”. For pricing analysis purposes, the distribution price may be listed to the extent of two (2) places to the right of the decimal point only.
- L. The offeror must also submit option term prices, expressed as the delivered price plus the distribution price. All components of the option term unit price must be rounded to two (2) places beyond the decimal point. If an offeror does not submit option term prices, the offeror’s proposal may be rejected. Option term price increases or decreases are to be expressed in dollars and cents or a percentage increase or decrease from the base/previous option period for all Distribution Categories. The firm may also elect to offer no change in the distribution prices over the life of the contract. If distribution prices per term are increased or decreased by a certain percentage, i.e., .5% decrease on option 1 from base term, the spreadsheet pricing data must reflect such percentage in dollars and cents.

Note: Please use an Anti-Virus utility to ensure that your CD is virus free before submitting.

- M. Use the spreadsheet provided on DIBBS website, <https://www.dibbs.bsm.dla.mil/>, named “SPM300-06-R-0063-MARKET BASKET.xls”

Each spreadsheet or sheet shall have a heading labeled as Base Term, Option 1, Option 2, etc.

II. DISTRIBUTION PRICES

- A. Firms shall offer a distribution price for each category of items as they are listed in this solicitation. The distribution price must be offered as a dollar amount. Distribution prices offered as a percentage of the delivered price are not acceptable. The distribution price shall represent the amount to be added to the actual invoice price paid to the manufacturer or supplier by the prime vendor for each food, beverage, and/or non-food product.
- B. Offerors must use the Government's Category Listing contained in the section entitled "Supplies/Services and Prices". However, offerors may use an additional, alternate Government Category Listing, personally developed, if submitting an alternate proposal in addition to the proposal required using the Government's Category Listing.
- C. For the Distribution Price Category Listing, prices are to be offered in the same manner in which you sell the product. For example, if you sell a product by the "case", then the distribution price will be by the "case". Whereas, if you sell the product by the "pound" or by the "each", the distribution price would be listed accordingly. If products are sold by the "case" and by the "pound", then prices should be offered for both units of measures.
- D. The distribution prices shall remain constant for the complete base term of the contract; however, distribution prices may remain the same, increase, or decrease for each option year.

III. PRODUCT LISTING

- A. The offeror shall submit two (2) copies of its complete product listing for all food, beverage, and related non-food items as part of the Business Proposal.

IV. PRIME VENDOR MARKET BASKET SCHEDULE OF ITEMS

A copy of the Market Basket Schedule of Items is attached to this solicitation as Attachment 1; reflecting only annual quantities. For the required pricing submissions, please refer to the Excel spreadsheet posted on the DIBBS website, <https://www.dibbs.bsm.dla.mil/>, for each contract term including all option terms.

<u>FAR 52.212-2 EVALUATION—COMMERCIAL ITEMS (JAN 1999)</u>

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

Experience/Past Performance, Distribution System/Capability, Quality Assurance, Socioeconomic Proposal, Javits-Wagner-O'Day Act Entity Support, DLA Mentoring Business Agreement (MBA), in descending order of importance.

Technical and past performance, when combined, are significantly more important than cost or price. Note that technical, not a factor, refers to the other factors under the Technical Proposal other than past performance.

(b) *Options*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

ADDENDUM TO FAR 52.212-2

Clause 52.212-2 “Evaluation – Commercial Items”, which is incorporated herein in full text, is revised as follows:

1. Paragraph (a) is hereby expanded to read as follows:

However, when proposals become more equal in technical merit, the evaluated cost or price becomes more important.

2. Add paragraph (d) as follows:

(d) Source Selection and Evaluation Procedures:

- (1) Summary

Subsequent to the date specified in the solicitation for receipt of proposals, all timely proposals will undergo a technical and business evaluation as described in paragraph (b)(2) below. The Contracting Officer may make a competitive range determination based on these evaluations, and submit it to the Source Selection Authority (SSA) for approval. Unless award is made on the basis of initial proposals, written and/or oral discussions will be conducted with all offerors in the competitive range. Final revised offers resulting from discussions will undergo further technical and business evaluations. Finally, a proposal will be selected for award by the SSA, as described in paragraph (b)(3) below.

