52.215-6 Place of Performance (Oct 1997) FAR

(a) The offeror or respondent, in the performance of any contract resulting from this solicitation, intends, does not intend [check applicable block] to use one or more plants or facilities located at a different address from the address of the offeror or respondent as indicated in this proposal or response to request for information.

(b) If the offeror or respondent checks "intends" in paragraph (a) of this provision, it shall insert in the following spaces the required information:

L09 Reverse Auction (OCT 2016)

The Contracting Officer may utilize reverse auctioning to conduct price discussions. If the Contracting

Officer does not conduct a reverse auction, award may be made on initial offers or following discussions. If the Contracting Officer decides to use line reverse auctioning to conduct price negotiations, the Contracting Officer will notify Offerors of this decision and the following applies:

- (1) The contracting officer may use reverse auction as the pricing technique during discussions to receive the final offered prices from each offeror.
- (2) During each round of reverse auction, the system displays the lowest offer price(s) unless the auction instructions are different. All offerors and authorized auction users see the displayed lowest price(s). This disclosure is anonymous and a generic identifier displays for the offeror. Generic identifiers include designators such as "offer A" or "lowest-priced offeror." By submitting a proposal in response to the solicitation, offerors agree to participate in the reverse auction and that their prices may be disclosed, including to other offerors, during the reverse auction.
- (3) An offeror's final auction price at the close of the reverse auction is considered its final price proposal revision. No price revisions will be accepted after the close of the reverse auction, unless the contracting officer decides that further discussions are needed and final price proposal revisions are again requested in accordance with Federal Acquisition Regulation (FAR) 15.307, or the contracting officer determines that it would be in the best interest of the Government to re-open the auction.
- (4) The contracting officer identifies participants to the DLA commercial reverse auction service provider. To be eligible for award and participate, the offeror must agree with terms and conditions of the entire solicitation and the commercial reverse auction service. The reverse auction pricing tool system administrator sends auction information in an email. The reverse auction system designates offers as "lead," meaning the current low price in that auction, or "not lead," meaning not the current low price in that auction. In the event of a tie offer, the reverse auction provider's system designates the first offer of that price as "lead" and the second or subsequent offer of that price as "not lead." If a tie offer is submitted and no evaluation factors other than price were identified in the solicitation or a low-price technically acceptable source selection is being used, the "Not Lead" offeror that submitted the tie offer must offer a changed price; otherwise its offer will be ineligible for award. If evaluation factors in addition to price were listed in the solicitation and a tradeoff source selection is being used, tie offers that are "Not Lead" will be considered and evaluated.
- (5) Offerors unable to enter pricing through the commercial reverse auction service provider's system during a reverse auction must notify the contracting officer or designated representative immediately. The contracting officer may, at their sole discretion, extend or re-open the reverse auction if the reason for the offeror's inability to enter pricing is determined to be without fault on the part of the offeror and outside the offeror's control.
- (6) Training. The commercial reverse auction service provider or government representative conducts training for offerors. Offerors receive training through written material, the commercial reverse auction service provider's website, or other means. Trainers name employees successfully completing the training as a "Trained Offeror." Only trained offerors may engage in a reverse auction. The contracting officer reserves the right to remove the "trained offeror" title from anyone who fails to obey the solicitation or commercial reverse auction service provider terms and conditions.

Inspection and acceptance of products will be performed at destination. However, when an applicable medical inspection authority is present, a decision to reject product rests with the medical authority under the following conditions:

- (1) Unsanitary conveyances - gross filth, pesticide spillages, mold, etc.
- (2) Improper temperatures of potentially hazardous foods.
- (3) Unapproved sources (those not previously assessed; passed their required response time; or those deemed an unacceptable risk).
- (4) Contamination (intentional or unintentional).
- (5) Unwholesomeness.
- (6) Off-condition or damaged.
- (7) Stored product pests (insect infestation, rodent or animal damage).
- (8) Food defense concerns

2. Paragraph (c), Changes, is deleted in its entirety and replaced with the following:

(c) Changes.

(2) The Contracting Officer may at any time, by unilateral written order, make changes within the general scope of this contract in any one or more of the following:

- (i) method of shipment or packing;
- (ii) place, manner, or time of delivery.

