b. Allied Communications Publication 121, US SUPP-1 (f).

2. BACKGROUND:

Sprouters Northwest of Kent, Washington is recalling 1953 pounds of alfalfa, clover, brocco sandwich sprouts, and spicy sprouts due to the potential contamination with *Listeria monocytogenes*, an organism which can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, listeria infection can cause miscarriages and stillbirths among pregnant women.

Products were distributed from 1/10/13 to 1/18/13 in Washington, Oregon, Alaska, and British Columbia, Canada through retail stores and food service distribution chain.

The problem was identified through a surveillance sampling and two samples collected at retail locations were tested positive for *Listeria monocytogenes* by the Washington State Department of Agriculture (WSDA).

The firm is working with WSDA and the Food & Drug Administration on this recall.

Consumers should not consume the recalled sprouts products and are advised to return them to the place of purchase for a full refund. Consumers with questions may contact the company at 1-253-872-0577 from 7AM to 2PM PST.