- (2) Evaluation Process.

- (i) Technical Evaluation Process – Offerors are required to present a portion of the technical information orally and to submit the remainder of the technical proposal in writing, as prescribed in the section of this solicitation entitled “Submission Requirements”. Each technical proposal will be evaluated by the Technical Evaluation Panel against the technical factors specified in paragraph (a) above. Proposals so technically deficient as to make them technically unacceptable will be rejected as unacceptable, regardless of the cost or price offered. No discussions will be held with rejected offerors, nor will any rejected offeror be given an opportunity to revise its offer to correct deficiencies in order to become acceptable after the date and time specified for the receipt of offers.

- (ii) Business Evaluation Process – Each proposal will be evaluated against the requirements of the solicitation. The Government will evaluate limited pricing data with the initial proposals and during discussions, in accordance with FAR 15.4, “Contract Pricing”. The Government will evaluate the successful offeror’s proposal to determine cost or price realism. Cost or price realism will demonstrate an offeror’s understanding of the requirements of the solicitation. Included in this process is the evaluation of options. The Government will evaluate offeror’s pricing on the items in the Market Basket/Schedule of items.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

ADDENDUM TO FAR 52.212-2 (CONTINUED)

The estimated quantities shall be multiplied by the unit prices to determine the lowest overall cost to the Government. These figures will be totaled to arrive at an aggregate value. Pricing will be evaluated for all option years in the same manner. All four (4) totals will be added together to determine the lowest overall cost to the Government. Distribution prices that do not relate to the market basket items will be evaluated for fairness and reasonableness. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of the options shall not obligate the Government to exercise the option(s).

(3) Selection Process

The final technical and business evaluation reports will be furnished to the Contracting Officer by the Technical Evaluation Panel/Business Evaluation Panel. The Contracting Officer will prepare a written recommendation for award and forward it to the SSA. It is the ultimate decision of the SSA to determine which offeror receives the award.

<u>ADDENDUM TO FAR 52.212-2</u> <u>EVALUATION FACTORS FOR AWARD</u> <u>TECHNICAL PROPOSAL EVALUATION</u>

The following evaluation factors are listed in descending order of importance. Each factor will state the importance of its subfactor. The Government will make a risk assessment based on information contained in the proposal and other information, which has or may derive from sources other than the proposal. The risk assessment will be evaluated in the rating for any factors and/or subfactors that place the Government at risk.

I. EXPERIENCE/PAST PERFORMANCE

The subfactors for Experience/Past Performance are of equal weight.

A. Experience

1. The Government will perform an integrated assessment of the offeror's individual house experience. This assessment will also be performed for any partner(s) or joint venture(s) that will perform in support of the proposed contract. The Government will evaluate the offeror's experience in fulfilling requirements of similar dollars and volume for other customers in a Prime Vendor/regular dealer capacity and other Government contracts, if any. This assessment will also be performed for any partner that will perform in support of the proposed contract. This evaluation will be based on the offeror's proposal, as well as any in-house Government records, if applicable.
2. The offeror's identification of key personnel, and its individual experience, will be examined in order to determine the anticipated success of the firm in providing service to its customers. This information should be addressed during the Oral Presentation.

B. Past Performance

1. When evaluating Past Performance, the offeror's written proposal, Government in-house records (if applicable), and the information provided by the points of contact or references designated by the offeror will be taken into account. Government in-house records will be considered more significant than information provided by other references.

5. The offeror's policy regarding minimum order quantities to add new products to inventory as well as the offeror's time frame in which new products will be added will be assessed.
6. The offeror's turnover ratio will be examined.

C. Force Protection

1. The Government will evaluate the offeror's security plans relating to plant security and security of the product in light of the heightened threat of terrorism. The steps taken to insure that products and/or packaging have not been tampered with or contaminated throughout the entire manufacturing, storage, and distribution process will be evaluated.