(3) If such change causes an increase or decrease in the cost of, or time required for, performance for any part of the work under this contract, the Contracting Officer may make equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(4) The Contractor must assert its right to an adjustment under this clause within thirty (30) days from the date of receipt of the written order. However, if the Contracting Officer decides that the facts justify it, the Contracting Officer may receive and act upon a proposal submitted before final payment of the contract.

3. Paragraph (g), Invoice, is revised to add the following:

(3) Each delivery will be accompanied by the Contractor's delivery ticket/invoice. Three (3) copies (an original plus two) shall accompany the shipment. The customer shall sign all copies of the delivery ticket/invoice, keep one (1) copy and return original copy to the vendor. Any changes must be made on the face of the invoice; attachments are not acceptable.

(4) All invoicing for payment is to be filed electronically using EDI transaction set 810 (See Subsistence Total Order and Receipt Electronic System (STORES) EDI Information). No paper invoices shall be submitted to DFAS for payment. All invoices submitted by the Contractor must be "clean," i.e. all debits and/or credits must be reflected on the invoice prior to submission. Electronic invoices should be filed promptly (i.e. once all credits and/or credit adjustments are made) and in any case, in fewer than 30 days after delivery.

(5) Invoice transactions may be submitted to DLA TROOP SUPPORT daily; however, it cannot be stressed enough that all internal debit/credit transactions must be completed prior to the submission of the invoice. Invoice

lines that do not contain the correct invoice data and/or contain incorrect quantities delivered or prices charged will be rejected. The vendor will be responsible for correction and re-submission.

(6) The same invoice cannot be submitted with different dollar amounts.

(7) For catch weight items, standard rounding methods must be observed, i.e. < 5: rounded down; = 5 or > 5: rounded up. All weights must be rounded to whole pounds using standard rounding methods. Any line submitted for other than whole numbers will be rejected and require correction and re-submission by the vendor.

(8) Unit prices and extended prices must be formatted not more than two (2) decimal places to the right of the decimal point. Subsistence Total Order and Receipt Electronic System (STORES) will not accommodate positions of 3 and above beyond the decimal point.

(9) The following address must appear in the "Bill To" or "Payment Will Be Made By" block of the Contractor's invoice:

DFAS - Columbus Center
Attn: DFAS - CO-SEPS
P.O. BOX 182317
COLUMBUS, OH 43218-6260

(10) Each invoice shall contain sufficient data for billing purposes. This includes, but is not limited to:

It is the responsibility of the Contractor to adjust as necessary and communicate with the customer or DLA TROOP SUPPORT as needed, in order to resolve any/all discrepancies. In the event of an unresolved payment discrepancy, the vendor must present a signed delivery ticket/invoice.

4. Paragraph (i), Payment, is revised to add the following:

(7) DFAS Columbus Center is the payment office for this acquisition.

(8) All 810 electronic invoices must be submitted with accurate, sufficient, clean data before any payment can be made.

(9) All offerors must have the ability to accept an 820 transaction set from its financial institution. DFAS Columbus will no longer forward a detailed summary of payment(s); this information will only be available from your bank.

(10) Vendor Reconciliation (RECON) Tool: In an effort to improve the payment process, vendors will have availability to view what the customer has or has not receipted, via STORES RECON Tool, https://www.stores.dla.mil/stores_web. The Contractor will have access to "unreconciled" information, i.e. the invoice does not match the receipt because of a quantity or price discrepancy, or because the customer has not posted a receipt. Both invoice information and receipt information will be available for review on the RECON tool by the Contractor. While the vendor will not have the capability to update customer receipt

information, update capability will be available for unreconciled invoice information for approximately 30 days.

(11) The Government intends to make payments under the resultant contract by electronic funds transfer (EFT). Reference Clause 52.232-33, "Mandatory Information for Electronic Funds Transfer Payment" appearing in the section of this solicitation entitled "Statement of Work." However, the election as to whether to make payment by check or electronic funds transfer is at the option of the Government.

