- (A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
- (B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has falled to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

- (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
- (B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filling, and to further appeal to the Tax Court if the IRS determines to sustain the lien filling. In the course of the hearing, the taxpayer is enlitted to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability.

Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

- (C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
- (D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).
- (i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any such end product furnished under this contract. On the basis of those efforts, the offeror certifies that it is not aware of any such use of child labor.
- (j) Place of manufacture. (Does not apply unless the solicitation is predominantly for the acquisition of manufactured end products.) No paper invoices shall be submitted to DFAS for payment. All invoices submitted by the Contractor must be "clean," i.e. all debits and/or credits must be reflected on the invoice prior to submission. Electronic invoices should be filed promptly (i.e. once all credits and/or credit adjustments are made) and in any case, in fewer than 90 days after delivery.
 - Invoice transactions may be submitted to DLA TROOP SUPPORT daily; however, it cannot be stressed enough that all internal debit/credit transactions must be completed prior to the submission of the invoice. Invoice lines that do not contain the correct invoice data and/or contain incorrect quantities delivered or prices charged will be rejected. The contractor will be responsible for correction and re-submission.
 - (6) The same invoice cannot be submitted with different dollar amounts.
 - (7) For catch weight items, standard rounding methods must be observed, i.e. < 5: rounded down; = 5 or > 5: rounded up. All weights must be rounded to whole pounds using standard rounding methods. Any line submitted for other than whole numbers will be rejected and require correction and re-submission by the contractor.

- (8) Unit prices and extended prices must be formatted not more than two (2) decimal places to the right of the decimal point. Subsistence Total Order and Receipt Electronic System (STORES) will not accommodate positions of 3 and above beyond the decimal point (see Attachment 10).
- (9) The following address must appear in the "Bill To" or "Payment Will Be Made By" block of the Contractor's invoice:

DFAS BVDP (\$L4701) P.O. Box 369031 COLUMBUS, OH 43236-9031

(10) Each invoice shall contain sufficient data for billing purposes. This includes, but is not limited to:

Contract Number, Call or Delivery Order Number, and Purchase Order Number; DoDAAC;

Contract line listed in numeric sequence (also referred to as CLIN order); Item nomenclature;

LSN or NSN;

Quantity purchased per item in DLA TROOP SUPPORT's unit of issue; Total dollar value on each invoice (reflecting changes to the shipment, if applicable).

- (11) Contractors are required to use the Vendor Reconciliation Tool [see 4. (10) below] to identify and correct mismatches between invoices submitted and customers posted receipts. It is the responsibility of the Contractor to adjust as necessary and communicate with the customer or DLA TROOP SUPPORT as needed, in order to resolve any/all discrepancies. In the event of an unresolved payment discrepancy, the contractor must present a signed delivery ticket/invoice.
- 4. Paragraph (i), Payment, is revised to add the following:
 - (7) DFAS Columbus Center is the payment office for this acquisition.
 - (8) All 810 electronic invoices must be submitted with accurate, sufficient, clean data before any payment can be made.
 - (9) All offerors must have the ability to accept an 820 transaction set from its financial institution.

 DFAS Columbus will no longer forward a detailed summary of payment(s); this information will only be available from your bank.
 - (10) Vendor Reconciliation Tool: In an effort to improve the payment process, contractors will have availability to view what the customer has or has not receipted, via the Business Systems Modernization (BMS) website http://www.troopsupport.dla.mil/subs/recon1.pdf. The Contractor will have access to "unreconciled" information, i.e. the invoice does not match the receipt because of a quantity or price discrepancy, or because the customer has not posted a receipt. Both invoice

information and receipt information will be available for review on the BSM website by the Contractor. While the contractor will not have the capability to update customer receipt information, update capability will be available for unreconciled invoice information for approximately 30 days.

- (11) The Government intends to make payments under the resultant contract by electronic funds transfer (EFT). Reference Clause 52.232-33, "Mandatory Information for Electronic Funds Transfer Payment" appearing in the section of this solicitation entitled "Contract Clauses." However, the election as to whether to make payment by check or electronic funds transfer is at the option of the Government.
- 5. Paragraph (m), Termination for Cause. Delete paragraph (m) in its entirety and substitute the following:
 - (m) Termination for Cause. The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If this contract is terminated in whole or in part for cause, and the supplies or services covered by the contract so terminated are repurchased by the Government, the Government will incur administrative costs in such repurchases. The Contractor and the Government expressly agree that, in addition to any excess costs of repurchase, or any other damages resulting from such default, the Contractor shall pay, and the Government shall accept, the sum of \$1,350.00 as payment in full for the administrative costs of such repurchase. This assessment of damages for administrative costs shall apply for any termination for cause following which the Government repurchases the terminated supplies or services together with any incidental or consequential damages incurred because of the termination. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.
- 6. Paragraph (o), Warranty, is revised to add the following:

"In the event that a product recall is initiated by the Contractor, grower or manufacturer, the Contractor shall follow the procedures as outlined below:

Immediately notify the following personnel:

Customers that have received the recalled product; DLA TROOP SUPPORT Contracting Officer; DLA TROOP SUPPORT Account Manager; and DLA TROOP SUPPORT Consumer Safety Officer at 215-737-3845

The Contractor shall provide a Final Status Report of Recall, when completed, to the DLA TROOP SUPPORT Consumer Safety Officer."