D. Distribution Resources

1. The firm's available capacity and resources will be evaluated as to how the requirement of the solicitation will be supported. Included, but not limited to, are warehouse space, delivery vehicles and equipment, and other resources.

IV. SOCIOECONOMIC CONSIDERATIONS

Note: For Socioeconomic considerations under this factor, only product related direct costs are to be incorporated – NO INDIRECT OR SERVICE RELATED COSTS.

A. Socioeconomic Goals

1. The Government will evaluate the offeror's socioeconomic plan to ensure that, to the maximum extent practical, Small, Small Disadvantaged, Women Owned Small, Veteran Owned Small, Service Disabled Veteran Owned Small and HUBZone small businesses are used as both suppliers and subcontractors in support of this Prime Vendor contract. The Government will evaluate the participation levels in terms of the percentages and dollar values and comparatively assess the goals amongst the offerors.

B. Organizational Efforts

1. The Government will evaluate the measures that the offeror will take to ensure equitable opportunity, and further the opportunities, for Small, Small Disadvantaged, Women Owned Small, Veteran Owned Small, Service Disabled Veteran Owned Small and HUBZone Small businesses. The offeror that has the highest percentage of participation with Small, Small Disadvantaged, Women Owned Small, Veteran Owned Small, Service Disabled Veteran Owned Small and HUBZone Small Business combined, at the contract and subcontract level, will receive the highest rating. Offerors that are Small Business Concerns will receive additional credit under this factor.

V. JAVITS-WAGNER-O'DAY ACT ENTITY SUPPORT

- A. The Government will evaluate the offeror's JWOD proposal on a comparative basis among all offerors per 52.215-9004 DLAD. An offeror that proposes or demonstrates a higher percentage, complexity level, and variety of participation by JWOD qualified nonprofit agencies for the blind or other severely disabled as subcontractors beyond those items for which JWOD entities are the mandatory source generally will receive a higher rating. Offeror's proposals for such support will be made a part of any resulting contract for use in determining how well the contractor has adhered to its plan. Offeror is required to submit percentages supporting this program on a monthly basis to the Contracting Officer within the Socioeconomic Report.

VI. DLA MENTORING BUSINESS AGREEMENT (MBA)

--

business ventures rather than expansion of existing agreements. This evaluation will also be used to determine the offeror's willingness to assist SB's, SDB's, WOSB's, and JWOD entities in expanding their businesses.

The following evaluation criteria are listed in descending order of importance. Aggregate Pricing (Factor I) is relatively more important than Aggregate Distribution Pricing (Factor II) and Aggregate Distribution Pricing (Factor II) is relatively more important than Category Distribution Prices (Factor III). However, as the difference in the aggregate prices of technically equal offers decrease, the importance of Aggregate Distribution Prices and Category Distribution Prices will increase.

I. AGGREGATE PRICING

- A. The Government will evaluate each offeror's aggregate pricing by determining the total price offered. This dollar value will be calculated by multiplying the individual unit prices by the estimated usage requirements for each of the items listed in the Market Basket Schedule of Items. The aggregate dollar value, to include individual unit prices, will then be evaluated for reasonableness and overall lowest price to the government. The Market Basket Schedule of Items is selected from the usage figures of primary customers provided by data obtained from the STORES MIS and Vendor Management Reports and consists of products from nearly all FSC Classes.

II. AGGREGATE DISTRIBUTION PRICES

- A. The Government will evaluate each offeror's distribution prices by determining the aggregate dollar value. This dollar value will be calculated by multiplying the individual distribution price by the estimated usage requirements for each of the items listed in the Market Basket Schedule of Items. The aggregate dollar value will then be evaluated for reasonableness and overall lowest price to the Government. Firms shall offer a distribution price for each category of item. The distribution price is defined as a firm fixed price, offered as a dollar amount, which represents all elements of the contract price other than the delivered price. The distribution price shall represent the amount to be added to the actual invoice price paid by the prime vendor for each food or beverage product to the manufacturer or supplier. The Market Basket Distribution Price will be validated for accuracy against the distribution price category. Distribution prices for all categories that do not relate to the market basket of items will be evaluated for fairness and reasonableness. The percentage of distribution price to total aggregate cost will also be evaluated.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