In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If this contract is terminated in whole or in part for cause, and the supplies or services covered by the contract so terminated are repurchased by the Government, the Government will incur administrative costs in such repurchases. The Contractor and the Government expressly agree that, in addition to any excess costs of repurchase, or any other damages resulting from such default, the Contractor shall pay, and the Government shall accept, the sum of \$1350.00 as payment in full for the administrative costs of such repurchase. This assessment of damages for administrative costs shall apply for any termination for cause following which the Government repurchases the terminated supplies or services together with any incidental or consequential damages incurred because of the termination. If it is determined that the Government improperly terminated this contract for cause, such termination shall be deemed a termination for convenience.

6. Paragraph (o), Warranty, is revised to add the following:

 - (vi) Name and phone number of responsible person (Recall Coordinator)
- (3) The Contractor shall provide a Final Status Report of Recall, when completed, to the DLA TROOP SUPPORT Consumer Safety Officer."

(3) The supplies furnished under the resultant contract(s) shall be covered by the most favorable commercial warranties that the Contractor gives to any customer. The supplies and the rights and remedies provided therein are in addition to, and do not limit, any rights afforded to the Government by Clause 52.212-4(o) "Warranty," "Contract Terms and Conditions-Commercial Items" and any addendum contained in the solicitation.

7. Paragraph (s), Order of precedence, is revised to add the following:

9. Add: Paragraph (w), Contractor Performance Assessment Reporting System (CPARS):

(1) Background

(i) Contractor Performance Assessment Reporting System (CPARS) is now hosting web-enabled applications that are used to collect and manage a library of automated Contractor performance evaluations that are completed in accordance with FAR Parts 36 and 42. FAR Part 36 identifies the requirements for documenting Contractor performance for architect-engineer and construction contracts while FAR Part 42 identifies requirements for documenting Contractor performance for systems and non-systems acquisitions. The CPARS applications are designed for UNCLASSIFIED use only. Classified information is not to be entered into these systems. In general, Contractor performance assessments or evaluations provide a record, both positive and negative, for a given contract during a specified period of time. When evaluating Contractor performance each assessment or evaluation is based on objective facts and is supported by program and contract management data, such as cost performance reports, customer comments, quality reviews, technical interchange meetings, financial solvency assessments, construction/production management reviews, Contractor operations reviews, functional performance evaluations, and earned contract incentives.

(ii) Effective October 1, 2006, a Department of Defense (DoD) Public Key Infrastructure (PKI) Certificate will be required for all DoD users accessing CPARS. Effective November 1, 2006, a DoD PKI Certificate will be required for all Contractor users accessing CPARS. The requirement for PKI certificates is

implemented in accordance with DoD security policy promoting secure electronic transactions.

(2) Obtaining a PKI certificate

(i) Contractors who do not work at a Department of Defense facility may purchase a DoD PKI certificate from one of three External Certificate Authorities (ECAs). The ECAs are vendors who provide digital certificates to DoD's industry partners who are using their own equipment or working in non-government facilities. A list of ECAs is available at <http://iase.disa.mil/pki/eca/certificate.html>. Each Contractor employee accessing CPARS will need an Identity Certificate (An Encryption Certificate is not required). Certificate prices range in from \$99 - \$115 per certificate per year, with volume discounts at some ECAs.

Each Contractor must fully comply with the DoD requirement to implement PKI in order for our information systems to remain secure and viable.

10. Add: Paragraph (x), PKI Certificate to access STORES:

(1) Background

(2)

(i) Total Order & Receipt Electronic System (STORES) is the single approved DoD food ordering system. STORES uses Electronic Data Interchange (EDI) and web-enabled applications to pass catalogs, orders and receipts among Services, vendors and DLA Troop Support. STORES consists of electronic catalogs for all food items, and it is used to collect and manage a library of automated reports. The STORES applications are designed for UNCLASSIFIED use only. Classified information is not to be entered into these systems. In general, STORES interfaces with all service food management systems and is used by over 700 customers worldwide.

(ii) Effective October 25, 2010, a Department Of Defense (DoD) Public Key Infrastructure (PKI) Certificate is required for all DoD users from an External Certificate Authority (ECA) accessing STORES. Currently, a DoD ECA/PKI Certificate will be required for all Contractor users accessing STORES. The requirement for PKI certificates is implemented in accordance with DoD security policy promoting secure electronic transactions. STORES information will not be allowed on a public website for information assurance reasons.

