The voluntary recall was initiated immediately upon learning that our peanut butter supplier, Sunland, Inc., has recalled product produced from May 1st, 2012 - September 24th, 2012. Sunland has stated that twenty-nine people have reported Salmonella Bredeney PFGE matching illnesses in approximately 18 states. Salmonella is an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with Salmonella often experience fever, diarrhea (which may be bloody), nausea, vomiting and abdominal pain. In rare circumstances, infection with Salmonella can result in the organism getting into the bloodstream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

Chattanooga Bakery's Peanut Butter Crunch products (9.6 ounce multipack and 2.4 ounce twin pack) have not been associated with any of the reported illnesses.