ADDENDUM TO FAR 52.212-2 (CONTINUED)

III. CATEGORY DISTRIBUTION PRICES

- A. The Government will evaluate each offeror's category distribution prices by determining an aggregate dollar value based on each category and its corresponding distribution price. One single unit of measure distribution price for each of the categories will be used for determining the lowest overall cost. The category distribution prices will then be evaluated for overall low cost to the Government. Distribution category prices will be evaluated on equivalent units of measure for each offeror. There will also be a comparative analysis of distribution prices to identify price reasonableness.

IV. PRODUCT LISTING

- A. The offeror's current product listing shall be used for informational purposes and will not be evaluated under the Business Proposal.

DSCP 52.217-9P13 EVALUATION OF OPTIONS -- SOURCE SELECTION FOR AN INDEFINITE-DELIVERY, INDEFINITE-QUANTITY CONTRACT (JAN 1992)

(a) For award purposes, in addition to an offeror's response to the base ordering period, the government will evaluate its response to all options, both technical and price. To evaluate price, the government will add the total price for all options to the total price for the base ordering period. Further, where a contract line or subline item number in section B specifies a minimum and maximum quantity, the maximum quantity will be used to determine the total price. Evaluation of options will not obligate the government to exercise the options. For this solicitation, the options are as specified in clause 52.217-9P12.

(b) Should offerors propose option prices which vary (for example, with quantities actually ordered and the dates when ordered), these offers will be evaluated using the highest option price offered for each item.

Sample Subcontracting Plan

THE ATTACHED GUIDE WAS DEVELOPED AS A CHECKLIST TO BE USED BY CONTRACTORS IN THE PREPARATION OF A SMALL BUSINESS SUBCONTRACTING PLAN IN ACCORDANCE WITH THE REQUIREMENTS OF PUBLIC LAW 95-507. THE GUIDE ADDRESSES THE SIX MANDATORY ELEMENTS OF A SUBCONTRACTING PLAN AS SET FORTH IN FAR CLAUSE 52.219-9(D) AND SUPPLEMENTAL INFORMATION REQUIRED BY SECTION 1207 OF P.L. 99-661, CONTRACT GOAL FOR MINORITIES. IT IS INTENDED AS A TOOL TO ASSIST CONTRACTORS IN THE DEVELOPMENT OF AN ACCEPTABLE SUBCONTRACTING PLAN AND TO FACILITATE THE REVIEW BY THE CONTRACTING OFFICER, THE DSCP AND DEFENSE CONTRACT MANAGEMENT AGENCY (DCMA) SMALL BUSINESS SPECIALISTS AND THE SMALL BUSINESS ADMINISTRATION PROCUREMENT CENTER REPRESENTATIVE.

Notes: 1) Vendor Representations for Hub Zone Small Business and Small Disadvantaged Business require SBA certification.

2) The features of the former SBA PRO-Net site are now available only via the Department of Defense (DoD) Central Contractor Registration (CCR). The CCR “Dynamic Small Business” function performs the same searches as PRO-Net, and the “Supplemental Pages” will register/update the associated SBA profile if the firm is a small business.

THIS HANDOUT IS TO BE USED ONLY AS A REFERENCE TOOL IN PREPARING A SUBCONTRACTING PLAN.

SUBCONTRACTING PLANS

The Federal Acquisition Regulation, Clause 52-219.9 cites the six elements that each Subcontracting Plan must contain, i.e., goals; name and duties of the individual who will administer the plan; a description of efforts; flow down clause; reports and records.

Goals: expressed in terms of percentages and dollars of the total contract value that are planned to be subcontracted to small business, veteran-owned small business, service-disabled veteran-owned small business, HUB Zone small business, small disadvantaged business and women-owned small business concerns that are realistic.