The DLA Troop Support Subsistence main Electronic Catalogs have been migrated/integrated into STORES for information assurance reasons.

Section II - Questions and Answers

The Answers in Section II are provided for clarification purposes only and do not change the solicitation requirements. In the event of any discrepancy between the Answers provided in Section II and the solicitation documents, the solicitation documents will take precedence.

The Answers included in this Section are in response to relevant Questions submitted regarding this solicitation. Please note, some Questions may have been consolidated for convenience and/or revised to remove sensitive, misleading, irrelevant or extraneous information.

1. Reference: San Antonio Amendment 0007, page14, Question 26 was previously answered with the following:

"Any offered rebates, discounts, deviation must be effective during the ordering period of the contract in order to be evaluated."

1a. Question: Please clarify. Does this mean that the rebates, discounts, deviation must be effective for the entire duration of the base term period and all subsequent option periods? This is problematic as it is highly unlikely a supplier would extend a significant allowance for up to 5 years. (Even NAPA's can be, and are, modified on a monthly basis. What is an important evaluative metric is the combined return to net of the duration of the allowance effective period and the normal AP cost (delivered price).

Answer: Rebates/discounts/deviations are not required to be effective for the entire duration of the base term period and all subsequent option periods. As previously stated, in order to be considered for proposal evaluation purposes, rebates/discounts/deviations must be valid during the performance period of the contract. A rebate/discount/deviation will be considered in the evaluation only for the number of days that the rebate/discount/deviation is valid. See subsection Q. of the "Item Information Tab" which requires the Offeror to fill in the number of days the rebate/discount/deviation is valid.

2. Reference: San Antonio Amendment 0007, pages 21- 23, Question 60 and Questions 61 (a) - (e) and the answers provided by DLA addressed the requirement for "providing the source of manufacturing/processing on shipment documentation." Specifically paragraph H, "Any product that is not labeled with the name and address of the manufacturing establishment must include accompanying shipment documentation that identifies the name and address of the actual manufacturer "

2a Question: This is not feasible in commercial practice (waiver notwithstanding) and is not necessary for recall/traceability, given modern methods of identifying recalled product that may have been delivered to a customer. This has not been a problem in the past; technological advance, system processes and manufacturing procedures continue to improve in this area of "traceability." This requirement adds undue complexity to the supply chain. A solution to this requirement is unavailable today and any future solution will involve substantial research, programming and, ultimately - cost.

Please consider revising the language to accommodate what is practicable in today's world - any offeror should describe their recall and traceability system in detail and acceptability of such must be determined by the Contracting Officer.

Answer: Changes to II. PACKAGING AND LABELING/MARKING, paragraph H and Sanitary Conditions, paragraph (4) have been updated in this amendment (see above change). A listing of manufacturers must be provided in advance to the Contracting Officer in lieu of providing with the shipping document.

3. Question:

Further define unauthorized personnel as it relates to contractor and/or other. Does this include SPV subcontractors that have signed a non-disclosure agreement?

Answer: If the SPV desires to have subcontractors privy to their Food Defense Plans, it should be addressed in their plans the circumstances of why/how they are granted access. To clarify, the non-disclosure agreements are for general knowledge of what may take place at a contractor's facility, not for access to a contractor's food defense strategy.

4. Question:

Amendment 0007 (San Antonio), Page 2 states the following:

SECTION I - Solicitation Amendment

1. SA solicitation, page 4, number 4 is deleted and replaced with the following:

Prepare and return 3 copies of the Non-Price Proposal (1 printed copy and 1 CD that contains both documents, a locked PDF file and an editable Microsoft Word file).

Knowing the sensitive/highly confidential nature and need to maintain the integrity of the Food Defense Plan, we request this document be only submitted in a locked PDF format in lieu of a locked PDF file and an editable Microsoft Word file?

Answer: The Food Defense Plan does not have to be submitted in an editable Microsoft Word file, language has been updated via this amendment.

5. Question:

Amendment 0007 San Antonio, Page 2 states the following:

II. PACKAGING AND LABELING/MARKING

C. All ground beef items are required to have the fat/lean ratio declared on the label (for example, 85% lean, 90% lean). Any ground beef product not declaring the fat/lean ratio will not be acceptable.