The supplies furnished under the resultant contract(s) shall be covered by the most favorable commercial warranties that the Contractor gives to any customer. The supplies and the rights and remedies provided therein are in addition to, and do not limit, any rights afforded to the Government by Clause 52.212-4(o) "Warranty," "Contract Terms and Conditions-Commercial Items" and any addendum contained in the solicitation.

- 7. Paragraph (s), Order of precedence, is revised to add the following:
 - (10) The Vendor's Non-Price Proposal
- 8. Paragraph (t), System for Award Management

(a) Definitions.

"System for Award Management (SAM) database" means the primary Government repository for contractor information required for the conduct of business with the Government.

"Commercial and Government Entity (CAGE) Code" means-

(1) A code assigned by the Defense Logistics Information Service (DLIS) to identify a commercial or Government entity; or

(2) A code assigned by a member of the North Atlantic Treaty Organization that DLIS records and maintains in the CAGE master file. This type of code is known as an "NCAGE code". "Data Universal Number System (DUNS) Number" means the 9-digit number assigned by Dun

and Bradstreet, Inc. (D&B) to identify unique business entities.

"Data Universal Numbering System +4 (DUNS+4) Number" means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional SAM records for identifying alternative Electronic Funds Transfer (EFT) accounts (see Subpart 32.11 of the Federal Acquisition Regulation) for the same parent concern.

"Registered in the System for Award Management database" means that-

- (1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, and Contractor and Government Entity (CAGE) code into the SAM database;
 - (2) The contractor has completed the Core Data, Assertions, Representations and Certifications, and Points of Contact sections of the registration in the SAM database;
 - (3) The Government has validated all mandatory data fields to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service. The Contractor will

be required to provide consent for TIN validation to the Government as part of the SAM registration process; and

(4) The Government has marked the record "Active".

9. Add: Paragraph (v), Contractor Performance Assessment Reporting System (CPARS):

Background

Contractor Performance Assessment Reporting System (CPARS) is now hosting web-enabled applications that are used to collect and manage a library of automated Contractor performance evaluations that are completed in accordance with FAR Parts 36 and 42. FAR Part 36 identifies the requirements for documenting Contractor performance for architect-engineer and construction contracts while FAR Part 42 identifies requirements for documenting Contractor performance for systems and non-systems acquisitions. The CPARS applications are designed for UNCLASSIFIED use only. Classified information is not to be entered into these systems. In general, Contractor performance assessments or evaluations provide a record, both positive and negative, for a given contract during a specified period of time. When evaluating Contractor performance each assessment or evaluation is based on objective facts and is supported by program and contract management data, such as cost performance reports, customer comments, quality reviews, technical interchange meetings, financial solvency assessments, construction/production management reviews, Contractor operations reviews, functional performance evaluations, and earned contract incentives.

Effective October 1, 2006, a Department of Defense (DoD) Public Key Infrastructure (PKI) Certificate will be required for all DoD users accessing CPARS. Effective November 1, 2006, a DoD PKI Certificate will be required for all Contractor users accessing CPARS. The requirement for PKI certificates is implemented in accordance with DoD security policy promoting secure electronic transactions.

Obtaining a PKI certificate

Contractors who do not work at a Department of Defense facility may purchase a DoD PKI certificate from one of three External Certificate Authorities (ECAs). The ECAs are contractors who provide digital certificates to DoD's industry partners who are using their own equipment or working in non-government facilities. A list of ECAs is available at http://iase.disa.mil/pki/eca/certificate.html. Each Contractor employee accessing CPARS will need an Identity Certificate (An Encryption Certificate is not required). Certificate prices range in from \$99 - \$115 per certificate per year, with volume discounts at some ECAs.

> Each Contractor must fully comply with the DoD requirement to implement PKI in order for our information systems to remain secure and viable.

10. Add: Paragraph (w), PKI Certificate to access STORES:

Background

Total Order & Receipt Electronic System (STORES) is the single approved DoD food ordering system. STORES uses Electronic Data Interchange (EDI) and web-enabled applications to pass catalogs, orders and receipts among Services, contractors and DLA Troop Support. STORES consists of electronic catalogs for all

food items, and it is used to collect and manage a library of automated reports. The STORES applications are designed for UNCLASSIFIED use only. Classified information is not to be entered into these systems. In general, STORES interfaces with all service food management systems and is used by over 700 customers worldwide.

Effective October 25, 2010, a Department Of Defense (DoD) Public Key Infrastructure (PKI) Certificate is required for all DoD users from an External Certificate Authority (ECA) accessing STORES. Currently, a DoD ECA/PKI Certificate will be required for all Contractor users accessing STORES. The requirement for PKI certificates is implemented in accordance with DoD security policy promoting secure electronic transactions. STORES information will not be allowed on a public website for information assurance reasons.

The DLA Troop Support Subsistence main Electronic Catalogs have been migrated/integrated into STORES for information assurance reasons.