Administration: Name, title, and position within the corporate structure; duties and responsibilities of the individual who will administer the subcontracting program.

Description of Efforts: Describe steps to be taken to ensure equitable opportunities to small, veteran-owned small business, service-disabled veteran-owned small business, HUB Zone small business, small disadvantaged business and women-owned small business concerns.

Flow down Clause: Requirement for subcontracts that offer further subcontracting opportunities and for subcontracts in excess of \$500,000.

Reports: Requirement to submit periodic reports

Records: Requirement to maintain records on adopted procedures to comply with requirements and goals in the plan.

The following information will assist you in determining what type of plan would be most beneficial for your company to submit.

INDIVIDUAL SUBCONTRACTING PLAN:

This type of plan covers the entire contract period (including option years, however, separate goals are required for the base year and each option year); applies to a specific acquisition; and has goals based on planned subcontracting for the specific contract except indirect costs, incurred for common or joint purposes, may be allocated on a prorated basis to the contract. The plan shall address all six elements as cited above. The plan when approved and incorporated into the contract will remain in effect until the contract has been completed.

**PRIME VENDOR SUPPORT
TEXAS/OKLAHOMA**

MASTER SUBCONTRACTING PLAN:

This type of plan contains all the required elements of an individual plan, except goals. It can be submitted on a plant-wide or division-wide basis with no specific acquisition identified. The subcontracting goals and any deviations from the approved plan shall be identified by the offeror as an addendum to the approved Master Plan. The offeror will be required to provide the Procuring Contracting Officer (PCO) with copies of the approved Master Plan along with the addendum which cites the goals and deviations, if any. The approved master plan and the addendum are formulated into an individual subcontracting plan, which can be identified with a specific acquisition. A master plan is effective for a three-year period after approval by the Administrative Contracting Officer (ACO). The master plan, when incorporated in an individual plan, applies throughout the life of the contract.

COMMERCIAL PRODUCTS SUBCONTRACTING PLAN:

This type of plan is submitted on a plant-wide or division-wide basis with no specific acquisition identified. A commercial product means a product in regular production that is sold in substantial quantities to the general public and/or industry at established catalog or market prices. It also means a product which, in the opinion of the Contracting Officer, differs only insignificantly from the contractor's commercial product. The plan addresses all six elements as cited above. If a commercial product is offered, the subcontracting plan covers the company's production generally, both for government contracts and for regular commercial sales. The plan will remain in effect for the entire fiscal year for all government contracts in effect during the period. It is preferred that the plan coincide with the government's fiscal year since the activity under this type of plan is reported once a year on the SF 295. The contractor is required to submit a new commercial plan, 30 working days before the end of the fiscal year to the contracting officer. It is the contractor's responsibility to insure that it has an approved commercial plan on file for each year of contract performance.

4 In accordance with FAR Clause 52.219-9 – The offeror’s subcontracting plan shall include, at a minimum, the following:

1. Goals, expressed in terms of percentages of total planned subcontracting dollars, for the use of small business, veteran-owned small business, service-disabled veteran-owned small business, HUB Zone small business, small disadvantaged and women owned small business concerns as subcontractors. The offeror shall include all subcontracts that contribute to contract performance, and may include a proportionate share of products and services that are normally allocated as indirect costs. For individual contract plans, the total dollars to be subcontracted are stated. For commercial plans, the total projected sales, expressed in dollars, and the total value of projected subcontracts to support the sales are stated.

2. The suggested format for percentage and dollar goals follows:

Information referenced in the supplemental pages to the CCR's "Dynamic Small Business Search" can be relied upon as an accurate representation of a concern's size and ownership for the purposes of maintaining a small business, veteran-owned small business, service-disabled veteran-owned small business, HUB Zone small business, small disadvantaged business and women-owned small business source list. Use of the CCR "Dynamic Small Business Search" as its source lists does not relieve a firm of its responsibilities (e.g., outreach, assistance, counseling, or publicizing subcontracting opportunities) in this clause.