The above states all ground beef product and does not differentiate between raw, parcooked, or pre-cooked/fully cooked ground beef products. The declaration of fat/lean ratio is the commercial industry standard for raw ground beef, not par-cooked or precooked/fully cooked ground beef products. Please verify this statement is only referenced for raw ground beef products.

Answer: That requirement is for raw product only, language to paragraph C has been updated in this amendment, see above.

6. Question:

Amendment 0007 San Antonio, page 6 states, in part, the following:

SA solicitation, page 33 - 34, IV. QUALITY ASSURANCE, 9. PRIME VENDOR

QUALITY SYSTEMS MANAGEMENT VISITS AND AUDITS, paragraph B. 1. Basic

Audits, subparagraphs a. and c., delete and replace with the following:

c. The Contractor will undergo an audit at least once per contract period. The audits are conducted as a product cutting. The cost of one Food Audit is estimated at \$11,000.00 (for product cost only). The Contractor will provide samples of catalog items chosen by the government at a cost of up to \$11,000.00 per audit. In addition to this amount, if a Produce Quality Audit is performed the Contractor will also provide produce sample items at a cost of up to \$1,500. The Contractor is required to provide the following support to the DLA Troop Support Audit Team: personnel and equipment to select, separate, move, and discard audit samples and to monitor thawing of some products before and during the audit. The Contractor is hereby notified that the DLA Troop

Support Audit Team may take digital pictures during the audit. Referencing the statement concerning digital pictures, will this be limited to only the area that products are prepared (kitchen) and presented (meeting area)? No cameras or photographs are allowed within the warehouse areas of our facility.

Answer: The pictures, if taken, will be of the products NOT the facility. Photos may be taken of the products case labels, contents while inside the case, and when taken outside of the case. In addition, there may be pictures taken during the audit of the auditors in action.

7. Reference: Amendment 0007 San Antonio, page 11 states the following:
Section II - Questions and Answers

1. Question: Define the NAPA timeframe.

Answer: NAPA prices have been included on the revised pricing spreadsheet for the month of February 2017.

7a. Question: With NAPA allowances being an integral part of the solicitation market basket pricing, will the February 2017 NAPA allowances be required to be in place the first shipping week (regardless if the NAPA allowance still exists), or the most current NAPA allowances at the time of the first shipping week?

Answer: For post award administrative purposes, the NAPA allowances in effect at the time the first catalog is created will be used to establish contract pricing.

7b. Question:

After the initial shipping period and once a manufacturer/grower/SPV discount/rebate/deviation expires, will this generate an automatic price increase to DLA Troop Support on the weekly SPV catalog submission?

Answer: All weekly price updates are reviewed in accordance with Clause 52.216-9064 Economic Price Adjustment (EPA) - Actual Material Costs For Subsistence Delivered Price Business Model - DLA Troop Support Subsistence Prime Vendor (SPV) Contiguous United States (Conus), Alaska, And Hawaii (Apr 2014).

7c. Question: Will this trigger a F&R evaluation for this/these prices increasing?

Answer: All weekly price updates are reviewed in accordance with DLAD Clause 52.216-9064 Economic Price Adjustment (EPA) - Actual Material Costs For Subsistence Delivered Price Business Model - DLA Troop Support Subsistence Prime Vendor (SPV) Contiguous United States (Conus), Alaska, And Hawaii (Apr 2014).

Please explain how DLA Troop Support will flag these items as to not trigger an automatic price increase.

7d. Answer: We will not flag these items. All weekly price updates are reviewed in accordance with DLAD Clause 52.216-9064 Economic Price Adjustment (EPA) - Actual Material Costs For Subsistence Delivered Price Business Model - DLA Troop Support Subsistence Prime Vendor (SPV) Contiguous United States (Conus), Alaska, And Hawaii (Apr 2014).

8. Question: : With the extension of the closing date, does the vendor have to go out and get updated quotes?

Answer:

For purposes of ensuring offered prices submitted using the DLA Troop Support Quote Sheet remain valid, language has been revised to read, "must be within 75 days prior to the closing date of the solicitation" via this amendment.
